For training our artillery units, special localities such as Valdahon, Coetquidan, Meucon, and Souge had to be sought, and the instruction was usually carried on in conjunction with French artillery, followed up later, as far as possible, with field practice in co-operation with our own infantry.

23. The long period of trench warfare had so impressed itself upon the French and British that they had almost entirely dispensed with training for open warfare. It was to avoid this result in our army and to encourage the offensive spirit that the following was published in October, 1917:

"1. * * * (a) The above methods to be employed must remain or become distinctly our own.

"(b) All instruction must contemplate the assumption of a vigorous offensive. This purpose will be emphasized in every phase of training until it becomes a settled habit of thought.

"(c) The general principles governing combat remain unchanged in their essence. This war has developed special features which involve special phases of training, but the fundamental ideas enunciated in our drill regulations, small arms firing manual, field service regulations, and other service manuals remain the guide for both officers and soldiers and constitute the standard by which their efficiency is to be measured, except as modified in detail by instructions from these headquarters.

"(d) The rifle and the bayonet are the principal weapons of the infantry soldier. He will be trained to a high degree of skill as a marksman, both on the target range and in field firing. An aggressive spirit must be developed until the soldier feels himself, as a bayonet fighter, invincible in battle.

"(e) All officers and soldiers should realize that at no time in our history has discipline been so important; therefore, discipline of the highest order must be exacted at all times. The standards for the American army will be those of West Point. The rigid attention, upright bearing, attention to detail, uncomplaining obedience to instructions required of the cadet will be required of every officer and soldier of our armies in France. * * *"

Recommendations were cabled to Washington emphasizing the importance of target practice and musketry training, and recommending that instruction in open warfare be made the mission of troops in the United States, while the training in trench warfare so far as necessary be conducted in France. Succeeding divisions, whether serving temporarily with the British or French, were trained as thus indicated. The assistance of the French units was limited to demonstrations, and, in the beginning, French instructors taught the use of French arms and assisted in the preparation of elementary trench warfare problems.

Assuming that divisions would arrive with their basic training completed in the United States, one month was allotted for the instruction of small units from battalions down, second month of experience in quiet sectors by battalions, and a third month for field practice in open warfare tactics by division, including artillery. Unfortunately many divisions did not receive the requisite amount of systematic training before leaving the states and complete preparation of such units for battle was thus often seriously delayed.

24. The system of training profoundly influenced the combat efficiency of our troops by its determined insistence upon an offensive doctrine and upon training in warfare of movement. Instruction, which had hitherto been haphazard, varying with the ideas and conceptions of inexperienced commanding officers and indifferent instructors, was brought under

a system based on correct principles. Approved and systematic methods were maintained and enforced largely by the continual presence of members of the training section with the troops both during the training period and in campaign.

Intelligence.

25. Before our entry into the war, European experience had shown that military operations can be carried out successfully and without unnecessary loss only in the light of complete and reliable information of the enemy. Warfare with battle lines separated only by short distances made possible the early acquirement of information, such as that obtained through airplane photography, observation from balloons and planes, sensitive instruments for detecting gun positions and raids to secure prisoners and documents. All such information, together with that from allied sources, including military, political, and economic, was collected, classified, and rapidly distributed where needed.

26. From careful studies of the systems and actual participation by our officers in methods in use at various allied headquarters, an intelligence service was evolved in our forces which operated successfully from its first organization in August, 1917.

With us the simpler methods, such as observation from the air and ground and the exploitation of prisoners and documents, have proved more effective than the less direct means. Every unit from the battalion up had an intelligence detachment, but only in divisions and larger organizations did the intelligence agencies embrace all available means and sources, including radio interception stations and sound and flash-ranging detachments.

27. The subjects studied by the intelligence section embraced the location of the enemy s front line, his order of battle, the history and fighting value of his divisions, his man power, his combat activities, circulation and movement, his defensive organizations, supply, construction and materiel, air service, radio service, strategy and tactics, and what he probably knew of our intentions. The political and economic conditions within the enemies' countries were also of extreme importance.

28. To disseminate conclusions, daily publications were necessary, such as a secret summary of intelligence containing information of the broadest scope, which concerned only general headquarters; and a summary of information, distributed down to include the divisions, giving information affecting the western front. A press review and a summary of air intelligence were also published.

Maps showing graphically the disposition and movement of enemy troops in our front were the best means for distributing information to our troops. At the base printing plant and at general headquarters base maps were prepared while mobile printing plants, mounted on trucks, accompanied corps and army headquarters. Combat troops were thus supplied with excellent maps distributed, just before and during an attack, down to include company and platoon commanders. Between July 1 and Nov. 11, 1918, over 5,000,000 maps were used.

29. The secret service, espionage and counterespionage was organized in close co-operation with the French and British. To prevent indiscretions in the letters of officers and soldiers, as well as in articles written for the press, the censorship division was created. The base censor examined individual letters when the writer so desired, censored all mail written in foreign languages, of which there were over fifty used, and frequently checked up letters of entire organizations.

30. The policy of press censorship adopted aimed to accomplish three broad results:

To prevent the enemy from obtaining important information of our forces

To give to the people of the United States the maximum information consistent with the limitations imposed by the first object.

To cause to be presented to the American people the facts as they were known at the time.

There were with our forces thirty-six regularly accredited correspondents, while visiting correspondents reached a total of 411.

Summer of 1917 to Spring of 1918.

31. In order to hinder the enemy's conquest of Russia and, if possible, prevent a German attack on Italy, or in the near east, the allies sought to maintain the offensive on the western front as far as their diminished strength and morale would permit. On June 7, 1917, the British took Messines, while a succession of operations known as the third battle of Ypres began on July 31 and terminated with the capture of the Passchendaele ridge Nov. 6-10. The British attack at Cambrai is of special interest, since it was here that American troops (11th engineers) first participated in active fighting.

The French successfully attacked on a limited front near Verdun, capturing Mort Homme on Aug. 20 and advancing their lines to La Forge brook. In another offensive, begun on Oct. 23, they gained considerable ground on Chemin des Dames ridge. These French attacks were characterized by most careful preparation to insure success in order to improve the morale of their troops.

32. Notwithstanding these allied attacks on the western front, the immense gains by the German armies in the east, culminating at Riga on Sept. 3, precipitated the collapse of Russia. The following month the Austrians with German assistance surprised the Italians and broke through the lines at Caporetto, driving the Italian armies back to the Piave river, inflicting a loss of 300,000 men, 600,000 rifles, 3,000 guns, and enormous stores. This serious crisis compelled the withdrawal of ten French and British divisions from the western front to Italy. The German situation on all other theaters was so favorable that as early as November they began the movement of divisions toward the western front. If needed, her divisions could be withdrawn from the Italian front before the French and British dared recall their divisions.

33. At first the allies could hardly hope for a large American army. Marshal Joffre during his visit to America had made special request that a combat division be sent at once to Europe as visual evidence of our purpose to participate actively in the war, and also asked for engineer regiments and other special service units.

The arrival of the 1st division and the parade of certain of its elements in Paris on July 4 caused great enthusiasm and for the time being the French morale was stimulated. Still allied apprehension was deep-seated and material assistance was imperative. The following extract is quoted from the cabled summary of an allied conference held on July 26 with the French and Italian commanders-in-chief and the British and French chiefs of staff:

"General conclusions reached were necessity for adoption of purely defensive attitude on all secondary fronts and withdrawing surplus troops for duty on western front. By thus strengthening western front believed allies could hold until American forces arrive in numbers sufficient to gain ascendancy"

The conference urged the immediate study

of the tonnage situation with a view to accelerating the arrival of American troops With the approach of winter, depression among the allies over the Russian collapse and the Italian crisis was intensified by the conviction that the Germans would undertake a decisive offensive in the spring.

A review of the situation showed that with Russia out of the war the central powers would be able to release a large number of divisions for service elsewhere, and that during the spring and summer of 1918, without interfering with the status quo at Saloniki, they could concentrate on the western front a force much stronger than that of the allies. In view of this, it was represented to the war department in December as of the utmost importance that the allied preparations be expedited.

34. On Dec. 31, 1917, there were 176,665 American troops in France and but one division had appeared on the front. Disappointment at the delay of the American effort soon began to develop. French and British authorities suggested the more rapid entry of our troops into the lines and urged the amalgamation of our troops with their own, even insisting upon the curtailment of training to conform to the strict minimum of trench requirements they considered necessary.

My conclusion was that, although the morale of the German people and of the armies was better than it had been for two years, only an untoward combination of circumstances could give the enemy a decisive victory before American support as recommended could be made effective, provided the allies secured unity of action. However, a situation might arise which would necessitate the temporary use of all American troops in the units of our allies for the defensive, but nothing in the situation justified the relinquishment of our firm purpose to form our own army under our own flag.

While the Germans were practicing for open warfare and concentrating their most aggressive personnel in shock divisions, the training of the allies was still limited to trench warfare. As our troops were being trained for open warfare, there was every reason why we could not allow them to be scattered among our allies, even by divisions, much less as replacements, except by pressure of sheer necessity. Any sort of permanent amalgamation would irrevocably commit America's fortunes to the hands of the allies. Moreover it was obvious that the lack of homogeneity would render these mixed divisions difficult to maneuver and almost certain to break up under stress of defeat, with the consequent mutual recrimination. Again, there was no doubt that the realization by the German people that independent American divisions, corps, or armies were in the field with determined purpose would be a severe blow to German morale and prestige.

It was also certain that an early appearance of the larger American units on the front would be most beneficial to the morale of the allies themselves. Accordingly, the 1st division, on Jan. 19, 1918, took over a sector north of Toul; the 26th division went to Soissons front early in February; the 42d division entered the line near Luneville, Feb. 21, and the 2d division near Verdun, March 18. Meanwhile, the 1st army corps headquarters, Maj.-Gen. Hunter Liggett commanding, was organized at Neufchateau on Jan. 20 and the plan to create an independent American sector on the Lorraine front was taking shape.

This was the situation when the great German offensive was launched on March 21, 1918.

PART II.—OPERATIONS.

Expediting Shipment of Troops.

1. The war department planned as early as July, 1917, to send to France by June 15, 1918, twenty-one divisions of the then strength of 20,000 men each, together with auxiliary and replacement troops, and those needed for the line of communications, amounting to over 200,000, making a total of some 650,000 men. Beginning with October, six divisions were to be sent during that quarter, seven during the first quarter of 1918, and eight the second quarter. While these numbers fell short of my recommendation of July 6, 1917, which contemplated at least 1,000,000 men by May, 1918, it should be borne in mind that the main factor in the problem was the amount of shipping to become available for military purposes, in which must be included tonnage required to supply the allies with steel, coal, and food.

2. On Dec. 2, 1917, an estimate of the situation was cabled to the war department with the following recommendation:

"Paragraph 3. In view of these conditions, it is of the utmost importance to the allied cause that we move swiftly. The minimum number of troops we should plan to have in France by the end of June is four army corps of twenty-four divisions in addition to troops for service of the rear. Have impressed the present urgency upon Gen. Bliss and other American members of the conference. Generals Robertson, Foch and Bliss agree with me that this is the minumum that should be aimed at. This figure is given as the lowest we should think of and is placed no higher because the limit of available transportation would not seem to warrant it.

"Paragraph 4. A study of transportation facilities shows sufficient American tonnage to bring over this number of troops, but to do so there must be a reduction in the tonnage allotted to other than army needs. It is estimated that the shipping needed will have to be rapidly increased up to 2,000,000 tons by May, in addition to the amount already allotted. The use of shipping for commercial purposes must be curtailed as much as possible. The allies are very weak and we must come to their relief this year, 1918. The year after may be too late. It is very doubtful if they can hold on until 1919 unless we give them a lot of support this year. It is therefore strongly recommended that a complete readjustment of transportation be made and that the needs of the war department as set forth above be regarded as immediate. Further details of these requirements will be sent later."

And again on Dec. 20, 1917:

"Understood here that a shipping program based on tonnage in sight prepared in war college division in September contemplated that entire 1st corps with its corps troops and some 32,000 auxiliaries were to have been shipped by end of November, and that an additional program for December, January and February contemplates that the shipment of the second corps with its corps troops and other auxiliaries should be practically completed by the end of February. Should such a program be carried out as per schedule and should shipments continue at corresponding rate, it would not succeed in placing even three complete corps, with proper proportion of army troops and auxiliaries, in France by end of May. The actual facts are that shipments are not even keeping up to that schedule. It is now the middle of December and the first corps is still incomplete by over two entire divisions, the 1st, 42d, 2d and 26th divisions have arrived; but not the replacement and the depot divisions, and many corps troops. It

cannot be too emphatically declared that we should be prepared to take the field with at least four corps by June 30. In view of past performances with tonnage heretofore available such a project is impossible of fulfillment, but only by most strenuous attempts to attain such a result will we be in a position to take a proper part in operations in 1918. In view of fact that as the number of our troops here increases a correspondingly greater amount of tonnage must be provided for their supply, and also in view of the slow rate of shipment with tonnage now available, it is of the most urgent importance that more tonnage should be obtained at once as already recommended in my cables and by Gen. Bliss."

3. During January, 1918, discussions were held with the British authorities that resulted in an agreement, which became known as the six-division plan and which provided for the transportation of six entire divisions in British tonnage without interference with our own shipping program. High commanders, staff, infantry and auxiliary troops were to be given experience with British divisions, beginning with battalions, the artillery to be trained under American direction, using French materiel. It was agreed that when sufficiently trained these battalions were to be re-formed into regiments and that when the artillery was fully trained all of the units composing each division were to be united for service under their own officers. It was planned that the period of training with the British should cover about ten weeks. To supervise the administration and training of these divisions the 2d corps staff was organized Feb. 20, 1918.

In the latter part of January joint note No. 12, presented by the military representatives with the supreme war council was approved by the council. This note concluded that France would be safe during 1918 only under certain conditions, namely:

"(a) That the strength of the British and French troops in France are continuously kept up to their present total strength and that they receive the expected re-enforcements of not less than two American divisions per month."

The German Offensives of 1918 and Related Allied Agreements.

4. The first German offensive of 1918, beginning March 21, overran all resistance during the initial period of the attack. Within eight days the enemy had completely crossed the old Somme battlefield and had swept everything before him to a depth of some fifty-six kilometers. For a few days the loss of the railroad center of Amiens appeared imminent. The offensive made such inroads upon French and British reserves that defeat stared them in the face unless the new American troops should prove more immediately available than even the most optimistic had dared to hope. On March 27 the military representatives with the supreme war council prepared their joint note No. 18. This note repeated the previously quoted statement from joint note No. 12, and continued:

"The battle which is developing at the present moment in France, and which can extend to the other theaters of operations, may very quickly place the allied armies in a serious situation from the point of view of effectives, and the military representatives are from this moment of opinion that the above detailed condition (see (a) par. 3) can no longer be maintained, and they consider as a general proposition that the new situation requires new decisions.

"The military representatives are of opinion that it is highly desirable that the American government should assist the allied armies as soon as possible by permitting in principle the temporary service of American units in allied army corps and divisions. Such re-enforcements must, however, be obtained from other units than those American divisions which are now operating with the French, and the units so temporarily employed must eventually be returned to the American army.

"The military representatives are of the opinion that from the present time, in execution of the foregoing, and until otherwise directed by the supreme war council, only American infantry and machine-gun units, organized as that government may decide, be brought to France, and that all agreements or conventions hitherto made in conflict with this decision be modified accordingly."

The secretary of war, who was in France at this time, Gen. Bliss, the American military representative with the supreme war council, and I at once conferred on the terms of this note, with the result that the secretary recommended to the president that joint note No. 18 be approved in the following sense:

"The purpose of the American government is to render the fullest co-operation and aid, and therefore the recommendation of the military representatives with regard to the preferential transportation of American infantry and machine gun units in the present emergency approved. Such units, when transported, will be under the direction of the commander in chief of the American expeditionary forces, and will be assigned for training and use by him in his discretion. He will use these and all other military forces of the United States under his command in such manner as to render the greatest military assistance, keeping in mind always the determination of this government to have its various military forces collected, as speedily as their training and the military situation permits, into an independent American army, acting in concert with the armies of Great Britain and France, and all arrangements made by him for their temporary training and service will be made with that end in view."

While note No. 18 was general in its terms, the priority of shipments of infantry more especially pertained to those divisions that were to be trained in the British area, as that government was to provide the additional shipping according to the six division plan agreed upon even before the beginning of the March 21 offensive.

On April 2 the war department cabled that preferential transportation would be given to American infantry and machine gun units during the existing emergency. Preliminary arrangements were made for training and early employment with the French of such infantry units as might be sent over by our own transportation. As for the British agreement, the six division plan was to be modified to give priority to the infantry of those divisions. However, all the allies were now urging the indefinite continuation of priority for the shipment of infantry and its complete incorporation in their units, which fact was cabled to the war department on April 3, with the specific recommendation that the total immediate priority of infantry be limited to four divisions, plus 45,500 replacements, and that the necessity for future priority be determined later.

5. The secretary of war and I held a conference with British authorities on April 7, during which it developed that the British had erroneously assumed that the preferential shipment of infantry was to be continuous. It was agreed at this meeting that 60,000 infantry and machine gun troops, with certain auxiliary units to be brought over by British tonnage during April, should go to the British area as part of the six division plan, but that there should be a further agreement as to subsequent troops to be brought over by the British.

Consequently a readjustment of the priority schedule was undertaken on the basis of postponing "shipment of all noncombatant troops to the utmost possible to meet present situation, and at the same time not make it impossible to build up our own army."

6. The battle line in the vicinity of Amiens had hardly stabilized when, on April 9, the Germans made another successful attack against the British lines on a front of some forty kilometers in the vicinity of Armentieres and along the Lys river. As a result of its being included in a salient formed by the German advance, Passchendaele ridge, the capture of which had cost so dearly in 1917, was evacuated by the British on April 17.

The losses had been heavy and the British were unable to replace them entirely. They were, therefore, making extraordinary efforts to increase the shipping available for our troops. On April 21, I went to London to clear up certain questions concerning the rate of shipment and to reach the further agreement provided for in the April 7 conference. The result of this London agreement was cabled to Washington April 24, as follows:

"(a) That only the infantry, machine guns, engineers and signal troops of American divisions and the headquarters of divisions and brigades be sent over in British and American shipping during May for training and service with the British army in France up to six divisions and that any shipping in excess of that required for these troops be utilized to transport troops necessary to make these divisions complete. The training and service of these troops will be carried out in accordance with plans already agreed upon between Sir Douglas Haig and Gen. Pershing, with a view at an early date of building up American divisions.

"(b) That the American personnel of the artillery of these divisions and such corps troops as may be required to build up American corps organizations follow immediately thereafter, and that American artillery personnel be trained with French materiel and join its proper divisions as soon as thoroughly trained.

"(c) If, when the program outlined in paragraphs (a) and (b) is completed, the military situation makes advisable the further shipment of infantry, etc., of American divisions, then all the British and American shipping available for transport of troops shall be used for that purpose under such arrangement as will insure immediate aid to the allies, and at the same time provide at the earliest moment for bringing over American artillery and other necessary units to complete the organization of American divisions and corps. Provided that the combatant troops mentioned in (a) and (b) be followed by such service of the rear and other troops as may be considered necessary by the American commander in chief.

"(d) That it is contemplated American divisions and corps when trained and organized shall be utilized under the American commander in chief in an American group.

"(e) That the American commander in chief shall allot American troops to the French or British for training or train them with American units at his discretion, with the understanding that troops already transported by British shipping or included in the six divisions mentioned in paragraph (a) are to be trained with the British army, details as to rations, equipment and transport to be determined by special agreement."

7. At a meeting of the supreme war council held at Abbeville May 1 and 2 the entire question of the amalgamation of Americans with the French and British was reopened. An urgent appeal came from both French and Italian representatives for American replacements or units to serve with their armies. After prolonged discussion regarding this question and that of priority generally the following agreement was reached, committing the council to an independent American army and providing for the immediate shipment of certain troops:

"It is the opinion of the supreme war council that, in order to carry the war to a successful conclusion, an American army should be formed as early as possible under its own commander and under its own flag. In order to meet the present emergency it is agreed that American troops should be brought to France as rapidly as allied transportation facilities will permit, and that, as far as consistent with the necessity of building up an American army, preference will be given to infantry and machine gun units for training and service with French and British armies; with the understanding that such infantry and machine gun units are to be withdrawn and united with its own artillery and auxiliary troops in divisions and corps at the direction of the American commander in chief after consultation with the commander in chief of the allied armies in France.

"Subparagraph A. It is also agreed that during the month of May preference should be given to the transportation of infantry and machine gun units of six divisions, and that any excess tonnage shall be devoted to bringing over such other troops as may be determined by the American commander in chief.

"Subparagraph B. It is further agreed that this program shall be continued during the month of June upon condition that the British government shall furnish transportation for a minimum of 130,000 men in May and 150,000 men in June with the understanding that the first six divisions of infantry shall go to the British for training and service, and that troops sent over in June shall be allocated for training and service as the American commander in chief may determine.

"Subparagraph C. It is also further agreed that if the British government shall transport an excess of 150,000 men in June that such excess shall be infantry and machine gun units, and that early in June there shall be a new review of the situation to determine further action."

The gravity of the situation had brought the allies to a full realization of the necessity of providing all possible tonnage for the transportation of American troops. Although their views were accepted to the extent of giving a considerable priority to infantry and machine gunners, the priority agreed upon as to this class of troops was not as extensive as some of them deemed necessary, and the Abbeville conference was adjourned with the understanding that the question of further priority would be discussed at a conference to be held about the end of May.

8. The next offensive of the enemy was made between the Oise and Berry-au-Bac against the French instead of against the British, as was generally expected, and it came as a complete surprise. The initial Aisne attack, covering a front of thirty-five kilometers, met with remarkable success, as the German armies advanced no less than fifty kilometers in four days. On reaching the Marne that river was used as a defensive flank and the German advance was directed toward Paris. During the first days of June something akin to a panic seized the city and it was estimated that 1,000,000 people left during the spring of 1918.

The further conference which had been agreed upon at Abbeville was held at Versailles on June 1 and 2. The opinion of our allies as to the existing situation and the urgency of their insistence upon further pri-

crity for infantry and machine gunners are shown by the following message prepared by the prime ministers of Great Britain, France and Italy, and agreed to by Gen. Foch:

"The prime ministers of France, Italy and Great Britain, now meeting at Versailles, desire to send the following message to the president of the United States:

"'We desire to express our warmest thanks to President Wilson for the remarkable promptness with which American aid, in excess of what at one time seemed practicable, has been rendered to the allies during the last month to meet a great emergency. The crisis, however, still continues. Gen. Foch has presented to us a statement of the utmost gravity, which points out that the numerical superiority of the enemy in France, where 162 allied divisions now oppose 200 German divisions, is very heavy, and that, as there is no possibility of the British and French increasing the number of their divisions (on the contrary, they are put to extreme straits to keep them up), there is a great danger of the war's being lost unless the numerical inferiority of the allies can be remedied as rapidly as possible by the advent of American troops. He, therefore, urges with the utmost insistence that the maximum possible number of infantry and machine gunners, in which respect the shortage of men on the side of the allies is most marked, should continue to be shipped from America in the months of June and July to avert the immediate danger of an allied defeat in the present campaign owing to the allied reserves being exhausted before those of the enemy. In addition to this, and looking to the future, he represents that it is impossible to foresee ultimate victory in the war unless America is able to provide such an army as will enable the allies ultimately to establish numerical superiority. He places the total American force required for this at no less than 100 divisions, and urges the continuous raising of fresh American levies, which, in his opinion, should not be less than 300,000 a month, with a view to establishing a total American force of 100 divisions at as early a date as this can possibly be done.

"'We are satisfied that Gen. Foch, who is conducting the present campaign with consummate ability, and on whose military judgment we continue to place most absolute reliance, is not overestimating the needs of the case, and we feel confident that the government of the United States will do everything that can be done, both to meet the needs of the immediate situation and to proceed with the continuous raising of fresh levies, calculated to provide, as soon as possible, the numerical superiority which the commander in chief of the allied armies regards as essential to ultimate victory.'

"A separate telegram contains the arrangements which Gen. Foch, Gen. Pershing and Lord Milner have agreed to recommend to the United States government with regard to the dispatch of American troops for the months of June and July.

"CLEMENCEAU.
(Signed) "D. LLOYD GEORGE.
"ORLANDO."

Such extensive priority had already been given to the transport of American infantry and machine gunners that the troops of those categories which had received even partial training in the United States were practically exhausted. Moreover, the strain on our services of supply made it essential that early relief be afforded by increasing its personnel. At the same time the corresponding services of our allies had in certain departments been equally overtaxed and their responsible heads were urgent in their representations that their needs must be relieved by bringing over American specialists. The final agreement was cabled to the war department on June 5, as follows:

"The following agreement has been concluded between Gen. Foch, Lord Milner and myself with reference to the transportation of American troops in the months of June and July:

"'The following recommendations are made on the assumption that at least 250,000 men can be transported in each of the months of June and July by the employment of combined British and American tonnage. We recommend:

"'(a) For the month of June: (1) Absolute priority shall be given to the transportation of 170,000 combatant troops (viz., six divisions without artillery, ammunition trains or supply trains, amounting to 126,000 men and 44,000 replacements for combat troops); (2) 25,400 men for the service of the railways, of which 13,400 have been asked for by the French minister of transportation; (3) the balance to be troops of categories to be determined by the commander in chief, American expeditionary forces

"'(b) For the month of July: (1) Absolute priority for the shipment of 140,000 combatant troops of the nature defined above (four divisions minus artillery "et cetera" amounting to 84,000 men, plus 56,000 replacement); (2) The balance of the 250,000 to consist of troops to be designated by the commander in chief, American expeditionary forces

"'(c) It is agreed that if the available tonnage in either month allows of the transportation of a larger number of men than 250,000, the excess tonnage will be employed in the transportation of combat troops as defined above.

"'(d) We recognize that the combatant troops to be dispatched in July may have to include troops which have had insufficient training, but we consider the present emergency is such as to justify a temporary and exceptional departure by the United States from sound principles of training, especially as a similar course is being followed by France and Great Britain.

(Signed) "'FOCH
"'MILNER.
"'PERSHING.'"

9. The various proposals during these conferences regarding priority of shipment, often very insistent, raised questions that were not only most difficult but most delicate. On the one hand, there was a critical situation which must be met by immediate action, while, on the other hand, any priority accorded a particular arm necessarily postponed the formation of a distinctive American fighting force and the means to supply it. Such a force was, in my opinion, absolutely necessary to win the war. A few of the allied representatives became convinced that the American services of supply should not be neglected but should be developed in the common interest. The success of our divisions during May and June demonstrated fully that it was not necessary to draft Americans under foreign flags in order to utilize American manhood most effectively.

Allied Commander in Chief.

10. When, on March 21, 1918, the German army on the western front began its series of offensives it was by far the most formidable force the world had ever seen. In fighting men and guns it had a great superiority, but this was of less importance than the advantage in morale, in experience, in training for mobile warfare and in unity of command. Ever since the collapse of the Russian armies and the crisis on the Italian front in the fall of 1917 German armies were being assembled and trained for the great campaign which was to end the war before America's effort could

be brought to bear. Germany's best troops, her most successful generals and all the experience gained in three years of war were mobilized for the supreme effort.

The first blow fell on the right of the British armies, including the junction of the British and French forces. Only the prompt cooperation of the French and British general headquarters stemmed the tide. The reason for this objective was obvious and strikingly illustrated the necessity for having some one with sufficient authority over all the allied armies to meet such an emergency. The lack of complete co-operation among the allies on the western front had been appreciated and the question of preparation to meet a crisis had already received attention by the supreme war council. A plan had been adopted by which each of the allies would furnish a certain number of divisions for a general reserve to be under the direction of the military representatives of the supreme war council, of which Gen. Foch was then the senior member. But when the time came to meet the German offensive in March these reserves were not found available and the plan failed.

The situation resulted in a conference for the immediate consideration of the question of having an allied commander in chief. After much discussion, during which my view favoring such action was clearly stated, an agreement was reached and Gen. Foch was selected. His appointment as such was made April 3 and was approved for the United States by the president on April 16. The terms of the agreement under which Gen. Foch exercised his authority were as follows:

"Beauvais, April 3, 1918.

"Gen. Foch is charged by the British, French, and American governments with the co-ordination of the action of the allied armies on the western front; to this end there are conferred on him all the powers necessary for its effective realization. To the same end the British, French and American governments confide in Gen. Foch the strategic direction of military operations.

"The commander in chief of the British, French and American armies will exercise to the fullest extent the tactical direction of their armies. Each commander in chief will have the right to appeal to his government if in his opinion his army is placed in danger by the instructions received from Gen. Foch.

(Signed) "G. CLEMENCEAU.
"PETAIN.
"F. FOCH.
"LLOYD GEORGE.
"D. HAIG. F. M.
"HENRY WILSON, General.
"TASKER H. BLISS, Gen. and Chief of Staff.
"JOHN J. PERSHING, Gen. U. S. A."

Employment of American Divisions from March to September, 1918.

11. The grave crisis precipitated by the first German offensive caused me to make a hurried visit to Gen. Foch's headquarters, at Bombon, during which all our combatant forces were placed at his disposal. The acceptance of this offer meant the dispersion of our troops along the allied front and a consequent delay in building up a distinctive American force in Lorraine, but the serious situation of the allies demanded this divergence from our plans.

On March 21, approximately 300,000 American troops had reached France. Four combat divisions, equivalent in strength to eight French or British divisions, were available—the 1st and 2d then in line, and the 26th and 42d just withdrawn from line after one month's trench warfare training. The last two divisions at once began taking over quiet sectors to release divisions for the battle; the 26th relieved the 1st division, which was sent to northwest of Paris in reserve; the 42d relieved two French divisions from quiet sectors. In addition to these troops, one regiment of the 93d division was with the French in the Argonne, the 41st depot division was in the services of supply, and three divisions (3d, 32d and 5th) were arriving.

12. On April 25 the 1st division relieved two French divisions on the front near Montdidier and on May 28 captured the important observation stations on the heights of Cantigny with splendid dash. French artillery, aviation, tanks, and flame throwers aided in the attack, but most of this French assistance was withdrawn before the completion of the operation in order to meet the enemy's new offensive launched May 27 toward Chateau Thierry. The enemy reaction against our troops at Cantigny was extremely violent, and apparently he was determined at all costs to counteract the most excellent effect the American success had produced. For three days his guns of all calibers were concentrated on our new position and counterattack succeeded counterattack. The desperate efforts of the Germans gave the fighting at Cantigny a seeming tactical importance entirely out of proportion to the numbers involved.

13. Of the three divisions arriving in France when the first German offensive began, the 32d, intended for replacements, had been temporarily employed in the services of supply to meet a shortage of personnel, but the critical situation caused it to be reassembled and by May 21 it was entering the line in the Vosges. At this time the 5th division, though still incomplete, was also ordered into the line in the same region. The 3d division was assembling in its training area and the 3d corps staff had just been organized to administer these three divisions. In addition to the eight divisions already mentioned, the 28th and 77th had arrived in the British area, and the 4th, 27th, 30th, 33d, 35th and 82d were arriving there. Following the agreements as to British shipping, our troops came so rapidly that by the end of May we had a force of 600,000 in France.

The third German offensive on May 27, against the French on the Aisne, soon developed a desperate situation for the allies. The 2d division, then in reserve northwest of Paris and preparing to relieve the 1st division, was hastily diverted to the vicinity of Meaux on May 31, and, early on the morning of June 1, was deployed across the Chateau Thierry-Paris road near Montreuil aux-Lions in a gap in the French line, where it stopped the German advance on Paris. At the same time the partially trained 3d division was placed at French disposal to hold the crossings of the Marne, and its motorized machine gun battalion succeeded in reaching Chateau Thierry in time to assist in successfully defending that river crossing.

The enemy having been halted, the 2d division commenced a series of vigorous attacks on June 4, which resulted in the capture of Belleau woods after very severe fighting. The village of Bouresches was taken soon after, and on July 1 Vaux was captured. In these operations the 2d division met with most desperate resistance by Germany's best troops.

14. To meet the March offensive, the French had extended their front from the Oise to Amiens about sixty kilometers, and during the German drive along the Lys had also sent reenforcements to assist the British. The French lines had been further lengthened about forty-five kilometers as a result of the Marne pocket made by the Aisne offensive. This increased frontage and the heavy fighting had reduced

French reserves to an extremely low point.

Our 2d corps, under Maj-Gen. George W. Read, had been organized for the command of the ten divisions with the British, which were held back in training areas or assigned to second line defenses. After consultation with Field Marshal Haig on June 3, five American divisions were relieved from the British area to support the French. The 77th and 82d divisions were moved south to release the 42d and 26th for employment on a more active portion of the front; the 35th division entered the line in Vosges, and the 4th and 28th divisions were moved to the region of Meaux and Chateau Thierry as reserves.

On June 9 the Germans attacked the Montdidier-Noyon front in an effort to widen the Marne pocket and bring their lines nearer to Paris, but were stubbornly held by the French with comparatively little loss of ground. In view of the unexpected results of the three preceding attacks by the enemy, this successful defense proved beneficial to the allied morale, particularly as it was believed that the German losses were unusually heavy.

15. On July 15, the date of the last German offensive, the 1st, 2d, 3d and 26th divisions were on the Chateau Thierry front with the 4th and 28th in support, some small units of the last two divisions gaining front line experience with our troops or with the French; the 42d division was in support of the French east of Reims; and four colored regiments were with the French in the Argonne. On the Alsace-Lorraine front we had five divisions in line with the French. Five were with the British army, three having elements in the line. In our training areas four divisions were assembled and four were in the process of arrival.

The Marne salient was inherently weak and offered an opportunity for a counteroffensive that was obvious. If successful, such an operation would afford immediate relief to the allied defense, would remove the threat against Paris, and free the Paris-Nancy railroad. But more important than all else, it would restore the morale of the allies and remove the profound depression and fear then existing. Up to this time our units had been put in here and there at critical points as emergency troops to stop the terrific German advance. In every trial, whether on the defensive or offensive, they had proved themselves equal to any troops in Europe. As early as June 23 and again on July 10 at Bombon, I had very strongly urged that our best divisions be concentrated under American command, if possible, for use as a striking force against the Marne salient. Although the prevailing view among the allies was that American units were suitable only for the defensive, and that at all events they could be used to better advantage under allied command, the suggestion was accepted in priniciple, and my estimate of their offensive fighting qualities was soon put to the test.

The enemy had encouraged his soldiers to believe that the July 15 attack would conclude the war with a German peace. Although he made elaborate plans for the operation, he failed to conceal fully his intentions, and the front of attack was suspected at least one week ahead. On the Champagne front the actual hour for the assault was known and the enemy was checked with heavy losses. The 42d division entered the line near Somme Py immediately, and five of its infantry battalions and all its artillery became engaged. Southwest of Reims and along the Marne to the east of Chateau Thierry the Germans were at first somewhat successful, a penetration of eight kilometers beyond the river being effected against the French immediately to the right of our 3d division. The following quotation from the report of the commanding general 3d division gives the result of the fighting on his front:

"Although the rush of the German troops overwhelmed some of the front line positions, causing the infantry and machine gun companies to suffer in some cases a 50 per cent loss, no German soldier crossed the road from Fossoy to Crezancy, except as a prisoner of war, and by noon of the following day (July 16) there were no Germans in the foreground of the 3d division sector except the dead."

On this occasion a single regiment of the 3d division wrote one of the most brilliant pages in our military annals. It prevented the crossing at certain points on its front, while on either flank the Germans who had gained a footing pressed forward. Our men, firing in three directions, met the German attacks with counterattacks at critical points and succeeded in throwing two German divisions into complete confusion, capturing 600 prisoners.

16. The selection by the Germans of the Champagne sector and the eastern and southern faces of the Marne pocket on which to make their offensive was fortunate for the allies, as it favored the launching of the counterattack already planned. There were now over 1,200,000 American troops in France, which provided a considerable force of reserves. Every American division with any sort of training was made available for use in a counteroffensive.

Gen. Petain's initial plan for the counterattack involved the entire western face of the Marne salient. The 1st and 2d American divisions, with the 1st French Moroccan division between them, were employed as the spearhead of the main attack, driving directly eastward, through the most sensitive portion of the German lines, to the heights south of Soissons. The advance began on July 18, without the usual brief warning of a preliminary bombardment, and these three divisions at a single bound broke through the enemy's infantry defenses and overran his artillery, cutting or interrupting the German communications leading into the salient. A general withdrawal from the Marne was immediately begun by the enemy, who still fought stubbornly to prevent disaster.

The 1st division, throughout four days of constant fighting, advanced eleven kilometers, capturing Berzy-le-Sec and the heights above Soissons and taking some 3,500 prisoners and sixty-eight field guns from the seven German divisions employed against it. It was relieved by a British division. The 2d division advanced eight kilometers in the first twenty-six hours, and by the end of the second day was facing Tigny, having captured 3,000 prisoners and sixty-six field guns. It was relieved the night of the 19th by a French division. The result of this counteroffensive was of decisive importance. Due to the magnificent dash and power displayed on the field of Soissons by our 1st and 2d divisions the tide of the war was definitely turned in favor of the allies.

Other American divisions participated in the Marne counteroffensive. A little to the south of the 2d division, the 4th was in line with the French and was engaged until July 22. The 1st American corps, Maj.-Gen. Hunter Liggett commanding, with the 26th division and a French division, acted as a pivot of the movement toward Soissons, capturing Torcy on the 18th and reaching the Chateau Thierry-Soissons road on the 21st. At the same time the 3d division crossed the Marne and took the heights of Mont St. Pere and the villages of Charteves and Jaulgonne.

In the 1st corps, the 42d division relieved the 26th on July 25 and extended its front, on the 26th relieving the French division. From this time until Aug. 2 it fought its way through the Foret de Fere and across the Ourcq, advancing toward the Vesle until relieved by the 4th division on Aug. 3. Early in this period elements of the 28th division participated in the advance.

Farther to the east the 3d division forced the enemy back to Roncheres wood, where it was relieved on July 30 by the 32d division from the Vosges front. The 32d, after relieving the 3d and some elements of the 28th on the line of the Ourcq river, advanced abreast of the 42d toward the Vesle. On Aug. 3 it passed under control of our 3d corps, Maj.-Gen. Robert L. Bullard commanding, which made its first appearance in battle at this time, while the 4th division took up the task of the 42d division and advanced with the 32d to the Vesle river, where, on Aug. 6, the operation for the reduction of the Marne salient terminated.

In the hard fighting from July 18 to Aug. 6 the Germans were not only halted in their advance but were driven back from the Marne to the Vesle and committed wholly to the defensive. The force of American arms had been brought to bear in time to enable the last offensive of the enemy to be crushed.

17. The 1st and 3d corps now held a continuous front of eleven kilometers along the Vesle. On Aug. 12 the 77th division relieved the 4th division on the 1st corps front, and the following day the 28th relieved the 32d division in the 3d corps, while from Aug. 6 to Aug 10 the 6th infantry brigade of the 3d division held a sector on the river line. The transfer of the 1st corps to the Woevre was ordered at this time, and the control of its front was turned over to the 3d corps.

On Aug. 18 Gen. Petain began an offensive between Reims and the Oise. Our 3d corps participated in this operation, crossing the Vesle on Sept. 4 with the 28th and 77th divisions and overcoming stubborn opposition on the plateau south of the Aisne, which was reached by the 77th on Sept. 6. The 28th was withdrawn from the line on Sept. 7. Two days later the 3d corps was transferred to the region of Verdun, the 77th division remaining in line on the Aisne river until Sept. 17.

The 32d division, upon its relief from the battle on the Vesle, joined a French corps north of Soissons and attacked from Aug. 29 to 31, capturing Juvigny after some particularly desperate fighting and reaching the Chauny-Soissons road.

18. On the British front two regiments of the 33d division participated in an attack on Hamel July 4, and again on Aug. 9 as an incident of the allied offensive against the Amiens salient. One of these regiments took Gressaire Wood and Chipilly ridge, capturing 700 prisoners and considerable materiel.

Assembling the First American Army.

19. In conference with Gen. Petain at Chantilly on May 19 it had been agreed that the American army would soon take complete charge of the sector of the Woevre. The 26th division was already in line in the Woevre north of Toul and was to be followed by other American divisions as they became available, with the understanding that the sector was to pass to our control when four divisions were in the line. But demands of the battle then going on farther west required the presence of our troops, and the agreement had no immediate result. Due to the presence of a number of our divisions northeast of Paris, the organization of an American corps sector in the Chateau Thierry region was taken up with Gen. Petain, and on July 4 the 1st corps assumed tactical control of a sector in that region. This was an important step, but it was by no means satisfactory, as only one American division at the moment was operating under the control of the 1st corps, while we had at this time eight American divisions in the front line serving in French corps.

20. The counteroffensives against the Marne salient in July and against the Amiens salient in August had gained such an advantage that it was apparent that the emergency which justified the dispersion of our divisions had passed. The moment was propitious for assembling our divisions. Scattered as they were along the allied front, their supply had become very difficult. From every point of view the immediate organization of an independent American force was indicated. The formation of the army in the Chateau Thierry region and its early transfer to the sector of the Woevre, which was to extend from Nomeny, east of the Moselle, to north of St. Mihiel, was therefore decided upon by Marshal Foch and myself on Aug. 9, and the details were arranged with Gen. Petain later on the same day.

St. Mihiel Operation.

21. At Bombon on July 24 there was a conference of all the commanders in chief for the purpose of considering allied operations. Each presented proposals for the employment of the armies under his command and these formed the basis of future co-operation of the allies. It was emphatically determined that the allied attitude should be to maintain the offensive. As the first operation of the American army, the reduction of the salient of St. Mihiel was to be undertaken as soon as the necessary troops and materiel could be made available. On account of the swampy nature of the country it was especially important that the movement be undertaken and finished before the fall rains should begin, which was usually about the middle of September.

Arrangements were concluded for successive relief of American divisions and the organization of the 1st American army under my personal command was announced on Aug. 10, with La Fertesous-Jouarre as headquarters. This army nominally assumed control of a portion of the Vesle front, although at the same time directions were given for its secret concentration in the St. Mihiel sector.

22. The force of American soldiers in France at that moment was sufficient to carry out this offensive, but they were dispersed along the front from Switzerland to the channel. The three army corps headquarters to participate in the St. Mihiel attack were the 1st, 4th and 5th. The 1st was on the Vesle, the 4th at Toul, and the 5th not yet completely organized. To assemble combat divisions and service troops and undertake a major operation, within the short period available and with staffs so recently organized, was an extremely difficult task. Our deficiencies in artillery, aviation and special troops, caused by the shipment of an undue proportion of infantry and machine guns during the summer, were largely met by the French.

23. The reduction of the St. Mihiel salient was important, as it would prevent the enemy from interrupting traffic on the Paris-Nancy railroad by artillery fire and would free the railroad leading north through St. Mihiel to Verdun. It would also provide us with an advantageous base of departure for an attack against the Metz-Sedan railroad system, which was vital to the German armies west of Verdun, and against the Briey iron basin, which was necessary for the production of German armament and munitions.

The general plan was to make simultaneous attacks against the flanks of the salient. The

ultimate objective was tentatively fixed as the general line Marieulles (east of the Moselle) —heights south of Gorze-Mars la Tour-Etain The operation contemplated the use on the western face of three or four American divisions, supported by the attack of six divisions of the 2d French army on their left, while seven American divisions would attack on the southern face, and three French divisions would press the enemy at the tip of the salient. As the part to be taken by the 2d French army would be closely related to the attack of the 1st American army, Gen. Petain placed all the French troops involved under my personal command.

By Aug. 30, the concentration of the scattered divisions, corps and army troops, of the quantities of supplies and munitions required, and the necessary construction of light railways and roads, were well under way.

24. In accordance with the previous general consideration of operations at Bombon on July 24, an allied offensive extending practically along the entire active front was eventually to be carried out. After the reduction of the St. Mihiel sector the Americans were to cooperate in the concerted effort of the allied armies. It was the sense of the conference of July 24 that the extent to which the different operations already planned might carry us could not be then foreseen, especially if the results expected were achieved before the season was far advanced. It seemed reasonable at that time to look forward to a combined offensive for the autumn, which would give no respite to the enemy and would increase our advantage for the inauguration of succeeding operations extending into 1919.

On Aug. 30 a further discussion with Marshal Foch was held at my headquarters at Ligny-en-Barrois. In view of the new successes of the French and British near Amiens and the continued favorable results toward the Chemin des Dames on the French front, it was now believed that the limited allied offensive, which was to prepare for the campaign of 1919, might be carried further before the end of the year. At this meeting it was proposed by Marshal Foch that the general operations as far as the American army was concerned should be carried out in detail by:

(a) An attack between the Meuse and the Argonne by the 2d French army, re-enforced by from four to six American divisions.

(b) A French-American attack, extending from the Argonne west to the Souain road, to be executed on the right by an American army astride the Aisne and on the left by the 4th French army.

To carry out these attacks the ten to eleven American divisions suggested for the St. Mihiel operation and the four to six for the 2d French army would leave eight to ten divisions for an American army on the Aisne. It was proposed that the St. Mihiel operation should be initiated on Sept. 10 and the other two on Sept. 15 and 20, respectively.

25. The plan suggested for the American participation in these operations was not acceptable to me because it would require the immediate separation of the recently formed first American army into several groups, mainly to assist French armies. This was directly contrary to the principle of forming a distinct American army, for which my contention had been insistent. An enormous amount of preparation had already been made in construction of roads, railroads, regulating stations, and other installations looking to the use and supply of our armies on a particular front. The inherent disinclination of our troops to serve under allied commanders would have grown and American morale would have suffered. My position was stated quite clearly that the strategical employment of the 1st army as a unit would be undertaken where desired, but its disruption to carry out these proposals would not be entertained.

A further conference at Marshal Foch's headquarters was held on Sept. 2, at which Gen. Petain was present. After discussion the question of employing the American army as a unit was conceded. The essentials of the strategical decision previously arrived at provided that the advantageous situation of the allies should be exploited to the utmost by vigorously continuing the general battle and extending it eastward to the Meuse. All the allied armies were to be employed in a converging action. The British armies, supported by the left of the French armies, were to pursue the attack in the direction of Cambrai; the center of the French armies, west of Reims, would continue the actions, already begun, to drive the enemy beyond the Aisne; and the American army, supported by the right of the French armies, would direct its attack on Sedan and Mezieres

It should be recorded that although this general offensive was fully outlined at the conference no one present expressed the opinion that the final victory could be won in 1918. In fact, it was believed by the French high command that the Meuse-Argonne attack could not be pushed much beyond Montfaucon before the arrival of winter would force a cessation of operations.

26. The choice between the two sectors, that east of the Aisne, including the Argonne forest, or the Champagne sector, was left to me. In my opinion, no other allied troops had the morale or the offensive spirit to overcome successfully the difficulties to be met in the Meuse-Argonne sector and our plans and installations had been prepared for an expansion of operations in that direction. So the Meuse-Argonne front was chosen. The entire sector of 150 kilometers of front, extending from Port-sur-Seille, east of the Moselle, west to include the Argonne forest, was accordingly placed under my command, including all French divisions then in that zone. The 1st American army was to proceed with the St. Mihiel operation, after which the operation between the Meuse and the western edge of the Argonne forest was to be prepared and launched not later than Sept. 25.

As a result of these decisions, the depth of the St. Mihiel operation was limited to the line Vigneulles-Thiaucourt-Regnieville. The number of divisions to be used was reduced and the time shortened. Eighteen to nineteen divisions were to be in the front line. There were four French and fifteen American divisions available, six of which would be in reserve, while the two flank divisions of the front line were not to advance. Furthermore, two army corps headquarters, with their corps troops, practically all the army artillery and aviation, and the 1st, 2d and 4th divisions, the first two destined to take a leading part in the St. Mihiel attack, were all due to be withdrawn and started for the Meuse-Argonne by the fourth day of the battle.

27. The salient had been held by the Germans since September, 1914. It covered the most sensitive section of the enemy's position on the western front; namely, the Mezieres-Sedan-Metz railroad and the Briey iron basin; it threatened the entire region between Verdun and Nancy, and interrupted the main rail line from Paris to the east. Its primary strength lay in the natural defensive features of the terrain itself. The western face of the salient extended along the rugged, heavily wooded eastern heights of the Meuse; the southern face followed the heights of the Meuse for eight kilometers to the east and then crossed

the plain of the Woevre, including within the German lines the detached heights of Loupmont and Montsec which dominated the plain and afforded the enemy unusual facilities for observation. The enemy had reenforced the positions by every artificial means during a period of four years.

28. On the night of Sept. 11 the troops of the 1st army were deployed in position. On the southern face of the salient was the 1st corps, Maj.-Gen. Liggett commanding, with the 82d, 90th, 5th and 2d divisions in line, extending from the Moselle westward. On its left was the 4th corps, Maj.-Gen. Joseph T. Dickman commanding, with the 89th, 42d, and 1st divisions, the left of this corps being opposite Montsec. These two army corps were to deliver the principal attack, the line pivoting on the center division of the 1st corps. The 1st division on the left of the 4th corps was charged with the double mission of covering its own flank while advancing some twenty kilometers due north toward the heart of the salient, where it was to make contact with the troops of the 5th corps. On the western face of the salient lay the 5th corps, Maj.-Gen. George H. Cameron commanding, with the 26th division, 15th French colonial division and the 4th division in line, from Mouilly west to Les Eparges and north to Watronville. Of these three divisions, the 26th alone was to make a deep advance directed southeast toward Vigneulles. The French division was to make a short progression to the edge of the heights in order to cover the left of the 26th. The 4th division was not to advance. In the center, between our 4th and 5th army corps, was the 2d French colonial corps, Maj.-Gen. E. J. Blondlat commanding, covering a front of forty kilometers with three small French divisions. These troops were to follow up the retirement of the enemy from the tip of the salient.

The French independent air force was at my disposal, which, together with the British bombing squadrons and our own air forces, gave us the largest assembly of aviation that had ever been engaged in one operation. Our heavy guns were able to reach Metz and to interfere seriously with German rail movements.

At dawn on Sept. 12, after four hours of violent artillery fire of preparation, and accompanied by small tanks, the infantry of the 1st and 4th corps advanced. The infantry of the 5th corps commenced its advance at 8 a. m. The operation was carried out with entire precision. Just after daylight on Sept. 13, elements of the 1st and 26th divisions made a junction near Hattonchatel and Vigneulles, eighteen kilometers northeast of St. Mihiel. The rapidity with which our divisions advanced overwhelmed the enemy, and all objectives were reached by the afternoon of Sept. 13. The enemy had apparently started to withdraw some of his troops from the tip of the salient on the eve of our attack, but had been unable to carry it through. We captured nearly 16,000 prisoners, 443 guns, and large stores of material and supplies. The energy and swiftness with which the operation was carried out enabled us to smother opposition to such an extent that we suffered less than 7,000 casualties during the actual period of the advance.

During the next two days the right of our line west of the Moselle river was advanced beyond the objectives laid down in the original orders. This completed the operation for the time being and the line was stabilized to be held by the smallest practicable force.

29. The material results of the victory achieved were very important. An American army was an accomplished fact, and the enemy had felt its power. No form of propaganda could overcome the depressing effect on the morale of the enemy of this demonstration of our ability to organize a large American force and drive it successfully through his defenses. It gave our troops implicit confidence in their superiority and raised their morale to the highest pitch. For the first time wire entanglements ceased to be regarded as impassable barriers and open warfare training, which had been so urgently insisted upon, proved to be the correct doctrine. Our divisions concluded the attack with such small losses and in such high spirits that without the usual rest they were immediately available for employment in heavy fighting in a new theater of operations. The strength of the 1st army in this battle totaled approximately 500,000 men, of whom about 70,000 were French.

Meuse-Argonne Operation.

30. The definite decision for the Meuse-Argonne phase of the great allied convergent attack was agreed to in my conference with Marshal Foch and Gen. Petain on Sept. 2. It was planned to use all available forces of the 1st army, including such divisions and troops as we might be able to withdraw from the St. Mihiel front. The army was to break through the enemy's successive fortified zones to include the Kriemhilde-Stellung, or Hindenburg line, on the front Brieulles-Romagne-sous-Montfaucon-Grandpre, and thereafter, by developing pressure toward Mezieres, was to insure the fall of the Hindenburg line along the Aisne river in front of the 4th French army, which was to attack to the west of the Argonne forest. A penetration of some twelve to fifteen kilometers was required to reach the Hindenburg line on our front, and the enemy's defenses were virtually continuous throughout that depth.

The Meuse-Argonne front had been practically stabilized in September, 1914, and, except for minor fluctuations during the German attacks on Verdun in 1916 and the French counteroffensive in August, 1917, remained unchanged until the American advance in 1918. The net result of the four years' struggle on this ground was a German defensive system of unusual depth and strength and a wide zone of utter devastation, itself a serious obstacle to offensive operations.

31. The strategical importance of this portion of the line was second to none on the western front. All supplies and evacuations of the German armies in northern France were dependent upon two great railway systems—one in the north, passing through Liege, while the other in the south, with lines coming from Luxemburg, Thionville and Metz, had as its vital section the line Carignan-Sedan-Mezieres. No other important lines were available to the enemy, as the mountainous masses of the Ardennes made the construction of east and west lines through that region impracticable. The Carignan-Sedan-Mezieres line was essential to the Germans for the rapid strategical movement of troops. Should this southern system be cut by the allies before the enemy could withdraw his forces through the narrow neck between Mezieres and the Dutch frontier, the ruin of his armies in France and Belgium would be complete.

From the Meuse-Argonne front the perpendicular distance to the Carignan-Mezieres railroad was fifty kilometers. This region formed the pivot of German operations in northern France, and the vital necessity of covering the great railroad line into Sedan resulted in the convergence on the Meuse-Argonne front of the successive German defensive positions. The effect of this convergence can be best understood by reference to plate No. 3. [Omitted.]

It will be seen, for example, that the distance between "no man's land" and the third German withdrawal position in the vicinity of the Meuse river was approximately eighteen kilometers, the distance between the corresponding points near the tip of the great salient of the western front was about sixty-five kilometers, and in the vicinity of Cambrai was over thirty kilometers. The effect of a penetration of eighteen kilometers by the American army would be equivalent to an advance of sixty-five kilometers farther west; furthermore, such an advance on our front was far more dangerous to the enemy than an advance elsewhere. The vital importance of this portion of his position was fully appreciated by the enemy, who had suffered tremendous losses in 1916 in attempting to improve it by the reduction of Verdun. As a consequence it had been elaborately fortified and consisted of practically a continuous series of positions twenty kilometers or more in depth.

In addition to the artificial defenses, the enemy was greatly aided by the natural features of the terrain. East of the Meuse the dominating heights not only protected his left but gave him positions from which powerful artillery could deliver an oblique fire on the western bank. Batteries located in the elaborately fortified Argonne forest covered his right flank and could cross their fire with that of the guns on the east bank of the Meuse. Midway between the Meuse and the forest the heights of Montfaucon offered perfect observation and formed a strong natural position which had been heavily fortified. The east and west ridges abutting on the Meuse and Aire river valleys afforded the enemy excellent machine gun positions for the desperate defense which the importance of the position would require him to make. North of Montfaucon densely wooded and rugged heights constituted natural features favorable to defensive fighting.

32. When the 1st army became engaged in the simultaneous preparation for two major operations, an interval of fourteen days separated the initiation of the two attacks. During this short period the movement of the immense number of troops and the amount of supplies involved in the Meuse-Argonne battle over the few roads available, and confined entirely to the hours of darkness, was one of the most delicate and difficult problems of the war. The concentration included fifteen divisions, of which seven were involved in the pending St. Mihiel drive, three were in sector in the Vosges, three in the neighborhood of Soissons, one in a training area, and one near Bar-le-Duc. Practically all the artillery, aviation and other auxiliaries to be employed in the new operations were committed to the St. Mihiel attack and therefore could not be moved until its success was assured. The concentration of all units not to be used at St. Mihiel was commenced immediately, and on Sept. 13, the second day of St. Mihiel, reserve divisions and army artillery units were withdrawn and placed in motion toward the Argonne front.

That part of the American sector from Fresnes-en-Woevre, southeast of Verdun, to the western edge of the Argonne forest, while nominally under my control, did not actively become a part of my command until Sept. 22, on which date my headquarters were established at Soully, southwest of Verdun. Of French troops, in addition to the 2d French colonial corps, composed of three divisions, there was also the 17th French corps of three divisions holding the front north and east of Verdun.

33. At the moment of the opening of the Meuse-Argonne battle, the enemy had ten divisions in line and ten in reserve on the front between Fresnes-en-Woevre and the Argonne forest, inclusive. He had undoubtedly expected a continuation of our advance toward Metz. Successful ruses were carried out between the Meuse river and Luneville to deceive him as to our intentions, and French troops were maintained as a screen along our front until the night before the battle, so that the actual attack was a tactical surprise.

34. The operations in the Meuse-Argonne battle really form a continuous whole, but tney extended over such a long period of continuous fighting that they will here be considered in three phases, the first from Sept. 26 to Oct. 3, the second from Oct. 4 to 31, and the third from Nov. 1 to 11.

Meuse-Argonne, First Phase.

35. On the night of Sept. 25 the nine divisions to lead in the attack were deployed between the Meuse river and the western edge of the Argonne forest. On the right was the 3d corps, Maj.-Gen. Bullard commanding, with the 33d, 80th and 4th divisions in line; next came the 5th corps, Maj.-Gen. Cameron commanding, with the 79th, 37th and 91st divisions; on the left was the 1st corps, Maj.-Gen. Liggett commanding, with the 35th, 28th and 77th divisions. Each corps had one division in reserve and the army held three divisions as a general reserve. About 2,700 guns, 189 small tanks, 142 manned by Americans, and 821 airplanes, 604 manned by Americans, were concentrated to support the attack of the infantry. We thus had a superiority in guns and aviation, and the enemy had no tanks.

The axis of the attack was the line Montfaucon-Romagne-Buzancy, the purpose being to make the deepest penetration in the center, which, with the 4th French army advancing west of the Argonne, would force the enemy to evacuate that forest without our having to deliver a heavy attack in that difficult region.

36. Following three hours of violent artillery fire of preparation, the infantry advanced at 5:30 a. m. on Sept. 26, accompanied by tanks. During the first two days of the attack, before the enemy was able to bring up his reserves, our troops made steady progress through the network of defenses. Montfaucon was held tenaciously by the enemy and was not captured until noon of the second day.

By evening of the 28th a maximum advance of eleven kilometers had been achieved and we had captured Baulny, Epinonville, Septsarges and Dannevoux. The right had made a splendid advance into the woods south of Brieulles-sur-Meuse, but the extreme left was meeting strong resistance in the Argonne. The attack continued without interruption, meeting six new divisions which the enemy threw into first line before Sept. 29. He developed a powerful machine gun defense supported by heavy artillery fire, and made frequent counter-attacks with fresh troops, particularly on the front of the 28th and 35th divisions. These divisions had taken Varennes, Cheppy, Baulny and Charpentry, and the line was within two kilometers of Apremont. We were no longer engaged in a maneuver for the pinching out of a salient, but were necessarily committed, generally speaking, to a direct frontal attack against strong, hostile positions fully manned by a determined enemy.

37. By nightfall of the 29th the 1st army line was approximately Bois de la Cote Lemont-Nantillois-Apremont southwest across the Argonne. Many divisions, especially those in the center that were subjected to cross fire of artillery, had suffered heavily. The severe fighting, the nature of the terrain over which they attacked, and the fog and darkness sorely

tried even our best divisions. On the night of the 29th the 37th and 79th divisions were relieved by the 32d and 3d divisions, respectively, and on the following night the 1st division relieved the 35th division.

38. The critical problem during the first few days of the battle was the restoration of communications over "no man's land." There were but four roads available across this deep zone, and the violent artillery fire of the previous period of the war had virtually destroyed them. The spongy soil and the lack of material increased the difficulty. But the splendid work of our engineers and pioneers soon made possible the movement of the troops, artillery, and supplies most needed. By the afternoon of the 27th all the divisional artillery, except a few batteries of heavy guns, had effected a passage and was supporting the infantry action.

Meuse-Argonne, Second Phase.

39. At 5:30 a. m. on Oct. 4 the general attack was renewed. The enemy divisions on the front from Fresnes-en-Woevre to the Argonne had increased from ten in first line to sixteen, and included some of his best divisions. The fighting was desperate, and only small advances were realized, except by the 1st division on the right of the 1st corps. By evening of Oct. 5 the line was approximately Bois de la Cote Lemont-Bois du Fays-Gesnes-Hill 240-Fleville-Chehery, southwest through the Argonne.

It was especially desirable to drive the enemy from his commanding positions on the heights east of the Meuse, but it was even more important that we should force him to use his troops there and weaken his tenacious hold on positions in our immediate front. The further stabilization of the new St. Mihiel line permitted the withdrawal of certain divisions for the extension of the Meuse-Argonne operation to the east bank of the Meuse river.

40. On the 7th the 1st corps, with the 82d division added, launched a strong attack northwest toward Cornay, to draw attention from the movement east of the Meuse and at the same time outflank the German position in the Argonne. The following day the 17th French corps, Maj.-Gen. Claudel commanding, initiated its attack east of the Meuse against the exact point on which the German armies must pivot in order to withdraw from northern France. The troops encountered elaborate fortifications and stubborn resistance, but by nightfall had realized an advance of six kilometers to a line well within the Bois de Consenvoye, and including the villages of Beaumont and Haumont. Continuous fighting was maintained along our entire battle front, with especial success on the extreme left, where the capture of the greater part of the Argonne forest was completed. The enemy contested every foot of ground on our front in order to make more rapid retirements farther west and withdraw his forces from northern France before the interruption of his railroad communications through Sedan.

41. We were confronted at this time by an insufficiency of replacements to build up exhausted divisions. Early in October combat units required some 90,000 replacements, and not more than 45,000 would be available before Nov. 1 to fill the existing and prospective vacancies. We still had two divisions with the British and two with the French. A review of the situation, American and allied, especially as to our own resources in men for the next two months, convinced me that the attack of the 1st army and of the allied armies farther west should be pushed to the limit. But if the 1st army was to continue its aggressive tactics our divisions then with the French must be recalled, and replacements must be obtained by breaking up newly arrived divisions.

In discussing the withdrawal of our divisions from the French with Marshal Foch and Gen. Petain, on Oct. 10, the former expressed his appreciation of the fact that the 1st army was striking the pivot of the German withdrawal, and also held the view that the allied attack should continue. Gen. Petain agreed that the American divisions with the French were essential to us if we were to maintain our battle against the German pivot. The French were, however, straining every nerve to keep up their attacks and, before those divisions with the French had been released, it became necessary for us to send the 37th and 91st divisions from the 1st army to assist the 6th French army in Flanders.

42. At this time the 1st army was holding a front of more than 120 kilometers; its strength exceeded 1,000,000 men; it was engaged in the most desperate battle of our history, and the burden of command was too heavy for a single commander and staff. Therefore, on Oct. 12, that portion of our front extending from Port-sur-Seille, east of the Moselle, to Fresnes-en-Woevre, southeast of Verdun, was transferred to the newly constituted 2d army with Lieut.-Gen. Robert L. Bullard in command, under whom it began preparations for the extension of operations to the east in the direction of Briey and Metz. On Oct. 16 the command of the 1st army was transferred to Lieut.-Gen. Hunter Liggett, and my advance headquarters was established at Ligny-en-Barrois, from which the command of the group of American armies was exercised.

43. Local attacks of the 1st army were continued in order particularly to adjust positions preparatory to a renewed general assault. The 1st and 5th divisions were relieved by the 42d and 80th divisions, which were now fresh. An attack along the whole front was made on Oct. 14. The resistance encountered was stubborn, but the stronghold on Cote Dame Marie was captured and the Hindenburg line was broken. Cunel and Romagne-sous-Montfaucon were taken and the line advanced two kilometers north of Sommerance. A maximum advance of seventeen kilometers had been made since Sept. 26 and the enemy had been forced to throw into the fight a total of fifteen reserve divisions.

During the remainder of the month important local operations were carried out, which involved desperate fighting. The 1st corps, Maj.-Gen. Dickman commanding, advanced through Grandpre; the 5th corps, Maj.-Gen. Charles P. Summerall commanding, captured the Bois de Bantheville; the 3d corps, Maj.-Gen. John L. Hines commanding, completed the occupation of Cunel heights; and the 17th French corps drove the enemy from the main ridge south of La Grande Montagne. Particularly heavy fighting occurred east of the Meuse on Oct. 18 and in the further penetration of the Kriemhilde-Stellung on Oct. 23 the 26th division entering the battle at this time relieved the 18th French division.

44. Summarizing the material results which had been attained by the 1st army by the end of October, we had met an increasing number of Germany's best divisions, rising from twenty in line and reserve on Sept. 26, to thirty-one on Oct. 31; the enemy's elaborately prepared positions, including the Hindenburg line, in our front had been broken, the almost impassable Argonne forest was in our hands; an advance of twenty-one kilometers had been effected; 18,600 prisoners, 370 cannon, 1,000 machine guns and a mass of material captured; and the great railway artery through Carignan to Sedan was now seriously threatened.

The demands of incessant battle which had been maintained day by day for more than a month had compelled our divisions to fight to the limit of their capacity. Combat troops were held in line and pushed to the attack until deemed incapable of further effort because of casualties or exhaustion; artillery once engaged was seldom withdrawn and many batteries fought until practically all the animals were casualties and the guns were towed out of line by motor trucks. The American soldier had shown unrivaled fortitude in this continuous fighting during most inclement weather and under many disadvantages of position. Through experience, the army had developed into a powerful and smooth-running machine, and there was a supreme confidence in our ability to carry through the task successfully.

While the high pressure of these dogged attacks was a great strain on our troops, it was calamitous to the enemy. His divisions had been thrown into confusion by our furious assaults and his morale had been reduced until his will to resist had well-nigh reached the breaking point. Once a German division was engaged in the fight, it became practically impossible to effect its relief. The enemy was forced to meet the constantly recurring crises by breaking up tactical organizations and sending hurried detachments to widely separated portions of the field.

Every member of the American expeditionary forces, from the front line to the base ports, was straining every nerve. Magnificent efforts were exerted by the entire services of supply to meet the enormous demands made on it. Obstacles which seemed insurmountable were overcome daily in expediting the movements of replacements, ammunition and supplies to the front and of sick and wounded to the rear. It was this spirit of determination animating every American soldier that made it impossible for the enemy to maintain the struggle until 1919.

Meuse-Argonne, Third Phase.

45. The detailed plans for the operations of the allied armies on the western front changed from time to time during the course of this great battle, but the mission of the 1st American army to cut the great Carignan-Sedan-Mezieres railroad remained unchanged. Marshal Foch co-ordinated the operations along the entire front, continuing persistently and unceasingly the attacks by all allied armies; the Belgian army, with a French army and two American divisions, advancing eastward; the British armies and two American divisions with the 1st French army on their right, toward the region north of Givet; the 1st American army and 4th French army toward Sedan and Mezieres.

46. On the 21st my instructions were issued to the 1st army to prepare thoroughly for a general attack on Oct. 28, that would be decisive if possible. In order that the attack of the 1st army and that of the 4th French army on its left should be simultaneous, our attack was delayed until Nov. 1. The immediate purpose of the 1st army was to take Buzancy and the heights of Barricourt, to turn the forest north of Grandpre, and to establish contact with the 4th French army near Boult-aux-Bois. The army was directed to carry the heights of Barricourt by nightfall of the first day and then to exploit this success by advancing its left to Boult-aux-Bois in preparation for the drive toward Sedan. By strenuous effort all available artillery had been moved well forward to the heights previously occupied by the enemy, from which it could fully cover and support the initial advance of the infantry.

On this occasion and for the first time the army prepared for its attack under normal conditions. We held the front of attack and were not under the necessity of taking over a new front, with its manifold installations and services. Our own personnel handled the communications, dumps, telegraph lines and water service; our divisions were either on the line or close in rear; the French artillery, aviation and technical troops which had previously made up our deficiences had been largely replaced by our own organizations; and our army corps and divisional staffs were by actual experience second to none.

47. On the morning of Nov. 1 three army corps were in line between the Meuse river and the Bois de Bourgogne. On the right the 3d corps had the 5th and 90th divisions; the 5th corps occupied the center of the line with the 89th and 2d divisions and was to be the wedge of the attack on the first day; and on the left the 1st corps deployed the 80th, 77th and 78th divisions.

Preceded by two hours of violent artillery preparation, the infantry advanced, closely followed by "accompanying guns." The artillery acquitted itself magnificently, the barrages being so well co-ordinated and so dense that the enemy was overwhelmed and quickly submerged by the rapid onslaught of the infantry. By nightfall the 5th corps, in the center, had realized an advance of almost nine kilometers, to the Bois de la Folie, and had completed the capture of the heights of Barricourt, while the 3d corps, on the right, had captured Aincreville and Andevanne. Our troops had broken through the enemy's last defense, captured his artillery positions and had precipitated a retreat of the German forces about to be isolated in the forest north of Grandpre. On the 2d and 3d we advanced rapidly against heavy fighting on the fronts of the right and center corps; to the left the troops of the 1st corps hurried forward in pursuit, some by motor trucks, while the artillery pressed along the country roads close behind. Our heavy artillery was skillfully brought into position to fire upon the Carignan-Sedan railroad and the junctions at Longuyon and Conflans. By the evening of the 4th our troops had reached La Neuville, opposite Stenay, and had swept through the great Foret de Dieulet, reaching the outskirts of Beaumont, while on the left we were eight kilometers north of Boult-aux-Bois.

The following day the advance continued toward Sedan with increasing swiftness. The 3d corps, turning eastward, crossed the Meuse in a brilliant operation by the 5th division, driving the enemy from the heights of Dun-sur-Meuse and forcing a general withdrawal from the strong positions he had so long held on the hills north of Verdun.

By the 7th the right of the 3d corps had exploited its river crossing to a distance of ten kilometers east of the Meuse, completely ejecting the enemy from the wooded heights and driving him out into the swampy plain of the Woevre: the 5th and 1st corps had reached the line of the Meuse river along their respective fronts and the left of the latter corps held the heights dominating Sedan, the strategical goal of the Meuse-Argonne operation, forty-one kilometers from our point of departure on Nov. 1. We had cut the enemy's main line of communications. Recognizing that nothing but a cessation of hostilities could save his armies from complete disaster, he appealed for an immediate armistice on Nov. 6.

48. Meanwhile general plans had been prepared for the further employment of American

forces in an advance between the Meuse and the Moselle, to be directed toward Longwy by the 1st army, while the 2d army was to assume the offensive toward the Briey iron basin. Orders directing the preparatory local operations involved in this enterprise were issued on Nov. 5.

Between the 7th and 10th of November the 3d corps continued its advance eastward to Remoiville, while the 17th French corps, on its right, with the 79th, 26th, and 81st American divisions, and two French divisions, drove the enemy from his final foothold on the heights east of the Meuse. At 9 p. m. on Nov. 9 appropriate orders were sent to the 1st and 2d armies in accordance with the following telegram from Marshal Foch to the commander of each of the allied armies:

"The enemy, disorganized by our repeated attacks, retreats along the entire front. It is important to co-ordinate and expedite our movements. I appeal to the energy and the initiative of the commanders in chief and of their armies to make decisive the results obtained."

In consequence of the foregoing instructions, our 2d army pressed the enemy along its entire front. On the night of the 10th-11th and the morning of the 11th the 5th corps, in the 1st army, forced a crossing of the Meuse east of Beaumont and gained the commanding heights within the re-entrant of the river, thus completing our control of the Meuse river line. At 6 a. m. on the 11th notification was received from Marshal Foch's headquarters that the armistice had been signed and that hostilities would cease at 11 a. m. Preparatory measures had already been taken to insure the prompt transmission to the troops of the announcement of an armistice. However, the advance east of Beaumont on the morning of the 11th had been so rapid and communication across the river was so difficult that there was some fighting on isolated portions of that front after 11 a. m.

49. Between Sept. 26 and Nov. 11, twenty-two American and four French divisions, on the front extending from southeast of Verdun to the Argonne forest, had engaged and decisively beaten forty-seven different German divisions, representing 25 per cent of the enemy's entire divisional strength on the western front. Of these enemy divisions twenty had been drawn from the French front and one from the British front. Of the twenty-two American divisions twelve had, at different times during this period, been engaged on fronts other than our own. The 1st army suffered a loss of about 117,000 in killed and wounded. It captured 26,000 prisoners, 847 cannon, 3,000 machine guns and large quantities of material.

The dispositions which the enemy made to meet the Meuse-Argonne offensive, both immediately before the opening of the attack and during the battle, demonstrated the importance which he ascribed to this section of the front and the extreme measures he was forced to take in its defense. From the moment the American offensive began until the armistice, his defense was desperate and the flow of his divisions to our front was continuous.

Operations of the Second Army.

50. Under the instructions issued by me on Nov. 5, for operations by the 2d army in the direction of the Briey iron basin, the advance was undertaken along the entire front of the army and continued during the last three days of hostilities. In the face of the stiff resistance offered by the enemy, and with the limited number of troops at the disposal of the 2d army, the gains realized reflected great credit on the divisions concerned. On Nov. 6 Marshal Foch requested that six American divisions be held in readiness to assist in an attack which the French were preparing to launch in the direction of Chateau-Salins. The plan was agreed to, but with the provision that our troops should be employed under the direction of the commanding general 2d army.

This combined attack was to be launched on Nov. 14, and was to consist of twenty French divisions under Gen. Mangin and the six American divisions under Gen. Bullard. Of the divisions designated for this operation the 3d, 4th, 29th and 36th were in the army reserve and were starting their march eastward on the morning of Nov. 11, while the 28th and 35th were being withdrawn from line on the 2d army front.

American Activities on Other Fronts.

51. During the first phase of the Meuse-Argonne battle American divisions were participating in important attacks on other portions of the front. The 2d army corps, Maj.-Gen. Read commanding, with the 27th and 30th divisions on the British front, was assigned the task, in co-operation with the Australian corps, of breaking the Hindenburg line at Le Cateau, where the St. Quentin canal passes through a tunnel under a ridge. In this attack, carried out on Sept. 29 and Oct. 1, the 30th division speedily broke through the main line of defense and captured all of its objectives, while the 27th progressed until some of its elements reached Gouy. In this and later actions from Oct. 6 to 19, our 2d corps captured over 6,000 prisoners and advanced about twenty-four kilometers.

52. On Oct. 2-9 our 2d and 36th divisions assisted the 4th French army in its advance between Reims and the Argonne. The 2d division completed its advance on this front by the assault of the wooded heights of Mont Blanc, the key point of the German position, which was captured with consummate dash and skill. The division here repulsed violent counterattacks, and then carried our lines into the village of St. Etienne, thus forcing the Germans to fall back before Reims and yield positions which they had held since September, 1914. On Oct. 10 the 36th division relieved the 2d, exploiting the latter's success, and in two days advanced, with the French, a distance of twenty-one kilometers, the enemy retiring behind the Aisne river.

53. In the middle of October, while we were heavily engaged in the Meuse-Argonne, Marshal Foch requested that two American divisions be sent immediately to assist the 6th French army in Belgium, where slow progress was being made. The 37th and 91st divisions, the latter being accompanied by the artillery of the 28th division, were hurriedly dispatched to the Belgian front. On Oct. 30, in continuation of the Flanders offensive, these divisions entered the line and attacked. By Nov. 3 the 37th division had completed its mission by rapidly driving the enemy across the Escaut river and had firmly established itself on the east bank, while the 91st division, in a spirited advance, captured Spitaals Bosschen, reached the Scheldt, and entered Audenarde.

American Troops in Italy.

54. The Italian government early made request for American troops, but the critical situation on the western front made it necessary to concentrate our efforts there. When the secretary of war was in Italy during April, 1918, he was urged to send American troops to Italy to show America's interest in the Italian situation and to strengthen Italian morale. Similarly a request was made by the Italian prime minister at the Abbeville conference. It was finally decided to send one

regiment to Italy with the necessary hospital and auxiliary services, and the 332d infantry was selected, reaching the Italian front in July, 1918. These troops participated in action against the Austrians in the fall of 1918 at the crossing of the Piave river and in the final pursuit of the Austrian army.

American Troops in Russia.

55. It was the opinion of the supreme war council that allied troops should be sent to co-operate with the Russians, either at Murmansk or Archangel, against the bolshevist forces, and the British government, through its ambassador at Washington, urged American participation in this undertaking. On July 23, 1918, the war department directed the dispatch of three battalions of infantry and three companies of engineers to join the allied expedition. In compliance with these instructions the 339th infantry, the 1st battalion, 310th engineers, 337th field bospital company, and 337th ambulance company were sent through England, whence they sailed on Aug. 26.

The mission of these troops was limited to guarding the ports and as much of the surrounding country as might develop threatening conditions. The allied force operated under British command, through whose orders the small American contingent was spread over a front of about 450 miles. From September, 1918, to May, 1919, a series of minor engagements with the bolshevist forces occurred, in which eighty-two Americans were killed and seven died of wounds.

In April, 1919, two companies of American railroad troops were added to our contingent. The withdrawal of the American force commenced in the latter part of May, 1919, and on Aug. 25 there was left only a small detachment of graves registration troops.

The Advance Into Germany.

56. In accordance with the terms of the armistice, the allies were to occupy all German territory west of the Rhine, with bridgeheads of thirty kilometer radius at Cologne, Coblenz, and Mayence. The zone assigned the American command was the bridgehead of Coblenz and the district of Treves. This territory was to be occupied by an American army, with its reserves held between the Moselle-Meuse rivers and the Luxemburg frontier.

The instructions of Marshal Foch, issued on Nov. 16, contemplated that two French infantry divisions and one French cavalry division would be added to the American forces that occupied the Coblenz bridgehead, and that one American division would be added to the French force occupying the Mayence bridgehead. As this arrangement presented possibilities of misunderstanding due to difference of views regarding the government of occupied territory, it was represented to the marshal that each nation should be given a well-defined territory of occupation, employing within such territory only the troops of the commander responsible for the particular zone. On Dec. 9 Marshal Foch accepted the principle of preserving the entity of command and troops, but reduced the American bridgehead by adding a portion of the eastern half to the French command at Mayence.

57. Various reasons made it undesirable to employ either the 1st or 2d army as the army of occupation. Plans had been made before the armistice to organize a 3d army and, on Nov. 14, this army, with Maj.-Gen. Joseph T. Dickman as commander, was designated as the army of occupation. The 3d and 4th army corps, staffs and troops, less artillery, the 1st, 2d, 3d, 4th, 32d, and 42d divisions, and the 66th field artillery brigade were assigned to the 3d army. This force was later increased by the addition of the 7th corps, Maj.-Gen. William M. Wright commanding, with the 5th, 89th and 90th divisions.

The advance toward German territory began on Nov. 17 at 5 a. m., six days after signing the armistice. All of the allied forces from the North sea to the Swiss border moved forward simultaneously in the wake of the retreating German armies. Upon arrival at the frontier, a halt was made until Dec. 1, when the leading elements of all allied armies crossed the line into Germany. The 3d army headquarters were established at Coblenz and an advance general headquarters located at Treves. Steps were immediately taken to organize the bridgehead for defense, and dispositions were made to meet a possible renewal of hostilities.

The advance to the Rhine required long, arduous marches, through cold inclement weather with no opportunity for troops to rest, refit, and refresh themselves after their participation in the final battle. The army of occupation bore itself splendidly and exhibited a fine state of discipline both during the advance and throughout the period of occupation.

58. The zone of march of our troops into Germany and the line of communications of the 3d army after reaching the Rhine lay through Luxemburg. After the passage of the 3d army, the occupation of Luxemburg, for the purpose of guarding our line of communications, was intrusted to the 5th and 33d divisions of the 2d army. The city of Luxemburg, garrisoned by French troops and designated as the headquarters of the allied commander in chief, was excluded from our control.

Upon entering the duchy of Luxemburg in the advance a policy of noninterference in the affairs of the grand duchy was announced. Therefore, when the French commander in the city of Luxemburg was given charge of all troops in the duchy, in so far as concerned the "administration of the grand duchy of Luxemburg," my instructions were that our troops would not be subject to his control. Later, at my request, and in order to avoid possible friction, Marshal Foch placed the entire duchy in the American zone.

Return of Troops to the United States.

59. On the day the armistice was signed the problem of the return of our troops to the United States was taken up with the war department and on Nov. 15 a policy recommended of sending home certain auxiliaries so that we could begin to utilize all available shipping without delay. On Dec. 21 the war department announced by cable that it had been decided to begin immediately the return of our forces and continue as rapidly as transportation would permit. To carry this out a schedule for the constant flow of troops to the ports was established, having in mind our international obligations pending the signing of the treaty of peace.

60. While more intimately related to the functions of the services of supply than to operations, it is logical to introduce here a brief recital of the organizations created for the return of our troops to America. Prior to the armistice but 15,000 men had been returned home. Although the existing organization was built for the efficient and rapid handling of the incoming forces, the embarkation of this small number presented no difficulties. But the armistice suddenly and completely reversed the problem of the services of supply at the ports and the handling of troops. It became necessary immediately to reorganize the machinery of the ports, to construct large embarkation camps and to create an extensive service for embarking the homeward bound troops.

Brest, St. Nazaire and Bordeaux became the principal embarkation ports, Marseilles and Le Havre being added later to utilize Italian and French liners. The construction of the embarkation camps during unseasonable winter weather was the most trying problem. These, with the billeting facilities available, gave accommodation for 55,000 at Brest, 44,000 at St. Nazaire and 130,000 at Bordeaux. Unfortunately the largest ships had to be handled at Brest, where the least shelter was available.

To maintain a suitable reservoir of men for Brest and St. Nazaire, an embarkation center was organized around Le Mans, which eventually accommodated 230,000 men. Here the troops and their records were prepared for the return voyage and immediate demobilization. As the troops arrived at the base ports, the embarkation service was charged with feeding, reclothing and equipping the hundreds of thousands who passed through, which required the maintenance of a form of hotel service on a scale not hitherto attempted.

61. On Nov. 16 all combat troops except thirty divisions and a minimum of corps and army troops were released for return to the United States. It was early evident that only limited use would be made of the American divisions and that the retention of thirty divisions was not necessary. Marshal Foch considered it indispensable to maintain under arms a total, including Italians, of 120 to 140 divisions, and he proposed that we maintain thirty divisions in France until Feb. 1, twenty-five of which should be held in the zone of the armies, and that March 1 we should have twenty divisions in the zone of the armies and five ready to embark. The plan for March 1 was satisfactory, but the restrictions as to the divisions that should be in France on Feb. 1 could not be accepted, as it would seriously interfere with the flow of troops homeward.

In a communication dated Dec. 24 the marshal set forth the minimum forces to be furnished by the several allies, requesting the American army to furnish twenty-two to twenty-five divisions of infantry. In the same note he estimated the force to be maintained after the signing of the preliminaries of peace at about thirty-two divisions, of which the American army was to furnish six.

In reply it was pointed out that our problem of repatriation of troops and their demobilization was quite different from that of France or Great Britain. On account of our long line of communications in France and the time consumed by the ocean voyage and travel in the United States, even with the maximum employment of our then available transportation, at least a year must elapse before we could complete our demobilization. Therefore it was proposed by me that the number of American combat divisions to be maintained in the zone of the armies should be reduced on April 1 to fifteen divisions and on May 1 to ten divisions, and that in the unexpected event that the preliminaries of peace should not be signed by May 1 we would continue to maintain ten divisions in the zone of the armies until the date of signature.

The allied commander in chief later revised his estimate and on Jan. 24 stated to the supreme war council that the German demobilization would permit the reduction of the allied forces to 100 divisions, of which the Americans were requested to furnish fifteen. In reply it was again pointed out that our problem was entirely one of transportation, and that such promise was unnecessary inasmuch as it would probably be the summer of 1919 before we could reduce our forces below the number asked. We were, therefore, able to keep our available ships filled, and by May 19 all combat divisions, except five still in the army of occupation, were under orders to proceed to ports of embarkation. This provided sufficient troops to utilize all troop transports to include July 15.

62. The president had informed me that it would be necessary for us to have at least one regiment in occupied Germany, and left the details to be discussed by me with Marshal Foch. My cable of July 1 summarizes the agreement reached:

"By direction of president, I have discussed with Marshal Foch question of forces to be left on the Rhine. Following agreed upon: The 4th and 5th divisions will be sent to base ports immediately, the 2d division will commence moving to base ports on July 15, and the 3d division on Aug. 15. Date of relief of 1st division will be decided later. Agreement contemplates that after compliance by Germany with military conditions to be completed within first three months after German ratification of treaty, American force will be reduced to one regiment of infantry and certain auxiliaries. Request president be informed of agreement."

As a result of a later conference with Marshal Foch, the 3d division was released on Aug. 3 and the 1st division on Aug. 15.

PART III.—SUPPLY, CO-ORDINATION, MUNITIONS AND ADMINISTRATION.

The Services of Supply.

1. In February, 1918, the line of communications was reorganized under the name of services of supply. At that time all staff services and departments, except the adjutant-general's, the inspector-general's and the judge-advocate general's departments, were grouped for supply purposes under one co-ordinating head, the commanding general services of supply, with a general staff paralleling, so far as necessary, the general staff at general headquarters.

The principal functions of the services of supply were the procurement, storage and transportation of supplies. These activities were controlled in a general way by the commanding general services of supply, the maximum degree of independence being permitted to the several services. This great organization was charged with immense projects in connection with roads, docks, railroads and buildings; the transportation of men, animals and supplies by sea, rail and inland waterways; the operation of telegraph and telephone systems; the control and transportation of replacements; the hospitalization necessary for an army of 2,000,000 men; the reclassification of numerous officers and men; the establishment of leave areas and of welfare and entertainment projects; the liquidation of our affairs in France, and the final embarkation of our troops for home.

The growth of the permananet port personnel, the location near the base ports of certain units for training, and other considerations led to the appointment of a territorial commander for the section around each port who, while acting as the representative of the commanding general services of supply, was given the local authority of a district commander. For similar reasons, an intermediate section commander and an advance section commander were appointed. Eventually there were nine base sections, including one in England, one in Italy and one comprising Rotterdam and Antwerp, also one intermediate and one advance section.

The increasing participation of the American expeditionary forces in active operations necessitated the enlargement of the responsibilities and authority of the commanding general services of supply. In August, 1918, he was charged with complete responsibility for all supply matters in the services of supply, and was authorized to correspond by cable directly with the

war department on all matters of supply not involving questions of policy.

In the following discussion of the services of supply the subjects of co-ordination of supply at the front, ocean tonnage and replacements are included for convenience, though they were largely or entirely under the direct control of general staff sections at my headquarters.

Co-Ordination of Supply at the Front.

2. Our successful participation in the war required that all the different services immediately concerned with the supply of combat troops should work together as a well regulated machine. In other words, there must be no duplication of effort, but each must perform its functions without interference with any other service. The fourth section of the general staff was created to control impartially all these services, and, under broad lines of policy, to determine questions of transportation and supply in France and co-ordinate our supply services with those of the allies.

This section did not work out technical details, but was charged with having a general knowledge of existing conditions as to supply, its transportation, and of construction affecting our operations or the efficiency of our forces. It frequently happened that several of the supply departments desired the same site for the location of installations, so that all plans for such facilities had to be decided in accordance with the best interests of the whole.

3. In front of the advance depots railroad lines and shipments to troops had to be carefully controlled, because mobility demanded that combat units should not be burdened with a single day's stores above the authorized standard reserve. Furthermore, accumulations at the front were exposed to the danger of destruction or capture and might indicate our intentions. Each combat division required the equivalent of twenty-five French railway carloads of supplies for its daily consumption to be delivered at a point within reach of motor or horse drawn transportation. The regular and prompt receipt of supplies by combatant troops is of first importance in its effect upon the morale of both officers and men. The officer whose mind is preoccupied by the question of food, clothing or ammunition is not free to devote his energy to training his men or to fighting the enemy. It is necessary that paper work be reduced to an absolute minimum and that the delivery of supplies to organizations be placed on an automatic basis as far as possible.

4. The principle of flexibility had to be borne in mind in planning our supply system in order that our forces should be supplied, no matter what their number or where they might be called upon to enter the line. This high degree of elasticity and adaptability was assured and maintained through the medium of the regulating station. It was the connecting link between the armies and the services in the rear, and regulated the railroad transportation which tied them together. The regulating officer at each such station was a member of the fourth section of my general staff, acting under instructions from his chief of section.

Upon the regulating officer fell the responsibility that a steady flow of supply was maintained. He must meet emergency shipments of ammunition or engineering material, sudden transfers of troops by rail, the hastening forward of replacements or the unexpected evacuation of wounded. All the supply services naturally clamored to have their shipments rushed through. The regulating officer, acting under special or secret instructions, must declare priorities in the supply of things the army needed most. Always informed of the conditions at the front, of the status of supplies and of military plans and intentions, nothing could be shipped to the regulating station or in front of the advance depots except on his orders. The chiefs of supply services fulfilled their responsibilities when they delivered to the regulating officer the supplies called for by him, and he met his obligation when these supplies were delivered at the proper railheads at the time they were needed. The evacuation of the wounded was effected over the same railroad lines as those carrying supplies to the front, therefore this control had also to be centralized in the regulating officer.

The convenient location of the regulating stations was of prime importance. They had to be close enough to all points in their zones to permit trains leaving after dusk or during the night to arrive at their destinations by dawn. They must also be far enough to the rear to be reasonably safe from capture. Only two regulating stations were actually constructed by us in France, Is-sur-Tille and Liffol-le-Grand, as the existing French facilities were sufficient to meet our requirements beyond the reach of those stations.

As far as the regulating officer was concerned, supplies were divided into four main classes. The first class constituted food, forage and fuel, needed and consumed every day; the second, uniforms, shoes, blankets and horse shoes, which wear out with reasonable regularity; the third, articles of equipment which require replacement at irregular intervals, such as rolling kitchens, rifles and escort wagons; the fourth class covered articles the flow of which depended upon tactical operations, such as ammunition and construction material. Articles in the first class were placed on an automatic basis, but formal requisition was eliminated as far as possible for all classes.

5. In order to meet many of the immediate needs of troops coming out of the line and to relieve to some extent the great strain on the railheads during active fighting, a system of army depots was organized. These depots were supplied by bulk shipments from the advance depots through the regulating stations during relatively quiet periods. They were under the control of the chiefs of the supply services of the armies and required practically no construction work, the supplies being stored in open places protected only by dunnage and camouflaged tarpaulins.

6. The accompanying diagram [omitted] illustrates graphically the supply system which supported our armies in France. The services of supply can be likened to a great reservoir divided into three main parts—the base depots, the intermediate depots and the advance depots. The management of this reservoir is in charge of the commanding general services of supply, who administers it with a free hand, controlled only by general policies outlined to him from time to time. Each of the supply and technical services functions independently in its own respective sphere; each has its share of storage space in the base depots, in the intermediate depots and in the advance depots. Then comes the distribution system, and here the control passes to the chief of the fourth section of the general staff, who exercises his powers through the regulating stations.

Purchasing Agency.

7. The consideration of requirements in food and material led to the adoption of an automatic supply system, but, with the exception of foodstuffs, there was an actual shortage, especially in the early part of the war, of many things, such as equipment pertaining to land transportation and equipment and material for combat. The lack of ocean tonnage to carry construction material and animals at the

beginning was serious. Although an increasing amount of shipping became available as the war progressed, at no time was there sufficient for our requirements. The tonnage from the states reached about 7,500,000 to Dec. 31, 1918, which was a little less than one-half of the total amount obtained.

The supply situation made it imperative that we utilize European resources as far as possible for the purchase of material and supplies. If our services of supply departments had entered the market of Europe as purchasers without regulation or co-ordination, they would have been thrown into competition with each other, as well as with buyers from the allied armies and the civil populations. Such a system would have created an unnatural elevation of prices and would have actually obstructed the procurement of supplies. To meet this problem from the standpoint of economical business management, directions were given in August, 1917, for the creation of a general purchasing board to co-ordinate and control our purchases both among our own services and among the allies as well. The supervision and direction of this agency was placed in the hands of an experienced business man, and every supply department in the American expeditionary forces was represented on the board. Agents were stationed in Switzerland, Spain and Holland, besides the allied countries. The character of supplies included practically the entire category of necessities, although the bulk of our purchases consisted of raw materials for construction, ordnance, air equipment and animals. A total of about 10,000,000 tons was purchased abroad by this agency to Dec. 31, 1918, most of which was obtained in France.

The functions of the purchasing agency were gradually extended until they included a wide field of activities. In addition to the co-ordination of purchases, the supply resources of our allies were reconnoitered and intimate touch was secured with foreign agencies; a statistical bureau was created which classified and analyzed our requirements; quarterly forecasts of supplies were issued; civilian manual labor was procured and organized; a technical board undertook the co-ordination, development and utilization of the electric power facilities in France; a bureau of reciprocal supplies viseed the claims of foreign governments for raw materials from the United States; and a general printing plant was established. Some of these activities were later transferred to other services as the latter became ready to undertake their control.

The principles upon which the usefulness of this agency depended were extended to our allies, and in the summer of 1918 the general purchasing agent became a member of the interallied board of supplies. This board undertook, with signal success, to co-ordinate the supply of the allied armies in all those classes of material necessities that were in common use in all the armies. The possibility of immense savings was fully demonstrated, but the principles had not become of general application before the armistice.

Ocean Tonnage.

8. Following a study of tonnage requirements, an officer was sent to Washington in December, 1917, with a general statement of the shipping situation in France as understood by the allied maritime council. In March, 1918, tonnage requirements for transport and maintenance of 900,000 men in France by June 30 were adpoted as a basis upon which to calculate supply requisitions and the allocation of tonnage.

In April the allied maritime transport council showed that requirements for 1918 greatly exceeded the available tonnage. Further revisions of the schedule were required by the Abbeville agreement in May, under which American infantry and machine gun units were to be transported in British shipping, and by the Versailles agreement in June.

In July a serious crisis developed, as the allotment for August made to the American expeditionary forces by the shipping control committee was only 575,000 dead weight tons, afterward increased to 700,000, whereas 803,000 tons (not including animals) were actually needed. It was strongly urged by me that more shipping be diverted from trades and that a larger percentage of new shipping be placed in transport service.

9. Early in 1918 a scheme had been proposed which would provide priority for essential supplies only, based upon monthly available tonnage in sight. Although it was the understanding that calls for shipping should be based upon our actual needs, much irregularity was found in tonnage allotments, as shown by the following cables sent Sept. 14, 1918:

"The following variations from cable orders are noticeable:

"Q. M. supplies cabled for, for August delivery, 182,287 short tons.

"Q. M. supplies actually received during August, 67,521 short tons.

"T. D. supplies (rolling stock, etc.) called for, for August delivery, 113,482 short tons.

"T. D. supplies actually received during August, 67,521 short tons.

"You must prepare to ship supplies we request, instead of shipping excessive amounts of supplies of which we have a due proportion."

"An increase in the allotment of tonnage must be made, even for September. It is imperative. I cannot too strongly urge that the allotment be reconsidered in the light of the above showing of our deficiencies. * * *"

"At the present time our ability to supply and maneuver our forces depends largely on motor transportation. * * * We are able to carry out present plans due to fact that we have been able to borrow temporarily large numbers of trucks and ambulances from the French. * * * The shortage of ambulances to move our wounded is critical. * * * We have reached the point where we can no longer improvise or borrow. The most important plans and operations depend upon certainty that the home government will deliver at French ports material and equipment cabled for. It is urged that foregoing be given most serious consideration and that tonnage allotted for supply of army in France be sufficient to deliver material and equipment, properly proportioned in kinds and amount, to meet the needs of our troops. * * *"

The following is a brief summary of the tonnage asked for and the amount actually received in France during the critical period from July to October, 1918:

Month.	Cabled for by A. E. F.	Received.	Shortage.
July	*480,891	438,047	42,844
August	700,527	511,261	189,266
September	869,438	539,018	330,420
October	1,022,135	623,689	398,446
Total	3,072,991	2,112,015	960,976

*Tons of 2,000 pounds.

Replacements of Personnel.

10. Under the original organization project there were to be two divisions in each corps of six divisions which were to be used as reservoirs of replacements. One half of the artillery and other auxiliaries of these two di-

visions were to be utilized as corps and army troops. They were to supply the first demands for replacements from their original strength, after which a minimum of 3,000 men per month for each army corps in France was to be forwarded to them from the United States. It was estimated that this would give a sufficient reservoir of personnel to maintain the fighting strength of combat units, provided the sick and wounded were promptly returned to their own units upon recovery.

The 32d and 41st divisions were the first to be designated as replacement and depot divisions of the 1st army corps, but the situation soon became such that the 32d division had to be employed as a combat division. For the same reason all succeeding divisions had to be trained for combat, until June 27, when the need for replacements made it necessary to designate the 83d as a depot division.

11. By the middle of August we faced a serious shortage of replacements. Divisions had arrived in France below strength, and each division diverted from replacement to combat duty increased the number of divisions to be supplied and at the same time decreased the supply.

On Aug. 16 the war department was cabled as follows:

"Attention is especially invited to the very great shortage in arrivals of replacements heretofore requested. Situation with reference to replacements is now very acute. Until sufficient replacements are available in France to keep our proven divisions at full strength, replacements should by all means be sent in preference to new divisions."

At this time it became necessary to transfer 2,000 men from each of three combat divisions (the 7th, 36th and 81st) to the 1st army, in preparation for the St. Mihiel offensive.

By the time the Meuse-Argonne offensive was initiated the replacement situation had become still more acute. The infantry and machine gun units of the 84th and 86th divisions, then in the vicinity of Bordeaux, were utilized as replacements, leaving only a cadre of two officers and twenty-five men for each company. To provide immediate replacements during the progress of the battles new replacement organizations were formed in the zone of operations; at first, as battalions, and later, as regional replacement depots.

12. On Oct. 3, a cable was sent the war department reading as follows:

"Over 50,000 of the replacements requested for the months of July, August and September have not yet arrived. Due to extreme seriousness of the replacement situation, it is necessary to utilize personnel of the 84th and 86th divisions for replacement purposes. Combat divisions are short over 80,000 men. Vitally important that all replacements due, including 55,000 requested for October, be shipped early in October. If necessary, some divisions in United States should be stripped of trained men and such men shipped as replacements at once."

Altogther seven divisions had to be skeletonized, leaving only one man per company and one officer per regiment to care for the records. As a further measure to meet the situation, the authorized strength of divisions was reduced in October by 4,000 men, thus lowering the strength of each infantry company to approximately 174 men. The thirty combat divisions in France at that time needed 103,513 infantry and machine gun replacements, and only 66,490 were available.

Attention of the war department was invited on Nov. 2 to the fact that a total of 140,000 replacements would be due by the end of November, and the cable closed by saying:

"To send over entire divisions, which must be broken up on their arrival in France so we may obtain replacements that have not been sent as called for, is a wasteful method, and one that makes for inefficiency; but as replacements are not otherwise available, there is no other course open to us. New and only partially trained divisions cannot take the place of older divisions that have had battle experience. The latter must be kept up numerically to the point of efficiency * * *."

Remounts.

13. The shortage of animals was a serious problem throughout the war. In July, 1917, the French agreed to furnish our forces with 7,000 animals a month, and accordingly the war department was requested to discontinue shipments. On Aug. 24, however, the French advised us that it would be impossible to furnish the number of animals originally stated, and Washington was again asked to supply animals, but none could be sent over until November, and then only a limited number.

Early in 1918, after personal intervention and much delay, the French government made requisition on the country, and we were able to obtain 50,000 animals. After many difficulties, the purchasing board was successful in obtaining permission, in the summer of 1918, to export animals from Spain, but practically no animals were received until after the armistice.

Every effort was made to reduce animal requirements by increased motorization of artillery and by requiring mounted officers and men to walk—but in spite of all these efforts, the situation as to animals grew steadily worse. The shortage by November exceeded 106,000, or almost one-half of all our needs. To relieve the crisis in this regard, during the Meuse-Argonne battle, Marshal Foch requisitioned 13,000 animals from the French armies and placed them at my disposal.

Reclassification of Personnel.

14. An important development in the services of supply was the reclassification system for officers and men. This involved not only the physical reclassification of those partially fit for duty, but also the reclassification of officers according to fitness for special duties. A number of officers were found unfit for combat duty, and many in noncombatant positions were found unsuited to the duties on which employed. An effort was made to reassign these officers to the advantage of themselves and the army. A total of 1,101 officers were reclassified in addition to the disabled, and 270 were sent before efficiency boards for elimination. 962 wounded or otherwise disabled officers were reclassified, their services being utilized to release officers on duty with the services of supply who were able to serve with combat units.

Construction by Engineer Corps.

15. Among the most notable achievements of the American expeditionary forces was the large program of construction carried out by our engineer troops in the services of supply and elsewhere. The chief projects were port facilities, including docks, railroads, warehouses, hospitals, barracks, and stables. These were planned to provide ultimately for an army of 4,000,000 men, the construction being carried on coincidently with the growth of the American expeditionary forces.

The port plans contemplated 160 new berths, including the necessary facilities for discharge of cargo, approximately one-half of which were completed at the time of the armistice. Construction of new standard gauge railroad track amounted to 1,002 miles, consisting

mainly of cutoffs, double tracking at congested points, and yards at ports and depots. Road construction and repair continued until our troops were withdrawn from the several areas, employing at times upward of 10,000 men, and often using 90,000 tons of stone per week.

Storage requirements necessitated large supply depots at the ports and in the intermediate and advance sections. Over 2,000,000 square feet of covered storage wes secured from the French, but it was necessary to construct approximately 20,000,000 square feet additional. The base hospital centers at Mars and Mesves, each with 4,000 bed convalescent camps, are typical of the large scale upon which hospital accommodations were provided. The hospital city at Mars, of 700 buildings, covered a ground space of 33 acres and included the usual road, water, sewerage, and lighting facilities of a municipality.

16 Advantages of economy and increased mobility caused the adoption of the system of billeting troops. Billeting areas were chosen near the base ports, along the line of communications, and in the advanced zone, as strategical requirements dictated. The system was not altogether satisfactory, but with the number of troops to be accommodated no other plan was practicable. Demountable barracks were used for shelter to supplement lack of billets, 16,000 barracks of this type being erected, particularly at base ports where large camps were necessary. Stables at remount stations were built for 43,000 animals. Other construction included refrigerating plants, such as the one at Gievres with a capacity of 6,500 tons of meat and 500 tons of ice per day; and mechanical bakeries like that at Is-sur-Tille with capacity of 800,000 pounds of bread per day. If the buildings constructed were consolidated, with the width of a standard barrack, they would reach from St. Nazaire across France to the Elbe river in Germany, a distance of 730 miles.

In connection with construction work, the engineer corps engaged in extensive forestry operations, producing 200,000,000 feet of lumber, 4,000,000 railroad ties, 300,000 cords of fuel wood, 35,000 pieces of piling and large quantities of miscellaneous products.

Transportation Corps.

17. The transportation corps as a separate organization was new to our army. Its exact relation to the supply departments was conceived to be that of a system acting as a common carrier operating its own ship and rail terminals. The equipment and operation of port terminals stands out as a most remarkable achievement. The amount of tonnage handled at all French ports grew slowly, reaching about 17,000 tons daily at the end of July, 1918. An emergency then developed as a result of the critical military situation, and the capacity of our terminals was so efficiently increased that, by Nov. 11, 45,000 tons were being handled daily.

The French railroads, both in management and material, had dangerously deteriorated during the war. As our system was superimposed upon that of the French it was necessary to provide them with additional personnel and much material. Experienced American railroad men brought into our organization, in various practical capacities, the best talent in the country, who, in addition to the management of our own transportation, materially aided the French. The relation of our transportation corps to the French railroads and to our own supply departments presented many difficulties, but these were eventually overcome and a high state of efficiency established.

18. It was early decided, as expedient for our purposes, to use American rolling stock on the French railroads, and approximately 20,000 cars and 1,500 standard-gauge locomotives were brought from the United States and assembled by our railroad troops. We assisted the French by repairing with our own personnel 57,385 French cars, and 1,947 French locomotives. The lack of rolling stock for allied use was at all times a serious handicap, so that the number of cars and locomotives built and repaired by us was no small part of our contribution to the allied cause.

Quartermaster Corps.

19. The quartermaster corps was able to provide a larger tonnage of supplies from the states than any of the great supply departments. The operations of this corps were so large and the activities so numerous that they can best be understood by a study of the report of the commanding general services of supply.

The quartermaster corps in France was called upon to meet conditions never before presented, and it was found advisable to give it relief. Transportation problems by sea transport and by rail were handled by separate corps organized for that purpose, and already described. Motor transport was also placed under an organization of its own. The usual routine supplies furnished by this department reached enormous proportions. Except for the delay early in 1918 in obtaining clothing and the inferior quality of some that was furnished, and an occasional shortage in forage, no army was ever better provided for. Special services created under the quartermaster corps included a remount service, which received, cared for, and supplied animals to troops; a veterinary service, working in conjunction with the remount organization; an effects section and baggage service; and a salvage service for the recovery and preparation for reissue of every possible article of personal equipment. Due to the activities of the salvage service, an estimated saving of $85,000,000 was realized, tonnage and raw material were conserved, and what in former wars represented a distinct liability was turned into a valuable asset.

The graves registration service, also under the quartermaster corps, was charged with the acquisition and care of cemeteries, the identification and reburial of our dead, and the correspondence with relatives of the deceased. Central cemeteries were organized on the American battle fields, the largest being at Romagne-sous-Montfaucon and at Thiaucourt in the Woevre. All territory over which our troops fought was examined by this service, and, generally speaking, the remains of our dead were assembled in American cemeteries and the graves marked with a cross or six-pointed star and photographed. A few bodies were buried where they fell or in neighboring French or British cemeteries. Wherever the soldier was buried, his identification tag, giving his name and army serial number, was fastened to the marker. A careful record was kept of the location of each grave.

Signal Corps.

20. The signal corps supplied, installed, and operated the general service of telephone and telegraphic communications throughout the zone of the armies, and from there to the rear areas. At the front it handled radio, press, and intercept stations; provided a radio network in the zone of advance; and also managed the meteorological, pigeon and general photographic services. Our communication system included a cable across the English channel, the erection of 4,000 kilometers of telephone and telegraph lines on our own poles, and the successful operation of a system with 215,500 kilometers of lines.

Motor Transport Corps.

21. The quantity and importance of gasoline engine transportation in this war necessitated the creation of a new service known as the motor transport corps. It was responsible for setting up motor vehicles received from America, their distribution, repair and maintenance. Within the zone of the services of supply, the motor transport corps controlled the use of motor vehicles, and it gave technical supervision to their operation in the zone of the armies. It was responsible for the training and instruction of chauffeurs and other technical personnel. Due to the shortage of shipments from America, a large number of trucks, automobiles, and spare parts had to be purchased in France.

Renting, Requisition and Claims Service.

22 A renting, requisition and claims service was organized in March, 1918, to procure billeting areas, supervise the quartering of troops with an organization of zone and town majors, and to have charge of the renting, leasing, and requisitioning of all lands and buildings required by the American expeditionary forces. Under the provisions of an act of congress, approved in April, 1918, the claims department was charged with the investigation, assessment and settlement of all claims "of inhabitants of France or any other European country not an enemy or ally of an enemy" for injuries to persons or damages to property occasioned by our forces. The procedure followed was in accordance with the law and practice of the country in question. The efficient administration of this service had an excellent effect upon the people of the European countries concerned.

23. The various activities of the services of supply which, at its height on Nov. 11, 1918, reached a numerical strength in personnel of 668,312, including 23,772 civilian employes, can best be summed up by quoting the telegram sent by me to Maj.-Gen. James G. Harbord, the commanding general services of supply, upon my relinquishing personal command of the 1st army:

"I want the S. O. S. to know how much the 1st army appreciated the prompt response made to every demand for men, equipment, supplies and transportation necessary to carry out the recent operations. Hearty congratulations. The S. O. S. shares the success with it."

Munitions.

Ordnance.

24. Our entry into the war found us with few of the auxiliaries necessary for its conduct in the modern sense. The task of the ordnance department in supplying artillery was especially difficult. In order to meet our requirements as rapidly as possible, we accepted the offer of the French government to supply us with the artillery equipment of 75's, 155 mm. howitzers and 155 G. P. F. guns from their own factories for thirty divisions. The wisdom of this course was fully demonstrated by the fact that, although we soon began the manufacture of these classes of guns at home, there were no guns of American manufacture of the calibers mentioned on our front at the date of the armistice. The only guns of these types produced at home which reached France before the cessation of hostilities were 109 75mm guns. In addition, twenty-four 8-inch howitzers from the United States reached our front and were in use when the armistice was signed. Eight 14-inch naval guns of American manufacture were set up on railroad mounts, and most of these were successfully employed on the Meuse-Argonne front under the efficient direction of Admiral Plunkett of the navy.

Aviation.

25. In aviation we were entirely dependent upon our allies, and here again the French government came to our aid until our own program could be set under way. From time to time we obtained from the French such planes for training personnel as they could provide. Without going into a complete discussion of aviation material, it will be sufficient to state that it was with great difficulty that we obtained equipment even for training. As for up to date combat planes, the development at home was slow, and we had to rely upon the French, who provided us with a total of 2,676 pursuit, observation and bombing machines. The first airplanes received from home arrived in May, and altogther we received 1,379 planes of the De Haviland type. The first American squadron completely equipped by American production, including airplanes, crossed the German lines on Aug. 7, 1918. As to our aviators, many of whom trained with our allies, it can be said that they had no superiors in daring and in fighting ability. During the battles of St. Mihiel and Meuse-Argonne our aviators excelled all others. They have left a record of courageous deeds that will ever remain a brilliant page in the annals of our army.

Tanks.

26. In the matter of tanks, we were compelled to rely upon both the French and the English. Here, however, we were less fortunate, for the reason that our allies barely had sufficient tanks to meet their own requirements. While our tank corps had limited opportunity, its fine personnel responded gallantly on every possible occasion and showed courage of the highest order. We had one battalion of heavy tanks engaged on the English front. On our own front we had only the light tanks, and the number available to participate in the last great assault of Nov. 1 was reduced to sixteen as a result of the previous hard fighting in the Meuse-Argonne.

Chemical Warfare Service.

27 The chemical warfare service represented another entirely new departure in this war. It included many specialists from civil life. With personnel of a high order, it developed rapidly into one of our most efficient auxiliary services. While the early employment of gas was in the form of clouds launched from special projectors, its use later on in the war was virtually by means of gas shells fired by the light artillery. One of the most important duties of the chemical warfare service was to insure the equipment of our troops with a safe and comfortable mask, and the instruction of the personnel in the use of this protector. Whether or not gas will be employed in future wars is a matter of conjecture, but the effect is so deadly to the unprepared that we can never afford to neglect the question.

Administration.

Medical and Sanitary Conditions.

28. The general health of our armies under conditions strange and adverse in many ways to our American experience and mode of life was marvelously good. The proportionate number of men incapacitated from other causes than battle casualties and injuries was low. Of all deaths in the American expeditionary forces (to Sept. 1, 1919) totaling 81,141, there were killed in action, 35,556; died of wounds received in battle, 15,130; other wounds and injuries, 5,669; and died of disease, 24,786. Therefore, but little over two-sevenths the total loss of life in the American expeditionary forces was caused by disease.

Our armies suffered from the communicable diseases that usually affect troops. Only two diseases have caused temporarily excessive sick rates, epidemic diarrhea and influenza, and of these influenza only, due to the fatal complicating pneumonia, caused a serious rise in the death rate. Both prevailed in the armies of our allies and enemies and in the civilian population of Europe.

Venereal disease has been with us always, but the control was successful to a degree never before attained in our armies, or in any other army. It has been truly remarkable when the environment in which our men lived is appreciated. The incidence of venereal disease varied between 30 and 60 per 1,000 per annum, averaging under 40. Up to September, 1919, all troops sent home were free from venereal disease. The low percentage was due largely to the fine character of men composing our armies.

29. Hospitalization represented one of the largest and most difficult of the medical problems in the American expeditionary forces. That the needs were always met and that there was always a surplus of several thousand beds, were the results of great effort and the use of all possible expedients to make the utmost of resources available. The maximum number of patients in hospital on any one day was 193,026, on Nov. 12, 1918.

Evacuation of the sick and wounded was another difficult problem, especially during the battle periods. The total number of men evacuated in the zone of the armies was 214,467, of whom 11,281 were sent in hospital trains to base ports. The number of sick and wounded sent to the United States up to Nov. 11, 1918, was 14,000. Since the armistice, 103,028 patients have been sent to the United States.

30. The army and the medical department were fortunate in obtaining the services of leading physicians, surgeons and specialists in all branches of medicine from all parts of the United States, who brought the most skillful talent of the world to the relief of our sick and wounded. The army nurse corps deserves more than passing comment. These women, working tirelessly and devotedly, shared the burden of the day to the fullest extent with the men, many of them submitting to all the dangers of the battle front.

Records, Personnel and Mail Service.

31. New problems confronted the adjutant-general's department in France. Our great distance from home necessitated records, data, and executive machinery to represent the war department as well as our forces in France. Unusually close attention was paid to individual records. Never before have accuracy and completeness of reports been so strictly insisted upon. Expedients had to be adopted whereby the above requirements could be met without increasing the record and correspondence work of combat units. The organization had to be elastic to meet the demands of any force maintained in Europe.

A statistical division was organized to collect data regarding the special qualifications of all officers and to keep an up to date record of the location, duties, health and status of every officer and soldier, nurse, field clerk and civilian employe, as well as the location and strength of organizations. The central records office at Bourges received reports from the battle front, evacuation and base hospitals, convalescent leave areas, reclassification camps and base ports, and prepared for transmission to the war department reports of individual casualties. Each of the 299,599 casualties was considered as an individual case. A thorough investigation of the men classed as "missing in action" reduced the number from 14,000 at the signing of the armistice to 22 on Aug. 31, 1919.

32. In addition to printing and distributing all orders from general headquarters, the adjutant-general's department had charge of the delivery and collection of official mail and finally of all mail. The motor dispatch service operated twenty courier routes, over 2,300 miles of road, for the quick dispatch and delivery of official communications. After July 1, 1918, the military postal express service was organized to handle all mail, official and personal, and operated 169 fixed and mobile postoffices and a railway postoffice service.

While every effort was exerted to maintain a satisfactory mail service, frequent transfers of individuals, especially during the hurried skeletonizing of certain combat divisions, numerous errors in addresses, hasty handling and readdressing of mail by regimental and company clerks in the zone of operations and other conditions incident to the continuous movement of troops in battle, made the distribution of mail an exceedingly difficult problem.

Inspection—Discipline.

33. The inspector-general's department, acting as an independent agency not responsible for the matters under its observation, made inspections and special investigations for the purpose of keeping commanders informed of local conditions. The inspectors worked unceasingly to determine the manner in which orders were being carried out in an effort to perfect discipline and team play.

The earnest belief of every member of the expeditionary forces in the justice of our cause was productive of a form of self-imposed discipline among our soldiers which must be regarded as an unusual development of this war, a fact which materially aided us to organize and employ in an incredibly short space of time the extraordinary fighting machine developed in France.

Our troops generally were strongly imbued with an offensive spirit essential to success. The veteran divisions had acquired not only this spirit, but the other elements of fine discipline. In highly trained divisions, commanders of all grades operate according to a definite system calculated to concentrate their efforts where the enemy is weakest. Straggling is practically eliminated; the infantry, skillful in fire action and the employment of cover, gains with a minimum of casualties; the battalion, with all of its accompanying weapons, works smoothly as a team in which the parts automatically assist each other; the artillery gives the infantry close and continuous support; and unforeseen situations are met by prompt and energetic action.

This war has only confirmed the lessons of the past. The less experienced divisions, while aggressive, were lacking in the ready skill of habit. They were capable of powerful blows, but their blows were apt to be awkward—teamwork was often not well understood. Flexible and resourceful divisions cannot be created by a few maneuvers or by a few months' association of their elements. On the other hand, without the keen intelligence, the endurance, the willingness, and enthusiasm displayed in the training area, as well as on the battle field, the successful results we obtained so quickly would have been utterly impossible.

Military Justice.

34. The commanders of armies, corps, divisions, separate brigades and certain territorial districts were empowered to appoint general courts-martial. Each of these commanders had on his staff an officer of the judge-advocate general's department, whose duty it was

to render legal advice and to assist in the prompt trial and just punishment of those guilty of serious infractions of discipline.

Prior to the signing of the armistice, serious breaches of discipline were rare, considering the number of troops. This was due to the high sense of duty of the soldiers and their appreciation of the seriousness of the situation. In the period of relaxation following the cessation of hostilities, infractions of discipline were naturally more numerous, but not even then was the number of trials as great in proportion to the strength of the force as is usual in our service.

35 It was early realized that many of the peace time methods of punishment were not the best for existing conditions. In the early part of 1918 it was decided that the award of dishonorable discharge of soldiers convicted of an offense involving moral turpitude would not be contemplated, except in the most serious cases. To remove these soldiers temporarily from their organizations, division commanders were authorized to form provisional temporary detachments to which such soldiers could be attached. These detachments were retained with their battalions so that offenders would not escape the dangers and hardships to which their comrades were subjected. Wherever their battalion was engaged, whether in front line trenches or in back areas, these men were required to perform hard labor. Only in emergency were they permitted to engage in combat. Soldiers in these disciplinary battalions were made to understand that if they acquitted themselves well they would be restored to full duty with their organizations.

All officers exercising disciplinary powers were imbued with the purpose of these instructions and carried them into effect. So that nearly all men convicted of military offenses in combat divisions remained with their organizations and continued to perform their duty as soldiers. Many redeemed themselves by rendering valiant service in action and were released from the further operation of their sentences.

36 To have the necessary deterrent effect upon the whole unit, courts-martial for serious offenses usually imposed sentences considerably heavier than would have been awarded in peace times. Except where the offender earned remission at the front, these sentences stood during hostilities. At the signing of the armistice steps were at once taken to reduce outstanding sentences to the standards of peace time.

Provost Marshal General's Department.

37. On July 20, 1917, a provost marshal general was appointed with station in Paris, and later the department was organized as an administrative service with the provost marshal general functioning under the first section, general staff. The department was developed into four main sections—the military police corps which served with divisions, corps and armies and in the sections of the services of supply; the prisoner of war escort companies; the criminal investigation department; and the circulation department. It was not until 1918 that the last mentioned department became well trained and efficient. On Oct. 15, 1918, the strength of the corps was increased to 1 per cent of the strength of the American expeditionary forces, and provost marshals for armies, corps and divisions were provided.

The military police of the American expeditionary forces developed into one of the most striking bodies of men in Europe. Wherever the American soldier went, there our military police were on duty. They controlled traffic in the battle zone, in all villages occupied by American troops, and in many cities through which our traffic flowed; they maintained order, so far as the American soldiers were concerned, throughout France and in portions of England, Italy, Belgium and occupied Germany. Their smart appearance and military bearing and the intelligent manner in which they discharged their duties left an excellent impression of the typical American on all with whom they came in contact.

PART IV.—MISCELLANEOUS SUBJECTS.

Prisoners of War.

1. All prisoners taken by the American troops were kept at least thirty kilometers behind the lines under guard by the provost marshal general's department, except wounded or sick prisoners, who were immediately sent to hospitals for treatment. Arrangements were made with the French and British that prisoners taken by our units operating with them should be sent to American inclosures. The provost marshal general was instructed to follow the principles of The Hague and the Geneva conventions in the treatment of prisoners, although these were not recognized by the United States as binding in the present war. Prisoners were organized into labor companies, and were employed on work which had no distinct bearing on military operations. The officer prisoners of war were accorded the same treatment as received by American officers confined in Germany. A prisoner of war information bureau was established in the central records office. Under a mutual understanding with the German government, payments were made to prisoners in the form of credits and, subject to censorship, they were allowed to send and receive letters and packages. Religious meetings were held by prisoner chaplains, assisted by our army chaplains and welfare workers.

2. From June, 1918, to the end of March, 1919, a total of 48,280 enemy prisoners were handled by the provost marshal general's department, of whom ninety-three died and seventy-three escaped and were not recaptured. At the request of the French government, 516 prisoners, natives of Alsace-Lorraine, were released after examination by a French commission. In accordance with the provisions of the Geneva convention, fifty-nine medical officers and 1,783 men of the sanitary personnel, including 333 members of the German Red Cross, were repatriated. On April 9, 1919, we commenced to repatriate enemy prisoners who were permanently unfit for further military duty and those who could not perform useful labor.

3. Through the Berlin Red Cross and the International Red Cross at Geneva, an American Red Cross committee at Bern received lists of all American prisoners taken by the German troops, to each of whom, when located, was sent a package containing food, tobacco, clean underclothing and toilet articles, and thereafter two packages a week. By a system of return post cards, it was determined that 85 per cent of these packages were received.

As soon as the armistice was signed the Germans released large numbers of allied prisoners, who immediately started toward the allied lines. Four American regional replacement departments were established, to which all returning Americans were sent until proper records could be made. Those in good physical condition were sent to their commands, while the others were sent to hospitals or to leave areas for a rest.

An allied commission was formed in Berlin early in December, 1918, for the repatriation of allied prisoners, with representatives from each of the American, British, French and

Italian armies. American prisoners were evacuated through Switzerland in fully equipped trains, including hospital cars, provided by the Swiss government and paid for by our government. These were met by American trains at the Swiss border. It was planned to withdraw all our prisoners by this route, but a number had already been withdrawn through the northern ports and taken to England in British ships.

The allied commission obtained a statement of moneys paid Americans while in German prisons; investigated complaints concerning treatment of Americans; obtained possession of effects of prisoners who had died in captivity, or which had been left behind by those repatriated; and also located the graves of the American dead.

4. On Nov. 11, 1918, there were 248 American officers and 3,302 men in the hands of the Germans, all of whom were evacuated by Feb. 5, 1919. None of our prisoners were condemned to death, although one officer and twenty men died in captivity.

5. An interallied agreement on Jan. 13, 1919, created a commission for the control of Russian prisoners in Germany. The British and American representatives, aided by small unarmed detachments, were charged with the administration of the Russian prison camps, and succeeded in discharging their duties despite the civil disorders in Germany.

Early in January, 1919, the Red Cross outlined a plan to send a commission to Germany to assist in caring for and feeding Russian prisoners, and an American officer was detailed to assist and accompany this commission. The Red Cross being financially unable to furnish the necessary food, arrangements were finally made with the French government to furnish funds for its purchase from our army stores, without any responsibility being assumed by the army, as was desired by the allied food commission. Such supplies as could be spared by the army were sold to the French, and American officers were detailed to assist in their distribution. On April 10, 1919, the supreme allied war council decided to give the German government complete freedom in repatriating Russian prisoners of war, stipulating only that none should be repatriated by force, and that all who left must be provided with sufficient food for the journey.

Civil Administration of Occupied Territory.

6. To insure law and order, it was necessary that an American civil administration be created in the occupied territory. Different policies were adopted toward Luxemburg and occupied Germany, the former being a disarmed neutral and the latter occupied enemy territory. In both regions we issued proclamations defining our attitude toward the inhabitants.

In accordance with the precedent of our government under similar circumstances, the local civil government remained in full possession of its former power, and retained jurisdiction over all civil matters. The organization of our civil administration in occupied territory prescribed for the control of civil affairs by the officer in charge of civil affairs in occupied territory, under whom army, corps and division commanders detailed suitable officers in local charge of civil matters. In the grand duchy of Luxemburg, civil affairs were regulated by a corresponding representative with an office in the city of Luxemburg.

7. The principle of requisitioning supplies was exercised extensively throughout the area, always under central control and without abuse of the privilege. Under a board of appraisal payment was made for all property requisitioned, the money being obtained from the German government under the terms of the armistice. Food and forage were not requisitioned, and during most of the period of occupation our officers and men were not allowed to purchase any German food and were forbidden to eat in the restaurants and cafes.

In Luxemburg billeting arrangements and payment therefor were provided for by an agreement with the government of Luxemburg.

Under instructions from the state department, the interests of American citizens found in occupied Germany were referred to the American embassy in Paris; in Luxemburg to the American legation at The Hague.

8. We insisted upon the Germans maintaining all public utilities. After being inspected, measures were taken to assure priority of fuel supply in case of coal shortage due to strikes in the Ruhr and Saar districts or other causes. One of our chief problems was the maintenance and repair of roads and highways and this at first necessitated the employment of soldier labor. As soon as possible a satisfactory system of road preservation and improvement was inaugurated, utilizing German civil labor.

To control and supervise the movement of funds and securities, all banks and banking houses were required to submit monthly reports. Trade and blockade regulations were controlled through the American section of the interallied economic committee.

9. The civil administration issued instructions relative to courts. Army, corps and divisional commanders were authorized to convene military commissions and appoint superior provost courts for their respective districts; and commanding officers of each city, town or canton appointed an inferior provost court. All of these courts were for the trial of offenses against the laws of war or the military government. Our legal machinery was simple, and successful results in maintaining law and order were due to the uniform and strict enforcement of such few regulations as proved necessary.

Strict censorship was maintained over postal, telephone and telegraphic communications. Passes and circulation were first handled by the department of civil affairs, but on Jan. 24, 1919, the 3d army took charge of those matters.

In connection with the reconstruction work in France and Belgium, the department of civil affairs prepared a record of all recovered stolen property, and measures were taken to protect it against deterioration or unauthorized removal.

10. The fraternization problem was sharply raised by the sudden transition from the rigors of war conditions in France to the comforts of undisturbed German cities and homes, but a realization by our troops of their position in enemy territory and of their duty to maintain the dignity of their own country reduced infractions of rules on the subject to a minimum.

Execution of Armistice Terms.

11. The first armistice agreement provided for supervision by a permananet international armistice commission to function under the authority of the commander in chief of the allied armies. The United States, Great Britain, Belgium, France, Italy and Germany were represented on the permanent international armistice commission. The chairman of this commission and of the five main committees were French. These committees were organized to care specifically for the work in connection with material, transportation, prisoners of war, entretien and restitution. The United States was represented on each of these main committees.

12. The Germans unsuccessfully attempted to enter the permanent armistice commission on the basis of negotiation. Many adjustments were made because of the difficulties under which the German authorities were working, but in general they were held strictly to the spirit of the terms of the armistice agreement. Time of delivery was often extended, but penalties were imposed for failure to comply with the conditions. All aeroplanes were not obtained until a penalty was imposed of twenty horses for each undelivered plane. Evacuation of occupied territory and repatriation of civilian inhabitants and of prisoners of war were begun immediately and carried out promptly.

13. In the distribution among the allied armies of ordnance and aeroplanes surrendered by the enemy, the Belgian army received one-tenth, American army two-tenths, British army three-tenths and French army four-tenths. Our share was 720 field guns, 534 heavy guns, 589 trench mortars, 10,356 machine guns and 340 aeroplanes. Railway rolling stock was divided according to the needs of the railway systems serving the different armies.

14. The question of expense of maintenance of the armies of occupation caused considerable discussion among the allies and protests from the Germans. This was due to the diversity of opinion as to the items properly chargeable to the expense of an army of occupation. My policy was that, pending final settlement by the peace conference, Germany would be liable for all expenses of the American army of occupation; that any payments made by Germany for this purpose were to be considered as partial payments on account of the whole sum, and not as a liquidation of any specific expenses. Money was deposited in Coblenz banks to the credit of the United States, in amounts notified as necessary, to cover all expenditures made in the occupied area. The total expense as calculated by the different allied armies, before any of our troops were withdrawn, was based on the effective strength as shown by their tables of organization, and appears as follows:

Armies.	Officers.	Men.	Horses.	Cost per month in francs.
French	11,570	35,500	116,100	175,948,815.00
Belgian	1,834	39,430	11,600	30,195,142.60
British	12,000	240,000	70,000	127,935,000.00
United States	12,358	275,617	58,755	269,068,184.10
Total				603,147,141.70

United States Liquidation Commission.

15. In February, 1919, upon my recommendation, the secretary of war appointed the United States liquidation commission, war department, which had charge of the liquidation of our affairs in France, the sale of our property and installations and the settlement of claims exclusive of those arising out of torts, which were handled by the renting, requisition and claims service. While not under my supervision, the liquidation commission played such an important part in the closing chapter of our activities that some mention of it should be made in this report. With the dissolution of the American expeditionary forces we were confronted with the problem of disposing of large port and other installations and immense quantities of transportation, materiel, supplies and equipment. Much of this was of an immovable nature and the shipping situation forbade the transfer to the United States of most of the movable effects. There was little or no demand for many of the articles to be disposed of, and the expense of maintaining a force of caretakers until the market improved would have been prohibitive. The successful negotiations of the commission led to the liquidation of our affairs with France by the payment of a lump sum to the United States by the French government.

Relations with the Allies.

16. Our troops arrived in Europe after France and Great Britain had been fighting desperately for nearly three years, and their reception was remarkable in its cordiality. The resources of our allies in men and material had been taxed to the limit, but they always stood ready to furnish us with needed supplies, equipment and transportation when at all available. We were given valuable assistance and co-operation in our training program by both the French and British armies, and when the shortage of labor personnel in our forces became acute the French government rendered material assistance in the solution of this problem.

It was our good fortune to have a year in France to organize and train our forces. When our troops entered the battle the veteran soldiers of France and England gave them moral and physical support. The artillery of our allies often supported the advance of American troops; British and French tanks frequently co-operated with our infantry; and their aviators fought in the air to assist the American soldier.

Throughout France our troops have been intimately associated with the French people, particularly the French peasant, and the relations growing out of these associations assure a permanent friendship between the two peoples. The small force of Americans serving in Italy was accorded a warm welcome and established with the Italian people the most friendly relations. The hospitable reception of those of our forces who passed through England has impressed upon us how closely common language and blood have brought together the British and ourselves.

The co-operation of our soldiers with the French, British, Belgians and Italians was decisive in bringing the war to a successful conclusion, and will have an equally decisive effect in welding together the bonds of sympathy and good will among the peoples of these nations and ourselves.

Welfare Work.

Allied Food Commission.

17. At the request of the allied food commission a selected personnel of 320 officers and 464 men was placed at the disposal of the commission. There was no other American personnel in Europe or elsewhere available for this necessary work. Our officers were sent to various countries in charge of food distribution, and were everywhere received with the utmost friendliness. These officers and men, by their executive and administrative ability and their energetic resourcefulness, were in a large measure responsible for the manner in which these food supplies were delivered to the various peoples in central Europe during a period of civil unrest or complete disorder. By their disinterested conduct of this charitable work, they won for the American army the admiration of the populations whom they served.

Societies.

18. In their respective spheres of activity the Red Cross and Y. M. C. A. undertook the burden of supplying the needs of the entire American expeditionary forces. Their efforts were in many respects limited by a lack of tonnage. But shortage in tonnage, transportation, or personnel, meant inability to carry out completely their appointed tasks; whereas, with the smaller societies it meant inability to expand. In order to avoid duplication of effort, it was directed in August, 1917, that the Red Cross confine its activities to relief work, and the Y. M. C. A. to amusement and recreation. The Knights of Columbus and the Salvation Army were later given official recognition. The Y. W. C. A., Jewish Welfare Board and American Library association conducted their activities through one of the established societies.

19. The American Red Cross maintained within our zones a system of "line of communication canteens," which furnished refreshments and relief to troops in transit and became a valuable feature of the Red Cross work. The statistical work of the searchers attached to statistical sections and to hospitals obtained much information for relatives. This society also aided in locating American prisoners, to whom it sent food from Switzerland.

20. To avoid depleting our personnel, the Y. M. C. A. agreed to operate our canteens and was at first allotted 208 ship tons per 25,000 men per month to bring supplies from the United States, but the requirements of other services later made it necessary to reduce this allotment to 100 tons. This materially reduced the valuable service the Y. M. C. A. might have rendered in this work. The termination of hostilities made it possible to relieve the society of this responsibility.

21. The need of greatly expanded welfare work after hostilities, such as athletics and education, was at once recognized, and the cooperation of the welfare societies in all these activities was of inestimable value. Immediately after the armistice steps were taken to provide diversion and entertainment for our troops. Entertainment officers were appointed in all units, and the Y. M. C. A. entertainment department furnished professionals and acted as a training and booking agency for soldier talent. Approximately 650 "soldier shows" were developed, which entertained hundreds of thousands of soldiers, who will remember this as one of the pleasant and unique enterprises of the American expeditionary forces.

The athletic program in the spring of 1919 culminated in the interallied games in June, held in the concrete stadium erected by our engineers near Paris, the necessary funds being contributed by the Y. M. C. A. In number of participants and quality of entry, these games probably surpassed any of the past Olympic contests.

Leaves and Leave Areas.

22. A leave system announced in general orders provided for a leave of seven days every four months, but it was necessary to suspend the privilege during active operations. In the leave areas free board and lodging at first class hotels were provided for soldiers, and the Y. M. C. A. furnished recreational and amusement facilities. A number of new areas were opened by the services of supply immediately after the armistice, improved transportation accommodations were eventually secured, and arrangements were made whereby men could visit England, Belgium and Italy.

It was my desire that every man in the American expeditionary forces should be given an opportunity to visit Paris before returning to the United States, but the crowded condition of the city during the peace conference, transportation difficulties and other reasons made it necessary to limit the number of such leaves.

Religious Work.

23. Religious work in our army before the war was carried on by chaplains, one to each regiment. To meet the greatly increased size of regiments, legislation was recommended by me to provide not less than one chaplain for each 1,200 men. Although such act was passed in June, 1918, there was a continuous shortage of chaplains with the fighting units and in the hospitals and camps in the rear areas. This was largely met through ready co-operation of the welfare societies, who sent ministers and priests where most needed. Religious workers in the Y. M. C. A. and Knights of Columbus and Red Cross also aided in the work, the Red Cross sending chaplains to the states with units in many instances.

The religious work was directed and co-ordinated by a board of chaplains at general headquarters, of which Bishop Charles H. Brent was the head. With great devotion to duty this work was maintained despite a lack of transportation and other facilities. Chaplains, as never before, became the moral and spiritual leaders of their organizations, and established a high standard of active usefulness in religious work that made for patriotism, discipline and unselfish devotion to duty.

Educational Work.

24. Prior to the armistice, educational work was conducted through the organization of voluntary classes under the Y. M. C. A., the popular subjects studied being French language, French history and the causes of the war. After the armistice measures were taken for a systematic organization of nonmilitary educational training.

The formal school work began Jan. 2, with post schools. Then divisional educational centers gave the equivalent of high school instruction and specialized on vocational training. The American expeditionary forces university at Beaune carried on undergraduate and graduate work for the technical professions, while postgraduate work was provided by the entrance of our officers and soldiers into French and British universities. Special schools were organized to meet demands, such as the practical agricultural school at Allery and the art training center at Paris, for painting, sculpture, architecture and interior decoration, advanced students being entered in the best ateliers of Paris. Active instruction was carried on in the base hospitals and convalescent camps.

An important branch of the educational work was the field institute of short courses and educational extension lectures, organized to meet conditions due to the rapid repatriation of our soldiers and the constant movement of troops. At least half of our forces were reached by this means with brief intensive courses in business, trades, engineering, agriculture, occupational guidance and in citizenship.

25. On April 15 all educational work came under the complete control of the training section of the general staff. The advantage of this change in management was at once apparent in the better co-ordination of the work of an excellent body of educators. The total attendance in the organized school system of the American expeditionary forces was 230,020, of which number 181,475 attended post schools, 27,250 educational centers, 8,528 the American expeditionary forces university at Beaune, 367 art training centers, 4,144 mechanical trade schools, 6,300 French univer-

sities and 1,956 British universities. The attendance upon the institute short courses totaled 690,000 more, and at the extension lectures 750,000, giving a grand total of attendance at all educational formations of 1,670,020.

The educational work in the American expeditionary forces was of undoubted value, not only in improving morale, but in concrete benefit to the individual officer and soldier. It demonstrated satisfactorily that a combined military and educational program can be carried out in the army with little detriment to pure military training and with decided advantage to the individual.

Stars and Stripes.

26. The Stars and Stripes was a weekly newspaper conceived with the idea of increasing the morale of American troops by providing a common means of voicing the thought of the entire American expeditionary forces. Edited and managed by enlisted men, who declined promotion, preferring to remain in the ranks in order better to interpret the spirit of the army, it was a great unifying force and materially aided in the development of an esprit de corps. It lent loyal and enthusiastic support to army athletics and to the educational program. In leading the men of our army to laugh at their hardships it was a distinct force for good and helped to create a healthy viewpoint. The campaign it conducted for the benefit of French orphans resulted in a fund of 2,250,000 francs.

Appreciation.

27. In this brief summary of the achievements of the American expeditionary forces it would be impossible to cite in detail the splendid ability, loyalty and efficiency that characterized the service of both combatant and noncombatant individuals and organizations. The most striking quality of both officers and men was the resourceful energy and common sense employed, under all circumstances, in handling their problems.

The highest praise is due the commanders of armies, corps and divisions, and their subordinate leaders, who labored loyally and ably toward the accomplishment of our task, suppressing personal opinions and ambitions in the pursuit of the common aim; and to their staffs, who developed, with battle experience, into splendid teams without superiors in any army.

To my chiefs of staff, Maj.-Gen. James G. Harbord, who was later placed in command of the services of supply, and Maj.-Gen. James W. McAndrew, I am deeply indebted for highly efficient services in a post of great responsibility.

The important work of the staff at general headquarters in organization and administration was characterized by exceptional ability and a fine spirit of co-operation. No chief ever had a more loyal and efficient body of assistants.

The officers and men of the services of supply fully realized the importance of their duties, and the operations of that vast business system were conducted in a manner which won for them the praise of all. They deserve their full share in the victory.

The American civilians in Europe, both in official and private life, were decidedly patriotic and loyal, and invariably lent encouragement and helpfulness to the armies abroad.

The various societies, especially their women, including those of the theatrical profession, and our army nurses, played a most important part in brightening the lives of our troops and in giving aid and comfort to our sick and wounded.

The navy in European waters, under command of Admiral Sims, at all times cordially aided the army. To our sister service we owe the safe arrival of our armies and their supplies. It is most gratifying to record that there has never been such perfect understanding between these two branches of the service.

Our armies were conscious of the support and co-operation of all branches of the government. Behind them stood the entire American people, whose ardent patriotism and sympathy inspired our troops with a deep sense of obligation, of loyalty and of devotion to the country's cause never equaled in our history.

Finally, the memory of the unflinching fortitude and heroism of the soldiers of the line fills me with greatest admiration. To them I again pay the supreme tribute. Their devotion, their valor and their sacrifices will live forever in the hearts of their grateful countrymen.

In closing this report, Mr. Secretary, I desire to record my deep appreciation of the unqualified support accorded me throughout the war by the president and yourself. My task was simplified by your confidence and wise counsel. I am, Mr. Secretary,

Very respectfully,

JOHN J. PERSHING,
General, Commander in Chief,
American Expeditionary Forces.

AMERICAN CASUALTIES IN WORLD WAR.

The following detailed statistics of casualties among members of the American expeditionary forces during the world war were compiled in the office of the adjutant-general of the army. They include losses in all the fields of action except in Siberia:

DEAD.

Killed in action	34,249
Officers	1,563
Enlisted men	32,686
Died of wounds	13,700
Officers	580
Enlisted men	13,120
Died of disease	23,430
Officers	615
Enlisted men	22,815
Died of accident	2,019
Officers	336
Enlisted men	1,683
Drowned	306
Officers	7
Enlisted men	299
Suicide	272
Officers	46
Enlisted men	226
Murder or homicide	154
Officers	3
Enlisted men	151
Executed—Court-martial	10
Officers	0
Enlisted men	10
Other known causes	489
Officers	19
Enlisted men	470
Causes undetermined	1,839
Officers	42
Enlisted men	1,797
Presumed dead	650
Officers	36
Enlisted men	614
Total dead	77,118
Officers	3,247
Enlisted men	73,871

PRISONERS.

Unaccounted for	15
Officers	2
Enlisted men	13
Repatriated	4,270
Officers	275
Enlisted men	3,995
Died	147
Officers	20
Enlisted men	127
Total prisoners	4,432
Officers	297
Enlisted men	4,135

WOUNDED.

Slightly	91,188
Officers	3,383
Enlisted men	87,805
Severely	83,389
Officers	3,204
Enlisted men	80,185
Degree undetermined	46,482
Officers	1,550
Enlisted men	44,932
Total wounded	221,059
Officers	8,137
Enlisted men	212,922

MISSING IN ACTION.

Total missing in action	3
Officers	0
Enlisted men	3

TOTAL CASUALTIES.

Total casualties	302,612
Officers	11,681
Enlisted men	290,931

Note—Included in the total casualties are 1,217 foreigners, of whom 31 were officers.

COST OF THE WORLD WAR.

PROF. BOGART'S ESTIMATES.

Since the close of the world war attempts have been made by a number of competent statisticians and economists to compute the cost in money of the great struggle. The results arrived at vary according to the methods used in assembling the figures, the sources of information and the exact period of time covered. One of the most careful studies of the subject was made by Ernest L. Bogart, professor of economics in the University of Illinois, under the auspices of the Carnegie Endowment for International Peace. He arrived at the conclusion that the direct costs were $186,333,637,097 and the indirect costs $151,612,542,560, making a grand total of $337,946,179,657. His estimate of the net direct cost to each of the active belligerents follows:

United States	$22,625,252,843
Great Britain	35,334,011,868
Rest of empire	4,493,813,072
France	24,312,782,800
Russia	22,593,950,000
Italy	12,413,998,000
Other entente allies	3,963,867,914
Total	125,690,476,497
Germany	37,775,000,000
Austria-Hungary	20,622,960,600
Turkey and Bulgaria	2,245,200,000
Total	60,643,160,600
Grand total	186,333,637,097

The net cost was arrived at by subtracting from the gross cost, estimated at $208,405,851,222, the advances amounting to $22,072,214,125 by the United States, Great Britain and France to the other allies.

Prof. Bogart gives the following summary of the indirect costs of the war:

Human life—*Soldiers	$33,551,276,280
Civilians	33,551,276,280
Property loss—On land	29,960,000,000
Shipping and cargo	6,800,000,000
Loss of production	45,000,000,000
War relief	1,000,000,000
Loss to neutrals	1,750,000,000
Total	151,612,542,560

*Capitalized value.

Capitalized Value of Human Life.

Some ten years ago M. Barriol, a noted French actuary, estimated the average social

value of an individual in each of six leading countries to be:

United States	$4,720
England	4,140
Germany	3,380
France	2,900
Austria-Hungary	2,750
Russia	2,020

Using these valuations as a basis and applying the French valuation to Belgium and the Russian valuation to Italy and the minor belligerents, Prof. Bogart shows the costs of the war resulting from the deaths of soldiers to be as follows:

Country	Lives lost.	Value
United States	109,740	$517,972,800
England	839,904	3,477,202,560
Germany	1,997,365	6,751,093,700
France	1,654,550	4,798,195,000
Austria-Hungary	1,132,500	3,114,375,000
Russia	4,012,064	8,104,369,280
Belgium	272,000	788,800,000
Italy	1,180,660	2,397,053,200
Serbia	757,343	1,529,832,860
Roumania	397,117	802,176,340
Greece	37,500	75,750,000
Portugal	4,100	8,282,000
Japan	301	608,020
Turkey	488,789	987,353,780
Bulgaria	106,637	215,406,740
Total	12,990,570	33,568,471,280
Estimated loss resulting from deaths among civilians (the number of such deaths being supposed to equal the number of deaths in the armies)		33,568,471,280
Total valuation of lives lost		67,136,942,560

Property Losses on Land.

Prof. Bogart estimates the property losses on land at $29,960,000,000, divided as follows:

Belgium	$7,000,000,000
France	10,000,000,000
Russia	1,250,000,000
Poland	1,500,000,000
Serbia, Albania and Montenegro	2,000,000,000
East Prussia, Austria and Ukraine	1,000,000,000
Italy	2,710,000,000
Roumania	1,000,000,000
British empire	1,750,000,000
Germany	1,750,000,000
Total	29,960,000,000

Losses at Sea.

According to Prof. Bogart the maritime losses in the great war amounted to $6,800,000,000. The gross tonnage of the merchant vessels lost between Aug. 1, 1914, and Nov. 11, 1918, is shown in the following table:

Country of registry.	Enemy action.	Marine risk
United States	394,658	430,759
Great Britain	7,756,659	1,143,000
Norway	1,177,001	
Italy	846,333	
France	888,783	
Denmark	240,860	
Sweden	200,829	
Greece	345,516	
Russia	182,933	
Holland	203,190	
Spain	167,865	710,285
Portugal	93,136	
Belgium	83,819	
Japan	120,176	
Brazil	25,464	
Argentina	4,275	
Uruguay	6,027	
Peru	1,419	
Roumania	3,973	
Persia	758	
Allies and neutrals	12,743,674	2,284,044
Germany	187,340	86,265
Austria	15,166	20,433
Turkey	61,470	
Total all countries	13,007,650	2,390,742
Grand total all sink'gs		15,398,392

Cost to Neutral Nations.

The cost of the world war to neutral nations in maintaining their neutrality is estimated by Prof. Bogart to have been:

Holland	$672,000,000
Switzerland	250,000,000
Sweden	429,800,000
Norway	130,000,000
Denmark	90,000,000
Other countries	178,200,000
Total	1,750,000,000

Expenditures Not Ended

It is pointed out by Prof Bogart that the expenditures on account of the war were continuing when he made his estimates and that these will continue for years to come He also calls attention to the fact that the real costs of the war cannot be measured by the direct money outlays of the belligerents during the five years of its duration but that the breakdown of modern economic society may be the price exacted

E. R. A. SELIGMAN'S ESTIMATE

Edwin R. A Seligman, a noted New York economist, in an article published in the American Economic Review for December, 1919, estimated the total net war expenditures of all the belligerents at $210,935,000,000, distributed as follows:

Great Britain—Aug. 4, 1914, Mar. 31, 1919	$41,887,000,000
Australia — Aug. 4, 1914, Mar. 31, 1919	1,461,000,000
New Zealand—Aug. 4, 1914, Mar. 31, 1919	365,000,000
Canada—Aug. 4, 1914, Aug. 31, 1919	1,545,000,000
South Africa—Aug. 4, 1914, Mar. 31, 1919	243,000,000
India — Aug. 4, 1914, Mar. 31, 1919	584,000,000
British empire	46,085,000,000
France—Aug. 3, 1914, Mar 31, 1919	32,617,000,000
Russia—Aug. 1, 1914, Oct 31, 1917	26,522,000,000
Italy — May 23, 1915, May 31, 1919	15,636,000,000
Belgium—Aug. 2, 1914, Oct. 31, 1919	1,387,000,000
Roumania — Aug. 27, 1916, Oct. 31, 1918	907,000,000
Serbia—July 28, 1914, Oct. 31, 1918	635,000,000
United States—April 5, 1917, June 30, 1919	32,261,000,000
Allied powers	156,050,000,000
Germany—Aug. 1, 1914, Oct. 31, 1919	48,616,000,000
Austria-Hungary — July 28, 1914, July 31, 1919	24,858,000,000
Turkey—Nov. 3, 1914, Oct. 31, 1918	1,802,000,000
Bulgaria—Oct. 4, 1915, Oct. 31, 1918	732,000,000
Central powers	76,008,000,000
Total	232,058,000,000

Loans to Allies.

Great Britain	$8,467,000,000
France	1,293,000,000
Germany	2,261,000,000

United States	$9.102.000.000
Total loans	21.123.000.000
Net war expenditures	210,935,000,000

COL. L. P. AYRES' ESTIMATE.

Col. Leonard P. Ayres, chief of statistics branch of the general staff of the United States army, made the following estimate of the total war expenditures of all nations up to May, 1919:

Great Britain and dominions	$38.000.000.000
France	26.000.000.000
United States	22,000,000,000
Russia	$18,000,000,000
Belgium, Roumania, Portugal, Jugo Slavia	5.000.000.000
Italy	13.000.000.000
Japan and Greece	1,000,000,000
Total allies and U. S.	123,000,000,000
Germany	39.000.000.000
Austria-Hungary	21.000.000.000
Turkey and Bulgaria	3,000,000,000
Total central empires	63.000.000.000
Grand total	186,000,000,000

BRITISH SHARE IN WORLD WAR VICTORY.

Early in 1920 tables were published with official sanction in the London Times for the purpose of giving the public a comprehensive idea of the British empire's contribution to the victory of the allies over Germany. First place in man power was given to France, though it was stated that actual figures had not up to that time been available for comparison. Great Britain between Aug. 4, 1914, and Nov. 11, 1918, had passed more than 8,000,000 men through the ranks of her armies, and was entitled to the second place, while the third largest contribution had been made by the United States, which had sent close to 2,000,000 men to fight in France. Following are the tables:

TOTAL OF BRITISH TROOPS.

British Isles	5,704,416
Canada	640,886
Australia	416,809
New Zealand	220,099
South Africa	136,070
India	1,401,350
Other colonies*	134,837
Total	8,654,467

*Includes colored troops recruited from South Africa, West Indies, etc.

TOTAL CASUALTIES.

	Deaths.	Prisoners.	Wounded.
British isles	662,083	140,312*	1,644,786
Canada	56,119	306*	149,733
Australia	58,460	164*	152,100
New Zealand	16,132	5*	40,749
South Africa	6,928	33*	11,444
India	47,746	871*	65,126
Other colonies†	3,649	366*	3,504
	851,117	142,057	2,067,442

*Prisoners repatriated not shown. Men known to be killed shown under heading of "Deaths." "Prisoners" includes missing. †Includes colored troops from South Africa, etc., but excludes 44,262 African native followers—i.e., died and killed, 42,318; wounded, 1,322; missing, 622. The deaths were due mainly to epidemics.

STRENGTH OF BRITISH ARMY IN FRANCE IN 1918.

	Ration.	Combatant.	Rifle.
March 11	1,828,098	1,293,000	616,000
April 1	1,667,701	1,131,124	528,617
Sept. 23	1,752,829	1,200,181	493,306
Nov. 11	1,731,578	1,164,790	461,748

Ration strength comprises the total number of men—excluding colored labor and prisoners of war—who were being fed from army stocks in France. The London Times compares the foregoing with the strength of the American army in France on different dates. On Nov. 11, 1918, the ration strength was 1,924,000, the combatant strength, 1,160,000 and the rifle strength—officers and men of infantry battalions alone—322,000.

COMPARISON OF CAPTURES.

The capture of prisoners and guns in France during the victorious offensive against the German army between July 18 and Nov. 11 was as follows:

Armies.	Prisoners.	Guns.
British	200,000	2,540
French	135,720	1,880
American	43,300	1,421
Belgian	14,500	474

NAVAL VESSELS LOST IN THE WAR.

The following figures obtained by Reuter's Agency from an authoritative source in Paris, Feb. 28, 1919, show the total war losses incurred by the navies of the allies and the central powers in the period between Aug. 1, 1914, and Nov. 11, 1918:

	Britain.	France.	Italy.	Japan.	U. S.	Germany	Austria-Hungary.
Battle ships	13	4	3	1	..	1	3
Battle cruisers	3	..	..	..	..	1	..
Cruisers	27	5	2	4	1	24	2
Monitors	6	..	1	..	..	..	3
Destroyers	64	14	10	3	2	72	5
Torpedo boats	10	8	5	1	..	51	4
Submarines	50	14	8	..	1	205	8
Small craft	27	9	..	..	..	..	..
Total tonnage	550,000	110,000	76,000	50,000	17,000	350,000	65,000

Total for all the allies—803,000 tons. Total for the central powers—415,000 tons.

These figures include vessels lost through accident as well as those sunk through enemy action. This accounts for the large number of battle ships figuring in Great Britain's losses.

The total casualties in the British navy were 39,766, of whom 33,361 were killed or died from wounds and other causes.

NUMBER OF THE STARS.

According to the best astronomers the number of stars that can be seen by a person of average eyesight is only about 7,000. The number visible through the telescope has been estimated by J. E. Gore at 70,000,000 and by Profs. Newcomb and Young at 100,000,000.

CHRONOLOGY OF THE WORLD WAR.

1914.

June 28—Archduke Francis Ferdinand and wife assassinated in Sarajevo, Bosnia.
July 28—Austria-Hungary declares war on Serbia.
Aug. 1—Germany declares war on Russia; general mobilization begun.
Aug. 3—Germany declares war on France.
Aug. 4—State of war between Great Britain and Germany is declared; Germany declares war on Belgium.
Aug. 8—Germans capture Liege.
Aug. 20—German troops enter Brussels.
Aug. 23—Japan declares war on Germany.
Aug. 26—Large part of Louvain destroyed by Germans.
Aug. 28—British win naval battle near Helgoland.
Aug. 29—Germans defeat Russians at Allenstein; Germans occupy Amiens.
Sept. 1—Germans win battle of Tannenberg, East Prussia; cross the Marne in France.
Sept. 2—Lemberg captured by Russians; seat of French government transferred from Paris to Bordeaux.
Sept. 5—England, France and Russia sign compact not to conclude peace separately.
Sept. 6—Allies win battle of Marne.
Sept. 7—Germans retreat from the Marne; capture Maubeuge.
Sept. 7-10—Germans retreat to the Aisne.
Sept. 14—Battle of Aisne begins.
Sept. 15—First battle of Soissons fought.
Sept. 18—Germans bombard Reims.
Sept. 19—Battle of Aisne develops into continuous trench fighting.
Sept. 20—Russians capture Jaroslau and begin siege of Przemysl.
Sept. 22—British cruisers Cressy, Aboukir and Hogue torpedoed and sunk in the North sea.
Oct. 9-10—Germans capture Antwerp.
Oct. 29—Turkey begins war on Russia.

Nov. 7—Tsingtao captured by Japanese.
Nov. 9—German cruiser Emden destroyed.
Dec. 8—German cruisers sunk near Falkland islands by British fleet.
Dec. 9—French government returns to Paris.
Dec. 14—Belgrade recaptured by Serbians.
Dec. 17—Britain formally assumes a protectorate over Egypt.
Dec. 25—Italy occupies Avlona, Albania.

1915.

Jan. 1—British battle ship Formidable sunk.
Jan. 24—British win naval battle in North sea, sinking the German cruiser Bluecher and damaging two other cruisers.
Feb. 12—Germans drive Russians from positions in East Prussia, taking 26,000 prisoners.
Feb. 19—British and French fleets bombard Dardanelles forts.
March 10—Battle of Neuve Chapelle begins.
March 14—German cruiser Dresden sunk.
March 18—British battle ships Irresistible and Ocean and French battle ship Bouvet sunk in Dardanelles strait.
March 22—Fortress of Przemysl surrenders to Russians.
May 7—Liner Lusitania torpedoed and sunk by German submarine.
May 23—Italy declares war on Austria.
June 3—Przemysl recaptured by Germans.
June 22—Germans capture Lemberg.
July 3—Tolmino falls into hands of Italians.
July 29—Warsaw evacuated; Lublin captured by Austrians.
Aug. 2—Germans occupy Mitau.
Aug. 3-9—Battle of Hooge.
Aug. 4—Germans occupy Warsaw.
Aug. 5—Ivangorod taken by Germans.
Aug. 6—British land at Suvla bay, Gallipoli.
Aug. 17—Germans capture Kovno.
Aug. 19-20—Germans take Novogeorgievsk.
Aug. 26—Germans take Brest-Litovsk.
Sept. 2—Germans capture Grodno.
Sept. 5—Grand Duke Nicholas recalled.
Sept. 19—Germans capture Vilna.
Sept. 20—Austrians and Germans begin drive on Serbia.
Sept. 25-30—Battle of the Champagne.
Oct. 9-10—Austro-Germans capture Belgrade.
Oct. 12—Edith Cavell executed by Germans.
Oct. 13—Bulgaria declares war on Serbia.
Oct. 22—Bulgarians occupy Uskub.
Nov. 22—British victory near Bagdad.
Nov. 30—Bulgarians take Prizrend.
Dec. 8-9—Allies defeated in Macedonia.
Dec. 15—Sir John Douglas Haig succeeds Sir John French.

1916.

Jan. 9—British evacuate Gallipoli peninsula.
Jan. 13—Cetinje captured by Austrians.
Jan. 23—Scutari captured by Austrians.
Feb. 15—Erzerum captured by the Russians.
Feb. 21—Germans begin attack on Verdun.
Feb. 26—Germans capture Fort Douaumont.
March 24—Sussex torpedoed and sunk.
April 5-7—Battle of St. Eloi.
April 17—Trebizond captured by Russians.
April 24—Insurrection in Dublin.
April 29—British force at Kut-el-Amara surrenders to the Turks.
April 30—Irish insurrection suppressed.
May 31—Great naval battle off Danish coast.
June 5—Lord Kitchener lost with cruiser Hampshire.
June 11—Russians capture Dubno.
June 18—Russians capture Czernowitz.
July 1—Battle of Somme begins.
Aug. 3—Sir Roger Casement executed.
Aug. 9—Italians take Goritz by assault.
Aug. 27—Italy declares war against Germany.
Aug. 28—Roumania declares war against Austria-Hungary.
Sept. 3—Allies take Guillemont and Clery.
Sept. 9—French recapture Fort Douaumont.
Sept. 10—German-Bulgar forces take Silistria.
Sept. 28—Venizelos proclaims provisional government in Greece; to aid allies.
Oct. 11—Germans begin invasion of Roumania.
Oct. 13—Italians win victory on Carso plateau.
Nov. 25—Venizelist government in Greece declares war on Germany.
Nov. 28—Seat of Roumanian government removed from Bukharest to Jassy.
Dec. 5—British cabinet resigns.
Dec. 6—Bukharest occupied by German forces.
Dec. 10—New British cabinet formed with David Lloyd George at its head.
Dec. 12—Germany proposes peace negotiations.
Dec. 18—President Wilson sends note to belligerent nations asking them to make known their peace terms and to neutral nations suggesting that they support America's action.
Dec. 28—Germany replies to President Wilson saying a direct exchange of views would be best way to bring about peace; gives no terms.
Dec. 30—Allies make joint reply to Germany's peace proposal, rejecting it as a war maneuver.

1917.

Jan. 10—Allies make joint reply to President Wilson and give their peace terms.
Jan. 22—President Wilson addresses United States senate on subject of world peace and the establishment of a league of nations.
Jan. 23—Battle between British and German destroyers in North sea.
Feb. 1—Germany begins unrestricted submarine warfare.
Feb. 3—President Wilson orders that Ambassador Count von Bernstorff be handed his passports, directs the withdrawal of Ambassador James W. Gerard and all American consuls from Germany and announces his action in a speech before congress.

Feb. 25—"Hindenburg retreat" from Somme sector in full progress.
Feb. 26—President Wilson appears before congress and asks authority to supply merchant ships with defensive arms.
Feb. 28—The Associated Press reveals German plot to bring Mexico and Japan in alliance against the United States.
March 4—Filibuster prevents passage by senate of bill giving president power to arm ships.
March 9—President Wilson calls a special session of congress for April 16; issues orders for the arming of American merchant ships.
March 11—Revolution in Russia.
March 15—Czar Nicholas II. of Russia abdicates throne for himself and his son.
March 21—President Wilson calls extra session of congress to begin April 2 instead of April 16; "state of war" admitted to exist.
March 26—President Wilson calls into federal service 20,000 guardsmen in eighteen central states.
April 2—Special session of American congress opens; president in address asks that existence of a state of war with Germany be declared.
April 4—Senate passes war resolution.
April 6—House passes war resolution; president signs resolution and issues war proclamation; all American naval forces mobilized; German vessels in American ports seized.
April 8—Austria-Hungary announces break in relations with the United States.
April 9—Canadians take Vimy ridge.
April 15—Great French offensive between Soissons and Reims begins.
April 21—Turkey breaks off relations with the United States.
April 24—Joffre-Viviani French mission arrives in America.
April 28—Senate and house pass army draft bill.
May 4—American destroyers arrive in British waters and begin patrol work; Russian council of workmen and soldiers declares for peace without annexations or indemnities.
May 17—First American Red Cross hospital unit arrives in England for service with the British in France.
May 18—President Wilson orders the sending of a division of regulars to France under Maj.-Gen. John J. Pershing.
June 5—Military registration day under selective draft law in the United States; approximately 10,000,000 men register.
June 8—Gen. Pershing with staff and clerical force reaches London.
June 12—King Constantine of Greece forced to abdicate his throne.
June 13—Gen. Pershing lands in France.
June 27—American troops arrive in France.
June 29—Greece severs relations with Germany.
July 9—President Wilson proclaims mobilization of national guard.
July 20—Draft day in the United States.
Aug. 14—China declares war on Germany and Austria-Hungary.
Aug. 29—Italians gain complete control of Bainsizza plateau.
Sept. 3—Riga captured by the Germans.
Oct. 24—Austro-German drive against Italian front begun; part of Bainsizza plateau taken.
Oct. 26—Italians evacuate Bainsizza plateau.
Oct. 27—Austrian and German troops advance through Julian Alps; 2d Italian army defeated.
Oct. 29—Whole Italian Isonzo line falls; Italians retreat to the Tagliamento river.
Nov. 6—Italians abandon the Tagliamento line.
Nov. 9—Gen. Armando Diaz made commander in chief of Italian army in place of Gen. Cadorna; Italians make stand on the Piave river; interallied military council formed.
Nov. 18—British take Jaffa.
Nov. 21—British under Gen. Byng take Germans by surprise in Cambrai region, advancing five miles.
Nov. 28—Armistice negotiations begun with Germany by bolsheviki.
Dec. 1—British succeed in regaining nearly a mile of the front lost near Gouzeaucourt; several American engineers killed in German attack.

Dec. 4—President Wilson asks congress to declare war on Austria-Hungary.
Dec. 6—Disaster caused at Halifax by explosion of munitions ship.
Dec. 7—Congress passes resolution declaring state of war to exist between the United States and Austria-Hungary.
Dec. 9—Jerusalem captured by Gen. Allenby.
Dec. 15—Armistice signed by Russia and central powers at Brest-Litovsk.
Dec. 19—Gen. Sarrail recalled from Saloniki.
Dec. 26—The United States takes over all railroad lines (beginning Dec. 28); Secretary of the Treasury McAdoo appointed director-general.

1918.

Jan. 7—Earl Reading appointed British high commissioner and ambassador to the United States.
Jan. 21—Americans take charge of sector of French front.
Feb. 5—Transport Tuscania, carrying American troops, torpedoed and sunk with large loss of life.
Feb. 10—Russian delegates at Brest-Litovsk declare state of war at end.
Feb. 16—President Wilson issues proclamation requiring licenses for all imports and exports.
Feb. 18—Germans resume operations on the Russian front, crossing the Dvina.
Feb. 19—Germans occupy Dvinsk and Lutsk and press on into Russia; Lenin and Trotzky sign statement announcing surrender of Russia.
Feb. 22—British capture Jericho.
March 1—Americans in Toul sector repulse heavy German raid, killing many of the enemy.
March 2—Germans capture Kiev in the Ukraine; Germans occupy Aland islands; Russian delegation at Brest-Litovsk accepts German peace terms.
March 4—Roumania accepts German armistice conditions; Russians stop fighting.
March 21—Germans begin heavy offensive along British front from the Oise to the Scarpe.
March 23—Germans drive the British back over a front of about twenty-one miles to a depth of four or five miles west of Cambrai; Paris is bombarded by German gun seventy-four miles away.
March 24—Germans capture Chauny, Ham, Peronne and the heights of Monchy and cross the River Somme.
March 25—Germans capture Bapaume, Nesle and Guiscard.
March 26—Germans take Roye and Lihons and cross the Bapaume-Albert road near Courcelette and Pozieres.
March 27—British recapture Morlancourt and Chipilly, but lose Albert; French troops give ground and lose Montdidier; Premier Lloyd George asks United States to hasten troops to France.
March 28—Gen. Foch made commander in chief of allied armies.
March 29—Gen. Pershing places American forces at the disposal of Gen. Foch; offer accepted.

March 30—American troops march to front to take part in battle.
April 4—Germans take Mailly-Raineval and Morisel from French; launch strong attack on British front between Somme and Avre rivers.
April 9—Germans attack in the La Bassee canal region.
April 11—British forced to evacuate Armentieres.
April 12—Field Marshal Haig issues order to army to "fight it out" to the end.
April 16—Germans capture Bailleul, Wulverghem, Wytschaete and the greater part of Messines ridge.
April 20—Twelve hundred German shock troops attack Americans near Renners forest and take village of Seicheprey from them; all lost ground recovered by counterattack.
April 23—British and French attack Zeebrugge and Ostend and sink five old cruisers in harbor channels to bottle up "U" boat bases.
May 6—Australians drive Germans back near Morlancourt.
May 7—American troops arriving on French front in force.
May 10—Old cruiser Vindictive sunk by the British at entrance to Ostend harbor.
May 14—Italians torpedo Austrian dreadnought in Pola harbor.
May 19—Maj. Raoul Lufbery, American ace aviator, killed in aerial fight.
May 27—Germans begin second great offensive, taking the Chemin des Dames from the French and crossing the Aisne.
May 28—American troops northwest of Montdidier attack German line on a front of one and one-quarter miles, capture village of Cantigny and take 200 prisoners.
May 29—Soissons taken by the Germans.
May 30—Germans approach close to the Marne at a point about fifty-five miles from Paris.
May 31—Germans reach Chateau Thierry and other points on the Marne, where they are halted by the Americans and French.
June 3—Ten American ships sunk on Atlantic coast by German submarines between about May 26 and June 3.
June 6—American marines gain two miles on a two and a half mile front and take 100 prisoners near Veuilly, northwest of Chateau Thierry; take Hill 142 near Torcy and enter Torcy itself.
June 7—French and Americans complete capture of Vilny, Veuilly-la-Poterie, Bussaires, Torcy, Belleau and the heights southeast of Haute Vesnes; Americans in second battle northwest of Chateau Thierry advance nearly two and a half miles on a six mile front.
June 9—Germans begin new offensive between Montdidier and the Oise and advance about four miles.
June 11—French inflict severe defeat on Germans on a front of seven miles between Rubescourt and St. Maur, taking 1,000 prisoners; Americans complete capture of Belleau wood, taking 300 prisoners and several machine guns and mortars.
June 15—Austrians begin offensive against Italians along 100 mile front.
June 16—Italians in counterattacks drive back the Austrians.
June 17—Allies on the Italian front take the offensive.
June 18—Austrians halted with enormous losses on most parts of the front.
June 23—On the Piave river front in Italy fronf the Montello to the Adriatic the Austrians retreat in disorder, abandoning many guns and much war materiel; Italians, pursuing vigorously, capture thousands of prisoners; Americans clear out remainder of Belleau wood, taking five machine guns.
June 26—In battle beginning June 25 Americans kill 700 Germans and capture more than 250 out of 1,200 on a ridge north of the Bois de Belleau.
June 28—First American troops arrive in Italy.
July 1—American troops capture village of Vaux, west of Chateau Thierry, with more than 300 prisoners, including five officers; complete unit of 220,000 Americans guarding road to Paris.
July 6—Count von Mirbach, German ambassador to Russia, assassinated in Moscow.
July 13—War department in Washington announces formation of three army corps in France.
July 14—Lieut. Quentin Roosevelt killed in aerial battle.
July 15—Germans begin big offensive from Chateau Thierry on the west to Main de Massiges, farther east, along a sixty-five mile front, crossing the Marne at various places; Americans in the Chateau Thierry region retire a short distance but by a strong counterattack drive the enemy back across the Marne with heavy losses.
July 16—German offensive west and east of Reims continues.
July 18—Gen. Foch delivers heavy counterattack against the western side of the German salient along a line from the Marne to the Aisne; takes Germans by surprise and captures more than a score of towns and many heavy cannon; Americans take part in drive and with the French advance six miles; cavalry and tanks used in the battle.
July 19—French and Americans continue offensive between the Aisne and the Marne, taking 17,000 prisoners and 360 guns.
July 20—German troops south of the Marne forced to retreat to north side; French and American troops between the Aisne and the Marne continue to press forward; French, British, American and Italian forces attack and gain ground along the line extending from Chateau Thierry east to Reims; number of prisoners taken by the allies increased to more than 20,000.
July 21—Germans driven out of Chateau Thierry by French and Americans.
July 26—French and American troops capture Oulchy-le-Chateau.
July 27—Germans retreat all along the line north of the Marne.
July 28—Allies force the Germans across the Ourcq.
July 29—Allies advance to within ten miles of Fismes on the Vesle river; take Grand Rozy and Cugny by storm; Americans take Seringes-et-Nesle, Sergy and Roncheres.
Aug. 2—Allies capture Soissons, cross the Crise and progress north of the Ourcq; they also take Goussaincourt, Villers-Agron, Ville-en-Tardenois, Gueux and Thilloy; German crown prince's army in full retreat.
Aug. 8—British and French begin offensive in Picardy east of Amiens.
Aug. 10—French recapture Montdidier; British and American troops capture Morlancourt.
Aug. 11—Organization of first American field army in France announced.
Aug. 15—American troops arrive at Vladivostok, Siberia.
Aug. 20—Gen. Mangin's 4th French army takes 8,000 Germans in smash between the Oise and the Aisne.
Aug. 22—British capture Albert with 1,400 prisoners.
Aug. 24—Americans advance to the Soissons-Reims road; British capture Bray and Thiepval.
Aug. 28—Chaulnes taken by the French.
Aug. 29—Noyon captured by French; Bapaume taken by the British.

Sept. 1—Americans in Belgium capture Voormezeele; Australian troops capture Peronne and 2,000 prisoners.
Sept. 2—English, Scotch and Canadian troops carry the Queant-Drocourt "switch line."
Sept. 7—Allies advance on fifty mile front from Havrincourt wood to the Chemin des Dames; Americans reach the Aisne in the vicinity of Vieil Arcy.
Sept. 8—British clear Germans out of Havrincourt wood; reach line held at beginning of German offensive March 21.
Sept. 12—Gen. Pershing attacks St. Mihiel salient after heavy artillery preparation; takes many towns and a large number of prisoners; advances five miles at some points; French occupy town of St. Mihiel.
Sept. 13—American troops wipe out remainder of St. Mihiel salient.
Sept. 14—Americans take 150 square miles of territory in St. Mihiel offensive, with 15,000 prisoners.
Sept. 15—French and Serbians pierce Bulgarian front for a width of ten miles.
Sept. 18—British and French pierce Hindenburg line on a twenty-two-mile front, taking ten towns and 6,000 prisoners in St. Quentin sector.
Sept. 19—French fight their way over the St. Quentin canal, capturing Contescourt and Castres; Field Marshal Haig reports capture of 10,000 prisoners and sixty guns.
Sept. 23—Germans and Bulgarians in flight through Serbia.
Sept. 24—French cavalrymen take Prilep in Serbia.
Sept. 25—Bulgar armies on Macedonian front split into groups; Gen. Allenby in Palestine reports capture of 40,000 Turks and 265 guns in great offensive.
Sept. 26—Gen. Pershing's 1st army smashes its way seven miles deep into the German lines over a front of twenty miles from the Meuse westward through the Argonne forest, capturing twelve towns, 5,000 prisoners and twenty large guns; Varennes, Montblainville, Vauquois and Cheppy taken by storm.
Sept. 27—Bulgarians ask for armistice and terms of peace; British take Strumnitza.
Sept. 29—Armistice between allies and Bulgarians signed; French capture Urvillers and Cerizy and break Hindenburg line between St. Quentin and La Fere; Americans and French take western part of the Chemin des Dames; Americans capture Montfaucon; entire department of the Somme liberated from the Germans; American troops help British to take Bellicourt, Nauroy and other places on the Hindenburg line; Belgians drive close to Roulers, taking Dixmude, Moorslede, Paschendaele and other towns.
Oct. 2—St. Quentin taken by the French.
Oct. 3—King Ferdinand of Bulgaria abdicates.
Oct. 4—American troops resume offensive west of the Meuse.
Oct. 5—Germans hurriedly evacuating Lille and beginning a movement to abandon the Belgian coast region; British troops enter Lens; Germans retreat on a twenty-eight mile front north of Reims.
Oct. 7—Americans win hot battle for possession of north end of Argonne forest.
Oct. 8—British, French and American troops deliver assault on twenty mile front between Cambrai and St. Quentin, taking thousands of prisoners; Americans take Brancourt and Premont; in Verdun region the Americans continue fight for remainder of Argonne forest.
Oct. 10—British take Le Cateau.
Oct. 11—Argonne forest completely cleared of Germans by the American troops.
Oct. 12—Germans fall back on Champagne front from Laon to the Argonne.
Oct. 13—Americans advance on both sides of the Meuse, taking all their objectives.
Oct. 14—French, British and Belgian troops take many villages in Belgium, with 7,000 prisoners; American troops advance beyond Cunel and Romagne west of the Meuse and farther west reach St. Georges and Landres-et-St. Georges.
Oct. 15—American troops hit the German line north of Verdun, taking St. Juvin and Hill 299 west of Bantheville; left wing crosses Aire river and approaches Grandpre; in Flanders the British advance to the vicinity of Courtrai; capture Gulleghem and Heule and advance to suburbs of Lille.
Oct. 16—Americans capture Grandpre; Germans continue their great retreat from northern Belgium.
Oct. 17—Belgians enter Bruges and Zeebrugge and British occupy Ostend, Lille and Douai; King Albert enters Ostend; Americans take Cote Chatillon.
Oct. 18—Belgian flags fly over every town on the Belgian coast; French occupy and pass beyond Thielt; Lille evacuated by the Germans and entered by British; Americans take Bantheville.
Oct. 23—Americans advance on fifteen mile front, taking Brieulles, Tamla farm and other places north of Bantheville.
Oct. 24—Americans attack east of the Meuse and reach the Freya position; British drive Germans back along whole front between the Sambre and the Meuse.
Oct. 25—British, French and Italian troops begin new offensive on Italian front between the Brenta and Piave rivers, taking 3,000 prisoners.
Oct. 27—Gen. Ludendorff resigns as first quartermaster-general of German army; Italian forces cross the Piave and take 9,000 Austrians and fifty-one guns.
Oct. 28—Austria urgently asks for peace.
Oct. 29—Allied forces in Italy capture Conegliano, five miles from the Piave, and push on along a front of thirty-seven miles; Rhine Germans in flight.
Oct. 30—German note seeks to hasten decision on armistice terms; Czechs take over rule of Prague; Italians capture Vittorio and drive the Austrians back along the Piave from the mountains to the sea; taking of 33,000 Austrians in drive announced.
Oct. 31—Turkey makes full surrender; Austrian collapse on Italian front; troops abandon everything in flight to escape.
Nov. 1—Armistice terms given to Austria; Americans advance four miles in new drive east of the Argonne; allies in Belgium take nineteen towns and gain ten miles; Americans capture Landres-et-St. Georges, Remonville, Clery le Grand and other towns, with 2,000 prisoners.
Nov. 2—British take Valenciennes; Americans break through the Freya line and take Champigneulle, Buzancy, Fosse, Baricourt and Doulcon.
Nov. 3—Italians capture Trent and Udine; whole Austrian front smashed.
Nov. 4—Austria makes complete surrender; Americans advance toward Sedan, reaching Stenay; British in advance between the Scheldt and the Oise-Sambre canal and with the French co-operating take 10,000 prisoners and 200 guns.
Nov. 6—French win on 100 mile front, taking Vervins, Montcornet and Rethel; Americans enter Sedan; cross the Meuse river; Germans give up Ghent; Germans seeking truce reach French lines.
Nov. 7—Passage of German peace envoys to French headquarters arranged; allied armies drive along whole front.
Nov. 8—British, French and American armies press forward along whole of long line from extreme north to east of the Meuse; scores

of towns taken; German plenipotentiaries arrive at Marshal Foch's headquarters and are given armistice terms fixed by allied war council with time limit for acceptance fixed for 11 o'clock Monday morning, Nov. 11; revolution in Berlin; Bavaria deposes king and proclaims republic.

Nov. 9—Chancellor Prince Maximilian of Germany announces that kaiser and crown prince have decided to renounce the throne; Deputy Ebert made imperial chancellor.

Nov. 10—First and 2d American armies advance along the Moselle and the Meuse on a front of about seventy-one miles; capture Stenay and numerous fortified positions in Lorraine; Gen. Gouraud makes official entry into Sedan; Emperor William takes refuge in Holland.

Nov. 11—German envoys sign armistice terms and fighting ceases at 11 a. m. all along the line; President Wilson announces to congress that "the war thus comes to an end"; great peace celebration held in all the allied countries.

ARMIES OF OCCUPATION.

In a statement made to the house of commons April 27, 1920, Winston Spencer Churchhill, British secretary of state for war, said there were 14,000 British troops on the Rhine, 95,000 French, 16,000 Americans and 20,000 Belgians.

CHRONOLOGY OF OTHER RECENT WARS.

SPANISH-AMERICAN WAR, 1898.

Maine blown up	Feb. 15
Diplomatic relations broken	April 21
Cuban blockade declared	April 22
War declared by Spain	April 24
War declared by United States	April 25
Dewey's victory at Manila	May 1
Hobson's Merrimac exploit	June 3
U. S. army corps lands in Cuba	June 21
Battle at El Caney and San Juan	July 1
Cervera's fleet destroyed	July 3
Santiago de Cuba surrenders	July 17
Peace protocol signed	Aug. 12
Surrender of Manila	Aug. 13
Peace treaty signed in Paris	Dec. 12

PHILIPPINE WAR, 1899-1902.

Hostilities begun	Feb. 4, 1899
Battles around Manila	Feb. 4-7, 1899
Battle at Pasig	March 13, 1899
Santa Cruz captured	April 25, 1899
San Fernando captured	May 5, 1899
Battle of Bacoor	June 13, 1899
Battle of Imus	June 16, 1899
Battle of Colamba	July 26, 1899
Battle of Calulut	Aug. 9, 1899
Battle of Angeles	Aug. 16, 1899
Maj. John A. Logan killed	Nov. 11, 1899
Gen. Gregorio del Pilar killed	Dec. 10, 1899
Gen. Lawton killed	Dec. 19, 1899
Taft commission appointed	Feb. 25, 1900
Aguinaldo captured	March 23, 1901
End of war	April 30, 1902
Military governorship ended	July 4, 1902

ANGLO-BOER WAR, 1899-1902.

Boers declare war	Oct. 10, 1899
Boers invade Natal	Oct. 12, 1899
Battle of Glencoe	Oct. 20, 1899
Battle of Magersfontein	Dec. 10, 1899
Battle of Colesburg	Dec. 31, 1899
Spion Kop battles	Jan. 23-25, 1900
Kimberley relieved	Feb. 15, 1900
Gen. Cronje surrenders	Feb. 27, 1900
Ladysmith relieved	March 1, 1900
Mafeking relieved	May 17, 1900
Johannesburg captured	May 30, 1900
Orange Free State annexed	May 30, 1900
Pretoria captured	June 4, 1900
South African Republic annexed	Sept. 1, 1900
Gen. Methuen captured	March 7, 1902
Treaty of peace signed	May 31, 1902

RUSSO-JAPANESE WAR, 1904-1905.

Hostilities begun by Japan	Feb. 8, 1904
War declared	Feb. 10, 1904
Petropavlovsk sunk	April 13, 1904
Battle of the Yalu	May 1, 1904
Battle ship Hatsuse sunk	May 15, 1904
Cruiser Yoshino sunk	May 15, 1904
Nanshan hill battles	May 21-27, 1904
Dalny captured	May 30, 1904
Vafangow battle	June 14, 1904
Kaiping captured	July 8, 1904
Port Arthur invested	July 20-31, 1904
Newchwang evacuated	July 25, 1904
Haicheng evacuated	Aug. 3, 1904
Port Arthur naval battle	Aug. 10, 1904
Battle of Liaoyang	Aug. 26-Sept. 4, 1904
Battle of Sha river	Oct. 12-19, 1904
Dogger bank affair	Oct. 22, 1904
203-Meter hill captured	Nov. 30, 1904
North Keekwan captured	Dec. 18, 1904
Ehrlungshan captured	Dec. 25, 1904
Sungshushan captured	Dec. 31, 1904
Kilkish captured	July 4, 1913
Port Arthur surrendered	Jan. 1-2, 1905
Battle of Heikoutai	Jan. 27-Feb. 4, 1905
Battle of Mukden	Feb. 24-March 12, 1905
Battle of Sea of Japan	May 27-28, 1905
Roosevelt peace proposal	June 7, 1905
Sakhalin captured	July 31, 1905
Portsmouth peace conference	Aug. 9-29, 1905
Peace treaty signed	Sept. 5, 1905

ITALIAN-TURKISH WAR, 1911-1912.

War declared by Italy	Sept. 29, 1911
Tripoli bombarded	Oct. 3, 1911
Tripoli captured	Oct. 5, 1911
Turks repulsed by Italians	Oct. 30, 1911
Seven Turkish gunboats sunk	Jan. 7, 1912
Beirut bombarded	Feb. 24, 1912
Tripoli annexed	Feb. 25, 1912
Island of Rhodes seized	May 4, 1912
Battle of Zanzur oasis	June 9, 1912
Town of Sidi Ali captured	July 14, 1912
Peace treaty signed	Oct. 18, 1912

BALKAN-TURKISH WAR, 1912-1913.

Balkan-Turkish war begun	Oct. 9, 1912
War formally declared	Oct. 18, 1912
Battle of Kirk Kilesseh	Oct. 24, 1912
Battle of Lule Burgas	Oct. 29-31, 1912
Saloniki captured	Nov. 8, 1912
Monastir captured	Nov. 18, 1912
London peace conference	Dec. 16, 1912
Peace conference ended	Jan. 29, 1913
War resumed	Feb. 3, 1913
Janina captured	March 6, 1913
Adrianople captured	March 27, 1913
Scutari captured	April 23, 1913
Powers occupy Scutari	May 14, 1913
Peace treaty signed	May 30, 1913

BALKAN-BULGARIAN WAR, 1913.

Fighting is begun	May 23, 1913
Battle of Makres	June 10, 1913
Seres and Kavala are captured	July 9, 1913
Roumania wars on Bulgaria	July 12, 1913
Turks attack Bulgaria	July 12, 1913
Turks reoccupy Adrianople	July 21, 1913
Peace treaty signed	Aug. 10, 1913

Note—For chronology of world war see special account in this volume.

LARGEST BASCULE BRIDGE IN WORLD.

What is claimed to be the largest bascule bridge in the world is that built for the Illinois Central Railroad company to carry one of its lines across the south branch of the Chicago river between 12th and 16th streets. It has a span of 260 feet in a single "leaf" and provides a clear channel for navigation of 200 feet. The bridge is opened or closed in one and three-quarter minutes by electric power. It is also provided with a sixty-two horse power gasoline engine for emergencies.

LORD GREY ON AMERICA AND THE LEAGUE.

On his return to England from the United States, where he served temporarily as ambassador for Great Britain, Lord Grey of Fallodon, who as Sir Edward Grey, British secretary of foreign affairs, had played a conspicuous part in the diplomatic history of the great war, wrote a notable letter to the London Times, giving his views on the attitude of America toward the league of nations, and particularly on the position taken by the senate in Washington. On account of its historical importance the document is given herewith in full.

To the Editor of The Times—Sir: Nothing, it seems to me, is more desirable in international politics than good understanding between the democracy of the United States on the one hand and the democracies of Great Britain and the self-governing dominions, and I hope we may add Ireland, on the other. Nothing would be more disastrous than misunderstanding and estrangement. There are some aspects of the position in the United States with regard to the league of nations which are not wholly understood in Great Britain. In the hope that, as the result of my recent stay in Washington, I may be able to make that position better understood, I venture to offer the following observations. They represent only my own personal opinion and nothing more, and they are given simply as those of a private individual.

In Great Britain and the allied countries there is naturally impatience and disappointment at the delay of the United States in ratifying the peace treaty and the covenant of the league of nations. It is perhaps not so generally recognized here that there is also great impatience and disappointment in the United States. Nowhere is the impasse caused by the deadlock between the president and the senate more keenly regretted than in the United States, where there is a strong and even urgent desire in public opinion to see a way out of that impasse found which will be both honorable to the United States and helpful to the world. It would be well to understand the real difficulties with which the people of the United States have been confronted. In the clear light of right understanding, what seemed disagreeable features of the situation will assume a more favorable and intelligible aspect.

Let us first get rid of one possible misunderstanding. No charge of bad faith or repudiating signatures can be brought against the action of the United States. The senate, by the American constitution, is an independent body, an independent element in the treaty-making power. Its refusal to ratify a treaty cannot expose either itself or the country to the charge of bad faith or repudiation, nor is it fair to represent the United States as holding up the treaty solely from motives of party politics, and thereby sacrificing the interests of other nations for this petty consideration. It is true that there are party politics and personal animosities in the United States. An American who saw much of England between 1880 and 1890 said that the present condition of politics in the United States reminded him of what he had observed in London when Mr. Gladstone first advocated home rule for Ireland. Party politics, and personal animosities arising out of them, operate in every democratic country. They are factors varying from time to time in degree, but always more or less active, and they operate upon every public question which is at all controversial. They are, however, not the sole or even the prime cause of the difficulty in the United States about the league of nations.

Nor is it true to say that the United States is moved solely by self-interest, to the disregard of higher ideals. In the United States, as in other countries, there are cross-currents and backwaters in the national life and motives. When the nation was roused by the war, these cross-currents and backwaters were swept into the main stream of action and obliterated, as they were in other countries. With the reaction to peace and more normal conditions, they are again apparent, as they are in other countries. But an American might fairly reply that, whereas the self-interest of other countries who have conquered in the war is now apparent in a desire to secure special territorial advantages, the self-interest of the United States takes the less aggressive form of desiring to keep itself free from undesirable entanglements, and that it does not lie with other countries to reproach the United States. It would be well, therefore, for reasons both of truth and expediency, to concentrate our attention on the real underlying causes of the senate's insistence upon reservations in ratifying the covenant of the league of nations.

(1) There is in the United States a real conservative feeling for traditional policy, and one of those traditions, consecrated by the advice of Washington, is to abstain from foreign, and particularly from European, entanglements. Even for nations which have been used to European alliances the league of nations is felt to be something of a new departure. This is still more true for the United States, which has hitherto held aloof from all outside alliances. For the league of nations is not merely a plunge into the unknown, but a plunge into something which its historical advice and tradition have hitherto positively disapproved. It does not say that it will not make this new departure. It recognizes that world conditions have changed, but it desires time to consider, to feel its way, and to act with caution. Hence this desire for some qualification and reservation.

(2) The American constitution not only makes possible, but under certain conditions renders inevitable, a conflict between the executive and the legislature. It would be possible if the covenant of the league of nations stands, for a president in some future years to commit the United States, through the American representative on the council of the league of nations, to a policy of which the legislature at that time might disapprove. The contingency is one which cannot arise in Great Britain, where the government is daily responsible to the representative authority of the house of commons and where, in case of conflict between the house of commons and the government, the latter must either immediately give way or public opinion must decide between them and assert itself by an immediate general election. This contingency is therefore not present to our minds, and in ratifying the league of nations we have no need to make any reservations to provide for a contingency which cannot arise in Great Britain. But in the United States it is otherwise. The contingency is within the region of practical politics. They have reason and, if they so desire, the right to provide against it. Reservations with this object are therefore an illustration not only of party politics but of a great constitutional question which constantly arises between the president and the senate, and it would be no more fair to label this with the petty name of party politics than it would be to apply that name to some of the great constitutional struggles which arose between the house of commons and the executive authority in Great Britain in days before the question had finally been settled in favor of the house of commons.

What, then, may we fairly expect from the United States in this great crisis of world policy? For a crisis, indeed, it is. If the participation of the United States was enor-

mously helpful in securing victory in the critical months of 1918, its help will be even more essential to secure stability in peace. Without the United States, the present league of nations may become little better than a league of allies for armed self-defense against a revival of Prussian militarism or against a military sequel to bolshevism in Russia. Bolshevism is a despotism, and despotisms have a tendency to become militarist, as the great French revolution proved. The great object of the league of nations is to prevent future war and to discourage, from the beginning, the growth of aggressive armaments which would lead to war. For this purpose it should operate at once, and begin here and now in the first years of peace to establish a reputation for justice, moderation and strength. Without the United States it will have neither the overwhelming physical nor moral force behind it that it should have, or, if it has physical force, it will not have the same degree of moral force, for it will be predominantly a European and not a world organization, and it will be tainted with all the interracial jealousies of Europe. With the United States in the league of nations, war may be prevented and armaments discouraged, and it will not be in the power of the fretful nations of the world to disturb the general peace. Without a league of nations the old order of things will revive, the old consequences will recur, there will again be some great catastrophe of war in which the United States will again find itself compelled to intervene for the same reason and at no less or even greater cost than in 1917. It would be a mistake to suppose that the American people are prepared or wish to withdraw their influence in world affairs. Americans differ among themselves as to whether they could or ought to have entered the war sooner than they did. It is neither necessary nor profitable for foreigners to discuss this point now. What is common to all Americans and to all foreigners who know the facts is the unselfish, whole-hearted spirit in which the American nation acted when it came into the war. The immediate adoption of compulsory military service, and even more the rationing of food and fuel in those millions and millions of households over such a vast area, not by compulsion, but by purely voluntary action, in response to an appeal which had no compulsion behind it, is a remarkable and even astonishing example of national spirit and idealism. That spirit is still there. It is as much part of the nature and possibilities of the American people as any other characteristic. It is not possible for such a spirit to play such a part as it did in the war and then to relapse and be extinguished altogether. It would be a great mistake to suppose that because the citizens of the United States wish to limit obligations they therefore propose to themselves to play a small part in the league of nations. If they enter the league as a willing partner with limited obligations, it may well be that American opinion and American action inside the league will be much more fruitful than if they entered as a reluctant partner who felt that her hand had been forced. It is in this spirit, in this hope and in this expectation that I think we should approach, and are justified in approaching, consideration of American reservations. I do not deny that some of them are material qualifications of the league of nations as drawn up at Paris or that they must be disappointing to those who are satisfied with that covenant as it stands, and are even proud of it; but those who have had longest experience of political affairs, and especially of treaties, know best how often it happens that the difficulties which seem most formidable in anticipation and on paper never arise in practice. I think this is likely to be particularly true in the working of the league of nations. The difficulties and dangers which Americans foresee in it will probably never arise or be felt by them when they are once in the league, and in the same way the weakening and injury to the league which some of its best friends apprehend from the American reservations would not be felt in practice. If the outcome of the long controversy in the senate has been to offer co-operation in the league of nations, it would be the greatest mistake to refuse that co-operation because of the conditions attached to it; and when that co-operation is accepted, let it not be accepted in the spirit of pessimism. The most vital considerations are that the representatives should be appointed to the council of the league of nations by all the nations that are members of the council, that these representatives should be men who are inspired by the ideals for which we entered the war, and that these representatives should be instructed and supported in that same spirit of equity and freedom by the governments and public opinion of the countries who are now partners in peace. If that be the spirit in which the council of the league of nations deals with the business that comes before it there need be no fear that the representative of the United States on that council will not take a part in realizing the hopes with which the league has been founded.

There is one particular reservation which must give rise to some difficulty in Great Britain and the self-governing dominions. It is that which has reference to the six British votes in the assembly of the league of nations. The self-governing dominions are full members of the league. They will admit, and Great Britain can admit, no qualification whatever of that right. Whatever the self-governing dominions may be in the theory and letter of the constitution, they have in effect ceased to be colonies in the old sense of the word. They are free communities, independent as regards all their own affairs and partners in those which concern the empire at large. It is a special status, and there can be no derogation from it. To any provision which makes it clear that none of the British votes can be used in a dispute likely to lead to a rupture in which any part of the British empire is involved, no exception can be taken. That is the only reasonable interpretation of the covenant as it now stands. If any part of the British empire is involved in a dispute with the United States, the United States will be unable to vote and all the parts of the British empire, precisely because they are partners, will be parties to that dispute and equally unable to vote. But as regards their right to vote where they are not parties to a dispute, there can be no qualification, and there is very general admission that the votes of the self-governing dominions would in most cases be found on the same side as that of the United States. It must not be supposed that in the United States there is any tendency to grudge the fact that Canada and other self-governing dominions of the British empire have votes, but any person with the smallest understanding of public audiences must realize the feeling created by the statement that the United States, with several million more English-speaking citizens than there are in the whole British empire, should have only one vote while the British empire has six votes. I am not concerned to discuss here how this problem of inequality of voting may be adjusted. In practice it will not be important. In sentiment and political feeling it is a very powerful factor. We can neither give way about the votes for the self-governing dominions nor can we ignore the real political difficulty in the United States. It may be sufficient to observe that the reser-

vation of the United States as far as known at the time of writing does not in any way challenge the right of the self-governing dominions to exercise their votes, nor does it state that the United States will necessarily reject a decision in which those votes have been cast. It is therefore possible, I think it is even more than probable, that, in practice, no dispute will ever arise. Our object is to maintain the status of the self-governing dominions, not to secure a greater British than American vote; and we have no objection in principle to an increase of the American vote.

Your obedient servant,

GREY OF FALLODON.

ACTION OF U. S. SENATE ON GERMAN PEACE TREATY.

President Wilson laid the treaty of peace with Germany before the United States senate July 10, 1919, and it was referred to the committee on foreign relations, which reported it back Sept. 10 with a number of amendments and reservations. In the meantime it had been discussed widely both in and out of the senate and important suggestions were made with reference to its provisions by ex-Senator Elihu Root (June 21), by ex-President William Howard Taft (July 24) and Charles Evans Hughes, a former member of the United States Supreme court (July 24). The treaty met with much opposition both from the republicans, led by Senator Henry Cabot Lodge of Massachusetts, and by a number of democrats, led by Senator James A. Reed of Missouri. Senator Gilbert M. Hitchcock of Nebraska represented the democrats who favored the ratification of the treaty without reservations and in accordance with President Wilson's wishes.

In view of the strong opposition to the ratification of the treaty President Wilson determined to appeal to the people directly and for that purpose made a long tour through the middle and western states delivering a series of addresses in the larger cities in defense of the treaty as signed at Versailles. He began his journey Sept. 4 and was on his way back when he broke down and returned to Washington, suffering from a dangerous ailment caused in large part by overwork.

FIRST REJECTION OF TREATY.

The discussion of the treaty in the senate was long and acrimonious and it was not until Nov. 19 that a vote on its ratification was taken. Senator Lodge first offered a resolution for the ratification of the treaty with a number of amendments and reservations which had been adopted. This resolution was rejected by a vote of 39 yeas to 55 nays. Then a resolution offered by Senator Oscar W. Underwood, to ratify the treaty without reservations, was defeated by a vote of 38 to 53.

The vote by which the Lodge resolution of ratification was defeated on Nov. 19, 1919, was as follows:

Yeas—39.

Ball	Jones, Wash.	Penrose
Calder	Kellogg	Phipps
Capper	Kenyon	Shields
Colt	Keyes	Smith, Ga.
Cummins	Lenroot	Smoot
Curtis	Lodge	Spencer
Dillingham	McCumber	Sterling
Edge	McLean	Sutherland
Elkins	McNary	Townsend
Frelinghuysen	Nelson	Wadsworth
Gore	New	Walsh, Mass.
Hale	Newberry	Warren
Harding	Page	Watson

Nays—55.

Ashurst	Gerry	Knox
Bankhead	Gronna	La Follette
Beckham	Harris	McCormick
Borah	Harrison	McKellar
Brandegee	Henderson	Moses

Pomerene	Smith, Ariz.	Trammell
Ransdell	Smith, Md.	Underwood
Reed	Smith, S. C.	Walsh, Mont.
Robinson	Stanley	Williams
Sheppard	Swanson	Wolcott
Sherman		

EFFORTS AT A COMPROMISE.

Immediately after the second session of the 66th congress opened on Dec. 1, 1919, efforts were made to reach a compromise on the German peace treaty with its league of nations covenant, but progress was slow owing to pressure of other work and the strenuous opposition of the "irreconcilables." Senators Hitchcock and Lodge conducted the negotiations and on Feb. 7, 1920, the former issued a statement making public a letter which he had sent to President Wilson Jan. 22 and the president's reply, dated Jan. 26, both dealing with the proposed reservations to the peace treaty. Mr. Hitchcock's letter follows:

"The conferences between Mr. Lodge and his three associates and myself and four democratic senators have now reached the sixth day.

"On article X, the effort to reach a compromise has now reached a stage where both sides are seriously considering a proposition as indicated by the inclosed clipping.

"We resume consideration of it to-morrow afternoon."

The clipping referred to in the letter was the following proposed compromise reservation on article X. of the league of nations covenant:

"The United States assumes no obligation to employ its military or naval forces or the economic boycott to preserve the territorial integrity or political independence of any other country under the provisions of article X. or to employ the military or naval forces of the United States under any article of the treaty for any purpose, unless in any particular case the congress, which under the constitution has the sole power to declare war or authorize the employment of the military or naval forces of the United States, shall by act or joint resolution so provide. Nothing herein shall be deemed to impair the obligation in article XVI. concerning the economic boycott."

PRESIDENT ACCEPTS SOME RESERVATIONS.

Replying to Senator Hitchcock President Wilson wrote:

"I have greatly appreciated your thoughtful kindness in keeping me informed concerning the conferences you and some of your colleagues have had with spokesmen of the republican party concerning the possibility of ratification of the treaty of peace, and send this line in special appreciative acknowledgment of your letter of the 22d. I return the clipping you were kind enough to inclose.

"To the substance of it I, of course, adhere. I am bound to. Like yourself, I am solemnly sworn to obey and maintain the constitution of these United States.

"But I think the form of it very unfortunate. Any reservation or resolution stating that 'the United States assumes no obligation under such and such an article unless or except' would, I am sure, chill our relationship with the nations with which we expect to be associated in the great enterprise of maintaining the world's peace.

"That association must, in any case, my dear senator, involve very serious and far reaching implications of honor and duty, which I am sure we shall never in fact be desirous of ignoring. It is the more important not to create the impression that we are trying to escape obligations.

"But I realize that negative criticism is not all that is called for in so serious a matter. I am happy to be able to add, therefore, that I have once more gone over the reservations proposed by yourself, the copy of which I return herewith, and am glad to say that I can accept them as they stand.

"I have never seen the slightest reason to doubt the good faith of our associates in the war, nor ever had the slightest reason to fear that any nation would seek to enlarge our obligations under the covenant of the league of nations, or seek to commit us to lines of action which under our constitution only the congress of the United States can, in the last analysis, decide.

"May I suggest that with regard to the possible withdrawal of the United States, it would be wise to give to the president the right to act upon our resolution of congress in the matter of withdrawal? In other words, it would seem to be permissible and advisable that any resolution giving notice of withdrawal should be a joint rather than a concurrent resolution.

"I doubt whether the president can be deprived of his veto power under the constitution, even with his own consent. The use of a joint resolution would permit the president, who is of course charged by the constitution with the conduct of foreign policy, to merely exercise a voice in saying whether so important a step as withdrawal from the league of nations should be accomplished by a majority or by a two-thirds vote.

"The constitution itself providing that the legislative body was to be consulted in treaty making and having prescribed a two-thirds vote in such cases, it seems to me that there should be no unnecessary departure from the method there indicated.

"I see no objection to a frank statement that the United States can accept a mandate with regard to any territory under article 13, Part I., or any other provision of the treaty of peace only by the direct authority and action of the congress of the United States."

TREATY BROUGHT BACK TO SENATE.

On Feb. 9 Senator Lodge moved to recommit to the committee on foreign relations the treaty of peace with Germany, togther with the reservations adopted by the senate and the resolution of ratification, with instructions to report the treaty back immediately, together with the said reservations and the ratifying resolution. This motion, after considerable debate in relation to including the ratifications, was agreed to. This action followed the adoption of a motion by the same senator to suspend paragraph 1 of rule XIII. and reconsider the vote by which the senate (on Nov. 19, 1919) had tabled the motion to reconsider the vote rejecting the resolution of ratification with the reservations adopted by the senate. This motion was adopted by a vote of 63 yeas to 9 nays, those voting in the negative being Senators Borah, Brandegee, France, Gronna, Knox, McCormick, Norris, Poindexter and Sherman.

VOTING ON AMENDMENTS.

In accordance with the action taken the committee on foreign relations reported the treaty of peace with Germany with the reservations and the resolution of ratification back to the senate on the following day (Feb. 10). On the 11th Senator Lodge offered certain proposed amendments to the reservations adopted by the senate prior to the rejection of the treaty on Nov. 19. Debate on the amendments to the reservations was begun on Feb. 16. Mr. Lodge's amendment to the first reservation regarding notice of withdrawal from the league of nations so as to make the last sentence read, "and notice of withdrawal by the United States may be given by the president or by congress alone whenever a majority of both houses may deem it necessary," was defeated (Feb. 21) by a vote of 33 nays, 32 yeas, 31 not voting. The original committee reservation was then adopted by a vote of 45 yeas, 20 nays, 31 not voting. The reservation provided that notice of withdrawal might be given by a concurrent resolution of congress.

Consideration of reservation No. 2, relating to article X., concerning which there was a special controversy, was passed over temporarily on Feb. 26, and reservation No. 3, relating to mandates, was considered. There was little opposition to it and it was adopted (Feb. 26), the vote standing: Yeas, 68; nays, 4; not voting, 24. Reservation No. 4, relating to the right of the United States to reserve to itself the power to decide what questions are within its domestic jurisdiction, was agreed to (March 2) without amendment by the following vote: Yeas, 56; nays, 25; not voting, 14. Reservation No. 5, relating to the Monroe doctrine, was also adopted without amendment (March 2). An amendment offered by Senator Lodge to the sixth reservation, relating to Shantung, to strike out the words "between the republic of China and the empire of Japan" was agreed to (March 4) by a vote of 69 yeas, 2 nays, 24 not voting. The reservation as amended was adopted (March 4) by the following vote: Yeas, 48; nays, 21; not voting, 26. On motion of Senator Walsh of Montana a substitute for reservation No. 7 providing that no person be authorized to represent the United States as a member of any body or agency created by the treaty of peace except pursuant to an act of the United States, was adopted (March 4) by the following vote: Yeas, 55; nays, 14; not voting 26. Reservation No. 8 was adopted (March 5) without amendment by a vote of 41 yeas to 22 nays, 32 not voting. Reservation No. 9, relating to the expenses of the league of nations, was adopted (March 6) with one amendment by the following vote: Yeas, 46; nays, 25; not voting, 24. For reservation No. 10 a substitute offered by Senator New, reserving to the United States the right to increase its armament without the consent of the council whenever the United States is threatened with invasion or engaged in war, was adopted (March 8) by a vote of 49 yeas to 27 nays, 19 not voting. Reservation No. 11 with a verbal amendment was adopted (March 8) by a vote of 44 yeas to 28 nays, 23 not voting. Reservation No. 12 was adopted (March 8) by a vote of 45 yeas to 27 nays, 23 not voting. Reservation No. 13 was adopted (March 8) without change by a vote of 44 yeas to 27 nays, 24 not voting. Reservation No. 14 with two amendments offered by Senator Lodge relating to the casting of votes by the British self-governing dominions or colonies, was adopted (March 9) by the following votes: First amendment: Yeas, 49; nays, 28; not voting 18. Second amendment: Yeas, 55; nays, 22; not voting, 18.

PRESIDENT REITERATES VIEWS.

Before the senate went back to reservation No. 2, relating to article X., the following letter, dated March 8, from President Wilson to Senator Hitchcock was made public:

"My Dear Senator Hitchcock: I understand that one or two of your colleagues do me the honor of desiring to know what my views are with reference to article X. of the league of nations and the effect upon the league of the

adoption of certain proposed reservations to that article. I welcome the opportunity to throw any light I can upon a subject which has become so singularly beclouded by misapprehensions and misinterpretations of every kind.

"There is no escaping the moral obligations which are expressed in positive terms in this article of the covenant. We won a moral victory over Germany far greater even than the military victory won on the field of battle, because the opinion of the whole world swung to our support and the support of the nations associated with us in the great struggle. It did so because of our common profession and promise that we meant to establish "An organization of peace which should make it certain that the combined power of free nations would check every invasion of right and serve to make peace and justice the more secure by affording a definite tribunal of opinion to which all must submit and by which every international readjustment that cannot be amicably agreed upon by the peoples directly concerned shall be sanctioned.' This promise and assurance were written into the preliminaries of the armistice and into the preliminaries of the peace itself and constitute one of the most sacred obligations ever assumed by any nation or body of nations. It is unthinkable that America should set the example of ignoring such a solemn moral engagement.

"For myself, I feel that I could not look the soldiers of our gallant armies in the face again if I did not do everything in my power to remove every obstacle that lies in the way of the adoption of this particular article of the covenant, because we made these pledges to them as well as to the rest of the world and it was to this cause they deemed themselves devoted in a spirit of crusaders. I should be forever unfaithful to them if I did not do my utmost to fulfill the high purpose for which they fought.

"I think, my dear senator, we can dismiss from our minds the idea that it is necessary to stipulate in connection with article X, the constitutional methods we should use in fulfilling our obligations under it. We gain nothing by such stipulations and secure nothing which is not already secured. It was understood as a matter of course at the conference in Paris that whatever obligations any government assumed or whatever duties it undertook under the treaty would have to be fulfilled by its usual and established constitutional methods of action. Once or twice in meetings of the conference, when the treaty was under consideration, 'reservations' were made to that effect by the representatives of individual powers, and those 'reservations' were invariably received in the way in which men who have met for business and not for talk always receive acts of scrupulous supererogation—listened to with indifferent silence, as such men listen to what is a matter of course and was not necessary to say.

"There can be no objection to explaining again what our constitutional method is and that our congress alone can declare war or determine the causes or occasions for war, and that it alone can authorize the use of the armed forces of the United States on land or on the sea. But to make such a declaration would certainly be a work of supererogation.

"I am sorry to say that the reservations that have come under my notice are almost without exception not interpretations of the articles to which it is proposed to attach them, but in effect virtual nullifications of those articles.

"Any reservation which seeks to deprive the league of nations of the force of article X, cuts at the very heart and life of the covenant itself. Any league of nations which does not guarantee as a matter of incontestable right the political independence and integrity of each of its members might be hardly more than a futile scrap of paper, as ineffective in operation as the agreement between Belgium and Germany which the Germans violated in 1914. Article X, as written into the treaty of Versailles represents the renunciation by Great Britain and Japan, which before the war had begun to find so many interests in common in the Pacific; by France; by Italy—by all the great fighting powers of the world—of the old pretensions of political conquest and territorial aggrandizement. It is a new doctrine in the world's affairs and must be recognized or there is no secure basis for the peace which the whole world so longingly desires and so desperately needs. If article X, is not adopted and acted upon, the governments which reject it will, I think, be guilty of bad faith to their people, whom they induced to make the infinite sacrifices of the war by the pledge that they would be fighting to redeem the world from the old order of force and aggression. They will be acting also in bad faith to the opinion of the world at large to which they appealed for support in a concerted stand against the aggressions and pretensions of Germany. If we were to reject article X, or so to weaken it as to take its full force out of it, it would mark us as desiring to return to the old world of jealous rivalry and misunderstanding from which our gallant soldiers have rescued us, and would leave us without any vision or new conception of justice and peace. We would have learned no lesson from the war but gained only the regret that it had involved us in its maelstrom of suffering. If America has awakened, as the rest of the world has, to the vision of a new day in which the mistakes of the past are to be corrected it will welcome the opportunity to share the responsibilities of article X.

"It must not be forgotten, senator, that this article constitutes a renunciation of wrong ambition on the part of powerful nations with whom we were associated in the war. It is by no means certain that without this article any such renunciation will take place. Militaristic ambitions and imperialistic policies are by no means dead even in the counsels of the nations whom we most trust and with whom we most desire to be associated in the tasks of peace. Throughout the sessions of the conference in Paris it was evident that a militaristic party, under the most influential leadership, was seeking to gain ascendancy in the counsels of France. They were defeated then, but are in control now. The chief arguments advanced in Paris in support of the Italian claims on the Adriatic were strategic arguments, that is to say, military arguments, which had at their back the thought of naval supremacy in that sea. For my own part, I am as intolerant of imperialistic designs on the part of other nations as I was of such designs on the part of Germany.

"The choice is between two ideals: On the one hand, the ideal of democracy, which represents the rights of free peoples everywhere to govern themselves; and on the other hand, the ideal of imperialism, which seeks to dominate by force and unjust power, an ideal which is by no means dead and which is earnestly held in many quarters still. Every imperialistic influence in Europe was hostile to the embodiment of article X, in the covenant of the league of nations and its defeat now would mark the complete consummation of their efforts to nullify the treaty. I hold the doctrine of article X, to be the essence of Americanism. We cannot repudiate it or weaken it without at the same time repudiating our own principles.

"The imperialist wants no league of nations, but if, in response to the universal cry of the

masses everywhere, there is to be one, he is interested to secure one suited to his own purposes, one that will permit him to continue the historic game of pawns and peoples—the juggling of provinces, the old balances of power, and the inevitable wars attendant upon these things. The reservation proposed would perpetuate the old order. Does any one really want to see the old game played again? Can any one really venture to take part in reviving the old order? The enemies of a league of nations have by every true instinct centered their efforts against article X., for it is undoubtedly the foundation of the whole structure. It is the bulwark, and the only bulwark, of the rising democracy of the world against the forces of imperialism and reaction.

"Either we should enter the league fearlessly, accepting the responsibility and not fearing the role of leadership which we now enjoy, contributing our efforts toward estabishing a just and permanent peace, or we should retire as gracefully as possible from the great concert of powers by which the world was saved. For my own part, I am not willing to trust to the counsel of diplomats the working out of any salvation of the world from the things which it has suffered.

"I believe that when the full significance of this great question has been generally apprehended obstacles will seem insignificant before the opportunity, a great and glorious opportunity, to contribute our overwhelming moral and material force to the establishment of an international regime in which our own ideals of justice and right may be made to prevail and the nations of the world be allowed a peaceful development under conditions of order and safety hitherto impossible.

"I need not say, senator, that I have given a great deal of thought to the whole matter of reservations proposed in connection with the ratification of the treaty, and particularly that portion of the treaty which contains the covenant of the league of nations, and I have been struck by the fact that practically every so-called reservation was in effect a rather sweeping nullification of the terms of the treaty itself. I hear of reservationists and mild reservationists, but I cannot understand the difference between a nullifier and a mild nullifier. Our responsibility as a nation in this turning point of history is an overwhelming one, and if I had the opportunity I would beg every one concerned to consider the matter in the light of what it is possible to accomplish for humanity rather than in the light of special national interests.

"If I have been truly informed concerning the desire of some of your colleagues to know my views in this matter, I would be very glad if you should show this letter to them.

"Cordially and sincerely yours,

"WOODROW WILSON."

The senate refused to concur with President Wilson's views as given in the foregoing letter and after debating reservation No. 2 until March 15 adopted a substitute offered by Senator Lodge by a vote of yeas, 55; nays, 24; not voting, 16. Fourteen democrats voted for the substitute and 26 against. No republican voted against it. (The substitute will be found in the appended list of all the reservations adopted.)

IRISH RESERVATION.

In addition to the reservations reported by the committee on foreign relations and adopted (March 18) with a certain number of amendments as shown in the foregoing synopsis a new reservation was introduced by Senator Gerry of Rhode Island, reading as follows:

"In consenting to the ratification of the treaty with Germany the United States adheres to the principle of self-determination and to the resolution of sympathy with the aspirations of the Irish people for a government of their own choice adopted by the senate June 6, 1919, and declares that when such government is attained by Ireland, a consummation it is hoped is at hand, it should promptly be admitted as a member of the league of nations."

The vote on this reservation was as follows:

Yeas, 38.

Ashurst	Henderson	Phelan
Borah	Hitchcock	Pittman
Brandegee	Johnson, Cal.	Ransdell

LIST OF RESERVATIONS.

Finally, on March 19 the debate came to a close and the following resolution of ratification (including all the reservations adopted), offered by Senator Lodge, came to a vote:

Resolved (two-thirds of the senators present concurring therein), That the senate advise and consent to the ratification of the treaty of peace with Germany concluded at Versailles on the 28th day of June, 1919, subject to the following reservations and understandings, which are hereby made a part and condition of this resolution of ratification, which ratification is not to take effect or bind the United States until the said reservations and understandings adopted by the senate have been accepted as a part and a condition of this resolution of ratification by the allied and associated powers, and a failure on the part of the allied and associated powers to make objection to said reservations and understandings prior to the deposit of ratification by the United States shall be taken as a full and final acceptance of such reservations and understandings by said powers:

1. The United States so understands and construes article 1 that in case of notice of withdrawal from the league of nations, as provided in said article, the United States shall be the sole judge as to whether all its international obligations and all its obligations under the said covenant have been fulfilled, and notice of withdrawal by the United States may be given by a concurrent resolution of the congress of the United States.

2. The United States assumes no obligation to preserve the territorial integrity or political independence of any other country by the employment of its military or naval forces, its resources or any form of economic discrimi-

nation, or to interfere in any way in controversies between nations, including all controversies relating to territorial integrity or political independence whether members of the league or not, under the provisions of article 10, or to employ the military or naval forces of the United States, under any article of the treaty for any purpose, unless in any particular case the congress, which under the constitution has the sole power to declare war or authorize the employment of the military or naval forces of the United States, shall, in the exercise of full liberty of action, by act or joint resolution so provide.

3. No mandate shall be accepted by the United States under article 22, part I., or any other provision of the treaty of peace with Germany, except by action of the congress of the United States.

4. The United States reserves to itself exclusively the right to decide what questions are within its domestic jurisdiction and declares that all domestic and political questions relating wholly or in part to its internal affairs, including immigration, labor, coastwise traffic, the tariff, commerce, the suppression of traffic in women and children and in opium and other dangerous drugs, and all other domestic questions, are solely within the jurisdiction of the United States and are not under this treaty to be submitted in any way either to arbitration or to the consideration of the council or of the assembly of the league of nations, or any agency thereof, or to the decision or recommendation of any other power.

5. The United States will not submit to arbitration or to inquiry by the assembly or by the council of the league of nations provided for in said treaty of peace any questions which in the judgment of the United States depend upon or relate to its long-established policy, commonly known as the Monroe doctrine; said doctrine is to be interpreted by the United States alone and is hereby declared to be wholly outside the jurisdiction of said league of nations and entirely unaffected by any provisions contained in the said treaty of peace with Germany.

6. The United States withholds its assent to articles 156, 157 and 158 and reserves full liberty of action with respect to any controversy which may arise under said articles.

7. No person is or shall be authorized to represent the United States, nor shall any citizen of the United States be eligible as a member of any body or agency established or authorized by said treaty of peace with Germany, except pursuant to an act of the congress of the United States providing for his appointment and defining his powers and duties.

8. The United States understands that the reparation commission will regulate or interfere with exports from the United States to Germany, or from Germany to the United States, only when the United States by act or joint resolution of congress approves such regulation or interference.

9. The United States shall not be obligated to contribute to any expenses of the league of nations, or of the secretariat, or of any commission, or committee, or conference, or other agency organized under the league of nations or under the treaty or for the purpose of carrying out the treaty provisions unless and until an appropriation of funds available for such expenses shall have been made by the congress of the United States: Provided, That the foregoing limitation shall not apply to the United States' proportionate share of the expense of the office force and salary of the secretary-general.

10. No plan for the limitation of armaments proposed by the council of the league of nations under the provisions of article 8 shall be held as binding the United States until the same shall have been accepted by congress, and the United States reserves the right to increase its armament without the consent of the council whenever the United States is threatened with invasion or engaged in war.

11. The United States reserves the right to permit, in its discretion, the nationals of a covenant-breaking state, as defined in article 16 of the covenant of the league of nations, residing within the United States or in countries other than such covenant-breaking state, to continue their commercial, financial and personal relations with the nationals of the United States.

12. Nohting in aritcles 296, 297, or in any of the annexes thereto, or in any other article, section or annex of the treaty of peace with Germany, shall, as against citizens of the United States, be taken to mean any confirmation, ratification or approval of any act otherwise illegal or in contravention of the rights of citizens of the United States.

13. The United States withholds its assent to part XIII. (articles 387 to 427, inclusive) unless congress by act or joint resolution shall hereafter make provision for representation in the organization established by said part XIII., and in such event the participation of the United States will be governed and conditioned by the provisions of such act or joint resolution.

14. Until part I., being the covenant of the league of nations, shall be so amended as to provide that the United States shall be entitled to cast a number of votes equal to that which any member of the league and its self-governing dominions, colonies or parts of empire in the aggregate shall be entitled to cast, the United States assumes no obligation to be bound, except in cases where congress has previously given its consent, by any election, decision, report or finding of the council or assembly in which any member of the league and its self-governing dominions, colonies or parts of empire in the aggregate have cast more than one vote.

The United States assumes no obligation to be bound by any decision, report or finding of the council or assembly arising out of any dispute between the United States and any member of the league if such member or any self-governing dominion, colony, empire or part of empire united with it politieally has voted.

15. In consenting to the ratification of the treaty with Germany the United States adheres to the principle of self-determination and to the resolution of sympathy with the aspirations of the Irish people for a government of their own choice, adopted by the senate June 6, 1919, and declares that when such government is attained by Ireland, a consummation it is hoped is at hand, it should promptly be admitted as a member of the league of nations.

TREATY FAILS OF RATIFICATION.

The roll call having been concluded, it resulted—yeas, 49; nays, 35; not voting, 12, as follows:

Yeas, 49.

Ashhurst	Hale	Nugent
Ball	Henderson	Owen
Beckham	Jones, Wash.	Page
Calder	Kellogg	Phelan
Capper	Kendrick	Phipps
Chamberlain	Kenyon	Pittman
Colt	Keyes	Pomerene
Curtis	King	Ransdell
Dillingham	Lenroot	Smith, Ga.
Edge	Lodge	Smith, Md.
Elkins	McLean	Smoot
Fletcher	McNary	Spencer
Frelinghuysen	Myers	Sterling
Gore	New	Sutherland

Trammell	Walsh, Mont.	Watson
Wadsworth	Warren	Wolcott
Walsh, Mass.		

Nays, 35.

Borah	Hitchcock	Robinson
Brandegee	Johnson, Cal.	Sheppard
Comer	Johnson, S. D.	Sherman
Culberson	Kirby	Shields
Dial	Knox	Simmons
Fernald	LaFollette	Smith, S. C.
France	McCormick	Stanley
Gay	McKellar	Swanson
Glass	Moses	Thomas
Gronna	Norris	Underwood
Harris	Overman	Williams
Harrison	Reed	

Not Voting, 12.

Cummins	Jones, N. M.	Penrose
Fall	McCumber	Poindexter
Gerry	Nelson	Smith, Ariz.
Harding	Newberry	Townsend

Not having received the affirmative votes of two-thirds of the senators present and voting, the resolution was not agreed to and the senate did not advise and consent to the ratification of the treaty of peace with Germany.

Of those who voted for ratifying the treaty 28 were republicans and 21 democrats; of those who voted against the ratification 35 were democrats and 12 republicans. The latter were Borah, Brandegee, Fernald, France, Gronna, Johnson (Cal.), Knox, LaFollette, McCormick, Moses, Norris and Sherman.

TREATY BACK TO PRESIDENT.

Immediately after the announcement of the vote on the ratification Senator Lodge offered the following resolution, which after a brief debate was adopted:

"Resolved, That the secretary of the senate be instructed to return to the president the treaty of peace with Germany, signed at Versailles on the 28th day of June, 1919, and respectfully inform the president that the senate has failed to ratify said treaty, being unable to obtain the constitutional majority therefor."

The vote on the resolution was: Yeas, 47; nays, 37; not voting, 12.

PEACE RESOLUTION PASSED BY HOUSE.

In the house on March 31 Representative Stephen G. Porter introduced a joint resolution terminating the state of war between the United States and Germany and permitting the resumption of reciprocal trade with Germany. It was referred to the committee on foreign affairs, which reported it back without amendment April 6. The house committee on rules, on April 8, submitted a report requiring the house to meet on April 9 at 11 a. m., to consider the peace resolution until 5 p. m., when the previous question should be considered as ordered. The report, which was in the form of a resolution, was agreed to by a vote of 214 yeas to 155 nays, 57 not voting. The peace resolution was then read and the general debate begun. The republicans for the most part supported the resolution, while the democrats argued against it on the ground that congress did not have the power to end the war, and that therefore the measure was unconstitutional. Proponents of the resolution held that while congress might not have the power to make peace it had the power to end the war, which was a different thing.

On April 9, at the conclusion of the debate, a motion to recommit was rejected by a vote of 222 nays to 171 yeas, 32 not voting. The joint resolution was then passed by a vote of 242 yeas to 150 nays, 33 not voting. Twenty-two democrats voted for the resolution. The detailed vote was as follows:

TEXT OF HOUSE RESOLUTION.

The resolution as adopted by the house was as follows:

"House joint resolution No. 327 terminating the state of war declared to exist April 6, 1917, between the imperial German government and the United States; permitting on conditions the resumption of reciprocal trade with Germany, and for other purposes.

"Whereas the president of the United States, in the performance of his constitutional duty to give to the congress information of the state of the union, has advised the congress that the war with the imperial German government has ended:

"Resolved, etc. That the state of war declared to exist between the imperial German government and the United States by the joint resolution of congress approved April 6, 1917, is hereby declared at an end.

"Sec. 2. That in the interpretation of any provision relating to the date of the termination of the present war or of the present or existing emergency in any acts of congress, joint resolutions, or proclamations of the president containing provisions contingent upon the date of the termination of the war or of the present or existing emergency, the date when this resolution becomes effective shall be construed and treated as the date of the termination of the war or of the present or existing emergency, notwithstanding any provision in any act of congress or joint resolution providing any other mode of determining the date of the termination of the war or of the present or existing emergency.

"Sec. 3. That with a view to secure reciprocal trade with the German government and its nationals, and for this purpose, it is hereby provided that unless within forty-five days from the date when this resolution becomes effective the German government shall duly notify the president of the United States that it has declared a termination of the war with the United States and that it waives and renounces on behalf of itself and its nationals any claim, demand, right or benefit against the United States or its nationals that it or they would not have had the right to assert had the United States ratified the treaty of Versailles, the president of the United States shall have the power, and it shall be his duty, to proclaim the fact that the German government has not given the notification hereinbefore mentioned, and thereupon and until the president shall have proclaimed the receipt of such notification commercial intercourse between the United States and Germany and the making of loans or credits and the furnishing of financial assistance or supplies to the German government or the inhabitants of Germany, directly or indirectly, by the government or the inhabitants of the United States shall, except with the license of the president, be prohibited.

"Sec. 4. That whoever shall willfully violate the foregoing prohibition whenever the same shall be in force shall upon conviction be fined not more than $10,000, or, if a natural person, imprisoned for not more than two years, or both; and the officer, director, or agent of any corporation who knowingly participates in such violation shall be punished by a like fine, imprisonment, or both, and any property, funds, securities, papers, or other articles or documents, or any vessel, together with her tackle, apparel, furniture and equipment, concerned in such violation shall be forfeited to the United States.

"Sec. 5. That nothing herein contained shall be construed as a waiver by the United States of any rights, privileges, indemnities, reparations, or advantages to which the United States has become entitled under the terms of the armistice signed Nov. 11, 1918, or which were acquired by or are in the possession of the United States by reason of its participation in the war, or otherwise; and all fines, forfeitures, penalties and seizures imposed or made by the United States are hereby ratified, confirmed and maintained."

ACTION IN THE SENATE.

On April 12 the house joint resolution was reported to the senate and was referred to the committee on foreign relations. It was reported back by Senator Lodge on April 30 with certain amendments and a report. The amendments struck out the preamble and all after the resolving clause, substituted new text for the resolution and changed the title so as to make it read: "Repealing

the joint resolution of April 6, 1917, declaring that a state of war exists between the United States and Germany, and the joint resolution of Dec. 7, 1917, declaring that a state of war exists between the United States and the Austro-Hungarian government." The amended resolution was drafted by Senator Philander C. Knox of Pennsylvania and became known as the Knox resolution.

The debate in the senate began on May 5, when Mr. Knox made an elaborate speech in defense of his substitute for the house joint resolution. "More than seventeen months ago," he said, "the last shot in the great war was fired. From that time until the present we in this country have been living subject to an unreasoning wartime rule which is unnecessary in practice, unknown in precedent and anomalous in law." He went on to criticize the president severely for his action in insisting upon the ratification of the Versailles treaty without change and to compel the senate to surrender its will and judgment to him. The substance of Senator Knox's argument was that congress had the power to repeal as well as pass a resolution declaring war. "This resolution," he said, "provides for the repeal of the authority for waging war—that is, the declaration of war—thus leaving the executive without the legal power to declare war, and so putting us domestically on a basis of peace with our peacetime rights and liberties again dominant and fully restored to us."

Senator Gilbert M. Hitchcock of Nebraska took the opposite view and insisted that for 130 years the United States had recognized that there was only one way to make peace and that was by a treaty negotiated by the president with the consent of the senate.

PASSED BY THE SENATE.

The debate was not extended and no disposition to delay a vote on the resolution was shown. On Saturday, May 15, it was adopted by a vote of 43 to 38. Three democrats—Reed of Missouri, Walsh of Massachusetts and Shields of Tennessee—voted with the republicans for the adoption of the resolution, while two republicans, Nelson of Minnesota and McCumber of North Dakota, who was paired, lined up against it. The detailed vote was as follows:

KNOX RESOLUTION AS PASSED.

The joint resolution as amended and passed by the senate was as follows:

"That the joint resolution of congress passed April 6, 1917, declaring a state of war to exist between the imperial German government and the government and people of the United States, and making provisions to prosecute the same, be, and the same is hereby, repealed, and said state of war is hereby declared at an end: Provided, however, That all property of the imperial German government, or its successor or successors, and of all German nationals which was on April 6, 1917, in or has since that date come into the possession or under control of the government of the United States or of any of its officers, agents, or employes, from any source or by any agency whatsoever, shall be retained by the United States and no disposition thereof made, except as shall specifically be hereafter provided by congress, until such time as the German government has, by treaty with the United States, ratification whereof is to be made by and with the advice and consent of the senate, made suitable provisions for the satisfaction of all claims against the German government of all persons, wheresoever domiciled, who owe permanent allegiance to the United States, whether such persons have suffered through the acts of the German government or its agents since July 31, 1914, loss, damage or injury to their persons or property, directly or indirectly, through the ownership of shares of stock in German, American or other corporations, or have suffered damage directly in consequence of hostilities or of any operations of war or otherwise, and until the German government has given further undertakings and made provisions by treaty, to be ratified by and with the advice and consent of the senate, for granting to persons owing permanent allegiance to the United States most favored nation treatment, whether the same be national or otherwise, in all matters affecting residence, business, profession, trade, navigation, commerce and industrial property rights and confirming to the United States all fines, forfeitures, penalties and seizures imposed or made by the United States during the war, whether in respect to the property of the German government or German nationals, and waiving any pecuniary claim based on events which occurred at any time before the coming into force of such treaty, any existing treaty between the United States and Germany to the contrary notwithstanding.

"Sec. 2. That in the interpretation of any provision relating to the date of the termination of the present war or of the present or existing emergency in any acts of congress, joint resolutions or proclamations of the president containing provisions contingent upon the date of the termination of the war or of the present or existing emergency, the date when this resolution becomes effective shall be construed and treated as the date of the termination of the war or of the present or existing emergency, notwithstanding any provision in any act of congress or joint resolution providing any other mode of determining the date of the termination of the war or of the present or existing emergency.

"Sec. 3. That until by treaty or act or joint resolution of congress it shall be determined otherwise, the United States, although it has not ratified the treaty of Versailles, does not waive any of the rights, privileges, indemni-

ties, reparations or advantages to which it and its nationals have become entitled under the terms of the armistice signed Nov. 11, 1918, or any extensions or modifications thereof or which under the treaty of Versailles have been stipulated for its benefit as one of the principal allied and associated powers and to which it is entitled.

Sec. 4. That the joint resolution of congress approved Dec. 7, 1917, declaring that a state of war exists between the imperial and royal Austro-Hungarian government and the government and the people of the United States and making provisions to prosecute the same, be, and the same is hereby, repealed, and said state of war is hereby declared at an end, and the president is hereby requested immediately to open negotiations with the successor or successors of said government for the purpose of establishing fully friendly relations and commercial intercourse between the United States and the governments and peoples of Austria and Hungary.

HOUSE ACCEPTS SUBSTITUTE.

The resolution as amended in the senate by the substitution of the Knox draft was laid before the house on May 21 and was concurred in by a vote of 288 to 139, or seventeen votes less than the two-thirds required to pass it over the anticipated presidential veto. Nineteen democrats voted for the resolution, while two republicans voted against it. The democrats were Representatives Ashbrook of Ohio, Caldwell, Mead, Sullivan, Carew, Cullen, Ganly, Goldfogle, O'Connell, Maher, Dooling and McKiniry of New York; Huddleston of Alabama, Evans of Nevada, Gallivan, Tague and Olney of Massachusetts; Hamill of New Jersey and McLane of Pennsylvania. The republicans voting against the resolution were Representatives Kelley of Michigan and Fuller of Massachusetts.

VETOED BY THE PRESIDENT.

On May 27 President Wilson returned the resolution with the following veto message:

"To the House of Representatives:

"I return herewith, without my signature, house joint resolution 327, intended to repeal the joint resolution of April 6, 1917, declaring a state of war to exist between the United States and Germany, and the joint resolution of Dec. 7, 1917, declaring a state of war to exist between the United States and the Austro-Hungarian government, and to declare a state of peace.

"I have not felt at liberty to sign this joint resolution, because I cannot bring myself to become party to an action which would place ineffaceable stain upon the gallantry and honor of the United States.

"The resolution seeks to establish peace with the German empire without exacting from the German government any action by way of setting right the infinite wrongs which it did to the peoples whom it attacked and whom we professed it our purpose to assist when we entered the war.

"Have we sacrificed the lives of more than 100,000 Americans and ruined the lives of thousands of others and brought upon thousands of American families an unhappiness that can never end for purposes which we do not now care to state or take further steps to attain?

"The attainment of these purposes is provided for in the treaty of Versailles by terms deemed adequate by the leading statesmen and experts of all the great peoples who were associated in the war against Germany. Do we now not care to join in the effort to secure them?

"We entered the war most reluctantly. Our people were profoundly disinclined to take part in a European war, and at last did so only because they became convinced that it could not in truth be regarded as only a European war, but must be regarded as a war in which civilization itself was involved and human rights of every kind, as against a belligerent government.

"Moreover, when we entered the war we set forth very definitely the purposes for which we entered, partly because we did not wish to be considered as merely taking part in a European contest.

"This joint resolution which I return does not seek to accomplish any of these objects, but, in effect, makes a complete surrender of the rights of the United States, so far as the German government is concerned.

"A treaty of peace was signed at Versailles on the 28th of June last, which did seek to accomplish the objects which we had declared to be in our minds, because all the great governments and peoples which united against Germany had adopted our declarations of purpose as their own and had in solemn form embodied them in communications to the German government preliminary to the armistice of Nov. 11, 1918.

"But the treaty as signed at Versailles has been rejected by the senate of the United States, though it has been ratified by Germany. By that rejection and by its methods we had in effect declared that we wish to draw apart and pursue objects and interests of our own, unhampered by any connections of interest or of purpose with other governments and peoples.

"Notwithstanding the fact that upon our entrance into the war we professed to be seeking to assist in the maintenance of common interests, nothing is said in this resolution about the freedom of navigation upon the seas, or the reduction of armaments, or the vindication of the rights of Belgium, or the rectification of wrongs done to France, or the release of the Christian population of the Ottoman empire from the intolerable subjection which they have had for so many generations to endure, or the establishment of an independent Polish state, or the continued maintenance of any kind of understanding among the great powers of the world which would be calculated to prevent in the future such outrages as Germany attempted and in part consummated.

"We have now in effect declared that we do not care to take any further risks or to assume any further responsibilities with regard to the freedom of nations or the sacredness of international obligations or the safety of independent peoples.

"Such a peace with Germany—a peace in which none of the essential interests which we had at heart when we entered the war is safeguarded—is, or ought to be, inconceivable, is inconsistent with the dignity of the United States, with the rights and liberties of her citizens and with the very fundamental conditions of civilization. I hope that in these statements I have sufficiently set forth the reasons why I have felt it incumbent upon me to withold my signature.

"WOODROW WILSON.

"The White House, May 27, 1920."

The resolution was called up in the house on May 28 and an unsuccessful attempt was made to pass it over the president's veto. The vote was 219 to 152, with one recorded as present. Twenty-nine additional affirmative votes would have been necessary to bring the total up to the necessary two-thirds of those voting. Representatives Kelley of Michigan and Fuller of Massachusetts, republicans, joined with the democrats in sustaining the veto. Seventeen democrats voted with the republicans to pass the resolution. No action was taken by the senate.

PUNISHMENT OF WAR CRIMINALS SOUGHT.

HOLLAND HOLDS FORMER KAISER.

One of the first acts of the supreme council after the treaty of peace with Germany had been ratified was to demand of the Dutch government the extradition of Former Emperor William II. A formal letter to that effect was sent to the government of Holland on Jan. 17, 1920, and was made public Jan. 19. It was as follows:

"Paris, Jan. 15.—In notifying by these presents The Netherlands government and queen of the text of article 227 of the treaty of Versailles, a certified copy of which is annexed, which came into force Jan. 10, the powers have the honor to make known at the same time that they have decided to put into execution without delay this article.

"Consequently the powers address to the government of The Netherlands an official demand to deliver into their hands William of Hohenzollern, former emperor of Germany, in order that he may be judged.

"Individuals residing in Germany against whom the allied and associated powers have brought charges are to be delivered to them under article 228 of the peace treaty, and the former emperor, if he had remained in Germany, would have been delivered under the same conditions by the German government.

"The Netherlands government is conversant with the incontrovertible reasons which imperiously exact that premeditated violations of international treaties, as well as systematic disregard of the most sacred rules and rights of nations, should receive as regards every one, including the highest placed personalities, special punishment provided by the peace congress. The powers briefly recall, among so many crimes, the cynical violation of the neutrality of Belgium and Luxemburg, the barbarous and pitiless system of hostages, deportation en masse, the carrying off of young girls from the city of Lille, who were torn from their families and delivered defenseless to the worst promiscuity; the systematic devastation of entire regions without military utility, the submarine war without restriction, including inhuman abandonment of victims on the high seas, and innumerable acts against noncombatants committed by German authority in violation of the laws of war.

"Responsibility at least moral for all these acts reaches up to the supreme head who ordered them, or made abusive use of his full power to infringe, or to allow infringement, upon the most sacred regulations of human conscience.

"The powers cannot conceive that the government of The Netherlands can regard with less reprobation than themselves the immense responsibility of the former emperor.

"Holland would not fulfill her international duty if she refused to associate herself with other nations as far as her means allow in undertaking, or at least not hindering, chastisement of the crimes committed.

"In addressing this demand to the Dutch government the powers believe it their duty to emphasize its special character. It is their duty to insure the execution of article 227 without allowing themselves to be stopped by arguments, because it is not a question of a public accusation with judicial character as regards its basis, but an act of high international policy imposed by the universal conscience, in which legal forms have been provided solely to assure to the accused such guaranties as were never before recognized in public law.

"The powers are convinced Holland, which has always shown respect for the right and love of justice, having been one of the first to claim a place in the society of nations, will not be willing to cover by her moral authority the violation of principles essential to the solidarity of nations, all of which are equally interested in preventing the return of a similar catastrophe.

"It is to the highest interest of the Dutch people not to appear to protect the principal author of this catastrophe by allowing him shelter on her territory and also to facilitate his trial, which is claimed by the voices of millions of victims. CLEMENCEAU."

Treaty Provisions.

The articles referred to in the text of the note and the first of which (227) was made an annex thereto are as follows:

"Art. 227. The allied and associated powers publicly arraign William II. of Hohenzollern, former German emperor, for a supreme offense against international morality and the sanctity of treaties. A special tribunal will be constituted to try the accused, thereby assuring him the guaranty essential to the right of defense. It will be composed of five judges, one appointed by each of the following powers, namely: The United States of America, Great Britain, France, Italy and Japan. In its decision the tribunal will be guided by the highest motives of international policy with a view to vindicating the solemn obligations of international undertakings, and the validity of international morality. It will be its duty to fix the punishment which it considers should be imposed. The allied and associated powers will address a request to the government of The Netherlands for the surrender to them of the ex-emperor that he may be put on trial.

"Art. 228. The German government recognizes the right of the allied and associated powers to bring before military tribunals persons accused of having committed acts in violation of the laws and customs of war. Such persons shall, if found guilty, be sentenced to punishments laid down by law. This provision will apply notwithstanding any proceedings or prosecution before a tribunal in Germany or in the territory of her allies. The German government shall hand over to the allied and associated powers, or to such of them as shall so request, all persons accused of having committed an act in violation of the laws and customs of war, who are specified either by name or by rank of office or employment which they held under the German authorities."

Holland Refuses Request.

In a note dated Jan. 22 and made public in Paris Jan. 23, the Netherlands government refused to comply with the request of the allies. The Dutch reply was as follows:

"By verbal note, dated Jan. 15, 1920, given to the envoy of the queen at Paris, the powers, referring to article 227 of the treaty of Versailles, demand that the government of Holland give into their hands William of Hohenzollern, former emperor of Germany, so that he may be tried.

"Supporting this demand, they observe that if the former emperor had remained in Germany the German government would, under the terms of article 228 of the treaty of peace, have been obliged to deliver him.

"In citing as premeditated violations of international treaties, as well as a systematic disregard of the most sacred rules of the rights of man, a number of acts committed during the war by German authority, the powers place the responsibility, at least morally, upon the former emperor.

"They express the opinion that Holland would not fulfill her international duty if

she refused to associate herself with them within the limit of her ability, to pursue or at least not to impede the punishment of crimes committed.

"They emphasize the special character of their demands, which contemplate not a juridical accusation but an act of high international policy, and they make an appeal to Holland's respect of law and love of justice not to cover with her moral authority violation by Germany of the essential principles of the solidarity of the nations.

"The queen has the honor to observe, first, that obligations which for Germany could have resulted from article 228 of the treaty of peace cannot serve to determine the duty of Holland, which is not a party to the treaty.

"The government of the queen, moved by imprescriptible reasons, cannot view the question raised by the demands of the powers except from the point of view of its own duty. It was absolutely unconnected with the origin of the war and has maintained, and not without difficulty, its neutrality to the end. It finds itself then face to face with facts of the war in a position different from that of the powers.

"It rejects with energy all suspicion of wishing to cover with its sovereign right and its moral authority violations of the essential principles of the solidarity of nations, but it cannot recognize an international duty to associate itself with this act of high international policy of the powers.

"If in the future there should be instituted by the society of nations an international jurisdiction competent to judge in case of war deeds qualified as crimes and submitted to its jurisdiction by statute antedating the acts committed, it would be fit for Holland to associate herself with the new regime.

"The government of the queen cannot admit in the present case any other duty than that imposed upon it by the laws of the kingdom and national tradition.

"Now, neither the constituent laws of the kingdom, which are based upon the principles of law universally recognized, nor a respectable secular tradition which has made this country always a ground of refuge for the vanquished in international conflicts, permit the government of Holland to defer to the desire of the powers by withdrawing from the former emperor the benefit of its laws and this tradition.

"Justice and national honor, of which respect is a sacred duty, oppose this. The Netherlands people, moved by the sentiments to which in history the world has done justice, could not betray the faith of those who have confided themselves to their free institutions.

"The government of the queen is pleased to believe that the powers will recognize the good grounds of these considerations, which rise above any consideration of personalities and which seem to it so peremptory that they could not reasonably give rise to wrong interpretations."

Rejoinder by Allies.

In a note dated Feb. 14 and made public Feb. 17 the allies controverted the position taken by the Dutch government as follows:

"The immense sacrifices made in the general interest by the [allied] powers during the war entitle them to ask The Netherlands to reconsider its refusal, based on the weighty but entirely personal considerations of a state when held aloof from the war and cannot perhaps appreciate quite accurately all the duties and dangers of the present hour.

"The obligations of the powers toward other nations, the gravity of the question concerned, as well as the very grave political effects to which relinquishment of the claims of justice against the ex-emperor would give rise, all constrain them to uphold and renew their demand.

"The powers do not ask the queen's government to depart from its traditional policy, but to consider that the nature of their request—which does not, in their opinion, depend solely or even mainly on Dutch municipal law—has not been adequately appreciated.

"No question of prestige is at stake, and the powers pay as much heed to the conscientious sentiments of a state with limited interest as to the mature decision of great powers, but cannot wait for the creation of a world tribunal competent to examine international crimes before bringing to trial the responsible author of the catastrophe of the great war.

"It is precisely this contemplated trial which would prepare the way for such a tribunal and demonstrate the unanimity of feeling animating the conscience of the nations of the world.

"The powers wish to point out that the league of nations has not yet reached a state of development sufficient to allow any application to it, or to a tribunal of any kind created by it, meeting with that prompt satisfaction which is surely essential.

"It does not appear to consider that it shares with other civilized nations the duty of securing the punishment of crimes against justice and the principles of humanity—crimes for which William of Hohenzollern undeniably bears a heavy responsibility.

"The note of Jan. 15 was sent in the name of the allies, twenty-five in number, who were signatories to the treaty of peace and the collective mandatories of the majority of the civilized nations of the world.

"It is impossible to disregard the collective force of this request, which is the expression not only of the feeling of indignation of the victims but of the demand for justice made by the conscience of humanity as a whole.

"The Netherlands government surely has not forgotten that the policy and personal actions of the man required for judgment by the powers have cost the lives of approximately 10,000,000 men, murdered in their prime, and have been responsible for the mutilation or shattered health of three times as many; the laying waste to and the destruction of millions of square miles of territory in countries formerly industrious, peaceable and happy and the piling up of war debts running into billions, the victims being men who had defended their freedom and incidentally that of Holland.

"The economic and social existence of all these nations has been thrown into confusion, and they are now jeopardized by famine and want—the terrible results of that war of which William II. was the author.

"The allies cannot conceal their surprise at finding in the Dutch reply no single word of disapproval of the crimes committed by the emperor, crimes which outrage the most elementary sentiments of humanity and civilization, and of which in particular so many Dutch nationals themselves have been the innocent victims on the high seas. To help bring to justice the author of such crimes plainly accords with the aims of the league of nations.

"How can any one fail to be impressed by the reactionary manifestations which have followed the refusal of Holland and the dangerous encouragement to all those who are opposing the just chastisement of the cul-

prits and their exemplary condemnation, whatever their social position?

"Holland, whose history tells of long struggles for liberty, who has suffered so grievously through disregard for justice, could not place herself by such a narrow conception of her duties outside of the comity of nations.

"A duty which none can avoid for national reasons, however weighty they may be, is to unite in order to mete out exemplary punishment to responsible authors of the disasters and abominations of the war and endeavor to revive conceptions of solidarity and humanity in the German nation, which is still unconvinced of the falsity of the tenets of its government, who profes-ed that might was right and success condoned crime.

"It was from this point of view, and not exclusively from a national standpoint, that the powers requested the government of the queen to hand over William of Hohenzollern, and from this point of view they now renew that request.

"The powers desire to remind the government of The Netherlands that if it should persist in its attitude of detachment toward the presence of the imperial family on its territory so close to Germany it would assume direct responsibility both for sheltering from the claims of justice and for that propaganda which is so dangerous to Europe and the whole world.

"It is indisputable that the permanent presence of the ex-emperor under ineffectual supervision a few kilometers' distance from the German frontier, where he continues the center of active and increasing intrigue, constitutes for the powers who have made supreme human sacrifices to destroy this moral danger, a menace which they cannot be called upon to accept.

"The rights they possess in virtue of the most express principles of the law of nations entitle them and make it their duty to take such measures as are required for their own security.

"The powers cannot conceal the painful impression made upon them by the refusal of the Dutch government to hand over the ex-emperor to them without any consideration of the possibility of reconciliating the scruples of Holland with some effectual precautionary measures, to be taken either on the spot or by holding the ex-emperor at a distance from the scene of his crimes, making it impossible for him to exert his disastrous influence in Germany in the future.

"Although a proposal of this nature wou'd not correspond fully to the request of the powers, it would at least have afforded proof of those feelings which Holland cannot but possess.

"The powers urge upon the Dutch government in the most solemn and pressing manner the importance attaching to fresh consideration of the question put before her. They desire that it may be clearly understood how grave the situation might become if The Netherlands government were not in a position to give those assurances which the safety of Europe demands."

Holland Promises Precautions.

The Dutch government on March 5, in a note sent to Premier Lloyd George, again refused to deliver the former German emperor to the allies for trial, repeating its former arguments and declaring its inability to change the previous decision. It said it was not forgetful of the inhuman acts committed during the war, but since Holland was not a party to the Versailles treaty the queen's government finds itself in a different position from other powers with regard to those acts.

"Since the government's supreme duty is to respect the constitutional laws of the kingdom," the note continued, "it can only emphasize that it would be committing an act contrary to law and justice and incompatible with the national honor if it consented to violate these laws by abolishing the rights accorded to a fugitive finding himself on Dutch territory."

Protesting that this attitude did not put Holland outside the comity of nations, the note declared Holland was fully conscious of the duties the presence of the former emperor laid on The Netherlands government with regard to the country's own interests as well as international security.

The note protested that, contrary to the impression derived from the allied note, the Dutch government from the beginning had observed the obligations entailed by these duties. The government, the note said, would continue to do so, being able in the exercise of Dutch sovereignty to take on the spot all precautionary measures deemed requisite to subject the freedom of the former emperor to necessary limitations.

Allies Accept Offer.

On March 30 it was announced that the allies had accepted the implied promise in Holland's note of March 5 to take all efficient and precautionary measures to prevent the former emperor from again becoming a menace to the security of Europe. It was taken for granted that this practically meant the internment of William of Hohenzollern in his new home at Doorn then being prepared for occupancy by the ex-kaiser. The change of residence was made in May, when the former emperor and empress with their attendants left Amerongen, where they had been the guests of Count von Bentinck since Nov. 11, 1918, and proceeded to Doorn, which it was assumed would be their permanent abiding place.

No separate demand for the surrender of the former German crown prince, Frederick William, was made and he continued his residence on the island of Wieringen, Holland.

TRIAL OF WAR CRIMINALS.

In accordance with article 228 of the treaty of Versailles a list of German officers and soldiers accused of war crimes was drawn up by a committee including Baron Birkenhead, lord chancellor of England, Edouard Ignace, French undersecretary for military justice, and representatives of other allied nations. This list contained 795 names of men whose extradition for trial was asked. Baron Kurt von Eisner, one of the envoys representing Germany at the exchange of ratifications of the Versailles peace treaty in Paris on Jan. 10, 1920, refused to forward the list to his government and it was delivered directly by the French charge d'affaires in Berlin. On Jan. 25 the German government sent a note to the allies in which it reiterated the assertion it had made in December, 1919, that compliance with the conditions contained in articles 228 to 230 of the peace treaty regarding the extradition of Germans would cause the most violent convulsions not only in the political but in the economic field. The note further called attention to a law enacted by the German legislative bodies on Dec. 18, 1919, providing for the prosecution of war criminals.

"The German government," continued the note, "will instruct the prosecuting authorities to begin at once criminal action against all Germans against whom the allied and associated governments bring charges of having violated the rules and regulations of war, as soon as the evidence upon which these charges are based is received. It will suspend all

laws which might stand in the way of the beginning of such an action, particularly the existing amnesty acts, in so far as these cases are concerned. The highest German court, the federal court in Leipsic, will be competent to handle this criminal procedure. Futhermore, the allied and associated powers actually interested will receive the right to take part directly in the trial."

In a note dated Feb. 16 the allies accepted the foregoing proposition with some reservations. In this communication it was said that the prosecution which the German government itself proposed immediately to institute was compatible with article 228 of the peace treaty and was expressly provided for at the end of the first paragraph. The note then continued:

"Faithful to the letter and spirit of the treaty, the allies will abstain from intervention in any way in the procedure of the prosecution and verdict in order to leave to the German government complete and entire responsibility.

"They reserve to themselves the right to decide by the results as to the good faith of Germany and recognition by her of the crimes she has committed and her sincere desire to associate herself with their punishment.

"They will see whether the German government, who have declared themselves unable to arrest the accused named on the above list and deliver them for trial to the allies, are actually determined to judge them themselves.

"At the same time the allies, in the pursuance of truth and justice, have decided to intrust to a mixed interallied commission the task of collecting, publishing and communicating to Germany details of the charges brought against each of these whose guilt shall have been established by their investigations.

"Finally, the allies formally emphasize that procedure before a jurisdiction such as is proposed can in no way annul the provisions of articles 228 to 230 of the treaty.

"The powers reserve to themselves the right to decide whether the proposed procedure by Germany, which according to her would assure to the accused all guaranties of justice, does not, in effect, bring about their escape from the just punishment of their crimes. In this event the allies would exercise their rights to their full extent by submitting the cases to their own tribunal.

The list of war offenders as originally submitted formed a volume of 194 pages and was divided into seven parts:

1. The British list, demanding 100 individuals.
2. The French list of 234 names.
3. The Italian list, consisting of twenty-nine names.
4. The Belgian list of 334 names, 265 not being mentioned by name.
5. The Polish list of fifty-three names.
6. The Roumanian list of forty-one names.
7. The Jugo Slav list, four names.

In accordance with the agreement to transfer the trial of the accused to the German supreme court another list containing the names of only forty-six men was sent to Germany. The result of the trial of the cases against these defendants was to be regarded as a test of the good faith of Germany in carrying out her promise to punish war criminals. The British selected seven men to be tried chiefly for submarine atrocites; France selected twelve, Belgium fifteen and Italy, Poland and Roumania four each.

Some of the Accused.

Included among the hundreds of Germans accused of criminal acts in the war were the following:

Ex-Crown Prince Rupprecht of Bavaria.—For deporting many inhabitants in the north of France.

Duke of Wurttemberg, commander in chief of the 4th army—For ordering massacres of the civilian population at Namur and other places.

Gen. von Kluck, commander of the 1st army—For murdering hostages at Senlis and shooting civilians at Aerschot.

Gen. von Bulow, army commander—For setting fire to villages in the Ardennes and shooting civilians.

Field Marshal von Mackensen—For burning villages and ordering executions among the civilian population in Roumania.

Baron von der Lancken—For the murder of Miss Cavell and Capt. Fryatt.

Admiral von Capelle—For ordering submarine outrages.

Field Marshal von Sanders—For permitting massacres of Armenians and Syrians.

Gen. Stenger—For ordering no prisoners to be taken.

Von Ostrovsky—For looting and for murdering 103 civilians.

Gen. von Lesny—For executing 112 civilians at Arlon.

The brothers Niemeyer of Holzminden—For outrages against British prisoners of war.

Maj. von Gortz—For acts of cruelty committed at Magdeburg prison camp.

Lieut. Rodoger—For acts of cruelty at Ruhleben.

Gen. von Cassel—For acts of cruelty at Doeberitz prison camp.

Maj. von Bulow—For the destruction of Aerschot and for shooting 150 civilians.

Gen. von Marnteuffel—For permitting the slaughter of civilians at Louvain.

Lieut. Werner, Commander Valentiner and Commander Foerstner—For sinking hospital ships.

JOAN OF ARC CANONIZED.

Joan of Arc, the "Maid of Orleans," who was beatified by Pius X. April 11, 1909, was exalted to sainthood May 16, 1920, by Pope Benedict XV. at St. Peter's, Rome. Thirty thousand persons, including 140 descendants of the family of Joan of Arc, witnessed the ceremony of canonization. After the pope had ascended the throne in St. Peter's, dignitaries of the church advanced and three times claimed that the pontiff should inscribe the name of Joan of Arc in the sacred list. After the third time, Mgr. Galli answered that, as the pope was convinced that "this thing was pleasing to God, he had decided to pronounce the sentence of canonization." Pope Benedict concluded his part of the celebration with an oration on the life of the new saint, and as he spoke a picture of Joan of Arc, placed behind the high altar, was unveiled. The impressive procession which marked the beginning of the rites was then re-formed and slowly wound its way back to the Vatican. Priests and monks in black, brown and white robes headed the line and after them came ecclesiastics intoning special prayers and hymns composed for the occasion. After them came richly colored banners showing scenes from the life of Joan of Arc.

Taking part in the procession and the ceremonies were cardinals, archbishops and patriarchs wearing their miters, jeweled crosses and rich brocades and attended by knights of the religious orders. Cardinal O'Connell of Boston and a number of other church dignitaries from America were in the line. Pope Benedict celebrated mass in person and both at the beginning and close of the rites bestowed the apostolic blessing on the multitude.

Joan of Arc was born about 1412 and was condemned to death as a sorceress and burned to death at the stake May 30, 1431.

THE UNITED STATES AND ARMENIA.

At the conference of allied statesmen, including Premiers Lloyd George of Britain, Millerand of France and Nitti of Italy, held at San Remo, Italy, April 18-27, 1920, a note asking the United States to accept a mandate for Armenia and to assist in the arbitration of the Armenian boundaries was drawn up and sent to President Wilson in Washington. The president announced his willingness to act as arbitrator in defining the boundaries of the new Asiatic republic and on May 24 sent the following message to both houses of congress with reference to the proposed mandate.

Gentlemen of the Congress: On the fourteenth of May an official communication was received at the executive office from the secretary of the senate of the United States conveying the following preambles and resolutions:

"Whereas the testimony adduced at the hearings conducted by the subcommittee of the senate committee on foreign relations have clearly established the truth of the reported massacres and other atrocities from which the Armenian people have suffered; and

"Whereas the people of the United States are deeply impressed by the deplorable conditions of insecurity, starvation and misery now prevalent in Armenia; and

"Whereas the independence of the republic of Armenia has been duly recognized by the supreme council of the peace conference and by the government of the United States of America; Therefore be it

"Resolved, That the sincere congratulations of the senate of the United States are hereby extended to the people of Armenia on the recognition of the independence of the republic of Armenia, without prejudice respecting the territorial boundaries involved; and be it further

"Resolved, That the senate of the United States hereby expresses the hope that stable government, proper protection of individual liberties and rights, and the full realization of nationalistic aspirations may soon be attained by the Armenian people; and be it further

"Resolved, That in order to afford necessary protection for the lives and property of citizens of the United States at the port of Batum and along the line of the railroad leading to Baku, the president is hereby requested, if not incompatible with the public interest, to cause a United States warship and a force of marines to be dispatched to such port with instructions to such marines to disembark and to protect American lives and property."

I received and read this document with great interest and with genuine gratification, not only because it embodied my own convictions and feelings with regard to Armenia and its people, but also, and more particularly, because it seemed to me the voice of the American people expressing their genuine convictions and deep Christian sympathies, and intimating the line of duty which seemed to them to lie clearly before us.

I cannot but regard it as providential, and not as a mere casual coincidence, that almost at the same time I received information that the conference of statesmen now sitting at San Remo for the purpose of working out the details of peace with the central powers which it was not feasible to work out in the conference at Paris, had formally resolved to address a definite appeal to this government to accept a mandate for Armenia. They were at pains to add that they did this, "not from the smallest desire to evade any obligations which they might be expected to undertake, but because the responsibilities which they are already obliged to bear in connection with the disposition of the former Ottoman empire will strain their capacities to the uttermost, and because they believe that the appearance on the scene of a power emancipated from the prepossessions of the old world will inspire a wider confidence and afford a firmer guaranty for stability in the future than would the selection of any European power."

Early in the conferences at Paris it was agreed that to those colonies and territories which as a consequence of the late war have ceased to be under the sovereignty of the states which formerly governed them and which are inhabited by peoples not yet able to stand by themselves under the strenuous conditions of the modern world there should be applied the principle that the well being and development of such peoples form a sacred trust of civilization, and that securities for the performance of this trust should be afforded.

It was recognized that certain communities formerly belonging to the Turkish empire have reached a stage of development where their existence as independent nations can be provisionally recognized, subject to the rendering of administrative advice and assistance by a mandatory until such time as they are able to stand alone.

It is in pursuance of this principle and with a desire of affording Armenia such advice and assistance that the statesmen conferring at San Remo have formally requested this government to assume the duties of mandatory in Armenia. I may add, for the information of the congress, that at the same sitting it was resolved to request the president of the United States to undertake to arbitrate the difficult question of the boundary between Turkey and Armenia in the vilayets of Erzerum, Trebizond, Van and Bitlis and it was agreed to accept his decision thereupon, as well as any stipulation he may prescribe as to access to the sea for the independent state of Armenia. In pursuance of this action, it was resolved to embody in the treaty with Turkey, now under final consideration, a provision that "Turkey and Armenia and the other high contracting parties agree to refer to the arbitration of the president of the United States of America the question of the boundary between Turkey and Armenia in the vilayets of Erzerum, Trebizond, Van and Bitlis, and to accept his decision thereupon as well as any stipulation he may prescribe as to access to the sea for the independent state of Armenia," pending that decision the boundaries of Turkey and Armenia to remain as at present. I have thought it my duty to accept this difficult and delicate task.

In response to the invitation of the council at San Remo, I urgently advise and request that the congress grant the executive power to accept for the United States a mandate over Armenia. I make this suggestion in the earnest belief that it will be the wish of the people of the United States that this should be done. The sympathy with Armenia has proceeded from no single portion of our people, but has come with extraordinary spontaneity and sincerity from the whole of the great body of Christian men and women in this country by whose free-will offerings Armenia has practically been saved at the most critical juncture of its existence. At their hearts this great and generous people have made the cause of Armenia their own. It is to this people and to their government that the hopes and earnest expectations of the struggling people of Armenia turn as they now emerge from a period of indescribable suffering and peril, and I hope that the congress will think it wise to meet this hope and expectation with the utmost liberality. I

know from unmistakable evidences given by responsible representatives of many peoples struggling toward independence and peaceful life again that the government of the United States is looked to with extraordinary trust and confidence, and I believe that it would do nothing less than arrest the hopeful processes of civilization if we were to refuse the request to become the helpful friends and advisers of such of these people as we may be authoritatively and formally requested to guide and assist.

I am conscious that I am urging upon the congress a very critical choice, but I make the suggestion in the confidence that I am speaking in the spirit and in accordance with the wishes of the greatest of the Christian peoples. The sympathy for Armenia among our people has sprung from untainted consciences, pure Christian faith, and an earnest desire to see Christian people everywhere succored in their time of suffering and lifted from their abject subjection and distress and enabled to stand upon their feet and take their place among the free nations of the world. Our recognition of the independence of Armenia will mean genuine liberty and assured happiness for her people, if we fearlessly undertake the duties of guidance and assistance involved in the functions of a mandatory. It is therefore with the most earnest hopefulness and with the feeling that I am giving advice from which the congress will not willingly turn away that I urge the acceptance of the invitation now formally and solemnly extended to us by the council at San Remo, into whose hands has passed the difficult task of composing the many complexities and difficulties of government in the one-time Ottoman empire and the maintenance of order and tolerable conditions of life in those portions of that empire which it is no longer possible in the interest of civilization to leave under the government of the Turkish authorities themselves. WOODROW WILSON.

The White House, May 24, 1920.

SENATE VOTES NO.

In reply to the foregoing message the senate on June 1 adopted the following joint resolution:

"That the congress hereby respectfully declines to grant the executive the power to accept a mandate over Armenia as requested in the message of the president dated May 24, 1920."

The vote was 52 in favor of the resolution and 23 against it. The negative vote was cast by democrats exclusively while 13 democrats voted with the republicans in the affirmative.

NO ACTION IN HOUSE.

No action was taken in the house, the resolution being allowed to die in the foreign affairs committee in the face of a democratic threat to filibuster against it and thus prevent other legislation during the closing hours of the session.

ILLINOIS IN THE WORLD WAR.

The following extracts from Samuel Insull's introduction to the final report of the State Council of Defense of Illinois to Gov. Frank O. Lowden tell in condensed form the story of the contribution of the people of Illinois toward winning the war with Germany:

"Citizens of Illinois may be justly proud of the record of their state in the great war. In men and money and materials—in products of the farms, the factory and the mine; in whole-hearted response to every call for service or sacrifice imposed by the time—Illinois gave to the nation's cause on a scale surpassing even her own best traditions and her rank in the union of states.

"In the opinion of the State Council of Defense the superlative contribution of Illinois to the national resources during the war was uninterrupted social and industrial peace. It is no secret now that conditions existed in our state at the beginning of the war which were the occasion of grave concern. These conditions passed with scarcely a ripple to mark their passing. This happy result was the product of many forces and influences. The State Council of Defense believes its most important work was done in giving effective cohesion, direction and momentum to those forces and influences and in focusing them for the production of a public morale that was impregnable throughout the most trying period in the state's history. Two comprehensive facts bear witness: (1) The selective draft, as well as every other governmental war measure, was accepted in Illinois without question or quibble; (2) there was not one strike of importance in the state during the war period."

Credit is given by Chairman Insull to Gov. Lowden, who "set a pattern of loyalty and unfaltering devotion to the cause of the United States;" to the newspapers of the state, which were, almost without exception, "100 per cent helpful"; to the general assembly which created the council and clothed it with power to make itself effective; and to the multitude of men and women throughout the state who were engaged in one or another kind of war work under the direction of or in co-operation with the council.

CONTRIBUTION IN MEN.

"The effectiveness with which the State Council of Defense employed the facilities and energies thus placed under its direction is to be judged by what Illinois did concretely on the war. This is not to say that the council was directly responsible for the state's contribution in men, money and materials; it is to say that those contributions were made promptly and in such generous measure because the State Council of Defense organized the public mind of the state for every war need. Illinois put into the national military and naval forces during the period of the council's activities a total of 351,153 men; 24,663 in the navy; 3,678 in the marines and 322,812 in the army.

CONTRIBUTION IN MONEY.

"The United States borrowed approximately $19,000,000,000 for the war on bonds and war savings stamps. Of this sum Illinois furnished, in round numbers, $1,650,000,000. In other words, with about 5.5 per cent of the country's population, Illinois took more than 8.5 per cent of the nation's war loans.

"Total collections for various war aid and relief organizations, of which a record was kept, ran beyond $45,000,000, divided as follows:

Red Cross (contributions only)	$16,165,100
Y. M. C. A.	4,896,187
Salvation Army	781,941
United war work	13,935,452
War recreation board	550,000
"Smileage" books	100,000
U. S. council's licenses	10,000,000

"These figures do not include the first generous contribution to the Knights of Columbus or the fees of the two Red Cross membership drives. The last sum named above was collected for local aid of all kinds and was

collected and disbursed with an overhead of approximately 10½ per cent.

CONTRIBUTION IN MATERIAL.

"The crop of 1917 (a war contribution) was the largest of any state in that year. The crop of 1918 was third in volume in the history of the state and the greatest in money value ever produced by any state—$879,679,900—but it was more than those terms signify. It was a war crop in the strictest sense, planned and apportioned as to products according to the express request of the national food authorities, which request was put into effect by Illinois as a definite program.

"Notwithstanding the drain upon man power, the state in 1918 turned out manufactures valued at $6,000,000,000—$3,943,000,000 in Chicago, the rest down state. Of these about $2,000,000,000 was on direct war contracts, but virtually all were war contributions, for Illinois factories are not largely given to the production of luxuries or nonessentials.

"Add to this record, in a war year, the production of Illinois coal fields and oil wells, and the figures reflect credit upon every industry and virtually upon every individual in the state.

"The cost of the State Council of Defense and its work, expressed in dollars so far as it can be, emphasizes the significance of the general record. The state of Illinois made only one appropriation for the council, $50,000. Therefore, the council has cost the taxpayers of the state as a whole less than 7-10 of 1 per cent per capita.

"Actual expenditures were, of course, much more than that, but the total, including contributed office space and maintenance, was under $275,000. The excess not provided for by state appropriation was met by: Private contributions, $100,300; contributed office space and maintenance, $86,090; miscellaneous receipts, $44,840. If the council had had to pay commercial prices for what it got done an appropriation equal to the highest given to any state council—$5,000,000—would have been none too large for Illinois."

OFFICERS AND MEMBERS.

The State Council of Defense of Illinois was created by an act of the general assembly, approved by the governor May 2, 1917. The officers and members were: Samuel Insull, chairman; B. F. Harris, vice-chairman; John P. Hopkins, secretary (died Oct. 13, 1918, and was succeeded by Roger C. Sullivan); J. Ogden Armour, treasurer; Dr. Frank Billings, Mrs. Joseph T. Bowen, John H. Harrison, Levy Mayer, John G. Oglesby, Victor A. Olander, David E. Shanahan, John A. Spoor, Fred W. Upham, Charles H. Wacker and John H. Walker.

AMERICAN MERCHANT VESSELS SUNK BY ENEMY.

Prior to April 6, 1917.	No.	Gross tons.
Torpedoed	6	25,988
Mined	5	11,571
Gunfire, etc.	8	29,576
Total	19	67,143
April 6, 1917, to Nov. 11, 1918.		
Torpedoed	45	190,357
Mined	2	8,116
Gunfire, etc.	79	88,833
Total	126	287,306
Grand total	145	354,449

In the destruction of these vessels a total of 775 lives were lost—703 by torpedoes, 38 by gunfire and 34 by drifting mines. Sixty-seven lives were lost prior to April 6, 1917, when America entered the war.

BRINGING HOME AMERICAN SOLDIER DEAD FROM FRANCE.

Early in January, 1920, France gave permission for the removal of the bodies of 20,000 American soldiers buried in France to the United States. These included only such as were outside the battle zone, most of them being victims of influenza and of other diseases while serving at the principal supply centers such as Bordeaux, Nantes, St. Nazaire, Tours, Le Mans and Brest. There were about 5,500 graves at the last named place, those buried there having for the most part died from the influenza epidemic either on the transports or after their arrival at the port. Only bodies requested by relatives of the dead soldiers were removed at first. The dead in the battle cemeteries at the front could not be moved on account of difficulties of transportation on the French railways.

AMERICAN PASSPORTS.

Applications for passports may be made at any of the following places. The applicant must appear in person:

Room 262, department of state, Washington, D. C.

Passport agent, custom house, New York city.

Passport agent, custom house, San Francisco, Cal.

Before a clerk of a federal court or clerk of a state court having power to naturalize aliens, nearest the place of residence of applicant.

Necessary blanks will be found at these places.

1. Applicants must submit evidence of American citizenship. If born in the United States, (a) either a copy of birth certificate, or (b) a sworn affidavit by a relative as to the date and place of birth, or (c) an affidavit by a friend, who has known the applicant at least fifteen years, and can make the statement under oath that, as to the best of his knowledge and belief, applicant was born in the United States, giving place and date of birth.

A married woman's citizenship follows that of her husband.

2. If a naturalized citizen, the certificate of naturalization, or a certified copy thereof, must be exhibited.

3. Applicant must be accompanied by an identifying witness who is an American citizen and who, under oath, can identify the applicant.

4. Two unmounted photographs of applicant, size about 3x3 inches, are necessary (on thin paper—not postcards).

5. The fee is $10.00; $1 for execution of the application and $9 for the passport.

Passports are now (1920) being issued to tourists and persons traveling for pleasure or recreation to all parts of the world except the following countries: Central and eastern European countries, Russia (including Siberia), Persia, Turkey in Asia and Mexico.

Passports are not being issued at the present time (1920) for Germany, Austria or Hungary. The department interposes no objections to Americans entering those countries on important and urgent business, but if they do so it will be at their own risk and on their own responsibility. They cannot be guaranteed the same protection that would be accorded in normal times.

Passports are not required for American citizens going to Canada, the Hawaiian islands, Porto Rico, Newfoundland, St. Pierre, Miquelon islands, Bermuda, Bimini, Bahamas, or Philippine islands, if going direct.

PROCEEDINGS AGAINST COMMUNISTS IN AMERICA.

"RED" MEETING PLACES RAIDED.

The opening day of 1920 saw a raid on radical headquarters in Chicago by State's Attorney Maclay Hoyne with the aid of more than 200 policemen. Some 500 prisoners were taken on the charge of plotting to assassinate public officials and overthrow the government. The headquarters raided were:

Northwest side communist party, 2517 Fullerton avenue.

Ukrainian headquarters, 1406 West Chicago avenue.

Russian communists, 118 North Ashland avenue.

Russian anarchists, 4501 South Hermitage avenue.

Communist party, 1221 Blue Island avenue.

Communist labor party, 204 North Clark street.

Anarchists and syndicalist headquarters, 1239 Clybourn avenue.

Industrial Workers of the World, 119 Throop street, 1001 West Madison street and 951 West Madison street.

Anarchist meeting place at 1007 South Peoria street.

German anarchists and I. W. W., at 824 Burling street.

Italian I. W. W., at 1239 North Clark street.

Many minor meeting places of communists, anarchists and other radicals were raided and hundreds of letters, pamphlets, charts, documents, membership rolls and similar literature were seized.

On the following day the department of justice in Washington made a nationwide move against the alien radicals or "reds," arresting between 4,000 and 5,000 in various cities. Federal agents made the raids and captures were made in nearly all the larger cities of the country from New York to San Francisco. The places in which the largest number of "reds" were jailed were: New York, 700; Detroit, 300; Buffalo, 250; Philadelphia, 200; Chicago, 150; Nashua, N. H., 150; Boston, 100; Kansas City, 100; Trenton, N. J., 75; Paterson, N. J., 50; Rockford, Ill., 67; Springfield, Mass., 65; Milwaukee, 30; Manchester, N. H., 65.

COMMUNIST MANIFESTO.

In a statement issued by the department of justice explaining the raid on the radical leaders the following "manifesto," issued by the communist party, was quoted as providing evidence of a widespread plot:

"The communist party of America is the party of the working class. The communists of America propose to end capitalism and organize a workers' industrial republic. The workers must control industry and dispose of the products of industry.

"The communist party is a party realizing the limitations of all existing workers' organizations and proposes to develop the revolutionary movement necessary to free the workers from the oppression of capitalism. The communist party insists that the problems of the American worker are identical with the problems of the workers of the world.

"The communist party is the conscious expression of the class struggle of the workers against capitalism. Its aim is to direct this struggle to the conquest of political power, the overthrow of capitalism and the destruction of the bourgeois state.

"The communist party prepares itself for the revolution in the measure that it develops a program of immediate action, expressing the mass struggle of the proletariat. The struggle must be inspired with revolutionary spirit and purposes.

"The communist party is fundamentally a party of action. It brings to the workers a consciousness of their oppression, of the impossibility of improving their conditions under capitalism.

"The communist party directs the workers' struggle against capitalism, developing fuller forms and purposes in this struggle, culminating in the mass action of the revolution.

"In close connection with the unskilled workers is the problem of the negro workers. The negro problem is a political and economic problem. The racial oppression of the negro is simply the expression of his economic bondage and oppression, each intensifying the other. This complicates the negro problem, but does not alter its proletarian character. The communist party will carry on agitation among the negro workers to unite them with all class conscious workers."

ENEMIES OF THE UNITED STATES.

William B. Wilson, secretary of labor, announced on Jan. 24, 1920, a decision in which he held that membership in the communist party of America was sufficient to make an alien liable to deportation whether or not he had taken any positive steps to carry out the purpose of the organization—the overthrow of the government of the United States. The decision was made in the case of Engelbret Pries, whose deportation to Austria was approved as recommended. Pries, an Austrian subject who arrived in the United States Nov. 13, 1915, admitted membership in the communist party of America, which was affiliated with the communist international. The secretary of labor found that it had been established by paragraphs in the manifesto and constitution of the communist party of America that it was "not merely a political party seeking the control of affairs of state but a revolutionary party seeking to conquer and destroy the state in open combat" and that therefore it came within the meaning of the law of Oct. 16, 1918, as an "organization that entertains a belief in, teaches or advocates the overthrow by force or violence of the government of the United States." Under that law, upon the warrant of the secretary of labor, Pries had been taken into custody for deportation in the manner provided in the immigration act of Feb. 5, 1917. In his decision Secretary Wilson said:

"It is apparent that the communist party does not seek to attain its objective through the parliamentary machinery of this government, established by and operated under the constitution. That is made sufficiently clear by the following excerpts from page 15 of the manifesto referred to: 'Participation in parliamentary campaigns, which in the general struggle of the proletariat is of secondary importance, is for the purpose of revolutionary propaganda only.'

"The parliamentary processes established by our government are to be discarded or used for propaganda purposes only and other means adopted for overthrowing the government of the United States. These means are stated at considerable length and frequently reiterated, seemingly for purposes of emphasis. The conquest of the power of the state is to be accomplished by the mass power of the proletariat. * * * The strike is to be used not simply as a means to secure redress of economic wrongs but as a means through which the government may be conquered and destroyed."

INDICTMENTS IN CHICAGO.

In Chicago Jan. 21-23, 1920, a special Cook county grand jury, which had been investigating radical activities, returned a large number of indictments, most of them being

against members of the communist party of America and of the communist labor party. The persons named in the indictments were charged with being members of organizations aiming at the overthrow by revolution of the government of the United States. Some of those indicted were subsequently turned over to the federal department of labor for deportation. Among the better known of those against whom indictments were found were the following:

Rose Pastor Stokes.	Oscar Tyverowski.
Nicholas I. Hourwich.	Henry M. Wicks.
Charles E. Ruthenberg.	John J. Ballam.
Louis E. C. Fraina.	Maximilian Cohen.
Isaac E. Ferguson.	Dennis E. Batt.
Alexander Stolitsky.	Engelbret Pries.

TRIAL OF TWENTY COMMUNISTS.

Twenty members of the communist labor party were placed on trial first before Judge Oscar Hebel of the Cook county Criminal court on the charge of having violated the state act, approved June 28, 1919, making it unlawful to advocate by word of mouth or writing the reformation or overthrow by violence or other unlawful means of the representative form of government secured to citizens of the United States and the several states by the federal and state constitutions, to publish books, papers or pamphlets with that end in view, to organize or become a member of any society the object of which is to overthrow the government, to be present at the meetings of such organizations, to permit the use of rooms or buildings for such purposes or to display flags or other devices symbolizing the purpose to overthrow representative government. The state employed as special prosecutor Frank Comerford, who had made a special study of sovietism in Russia, and he was assisted by Assistant State's Attorneys Lloyd Heth and Marvin Barnhart. The defendants, of whom William Bross Lloyd, a wealthy resident of Winnetka, was the most prominent, were represented by William S. Forrest, Clarence S. Darrow and William A. Cunnea. The principal witnesses for the state were George Kummerow, an agent of the department of justice, and Detective Sergeants Lawrence McDonough and Charles Egan of the local anarchist squad. Former Mayor Ole Hanson of Seattle also testified for the state, describing the general strike in Seattle, which the state claimed was to be imitated by the Chicago communist labor party. On behalf of the defendants it was sought to be shown through other Seattle witnesses that the strike there was a harmless, sympathetic affair with no violence or disorder. The attorneys for the defense further claimed the right of their clients to free speech and the right to organize a political party not for the overthrow of the government but of the capitalistic system.

W. B. Lloyd and Others Convicted.

The selection of the jury, which required fifty-two days, was begun May 10, and the trial lasted until Aug. 2, when the jury brought in a verdict of guilty. The names of the defendants and the penalty inflicted in each case follow:

Prison Sentences and $2,000 Fine.

William Bross Lloyd, Winnetka, sergeant at arms at communist labor party convention; organizer, backer and leading spirit in the "movement."

Ludwig Lore, New York, editor of Class Struggle; helped draft constitution.

Arthur Proctor, Chicago, owner of Clarion book store, 204 North Clark street, meeting place of radicals; member of county committee.

Prison Sentences and $1,000 Fine.

Max Bedacht, San Francisco, Cal., member of the national executive and platform committee.

Jack Carney, Duluth, Minn., member of national executive committee, editor and publisher of Truth.

Indeterminate Prison Sentences.

L. E. Katterfield, Dighton, Kas., brains of organization, national organizer, practically prepared party's platform.

Edgar Owens, Moline, Ill., state secretary; helped draft constitution.

L. K. England, Moline, Ill., member of state committee.

Niels Kjar, Chicago; member of national executive committee and Cook county propaganda committee.

One Year in Penitentiary.

Samuel F. Hankin.

Morris A. Stollar, Chicago; member of county executive committee.

James A. Meissinger, Chicago; member county executive committee.

Charles Krumbein, Chicago; member of county executive committee.

Samuel Ash, Chicago, lawyer; one of organizers.

One Year in the County Jail.

Perry Shipman, Rock Island, Ill.; member of state committee.

Dr. Oscar J. Brown, DeKalb, Ill.; organizer, delegate to national convention and member of platform committee.

Edwin Firth, Indianapolis, Ind.; national delegate and organizer.

Dr. Karl F. Sandberg, Chicago; organizer and delegate to national convention.

Niels J. Christensen, delegate to national convention and member international relations committee.

John Vogel.

VICTOR L. BERGER EXCLUDED FROM CONGRESS.

Victor L. Berger, socialist leader, was re-elected to congress at a special election held in the 5th Wisconsin district (in Milwaukee) Dec. 19, 1919, by a vote of 24,367 to 19,561 for Henry H. Bodenstab, the fusion candidate. Mr. Berger had been declared ineligible to membership by the national house of representatives on Nov. 10 on the ground of disloyalty to the United States and giving aid and comfort to the enemy in time of war. A special election was then called by the governor of Wisconsin to fill the vacancy thus created.

The matter came up before the house of representatives on Jan. 10, 1920, when Representative Dallinger of Massachusetts offered a resolution refusing Mr. Berger the privilege of taking the oath of office. The resolution was adopted by a vote of 328 to 6. Those voting against the resolution were Representatives Mann of Illinois, Voight of Wisconsin, and Harreid of Oklahoma, republicans, and Sherwood of Ohio, Sisson of Mississippi and Griffin of New York, democrats. Mr. Sabath of Illinois, democrat, voted present. Mr. Mann's argument in favor of Mr. Berger was that to exclude him after he had been elected anew by the people of his district was to violate the principle of representation in a democratic form of government. He said that people who desired changes in the law of the land had the right to be represented in congress.

Mr. Berger's opponents pointed out that he was not being excluded on account of his radical views but on account of his attitude toward the government in time of war. The socialist committee of the 5th Wisconsin district renominated Mr. Berger the same day, but Gov. Philipp announced that he would not call another special election.

THE TURKISH PEACE TREATY.

Representatives of the allies and Turkey signed a treaty of peace at Sevres, near Paris, France, Aug. 10, 1920. This agreement, which became generally known as the treaty of Sevres, was constructed upon the general lines of the treaty of Versailles with Germany and the treaty of St. Germain with Austria. It contains the covenant of the league of nations and some of the main economic and financial features of the other documents. The chief interest lies in the new boundaries established and the sanctioning by Turkey of various protectorates and new states.

Briefly, Turkey recognizes the independence of Armenia, Mesopotamia, Syria and the Hedjaz and the autonomy of Kurdistan. Further, Turkey acknowledges the British protectorate in Egypt and the Sudan, the French protectorate in Tunis and part of Morocco, and Italian sovereignty in Libya. The European boundary of Turkey is placed just outside the city of Constantinople, Greece getting eastern Thrace. The Dardanelles straits, the Bosporus and the Sea of Marmora are placed under the control of a commission appointed by certain powers, including the United States and Russia, under specified conditions. The waters named are hereafter to be open to the ships of every nation in time of war as well as in time of peace and are not to be subject to blockade.

The boundaries of Turkey in Asia are much as they were before the war, except where new states have been created or where they are to be determined by commissions.

With respect to Armenia, Turkey agrees to accept the arbitration of the president of the United States as to the frontier in the vilayets of Erzerum, Trebizond, Van and Bitlis and as to Armenia's access to the sea. Provision is made for a separate treaty to be accepted by Armenia protecting racial, linguistic and religious minorities and safeguarding freedom of transit and equitable treatment for the commerce of other nations.

CHARGES AGAINST LOUIS F. POST.

Louis F. Post, assistant secretary of labor, was accused in April, 1920, of shielding dangerous aliens from deportation. It was said that of the 3,200 members of the communist party whose arrests were caused by the department of justice, approximately 1,200 were ordered released by Mr. Post on the ground generally that membership in the proscribed organization had not been proved. A resolution looking to his impeachment was introduced in the house of representatives by Homer Hoch of Kansas on April 15, but the session was drawing to a close and no final action was taken. The house rules committee, however, took some testimony, including that of Attorney-General Palmer and of Mr. Post himself. The attorney-general told the committee that the assistant secretary of labor had a "perverted sympathy" for the criminal anarchist and that in dealing with the attempts of the government to rid the country of dangerous aliens Mr. Post had employed a "self-willed and autocratic substitution of his own mistaken personal viewpoint for the obligations of the public law."

Mr. Post in his testimony claimed that he was being persecuted by the newspapers, that his guilt was prejudged and that exculpating evidence was suppressed.

LENIN AGENT ARRESTED IN CHICAGO.

Witty Moses Shechman, who previous to 1915 was private secretary to Nicolai Lenin, premier of bolshevist Russia, was arrested in Chicago Sept. 25, 1920, and many documents showing the activities of the communist organizations in the Chicago district were found at his residence, 2219 West Division street. Minutes of several meetings of the communists in Chicago and vicinity showed that their purpose was to overthrow the present government by violence and to establish the "dictatorship of the proletariat" in the United States. Evidence was also found that the Moscow reds had sent a large amount of money to be used in propaganda work in and around Chicago and that no less than $100,000 a month was being spent for that purpose in the United States. A report covering Shechman's activities was prepared and forwarded to Washington to be used in deportation proceedings against him.

DEPORTATION OF ALIEN "REDS."

The United States transport Buford sailed from New York harbor Dec. 21, 1919, with 249 undesirable aliens classified as "reds," anarchists, Industrial Workers of the World and radicals of various kinds, who had been ordered deported by the government. The best known in the group were Emma Goldman and Alexander Berkman, companions for thirty years, and frequently arrested for their activity in revolutionary propaganda. All the deported persons were defiant to the last and shouted threats against the American government. The Buford, which was nicknamed, the "Soviet Ark," proceeded to Hango, Finland, where the deportees were landed Jan. 17 and placed aboard a special train. This closely guarded by picked Finnish soldiers took the reds to Terijoki, on the Russo-Finnish border, after some delay on the part of the Moscow authorities in signifying their willingness to receive the uninvited guests. Among those who welcomed them at the border was the wife of Maxim Gorky, the Russian novelist and bolshevist.

COMMUNIST PLOT TO WRECK ILLINOIS CENTRAL TRAIN.

Twenty members of the communist party of America were arrested in Springfield, Ill., by Chicago agents of the department of justice on the night of Sept. 5, 1920. Five of them confessed that they were implicated in a plot to wreck and rob the "Diamond Special," one of the best trains on the Illinois Central railroad. The purpose was to obtain money for the "cause" and at the same time inspire terror. One of the men, John Kona, a Lithuanian, when arraigned in court on Sept. 13 entered a plea of guilty to the charge of conspiracy to make unlawful use of dynamite and was sentenced to the Chester penitentiary for five to twenty-five years. In the houses of the men arrested twenty-five pounds of dynamite, seven automatic pistols and six automatic machine gun rifles were captured. Documents showing that the men arrested were in close touch with the radical leaders in Chicago were also found and forwarded to Washington to be used in deportation proceedings.

JAMES LARKIN SENTENCED TO IMPRISONMENT.

James Larkin, the Irish labor leader, was found guilty of criminal anarchy by a jury in the New York Supreme court April 27, 1920, and on May 3 was sentenced to five to ten years in state prison at hard labor. The basis of the accusation against Larkin was that he was a member of the national council of the socialist party's left wing, which controlled the Revolutionary Age, a publication advocating the overthrow of the government by force. It was for violating a state law against attempts of this kind that Larkin was arrested in November, 1919, in New York city.

WOMAN SUFFRAGE IN UNITED STATES.

Equal suffrage with men was conferred upon the women of the United States by the ratification and formal proclamation of the nineteenth amendment to the federal constitution Aug. 26, 1920. Tennessee was the thirty-sixth and last state to ratify the amendment, which required the approval of the legislatures of three-fourths of all the states before becoming effective.

Nationwide woman suffrage in the United States was made possible in 1919 when the 66th congress at its first session adopted a joint resolution proposing an amendment, popularly known as the Susan B. Anthony amendment, to the federal constitution extending the right of suffrage to women. The resolution was as follows:

"Resolved, by the senate and house of representatives of the United States of America in congress assembled (two-thirds of each house concurring therein), That the following article is proposed as an amendment to the constitution, which shall be valid to all intents and purposes as part of the constitution when ratified by the legislatures of three-fourths of the several states.

"'Article —. The right of citizens of the United States shall not be denied or abridged by the United States or by any state on account of sex.

"'Congress shall have the power to enforce this article by appropriate legislation.'"

In the 65th congress a similar resolution was passed by the house of representatives Jan. 10, 1918, by a vote of 274 yeas to 136 nays. In the senate progress was slow and on Sept. 30 President Wilson made a personal appeal for the passage of the resolution. A vote was taken on Oct. 1, but the necessary two-thirds vote was not attained and the measure failed. On the first day of the special session of the 66th congress, May 19, 1919, Representative James R. Mann of Illinois introduced the Susan B. Anthony resolution in the house and on May 21 it was adopted by a vote of 304 to 88, the necessary two-thirds total being 262. The bulk of the opposition came from southern democrats. Only sixteen republicans voted against the resolution.

In the senate efforts were made to delay the adoption of the resolution, but these were unsuccessful and a vote was taken on June 4. The resolution was adopted by a vote of 56 to 25, receiving two votes more than the requisite two-thirds of the senators voting. The republicans voting in the negative were: Borah, Brandegee, Dillingham, Knox, Lodge, McLean, Moses and Wadsworth. The democrats voting no were: Bankhead, Beckham, Dial, Fletcher, Gay, Harrison, Hitchcock, Overman, Reed, Simmons, Smith (Md.), Smith (S. C.), Swanson, Trammell, Underwood, Williams and Wolcott.

The resolution was drafted, substantially in the form in which it was eventually passed, by Susan B. Anthony and Elizabeth Cady Stanton in 1875. It was first introduced by Senator A. A. Sargent of California in 1878. It was defeated in the senate in 1887, 1914, 1918 and once in 1919. In the house it was defeated in 1915 by a vote of 174 yeas to 204 nays.

Immediately after the passage of the resolution by congress strong efforts were made to secure its ratification by the state legislatures in order to permit the women of all the states in the union to take part in the presidential election of 1920. Illinois was the first state to ratify the amendment and was closely followed by Wisconsin and Michigan, all taking favorable action on June 10.

The order in which the states voted for and against ratification follows:

For Ratification.

1919.
Illinois—June 10.
Wisconsin—June 10.
Michigan—June 10.
Kansas—June 16.
New York—June 16.
Ohio—June 16.
Pennsylvania—June 24
Massachus'ts—June 25.
Texas—June 28.
Iowa—July 2.
Missouri—July 3.
Arkansas—July 28.
Montana—July 30.
Nebraska—Aug. 2.
Minnesota—Sept. 8.
N. Hampshire—Sept. 10
Utah—Sept. 30.
California—Nov. 1.
Maine—Nov. 5.
North Dakota—Dec. 1.
South Dakota—Dec. 3.
Colorado—Dec. 12.
1920.
Rhode Island—Jan. 6.
Kentucky—Jan. 6.
Oregon—Jan. 12.
Indiana—Jan. 16.
Wyoming—Jan. 27.
Nevada—Feb. 7
New Jersey—Feb. 9.
Idaho—Feb. 11.
Arizona—Feb. 12.
New Mexico—Feb. 19.
Oklahoma—Feb. 28.
W. Virginia—Mar. 10.
Washington—Mar. 22.
Tennessee—Aug. 18.
Connecticut—Sept. 14.

Against Ratification.

1919.
Georgia—July 24.
Alabama—Sept. 17.
1920.
Mississippi—Jan. 21.
S. Carolina—Jan. 22.
Virginia—Feb. 12.
Maryland—Feb. 17.
Delaware—April 1.
Louisiana—June 8.
N. Carolina—Aug. 19.

Gov. M. H. Holcomb of Connecticut refused to call a special session of the state legislature though strongly urged to do so. His reason was that the ratification of the suffrage amendment without the concurrence of the electors of the state would be contrary to the provisions of the state constitution.

Gov. P. W. Clement of Vermont took a similar stand and refused to call a special session before the people of the state could express themselves on the issue.

No action was taken in Florida because of a provision in the state constitution similar to that in the constitutions of Connecticut and Vermont.

The struggle to secure ratification of the amendment was especially severe in West Virginia and Tennessee The vote in the West Virginia senate stood 14 to 14 on the question and the deadlock was not broken until Senator Jesse A. Bloch of Wheeling arrived at Charleston on March 10 after a hurried trip from California and voted for ratification. The final vote was 15 to 14. The house of delegates had ratified the amendment a week before by a vote of 47 to 4.

Struggle in Tennessee.

In Tennessee the situation was reversed, the strongest opposition being encountered in the house instead of the senate, owing mainly to the antisuffrage position taken by Speaker Seth H. Walker. The suffragists had to muster fifty votes, that number being required to give the constitutional majority. The final vote (on Aug. 18) was fifty to forty-six, one of those voting in the affirmative being the speaker. His purpose was to move a reconsideration of the vote. By means of breaking the quorum the antisuffragists succeeded in blocking the parliamentary procedure by which the prosuffragists would have made reconsideration impossible. Thirty-five members of the house went to Decatur, Ala., to avoid service compelling their attendance at the sessions of the house. The antisuffragists also obtained from Judge Langford of the Chancery court a temporary order forbidding the certification by Gov. A. H. Roberts and other officials of the ratification to the secretary of state in Washington. These expedients proved useless, however, as the necessary remaining steps were taken without the presence of the absent members and the court order was set

aside by a writ of certiorari and supersedeas issued by Chief Justice Lansden of the Tennessee Supreme court. The certification of the ratification was thereupon forwarded to Washington. The house on Aug 31 by a vote of 47 to 24 decided to nonconcur in the action of the senate in ratifying the amendment and to expunge from its journal all record of ratification. The senate refused by a vote of 17 to 8 to concur in this action of the house. Connecticut ratified the amendment Sept. 14, making any further efforts to nullify the Tennessee action useless.

Amendment Proclaimed.

Charles S. Fairchild of the American Constitutional league attempted to get the District of Columbia Supreme court to enjoin the secretary of state from proclaiming the ratification of the amendment, but failed, and on Aug. 26 the proclamation was duly made in the following form:

BAINBRIDGE COLBY,
Secretary of State of the United States of America.

To all to Whom these Presents shall come, Greeting:

Know Ye, That the Congress of the United States at the first session, Sixty-sixth congress begun at Washington on the nineteenth day of May in the year one thousand nine hundred and nineteen, passed a Resolution as follows: to wit—

Joint Resolution.

Proposing an amendment to the Constitution extending the right of suffrage to women.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled (two-thirds of each House concurring therein): That the following is proposed as an amendment to the Constitution, which shall be valid to all intents and purposes as part of the Constitution when ratified by the legislatures of three-fourths of the several states.

"Article —.

"The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of sex.

"Congress shall have power to enforce this article by appropriate legislation."

And, further, that it appears from official documents on file in the Department of State that the Amendment to the Constitution of the United States proposed as aforesaid has been ratified by the Legislatures of the States of Arizona, Arkansas, California, Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, North Dakota, New York, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Dakota, Tennessee, Texas, Utah, Washington, West Virginia, Wisconsin and Wyoming.

And, further, that the States whose Legislatures have so ratified the said proposed Amendment constitute three-fourths of the whole number of States in the United States.

Now, therefore, be it known that I, Bainbridge Colby, Secretary of State of the United States, by virtue and in pursuance of Section 205 of the Revised Statutes of the United States, do hereby certify that the Amendment aforesaid has become valid to all intents and purposes as a part of the Constitution of the United States.

In Testimony Whereof, I have hereunto set my hand and caused the seal of the Department of State to be affixed.

Done at the City of Washington this 26th day of August, in the year of our Lord one thousand nine hundred and twenty.

[Seal] BAINBRIDGE COLBY.

PRESIDENTIAL CONGRATULATIONS.

On the evening of Aug. 26 President Wilson, through Secretary of State Colby, sent the following message of congratulation to a mass meeting of women held in Washington to celebrate the ratification of the suffrage amendment:

"I deem it one of the greatest honors of my life that this great event should have occurred during my administration as president. Nothing has given me greater pleasure than the privilege that has been mine to do what I could to hasten the day when the men and women of America should be on an equal footing, citizens all."

FRANCHISE FOR MILLIONS.

It was estimated that under the suffrage amendment more than 26,800,000 women were made eligble to vote in all elections. Under the existing state laws 17,000,000 were already entitled to vote for president of the United States and 7,000,000 were entitled to vote for members of congress under state laws.

PRESIDENTIAL ELECTIONS IN FRANCE.

Paul Deschanel was elected president of France on Saturday, Jan. 17, 1920, in succession to Raymond Poincare, whose term was about to exoire. Until two or three days before the election it was generally understood that Georges Clemenceau, premier and minister of war, would be chosen, as no opposition had appeared against him. He was not a candidate for the place, but his friends persuaded him to let his name be presented at the general caucus on the 16th. It then developed that Paul Deschanel, president of the chamber of deputies, had so strong a following that M. Clemenceau withdrew from the contest.

In accordance with French custom both the caucus and the election took place in the chateau or palace at Versailles. At the caucus, which was attended by nearly all the members of the senate and assembly, the vote resulted as follows: Paul Deschanel, president of the chamber of deputies, 408; Premier Clemenceau, 389; Charles C. A. Jonnart, recently elected senator, 4; Leon Bourgeois, French representative in the league of nations, 3; Marshal Foch, 1; President Poincare, 16.

On the evening of the same day Premier Clemenceau sent a letter to Leon Bourgeois formally withdrawing from the presidential contest. Replying to a group of ministers who brought the result of the caucus vote to M. Clemenceau, but asked him to remain a candidate for the presidency, the premier said:

"My resolution is definitely made and nothing can change it. I declared from the first that I did not wish to be a candidate, but could not resist the pressure of my friends. Besides, I dreamed that if elected I would be a link between the government of yesterday and that of to-morrow, and for that task general consent is necessary."

The result of the caucus made the outcome of the formal election on the following day almost a foregone conclusion, as with Clemenceau out of the race M. Deschanel had a clear field. The casting of ballots by 889 members of the national assembly took three hours and when the tellers had counted the vote it was found that 734 members had made M. Deschanel their choice for president of France for the seven-year term ending in February, 1927. Senator Jonnart received 66 votes and Premier Clemenceau 56. Only the vote for the successful candidate was publicly announced.

M. Deschanel was inaugurated as the tenth president of the French republic at the Elysee palace, Paris, Feb. 18. The only persons admitted to witness the ceremony were the presidents of the senate and chamber of deputies, committees from each house and members of the cabinet.

Paul Eugene Louis Deschanel was born in Brussels, Belgium, in 1856, his father, Emile Deschanel, living there at the time as an exile from France. He studied law and was admitted to the bar in 1878, but devoted most of his time to politics and literature. Besides holding successively various important positions in and out of the chamber of deputies he has been an active member of the French Academy and of the Academy of Moral and Political Science. Up to the time of his election as president of France he had been president of the chamber of deputies for fifteen years divided into two periods, the last dating back to 1912. He is a republican in politics.

DISABLED BY ACCIDENT.

Early on the morning of May 23, 1920, while traveling on a special train to dedicate a monument to Senator Raymond, a French aviator killed in the war, President Deschanel fell from a window of his car and was found a short time afterward by a track walker. He had a marvelous escape from death, apparently only suffering from contusions about the head, and when he returned to Paris physicians said they were not serious. However, the accident resulted in a nervous breakdown which made him incapable of performing his presidential duties. As the weeks passed it became evident that his recovery was a matter of grave doubt and the question of his resignation was openly discussed. Realizing his inability to fill the high office to which he had been elected, President Deschanel handed his resignation to Premier Millerand at Rambouillet on Sept. 16. On the same day it was officially announced that the national assembly would meet at Versailles on Sept. 23 to consider the election of another president.

MILLERAND SUCCEEDS DESCHANEL.

On the day designated the national assembly in session in Versailles elected Alexandre Millerand president of France by 695 votes out of a total of 892.

M. Millerand was born in Paris, Feb. 10, 1859, and was educated for the bar. He attained political prominence early, entering parliament in 1885 and becoming a member of the Waldeck-Rousseau cabinet in 1889. His early affiliations were with the radical socialists, but later his views became more conservative. He was minister of war in the Viviani cabinet and became premier upon the retirement of Georges Clemenceau in January, 1920.

Georges Leygues succeeded Millerand as premier and minister of foreign affairs.

UNITED STATES SUGAR TRADE IN 1920.

[From report by the bureau of foreign and domestic commerce.]

New records were made in the sugar transactions of the United States with other countries during the fiscal year ended June 30, 1920, receipts from foreign countries and noncontiguous American territories amounting to 9,485,727,637 pounds and shipments thereto aggregating 1,458,680,026 pounds. Furthermore, although the uneven distribution of available supplies of sugar in the United States (due in part to the transportation situation) led to high retail prices in many localities it seemingly did not restrict the total consumption, for the average per capita consumption in continental United States for the fiscal year just ended likewise established a new record—90.6 pounds.

The total importation in the fiscal year 1920 comprised cargoes from forty foreign countries, in addition to receipts from the Virgin islands, the Philippines, Hawaii, and Porto Rico. As in the fiscal year 1919, when the sugar equalization board stated that large quantities of sugar were bought in Cuba in 1918 by British interests, brought into the United States for refining, and then shipped abroad, similar transactions entered into the statistics for 1920. These exports and imports, however, practically counterbalanced.

The total imports of cane sugar into the United States, exclusive of receipts from Hawaii, Porto Rico, and the Philippines, amounted to 7,532,310,606 pounds in the fiscal year 1920, against 5,621,031,787 in 1919, and 4,944,815,410 pounds in 1914; or an increase of 34 per cent over 1919 and of 52 per cent over the prewar year 1914.

Cuba was the chief source of supply in 1920. The imports from that country of 6,905,709,612 pounds broke the former high record of 5,488,711,032 pounds in 1919. Other large increases in the number of pounds of sugar imported in 1920 over the previous year were: Dominican Republic, from 4,390,594 in 1919 to 146,638,847 in 1920; Central America, from 11,319,415 to 66,164,091; Peru, from 10,377,825 to 75,710,043; and other South American countries from 20,849,450 to 133,158,013. The gain in the last mentioned instance is largely due to receipts of 100,518,104 pounds from Brazil. Mexico contributed 62,670,943 pounds in 1920. Other notable imports of sugar during the fiscal year just ended include 24,871,325 pounds from Canada, 27,481,913 pounds from Hongkong, 9,124,429 pounds from British East Africa, and 35,722,787 pounds from European countries.

The total domestic exports of 1,444,030,665 pounds of sugar from the United States to foreign countries in 1920 exceeded by 328,165,504 pounds, or nearly 30 per cent, the corresponding figure for 1919. There was an increase in the total value of 61 per cent—from $81,569,660 in 1919 to $131,771,308 in 1920. Exports to France of 698,798,020 pounds broke the previous high record of 478,967,887 pounds in 1917. Prewar exports of sugar to France were insignificant, amounting to only 1,000 pounds in the year ended June 30, 1914. In the six year period since that date France has led all countries as a market for American sugar with aggregate shipments of 2,424,045,466 pounds, surpassing those to the united kingdom of 2,154,606,913 during the same period.

The increased output of beet sugar in Europe, particularly in Belgium and Czecho-Slovakia, relieved to some extent the calls upon this country for cane sugar, as shown by the decreased shipments in 1920, as compared with 1919, to Belgium, Italy, Spain and Gibraltar, the last-named being a transshipment port for near eastern countries.

Large increases in the quantity exported in 1920, as contrasted with 1919, occurred in the case of Norway, which took 74,361,248 pounds, against 17,020,101 pounds in 1919; Switzerland, 60,193,687 pounds, against 2,268,210 pounds in 1919; and Greece, 50,403,883 pounds, as compared with 9,328,320 pounds in 1919.

The average import price of sugar increased from 2 cents per pound in 1914 to 5.3 cents per pound in 1919 and 9 cents per pound in 1920. This was an increase in 1920 of 70 per cent over 1919 and of 350 per cent over

1914. The average price per pound of sugar from Hawaii was 3 cents in 1914, 6.2 cents in 1919 and 11.8 cents in 1920, and from Porto Rico 3.1 cents in 1914, 6.8 cents in 1919 and 11.8 cents in 1920. The average export price of sugar was 9 cents per pound in 1920, against 7.3 cents per pound in 1919 and 3.6 cents in 1914. The monthly average price of 16.1 cents for imported cane sugar was higher in June, 1920, than for any previous month of the fiscal year. From 5.6 cents in June, 1919, it rose to 6.5 cents by December, and jumped to 10 cents in January and to 12.4 cents in May of 1920. The monthly average price of refined sugar exported from the United States advanced from 7.7 cents in June, 1919, to 8.2 cents for December, dropped to 8 cents in February, rose to 11 cents in March and 11.3 cents in May and dropped to 10.4 in June of 1920.

MINERAL OIL IN UNITED STATES TRADE.

[From report by division of statistics, bureau of foreign and domestic commerce, Washington.]

Mineral oil has been a factor in the foreign commerce of the United States since 1862, when the first statistical record of imports and exports of this commodity appears. So rapid has been the growth of this trade that in the fiscal year ended June 30, 1919, mineral oil ranked first in order in magnitude of quantity in imports and second in exports. Its comparatively low value, however, places it fifth in value in exports and far down the list in value of imports. In 1862 exports of mineral oil, both crude and refined, were 5,829,929 gallons, valued at $1,539,027. Fifty-five years later, in 1917, these exports reached the peak, aggregating 2,748,328,485 gallons, valued at $230,968,940, but fell in 1919 to 2,529,064,893 gallons, valued at $344,233,216, a decrease of 8 per cent in the quantity but an increase of 49 per cent in the value.

Despite the fact that the United States is the world's largest producer and exporter of mineral oils, imports have grown from a total of only 211 gallons, valued at $141, in 1862 to the enormous amount of 1,978,951,092 gallons, valued at $28,612,799, in 1919. When compared with 1914, the last prewar year, this is an increase of 150.1 per cent in the quantity and of 109.4 per cent in the value.

The oil industry was begun in America in 1859, in which year the production of crude petroleum in the United States was estimated at 2,000 barrels. So rapidly did the industry grow that in 1860 production rose to 500,000 barrels and it has climbed steadily since to the high record of 350,131,000 barrels for the calendar year 1918. The output of the United States from 1859 to 1918, inclusive, makes a grand total of 4,602,775,000 barrels of 42 gallons.

A total production of 350,131,000 barrels, valued at $690,190,000, in 1918 places petroleum third in the value of mineral products of the United States. Bituminous coal led, with a production valued at $1,465,000,000; pig iron was next, valued at $1,180,759,565.

There has been a tremendous increase in the demand for petroleum products within the past few years, owing to the extensive use of automobiles, motor trucks, farm tractors, motor boats, submarines and airplanes and to the use of petroleum as a substitute for coal.

Despite the fact that the production of mineral oil has increased from a little less than 266,000,000 barrels in 1914 to more than 350,000,000 barrels in 1918 (production figures are for calendar years), imports of mineral oils have increased steadily, reaching a total of 1,978,951,092 gallons, valued at $28,612,799, in the fiscal year ended June 30, 1919, against 791,137,399 gallons, valued at $13,665,940, in 1914 and 1,403,727,624 gallons, valued at $21,926,370, in 1918. This is an increase of 575,000,000 gallons in 1919 over 1918. These imports are mostly crude oil and come chiefly from Mexico, with comparatively small quantities from Peru and Trinidad, all of which arrives by tank steamers. Of the total amount of crude oil imported in 1919, 1,390,095,105 gallons came from Mexico.

Exports of mineral oils in the fiscal year ended June 30, 1919, comprised 163,782,498 gallons of crude mineral oil, valued at $9,905,490; 898,044,039 gallons of fuel and gas oil, $49,918,288; 725,686,746 gallons of illuminating oil, $81,495,706; 273,148,541 gallons of lubricating oil, valued at $86,156,695, including 7,596,525 gallons of paraffin oil, valued at $1,173,821; 322,920,087 gallons of gasoline, $78,088,061; 145,301,861 gallons of all naphthas and other light products of distillation, $38,654,419; and 181,121 gallons of residuum, $14,557; making a grand total of 2,529,064,893 gallons, valued at $344,233,216.

The Academie Francaise, or French Academy, was instituted in 1635. It is a part of the Institute of France and its particular function is to conserve the French language, foster literature and encourage genius.

COINAGE MINTS AND ASSAY OFFICES.

Coinage mints of the United States are located in Philadelphia, Pa.; San Francisco, Cal., and Denver, Col. The government assay offices are in New York, N. Y.; Carson, Nev.; Denver, Col.; Boise, Idaho; Helena, Mont.; Charlotte, N. C.; St. Louis, Mo.; Deadwood, S. D.; Seattle, Wash.; New Orleans, La., and Salt Lake City, Utah. The mint in Philadelphia was established in 1792 and the others as follows: San Francisco, 1852, and Denver, 1904.

RAILROADS RETURNED TO PRIVATE CONTROL.

Under powers over the transportation systems of the country granted by the act of Aug. 28, 1917, President Wilson placed the railroads of the United States under the control of the government at noon Dec. 28, 1917. Congress on the recommendation of the president enacted a measure, approved March 21, 1918, providing for the operation of the transportation systems by the federal authorities. A railroad wage commission was appointed and on its recommendation an order was issued on May 25, 1918, establishing new rates of pay, effective from the first day of the year. Another order was issued on May 25 increasing freight and passenger rates; the freight rates, which were advanced approximately 25 per cent, going into effect June 25, and the passenger fares, which were raised to 3 cents a mile in day coaches, went into effect June 10. Many measures of economy, such as a reduction in number of officials and the consolidation of ticket offices, were taken. William G. McAdoo was made director-general of railroads, the headquarters of the administration being in Washington. The country was divided into nine districts each of which had a regional director. Mr. McAdoo resigned as director-general in November, 1918, and was succeeded on Jan. 10, 1919, by Walker D. Hines, the assistant director-general.

On Dec. 24, 1919, President Wilson issued a proclamation turning back the railroads to their owners on March 1, 1920. The date originally fixed was Jan. 1, but owing to pending legislation it was deemed necessary to postpone the transfer to a later date. Another proclamation turning the American Express company's properties, which had been taken over with the railroads, back to the former holders was also issued on Dec. 24, 1919. Under the provisions of the transportation act of 1920 (Cummins-Esch act), the full text of which will be found beginning on page 111 of this volume, the railroads were guaranteed a 5½ per cent return on the real value of their properties through the fixing of new rates by the interstate commerce commission, and a revolving fund of $300,000,000 was established to enable the commission to make loans to railroads requiring them at any time during the transition period following federal control up to within two years. A loan of $125,000,000 for renewal of equipment was approved by the interstate commerce commission on May 21.

LOSS UNDER FEDERAL CONTROL.

The government's loss in the operation of the railroads while under federal control was $900,478,756.56, according to a report made May 24, 1920, by Swager Sherley, director of the division of finance of the railroad administration. A summary of the report follows:

Excess of operating expenses, class 1 roads		$677,513,151.56
Smaller roads, sleeping cars, etc.		43,011,129.36
Inland waterways		2,449,738.69
Total		722,974,019.61
Expense of administration		13,954,979.69
Deficit Am. Railway Express company		38,111,741.60
Adjustments on account of increased prices		85,204,618.26
Interest accruals, additions, betterments		37,558,162.01
Deductions from gross income		10,118,034.36
Miscellaneous items		4,894,056.38
Total		912,815,611.91
Less nonoperating incomes		12,336,855.35
Total		900,478,756.56

Congress appropriated for the federal control of the transportation systems $1,250,000,000 and the transportation act of 1920 carried an additional $200,000,000.

AWARD BY LABOR BOARD.

The transportation act provided for the creation of a labor board which was to take up the question of increased pay for the railway employes in order to avert a long threatened strike. The board, appointed by President Wilson on April 13, 1920, consisted of three groups representing labor, railroad management and the general public. The members, whose names will be found on another page of this volume, organized and established headquarters in Chicago. After careful inquiry and consideration the board announced its findings on July 20. The railroad employes' organizations generally accepted them as just and no authorized strike occurred. The number of men affected was approximately 1,800,000 and the aggregate amount of the increases granted was $600,000,000. Following is a summary of the increase in the wages per hour of the various classes of employes enumerated in the award:

Clerical and station forces, from 5 to 13 cents; average 10 cents.

Maintenance of way and structures and unskilled labor, from 8½ cents to 15 cents; average, 14 cents.

Shop employes, from 5 to 13 cents; average, 11 cents.

Telegraphers, telephoners and agents, from 5 to 10 cents; average 6 cents.

Stationary engine (steam) and boiler room employes, from 10 to 13 cents; average 12 cents.

Signal department employes, from 10 to 13 cents; average, 12 cents.

Supervisory forces, from 13 to 15 cents; average, 14 cents.

Engine service employes (engineers, firemen and helpers) in passenger service, 8 cents per mile or 80 cents per day; in freight service, 1.04 cents per mile or $1.04 per day; in the yard service, 18 cents per hour; in the hostler service the rate of pay was fixed at $5.04 to $6.24 per day (full amount).

Train service employes (conductors, assistant conductors, baggagemen, flagmen and brakemen) in passenger service .67 cents per mile, $1 per day or $30 per month; in freight service, 1.04 cents per mile or $1.04 per day; in yard service the rate of pay was fixed at $5.04 to $6.96 per day (full amount).

The increase in wages and rates established by the award went into effect as of May 1, 1920.

On Aug. 10, 1920, the wage board announced a flat advance of 16 cents an hour to the 75,000 employes of the American Express company, the increase in the aggregate amounting approximately to $30,000,000 annually.

INCREASE IN FREIGHT AND PASSENGER RATES.

On July 31, 1920, the interstate commerce commission granted to the railroads of the United States the following increases in freight and passenger rates to enable the railroad companies to meet the increased cost of operation caused by the war, to rehabilitate and expand the equipment and to meet the advance in the pay of the employes granted by the railroad wage board:

Western freight rates, 35 per cent.

Eastern freight rates, 40 per cent.

Mountain and Pacific freight rates, 25 per cent.

Southern freight rates, 25 per cent.
Milk rates, 20 per cent.
All passenger fares, 20 per cent.
Excess baggage charges, 20 per cent.
Pullman sleeping car and parlor car rates, 50 per cent surcharge

The interstate rate increases were made effective on Aug. 27.

PROGRESS OF THE METRIC SYSTEM.

The United States department of commerce in Washington, D. C., was in receipt of more than 100,000 petitions from all sections of the United States urging upon congress the adoption of metric weights and measures as the exclusive legal standards. These petitions represented not only individuals but also powerful organizations—such, for instance, as the American Chemical society with 18,000 members.

With the purpose of uniting support for the metric movement, the world metric standardization conference was held in San Francisco, May 17, 1920, on the Monday immediately following the seventh national foreign trade convention. More than 500 were present—representatives of many industries, many professions, many powerful organizations and many governments of the world. At this conference officers were elected to serve on the world metric standardization council. The executive secretary of this body is Aubrey Drury, 681 Market street, San Francisco. An advisory committee to the metric council was formed. Eminent manufacturers, scientists, merchants, engineers and other leaders of thought signified their willingness to serve on this committee.

In 1920 more than thirty national organizations and more than 150 commercial organizations and chambers of commerce declared themselves in favor of metric standardization of weights and measures. Prominent among the bodies favoring metric standardization were:

American National Wholesale Grocers' association,
American National Canners' association,
American National Drug association,
American Association for the Advancement of Science,
American Chemical society,
American National Institute of Inventors,
American Institute of Architects
American National Association of Clothiers.

In 1920 the following eminent men were among those who came out strongly in behalf of gradual metric standardization in the United States: Gen. John J. Pershing, Gen. Leonard Wood, Thomas A. Edison, Alexander Graham Bell, Luther Burbank, Franklin K. Lane, John Barton Payne, William C. Redfield, J. W. Alexander, William G. McAdoo, Samuel Gompers, Henry Ford, Franklin D. Roosevelt, John Hays Hammond, Charles W. Eliot, Champ Clark.

The annual meeting of the American Metric association was held in St. Louis, Mo., in December, 1919, in conjunction with the annual meeting of the American Association for the Advancement of Science. At this gathering a great deal of enthusiasm was shown for the adoption of the metric weights and measures.

In March, 1920, the city council of Chicago, by unanimous vote (66 to 0) adopted a resolution urging that the United States of America and the British commonwealths make the metric weights and measures the exclusive legal standards.

In January, 1920, the second pan-American financial congress held in Washington, D. C., passed resolutions urging the adoption at the earliest possible moment of the metric system by the United States.

UNITED STATES RECLAMATION SERVICE.

Arthur P. Davis, director; New Interior building, 18th and F streets, N. W., Washington, D. C. Western office, Tramway building, Denver, Col. Employes: Washington office, 100; in west, 5,000 (varies). Expenditures per year, about $8,000,000.

The reclamation service was organzied as a bureau of the interior department, under the reclamation act of June 17, 1902. It is engaged in the investigation, construction and operation of irrigation works in the arid and semiarid states of the west. Thirty projects have been authorized for construction or operation for irrigation of lands in Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming. These projects aggregate 3,200,000 acres and the major works aid in serving an additional 1,000,000 acres under private canals that generally get stored water from the government reservoirs. The funds for this work have come chiefly from the sale of public lands; and the money expended is returned to the fund by easy payments of settlers, usually in twenty annual installments without interest, in accordance with the reclamation extension act of Aug. 13, 1914.

The service has built on the thirty projects more than 12,000 miles of canals, ditches and drains, including 100,000 canal structures and involving the excavation of 174,000,000 cubic yards of materials. In connection with this work there have been constructed 100 storage and diversion dams with an aggregate volume of 13,700,000 cubic yards, including the Arrowrock dam, highest in the world (349 feet), the Elephant Butte dam on the Rio Grande, forming the largest artificial irrigation reservoir in the United States, and the longest roller crest dam in the world located on the Grand river in Colorado. The service has built 95 tunnels, 983 miles of road, 83 miles of railroad, 3,141 miles of telephone line, a dozen power plants and 651 miles of transmission lines; and is also mining coal and has manufactured 1,676,000 barrels of cement and sand cement. The net construction cost to June 30, 1919, was $123,853,000.

More than 150,000 persons are living on the 40,000 farms irrigated by the service. Of the 3,200,000 acres above referred to, water is available for 1,800,000 acres and of this 1,100,000 were harvested in 1919, producing crops worth over $88,000,000 or an average of over $80 per acre. The additional lands using stored water yielded crops worth $50,000,000 more. The project showing the largest unit returns in 1919 was the Okanogan in the state of Washington with an average of $367 per acre.

The largest irrigable area is that of the Boise project in Idaho, 327,552 acres; net cost of construction to June 30, 1919, $11,973,276. The next is the North Platte in Nebraska-Wyoming, 251,715 acres; cost, $10,549,095 to June 30, 1919. Information in regard to farms available for settlement may be obtained by addressing statistician, U. S. reclamation service, Washington, D. C.

Public land farm units on the several projects are opened for settlement from time to time as canals are extended to make irrigation

water available. Under the present law, soldiers of the world war have a preference right to enter these farms and at recent openings have taken all units.

The service issues the "Reclamation Record," a 48-page illustrated monthly publication containing articles of interest to irrigation farmers and engineers. An annual report is also issued.

An engineering library of about 2,000 manuscript and printed volumes on the subject of irrigation is maintained in the Washington office of the service. This library contains descriptions of the construction and operation of the projects with numerous photographs and maps, cost data and results of original experimental investigations, and is available for consultation by those interested.

AREA AND COST OF IRRIGATION PROJECTS.

[1]Data are for calendar year (irrigation season), except on Salt river project, where data are for corresponding "agricultural year," October, 1918, to November, 1919.

[2]Area reclamation service was prepared to supply water.

[3]Irrigated crops. Excludes small areas in few projects cropped by dry farming.

[4]Includes so-called "dry lands" given right to rent water temporarily on account of ample storage.

[5]Includes 3,100 acres within town sites, about 8,500 acres reported "vacant" land, on some of which are roadways, ditches, etc., and over 5,000 acres of "home tracts" including house, lots, corrals, etc.

[6]Data furnished mainly by King Hill irrigation district. System was built under private auspices. The United States has undertaken its reconstruction; operation and maintenance are handled by the district.

[7]Crop reports covered an additional area of 7,287 acres cropped by dry farming, producing crops worth $39,150, or $5.37 per acre.

[8]Above figures are for 196 irrigated farms which included small tracts farmed without irrigation. In addition two units farmed "dry" reported 3 acres of hay valued at $75 and 20 acres of pasture valued at $120.

[9]For crops in full production, excluding 10,247 acres of wild grass pasture and 4,205 acres otherwise not in full production. For all crops, $42.50.

BARRING OF SOCIALISTS FROM NEW YORK ASSEMBLY.

The exclusion of five socialists from the New York state assembly at its opening session on Jan. 7, 1920, attracted much attention and caused wide discussion. The men barred were elected in November, 1919, to represent certain districts in New York city. The action of the house was taken under a resolution introduced by Simon L. Adler, republican, and adopted by a vote of 140 to 6. In the preamble of the resolution it was charged that the principles and platforms of the socialist party of America, to which the five socialist members-elect had subscribed, were "inimical to the best interests of the United States of America and of the state of New York." The fact that the socialist party had taken a stand in direct opposition to the war, even after the United States had become a belligerent, was also cited. The resolution itself provided for the exclusion of the five socialists pending an investigation by its judiciary committee on their qualifications for membership.

Much criticism was aroused by the action of the New York legislature in this matter. Among those condemning it was Charles E. Hughes, former associate justice of the United States Supreme court. In a letter addressed to Thaddeus C. Sweet, speaker of the assembly, Mr. Hughes said it was not in accordance with the spirit of American institutions but on the contrary absolutely opposed to the principles of the government for a majority to undertake to deny representation to a minority through its representatives elected by ballots lawfully cast. "The proceeding," declared Mr. Hughes, "is virtually an attempt to indict a political party and to deny it representation in the legislature. That is not, in my judgment, American government."

Speaker Sweet, replying to Judge Hughes, defended the action of the assembly, calling attention to the fact that the five socialists had not been expelled but merely suspended, the resolution providing as follows: "Therefore be it resolved, That the said [naming the five socialist members] be denied seats in this assembly pending the determination of their qualifications and eligibility to their respective seats." The speaker further said that it should be borne clearly in mind that no attack was made upon the views of the assemblymen-elect in question, however opposed they might be in theory to the institutions of the United States and this state. The question presented was whether the organizations which the men sought to represent in the legislature advocated methods and employed tactics to bring about the overthrow of our form of government. This would be investigated by the judiciary committee with a view to determine the fitness of the individuals involved to take their seats. The speaker also referred to the fact that since April, 1917, the socialists who had placed the honor of their country above their creed and had resigned from the party had been doing their best to point out that the socialist party as at present constituted was allied with the forces of soviet Russia in an attempt to institute in this country a new form of government and a dictatorship of the proletariat.

In the assembly on Jan. 12, Charles D. Donohue of New York, the democratic leader, moved a reconsideration of the vote by which the suspending resolution was passed, but the motion was lost by a vote of 33 yeas to 77 nays.

The ousted socialists at a special election held Sept. 16, 1920, were all re-elected, but at a special session of the assembly on Sept. 21 it was voted to exclude anew three of them and to allow two to retain their seats. The three expelled were Louis Waldeman, 8th Manhattan district; August Claessens, 17th Manhattan, and Charles Solomon, 23d Brooklyn. The other two were Samuel Orr and Samuel A. DeWitt, 3d and 4th Bronx, who resigned on the ground that the majority of the assembly was "un-American."

THE PUBLIC DOMAIN.

Acreage of unreserved and unappropriated lands remaining in the public domain of the United States in 1919. Of the total 74,112,938 acres are unsurveyed:

State.	Acres.	State.	Acres.

CHANGES IN PRESIDENT WILSON'S CABINET.

Since the beginning of President Wilson's first administration in 1913 the following changes have occurred in his cabinet:

State Department—William J. Bryan resigned as secretary of state June 9, 1915, and was succeeded by Robert Lansing. Mr. Lansing resigned Feb. 12, 1920, and was succeeded by Bainbridge Colby.

Treasury Department—William G. McAdoo resigned as secretary of the treasury Dec. 16, 1918, and was succeeded by Carter Glass. Mr. Glass resigned Nov. 15, 1919, and was succeeded by David F. Houston.

Department of the Interior—Franklin K. Lane resigned as secretary of the interior Feb. 5, 1920, and was succeeded by John Barton Payne.

Department of Agriculture—David F. Houston resigned as secretary of the department of agriculture Jan. 27, 1920; succeeded by Edwin T. Meredith.

Department of Commerce—William C. Redfield resigned as secretary of commerce Oct. 31, 1919, and was succeeded by Joshua W. Alexander.

Department of Justice—James C. McReynolds resigned Aug 29, 1914; succeeded by Thomas W. Gregory. Mr. Gregory resigned Jan. 2, 1919, and was succeeded by A. Mitchell Palmer.

RESIGNATION OF SECRETARY ROBERT LANSING.

Robert Lansing, secretary of state, resigned Feb. 12, 1920, for reasons fully set forth in the following correspondence between him and President Wilson, made public by the state department:

Wilson to Lansing.

"The White House, Feb. 7 [1920].

"My Dear Mr. Secretary: Is it true, as I have been told, that during my illness you have frequently called the heads of the executive departments of the government into conference? If it is, I feel it my duty to call your attention to considerations which I do not care to dwell upon until I learn from yourself that this is the fact. Under our constitutional law and practice, as developed hitherto, no one but the president has the right to summon the heads of the executive departments into conference, and no one but the president and the congress has the right to ask their views or the views of any one of them on any public question.

"I take this matter up with you because in the development of every constitutional system, custom and precedent are of the most serious consequence, and I think we will all agree in desiring not to lead in any wrong direction. I have therefore taken the liberty of writing you to ask you this question, and I am sure you will be glad to answer.

"I am happy to learn from your recent note to Mrs Wilson that your strength is returning.

"Cordially and sincerely yours,

"WOODROW WILSON."

Lansing to Wilson.

"The Secretary of State, Washington, Feb. 9.

"My Dear Mr. President: It is true that frequently during your illness I requested the heads of the executive departments of the government to meet for informal conference.

"Shortly after you were taken ill in October certain members of the cabinet, of which I was one, felt that, in view of the fact that we were denied communication with you, it was wise for us to confer informally together on interdepartmental matters and matters as to which action could not be postponed until your medical advisers permitted you to pass upon them.

"Accordingly I, as the ranking member, requested the members of the cabinet to assemble for such informal conference, and in view of the mutual benefit derived the practice was continued.

"I can assure you that it never for a moment entered my mind that I was acting unconstitutionally or contrary to your wishes, and there certainly was no intention on my part to assume powers and exercise functions which under the constitution are exclusively confided to the president.

"During these troublous times, when many difficult and vexatious questions have arisen and when in the circumstances I have been deprived of your guidance and direction, it has been my constant endeavor to carry out your policies as I understood them and to act in all matters as I believed you would wish me to act. If, however, you think that I have failed in my loyalty to you and if you no longer have confidence in me and prefer to have another conduct our foreign affairs, I am, of course, ready, Mr. President, to relieve you of any embarrassment by placing my resignation in your hands.

"I am, as always, faithfully yours,

"ROBERT LANSING."

Wilson to Lansing.

"The White House, Feb. 11, 1920.

"My Dear Mr. Secretary: I am very much disappointed by your letter of Feb. 9 in reply to mine asking about the so called cabinet meetings.

"You kindly explain the motives of those meetings and I find nothing in your letter which justifies your assumption of presidential authority in such a matter. You say you 'felt that, in view of the fact that you were denied communication with me, it was wise to confer informally together on intedepartmental matters and matters as to which action could not be postponed until my medical advisers permitted me' to be seen and consulted, but I have to remind you, Mr. Secretary, that no action could be taken without me by the cabinet, and therefore there could have been no disadvantage in awaiting action with regard to matters concerning which action could not have been taken without me.

"This affair, Mr. Secretary, only deepens a feeling that was growing upon me. While we were still in Paris I felt, and have felt increasingly ever since, that you accepted my guidance and direction on questions with regard to which I had to instruct you only with increasing reluctance, and since my return to Washington I have been struck by the number of matters in which you have apparently tried to forestall my judgment by formulating action and merely asking my approval when it was impossible for me to form an independent judgment because I had not had an opportunity to examine the circumstances with any degree of independence.

"I, therefore, feel that I must frankly take advantage of your kind suggestion that if I should prefer to have another conduct our foreign affairs you are ready to relieve me of any embarrassment by placing your resignation in my hands, for I must say that it would relieve me of embarrassment, Mr. Secretary, the embarrassment of feeling your reluctance and divergence of judgment, if you would give your present office up and afford me an opportunity to select some one whose mind would more willingly go along with mine.

"I need not tell you with what reluctance I take advantage of your suggestion, or that I do so with the kindliest feeling. In matters of transcendent importance like this the only wise course is a course of perfect candor,

where personal feeling is as much as possible left out of the reckoning. Very sincerely yours, WOODROW WILSON."

Lansing to Wilson.

"The Secretary of State, Feb. 12, 1920.

"My Dear Mr. President: I wish to thank you sincerely for your candid letter of the 11th, in which you state that my resignation would be acceptable to you, since it relieves me of the responsibility for action which I have been contemplating and which I can now take without hesitation, as it meets your wishes.

"I have the honor, therefore, to tender you my resignation as secretary of state, the same to take effect at your convenience.

"In thus severing our official association I feel, Mr. President, that I should make the following statement which I had prepared recently and which will show you that I have not been unmindful that the continuance of our present relations was impossible and that I realized that it was clearly my duty to bring them to an end at the earliest moment compatible with the public interest.

"Ever since January, 1919, I have been conscious of the fact that you no longer were disposed to welcome my advice in matters pertaining to the negotiations in Paris, to our foreign service, or to international affairs in general. Holding these views, I would, if I had consulted my personal inclination alone, have resigned as secretary of state and as a commissioner to negotiate peace.

"I felt, however, that such a step might have been misinterpreted both at home and abroad, and that it was my duty to cause you no embarrassment in carrying forward the great task in which you were then engaged. Possibly I erred in this, but if I did it was with the best of motives.

"When I returned to Washington in the latter part of July, 1919, my personal wish to resign had not changed, but again I felt that loyalty to you and my duty to the administration compelled me to defer action, as my resignation might have been misconstrued into hostility to the ratification of the treaty of peace or at least into disapproval of your views as to the form of ratification.

"I therefore remained silent, avoiding any comment on the frequent reports that we were not in full agreement. Subsequently your serious illness, during which I have never seen you, imposed upon me the duty—at least I construed it to be my duty—to remain in charge of the department of state until your health permitted you to assume again full direction of foreign affairs.

"Believing that the time had arrived, I had prepared my resignation, when my only doubt as to the propriety of placing it in your hands was removed by your letter indicating that it would be entirely acceptable to you.

"I think, Mr. President, in accordance with the frankness which has marked this correspondence and for which I am grateful to you, that I cannot permit to pass unchallenged the imputation that in calling into informal conference the heads of the executive departments I sought to usurp your presidential authority.

"I had no such intention, no such thought. I believed then, and I believe now, that the conferences which were held were for the best interests of your administration and of the republic, and that belief was shared by others whom I consulted. I further believe that the conferences were proper and necessary in the circumstances, and that I would have been derelict in my duty if I had failed to act as I did.

"I also feel, Mr. President, that candor compels me to say that I cannot agree with your statement that I have tried to forestall your judgment in certain cases by formulating action and merely asking your approval when it was impossible for you to form an independent judgment because you had not had an opportunity to examine the circumstances with any degree of independence.

"I have, it is true, when I thought a case demanded immediate action, advised you what, in my opinion, that action should be, stating at the same time the reasons on which my opinion was based. This I conceived to be a function of the secretary of state and I have followed the practice for the last four years and a half. I confess that I have been surprised and disappointed at the frequent disapproval of my suggestions, but I have never failed to follow your decisions, however difficult it made the conduct of our foreign affairs.

"I need hardly add that I leave the office of secretary of state with only good will toward you, Mr. President, and with a sense of profound relief.

"Forgetting our differences and remembering only your many kindnesses in the past, I have the honor to be, Mr. President,

"ROBERT LANSING."

Wilson to Lansing.

"The White House, Feb. 13, 1920.

"My Dear Mr. Secretary: Allow me to acknowledge with appreciation your letter of Feb. 12. It now being evident, Mr. Secretary, that we have both of us felt the embarrassment of our recent relations with each other, I feel it my duty to accept your resignation, to take effect at once; at the same time adding that I hope that the future holds for you many successes of the most gratifying sort. My best wishes will always follow you, and it will be a matter of gratification to me always to remember our delightful personal relations.

"WOODROW WILSON."

Succeeded by Bainbridge Colby.

The appointment of Bainbridge Colby of New York to succeed Robert Lansing as secretary of state was announced at the white house Feb. 25. Mr. Colby was born in St. Louis, Mo., Dec. 22, 1869, and was graduated from Williams college in 1890. He practiced law in New York city and was counsel in the Northern Securities litigation, the investigation of the affairs of the Equitable and Mutual Life Insurance companies and the settlement of the affairs of the Charles L. Webster & Co., publishers for Samuel L. Clemens. In 1901-2 he was a member of the New York assembly.

In 1912 Mr. Colby was actively interested in the candidacy of Col. Roosevelt, was in charge of the contests to seat Roosevelt delegates in the republican national convention, and following the adverse action of the convention he took an active part as one of the founders of the progressive party and nominee of the progressive party for United States senator. When Col. Roosevelt threw the weight of his influence to Charles Evans Hughes in 1916, Mr. Colby identified himself with the democratic party.

Mr. Colby was a member of the United States shipping board and vice-president of the Emergency Fleet corporation, serving from July, 1917, until March, 1919. He was a member of the American mission to the inter-allied conference in Paris in November, 1917. He was a strong advocate of the league of nations and the peace treaty with Germany.

RESIGNATION OF SECRETARY LANE.

Franklin K. Lane, secretary of the interior, resigned Feb. 5, 1920, and his resignation was accepted by President Wilson Feb. 7. In giving up his office Mr. Lane wrote to the president:

"It is with deep regret that I feel compelled to resign the commission with which you saw

fit to honor me by appointing me to a place in your cabinet, now almost seven years ago. If it will meet your convenience I would suggest that I be permitted to retire on March 1.

"With the conditions which make this step necessary you are familiar. I have served the public for twenty-one years, and that service appeals to me as none other can. But I must now think of other duties.

"The program of administration and legislation looking to the development of our resources, which I have suggested from time to time, is now in large part in effect or soon will come into effect through the action of congress.

"I return this department into your hands with very real gratitude that you have given me the opportunity to know well a working force holding so many men and women of singular ability and rare spirit.

"I trust that you may soon be so completely restored to health that the country and the world may have the benefit of the full measure of your strength in the leadership of their affairs. The discouragements of the present are, I believe, only temporary. The country knows that for America to stand outside the league of nations will bring neither pride to us nor confidence to the world."

In his reply President Wilson said:

"My Dear Mr. Secretary: I need not tell you with what regret I accept your resignation as secretary of the interior, for our association has been very delightful. I have admired the spirit in which you devoted yourself to the duties of your department, as I am sure that all attentive observers have, but the reasons you give for your retirement leave me no choice but to acquiesce, and I, of course, accept your suggestion that the resignation take effect on the 1st of March, since that will serve your convenience.

"May I not add how sincerely I hope that your future career will be as full of honorable success as your past? My best wishes will follow you throughout all the years that apparently must now separate us."

Succeeded by John Barton Payne.

John Barton Payne of Chicago was appointed secretary of the interior Feb. 12 to succeed Franklin K. Lane. Mr. Payne was born in Pruntytown, Va., Jan. 26, 1855. He was admitted to the bar in 1876 and practiced at Kingwood, W. Va., and in Chicago, to which city he moved in 1883. From 1893 to 1898 he was a judge of the Superior court of Cook county, Illinois, when he resigned. In October, 1917, he was made attorney for the United States shipping board, Emergency Fleet corporation in Washington, D. C., and in March, 1918, he was given a similar position with the federal railroad administration. In August, 1919, he became chairman of the shipping board.

Memorial Day—Federal, May 30; confederate, April 26 (Alabama, Georgia, Florida, Mississippi) and May 10 (North and South Carolina).
Mothers' Day—Second Sunday in May.
New Orleans, Battle of—Jan. 8.
New Year's Day—Jan. 1.
Patriots' Day—April 19 (Maine, Massachusetts).
Pioneers' Day—July 15 (Idaho), July 24 (Utah).
Texas Independence Day—March 2.
Thanksgiving Day—Last Thursday in November.
Washington's Birthday—Feb. 22.

HOLIDAYS IN THE VARIOUS STATES.

Alabama—Jan. 1; Jan. 19 (Lee's birthday); Feb. 22; Mardi Gras (the day before Ash Wednesday, first day of Lent); Good Friday (the Friday before Easter); April 26 (Confederate Memorial day); June 3 (Jefferson Davis' birthday); July 4; Labor day (first Monday in September); Thanksgiving day (last Thursday in November); Dec. 25.

Alaska—Jan. 1; Feb. 22; May 30 (Memorial day); July 4; Thanksgiving day; Dec. 25.

Arizona—Jan. 1; Arbor day (first Monday in February); Feb. 22; May 30; July 4; general election day; Thanksgiving day; Dec. 25.

Arkansas—Jan. 1; Feb. 22; July 4; Thanksgiving day; Oct. 12 (Columbus day); Dec. 25.

California—Jan. 1; Feb. 22; May 30; July 4; Sept. 9 (Admission day); Labor day (first Monday in September); Oct. 12; general election day in November; Thanksgiving day; Dec. 25.

Colorado—Jan. 1; Feb. 22; Arbor and School day (third Friday in April); May 30; July 4; first Monday in September; general election day; Oct. 12; Thanksgiving day; Dec. 25; every Saturday afternoon from June 1 to Aug. 31 in the city of Denver.

Connecticut—Jan. 1; Feb. 12 (Lincoln's birthday); Feb. 22; Good Friday; May 30; July 4; Labor day (first Monday in September); Thanksgiving day; Dec. 25.

Delaware—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; first Monday in September; Oct. 12; Thanksgiving day; Dec. 25.

District of Columbia—Jan. 1; Feb. 22; March 4 (Inauguration day); May 30; July 4; first Monday in September; Thanksgiving day; Dec. 25.

Florida—Jan. 1; Jan. 19 (Lee's birthday); Arbor day (first Friday in February); Feb. 22; April 26 (Confederate Memorial day); June 3 (Jefferson Davis' birthday); July 4; first Monday in September; Thanksgiving day; general election day; Dec. 25.

Georgia—Jan. 1; Jan. 19 (Lee's birthday); Feb. 22; April 26 (Confederate Memorial day); June 3 (Jefferson Davis' birthday); July 4; first Monday in September; Thanksgiving day; Arbor day (first Friday in December); Dec. 25.

Idaho—Jan. 1; Feb. 22; Arbor day (first Friday after May 1); July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25.

Illinois—Jan. 1; Feb. 12 (Lincoln's birthday); Feb. 22; May 30; July 4; Labor day (first Monday in September); Indian day (fourth Friday in September); Oct. 12 (Columbus day); general, state, county and city election days; Saturday afternoons; Thanksgiving day; Dec. 25; Arbor, Bird, Flag and Mothers' days are appointed by the governor, but are not legal holidays. Like McKinley day (Jan. 29), "Remember the Maine" day (Feb. 15), Douglas day (April 23), they are observed by special exercises, flag displays, etc.; banks are not closed. Arbor and Bird days usually come on the third Friday of April in the northern part of the state and the fourth Friday of October in the southern part. Flag day is June 14 and Mothers' day the second Sunday in May.

Indiana—Jan. 1; Feb. 22; May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25.

Iowa—Jan. 1; Feb. 22; May 30; July 4; first Monday in September; general election day; Thanksgiving day; Dec. 25.

Kansas—The only holidays by statute are Feb. 12; Feb. 22; May 30; Labor day (first Monday in September) and Arbor day; Oct. 12; but the days commonly observed in other states are holidays by general consent.

Kentucky—Jan. 1; Feb. 22; May 30; first Monday in September; Oct. 12; Thanksgiving day; general election day; Dec. 25.

Louisiana—Jan. 1; Jan. 8 (anniversary of the battle of New Orleans); Feb. 22; Mardi Gras (day before Ash Wednesday); Good Friday (Friday before Easter); April 26 (Confederate Memorial day); July 4; Nov. 1 (All Saints' day); general election day; fourth Saturday in November (Labor day, in the parish of New Orleans only); Dec. 25; every Saturday afternoon in New Orleans.

Maine—Jan. 1; Feb. 22; Good Friday; May 30; July 4; Labor day; Thanksgiving day; Dec. 25.

Maryland—Jan. 1; Feb. 22; May 30; July 4; first Monday in September; Sept. 12 (Defenders' day); Oct. 12; general election day; Dec. 25; every Saturday afternoon.

Massachusetts—Jan. 1; Feb. 22; April 19 (Patriots' day); May 30; July 4; first Monday in September; Oct. 12; Thanksgiving day; Dec. 25.

Michigan—Jan. 1; Feb. 22; Oct. 12; general election day; May 30; July 4; first Monday in September; Thanksgiving day; Dec. 25.

Minnesota—Jan. 1; Feb. 12; Feb. 22; Good Friday (Friday before Easter); May 30; July 4; first Monday in September; Thanksgiving day; general election day; Dec. 25; Arbor day (as appointed by the governor).

Mississippi—First Monday in September; by common consent July 4, Thanksgiving day and Dec. 25 are observed as holidays.

Missouri—Jan. 1; Feb. 22; May 30; July 4; Labor day; Oct. 12; general election day; Thanksgiving day; Dec. 25; every Saturday afternoon in cities of 100,000 or more inhabitants.

Montana—Jan. 1; Feb. 22; Arbor day (third Tuesday in April); May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25; any day appointed by the governor as a fast day.

Nebraska—Jan. 1; Feb. 22; Arbor day (April 22); May 30; July 4; first Monday in September; Thanksgiving day; Dec. 25.

Nevada—Jan. 1; Feb. 22; July 4; Thanksgiving day; Dec. 25.

New Hampshire—Feb. 22; fast day appointed by the governor; May 30; July 4; first Monday in September; Thanksgiving day; general election day; Dec. 25.

New Jersey—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving and fast days, and every Saturday afternoon.

New Mexico—Jan. 1; July 4; Thanksgiving and fast days; Dec. 25; Memorial, Labor and Arbor days appointed by the governor.

New York—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving and fast days; Dec. 25; every Saturday afternoon.

North Carolina—Jan. 1; Jan. 19 (Lee's birthday); May 10 (Confederate Memorial day); May 20 (anniversary of the signing of the Mecklenburg declaration of independence); July 4; state election day in August; first Thursday in September (Labor day); Thanksgiving day; Dec. 25; every Saturday afternoon.

North Dakota—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; Arbor day (when appointed by the governor); general election day; Thanksgiving day; Dec. 25.

Ohio—Jan. 1; Feb. 22; May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25; every Saturday afternoon in cities of 50,000 or more inhabitants.

Oklahoma—Jan. 1; Feb. 22; May 30; July 4; Oct. 12; general election day; Thanksgiving day; Dec. 25.

Oregon—Jan. 1; Feb. 22; May 30; first Saturday in June; July 4; first Monday in September; general election day; Thanksgiving day; public fast days; Dec. 25.

Pennsylvania—Jan. 1; Feb. 12; Feb. 22; May 30; Good Friday; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25; every Saturday afternoon.

Philippines—Jan. 1; Feb. 22; Thursday and Friday of Holy week; July 4; Aug. 13; Thanksgiving day; Dec. 25; Dec. 30.

Porto Rico—Jan. 1; Feb. 22; Good Friday; May 30; July 4; July 25 (Landing day); Thanksgiving day; Dec. 25.

Rhode Island—Jan. 1; Feb. 22; second Friday in May (Arbor day); May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25.

South Carolina—Jan. 1; Jan. 19 (Lee's birthday); Feb. 22; May 10 (Confederate Memorial day); June 3 (Jefferson Davis' birthday); general election day; Thanksgiving day; Dec. 25, 26, 27.

South Dakota—Same as in North Dakota.

Tennessee—Jan. 1; Good Friday; May 30; July 4; first Monday in September; general election day; Thanksgiving day; Dec. 25; every Saturday afternoon.

Texas—Jan. 1; Feb. 22 (Arbor day); March 2 (anniversary of Texas independence); April 21 (anniversary of battle of San Jacinto); July 4; first Monday in September; Oct. 12; general election day; appointed fast days; Thanksgiving day; Dec. 25.

Utah—Jan. 1; Feb. 22; April 15 (Arbor day); May 30; July 4; July 24 (Pioneer day); first Monday in September; Thanksgiving day and appointed fast days; Dec. 25.

Vermont—Jan. 1; Feb. 22; May 30; July 4; Aug. 16 (Bennington Battle day); Labor day; Oct. 12; Thanksgiving day; Dec. 25

Virginia—Jan. 1; Jan. 19 (Lee's birthday); Feb. 22; July 4; first Monday in September; Thanksgiving and appointed fast days; Dec. 25; every Saturday afternoon.

Washington—Jan. 1; Feb. 12 (Lincoln's birthday); Feb. 22; May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25.

West Virginia—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; Labor day; general election day; Thanksgiving day; Dec. 25.

Wisconsin—Jan. 1; Feb. 22; May 30; July 4; first Monday in September; general election day; Thanksgiving day; Dec. 25.

Wyoming—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; first Monday in September; general election day; Dec. 25.

The national holidays, such as July 4, New Year's, etc., are such by general custom and observance and not because of congressional legislation. Congress has passed no laws establishing holidays for the whole country. It has made Labor day a holiday in the District of Columbia, but the law is of no effect elsewhere. It has also designated the second Sunday in May as Mothers' day. President Wilson issued a proclamation May 30, 1916, requesting that June 14, the anniversary of the day on which the national emblem was adopted by congress, be observed as Flag day throughout the nation.

FEDERAL FARM LOAN ACT AMENDED.

The seventh paragraph of section 3 of the federal farm loan act, approved July 17, 1916, is amended so as to provide for the appointment of deputy registrars. The first paragraph of section 10 is amended to read as follows:

"That whenever an application for a mortgage loan is made through a national farm loan association the loan committee provided for in section 7 of this act shall forthwith make, or cause to be made, such investigation as it may deem necessary as to the character and solvency of the applicant, and the sufficiency of the security offered, and cause written report to be made of the result of such investigation and shall, if it concurs in such report, approve the same in writing. No loan shall be made unless the report is favorable, and the loan committee is unanimous in its approval thereof.

"The written report required in the preceding paragraph shall be submitted to the federal land bank, together with the application for the loan, and the directors of said land bank shall examine said written report when they pass on the loan application which it accompanies, but they shall not be bound by said appraisal."

That the third paragraph of section 11 be amended to read as follows:

"Third. To fix reasonable initial charges to be made against applicants for loans and to borrowers in order to meet the necessary expenses of the association: Provided, that such charges shall not exceed amounts to be fixed by the farm loan board, and shall in no case exceed 1 per centum of the amount of the loan applied for; to acquire and dispose of property, real and personal, that may be necessary or convenient for the transaction of its business."

That section 12 of said act be amended by striking out in the second provision the words "additional payments in sums of $25 or any multiple thereof for the reduction of the principal, or the payment of the entire principal, may be made on any regular installment date," and inserting in lieu thereof the words "the mortgagor may, upon any regular installment date, make in advance any number of payments or any portion thereof on account of the principal of his loan as provided by his contract or pay the entire principal of such loan."

That the fourth provision in the section be amended so as to read:

"Fourth. Such loans may be made for the following purposes and for no other.

"(a) To provide for the purchase of land for agricultural uses.

"(b) To provide for the purchase of equipment, fertilizers and live stock necessary for the proper and reasonable operation of the mortgaged farm; the term 'equipment' to be defined by the federal farm loan board.

"(c) To provide buildings and for the improvement of farm lands; the term 'improvement' to be defined by the federal farm loan board.

"(d) To liquidate indebtedness of the owner of the land mortgaged incurred for agricultural purposes, or incurred prior to the organization of the first farm loan association established in and for the county in which the land is situated."

That section 20 of said act be amended so that the paragraph will read:

"Sec. 20. That bonds provided for in this act shall be issued in denominations of $40, $100, $500, $1,000 and such larger denominations as the federal farm loan board may authorize; they shall run for specified minimum and maximum periods, subject to payment and retirement, at the option of the land bank, at any time after five years from the date of their issue. They shall have interest coupons attached, payable semiannually, and shall be issued in series of not less than $50,000, the amount and terms to be fixed by the federal farm loan board. They shall bear a rate of interest not to exceed 5 per centum per annum."

That the last paragraph of section 21 of said act be amended so as to read:

"Every farm loan bond issued by a federal land bank shall be signed by its president or vice-president and attested by its secretary or assistant secretary. For the purpose of signing such bonds the board of directors of any federal land bank is authorized to select a vice-president, who need not be a member of the board of directors; such bonds shall also contain in the face thereof a certificate signed by the farm loan commissioner to the effect that it is issued under the authority of the federal farm loan act, has the approval in form and issue of the federal farm loan board, and is legal and regular in all respects; that it is not taxable by national, state, municipal or local authority; that it is issued against collateral security of United States government bonds, or indorsed first mortgages on farm lands at least equal in amount to the bonds issued; and that all federal land banks are liable for the payment of each bond." (Approved April 20, 1920.)

REVOLUTION IN GUATEMALA.

Manuel Estrada Palma, who had been president of Guatemala for twenty-two years, was overthrown by a revolution headed by Carlos Herrera April 14, 1920. The uprising began April 9 and there was intermittent fighting with a total loss of 800 lives until the 14th when President Palma capitulated on being assured of his personal safety. A new government was announced April 15 with Carlos Herrera as president. Palma was frequently compared with Porfirio Diaz of Mexico in that he maintained order by force and made his country prosperous by a species of "benevolent despotism."

AMERICAN FOREIGN TRADE DURING FIRST YEAR OF PEACE.

[Prepared by the division of statistics, bureau of foreign and domestic commerce.]

In practically every country of the globe, neutral as well as belligerent, the tides of trade were vitally affected by the great war. Between 1914 and 1919 industries were created, developed or wiped out; standards of value and of living altered; the carrying trade was revolutionized; radical changes occurred in production and sources of supply of the commodities entering into international commerce, and the map of the world was made over again.

While the influence of these changes was reflected in the trade of the United States with the orient, Oceania, Africa and South America, it is more strikingly apparent in the commerce with Europe and North America, as shown by the official United States statistics for the calendar year 1919, the first year since active fighting ceased. The record-breaking total foreign trade for 1919 of $11,826,556,919 consisted of imported merchandise invoiced at $3,904,406,327 and exports to the value of $7,922,150,592, a gain over 1918, the closing year of the war, of $1,773,063,047 in exports and of $873,193,617 in imports, the ratio of increase being the same (29 per cent) in each instance. The import trade averaged $325,367,194 and the export trade $660,179,216 for each month of 1919. For every dollar's worth of imports received more than twice the value in exports was shipped abroad.

In 1919 the balance of trade in favor of the United States reached the record figure of $4,017,744,265, as compared with $3,117,874,835 for 1918 and $3,281,044,642 in 1917. It is exceeded, however, by the balance of trade against Europe alone of $4,435,410,566. If the commerce with that continent be excluded, the balance of trade for the calendar year 1919 was against the United States to the extent of $417,666,301. This excess of imports over exports in commerce with the rest of the world was largely due to the increasing amounts of crude materials and foodstuffs imported, chiefly from the tropical countries of South America, Oceania and the orient, which are to a great extent noncompeting with the products of the United States.

Europe supplied over 19 per cent of the total imports and received 65 per cent of the total exports from the United States in the peace year 1919. There was an increase in total values of 135 per cent over imports from Europe and of 34 per cent over exports to that continent during 1918, the last year of the war. The needs of the different countries of Europe were so urgent and many that, with little call for salesmanship, they afforded a ready market for the bulk of American exports in 1919. In the past Europe has taken more than 50 per cent of the total exports from the United States. Of this trade the united kingdom since 1917 has received a share nearly equal to the combined exports to all other European countries.

Imports into the United States from North America showed a gain of $183,156,043 over 1918 figures, but exports declined $29,673,879 in 1919 from the high record value of $1,325,486,350 in 1918. The balance of trade in favor of the United States at the end of 1919 amounted to $350,871,106, of which $239,573,417 rested against Canada, although sales to that country declined as compared with the previous year.

Record-breaking totals for both exports and imports were shown in the trade with South America, Asia and Oceania and Africa in 1919. As compared with the last year of the war (1918) imports from South America increased $76,594,316, and shipments thereto gained $139,417,719.

Imports of $1,196,352,223 in 1919 from combined Asia and Oceania exceeded in value those from any single grand division. After deducting exports of $899,561,279 there was left against the United States an adverse balance of trade amounting to $296,790,944, which was less unfavorable than that of $439,042,464 in the previous year. These imports exceeded by $154,313,561 and the exports by $296,565,081 the corresponding values for 1918. The leading item of export to the orient was raw cotton, the bulk of which was purchased by China and Japan, while raw silk from those countries entered largely into the imports, with important increases in both quantity and value.

The war also forced an unusually rapid development of trade with Africa, which has continued, with still greater gains, during the first year of peace. The value of all imports into the United States from that continent in 1919 was $26,681,184 in excess of that for 1918, and exports thereto gained $39,471,544. These gains exceeded the total imports and exports in the African trade for either of the prewar years of 1912 and 1913.

The united kingdom is first among European nations in both the export and the import trade of the United States. Exports to England alone have averaged nearly $2,000,000,000 annually for the last three years, and the imports more than doubled in the first peace year. The imports from the united kingdom showed a monthly average gain of $13,381,204 in 1919.

France has second place in the foreign trade of the United States with Europe, with a total value of $1,017,240,405 for the first year of reconstruction, and a balance of trade in favor of the United States of $769,497,587. These figures do not cover the total business transactions between the two countries, however, as the army supplies and construction works of the A. E. F. purchased by France after the armistice are not included in the official export statistics. The original cost of these supplies of foodstuffs, clothing, automobiles and motor trucks, railroads, wharves, warehouses, refrigerating plants, sawmills and other material and machinery would increase by several hundred million dollars the figures quoted. As compared with 1918, imports from France increased $64,361,555, while exports were reduced by $37,830,778, the balance of trade against that country being $102,192,333 less in 1919 than in 1918.

Imports into the United States from Italy in 1919 gained $34,708,424 over 1918, while exports declined by $49,497,705 from the previous year's high record. The balance of trade against Italy declined from $467,834,525 in 1918 to $383,628,396. Imports of raw silk valued at $17,888,560, as compared with $53,622 in 1918, figured largely in the total gain in this trade during the last year.

Belgium ranked fourth of the European countries in 1919, with a total trade of $385,576,408, of which $377,876,308 was for exports, chiefly foodstuffs and raw materials, continuing the movement which followed the armistice to restock the kingdom. These exports were more than double the corresponding value in 1918. Imports from Belgium increased from $13,964 in 1918 to $7,700,100 in 1919, a gain of $7,686,136. The balance of trade against that country in 1919 was $370,176,208.

In 1919 exports from the United States to Scandinavian countries of $432,163,203 were seven times the amount shown for 1918, while imports, valued at $27,398,981, were three times those of the earlier year. The total

trade of the United States with Denmark amounted to $170,167,228, of which only $6,201,750 was imports therefrom; that of Sweden, $146,889,113, the imports amounting to only $13,825,982; and that of Norway, $142,505,843, of which $7,371,249 was imports. Exports to the Netherlands also rose, 1919 showing a gain over 1918 of $243,765,171, while the increase in imports amounted to $66,682,084.

The import trade of the United States with Spain, Switzerland, Greece and Portugal developed rapidly in the first year of peace, but imports from Russia dropped from $6,784,603 in 1918 to $2,953,480 in 1919. There was a thriving trade with Spain, imports from that country increasing by $30,903,614 in 1919, while exports gained $33,630,961 over 1918.

Exports to the central powers aggregated $157,151,207, of which $92,761,314 went to Germany, $42,211,564 to Austria-Hungary, $20,390,204 to Turkey in Europe, and $1,788,125 to Bulgaria, as against no exports in 1918, the last year of the war. Imports in 1919 from these countries totaled $29,178,415, the bulk of it being merchandise from Turkey and Germany, the returns for Austria and Bulgaria being relatively small.

Swiss merchandise imported into the United States in 1919 showed an increase in value of $10,805,076 as compared with the previous year; exports to Switzerland gained $48,542,633 over those of 1918. Imports from Greece surpassed by $9,474,456 those of 1918, while exports gained $38,537,139. The exports to Gibraltar in 1919 exceeded by $33,697,477 those of 1918.

While the war added immense impetus to the United States' foreign trade as a whole, it peculiarly strengthened and developed the commercial relations with Canada—so conveniently accessible by rail when ships were lacking. From 1914 to 1918 each succeeding year showed record-breaking values in both the export and the import trade with the dominion. In the peace year 1919 imports again set a record, but the exports declined by $152,610,298 from the high peak of 1918.

Cuba outranks all nations of the western hemisphere save Canada in the value of its trade with the United States. From 1914 on exports and imports show vastly increased annual returns, culminating in the highest values for the peace year 1919. Merchandise received from Cuba in 1919 was valued at $418,610,263, as compared with $278,635,027 in 1918; while exports totaled $278,391,222, as against $227,156,047.

No such steady growth is shown in the trade statistics with Mexico during the war period, but exports and imports for the peace year 1919, with due allowance for prices, compare favorably with prewar trade of 1913. Imports from Mexico in 1919 showed a falling off from 1918 of $9,717,051, while exports to that country increased by $33,663,165. There were largely increased shipments of crude mineral oil, coffee and cotton from Mexico, but a decline in the receipts of copper and lead during 1919.

A valuable trade is being built up between the Central American states and this country, imports for 1919 amounting to $43,149,859, as compared with $44,131,122 in 1918, and exports to $55,642,958, against $40,899,065. Nearly one-half the total export trade with these states in 1919 was with Panama.

Trade with the West Indies (including Cuba) is in a prosperous condition; in 1919 the imports into the United States from these islands exceeded exports thereto by $108,208,427. As to other countries of North America, there were increases in the trade with British Honduras, Bermuda, Greenland, Newfoundland and Labrador.

Notwithstanding the tremendous growth of South American trade with the United States during the war period, the peace year 1919 showed larger totals than ever before, although the carrying trade with Europe had been reestablished and the nations of the old world were again seeking markets for their manufactured goods in South America and bidding for its raw materials and foodstuffs. Wool imports fell from $128,921,326 in 1918 to $61,674,531, and not a bushel of wheat arrived in the United States from Argentina in 1919. There was a tremendous drop in Chilean nitrate imports—no longer required in munitions manufacture. These items largely account for the decline in imports from the countries named.

Exports to Argentina in 1919 increased by $50,863,842, while imports therefrom declined $29,229,814. Brazil ranked first in the import trade from South America with a total value of $233,570,620 as against exports thereto of $114,656,309, leaving a balance of trade against the United States of $118,914,311, or more than double that in favor of Argentina ($43,190,011). Imports of Brazilian coffee increased from 599,991,374 pounds, valued at $51,001,506, in 1918, to 787,312,293 pounds, invoiced at $160,038,196, in 1919. The rise in the price of this coffee in 1919 accounts for more than half the increased value of all imports from Brazil in that year over 1918 figures. The total imports from that country exceeded by $135,532,488 the corresponding imports of $98,038,132 in 1918.

Other large gains in imports in 1919 over 1918 were from Venezuela, $20,153,561, Colombia, $18,188,374, and Uruguay, $14,900,612; while a decline was registered in receipts from Chile of $83,640,556, from Peru of $1,311,673 and from Ecuador of $1,155,399. In addition to the tremendous increase in the total value of shipments to Argentina and Brazil, exports from the United States to Colombia, Uruguay and Venezuela were approximately doubled for the first peace year, as contrasted with 1918 returns, with less notable export gains in the trade with some of the other South American countries.

Although European competition for the eastern markets is reviving, the United States in 1919 received an important share of the trade from the antipodes. As compared with 1918, imports from Aden, China, Chosen, the East Indies, Japan and all other Asiatic countries except Hongkong showed large increases; while with the exception of a slight decline in shipments to Hongkong and Portuguese East Indies increased exports to all other nations of Asia were noted. The upward trend in exports was equally apparent in the trade with Oceania, but there was a heavy drop in imports from Australia and the Philippines.

The extraordinary growth in the trade with Japan which followed the outbreak of the war continued through the first peace year, with imports forming 40 per cent of the total imports into the United States from Asia and exports constituting 52 per cent of the total exports from the United States to Asia. As compared with 1918, imports gained $107,910,155 and exports $92,589,908 in 1919. Imports from Japanese leased territory of China during 1919 showed a decline of $14,342,894 from the previous year, but exports practically doubled.

China in 1919 took increasingly large amounts of American cotton goods and other manufactures in exchange for its silk, tea and other leading products. Imports increased by $43,182,782 over 1918 and exports gained $52,944,383.

Like China, the vast territories of the British East Indies seem to offer unlimited opportunities for further trade extension to American merchants. Imports in 1919 exceeded by $23,-

039,666 those of 1918; the gain was chiefly in the trade with India, imports from the Straits Settlements declining by $4,368,975. Exports to the British East Indies increased from $51,354,855 in 1918 to $81,514,358 in 1919, representing an increase in shipments to India of $27,113,070, to the Straits Settlements of $2,186,014, and to other British East Indies of $860,419.

Imports from Turkey in Asia, mainly tobacco, rose from $486 317 in 1918 to $22,387,717 in 1919, while exports to that country of $4,841,518 in 1919 represented a gain of only $4,425,570. Both exports and imports in the trade with Hongkong fell off in the first peace year, but a material increase was shown in the trade with Aden, Persia, Siam and "other Asia." Russia in Asia showed a gain of $2,734,204 in imports and of $46,245,603 in exports in 1919 over the previous year.

The most important features in the trade of the United States with Oceania were the declines in imports from Australia and the Philippines, though the exports largely increased. Imports from Australia showed a falling off of $15,360,871 and from the Philippines one of $19,637,381; exports to the former country showed a gain of $15,534,861 and to the latter one of $17,334,590. Trade with New Zealand and other British Oceania and French and German Oceania, though on the upward trend, did not exhibit for 1919 any very striking variations from the previous year.

Imports from British Africa increased by $14,601,261 and exports by $15,693,759. Exports to Egypt doubled, those to French Africa trebled, while shipments to the Belgian Kongo more than quadrupled in 1919 as compared with 1918. Material increases were shown in both the export and the import trade with Abyssinia, the Canary islands, German and Portuguese Africa, Madagascar and Morocco.

AMERICA'S FOREIGN TRADE IN CALENDAR YEAR 1919.

CONSUMPTION OF STAPLE FOODS IN UNITED KINGDOM.

[Consul-General Robert P. Skinner, London, Feb. 18, 1920.]

The question was raised in parliament as to the estimated consumption in the united kingdom in 1919 of wheat, barley, oats, beef, mutton, bacon, butter and cheese, and the proportions of these products imported from overseas and produced at home. The official reply was returned on behalf of the ministry of food as follows:

Commodities.	Est. consumption. Tons.	Home-grown. Pct.	Imported. Pct.
Wheat	7,395,000	27	73
Barley	1,956,000	64	36
Oats	4,297,000	92	8
Beef and veal	995,000	66	34
Mutton and lamb	368,000	57	43
Bacon and hams	447,000	19	81
Butter	180,000	58	42
Cheese	145,000	30	70

With regard to cereals, the quantities given represent the net amounts after deduction for seed, and in the case of wheat for tailings also. The bacon figures are for bacon as smoked or dried.

FIRST CROSSINGS OF ATLANTIC OCEAN.

By sailing vessel—The Santa Maria, Spanish, commanded by Christopher Columbus. Time, 70 days. (The Atlantic between Norway and Greenland was crossed by Norwegian sailors before the year 1000.)

By steamship—The Savannah, American, Savannah to Liverpool, May 24 to June 20, 1819. Time, 25 days.

By hydroplane—The NC-4, American, from Trepassey, N. F., to Lisbon, Portugal, May 16-17, 1919. Flying time, 26 hours 47 minutes.

By airplane—Vickers-Vimy biplane, British, from St. John's, N. F., to Clifden, Ireland, June 14-15, 1919. Time, 15 hours 57 minutes.

By rigid dirigible—The R-34, British, from East Fortune, Scotland, to Long Island, N. Y. Time, 108 hours.

STATEMENT OF THE PUBLIC DEBT OF THE UNITED STATES MAY 31, 1920.

*Includes the 1917 income and profits tax. †Includes the first and second installments of the 1918 income and profits tax. ‡Includes the third and fourth installments of the 1918 and the first and second installments of the 1919 income and profits tax.

COST OF SERVICE.

The cost of operating the internal revenue service for the fiscal year 1920 was 55 cents on the $100 collected based on the expenditure of $29,700,000. The cost of operating the internal revenue service for the fiscal year 1919 was equivalent to 53 cents for each $100 collected. There is included in the expenditures for fiscal year 1920 the expenditures for enforcing the child labor, the narcotic and the prohibition laws, which are regulatory rather than revenue-producing measures. Approximately $90,000 was expended for enforcing the provisions of the child labor act, $467,000 for enforcing the provisions of the narcotic laws, and $2,100,000 for enforcing the provisions of the prohibition laws, an aggregate of $2,657,000. Deducting this amount from the total amount expended, $29,700,000, leaves $27,043,000 as the net expenditure for collecting the internal revenue taxes for the fiscal year 1920, which is equivalent to a cost of 50 cents for each $100 collected.

DEATH OF EX-EMPRESS EUGENIE.

Eugenie, former empress of France, died in Madrid, Spain, July 11, 1920, at the advanced age of 94 years. She was born in Granada, Spain, May 5, 1825, daughter of the Count and Countess de Montijo. On Jan. 29, 1853, she was married to Napoleon III. of France, who surrendered to the Germans Sept. 3, 1870. Eugenie fled from the Tuileries the following day and took refuge in England, which country she made her home during the rest of her life. Napoleon III. died at Camden Place, Chislehurst, England, Jan. 9, 1872, and on June 1, 1870, his son, the former prince imperial of France, was killed while fighting with a British expedition in Zululand, Africa. The ex-empress took the death of the prince deeply to heart and a year later visited the spot where he had laid down his life for Britain. In the world war she caused a wing of her house at Farnborough Hill, England, to be made into a hospital for wounded officers. The remains of Eugenie, as well as of Napoleon and the prince imperial, rest in the church of the Benedictine abbey at Farnborough.

LIBRARY OF CONGRESS.

The library of congress was established in 1800 in the city of Washington, D. C. It was burned in 1814, and in 1851 lost 35,000 volumes by fire. The present library building, which cost $6,347,000, was opened to the public in November, 1897. It is located a short distance east of the capitol and is the largest and finest building of its kind in the world.

June 30, 1920, the library contained 2,831,333 books and pamphlets, 166,448 maps, 874,400 pieces of music and 418,976 photographs, prints, engravings and lithographs. The copyright office is a distinct division of the library with its own force of employes. The total number of employes in the library is 551 and the annual cost of maintenance is now $925,825, including $200,000 for printing and binding.

The librarian of congress is Herbert Putnam, salary, $7,500; chief assistant librarian, Appleton P. C. Griffin, $4,500.

Sporting Records.

BASEBALL SEASON OF 1920.

In the National baseball league the championship for 1920 was won by the Brooklyn team. In the American league the winning team was the Cleveland club.

SALES OF BASEBALL CLUBS.

The Boston National league baseball club was sold by James E. Gaffney and Robert Davis Jan. 8, 1915, to Percy D. Haughton and Arthur C. Wise for $500,000.

The Chicago National league baseball club (Cubs) was sold by Charles P. Taft of Cincinnati Jan. 5, 1916, to Charles H. Weeghman and partners of Chicago for $500,000 for 90 per cent of the stock.

The St. Louis American league baseball club (Browns) was sold by Robert Lee Hedges, Jan. 4, 1916, to Phil Ball, James W. Garneau and Otto Stifel for $525,000.

BASEBALL THROWING RECORD.

The world's record for the long distance throwing of a baseball was broken at Cincinnati, O., Oct. 10, 1910, when Sheldon Lejeune of the Evansville (Ind.) club, Central league, threw the sphere 426 feet 6¼ inches. The old record, made in Brooklyn, N. Y., Oct. 15, 1872, by John Hatfield, was 400 feet 7½ inches.

HIGH PRICES PAID FOR BASEBALL PLAYERS.

1920—Babe Ruth, New York	$130,000
1919—Arthur Nehf, New York	40,000
1915—E. Collins, Chicago	50,000
1914—Evers, Boston	35,000
1913—Chappell, White Sox	18,000
1911—Marty O'Toole, Pittsburgh	22,500
1910—"Lefty" Russell, Athletics	12,000
1910—Fred Hunter, Pittsburgh	10,000
1910—"Lena" Blackburne, White Sox	10,000
1908—Rube Marquard, New York	11,000
1906—Spike Shannon, New York	10,000
1889—Clarkson and Kelly, Boston	20,000

CONSECUTIVE HIT RECORD.

Joe Wilhoit, outfielder of the Wichita (Kas.) Western League team in 1919, hit safely in sixty-nine consecutive games. Jack Ness, first baseman of the Oakland (Cal.) team in 1915, hit safely in forty-nine consecutive games. The former record was held by Ty Cobb, who hit safely in forty consecutive games.

RECORD FOR CONSECUTIVE VICTORIES.

The mark of twenty consecutive victories set by the Providence club of the National league in 1884 was beaten by the New York National league team in 1916, when it scored twenty-six straight victories.

HOME RUN RECORD.

George (Babe) Ruth of the New York American league baseball team set a new record in home run hits in the course of the season of 1920. He registered fifty-four, or twenty-seven more than were made by Ed Williamson of the Chicago National league team in 1884 and twenty-nine more than were made by John (Buck) Freeman in 1899 while a member of the old Washington (D. C.) National league team. The record now stands:

1920—Babe Ruth, New York Americans....54
1919—Babe Ruth, Boston Americans.....30
1884—Ed Williamson, Chicago Nationals....27
1899—Buck Freeman, Washington Nationals.25

RECORD FOR RUNS IN ONE SEASON.

Babe Ruth of the New York Americans established a new record for runs made in one season. The previous mark was 147 made by Ty Cobb in 1911. Ruth scored 148 runs in 1920.

ARCHERY.

NATIONAL CHAMPIONSHIPS.

The annual tournament of the National Archery association was held in Wayne, Pa., Aug. 25-27, 1920. Dr. R. P. Elmer, the title holder, again won the championship with the highest total score of the meet, 2,268. James Jiles of Pittsburgh, Pa., was second with 2,170. Miss Cynthia Wesson of Cotuit, Mass., won the women's championship.

GOLF.

NATIONAL OPEN CHAMPIONSHIP.

Edward Ray, professional of the Oxney club, England, won the open championship of the United States in the annual tournament held at the Inverness club, Toledo, O., Aug. 10-13, 1920. His score was 295. Jock Hutchinson of Glen View, Leo Diegel of the Lake Shore Country club, Harry Vardon of South Herts, England, and Jack Burke of the St. Paul Town and Country club were tied for second place at 296. Winners of the event to date:

1894—Willie Dunn (New York), St. Andrew's links, won by 2 up.
1895—H. Rawlins (Newport), Newport links, 173.
1896—James Foulis (Chicago), Shinnecock Hills, 152.
1897—Joe Floyd (Essex), Wheaton links, 162.
1898—Fred Herd (Washington Park), Myopia links, 328
1899—W. Smith (Midlothian), Baltimore links, 315.
1900—H. Vardon (Ganton, England), Wheaton links, 313.
1901—Willie Anderson (Pittsfield, Mass.), Myopia links, 313.
1902—Lawrence Auchterlonie (Glen View), Garden City links, 307.
1903—Willie Anderson (Apawamis), Baltusrol links, 307.
1904—Willie Anderson (Apawamis), Glen View, 303.
1905—Willie Anderson (Apawamis), Myopia links, 314.
1906—Alexander Smith (Nassau), Onwentsia links, 295.
1907—Alec Ross (Brae Burn), Philadelphia Cricket club, 302.
1908—Fred McLeod (Midlothian), Myopia Hunt club, 322.
1909—George Sargent (Hyde Manor), Englewood (N. J.) links, 290.
1910—Alexander Smith (Wykagyl), Philadelphia Cricket club, 298.
1911—J. J. McDermott (Atlantic City), Chicago Golf club, 308.

1919—Mrs. B. Husk, Newark, N. J.	594
1920—Mrs. T. Humphreys, St. Louis	559

WOMEN'S CHICAGO CHAMPIONSHIPS.

In the Chicago women's city championship bowling tournament ending March 2, 1920, the winners were:

Five woman teams—Faetz Crescent; score, 2,238.

Two woman teams—Mrs. Zoe Quinn-Miss A. Davis; score, 1,080.

Individuals—Mrs. A. Wolf; score, 549.

INTERSTATE TOURNAMENT.

In an interstate bowling tournament held in South Bend, Ind., and ending Jan. 18, 1920, the winners in the various events were:

Five-man—Mineralites, Chicago; 2,800.

Doubles—Van de Walle-Blackmore, Mishawaka; 1,257.

Singles—A. Toemmel, Chicago; 699.

All events—P. Wolf, Chicago; 1,902.

WISCONSIN CHAMPIONSHIPS.

The Wisconsin Bowling association's annual championship tournament was held in Manitowoc in Feburary, 1920. The five-man event was taken by the Gantter-Bedat team of Kaukauna with a score of 2,836, the doubles by Tabbert and Nolte of Milwaukee with a score of 1,218 and the all-events by Wallie Larsen of Racine, whose total score was 1,946.

World's Record Broken.

Walter Swift of Milwaukee established a new world's record for a series of three games on Feb. 15 when he rolled 736 at the Wisconsin state tournament in Manitowoc. The previous record was 718 made by Harry Cavan of Pittsburgh in 1919.

BILLIARDS.

NATIONAL 18-2 CHAMPIONSHIP.

Percy M. Collins of Chicago won the national amateur 18-2 balkline billiard championship in the tournament held in Boston, Mass., Feb. 23-March 5, 1920, by defeating in the final game David McAndless, Jr., also of Chicago, by a score of 300 to 225 in fifty-one innings. Final standing of the players:

Player.	W.	L.	H. A.
Percy M. Collins, Chicago	6	0	21 6-14
David McAndless, Jr., Chicago	5	1	11 1-9
Edgar T. Appleby, New York	4	2	16 10-11
Robert M. Lord, Chicago	2	4	5 40-52
F. S. Appleby, New York	2	4	13 14-22
Julian Rice, New York	1	5	4 8-13
Percy Trump, Pittsburgh	1	5	4 40-65

Championship List.

1901—A. R. Townsend.
1902—E. W. Gardner.
1903—W. P. Foss.
1904—J. F. Poggenburg.
1905—C. F. Conklin.
1906—E. W. Gardner.
1907—C. Demarest.
1908—C. Demarest.
1909—H. A. Wright.
1910—E. W. Gardner.
1911—J. F. Poggenburg.
1912—Morris Brown.
1913—Joseph Mayer.
1914—E. W. Gardner.
1915—Joseph Mayer.
1916—E. W. Gardner.
1917—Nathan Hall.
1918—Corwin Huston.
1919—D. McAndless.
1920—P. M. Collins.

In 1909 the play was changed from 14-2 to 18-2 balkline.

NATIONAL CLASS B 18-2 CHAMPIONSHIP.

Julian Rice won the National class B 18-2 balkline billiard championship of the National Association of Amateur Billiard Players in Brooklyn, N. Y., Feb. 21, 1920, when he defeated Charles P. Mathews in the final game of the tournament, 200 to 122. Final standing of the players:

Player.	W.	L.	H.R.	H.A.
Julian Rice	5	0	39	12 8-16
C. P. Mathews	4	1	32	6 20-30
J. R. Beardsley	3	2	37	5 20-36
R. J. Steinbugler	1	4	31	5 19-28
M. P. McManiman	1	4	37	5
S. M. Brussel	1	4	23	3 29-57

EASTERN CLASS A 18-2 CHAMPIONSHIP.

David McAndless, Jr., won the eastern class A 18-2 balkline championship of the National Association of Amateur Billiard players in a tournament held in New York city and ending Feb. 4, 1920, with five games won and none lost. In his final game with Francis S. Appleby, whom he defeated 300 to 126, he ran out with an unfinished run of 148, which was said to be an American amateur high run record at 18-2 billiards. Final standing:

Player.	W.	L.	H.R.	H.A.
D. McAndless, Jr.	5	0	148	27 3-11
F. S. Appleby	4	1	114	12 12-24
E. W. Gardner	3	2	51	10 10-29
J. H. Clarkson	2	3	77	15
E. T. Appleby	1	4	59	11 3-27
P. P. Trump	0	5	47	8 11-27

AMATEUR 3-CUSHION CHAMPIONSHIP.

William B. Huey of the Illinois Athletic club won the second annual national three-cushion championship in a tournament held in the rooms of the Chicago Athletic association Jan. 26-Feb. 4, 1920. The final standing was:

	W.	L.	H.R.	B.G.
W. B. Huey, Illinois A. C	6	1	9	54
W. Campbell, Chicago	5	2	7	73
L. J. Engels, Boston	4	3	5	67
W. B. Flinn, New York	4	3	5	81
A. Newman, Brooklyn	3	4	6	80
C. E. Patterson, Chi. A. A.	3	4	6	57
A. A. Hahn, Hamilton club	2	5	6	87
H. B. Kuhns, Chicago A. A.	1	6	6	64

Championship List.

1919—Arthur Newman.
1920—William B. Huey.

POCKET BILLIARDS.

National Amateur Championship.

Morgan Hughes won the national amateur pocket billiard championship of 1920 in a tournament held in New York, N. Y., ending Feb. 11. In the final game of the series he defeated Edward Kirby, the former champion, by a score of 100 to 71. The final standing of the contestants was:

Player.	W.	L.	H.R.	P.C.
M. Hughes	6	1	32	.857
E. Kirby	5	2	19	.714
T. McCabe	5	2	28	.714
C. Wood	4	3	22	.571
W. Herbert	3	4	24	.429
T. Lawler	2	4	21	.333
A. Simel	1	5	15	.167
C. Fulton	0	5	13	.000

BASKET BALL.

CONFERENCE CHAMPIONSHIPS.

The University of Chicago basket ball team won the 1920 championship of the western intercollegiate conference. The standing at the close of the season was:

Team.	Won.	Lost.	Pct.
Chicago	10	2	.833
Purdue	8	2	.800
Illinois	8	4	.667
Indiana	6	4	.600
Wisconsin	7	5	.583
Iowa	6	6	.500
Ohio State	4	8	.333
Northwestern	2	6	.250
Michigan	3	9	.250
Minnesota	2	10	.166

Leading Conference Players.

The scores made by the leading ten basket ball players in the western conference in 1920 were as follows:

Player and college.	Goals—Floor.	Goals—Foul.	Points.

EASTERN INTERCOLLEGIATE CHAMPIONSHIP.

The University of Pennsylvania won the eastern intercollegiate championship in 1920 without losing a game. The final standing was:

Team.	Won.	Lost.	Pct.
Pennsylvania	10	0	1,000
Yale	6	4	.600
Princeton	6	4	.600
Cornell	4	6	.400
Columbia	3	7	.300
Dartmouth	1	9	.100

NATIONAL COLLEGIATE CHAMPIONSHIP.

To decide the 1920 national collegiate basket ball championship of the United States the University of Chicago and Pennsylvania teams met in a series of three games. The first game, played in Chicago March 22, was won by Chicago by a score of 28 to 24; the second, played in Philadelphia, was won by Pennsylvania by a score 29 to 18; the third and deciding game, played in Princeton, N. J., was won by Pennsylvania by a score of 23 to 21.

OTHER CONFERENCE CHAMPIONSHIPS.

Stanford university won the basket ball championship of the Pacific coast college conference in 1920 with nine games won and one lost, or a percentage of .900. The University of California was second with a percentage of .687.

The University of Missouri was the winner in the Missouri Valley conference basket ball season of 1920. Washington university was second.

NATIONAL CHAMPIONSHIP.

The New York university won the National A. A. U. championship at Atlanta, Ga., March 13, 1920, by defeating Rutgers college of New Brunswick, N. J., 49 to 24. Kansas City A. C. won third place.

CENTRAL A. A. U. CHAMPIONSHIP.

The Edison basket ball team of New London, Wis., won the Central A. A. U. basket ball heavyweight championship of 1920 by defeating in the final game of the series in Chicago, March 5, the Seward Park Blues of Chicago, 30 to 24. The Evanston Y. M. C. A. team took third place by defeating the Northern Paper Mills company team of Green Bay, Wis., 35 to 24.

TENNIS.

NATIONAL CHAMPIONSHIPS.

William H. Tilden II. won the national tennis championship in singles in a tournament held at Forest Hills, L. I., Aug. 30-Sept. 6, 1920, by defeating William M. Johnston of California in the final match by the score of 6-1, 1-6, 7-5, 5-7, 6-3. In the same tournament Vincent Richards of Yonkers, N. Y., won the national junior singles by defeating W. W. Ingraham of Oakland, R. I., 6-2, 6-4, 6-1. The tournament to decide the national tennis championship in doubles took place on the Chestnut Hill courts of the Longwood Cricket club, near Boston, Mass., Aug. 16-21, 1920. William M. Johnston and C. J. Griffin were the winners, defeating Roland Roberts and Willis Davis in the finals by the score of 6-2, 6-2, 6-3.

National Tennis Champions in Singles.

1881—R. D. Sears.	1902—W. A. Larned.
1882—R. D. Sears.	1903—H. L. Doherty.
1883—R. D. Sears.	1904—H. Ward.
1884—R. D. Sears.	1905—B. C. Wright.
1885—R. D. Sears.	1906—W. J. Clothier.
1886—R. D. Sears.	1907—W. A. Larned.
1887—H. W. Slocum.	1908—W. A. Larned.
1888—H. W. Slocum.	1909—W. A. Larned.

1897—R. D. Wrenn.	1916—R. N. Williams.
1898—M. D. Whitman.	1917—R. L. Murray.
1899—M. D. Whitman.	1918—R. L. Murray.
1900—M. D. Whitman.	1919—W. M. Johnston.
1901—W. A. Larned.	1920—W. H. Tilden II.

DAVIS INTERNATIONAL CUP.

The Davis international tennis challenge cup was won by Australasia, the defender, in a series of games played at Sydney, N. S. W., Jan. 16-21, 1920. The British Isles won the right to challenge the holders of the trophy by taking the preliminary round from France, Belgium and South Africa in the summer of 1919. There were no contests from 1914, when the United States lost the matches at Forest Hills, N. Y., to 1920, on account of the European war. The results at Sydney were as follows: On Jan. 16 G. L. Patterson, Australian, defeated A. H. Lowe, British, 6-4, 6-3, 2-6, 6-2, and Lieut.-Col. A. R. F. Kingscote, British, defeated J. O. Anderson, Australian, 7-5, 6-2, 6-4. Rain stopped the games scheduled for the 17th. The doubles match, played on the 19th, was won by Norman Brookes and Gerald Patterson of Australia, who defeated Kingscote and A. E. Beamish of Great Britain 6-0, 6-0, 6-2. In the concluding games, played on the 21st, Patterson defeated Kingscote 6-1, 6-4, 8-6, and Anderson defeated Lowe 6-4, 5-7, 6-3, 4-6, 12-10. This gave the Australians four out of five contests and consequently they remain the defenders of the trophy. Record of the event:

Year.	Winner.	Score.	Year.	Winner.	Score.
1900	America	3-0	1909	Australasia	5-0
1902	America	3-2	1911	Australasia	5-0
1903	British Isles	4-1	1912	British Isles	3-2
1904	British Isles	5-0	1913	America	3-2
1905	British Isles	5-0	1914	Australasia	3-2
1906	British Isles	5-0	1915-19	No contests.	
1907	Australasia	3-2	1920	Australasia	4-1
1908	Australasia	3-2			

INTERNATIONAL CONTESTS IN ENGLAND.

American tennis players scored several triumphs in England in 1920, the most important being in the games played to decide the team that should have the right next to play Australasia for the Davis cup. William M. Johnston of California won the London championship in singles at the Queen's club, London, June 19, defeating William T. Tilden of Philadelphia in the finals, 4-6, 6-2, 6-4. At Wimbledon on June 25, in the presence of King George and Queen Mary, Johnston and Tilden defeated Andre Gobert and W. M. Laurentz of France in the doubles of the all-British tournament, 6-2, 4-6, 9-7. On June 30 Tilden defeated Zenzo Shimidzu of Japan in the finals for the British singles championship by the scores 6-4, 6-4, 13-11. In the challenge round Tilden defeated Gerald L. Patterson of Australia 2-6, 6-3, 6-2, 6-4. In the doubles finals for the British championship Charles S. Garland of Pittsburgh and R. Norris Williams of Boston defeated A. R. F. Kingscote and J. C. Parke, the British pair, losing the first set, but taking the three following sets straight.

The matches to decide the Davis cup chal-

lenging team were played at Eastbourne July 8-9. On July 9 Tilden defeated Laurentz of France and Johnston disposed of Gobert of the same country. On the following day the American pair defeated the Frenchmen in the doubles, 6-2, 6-3, 6-3. On July 16 Johnston defeated J. C. Parke of England in the singles, 6-4, 2-6, 3-6, 6-2 and Johnston defeated A. R. Kingscote, 4-6, 6-1, 6-3, 6-1. On July 17 Johnston and Tilden in the doubles defeated Parke and Kingscote, 8-6, 4-6, 4-6, 6-3, 6-2. As Holland had withdrawn from the contest this virtually gave the American team the right to challenge Australasia. However, Johnston and Tilden played against Kingscote and Parke in singles on July 19 and again defeated them.

The United States Lawn Tennis association officials on Sept. 15 announced that the American team to play against Australasia would consist of Williams, Hardy, Tilden and Johnston.

WOMEN'S NATIONAL CHAMPIONSHIPS.

The women's national championships for 1920 were determined on the grass courts of the Philadelphia Cricket club Sept. 14-17. In the singles Mrs. Molla Bjurstedt Mallory of New York was the victor, defeating in the finals Miss Marion Zinderstein of Boston 6-3, 6-1. It was the fourth time Mrs. Mallory had won this event. In the doubles Miss Zinderstein with Miss Eleanor Goss of New York won the championship by defeating Miss Eleanore Tennant and Miss Helen Baker of California 13-11, 4-6, 6-3.

ILLINOIS STATE CHAMPIONSHIPS.

The annual Illinois state championship tennis tournament took place on the grounds of the Chicago Tennis club Aug. 7-15, 1920. In the singles Vincent Richards of Yonkers, N. Y., was the winner, defeating Walter T. Hayes 6-1, 4-6, 6-2, 6-1. In the doubles Hayes and Ralph H. Burdick defeated Vincent Richards and Lucien Williams 6-3, 6-3, 6-2.

The women's Illinois state championships were decided on the Edgewater beach hotel courts Sept. 9-12. In the singles Miss Mary K. Voorhees was the winner, defeating Miss Marion F. Leighton 6-4, 7-5. In the doubles Miss Leighton and Miss Emily Scully defeated the Misses Marie Qualey and Vorsila Mican, 6-3, 6-3, in the final matches.

CHICAGO CHAMPIONSHIPS.

Men's singles, final match, June 27—Walter T. Hayes defeated Clifton B. Herd 6-4, 6-2, 6-0.

Women's singles, final match, June 27—Miss Mary K. Voorhees defeated Mrs. F. Brunhild 6-4, 6-4.

Men's doubles, final match, June 27—Lucien Williams and Jimmy Weber defeated Clifton B. Herd and Jerry Weber 6-3, 6-4, 6-4.

INTERCOLLEGIATE CHAMPIONSHIPS, 1920.

New England—Williams college.

Western conference—Singles, Walter K. Wesbrook, Michigan; doubles, Harry Vories and Pat Segal, Chicago.

OTHER TENNIS WINNERS IN 1920.

Western sectional—Singles, Walter Hayes; doubles, Ralph Burdick and Walter Hayes.

National intercity—Roland Roberts and Clarence Griffin.

Southern—C. Y. Smith.

Metropolitan—Ichva Kumagae.

Central states—Singles, Roland Roberts; doubles, Theodore Drewes and Fred Jostles.

Casino singles—Clarence J. Griffin.

COURT TENNIS.

National Amateur Championship—Singles.

In the annual national amateur court tennis singles championship tournament held on the courts of the Racquet and Tennis club, New York city, April 6-12, 1920, C. S. Cutting of New York defeated in the finals his brother, R. F. Cutting, by a score of 6-4, 6-1, 6-4. In the challenge round Jay Gould, the title holder, retained the championship by defeating Cutting 6-3, 6-0, 6-1. Championship record in singles:

Year.	Winner.	Club.
1892	R. D. Sears	Boston
1893	Fiske Warren	Boston
1894	B. S. deGarmendia	New York
1895	B. S. deGarmendia	New York
1896	L. M. Stockton	Boston
1897	G. R. Fearing, Jr.	Boston
1898	L. M. Stockton	Boston
1899	L. M. Stockton	Boston
1900	E. H. Miles	New York
1901	Joshua Crane, Jr.	Boston
1902	Joshua Crane, Jr.	Boston
1903	Joshua Crane, Jr.	Boston
1904	Joshua Crane, Jr.	Boston
1905	C. E. Sands	New York
1906	Jay Gould	Tuxedo
1907	Jay Gould	Tuxedo
1908	Jay Gould	Tuxedo
1909	Jay Gould	Tuxedo
1910	Jay Gould	Philadelphia
1911	Jay Gould	Philadelphia
1912	Jay Gould	Philadelphia
1913	Jay Gould	Philadelphia
1914	Jay Gould	Philadelphia
1915	Jay Gould	Philadelphia
1916	Jay Gould	Philadelphia
1917	Jay Gould	Philadelphia
1918-1919	No contests.	
1920	Jay Gould	New York

Championship in Doubles.

The court tennis doubles championship of the United States was won in Philadelphia, Pa., March 27, 1920, by Jay Gould of New York and J. W. Wear of Philadelphia, who defeated in the final round Joshua Crane and C. T. Russell of Boston by a score of 6-1, 6-2, 5-7, 6-2. There were no contests in 1917, 1918 and 1919. In 1916 Jay Gould and W. H. T. Huhn were the winners.

Open Professional Champions.

Open professional court tennis champions since 1871:

1871-1885—G. Lambert, England.
1885-1890—Tom Pettit, America.
1890-1895—C. Sanders, England.
1895-1905—Peter Latham, England.
1905-1907—C. J. Fairs, England.
1907-1908—Peter Latham, England.
1908-1912—C. J. Fairs, England.
1912-1914—George F. Covey, England.
1914—Jay Gould, America.
1915-1919—No contests.

CLAY COURT CHAMPIONSHIPS.

The tenth annual national clay court championship tournament was held at the South Side Tennis club, Chicago, July 10-18, 1920. In the singles Roland Roberts of San Francisco was the winner, defeating Vincent Richards of Yonkers, N. Y., 6-3, 6-1, 6-3. In the doubles Roberts, paired with Richards, defeated Ralph Burdick and Walter Hayes of Chicago, 6-2, 6-2, 7-5.

The women's national clay court championships were decided on the courts of the Detroit Tennis club June 21-26, 1920. Miss Marion Zinderstein of Boston won in the singles by defeating Miss Corinne Gould of St. Louis 6-0, 6-1. In the doubles Miss Eleanore Tennant of Los Angeles and Miss Florence Ballin of New York defeated in the finals Miss Gould and Miss Roberta Esch of Cleveland 6-3, 6-2.

SQUASH TENNIS.

National Championship.

A. J. Cordier of the Yale club won the national squash tennis championship in singles

by defeating Anderson Dana of the Harvard club in the final round of the National Squash Tennis association individual tournament held in New York, N. Y., Feb. 3-14, 1920. The scores were 17-15, 15-9, 15-3. Championship record:

Year.	Winner	Club.
1911	Dr. Alfred Stillman II	Harvard
1912	Dr. Alfred Stillman II	Harvard
1913	George Whitney	Harvard
1914	Dr. Alfred Stillman II	Harvard
1915	E. S. Winston	Harvard
1916	E. S. Winston	Harvard
1917	E. S. Winston	Harvard
1918	F. V. S. Hyde	Harvard
1919	J. W. Appel	Harvard
1920	A. J. Cordier	Yale

Class B Championship.

William Adams, Jr., of the Yale club won the class B championship of the National Squash association in New York city Feb. 4, 1920, by defeating A. H. Tomes of the Harvard club in the deciding game of the series by 8-15, 18-17, 18-16 and 18-15.

INDOOR TENNIS.

Champions in Singles—Men.

1900—J. A. Allen.
1901—Holcombe Ward.
1902—J. P. Paret.
1903—W. C. Grant.
1904—W. C. Grant.
1905—E. B. Dewhurst.
1906—W. C. Grant.
1907—T. R. Pell.
1908—W. C. Grant.
1909—T. R. Pell.
1910—G. F. Touchard.
1911—T. R. Pell.
1912—W. C. Grant.
1913—G. F. Touchard.
1914—G. F. Touchard.
1915—G. F. Touchard.
1916—R. L. Murray.
1917—S. H. Voshell.
1918—S. H. Voshell.
1919—V. Richards.
1920—W. T. Tilden, Jr.

Champions in Doubles—Men.

1900—J. P. Paret and C. Cragin.
1901—O. M. Bostwick and C. Cragin.
1902—W. C. Grant and Robert LeRoy.
1903—W. C. Grant and Robert LeRoy.
1904—W. C. Grant and Robert LeRoy.
1905—T. R. Pell and H. E. Allen.
1906—F. B. Alexander and H. H. Hackett.
1907—F. B. Alexander and H. H. Hackett.
1908—F. B. Alexander and H. H. Hackett.
1909—T. R. Pell and W. C. Grant.
1910—G. F. Touchard and C. R. Gardner.
1911—T. R. Pell and F. B. Alexander.
1912—T. R. Pell and F. B. Alexander.
1913—W. C. Grant and G. C. Shafer.
1914—W. C. Grant and G. C. Shafer.
1915—G. F. Touchard and W. M. Washburn.
1916—Dr. W. Rosenbaum and A. M. Lovibond.
1917—Dr. W. Rosenbaum and F. B. Alexander.
1918—G. C. Shafer and King Smith.
1919—V. Richards and W. T. Tilden, Jr.
1920—V. Richards and W. T. Tilden, Jr.

Champions in Singles—Women.

1907—Miss E. H. Moore.
1908—Miss Marie Wagner.
1909—Miss Marie Wagner.
1910—Miss F. S. Schmidt.
1911—Miss Marie Wagner.
1912—No tournament.
1913—Miss Marie Wagner.
1914—Miss Marie Wagner.
1915—Miss Molla Bjurstedt.
1916—Miss Molla Bjurstedt.
1917—Miss Marie Wagner.
1918—Miss Molla Bjurstedt.
1919—Mrs. G. W. Wightman.
1920—Miss Helene Pollak.

Champions in Doubles—Women.

1908—Miss E. H. Moore-Miss Pouch.
1909—Miss E. H. Moore-Miss Erna Marcus
1910—Miss M. Wagner-Miss C. Kuttroff.
1911—Miss B. Fleming-Miss E. C. Bunce.
1912—No tournament.
1913—Miss M. Wagner-Miss C. Kuttroff.
1914—Miss C. Cassell-Mrs. S. F. Weaver.
1915—Mrs. M. McLean-Mrs. S. F. Weaver.
1916—Miss M. Wagner-Miss M. Bjurstedt.
1917—Miss Marie Wagner-Miss M. Taylor.
1918—Miss E. Goss-Mrs. S. F. Weaver.
1919—Mrs. Wightman-Miss M. Zinderstein.
1920—Miss H. Poliak-Mrs. L. G. Morris.

POLO.

WESTERN GAMES.

June 16—Onwentsia, 6; Shamrocks, 5½. Played at St. Louis, Mo.

ROLLER SKATING.

CHAMPIONSHIP RACES.

World championship roller skating races, conducted by the Opal Athletic association, were held in Chicago May 12-16, 1920. In the final standing William Skrivan, Opal A. A., was first with 43 points; W. Kerber, Opal A. A., second with 28, and Victor Frasch, Opal A. A., third with 27. Winners and time in decisive events:

¼ mile—William Skrivan. Time, 46⅘.
5 miles—Victor Frasch. Time, 15:38.
1 mile—William Kerber. Time, 2:57⅘ (new world record).
10 miles—William Skrivan. Time, 32:11⅘.
3 miles—William Skrivan. Time, 9:17.

FIFTEEN MILE HANDICAP.

Paul Quirk of the Lightning Athletic club won the fifth annual fifteen mile handicap street roller race of the Opal A. A., May 30, 1920, in 1:16:00. George Kopal of the Opal A. A. was second.

BICYCLE RACING.

In the Newark (N. J.) velodrome in June, 1920, Arthur Spencer of Toronto won the ¼, ½, ⅓ and 1 mile national professional championships. F. Taylor won the 1 mile amateur championship at the same place on June 23.

At New York on June 27, 1920, Arthur Nieminsky, in the Olympic elimination race, covered 108.74 miles in 5:26:40.

Roy Schoeneman of the Alverno A. A. won a 25 mile handicap bicycle race in Humboldt park, Chicago, Oct. 17, 1920, in 48:13. Carl Stockholm of the same club won the time prize by covering the distance in 48:10.

MOTORCYCLING.

Otto Walker won a 100 mile motorcycle race on the Ascot speedway at Los Angeles, Cal., Jan. 4, 1920, in 1:17:42. Ralph Hepburn was second and L. E. Parkhurst third. On the same track, Jan. 11, Walker won a fifty mile race in the fast time of 37:47⅘. Fred Ludlow was second and Albert Burns third.

PUGILISM.

Following is a list of the most noteworthy ring battles since 1882, the heavyweight championship contests being the first given:

Date.	Winner.	Loser.	Place.	Rounds.
Feb. 7, 1882	John L. Sullivan	Paddy Ryan	Mississippi City	9
July 8, 1889	John L. Sullivan	Jake Kilrain	Richburg, Miss.	75
Jan. 14, 1891	Bob Fitzsimmons	Jack Dempsey	New Orleans, La.	13
Sept. 7, 1892	James J. Corbett	John L. Sullivan	New Orleans, La.	21
Jan. 25, 1896	James J. Corbett	Charles Mitchell	Jacksonville, Fla.	8
Feb. 21, 1896	Bob Fitzsimmons	Peter Maher	Mexico	1
March 17, 1897	Bob Fitzsimmons	James J. Corbett	Carson City, Nev.	14
June 9, 1899	James J. Jeffries	Bob Fitzsimmons	Coney Island, N. Y.	11
Nov. 3, 1899	James J. Jeffries	Thomas J. Sharkey	Coney Island, N. Y.	25
Nov. 15, 1901	James J. Jeffries	Gus Ruhlin	San Francisco, Cal.	5
July 25, 1902	James J. Jeffries	Bob Fitzsimmons	San Francisco, Cal.	8
Aug. 14, 1903	James J. Jeffries	James J. Corbett	San Francisco, Cal.	10
Aug. 26, 1904	James J. Jeffries	Jack Monroe	San Francisco, Cal.	2
July 4, 1907	Tommy Burns	Bill Squires	San Francisco, Cal.	1
July 17, 1907	Jack Johnson	Bob Fitzsimmons	Philadelphia, Pa.	2
Feb. 10, 1908	Tommy Burns	Jack Palmer	London, England	4
Dec. 26, 1908	Jack Johnson	Tommy Burns	Sydney, N. S. W.	14
Sept. 9, 1909	Jack Johnson	Al Kaufman	San Francisco, Cal.	10
Oct. 16, 1909	Jack Johnson	Stanley Ketchel	San Francisco, Cal.	12
July 4, 1910	Jack Johnson	James J. Jeffries	Reno, Nev.	15
Sept. 5, 1910	Al Kaufman	Bill Lang	Philadelphia, Pa.	6
Feb. 21, 1911	Sam Langford	Bill Lang	London, England	6
Aug. 9, 1911	Bill Lang	Bill Squires	Sydney, N. S. W.	5
Sept. 15, 1911	Jim Flynn	Carl Morris	New York, N. Y.	10
April 8, 1912	Sam Langford	Sam McVey	Sydney, N. S. W.	20
July 4, 1912	Jack Johnson	Jim Flynn	Las Vegas, N. M.	9
Jan. 1, 1913	Luther McCarty	Al Palzer	Los Angeles, Cal.	18
April 16, 1913	Luther McCarty	Jim Flynn	Philadelphia, Pa.	6
May 24, 1913	Arthur Pelkey	*Luther McCarty	Calgary, Man.	1
Jan. 1, 1914	"Gunboat" Smith	Arthur Pelkey	Daly City, Cal.	15
June 27, 1914	Jack Johnson	Frank Moran	Paris, France	20
July 16, 1914	Georges Carpentier	"Gunboat" Smith	London, England	6
April 5, 1915	Jess Willard	Jack Johnson	Marianao, Cuba	26
March 25, 1916	Jess Willard	Frank Moran	New York, N. Y.	10
June 4, 1917	Carl Morris	Frank Moran	New York, N. Y.	10
June 19, 1917	Fred Fulton	Sam Langford	Boston, Mass.	7
July 9, 1917	Fred Fulton	Jack Moran	St. Louis, Mo.	3
Sept. 4, 1917	Fred Fulton	Carl Morris	Canton, O.	6
Feb. 25, 1918	Jack Dempsey	Bill Brennan	Milwaukee, Wis.	6
May 3, 1918	Jack Dempsey	Bill Miske	St. Paul, Minn.	10
July 27, 1918	Jack Dempsey	Fred Fulton	Harrison, N. J.	1
July 4, 1919	Jack Dempsey	Jess Willard	Toledo, O.	3
Dec. 4, 1919	Georges Carpentier	Joe Beckett	London, England	1

DEMPSEY VS. MISKE.

Jack Dempsey and Billy Miske fought for the heavyweight championship at Benton Harbor, Mich., on Labor day, Sept. 6, 1920. Dempsey was the winner, knocking out his opponent in the third round. Official figures of the match follow:

Attendance	11,348
Total receipts	$134,904
State and government taxes	25,528
Net receipts	109,736
Dempsey's share	55,000
Miske's share	25,000

JACK JOHNSON IN PRISON.

Jack Johnson, colored, former heavyweight champion, after being a fugitive from justice for seven years, surrendered himself to the federal authorities at Tia Juana, Cal., July 20, 1920. He was brought to Chicago and on Sept. 14 was arraigned before Federal Judge George A. Carpenter, who decided that he must serve out his original sentence of one year and one day in the prison at Leavenworth, Kas. Johnson entered the prison a few days later. He was charged with a violation of the Mann act.

1 mile, yearlings—Best mile by a filly, 2:19¼, Miss Stokes, Lexington, Ky., Sept. 17, 1909. Best mile by a colt, 2.15¾, Airdale, Lexington, Ky., Oct. 2, 1912. Race record, 2:26, Adbell, Woodland, Cal., Aug. 27, 1894.
1 mile, 2-year-olds—2:04¼, The Real Lady, Lexington, Ky., Oct. 7, 1916. Best mile by a gelding, 2:11¾, Henry Todd, Lexington, Ky., Oct. 12, 1914.
1 mile, 3-year-olds—2:03¼, Miss Bertha Dillon Atlanta, Ga., Oct. 18, 1917. Fastest four heat race, 2:10¾, 2:09¾, 2:10, 2:10½, Day Star, Lexington, Ky., Sept. 29, 1919.
1 mile, 4-year-olds—1:59½, Lee Axworthy, Lexington, Ky., Oct. 4, 1916.
1 mile, 5-year-olds—1:58½, Lou Dillon, Memphis, Tenn., Oct. 24, 1903.
1 mile, double-gaited horses—2:03¼, Prince Loree, Syracuse, N. Y., Sept. 15, 1920.
1 mile, fastest two-heat race—2:01¼, 2:01¾, Hamburg Belle, North Randall, O., Aug. 25, 1909. By a stallion, 2:02¼, 2:02½, Lu Princeton, at Hartford, Conn., Sept. 2, 1918.
1 mile, fastest three-heat race—2:01¾, 2:04¾, 2:03, St. Frisco, Belmont, Pa., Aug. 16, 1918; by filly, 2:05¼, 2:03¼, 2:04¼, Miss Bertha Dillon, Columbus, O., Sept. 25, 1917.
1 mile, fastest four-heat race—2:03¼ (Billy Burke), 2:06¼, 2:04½, 2:06¾, Dudie Archdale, Columbus, O., Oct. 1, 1912.
1 mile, fastest five-heat race—2:05¾, 2:03¼, 2:04¾, 2:05¼, 2:09, Mabel Trask, Columbus, O., Aug. 17, 1916. (St. Frisco won first two heats.)
1 mile, fastest six-heat race—2:05½, 2:04¼, 2:04½, 2:06¼, 2:07¼, 2:06¾, Bertha McGuire, Toledo, O., July 24, 1918.
1 mile, fastest sixth heat, 2:05¼, Wilkes Brewer, Columbus, O., July 30, 1919.
1 mile, over half-mile track—2:02¾, Uhlan, Goshen, N. Y., Aug. 24, 1911.

Trotting to Wagon.

½ mile—:56¼, Uhlan (paced by runner), Cleveland, O., Aug. 11, 1911.
1 mile—2:00, Lou Dillon, Memphis, Tenn., Oct. 23, 1903, and Uhlan, Cleveland, O., Aug. 8, 1911; by stallion, 2:02¾, Lee Axworthy, Lexington, Ky., Oct. 12, 1916; by team, 2:10¼, Roy Miller and Lucy Van, at Syracuse, N. Y., Sept. 11, 1918.

Teams to Pole.

1 mile—2:03¼, Uhlan and Lewis Torrent, Lexington, Ky., Oct. 11, 1912.

Trotting to High Sulky.

1 mile—2:05, Lou Dillon, Cleveland, O., Sept. 11, 1903; 2:07, Major Delmar, Memphis, Tenn., Oct. 26, 1904; 2:08¾, Maud, S., Glenville, 1885 (nonball-bearing sulky).

BEST PACING RECORDS.

¼ mile—:27½, Dan Patch, Memphis, Tenn., Oct. 27, 1903; :28, Star Pointer, Sept. 28, 1897 (against time, accompanied by a running horse).
½ mile—:56, Dan Patch, Memphis, Tenn., Oct. 27, 1903 (against time).
¾ mile—1:26¼, Prince Alert (with wind shield), Empire track, New York, Sept. 23, 1903.
1 mile—1:55, Dan Patch, St. Paul, Sept. 8, 1906 (with dust shield, a runner in front and at one side); 1:56¾, Directum I. (without wind shield), Syracuse, N. Y., Sept. 15, 1915. Fastest in competition, 1:58, by Directum I., Columbus, O., Sept. 30, 1914.
1 mile, yearlings—2:20¾, Belle Acton, Lyons, Neb., Oct. 14, 1882.
1 mile, 2-year-olds—2:07¾, Directly, Galesburg, Ill., Sept. 20, 1894.
1 mile, 3-year-olds—2:00¾, Anna Bradford, Columbus, O., Sept. 29, 1914; by colt, 2:03, Peter Look, Lexington, Ky., Oct. 7, 1916; by gelding, 2:04¾, Rifle Grenade, at Columbus, O., July 28, 1920.
1 mile, 4-year-olds—2:00, William, Grand Rapids, Mich., Aug. 5, 1914; race record, 2:04½, Searchlight, Dubuque, Iowa, Aug. 23, 1898; Be Sure, Terre Haute, Ind., Aug. 9, 1895, and Ananias, Terre Haute, Ind., Sept. 29, 1897.
1 mile, 5-year-olds—2:02¼, Braden Direct, Hartford, Conn., Sept. 1, 1913.
1 mile, double-gaited horses, 2:02½, Prince Loree, Syracuse, N. Y., Sept. 15, 1920.
1 mile, fastest two-heat race—1:58, 2:00, Directum, Columbus, O., Sept. 30, 1914.
1 mile, fastest three-heat race—2:02½, 2:00, 2:00, Directum, Syracuse, N. Y., Aug. 31, 1914.
1 mile, fastest four-heat race—2:00¼, 2:00¼, 2:00½, 2:05¼, Russell Boy, Lexington, Ky., Oct. 7, 1916. (Second heat taken by Braden Direct and third heat by Judge Ormonde.)
1 mile, fastest five-heat race—2:01½, 2:03½, 2:01½, 2:03½, 2:04¾, Evelyn W. and Earl Jr., Columbus, O., Oct. 3, 1912. (Evelyn W. won the first, third and fourth heats.)
1 mile, fastest six-heat race—2:03½, 2:03¼, 2:02½, 2:04¼, 2:03¾, 2:03¼, Russell Boy, Columbus, O., Sept. 30, 1915.
1 mile, fastest seven-heat race—2:00½, 2:02, 2:05¾, 2:08½, 2:06½, 2:06¼, 2:07½ (first two by Minor Heir, third by The Eel, fourth by Copa de Oro and last three by Jersey B.) Lexington, Ky., Oct. 6, 1908.
1 mile, fastest third heat in race—1:59½, Directum I., Lexington, Ky., Oct. 7, 1914.
1 mile, fastest seventh heat—2:05½, R. H. Brett, Columbus, O., Oct. 2, 1914.
1 mile, half-mile track—2:02, Dan Patch, Allentown, Pa., Sept. 21, 1905.

Pacing to Wagon.

1 mile—1:57¼, Dan Patch, Memphis, Tenn., Oct. 27, 1903; 1:59½, William, Syracuse, N.

Y., Sept. 16, 1915 (amateur driving); best three heats in race, 2:06¼, 2:04½, 2:06¼, Angus Pointer, Memphis, Tenn., Oct. 20, 1904 (Baron Grattan won first heat).

Teams to Pole.

¼ mile—:29¾, Hontas Crooke and Prince Direct, Cleveland, O., July 22, 1905.
½ mile—1:00¾, Prince Direct and Morning Star, Memphis, Tenn., Oct. 21, 1904.
1 mile—2:02, Minor Heir and George Gano, Columbus, O., Oct. 1, 1912.

BEST RUNNING RECORDS.

¼ mile—:21¼, Bob Wade, 4yrs. Butte, Mont., Aug. 20, 1890.
2½ furlongs—:29⅘, Nash Cash, 2yrs, 112lbs, Charleston, S. C., Feb. 5, 1912.
⅝ mile—:33½, Atoka, 6yrs, 105lbs, Butte, Mont., Sept. 7, 1906.
3½ furlongs—:39, Joe Blair, 5yrs, 115lbs, Juarez, Mex., Feb. 5, 1916.
½ mile—:46, Geraldine, 4yrs, 122lbs, straight course, Morris Park, Aug. 30, 1899; :46⅕, Donau, 2yrs, 115lbs, Los Angeles, Cal., March 13, 1909, and Amon, 2yrs, 115lbs, Juarez, Mex., Feb. 9, 1911.
4½ furlongs—:51⅗, Tanya, 2yrs, 107lbs, Morris Park, straight course, May 12, 1904.
5 furlongs—:56¾, Maid Marian, 4yrs, 111lbs, Morris park, straight course, Oct. 9, 1894.
5½ furlongs—1:02⅘, Plater, 2yrs, 107lbs, Morris park, straight course, Oct. 21, 1902; 1:03⅘, Iron Mask, 6yrs, 150lbs, Juarez, Mex., March 8, 1914.
6 furlongs, less 170 feet (Futurity course)—1:08, Kingston, aged, 139lbs, Sheepshead Bay, L. I., June 22, 1891.

20 miles—40:59, Little Cricket, changing horses at will, Minneapolis, Minn., Sept. 7, 1882.
50 miles—1:50:03½, Carl Pugh, ten horses, changing at will, match race, San Bernardino, Cal., July 7, 1883. Woman: 2:27:00, Miss Nellie Burke, Galveston, Tex., Feb. 24, 1884.
60 miles—2:33:00, George Osbaldiston, 11 horses, Newmarket, England, Nov. 5, 1831.
100 miles—4:19:40, George Osbaldiston, 16 horses, as above.

MAN O' WAR OUTRACES SIR BARTON.

Man o' War, the greatest 3 year old of 1920, won a match race with Sir Barton, the noted 4 year old, at Windsor, Ont., Oct. 12, 1920, for a purse of $75,000 and a gold cup valued at $5,000. The distance, 1¼ miles, was covered by the winner of the race in 2:03, a new Canadian record for the distance. Man o' War carried 120 pounds and Sir Barton 125. The race was witnessed by nearly 30,000 persons. It was not a close contest, Man o' War winning by eight full lengths.

YACHTING.

THE AMERICA'S CUP.

Record of Races.

1851—Aug. 22. In this, the year of the great exhibition in London, the Royal Yacht Club of England offered a cup to the winner of a yacht race around the Isle of Wight. The course was 60 miles in length. The race was won by the schooner yacht America, designed by George Steers for John C. Stevens of the New York Yacht club. The America was 94 feet over all, 88 feet on the water line, 22½ feet beam and 11½ feet draft. There was no time allowance and the competing yachts ranged in size from a three-masted 392-ton schooner, the Brilliant, to the 47-ton cutter the Aurora, which came in second in the race. The time of the America was 10 hours and 34 minutes; that of the Aurora was 24 minutes slower. The cup after that became known as the America's cup and has ever since been successfully defended.

1870—Aug. 8. New York Yacht club course; Magic, 3:58:21; Cambria, 4:37:38.

1871—Oct. 16, New York Yacht club course: Columbia, 6:19:41; Livonia, 6:46:45. Oct. 18, 20 miles to windward off Sandy Hook and return; Columbia, 3:07:41¾; Livonia, 3:18:15½. Columbia disabled in third race Oct. 19. Oct. 21, 20 miles to windward off Sandy Hook and return: Sappho, 5:39:02; Livonia, 6:09:23. Oct. 23, New York Yacht club course; Sappho, 4:16:17; Livonia, 5:11:55.

1876—Aug. 11, New York Yacht club course: Madeleine, 5:23:54; Countess of Dufferin, 5:34:53. Aug. 12, 20 miles to windward off Sandy Hook and return: Madeleine, 7:18:46; Countess of Dufferin, 7:46:00.

1881—Nov. 9, New York Yacht club course: Mischief, 4:17:00; Atalanta, 4:45:39¼, Nov. 10, 16 miles to leeward off Sandy Hook and return; Mischief, 4:54:53; Atalanta, 5:33:47.

1885—Sept. 14, New York Yacht club course; Puritan, 6:06:05; Genesta, 6:22:24. Sept. 16, 20 miles to leeward off Sandy Hook light and return; Puritan, 5:03:14; Genesta, 5:04:52.

1886—Sept. 9, New York Yacht club course; Mayflower, 5:26:41; Galatea, 5:38:43. Sept. 11, 20 miles to leeward off Sandy Hook light and return: Mayflower, 6:49:10; Galatea, 7:18:09.

1887—Sept. 27, New York Yacht club course: Volunteer, 4:53:18; Thistle, 5:12:41¾. Sept. 30, 20 miles to windward off Scotland light and return: Volunteer, 5:42:56¼; Thistle, 5:54:45.

1893—Oct. 7, 15 miles to windward off Sandy Hook light and return: Vigilant, 4:05:47; Valkyrie, 4:11:35. Oct. 9, triangular 30-mile course, first leg to windward: Vigilant, 3:25:01; Valkyrie, 3:35:36. Oct. 13, 15 miles to windward off Sandy Hook light and return; Vigilant, 3:24:39; Valkyrie, 3:25:19.

1895—Sept. 7, 15 miles to windward and return, east by south off Point Seabright, N. J.; Defender, 4:57:55; Valkyrie III., 5:08:44. Sept. 11, triangular course, 10 miles to each leg; Valkyrie III., 3:55:09; Defender, 3:55:56; won by Defender on a foul. Sept. 13 Defender sailed over the course and claimed cup and race; claim allowed.

1899—Oct. 16, 15 miles to windward and return, off Sandy Hook: Columbia, 4:53:53; Shamrock, 5:04:07. Oct. 17, triangular course, 10 miles to a leg: Columbia, 3:37:00; Shamrock snapped its topmast. Oct. 20, 15 miles to leeward and return: Columbia, 3:38:09; Shamrock, 3:43:26.

1901—Sept. 28, 15 miles to windward and return, off Sandy Hook: Columbia, 4:30:24; Shamrock II., 4:31:44. Oct. 3, triangular course: Columbia, 3:12:35; Shamrock II., 3:16:10. Oct. 4, 15 miles to leeward and return: Columbia, 4:32:57; Shamrock II., 4:33:38.

1903—Aug. 22, 15 miles to leeward and return, off Sandy Hook: Reliance, 3:31:17; Shamrock III., 3:41:17. Aug. 25, triangular course, 10 miles to leg; Reliance, 3:14:54; Shamrock III., 3:18:10. Sept. 3, 15 miles to windward and return: Reliance, 4:28:04; Shamrock III. did not finish.

1920—July 15, 15 miles to windward and return, off Sandy Hook; Shamrock IV., Royal Ulster Y. C. 4:24:48; Resolute, New York Y. C., disabled. July 17, 30 mile triangular course; race not finished within time limit. July 20, 30 mile triangular course: Shamrock 5:22:18; Resolute, 5:24:44 (corrected time). July 21, course south by west 30 miles; first leg 15 miles to windward, second leg return; Resolute, 3:56:05; Shamrock, 4:03:06 (corrected time), July 23, course 10 miles south-southwest, 10 miles east by north and 10 miles northwest-half-north: Resolute, 3:31:12; Shamrock, 3:41:10. July 26, race called off; no breeze. July 27, course 30 miles, 15 to windward and 15 to leeward; Resolute, 5:28:35; Shamrock, 5:48:20.

Owing mainly to a disagreement as to the proper size of the competing yachts no races were arranged after 1903 until 1913, when an agreement was reached between the New York Yacht club and the Royal Ulster club to hold a race in 1914. Sir Thomas Lipton sent over the Shamrock IV. as challenger for the cup, but the great war in Europe put a stop to all further proceedings until Oct. 5, 1919, when Sir Thomas renewed the challenge for a contest in 1920. This took place July 15-27, the result being another victory for America. The defending yacht was the Resolute, representing the New York Yacht club, and sailed by Capt. Charles Francis Adams. The skipper of the Shamrock IV. was W. P. Burton. The Resolute was given a time allowance of 7 minutes 1 second. The result of the several races is summarized above. It was the general opinion that the seamanship shown by the captain and crew of the American yacht was superior to that exhibited by Sir Thomas Lipton's men.

THE LIPTON CUP.

Record of Winners.

1902—La Rita, Chi.
1903—La Rita, Chi.
1904—Ste. Claire, Det.
1905—Ste. Claire, Det.
1906—Cherry Circle, Chicago.
1907—Cherry, Circle, Chicago.
1908—Chicago, Chi.
1909—Spray, Chicago.
1910—Spray, Chicago.
1911—Columbia, Chi.
1912—Susan II., Chi.
1913—Susan II., Chi.
1914-15-16—No races.
1917—Mebleh, Cleve.
1918—No race.
1919—Sari, Chicago.
1920—Rainbow, Chi.

THE LIPTON TROPHY.

Record of Winners.

Winner.	Time.
1910—Valmore	3:24:10
1911—Valmore	2:35:28

*Time not taken. Yale stroke oar collapsed at end of 2½ miles. †Wartime substitute race on 2 mile course on the Housatonic river near New Haven, Conn.

Of the above races the first two were rowed on the Springfield (Mass.) course and the remainder (except the 1918 race) on the New London course, which is four miles straightaway. There were no dual races in 1896, 1897 and 1898. The Harvard-Yale freshman and junior varsity races are rowed at the same time and place as the eight oared races.

Harvard-Yale Freshman Eights.

INTERUNIVERSITY RACES.

University Eight Oared.

In 1898 the race took place on Saratoga lake over a three mile course and the 1920 race on Cayuga lake, at Ithaca, N. Y., over a two mile course; the other contests were on the four mile course at Poughkeepsie, N. Y.

June 26, 1896—(1) Cornell, 19:59; (2) Harvard, 20:08; (3) Pennsylvania, 20:18; (4) Columbia, 21:25.

June 25, 1897—(1) Cornell, 20:34; (2) Yale, 20:44; (3) Harvard, 21:00.

July 2, 1897—(1) Cornell, 20:47⅘; (2) Columbia, 21:20⅘; (3) Pennsylvania, swamped.

July 2, 1898—(1) Pennsylvania, 15:51⅕; (2) Cornell, 16:06; (3) Wisconsin, 16:10; (4) Columbia, 16:21.

June 27, 1899—(1) Pennsylvania, 20:04; (2) Wisconsin, 20:05½; (3) Cornell, 20:13; (4) Columbia, 20:20.

June 30, 1900—(1) Pennsylvania, 19:44⅘; (2) Wisconsin, 19:46⅘; (3) Cornell, 20:04⅕; (4) Columbia, 20:08⅕; (5) Georgetown, 20:19⅕.

July 2, 1901—(1) Cornell, 18:53⅕; (2) Columbia, 18:58; (3) Wisconsin, 19:06⅘; (4) Georgetown, 19:21; (5) Syracuse, distanced; (6) Pennsylvania, distanced.

June 21, 1902—(1) Cornell, 19:05⅗; (2) Wisconsin, 19:13⅗; (3) Columbia, 19:18⅘; (4) Pennsylvania, 19:26; (5) Syracuse, 19:31⅘; (6) Georgetown, 19:32.

June 26, 1903—(1) Cornell, 18:57; (2) Georgetown, 19:27; (3) Wisconsin, 19:29⅘; (4) Pennsylvania, 19:30⅘; (5) Syracuse, 19:36½; (6) Columbia, 19:54.

June 28, 1904—(1) Syracuse, 20:22⅘; (2) Cornell, 20:31½; (3) Pennsylvania, 20:32⅘; (4) Columbia, 20:45⅘; (5) Georgetown, 20:52⅘; (6) Wisconsin, 21:01⅘.

June 28, 1905—(1) Cornell, 20:29⅘; (2) Syracuse, 21:47⅘; (3) Georgetown, 21:49; (4) Columbia, 21:53⅘; (5) Pennsylvania, 21:59⅘; (6) Wisconsin, 22:06⅕.

June 23, 1906—(1) Cornell, 19:36⅘; (2) Pennsylvania, 19:43⅘; (3) Syracuse, 19:45½; (4) Wisconsin, 20:13⅘; (5) Columbia, 20:18⅘; (6) Georgetown, 20:35.

June 26, 1907—(1) Cornell, 20:02⅘; (2) Columbia, 20:04; (3) Navy, 20:13⅘; (4) Pennsylvania, 20:33⅘; (5) Wisconsin (no time); (6) Georgetown (no time); (7) Syracuse (shell sunk).

June 27, 1908—(1) Syracuse, 19:34½; (2) Columbia, 19:35⅕; (3) Cornell, 19:39; (4) Pennsylvania, 19:52⅘; (5) Wisconsin, 20:00⅘.

July 2, 1909—(1) Cornell, 19:02; (2) Columbia, 19:04⅘; (3) Syracuse, 19:15⅘; (4) Wisconsin, 19:24½; (5) Pennsylvania, 19:32⅘.

June 26, 1910—(1) Cornell, 20:42⅘; (2) Pennsylvania, 20:44½; (3) Columbia, 20:54⅕; (4) Syracuse, 21:13; (5) Wisconsin, 21:15⅘.

June 27, 1911—(1) Cornell, 20:10⅘; (2) Columbia, 20:16⅘; (3) Pennsylvania, 20:33; (4) Wisconsin, 20:34; (5) Syracuse, 21:03⅘.

June 29, 1912—(1) Cornell, 19:21⅘; (2) Wisconsin, 19:25; (3) Columbia, 19:41⅘; (4) Syracuse 19:47; (5) Pennsylvania, 19:55; (6) Stanford, 20:25.

June 21, 1913—(1) Syracuse, 19:28⅘; (2) Cornell, 19:31; (3) Washington, 19:33; (4) Wisconsin, 19:36; (5) Columbia, 19:38½; (6) Pennsylvania, 20:11⅘.

June 26, 1914—(1) Columbia, 19:37⅘; (2) Pennsylvania, 19:41; (3) Cornell, 19:44½; (4) Syracuse, 19:59⅘; (5) Washington, 20:01⅘; (6) Wisconsin, 20:20.

June 28, 1915—(1) Cornell, 20:36⅘; (2) Leland Stanford, 20:37⅕; (3) Syracuse, 20:43⅘; (4) Columbia, 21:00; (5) Pennsylvania, 21:10⅕.

June 17, 1916—(1) Syracuse, 20:15⅘; (2) Cornell, 20:22⅘; (3) Columbia, 20:41½; (4) Pennsylvania, 20:52⅘.

1917, 1918 and 1919—No races.

June 19, 1920—(1) Syracuse, 11:02⅘; (2) Cornell, 11:21⅕; (3) Pennsylvania, 11:30.

Four Oared Races.

Poughkeepsie course, two miles.

July 2, 1901—(1) Cornell, 11:39⅘; (2) Pennsylvania, 11:45⅘; (3) Columbia, 11:51⅘.

June 21, 1902—(1) Cornell, 10:43⅘; (2) Pennsylvania, 10:54⅘; (3) Columbia, 11:08.

June 26, 1903—(1) Cornell, 10:34; (2) Pennsylvania, 10:35⅘; (3) Wisconsin, 10:55⅘; (4) Columbia, 11:14.

June 28, 1904—(1) Cornell, 10:53⅘; (2) Columbia, 11:12⅕; (3) Pennsylvania, 11:15⅘; (4) Wisconsin, 11:18⅘; (5) Georgetown, 11:34⅘.

June 28, 1905—(1) Syracuse, 10:15⅘; (2) Cornell, 10:17⅘; (3) Pennsylvania, 10:33⅘; (4) Columbia, 10:45; (5) Wisconsin, 10:52.

June 28, 1906—(1) Cornell, 10:34; (2) Syracuse, 10:48⅘; (3) Columbia, 10:55⅘; (4) Pennsylvania, 11:06⅘.

June 26, 1907—(1) Syracuse, 10:37½; (2) Cornell, 10:40; (3) Pennsylvania, 10:49; (4) Columbia, 10:59⅘.

June 27, 1908—(1) Syracuse, 10:52⅘; (2) Columbia, 11:06⅘; (3) Pennsylvania (disqualified for foul), 10:57⅘. (Cornell did not finish.)

July 2, 1909—(1) Cornell, 10:01; (2) Syracuse, 10:10; (3) Columbia, 10:12; (4) Pennsylvania, 10:27.

June 26, 1910—(1) Cornell, 11:37⅘; (2) Syracuse, 11:43⅘; (3) Columbia, 11:48⅕; (4) Pennsylvania, 12:22.

June 27, 1911—(1) Cornell; (2) Syracuse; (3) Columbia; (4) Pennsylvania. No official time taken.

June 29, 1912—(1) Cornell, 10:34½; (2) Columbia, 10:41½; (3) Syracuse, 10:58⅘; (4) Pennsylvania, 11:23⅘.

June 21, 1913—(1) Cornell, 10:47⅘; (2) Pennsylvania, 10:52½; (3) Columbia, 10:54⅘; (4) Wisconsin, 10:58⅘; (5) Washington, 12:08⅘; (6) Syracuse (no time taken).

June 26, 1914—(1) Cornell, 11:15⅘; (2) Columbia, 11:25⅘; (3) Pennsylvania, 11:33⅘; (4) Syracuse, 11:50⅘.

(Four oared event discontinued after 1914.)

Junior Eights.

Poughkeepsie course, two miles.

June 28, 1915—(1) Cornell, 10:00½; (2) Pennsylvania, 10:05; (3) Columbia, 10:07⅘.

June 17, 1916—(1) Syracuse, 11:15⅕; (2) Cornell, 11:20; (3) Columbia, 11:21; (4) Pennsylvania, 12:06⅕.
1917, 1918 and 1919—No races.
June 19, 1920*—(1) Cornell, 10:45⅘; (2) Syracuse, 10:53; (3) Pennsylvania, 11:14⅘; (4) Columbia, 11:17.

*Rowed on Cayuga lake at Ithaca, N. Y.

University Freshman Eights.

Poughkeepsie course, two miles.

June 30, 1900—(1) Wisconsin, 9:45⅘; (2) Pennsylvania, 9:54⅘; (3) Cornell, 9:55⅕; (4) Columbia, 10:08.

1915-1919—No races on account of war.		
1920 (March 27)	Cambridge	21:11

Note—The race of 1920 was the seventy-first in the history of the event. The first contest took place in 1845.

NATIONAL ASSOCIATION REGATTA.

The forty-sixth annual regatta of the National Association of Amateur Oarsmen took place on Lake Quinsigamond, at Worcester, Mass., July 23-24, 1920, with the following results:

Intermediate eight oared shells—Won by U. S. Naval academy. Time, 6:57.
Association single shells—Won by Louis Zoha, First Bohemian R. C., New York. Time, 8:47.
Senior international four oared shells—Won by the Pennsylvania Barge club, Philadelphia. Time, 7:16.
Senior quarter mile dash—Won by John B. Kelly, Vesper B. C., Philadelphia. Time, 1:27⅕.
Intermediate four oared shells—Won by Duluth B. C. Time, 7:35.
Junior eight oared shells—Won by Duluth B. C. Time, 6:58⅖.
Intermediate single sculls—Won by E. E. Murphy, New Rochelle R. C. Time, 8:52⅕.
Senior eight oared shells—Won by U. S. Naval academy. Time, 6:20.
Senior four oared shells—Won by Pennsylvania Barge club. Time, 7:14.
Senior double sculls—Won by Vesper B. C., Philadelphia. Time, 7:44.
Championship single sculls—Won by John B. Kelly, Vesper B. C., Philadelphia. Time, 7:51.
Senior quadruple shell championship—Won by Undine Barge club, Philadelphia. Time, 6:54.
Intermediate two oared sculls—Won by Lone Star B. C., New York. Time, 8:05.

AMERICAN ROWING ASSOCIATION REGATTA.

The sixteenth annual regatta of the American Rowing association took place at Philadelphia, Pa., on the 1 mile 550 yard straightaway course on the Schuylkill river May 29, 1920. Summary:

Stewards challenge cup—Won by U. S. Naval academy. Time, 6:30⅕.
Freshmen eight oared shells—Won by Princeton, Time, 6:30⅘.
Junior collegiate eight oared shells—Won by U. S. Naval academy. Time, 6:31⅖.
Special eight oared shells (150 pound class)—Won by University of Pennsylvania. Time, 6:43⅗.
First four oared shells—Won by Undine Barge club, Philadelphia. Time, 7:48⅘.

First double sculls—Won by Vesper B. C., Philadelphia. Time, 7:19⅘.
New England challenge cup—Won by U. S. Naval academy. Time, 6:31⅘.
Interclub eight oared shells—Won by Undine B. C. Time, 7:05.

CENTRAL ASSOCIATION REGATTA.

The annual regatta of the Central States Amateur Rowing association was held on Lake Michigan, north of the municipal pier, Chicago, July 8-10, 1920. Winners in the principal senior events:
¾ mile barge race—Won by Central Rowing club, St. Louis. Time, 4:40.
Single shell, 1½ miles—Won by Kortlander, Grand Rapids. Time, 12:07.
Four oared shells, 1½ miles—Won by Illinois Valley Yacht and Canoe club. Time, 10:40.
Double shells, 1½ miles—Won by Grand Rapids Boat and Canoe club. Time, 11:10.
½ mile dash for fours—Won by Mound City B. C., St. Louis. Time, 2:55.
Eight oared shells, 1¼ miles—Won by Lincoln Park B. C., Chicago. Time, 6:33⅘.
The Lincoln Park B. C. won the regatta with 23½ points. The Grand Rapids Boat and Canoe club was second with 15½ points.

Canoeing.

In connection with the Central States Amateur Rowing association's annual regatta at Chicago a number of canoe races were rowed on July 10. Winners:
One man single blade—Won by L. S. Coombs, Lincoln Park B. C. No time taken.
Two man single blade—Won by Lincoln Park B. C. No time taken.
Four man single blade—Won by Lincoln Park B. C. No time.
Canoe jumping—Won by W. H. Young, Grand Rapids B. C.
Tailend race—Won by L. B. Knudsen, Grand Rapids, B. C.
Crab race, four men—Won by Columbia Canoe club.
Canoe tilting—Won by Lincoln Park B. C
Canoe sailing, class A, 4½ miles—Won by F. C. Black, Columbia C. C. Time, 51:00.
Class B—Won by C. E. Packer, South Shore. Time, 53:00.
Class C—Won by L. S. Coombs, Lincoln Park B. C. Time, 1:20:00.
The Lincoln Park Boat club led with 31 points.

BRITISH HENLEY.

At Henley-on-Thames, England, July 3, 1920, Magdalen college, Oxford, defeated the Leander eight oared crew in the final race for the grand challenge cup by two lengths in 7:24. The final in the diamond sculls was won by J. Beresford, Jr., who defeated D. H. L. Gollan in 8:57. In the race for the Stewards' challenge cup the crew of Magdalen college beat the Thomas Rowing club by five lengths. The time was 8:03.
The race for the Visitors' Challenge cup was won by Merton college, Oxford, which beat King's college, London, by three lengths. The time was 28:26.

CHARLES RIVER REGATTA.

Rowing over a Henley course of 1⅞ miles on the Charles river at Cambridge, Mass., May 1, 1920, the Princeton varsity crew defeated the Harvard and Pennsylvania crews in 9:47. Harvard was defeated by three-quarters of a length, while Pennsylvania was three lengths behind. Harvard's time was 9:50. Princeton also won the freshman race in 10:24, defeating Harvard by half a length. The Harvard junior eight defeated Princeton by one-third of a length in 10:07½.

SYRACUSE VS. ANNAPOLIS.

Naval academy and Syracuse eights rowed two races over a mile course on the Severn river at Annapolis, Md., May 15, 1920, each taking one contest. The Syracuse crew took the varsity race in 10:20½, while in second varsity race the navy won in 10:21. Both races were very close, the winning crew in each instance having a margin of only seven feet.

SYRACUSE VS. DULUTH.

The Syracuse university's senior eight defeated the Duluth Boat club's eight on St. Louis bay, Duluth, July 19, 1920, by two feet in a mile and quarter race. Time, Syracuse, 6:17; Duluth, 6:17½.

YALE VS. COLUMBIA.

On the Housatonic river course of 2 miles at Derby, Conn., April 24, 1920, the Yale varsity crew defeated the Columbia varsity crew by two and a quarter lengths in 10:07⅘, a new record for the course. The race for junior shells was also won by Yale in 11:21⅘. Columbia being only half a length behind.

ANNAPOLIS VS. COLUMBIA.

At Annapolis, Md., May 8, 1920, the three naval academy crews defeated the same number of Columbia university crews. The naval varsity eight won by five lengths in 7:19, the middy seconds by seven lengths in 7:25⅘ and the "plebes" by ten lengths in 7:49½.

ANNAPOLIS VS. HARVARD.

On the two-mile course on the Severn river at Annapolis, Md., April 26, 1920, the Naval academy crews defeated Harvard university in three races. The navy varsity eight won by four lengths, the second crew by five and a half lengths and the "plebes" by four lengths. Official time:
Navy varsity, 11:48; Harvard, 12:05.
Navy second crew, 12:15; Harvard second varsity, 12:38.
Navy plebes, 12:24; Harvard freshmen, 12:40.

REGATTA AT PRINCETON.

In a triangular regatta at Princeton, N. J., Cornell's varsity eight defeated the Yale and Princeton eight in 9:16, while the Cornell freshmen defeated crews from the same schools in 9:30. Princeton won the junior varsity race from Yale, Cornell not competing.

CORNELL VS. HARVARD.

The Cornell and Harvard university and freshman eights met in two two-mile races on Lake Cayuga, Ithaca, May 22, 1920, Cornell winning both events. The time in the varsity event was: Cornell, 10:47; Harvard, 10:58. The time in the freshman race was: Cornell, 10:50; Harvard, 11:57.

YALE VS. PENNSYLVANIA.

Yale's varsity and junior varsity eight oared shell crews defeated the University of Pennsylvania crews on the Schuylkill river Henley course of 1 mile 550 yards at Philadelphia Pa., April 3, 1920. In the varsity race the time was: Yale, 6:44; Pennsylvania, 6:47⅘. In the junior race the time was: Yale, 7:00⅘; Pennsylvania, 7:07⅘.

UNIVERSITY OF CALIFORNIA VS. LELAND STANFORD, JR.

In the annual regatta at Berkeley, Cal., April 17, 1920, the University of California defeated the Leland Stanford, Jr., university in three races. In the first varsity race California won by two lengths in 16 minutes 24 seconds. The California second varsity crew won by four lengths from Stanford and the California freshmen won by more than one length. The course was three miles.

ROWING RECORDS.

¼ mile—*:57, single scull, straightaway, Edwin Henley, Newark, N. J., July 11, 1901.
½ mile—*2:08⅘, single scull, straightaway, Edwin Henley, Newark, N. J., July 11, 1893.
1 mile—4:28, single scull, straightaway, James Stansbury, with tide, Thames river, England, July 11, 1896; *4:48, single scull, straightaway, Rupert Guiness, Thames river, England, 1893.
2 miles—*9:18, eight oars, straightaway, Cornell freshmen, Poughkeepsie, N. Y., June 26, 1903.
3 miles—*14:27⅘, eight oars, straightaway, Cornell varsity, New London, Conn., June 25, 1891.
4 miles—*18:53⅘, straightaway, eight oars, Cornell university, Poughkeepsie, N. Y., July 2, 1901.
*Performance by amateurs.

POWER BOAT RACING.

GOLD CHALLENGE CUP WINNERS.

Year.	Boat.	Speed.
1904	Standard	23.6
1904	Vingt-et-un	25.3
1905	Chip	15.9*
1906	Chip II	20.6*

1914	Baby Speed Demon	50.49
1915	Miss Detroit	48 5
1916	Miss Minneapolis	49.7
1917	Miss Detroit II	56.5
1918	Miss Detroit III	52.0
1919	Miss Detroit III	55.0
1920	Miss America	71.4

*Winner on corrected time.

SWIMMING.

NATIONAL A. A. U. CHAMPIONSHIPS.

Indoor.

Plunge for distance—Won by Fred Schwedt of the Detroit Y. M. C. A., in the Pittsburgh, Pa., natatorium, March 1, 1920. Distance, 82 feet 9 inches (world's record).
100 yards, senior—Won by Ted Cann, Detroit A. C., at Brookline, Mass., public baths, March 11. Time, :53⅘.
500 yards—Won by Buddy Wallen, I. A. C., at the Great Lakes naval training station, March 24. Time, 6:14⅘.
50 yards—Won by Tedd Cann, Detroit A. C., in Chicago A. A. tank, March 31. Time, :24.
Fancy diving, junior—Won by P. E. Young, Cleveland A. A., in Chicago A. A. tank, March 31. Score, 131 points.
200 yards, breast stroke—Won by Herb Taylor, C. A. A., in I. A. C. tank, Chicago, April 1. Time, 2:44⅘.
400 yards, relay, women—Won by I. A. C. first team in I. A. C. tank, Chicago, April 1. Time, 5:43⅘.
400 yards, relay, junior, women—Won by Women's Swimming association, New York, in Detroit A. C. tank, April 10. Time, 5:03⅘.
220 yards—Won by Ted Cann, Detroit A. C., in Detroit A. C. tank, April 10. Time, 2:31⅘ (world's record).
Fancy diving, senior—Won by Clyde Swenson, Los Angeles A. C., in Los Angeles, Cal., April 23. Points, 153.91.
400 yards, relay, senior—Won by Illinois Athletic club in Olympic club tank, San Francisco, Cal., April 28.
150 yards, back stroke—Won by Perry McGillivray in the Indianapolis A. C. tank, May 15. Time, 1:48⅘ (equal to world's record). The Illinois A. C. finished the indoor season in first place, with 33 points to its credit. Teddy Cann was the greatest individual winner, having 15 marks.

Outdoor.

10 miles—Won by Eugene Bolden, Illinois A.C., at Philadelphia, Pa., July 18. Time, 2:09:11.
1 mile, women—Won by Ethelda Bleibtrey, New York Women's Swimming association, at Rye beach, N. Y., July 5. Time, 32:25⅘.

CENTRAL A. A. U. CHAMPIONSHIPS.

Indoor—Men.

880 yards—Won by Louis Scherer, C. A. A., in I. A. C. tank, Chicago, Jan. 8. Time, 13:51⅘.
100 yards, senior—Won by Perry McGillivray, I. A. C., in Hamilton club tank, Chicago, Jan. 17. Time, :55⅘.
50 yards, junior—Won by G. Elliott, C. A. A., in Hamilton club tank, Chicago, Jan. 17. Time, :25⅘.
100 yards, breast stroke, junior—Won by A. Ortlepp C. A. A., in Hamilton club tank, Chicago, Jan. 17. Time, 1:12⅘.
50 yards, senior—Won by Perry McGillivray, I. A. C., in the Chicago A. A. tank, Chicago, Jan. 28. Time, :23⅘.
Fancy diving—Won by W. P. Heyn, I. A. C., in the I. A. C. tank, Chicago, Feb. 6, with 700 points.
440 yards, senior—Won by W. L. Wallen, I. A. C., at Duluth, Minn., Feb. 16. Time, 5:37⅘.
100 yards, free style, junior—Won by Jack Gow, Duluth, at Duluth, Feb. 16. Time, 1:03.
1 mile, senior—Won by Clement Browne, Chicago A. A., in Minneapolis A. C. tank, Feb. 17. Time, 23:03⅘ (world's record).
Plunge for distance in 60 foot tank—Won by Bert Princell, Chicago A. A., in Minneapolis A. C. tank, Feb. 17. Time, :20⅘.
100 yards, back stroke, junior—Won by Fergus, Chicago A. A., in Minneapolis A. C. tank, Feb 17. Time 1:13⅘.
220 yards, senior—Won by Clement Browne, Chicago A. A., at Great Lakes naval station, Feb. 18. Time, 2:27
220 yard, junior—Won by Pickell, C. A. A., at Great Lakes naval station, Feb. 18. Time, 2:41⅘.
400 yards, relay—Won by I. A. C. team in the C. A. A. tank, Chicago, Feb. 25. Time, 3:49.
150 yards, back stroke—Won by Perry McGillivray, I. A. C., in the C. A. A. tank, Chicago, Feb. 25. Time, 1:48⅘.
Water polo—Won by I. A. C. team in I. A. C. tank, Chicago, March 4. Score, 7 goals to 4 for the C. A. team.

The Illinois Athletic club won the 1920 indoor championship of the Central A. A. U., with a total of 63 points to 57 for the Chicago Athletic association, 7 for the Great Lakes, 3 for the St. Paul A. C. and 1 each for the Duluth Boat club and the Minneapolis A. C.

Indoor—Women.

50 yards, breast stroke—Won by Miss Edna O'Connell, I. A. C., in I. A. C. tank, Chicago, Jan. 8. Time, :44⅘.
100 yards—Won by Miss Lois Barry, Milwaukee A. C. in I. A. C. tank, Jan 8. Time, 1:20⅘.
Plunge for distance—Won by Miss Jean Feinboldt, I. A. C., in I. A. C. tank, Jan. 8. Distance, 52 feet.
Plunge for distance, senior—Won by Mrs. Mitchell, Detroit A. C., in I. A. C. tank, Chicago, Feb. 5. Distance, 54 feet.
50 yards, back stroke, senior—Won by Miss Sybil Bauer, Chicago, in A. A. C. tank, Chicago, Feb 5. Time, :37⅘ (world's record for women).

50 yards, breast stroke, senior—Won by Miss Essie Harrison, Detroit A. C., in I. A. C. tank, Chicago, Feb. 5. Time, :41⅘.
440 yards, senior—Won by Miss Margaret Woodbridge, Detroit A. C., in I. A. C. tank, Chicago, Feb. 5. Time, 6:53.
100 yards—Won by Miss Betty Grimes, Minneapolis, Minn., at Duluth, Feb. 16. Time, 1:20⅘.
220 yards, senior—Won by Jean Irvine, Duluth, in Minneapolis A. C. tank, Feb. 17. Time, 3:49⅘.

Outdoor.

50 yards—Won by Stegel, I. A. C., at Edgewater beach, Chicago, July 3. Time :25⅘.
100 yards, back stroke—Won by Kane, Great Lakes, at Edgewater beach, Chicago, July 3. Time, 1:28.
220 yards—Won by Ross, I. A. C., at Edgewater beach, Chicago, July 3. Time, 2:51⅘.
1 mile—Won by Kahele, Great Lakes, at Edgewater beach, Chicago, July 3. Time, 31:50.
100 yards—Won by Jone, I. A. C., at Edgewater beach, Chicago, July 3. Time, 1:22.
880 yards—Won by Wallen, I. A. C., at Edgewater beach, Chicago, July 3. Time, 14:58.
400 yards, relay—Won by I. A. C. team, at Edgewater beach, Chicago, July 3. Time, 4:19⅘.
440 yards, free style—Won by L. Scherer, unattached, at Lincoln park lagoon, Sept. 6. Time, 6:42.
Fancy diving—Won by F. A. Bingham, I. A. C., at Lincoln park lagoon, Sept. 6.
440 yards (women)—Won by Sybil Bauer, at Lincoln park lagoon, Sept. 6. Time, 1:56.
440 yards (women), free style—Won by Florence Gaither, I. A. C., at Lincoln park lagoon, Sept. 6. Time, 7:27.

CONFERENCE CHAMPIONSHIPS.

The team representing the Northwestern university won the annual swimming championships of the western conference colleges at the Patten gymnasium, Evanston, March 19, 1920, with a total of 34 points. Chicago was second with 32 points and Illinois third with 14. The other contestants ranked as follows: Wisconsin, 9; Purdue, 8; Iowa, 1; Minnesota, 1. In the 100 yard free style swim Capt. Ries of Chicago won in :58⅘, breaking the former conference record of :59, made by Walter Earle in 1918.

CHICAGO RIVER SWIM.

The thirteenth annual Chicago river swim under the auspices of the Illinois Athletic club took place July 17, 1920. It was won by Norman Ross, I. A. C., in 31:54. F. K. Kahele, U. S. N., was second. The distance was approximately two miles. Record of winners and time:

1908—S. C. Jensen, I. A. C.....44:41⅘
1909—H. J. Handy, I. A. C.....36:12⅘
1910—Perry McGillivray, I. A. C.....38:03
1911—Joseph Steuer, unattached.....43:21
1912—W. R. Vosburg, Univ. of Ill....1:03:22
1913—Perry McGillivray, I. A. C.....46:54⅘
1914—Perry McGillivray, I. A. C.....40:02
1915—No contest account Eastland disaster.
1916—W. L. Wallen, Hamilton club....35:17
1917—W. L. Wallen, Hamilton club....35:55
1918—P. McGillivray, Great Lakes.....33:44
1919—W. L. Wallen, I. A. C.....30:28⅘
1920—Norman Ross, I. A. C.....31:54

Note—Prior to 1912 the course used was about 1½ miles in length; in 1912 it was 2¾ miles, in 1913, 2 miles; in 1914, 1¾ miles; in 1916, 2½ miles; in 1918, 2 miles; in 1919, 1⅘ miles; in 1920, 2 miles.

RECORDS MADE BY MISS BLEIBTREY.

Some remarkable records in swimming were made by Miss Ethelda Bleibtrey of Brooklyn, N. Y., in 1920. Among them were the following: 500 yards, outdoor, four turns, at New York, July 3, in 7:22⅘; 300 yards, same conditions, time and place, in 4:18⅘; 300 meters, at Manhattan beach, July 14, in 4:34⅕; 100 yards, at Willow Grove, Pa., July 17, in 1:05⅕; 220 yards, at Manhattan beach baths, July 24, in 2:55⅘; 100 meters, free stroke, at Antwerp, Aug. 25, in 1:13⅘; 300 meters, free stroke, at Antwerp, Aug. 28, in 4:34.

WORLD'S SWIMMING RECORDS.

25 yards—:11.3, Duke Kahanamoku (U. S.).
40 yards—:18⅘, Perry McGillivray (U. S.).
50 yards—:23, Duke Kahanamoku (U. S.).
60 yards—:29⅕, Duke Kahanamoku (U. S.).
75 yards—:38⅘, Duke Kahanamoku (U. S.) and Robert Small (U. S.).
100 yards—:54, Perry McGillivray (U. S.).
110 yards—1:02⅘, H. Hebner (U. S.).
120 yards—1:08⅘, Perry McGillivray (U. S.)
150 yards—1:29⅘, H. E. Vollmer (U. S.).
200 yards—2:06⅘, Norman Ross (U. S.).
220 yards—2:19, Norman Ross (U. S.).
300 yards—3:16⅘, Norman Ross (U. S.).
440 yards—5:08⅘, Norman Ross (U. S.).
500 yards—5:53⅘, Norman Ross (U. S.).
880 yards—11:11⅘, B. Kieran (Aus.).
1 mile—22:58, Norman Ross (U. S.).
2 miles—54:54, George Read (Aus.).

AMERICAN SWIMMING RECORDS.

25 yards—:11.3, Duke Kahanamoku.
40 yards—:19, A. C. Raithel, I. A. C.
50 yards—:23.4, Duke Kahanamoku.
75 yards—:38.4, Duke Kahanamoku.
80 yards—:41⅘, P. McGillivray, I. A. C.
100 yards—:54, P. McGillivray, I. A. C.
120 yards—1:07⅘, Norman Ross, O. A. C.
150 yards—1:29⅘, H. E. Vollmer, N. Y. A. C.
200 yards—2:04, Norman Ross, O. A. C.
220 yards—2:19, Norman Ross, O. A. C.
250 yards—2:53⅘, P. McGillivray, I. A. C.
300 yards—3:16⅘, Norman Ross, O. A. C.
330 yards—3:54, W. L. Wallen, I. A. C.
440 yards—5:08⅘, Norman Ross, O. A. C.
500 yards—5:53⅘, Norman Ross, O. A. C.
880 yards—11:14⅘, H. J. Hebner, I. A. C.
1 mile—22:58, Norman Ross, I. A. C.
100 yards back stroke—1:07⅘, Perry McGillivray, I. A. C.
100 yards, breast stroke—1:11⅘, M. McDermott, I. A. C.
150 yards, back stroke—1:48⅘, Perry McGillivray, I. A. C.
160 yards, relay—1:17, I. A. C. team (P. McGillivray, A. C. Raithel, R. B. Foster, H. J. Hebner).
200 yards, relay—1:41, Yale team.
200 yards, breast stroke—2:36⅘, Lester White, Hamilton club.
500 yards, relay—4:40⅘, I. A. C. team (Perry McGillivray, William Vosburgh, A. C. Raithel, Harry Hebner, D. C. Jones).
400 yards, relay—3:42⅘, I. A. C. team (A. C. Raithel, Perry McGillivray, William Vosburgh, H. Hebner).
Plunge for distance (1 minute time limit)—75 feet in :40; Richard H. Meagher, Chicago; 60 feet in :18, D. V. A. Smith and Ben Princell, Chicago.
Under water swim—320 feet, E. P. Swatek, I. A. C.

WRESTLING.

STECHER VS. LEWIS.

In a match lasting 3 hours 4 minutes and 15 seconds Joe Stecher successfully defended his title as champion wrestler of the world by defeating at the 71st regiment armory in New York, April 16, 1920, Ed ("Strangler") Lewis. He succeeded in pinning Lewis' shoulders to the mat by means of a combination head scissors and arm lock after he had thrown him bodily to the canvas.

ICE SKATING.

INTERNATIONAL AMATEUR CHAMPIONSHIPS.

The international amateur ice skating championships were decided at Lake Placid, N. Y., Feb. 18-20, 1920. In the men's senior events the final standing was as follows: Everett McGowan, St. Paul, 120; Joe Moore, Lake Placid, 100; Edmund Horton, Saranac Lake, 70; Charles Jewtraw, Lake Placid, 60; Roy McWhirter, Chicago, M. Goodman, Winnipeg, and George Pickering, Verona Lake, N. J., 20 each; Robert Hearn, New York, 10.

In the women's events the leading point winners were: Rose Johnson, Chicago, 110; Esmeralda Dunlap, Chicago, 70; Gladys Robinson, Toronto, 30; Elsie Muller, Hastings-on-the-Hudson, Lillian Herman, St. Paul, and Cecilia Carey, Cleveland, 10 each.

Winners of the principal events of the meet follow:

½ mile—Everett McGowan, St. Paul, Minn. Time, 1:23⅘.
1 mile—Everett McGowan. Time, 3:02⅘.
440 yards—Joe Moore, Lake Placid, N. Y. Time, :39⅕.
2 miles—Everett McGowan. Time, 6:08⅘.
220 yards—Joe Moore. Time, :20.
220 yards, hurdles—Ed Horton, Saranac Lake, N. Y. Time, :24⅘.
3 miles—Everett McGowan. Time, 9:17⅘.
880 yards, women—Rose Johnson, Chicago. Time, 1:50.
220 yards, women—Rose Johnson. Time, :25.
100 yards, women—Rose Johnson. Time, :12⅘.
440 yards—Esmeralda Dunlap, Chicago. Time, :48⅘.

NATIONAL CHAMPIONSHIPS.

The national skating championships of 1920 were decided at Saranac Lake, N. Y., Jan. 27-29. The winners were:

220 yard—John Hoerig, Cleveland, O. Time, :21⅕.
1 mile—W. Murphy, New York, N. Y. Time, 3:11⅘.
880 yard—Roy McWhirter, Chicago, Ill. Time, 1:22⅘.
2 miles—Everett McGowan, St. Paul, Minn. Time, 6:14⅘.
440 yards—Edmund Horton, Saranac Lake, N. Y. Time, :39⅕.
3 miles—Roy McWhirter, Chicago, Ill. Time, 9:16⅘.
220 yard hurdles—Edmund Horton, Saranac Lake, N. Y. Time, :23.

In points Roy McWhirter of Chicago and Everett McGowan of St. Paul were tied for the national skating title, each having 80.

NORTHWESTERN CHAMPIONSHIPS.

The Northwestern Indoor Amateur Skating association's championship tournament took place in the Hippodrome rink, St. Paul, Minn., Feb. 28-29, 1920. Everett McGowan of St. Paul took three of the first places in the four main events and won the championship with a total of 90 points. Charles Jewtraw and Joe Moore of Lake Placid, N. Y., tied for second place with 60 points each. Rose Johnson of Chicago, who led in the women's events, broke the world's record for her sex in the quarter mile race, making the distance in 45 seconds. She also won the women's half mile race in 1:43. Winners in the men's senior events:

¼ mile—Won by E. McGowan, St. Paul, Minn. Time, 38 seconds.
½ mile—Won by McGowan. Time, 1:20⅘.
1 mile—Won by McGowan. Time, 2:38.
2 miles—Won by Charles Jewtraw, Lake Placid, N. Y. Time, 6:00⅘.

WESTERN AMATEUR CHAMPIONSHIPS.

The championship skating races of the All-Western Skating association took place in Washington park, Milwaukee, Wis., Feb. 9, 1920. In points the Norwegian-American A. C. of Chicago led with 19. The Alverno A. A. of Chicago was second with 8 and the Illinois A. C. of Chicago and Washington Park of Milwaukee were tied for third place with 7 points each. Summary of winners:

220 yards—Won by Everett McGowan of St. Paul, Minn. Time, :23.
440 yards—Won by William Steinmetz, Norwegian-American A. C., Chicago, Ill. Time, .46.
880 yards—Won by William Steinmetz. Time, 1:42.
1 mile—Won by William Steinmetz. Time, 3:26.

EASTERN AMATEUR CHAMPIONSHIP.

In the eastern amateur ice skating championship tournament held at Newburgh, N. Y., Jan. 1, 1920, Charles Jewtraw of Lake Placid, N. Y., carried off the honors. The championship races resulted as follows:

¼ mile—Won by Charles Jewtraw; G. Pickering, Verona Lake, N. Y., second; J. Walker, Saranac Lake, N. Y., third. Time, :43⅕.
½ mile—Won by Jewtraw; Ray Bryant, Lake Placid, second; Pickering third. Time, 1:30.
1 mile—Won by Jewtraw; Joe Moore, Lake Placid, second; R. Wheeler, Montreal, third. Time, 3:13⅕.

SLEIPNER SKATING DERBY.

The twenty-sixth annual skating Derby of the Sleipner Athletic club took place in Humboldt park, Chicago, Jan. 1, 1920. The Norwegian-American Athletic club was first in points with 31. The winners in the main events were:

1 mile, class A—W. Steinmetz, Norwegian-American A. C. Time, 3:18.
1 mile, class B—H. Nelson, Mozart playground. Time, 3:29⅘.
1 mile, class C—E. Evenson, Norwegian-American A. C. Time, 3:31.
1 mile, class AA—J. Stowell, Aurora, Ill. Time, 3:22.

NORTHWEST S. C. DERBY.

The Northwest Sportsmen's club held its twenty-ninth annual ice skating Derby in Humboldt park, Chicago, Jan. 11, 1920. The Norwegian-American Athletic club was first in points with 25, the Illinois Athletic club second with 18, the Northwest club third with 14 and the Alverno Athletic association and the Avondale playground tied for fourth with 10 each. Winners in main events:

1 mile, class A—Roy McWhirter, I. A. C. Time 3:14⅘.
1 mile, class B—Oscar Lundgoot, Norwegian-American A. C. Time, 3:18⅘.
1 mile, class C—Baker, Norwegian-American A. C. Time, 3:36⅘.
1 mile, junior—George Thomson, Avondale playground. Time, 3:20.
1 mile, novice—William Redlich, LeMoyne playground. Time, 3:31.
½ mile, class A—Roy McWhirter, I. A. C Time, 1:31.

ALVERNO A. A. SKATING DERBY.

The second annual skating Derby of the Alverno Athletic association took place in Humboldt park, Chicago, Jan. 18, 1920. The Norwegian-American Athletic club took first honors with 19 points. The Alverno A. A. and the Northwest Sportsmen's club were tied for second place with 15 points each. Winners in main events:

1 mile, class A—Fred Buendgen, Northwest S. C. Time, 2:59⅕.
1 mile, class B—Christ Lund, Alverno A. A Time, 3:10⅘.
1 mile, class C—Harry Littlefield, Sleipner A C. Time, 3:20⅕.

1 mile, class AA—Harry Kaskey, Northwest S. C. Time, 3:32.
2 mile handicap—Hank Quirk, Lightning A. A., 225 yards. Time, 5:53⅕.
½ mile, boys 14 to 16 years—George Thomson, Avondale. Time, 1:31⅘.
½ mile, women—Rose Johnson, I. A. C. Time, 1:54.
½ mile, boys under 14—Edward Reed, Optimates C. C. Time, 1:34⅕.
3 miles, relay—Norwegian-American A. C. Time, 8:43.

SILVER SKATES DERBY.

Roy McWhirter, I. A. C., won the fourth annual Tribune Silver Skates Derby in Humboldt park, Chicago, Jan. 25, 1920, by taking the final heat of 2 miles in 6:24⅘. Fred Buendgen, Northwest Sportsmen's club, was second and William Steinmetz, Norwegian-American A. C., third. George Thomson of the Avondale playground won the Junior Derby, 1 mile, in 3:22⅕. Winners of Silver Skates Derby to date:
1917—Art Staff; 5:42⅕.*
1918—Sigurd Larsen; 8:57⅗.
1919—Charles Fisher; 8:20.
1920—Roy McWhirter; 6:24⅕.
*Time not sanctioned; course found short.

FRANKLIN SKATING DERBY.

The annual skating Derby of the Franklin Skating and Athletic club, held in Humboldt park, Chicago, Jan. 28, 1920, was won by the Norwegian-American A. C. with a total of 23 points. The Alverno A. A. was second with 20 and the Illinois A. C. third with 12. Winners of principal events:
1 mile, class A—S. Larsen, Norwegian-American A. C. Time, 3:34.
1 mile, class B—C. E. Evenson, Norwegian-American A. C. Time, 3:46.
1 mile, class C—J. Beran, Alverno A. A. Time, 3:51⅕.
1 mile, class AA—F. P. Green, Lightning A. C. Time, 3:39⅘.
2 miles, handicap—Jack Stowell, Aurora. Time, 6:47.
1 mile, team race—Larsen-Phee, Norwegian-American A. C. Time, 3:23⅘.

PUBLIC SCHOOL CHAMPIONSHIP.

Skaters representing the Fiske playground won the Chicago public school championship at Garfield park, Jan. 31, 1920, with a total of 14 points. Mozart and Avondale tied for second place with 12 points each. The other teams finished as follows: Corkery, 7; Henry, 7; Waters, 5; Swift, 5; Agassiz, 5; Eckhart Park, 3; Emmett, 3; Oakland, 3; Christopher, 3; Cameron, 3; Gallistel, 2; LeMoyne, 2; Morse, 1; McCormick, 1; Franklin Park, 1.

NORWEGIAN-AMERICAN A. C. DERBY.

The Norwegian-American A. C. skating Derby for 1920 was held in Humboldt park Feb. 1. First place was taken by the Norwegian-American A. C. itself with a total of 15 points. Northwest Sportsmen's club was second with 14 points, Avondale playground third with 12, the Illinois Athletic club fourth with 11 and the Alverno Athletic club fifth with 10. Winners in main events:
1 mile, class A—Roy McWhirter, I. A. C. Time, 3:05⅘.
1 mile, class B—George Thomson, Avondale playground. Time, 3:15⅘.
1 mile, class C—George Thomson, Avondale playground. Time, 3:20⅘.
1 mile, class AA—Wallace Fee, Norwegian-American A. C. Time, 3:54.
2 miles, relay—Norwegian-American A. C. Time, 5:41⅕.
3 miles, handicap—Gus Fetz (125 yards), Lightning A. C. Time, 9:40⅕.

MATHISEN VS. McLEAN.

Oscar Mathisen of Christiania, Norway, and Robert McLean of Chicago met in a series of ice skating races in Christiania Feb. 7 and 8 to decide the professional championship of the world. The Norwegian proved to be the winner, taking three out of four contests. He won the first race, 500 meters (1,640 feet 5 inches) in 43 7-10 seconds, which was a world's record for the distance. The second race, 5,000 meters (3 miles 364 feet) was won by McLean in 8 minutes 53 7-10 seconds. Mathisen won the 1,500 meter (4,921 feet 3 inches) race in 2 minutes 27⅘ seconds and the 10,000 meter race (6 miles 728 feet) in 18 minutes 39⅘ seconds. In the 1,500 meter race McLean made the first 500 meters in 40½ seconds, thus bettering the record made by Mathisen in the first race.

JACKSON PARK DERBY.

In the first annual Derby of the south side skaters, held in Jackson park Feb. 8, 1920, the Norwegian-American A. C. took first place with a total of 20 points. The Alverno A. A. was second with 13 points and the Irving Park A. C. third with 12 points. Winners in principal events:
1 mile, class A—Sigurd ("Brick") Larsen, Norwegian-American A. C. Time, 2:59⅘.
1 mile, class B—Joe Lieske, Irving Park A. C. Time, 3:15⅘.
1 mile, class C—Joe Lieske, Irving Park A. C. Time, 3:09⅘.
1 mile, class AA—George Thomson, Avondale playground. Time, 3:14⅕.
2 mile handicap—Sigurd Larsen (scratch), Norwegian-American A. C. Time, 5:55⅘.
⅛ mile, straightaway—Sigurd Larsen, Norwegian-American A. C. Time, :42⅘ (world's record).

LIGHTNING A. C. MEET.

The Norwegian-American A. C. took first place in the annual skating tournament of the Lightning A. C., in Humboldt park, Feb. 12, 1920, making 26 points to 25 by the Lightning A. C., and 17 by the Alverno A. A. Winners of main events:
1 mile, class A—Gus Fetz, Lightning A. C. Time, 3:05⅘.
1 mile, class B—Morris Baker, Norwegian-American A. C. Time, 3:08⅘.
1 mile, class C—George Johnson, Northwest S. C. Time, 3:16.
1 mile, class AA—Oscar Lundgoot, Norwegian-American A. C. Time, 3:13.
2 mile relay—Norwegian-American A. C. team. Time, 5:56.
2 mile handicap—Morris Baker (125 yards), Norwegian-American A. C. Time, 6:05⅘.

IRVING PARK A. C. DERBY.

The first annual skating Derby of the Irving Park A. C., took place in Independence park, Chicago, Feb. 22, 1920. Irving Park was first with 14 points. The Alverno A. A. and the Swift playground each made 10 points and the Norwegian-American A. C. 9 points. The 1 mile class A race was won by R. Reed of the Optimates Canoe club in 1:47.

SKI JUMPING.

NATIONAL TOURNAMENT.

The national ski jumping tournament of 1920 took place at Chippewa Falls, Wis., Jan. 26. The championship in the professional class was taken by Anders Haugen of Dillon, Col., who defeated Henry Hall of Steamboat Springs, Col., by only one-third of a point. Haugen also took the longest standing jump with 123 feet. The longest standing jump by an amateur went to Gilbert Hagene of Mount Horeb, Wis., who cleared 105 feet. Sverre Henrickson of Superior, Wis., won the national amateur ski championship.

A strong head wind and zero weather prevented any new records being made.

Summary:

Contestant.	Points.
Professionals.	
Anders Haugen, Dillon, Col.	267⅔
Henry Hall, Steamboat Springs, Col.	267⅓
Lars Haugen, Chippewa Falls, Wis.	252
Andrew Olsen, Iola, Wis.	238⅓
Hans Hansen, Minneapolis, Minn.	238
Oscar Gunderson, Chippewa Falls, Wis.	229
Amateurs.	
Sverre Henrickson, Superior, Wis.	245
Oliver Kildahl, Glenwood, Wis.	241⅔
Gilbert Hagene, Mount Horeb, Wis.	236
Alf Johnson, Chicago	226⅓

CHAMPIONSHIP RECORD.

Following is a list of the professional champions in the annual tournaments of the National Ski association:

1909—John Evanson, Duluth, Minn.
1910—Anders Haugen, Chippewa Falls, Wis.
1911—Francis Kempe, Red Wing, Minn.
1912—Lars Haugen, Chippewa Falls, Wis.
1913—Ragnar Omtvedt, Chicago, Ill.
1914—Ragnar Omtvedt, Chicago, Ill.
1915—Lars Haugen, Chippewa Falls, Wis.
1916—Henry Hall, Ishpeming, Mich.
1917—Ragnar Omtvedt, Chicago, Ill.
1918—Lars Haugen, Chippewa Falls, Wis.
1919—No tournament.
1920—Anders Haugen, Dillon, Col.

CARY (ILL.) TOURNAMENT.

The seventeenth annual ski jumping tournament of the Norge Ski club of Chicago took place at Cary, Ill., Jan. 18, 1920, under favorable weather conditions. In the amateur class Sigvald Steinwall of Chicago was first with two jumps of 128 feet each and 288⅓ points. In the professional class Anders Haugen of Dillon, Col., was the winner with jumps of 161 and 157 feet and 347⅔ points. Summary:

	Feet 1st.	Feet 2d.	Pts.
Amateurs.			
Sig. Steinwall, Chicago	128	128	288⅓
Hans Gude, U. of Wis.	127	128	287½
H. Fleming, Eau Claire	130	129	284⅔
Carl Neilsen, Chicago	124	129	279
Alf Johnson, Chicago	125	129	275⅔
T. Norberg, U. of Wis.	121	120	271⅔
Ole Bjerke, Chicago	141	123	...
Haldore Hagen, Chicago	114	125	...
G. Ostensen, Chicago	111	110	...
Arne Sletner, Chicago	127	123	...
Joe Ihlen, U. of Wis.	115	114	...
Carl Norman, Chicago	116	119	...
J. M. Plichta, U. of Wis.	115	114	...
Sverre Strom, U. of Wis.	120	124	...
H. Holter, U. of Wis.	117	121	...
Sven Kvaven, U. of Wis.	121	123	...
D. Carmichael, Barrington	121	121	...
M. Waterman, Barrington	123	123	...
F. Krause, Cuba, Ill.	119	120	...

Standing jump—Henry Fleming, 138 feet; Alf Johnson, 138; Sig. Steinwall, 132; Carl Neilsen, 132; Hans Gude, 132; J. M. Plichta, 131.

	Feet 1st.	Feet 2d.	Pts.
Professionals.			
A. Haugen, Dillon, Col.	161	157	351
L. Haugen, Chippewa Falls	149	153	335
H. Hansen, Steamboat Springs	144	133	304
F. Bruun, Chicago	131	133	296
A. Olsen, Iola, Wis.	144	136	...

Standing jump—Anders Haugen, 161; Lars Haugen, 152; A. Olsen, 145; H. Hansen, 137.

GLENWOOD (MINN.) MEET.

Barney Riley of Virginia, Minn., won first place in the professional event at the interstate ski tournament at Glenwood, Minn., Jan. 30, 1920. He scored 242 points. Hans Hansen of Minneapolis was second with 241 and Lars Haugen, Chippewa Falls, Wis., third with 239. Hansen won the long standing jump, 118 feet.

LAKE NAGAWICKA MEET.

In the annual ski tournament of the Milwaukee Ski club at Lake Nagawicka, Wis., Feb. 1, 1920, Lars Haugen of Chippewa Falls, Wis., was the winner in the professional event with 269⅓ points. In the amateur class Sigvald Steinwall of Chicago was first with 246⅓ points. The best standing jumps were made by Lars Haugen, 124 feet, and Sigvald Steinwall, 111 feet. Summary:

Points.
Professional Class.
Lars Haugen, Chippewa Falls, Wis. 269⅓
Hans Haugen, Steamboat Springs, Col. 256⅓
Fred Bruun, Chicago 252⅓
Andrew Olsen, Iola, Wis. 251
Erling Landvik, Stoughton, Wis. 240
Amateur Class.
Sigvald Steinwall, Chicago 246⅔
Earl Gunderson, Chippewa Falls, Wis. 235⅓
Ole Bjerke, Chicago 235
Carl Nilson, Chicago 234⅓
Joe Ihlen, U. of Wisconsin 207⅔
Arne Sletner, Chicago 193⅓
Alfred Johnson, Chicago 171
Even Welhaven, Milwaukee 160⅓

REVELSTOKE MEET.

Nels Nelson retained his title as amateur ski jumper of Canada in a tournament held at Revelstoke, B. C., Feb. 11, 1920, with a jump of 185 feet, standing. Sigvald Steinwall of Chicago was second with a jump of 181 feet. Anders Haugen won the professional event with a jump of 200 feet, standing. Lars Haugen in the same event jumped 212 feet but fell.

LONGEST SKI JUMP.

Anders Haugen of Dillon, Col., made a jump of 214 feet at a ski meet conducted by the Summit County Winter Sports club at Dillon, Col., March 1, 1920. This broke the previous world's record of 213 feet made by himself at the same place on March 9, 1919. He made three jumps of 214, 213 and 218 feet each, but as he fell after making the longest jump this could not be accepted as a record. Other long jumps made at the same meet were 201 feet by Henry Hall of Denver and 200 feet by Carl Howelson of Steamboat Springs, Col. These jumps were all made by professionals.

Up to 1919 the record for the longest ski jump without falling was held by Ragnar Omtvedt of Chicago, who jumped 192 feet 9 inches at Steamboat Springs, Col., Feb. 19, 1916.

CURLING.

GORDON INTERNATIONAL MEDAL.

Canadian curlers successfully defended the Gordon International medal at Utica, N. Y., Feb. 12, 1920, winning from the United States by a score of 189 to 187. It was one of the closest struggles ever known in connection with the trophy. Canada was represented by the Montreal W., Victoria, Outremont, Thistle, Lachine, St. Lawrence, Caledonia and Heather rinks and the United States by the Utica, Jersey City, Saranac Lake, Boston, St. Andrews, Utica No. 2, Mohawks and Syracuse rinks. The best score for the Canadians was 27 made by the Heather rink, N. D. McLeod, skip, and the medal was given to it for a year.

RACQUETS.

NATIONAL CHAMPIONSHIPS.

Clarence C. Pell of New York successfully defended the national racquets singles championship at the Boston Tennis and Racquet club, Feb. 20-23, 1920, defeating his challenger, Stanley G. Mortimer of New York, in three out of four games, by 9-15, 15-9, 15-2, 15-8. Championship record:

1901—Quincy A. Shaw, Boston.
1902—C. H. Mackay, New York.

1903—Payne Whitney, New York.
1904—George A. Brooke, Philadelphia.
1905—Lawrence Waterbury, New York.
1906—Percy D. Haughton, Boston.
1907—Reginald R. Fincke, New York.
1908—Quincy A. Shaw, Boston.
1909—Harold F. McCormick, Chicago.
1910—Quincy A. Shaw, Boston.
1911—Reginald R. Fincke, New York.
1912—Reginald R. Fincke, New York.
1913—Lawrence Waterbury, New York.
1914—Lawrence Waterbury, New York.
1915—Clarence C. Pell, New York.
1916—Stanley G. Mortimer, New York.
1917—Clarence C. Pell, Tuxedo, N. Y.
1918-1919—No contests.
1920—Clarence C. Pell, New York.

Gold Racquet Champions.

1911—J. Gordon Douglas, New York, N. Y.
1912—J. Gordon Douglas, New York, N. Y.
1913—Harold F. McCormick, Chicago, Ill.
1914—Clarence C. Pell, New York, N. Y.
1915—Clarence C. Pell, New York, N. Y.
1916—Clarence C. Pell, New York, N. Y.
1917—Clarence C. Pell, Tuxedo, N. Y.

Championship in Doubles.

Jay Gould and J. W. Wear of the Philadelphia Racquet club won the national amateur racquets doubles championship at Philadelphia, Pa., Jan. 21, 1920, when they defeated Clarence C. Pell and Stanley Mortimer of New York, N. Y., by scores of 15-9, 15-11, 9-15, 15-10, 16-18, 6-15, 15-7.

SOUTAR VS. GLOCKLER.

In a challenge match at squash racquets for $1,000 between Jack Soutar of the Philadelphia Racquet club and Otto Glockler of the Boston Athletic association in Boston Feb. 14, 1920, the former was the winner. The scores were: 15-5, 16-15, 9-15, 15-10.

ATHLETICS.

NATIONAL A. A. U. CHAMPIONSHIPS.

The annual championship contests of the Amateur Athletic Union of the United States took place on Harvard field, Cambridge, July 16 and 17, 1920. In the junior events three new marks were set. Louis A. Watson of the New York A. C. made a running high jump of 6 feet 2 inches, Kaufman Geist of New York made a record of 46 feet 7½ inches in the hop, skip and jump event and William K. Bartlett of the University of Oregon made a discus throw of 136 feet ½ inch. The Boston A. A. team won the meet with a total of 32 points.

In the senior championships, which were also in the nature of Olympic tryouts, five new marks were made. Milton S. Angier, Illinois A. C., threw the javelin 192 feet 10¾ inches, a new American record. Sol Butler of Dubuque college, Iowa, also made a new American record in the running broad jump when he leaped 24 feet 8 inches. In the pole vault Frank K. Foss and E. E. Meyers, both of Chicago, cleared 13 feet 1 inch, a new mark in national championships. John Murphy of the Multnomah A. C., Portland, Ore., broke the high jump record with 6 feet 4¼ inches and Augustus R. Pope of the University of Washington made a new championship record when he threw the discus 146 feet 5 inches. The Chicago Athletic association team won the meet honors with 35 points.

Winners and time in senior contests:

100 yard dash—Loren Murchison, N. Y. A. C. Time, :10.
220 yard dash—Charles Paddock, Los Angeles A. C. Time, 21⅘.
120 yard hurdles—Harold E. Barron, Meadow Brook club, Philadelphia. Time, :15½.
440 yard hurdles—Frank Loomis, Chicago A. A. Time, :55.
440 yard run—Frank Shea, U. S. N. Time, :49.
880 yard run—Earl W. Eby, Chicago A. A. Time, 1:54½.
1 mile run—Joie Ray, Illinois A. C. Time, 4:16⅘.
5,000 meter run—H. H. Brown, Boston A. C. Time, 15:26.
3,000 meter walk—William Plant, Morningside A. C., New York. Time, 13:08.
10,000 meter run—Fred Faller, Dorchester club, Boston. Time, 32:15.
Running broad jump—Sol Butler, Dubuque college, Iowa. Distance, 24 ft. 8 inches.
Running high jump—John Murphy, Multnomah A. C., Portland, Ore. Height 6 ft. 4¼ inches.
16 pound hammer throw—Patrick Ryan, Laughlin lyceum, Brooklyn, N. Y. Distance, 169 ft. 4 inches.
Putting 16 pound shot—Patrick J. McDonald, New York A. C. Distance, 47 ft. ¼ inch.
Throwing 56 pound weight—Patrick J. McDonald, New York A. C. Distance, 37 ft. ¾ inch.
Throwing the javelin—Milton S. Angier, Illinois A. C. Distance, 192 ft. 10¾ inches.
Throwing the discus—Augustus R. Pope, University of Washington. Distance, 146 ft. 5 inches.
Pole vault—Frank K. Foss, Chicago A. A., and E. E. Meyers, Chicago A. A., tied at 13 ft. 1 inch.
Running hop, step and jump—Sherman G. Landers, Chicago A. A. Distance, 48 ft. 1 9/10 inches.

CENTRAL A. A. U. CHAMPIONSHIPS.

The Central A. A. U. senior outdoor track and field championships for 1920 were decided on Stagg field, University of Chicago, Aug. 28. The Chicago Athletic association's team took first place with 104 points. The Illinois Athletic club was second with 43, the University of Chicago third with 19 and Northwestern university fourth with 10. Event winners:

100 yard dash—Sweeney, Vilas A. C. Time, 10⅕.
220 yard dash—Zoellin, C. A. A. Time, :22⅘.
440 yard run—Spink, C. A. A. Time, :50.
880 yard run—Donovan, unattached. Time, 2:02⅘.
1 mile run—Stout, I. A. C. Time, 4:36⅘.
1 mile relay—C. A. A. Time, 3:31⅕.
5 mile run—Forman, C. A. A. Time, 27:28⅘.
120 yard high hurdles—Ames, C. A. A. Time, :16.
440 yard hurdles—Burke, I. A. C. Time, :57⅘.
3 mile walk—Zeller, C. A. A. Time, 24:03.
Pole vault—Landowski, U. of Mich. Height, 12 feet.
Shotput—Mucks, C. A. A. Distance, 45 feet ½ inch.
Hammer throw—Benson, C. A. A. Distance, 150 feet 10 inches.
Discus throw—Mucks, C. A. A. Distance, 136 feet 1½ inches.
Javelin throw—Thompson, I. A. C. Distance, 166 feet 5 inches.
56 pound weight—Blackwood, Northwestern. Distance, 30 feet 10½ inches.
High jump—Trewecke, C. A. A. Height, 5 feet 11 inches.
Broad jump—Krogness, C. A. A. Distance, 21 feet 5¼ inches.
Hop, step and jump—Wilson, unattached. Distance, 43 feet 6½ inches.

EASTERN INTERCOLLEGIATE CHAMPIONSHIPS.

Franklin Field, Philadelphia, Pa., May 30-31, 1920.

Winners in the forty-fourth annual championship track and field meet of the Intercollegiate Association of Amateur Athletes of America:

100 yard dash—R. E. Brown, Princeton. Time, :10½.
220 yard dash—R. E. Brown, Princeton. Time, :21¾.
440 yard run—O. O. Hendrixson, California. Time, :48⅝.
880 yard run—E. W. Eby, Pennsylvania. Time, 1:58.
1 mile run—M. L. Shields, Pennsylvania. Time, 4:22⅝.
2 mile run—H. H. Brown, Williams. Time, 9:27⅝.
120 yard high hurdles—E. J. Thompson, Dartmouth. Time, :14⅘ (world's record).
220 yard low hurdles—W. B. Wells, Stanford. Time, :23¾.
High jump—R. W. Landon, Yale. Height, 6 feet 4 inches (new intercollegiate record).
Broad jump—S. G. Landers, Pennsylvania. Distance, 23 feet 8 inches.
Pole vault—E. E. Meyers, Dartmouth. Height, 12 feet 6 inches.
Hammer throw—J. W. Merchant, California. Distance, 159 feet 2¾ inches.
Shotput—H. J. Cann, N. Y. University. Distance, 45 feet 10½ inches.

In points Pennsylvania was first with 30½ points, Princeton second with 29, Dartmouth third with 24, Cornell fourth with 20, California fifth with 18½ and Stanford sixth with 15 points.

Eastern Intercollegiate Records.

Made in annual championship meets.

100 yard dash—:09⅘, B. J. Wefers, Georgetown, 1896; R. C. Craig, Michigan, 1911, and J. E. Patterson, Pennsylvania, 1913.
220 yard dash—:21⅕, R. C. Craig, Michigan, 1910 and 1911, and Don Lippincott, Pennsylvania, 1913.
440 yard run—:47⅘, J. E. Meredith, Pennsylvania, 1916.
880 yard run—1:53, J. E. Meredith, Pennsylvania, 1916.
1 mile run—4:14⅘, J. P. Jones, Cornell, 1913 (world's amateur record).
2 mile run—9:22⅘, I. C. Dresser, Cornell, 1919.
120 yard high hurdles—:14⅘, Earl Thomson, Dartmouth, 1920.
220 yard hurdles—:23⅘, A. C. Kraenzlein, Pennsylvania, 1898, and J. Wendell, Wesleyan, 1913.
High jump—6 feet 4½ inches, W. M. Oler, Yale, 1915.
Broad jump—24 feet 4½ inches, A. C. Kraenzlein, Pennsylvania, 1899.
Pole vault—13 feet 1 inch, Robert Gardner, Yale, 1912.
16 pound hammer—165 feet ¾ inch, H. P. Bailey, Maine, 1915.
16 pound shot—48 feet 10¾ inches, R. L. Beatty, Columbia, 1912.
1 mile walk—6:45⅘, W. B. Fetterman, Jr., Pennsylvania, 1898.

WESTERN INTERCOLLEGIATE CHAMPIONSHIPS.

Ferry Field, Ann Arbor, June 4-5, 1920.

100 yard dash—J. V. Scholz, Missouri, :10.
220 yard dash—J. V. Scholz, Missouri, :21⅘.
440 yard run—R. S. Emery, Illinois, :48⅖.
880 yard run—E. Meehan, Notre Dame, 1:54⅕.
1 mile run—H. N. Yates, Illinois, 4:28⅘.
2 mile run—C. C. Furnas, Purdue, 9:33.
120 yard high hurdles—F. E. Wright, Nebraska, :15⅘.
220 yard low hurdles—A. J. Knollin, Wisconsin, :25.
Running high jump—H. M. Osborne, Illinois, and Ivey Earlham, tied; height 6 feet.
Running broad jump—C. E. Johnson, Michigan. Distance, 23 feet 7½ inches.
Pole vault—O. J. Endres, Wisconsin. Height, 12 feet 3 inches.
Discus throw—C. G. Higgins, Chicago. Distance, 140 feet 8 inches.
Shotput—J. L. Baker, Michigan. Distance, 43 feet 11 inches.
Hammer throw—J. W. Merchant, California. Distance, 150 feet 7 inches.
Javelin throw—H. Hoffman, Michigan. Distance, 172 feet 10 inches.
1 mile relay—Illinois, 3:21⅘.

In points Illinois was first with 40; Michigan second, 30; Wisconsin third, 25½; Missouri fourth, 14½; California fifth, 11½; Nebraska sixth, 10; Notre Dame seventh, 10; Chicago eighth, 7. Purdue, Kansas Aggies and Minnesota made 5 points each; Earlham, 4; Cornell college, 3; Ohio State, 2½; Indiana and Ames, 1 each.

Western Intercollegiate Records.

Made in annual championship meets.

100 yard dash—:09⅘, Blair, Chicago, 1903; W. W. May, Illinois, 1907 and 1908; Ward, Chicago, 1915, and W. J. Hayes, Notre Dame, 1919.
220 yard dash—:21⅘, Hahn, Michigan, 1903; Ward, Chicago, 1915; Smith, Wisconsin, 1916, and Scholz, Missouri, 1920.
440 yard run—:47⅖, Dismond, Chicago, 1916.
880 yard run—1:53⅗, Campbell, Chicago, 1915, and Scott, Mississippi Aggies, 1916.
1 mile run—4:15⅘, Fall, Oberlin, 1917.
2 mile run—9:29⅘, Stout, Chicago, 1916.
120 yard high hurdles—:14⅘, Simpson, Missouri, 1916.
220 yard low hurdles—:23⅘, Simpson, Missouri, 1916.
Running high jump—6 feet 2¼ inches, C. E. Johnson, Michigan, 1919.
Running broad jump—24 feet 1 inch, C. E. Johnson, Michigan, 1919.
Pole vault—12 feet 8¾ inches, J. Gold, Wisconsin, 1913.
16 pound hammer—160 feet 4 inches, K. Shattuck, California, 1913.
16 pound shot—47 feet ¼ inch, Rose, Michigan, 1904.

Discus throw—155 feet 2 inches, Mucks, Wisconsin, 1916.
Javelin throw—172 feet 10 inches, H. Hoffman, Michigan, 1920.
1 mile relay—3:21⅘, Chicago, 1915, and Illinois, 1920.

FRANKLIN FIELD RELAY MEET.

The national championship relay races for colleges and high schools took place on Franklin field, Philadelphia, Pa., April 30-May 1, 1920. A feature of the meet was the presence of a team from Oxford and Cambridge, England. In addition to the relay races there were a number of individual events. In winning the 440 yard hurdle race J. M. Watt of Cornell made a world's record of :54⅘. In the intercollegiate 3 mile run G. T. Nightingale of the New Hampshire State college defeated E. A. Montague, England's best collegiate distance runner, in 14:56. The pentathlon was won by E. Bradley of the University of Kansas. The English varsity runners scored a triumph when they won the two-mile college relay race in 7:50⅘, a new world's record. Summary of relay races:

American college championship sprint medley relay race, 1 mile—Won by Pennsylavnia (Davis, Landers, Maxam, Eby); Lafayette, second; Minnesota, third; Massachusetts I. T., fourth. Time, 3:20.

American college championship distance medley, 2½ miles—Won by Penn State; Yale, second; Syracuse, third; Georgetown, fourth. Time, 10:37⅘.

Interscholastic medley relay, 1¼ miles—Won by Exeter academy (Swede, Waterman, Chapman, Hitzoat); Huntington school, Boston, second; Barringer High school, third; Cedar Rapids High school, fourth. Time, 4:44.

1 mile, college relay championship of America—Won by Pennsylvania; Minnesota, second; Michigan, third; Princeton, fourth. Time, 3:22⅘.

2 mile college relay, championship of America—Won by Oxford-Cambridge, England; Illinois, second; Pennsylvania, third; Cornell, fourth. Time, 7:50⅘. (New record. Former record 7:53, made by F. Riley, F. Bromelow, M. W. Sheppard and A. R. Kiviat of Irish-American A. C. in 1910.)

4 mile college relay championship of America—Won by Penn State college; Syracuse, second; Cornell, third; Chicago, fourth. Time, 18:16⅘.

1 mile relay (college), class B championship—Won by Redlands, University of California; Syracuse, second; Columbia, third; Pittsburgh, fourth. Time, 3:25⅘ (new record).

1 mile (freshman) college relay championship of America—Won by Cornell; Pennsylvania, second; Syracuse, third; Dartmouth, fourth. Time, 3:28⅘.

DRAKE RELAY MEET.

Des Moines, Iowa, April 24, 1920.

University Relays.

4 mile—Won by Illinois (Duesenberry, Caskey, Wharton, Yates); Wisconsin, second; Ames, third. Time, 18:18⅘. Chicago and Grinnell withdrew.

2 mile—Won by Ames (Wolters, Higgins, Stone, Webb); Illinois, second; Notre Dame, third. Time, 7:53⅕. (New record.)

½ mile—Won by Michigan (Cook, Losch, Wetzel, Parker); Missouri, second; Iowa, third. Time, 1:29⅘.

1 mile—First section—Won by Michigan (Wheeler, Burkholder, Wetzel, Butler); Minnesota, second; Missouri, third. Time, 3:24.

Second section—Won by Illinois (Prescott, Donough, Spink, Emery); Ames, second; Notre Dame, third. Time, 3:21⅘. (New record.)

College Relays.

1 mile—Won by Coe (Holt, Brown, Tuller, Frentress); Carleton, second; Cornell, third. Time, 3:30⅘.

2 mile—Won by Wabash (Brown, Eastlake, Manley, Gustafson); Cornell, second; Carleton, third. Time, 8:15⅘.

½ mile—Won by Coe (Holt, Schlotterbeck, Tullar, Frentress); Union, second; Carleton, third. Time, 1:34⅘.

Illinois University Relay Carnival.

In the annual relay carnival at the University of Illinois, in Champaign, Capt. Carl Johnson of the Michigan team won the 75 yard low hurdles race in :08, a new American amateur record. The winning teams in the relays were:

1 mile college—Won by Wabash. Time, 3:39⅘.
1 mile university—Won by Illinois. Time, 3:20⅘.
1 mile interscholastic—Won by Crawfordsville. Time, 3:52⅘.
2 mile university—Won by Chicago. Time, 8:04⅘.
2 mile medley—Won by Georgetown. Time, 8:24.
4 mile university—Won by Ames. Time, 18:40⅘.

INTERNATIONAL COLLEGE MEET.

Princeton and Oxford university athletes held a dual track and field meet at Queen's club, London, England, July 8, 1920, the result of which was a victory for the American team, which took six firsts in ten events, or 53 points to 37 for the English team. Oxford's victories were all on the track. Winners and time:

100 yard dash—Brown, Princeton. Time, :10.
440 yard run—Rudd, Oxford. Time, :50.
880 yard run—Rudd, Oxford. Time, 1:59⅘.
1 mile run—Milligan, Oxford. Time, 4:31⅕.
3 mile run—Montague, Oxford. Time, 15:16.
120 yard high hurdles—Erdman, Princeton. Time, :15⅘.
High jump—Thomson, Princeton. Height, 5 ft. 9¾ in.
Broad jump—Lourie, Princeton. Distance, 21 ft. 6 in.
Shotput—Halsey, Princeton. Distance, 44 ft. 5½ in.
Hammer throw—Speers, Princeton. Distance, 137 ft. 7¼ in.

LONG DISTANCE RUNNING (1920).

Jan. 11—Paris, France; 8 miles; M. Guillemot, 39:29⅘.
Feb. 23—Brooklyn, N. Y.; 25 miles; Frank Zuna, 2:57:53⅕.
April 3—Detroit, Mich.; marathon (26 miles 385 yards); Charles L. Mellor, 2:30:04.
April 11—Chicago, Ill.; 10½ miles; Charles L. Mellor, 58:07.
April 19—Boston, Mass.; marathon; Peter Trivoulidas, 2:29:31.
June 5—Travers Island, New York; marathon (26½ miles); Hannes Kolehmainen, 2:47:49⅘.
June 12—Chicago, Ill.; 5 miles; Oswald Larsen, 28:28⅘.
July 3—Chicago, Ill.; 4 miles (Daily News road race); Amosoli Patasoni, 20:10⅕.
July 5—Chicago, Ill.; 14 miles; Saylor Minnick, 1:20:00.
Aug. 22—Antwerp, Belgium; marathon; Hannes Kolehmainen, 2:32:35⅘.
Sept. 4—Chicago, Ill.; 5 miles. George Hankel, 28:00.
Sept 25—Chicago, Ill; marathon; Ted Lapins, 3:06:24.

INDOOR CHAMPIONSHIPS.

National.

The National Amateur Athletic union's annual senior indoor track and field championship meet was held in New York, N. Y., March 13, 1920. Loren Murchison of the New York

A. C. won the final heat in the 60 yard dash in :06⅘, equaling the American record, while Walker Smith of Cornell university won the 70 yard high hurdles in :09⅕, a new American record. Summary of winners:

1,000 yard run—Won by Joie Ray, Illinois A. C. Time, 2:15⅕.
60 yard dash—Won by Loren Murchison, New York A. C. Time, :06⅘.
70 yard high hurdles—Won by Walker Smith, Cornell. Time, :09⅕.
300 yard run—Won by Loren Murchison, New York A. C. Time, :32.
600 yard run—Won by Earl W. Eby, Pennsylvania. Time, 1:16.
1 mile walk—Won by Joe Pearman, New York A. C. Time, 6:39⅘.
2 mile run—Won by Harry G. Helm, Lafayette High, Buffalo. Time, 9:34⅗.
Putting 16 pound shot—Won by Patrick McDonald, New York A. C. Distance, 45 ft. 1¾ in.
Standing broad jump—Won by W. I. Reid, Brown school, Providence, R. I. Distance, 10 ft. 4⅛ in.
Running high jump—Won by W. L. Whalen, Boston A. A. Height, 6 ft. 3½ in.
Standing high jump—Won by Dan W. Adams, New York A. C. Height, 5 ft. 1 in.

Central A. A. U.

The twenty-third annual senior indoor track and field championship meet of the Central A. A. U. was held in the Broadway armory, Chicago, March 27, 1920, and was won by the Chicago Athletic association with a total of 56 points. The Illinois Athletic club was second with 54 points. In the high school events Hyde Park took first place with 17 points. Lake View was second with 13. Crane third with 7 and LaGrange fourth with 6 points. Winners in C. A. A. U. contests:

70 yard dash—Won by Frank Loomis, C. A. A. Time, :07⅘. (Central A. A. U. record).
70 yard low hurdles—Won by Frank Loomis, C. A. A. Time, :08⅕ (Central A. A. U. record).
440 yard run—Won by Harold Irons, C. A. A. Time, :54.
880 yard run—Won by Joie Ray, I. A. C. Time, 2:02⅕.
1 mile run—Won by Joie Ray, I. A. C. Time, 4:29.
2 mile run—Won by Joie Ray, I. A. C. Time, 10:04⅗.
1 mile walk—Won by A. Zeller, C. A. A. Time, 7:27⅘.
1 mile relay—Won by C. A. A. team. Time, 3:41⅗.
Running high jump—Won by Paul McGary, I. A. C. Height, 6 ft. ¼ inch.
Shotput—Won by Arlie Mucks, C. A. A. Distance, 44 feet 8 inches.
Pole vault—Won by Eddie Knourek, I. A. C. Height, 12 feet 6 inches.

Western Conference.

The University of Illinois won the tenth annual indoor track and field meet of the Western Intercollegiate Conference Athletic association in the Patten gymnasium, Evanston, March 20, 1920, with a total score of 31⅘ points. The University of Michigan was second with 27½ points. The other contestants finished as follows: Wisconsin, 10⅘; Minnesota, 10½; Chicago, 10; Northwestern, 6¼; Ohio State, 5⅘; Purdue, 5; Iowa, 4⅘. Three conference indoor records were broken. In the 60 yard high hurdles Capt. Carl Johnson of Michigan made a new mark of :07⅗. D. E. Brown of Purdue made the ½ mile in 1:59 and the Illinois relay teams made a new mile record of 3:29. The winners in the various events were:

50 yard dash—Won by Johnson, Michigan. Time :05⅘.
60 yard high hurdles—Won by Johnson, Michigan. Time, :07⅗ (new conference record).
440 yard dash—Won by Furnas, Purdue. Time, :52⅖.
½ mile run—Won by Brown, Illinois. Time, 1:59 (new conference record).
1 mile run—Won by Yates, Illinois. Time, 4:30⅘.
2 mile run—Won by Furnas, Purdue. Time, 9:55⅘.
1 mile relay—Won by Illinois. Time, 3:29 (conference record).
Pole vault—Won by Hawker, Minnesota. Height 11 feet 9 inches.
Running high jump—Moorehead, Ohio, and Hoffman, Iowa, tied for first at 6 feet.
Shotput—Won by Higgins, Chicago. Distance, 42 feet 10 inches.

Championship Record.

Winner.	Points.
1911—Chicago	36
1912—Illinois	31
1913—Wisconsin	33⅓
1914—Illinois	36
1915—Chicago	37¼
1916—Illinois	41⅘
1917—Chicago	38
1918—Michigan	42
1919—Michigan	36½
1920—Illinois	37⅘

FIRST REGIMENT MEET.

In the twenty-sixth annual field and track games of the First Regiment A. A., held in the Michigan avenue armory, Chicago, Feb. 21, 1920, the Illinois Athletic club led with 53 points to 50 for the Chicago Athletic association and 16 for the University of Chicago. Two Central A. A. records were broken and one world's indoor record was equaled. A Desch of Notre Dame university won the 40 yard low hurdles in :04⅘, this breaking the former C. A. A. U. record of 5 seconds and equaling the world's indoor record. Waldo Ames of the Chicago Athletic association established a new Central mark by winning the 40 yard high hurdle race in :05⅘.

CHICAGO HIGH SCHOOL LEAGUE MEET.

Hyde Park won both the senior and junior titles in the annual indoor track and field meet of the Chicago High School league in Patten gymnasium April 3, 1920. In the senior contests Hyde Park made 38½ points, with Senn in second place with 32 points and Crane third with 24½. In the junior events the score by points was: Hyde Park, 30½; Crane, 26⅗; Senn, 13.

WORLD'S ATHLETIC RECORDS.

*Amateur.
†Made in Harvard stadium July 16, 1915. Old record was 4:12¾, made by W. C. George, professional, in 1886.

OLYMPIC GAMES.

The seventh series of Olympic games took place at Antwerp, Belgium, beginning April 23 and ending Sept. 5, 1920. Though a number of new world's records were made the meeting was not a pronounced success, the attendance not being large nor the arrangements for the comfort of the athletes all that could be desired. Twenty-seven nations accepted invitations to take part. The United States was represented in the principal competitions, and in the track and field events, as well as in shooting, swimming and rowing, showed a marked superiority over the other countries. The greatest popular interest was taken in the events which were contested immediately after Saturday, Aug. 13, when King Albert of Belgium formally opened the stadium. On the day named the king reviewed athletes, sportsmen and officials of twenty-seven nations to the number of 1,612. The American delegation of 299 persons was the largest in line except that of Belgium, which exceeded it by two only.

Following is a resume of the principal contests in the order of their occurrence:

ICE SPORTS.

Hockey—Canada won; United States, second; Czecho-Slovakia, third.
Figure skating, pairs—Finland, first; Norway, second; England, third; United States, fourth.
Fancy skating for women—Won by Miss Tulin of Sweden.

SHOOTING.

Trap shooting—Team match: Won by United States with score of 547; Belgium, second, 503; Sweden, third, 500. Individual championship won by Mark Airie of Champaign, Ill., with 95 out of possible 100; Frank Troeh of Vancouver, Wash., second, with 93.
Rifle shooting—The United States won with 43 points; Sweden, second, 11; Norway, third, 9.

TRACK AND FIELD EVENTS.

Javelin throw—Won by J. Myrra, Finland; distance, 65.78 meters (215.75 feet) (world's record). H. Peltonen and P. Johansson, both Finns, second and third respectively.
100 meter (328 feet 1 inch) run—C. W. Paddock, American, first; Morris Kirksey, American, second; Harry Edwards, British, third. Time, :10⅘.
400 meter (1,312 feet 4 inches) hurdles—Won by Frank Loomis, American, in :54 flat (world's record); J. K. Norton, American, second; August Desch, American, third.
Running high jump—Won by R. W. Landon, American; distance, 1.935 meters (6.35 feet). Ekelund, Sweden, and H. P. Muller, United States, tied for second place.
5,000 meter (3.1068 miles) run—Won by Guillemot, France; P. Nurmi, Finland, second; E. Bachman, Sweden, third. Time of winner, 14:55.
800 meter (2,624 feet 8 inches) run—Won by A. G. Hill, Great Britain; Earl Eby, United States, second; B. G. D. Rudd, Great Britain, third. Time, 1:53⅘.
110 meter (360 feet 1 inch) hurdles—Won by Earl Thomson, Canada; R. E. Barron, United States, second; Fred S. Murray, United States, third. Time, :14⅘ (world's record).
10,000 meter (6.2137 miles) walk—Won by Frigerio, Italy; J. P. Pearman, United States, second; C. E. J. Gunn, Great Britain, third. Time, 48:06⅘.
Running broad jump—Won by A. Peterson, Sweden; distance, 7.15 meters (23.45 feet); C. E. Johnson, United States, second; Abrahamson, Sweden, third.
Shotput—Won by Porkola, Finland; distance, 14.81 meters (48.59 feet); Nicklander, Finland, second; H. B. Liversedge, United States, third.
Pentathlon—Won by E. Lethonen, Finland, 14 points. Everett Bradley, United States, second, 25 points; B. Hamilton, United States, Robert Legendre, United States, and Lortinen, Finland, tied for third, 26 points.
1,000 meter (3,280 feet 10 inches) run—Won by A. G. Hill, Great Britain; P. J. Baker, Great Britain, second; L. M. Shields, United States, third Time, 4:01⅘.
Hammer throw—Won by P. J. Ryan, United States, 52.875 meters (173.482⅘ feet); C. Lind, Sweden, second; B. Bennett, United States, third.
Pole vault—Won by Frank K. Foss, United States; height, 4.09 meters (13 feet 5⅘ inches, world's record); H. Peterson, Denmark, second; E. E. Myers, United States. E. E. Knourek, United States, L. Sorensen, Denmark, and Rydberg, Sweden, tied for third.
10,000 meter (6.2137 miles) run—Won by P. Nurmi, Finland; Guillemot, France, second; J. Wilson, Great Britain, third. Time, 31:45⅘.
200 meter (656 feet 2 inches) run—Won by Allen Woodring, United States; Charles Paddock, United States, second; Harry Edwards, Great Britain, third. Time, :22.
400 meter (1,312 feet 4 inches) run—Won by B. G. Rudd, Great Britain; G. Butler, Great Britain, second; Engdahl, Sweden, third. Time, :49⅘.
3,000 meter (9,842 feet 6 inches) steeplechase—Won by P. Hodge, Great Britain; Patrick Fynn, United States, second; Ambrosini, Italy, third. Time, 10:02⅘.
Throwing 56-pound weight—Won by Pat McDonald, United States; distance, 11.265 meters (30.96 feet); Pat Ryan, United States, second; Lind, Sweden, third.
Hop, step and jump—Won by Tuulos, Finland; distance, 14.48 meters (47.57 feet); Johanson, Sweden, second; Almlof, Sweden, third.
3,000 meter (9,842 feet 6 inches) walk—Won by Frigerio, Italy; Parker, Australia, second; R. Remer, United States, third. Time, 13:14⅘.
Marathon (26 miles 385 yards)—Won by Hannes Kohlemainen, Finland; Lossman, Esthonia, second; Blasi, Italy, third. Time, 2:32:35⅘ (new Olympic record).
400 meter (1,312 feet 4 inches) relay—Won by United States; France, second; Sweden, third. Time, :42⅘ (new Olympic record).
3,000 meter (9,842 feet 6 inches) team race—Won by the United States. Time, 8:51⅘.
Discus throw—Won by Nicklander, Finland; distance, 44.685 meters (146.367 feet) A. Taipale, Finland, second; A. R. Pope, United States, third.

Decathlon—Won by Helge Lovland, Norway, 6,774.35 points; Brutus Hamilton, United States, second, 6,770.86 points; Ohlsson, Sweden, third, 6,579.30 points.
1,600 meter (5,249 feet 4 inches) relay—Won by Great Britain; South Africa, second; France, third. Time, 3:22⅕.
Cross country (about 10 kilometers)—Won by P. Nurmi, Finland; E. Bachman, Sweden, second; H. Limatianen, Finland, third. Time, 27:15. Finland won with 10 points.

SWIMMING—MEN'S EVENTS.

100 meters (328 feet 1 inch) free style—Won by Duke Kahanamoku, United States. Time, 1:01⅘ (new Olympic record).
100 meters (328 feet 1 inch) back stroke—Won by W. Kealoha, United States. Time, 1:15⅕ (new Olympic record).
1,500 meters (4,921 feet 3 inches) free stroke—Won by Norman Ross, United States. Time, 22:23⅕.
400 meters, (1,312 feet 4 inches) free style—Won by Norman Ross, United States. Time, 5:26⅘.
800 meters (2,624 feet 8 inches) relay—Won by United States. Time, 10:04⅘ (Olympic record).
200 meters (656 feet 2 inches) breast stroke—Won by Malmroth, Sweden. Time, 3:04⅘.
Spring board diving—Won by L. E. Kuehn, United States.

SWIMMING—WOMEN'S EVENTS.

100 meters (328 feet 1 inch)—Won by Ethelda Bleibtrey, United States. Time, 1:20 (new Olympic record for women).
300 meters (984 feet 3 inches)—Won by Ethelda Bleibtrey, United States. Time, 4:34 (new Olympic record for women).
400 meters (1,312 feet 4 inches) relay—Won by United States. Time, 5:11⅘.
300 meters (984 feet 3 inches) free style—Won by Ethelda Bleibtrey, United States. Time, 4:42⅘.
Spring board diving—Won by A. Riggen, United States.
Plain diving—Won by Fryland, Denmark.

ROWING.

2,000 meters eight oared race—Won by United States navy in 6 minutes 5 seconds from Leander crew, Great Britain; Leander's time, 6:05⅘.

Olympic Records.

Olympic records to date are as follows:
60 meter run—:07. A. C. Kraenzlein, Archie Hahn, W. Hogenson (1904).
100 meter run—:10⅘. S. F. Lippincott (1912). 200 meter run—:21⅘. Archie Hahn (1904).
400 meter run—:48. James E. Meredith (1912).
1,500 meter run—3:56⅘. A. S. Jackson (1912).
800 meter run—1:51 9-10. James E. Meredith (1912).
2,500 meter steeplechase—7:34. G. W. Orton.
4,000 meter steeplechase—12:58⅘. C. Reinmer, England.
Marathon race, 25 miles—2:32:35⅘. Hannes Kohlemainen, Finland (1920).
1,600 meter relay—3:16⅘. United States (1912).
110 meter hurdle race—:14⅘. Earl Thomson, Canada (1920).
200 meter hurdle race—:24⅘. H. Hillman (1904).
400 meter hurdle race—:54. Frank F. Loomis, United States (1920).
400 meter relay—:42⅕. United States (1920).
Running high jump—6 feet 4 inches, Alma W. Richards (1912).
Running broad jump—24 feet 11¼ inches, L. Gutterson (1912).
Standing high jump—5 feet 4 inches, Platt Adams (1912).
Standing broad jump—11 feet 4⅘ inches, Ray C. Ewry (1904).
Standing triple jump—36 feet 1 inch, Peter O'Connor (1906).
Pole vault—13 feet 5⅛ inches, Frank Foss, United States (1920).
Running hop, skip and jump—48 feet 11¼ inches, Ahearne, England (1908).
Putting 16-pound shot—50 feet 4 inches, P. J. McDonald (1912).
Throwing 16-pound hammer—180 feet 5 inches, M. J. McGrath (1912).
Throwing discus (Greek style)—148 feet 1½ inches, A. R. Taipale (1912).
Throwing javelin (free style)—215 feet 8 inches, J. Myrra, Finland (1920).
Throwing javelin (middle)—179 feet 10½ inches, E. V. Lemming (1908).

TRAP SHOOTING.

GRAND AMERICAN HANDICAP.

The twenty-first annual Grand American handicap shoot at inanimate targets took place at Edgewater park, Cleveland, O., Aug. 23-28, 1920, under the auspices of the Cleveland Trapshooters' association. The chief event, the grand handicap, was won by Albert L. Ivins of Red Bank, N. J., with a score of 99 out of 100. He shot from the nineteen yard mark.

Winners of other important events at the tournament follow:
American amateur championship at single targets—Frank Wright, Buffalo, N. Y. Score 197 out of 200 and 25 in shoot off with Oscar Hansen, Fremont, Neb.
American amateur championship at double target—P. H. O'Brien, Butte, Mont. Score, 92 out of 100.
American amateur 18 yard championship—Mark Airie, Champaign, Ill. Score, 198 out of 200.
American professional championship—C. G. Spencer, St. Louis, Mo. Score, 195 out of 200 and 25-24 in shoot off with R. O. Heikes, Dayton, O.
Junior championship—Teddy Beem, Jr., West Frankfort, Ill. Score, 48 out of 50 and 23 in shoot off with C. O. Rice, Erie, Pa.
Preliminary handicap—H. K. Mitton, Fort Collins, Col. Score, 99 out of 100 and 25 in shoot off.
Forest City introductory—P. R. Earle, Starr, S. C. Score, 100 out of 100.
Columbus (Ga.), cup—R. H. Bungay, Ocean Park, Cal. Score 760 out of 800.
Women's championship—Mrs. J. H. Bruff, Pittsburgh, Pa. Score, 85 out of 100.
Class competition—Class 1, W. H. Hall, Mayville, Ky., 100; class 2, R. C. Miller, Lansing, Mich., 99; class 3, V. E. Crabtree, Greensboro, Ala., 99; class 4, W. Colbert, Stamford, Tex., 97.

Grand Handicap Winners.

Year.	Winner. Place.*	Yds.	Sc re.
1900	R. O. Heikes, New York, N. Y.	22	91
1901	E. C. Griffith, New York, N. Y.	19	95
1902	C. W. Floyd, New York, N. Y.	18	91
1903	M. Diefenderfer, Kansas City, Mo.	16	94
1904	R. D. Guptill, Indianapolis, Ind.	19	96
1905	R. R. Barber, Indianapolis, Ind.	16	99
1906	F. E. Rogers, Indianapolis, Ind.	17	94
1907	J. J. Blanks, Chicago, Ill.	17	95
1908	Fred Harlow, Columbus, O.	19	92
1909	Fred Shattuck, Chicago, Ill.	18	96
1910	Riley Thompson, Chicago, Ill.	19	100
1911	Harve Dixon, Columbus, O.	20	99
1912	W. E. Phillips, Sr., Spr'gfield, Ill.	19	96
1913	M. S. Hootman, Dayton, O.	17	97
1914	W. Henderson, Dayton, O.	22	98
1915	L. B. Clarke, Chicago, Ill.	18	96
1916	J. F. Wulf, St. Louis, Mo.	19	99
1917	C. H. Larson, Chicago, Ill.	20	98
1918	J. D. Henry, Chicago, Ill.	6	97
1919	G. W. Lorimer, Chicago, Ill.	18	93
1920	A. L. Ivins, Cleveland, O.	19	99

*Of tournament.

Tom Marshall won what corresponded to the Grand American handicap in 1897-1899 at Ellwood Park, N. J.

Amateur Champions at Single Targets.

Year.	Winner.	Place.	Yds.	Sc're.
1906	Guy Ward, Indianapolis, Ind		18	144
1907	H. M. Clark, Chicago, Ill		18	188

State Champions in 1920.

Following is a list of the state trap shooting champions in 1920 with the scores of each, 300 targets being shot at. Winners in state and divisional tournaments are entitled to contest for the American amateur championship at single targets at the grand handicap meet. The state, name of winner and score are given in order:

Alabama—J. K. Warren: 292.
Alberta—W. Holmes: 286.
Arizona—T. L. Edens: 285.
Arkansas—C. M. Farrell: 282.
British Columbia—A. R. Baker: 280.
Canada (eastern)—S. G. Vance: 294.
California—W. G. Warren: 293.
Colorado—C. A. Gunning: 292.
Connecticut—F. E. Watkins: 293.
Delaware—W. M. Ford: 294.
Florida—W. Boylston: 293.
Georgia—H. Freeman: 287.
Idaho—H. R. Seckel: 293.
Illinois—Mark Arie: 294.
Indiana—M. Dewire: 296.
Iowa—W. S. Hoon: 291.
Kansas—F. R. Etchen: 283.
Kentucky—F. B. Hillis: 288.
Maine—E. A. Randall: 285.
Manitoba—R. Dill: 253.
Maryland—E. Bartlett: 276.
Massachusetts—L. F. Curtis: 272.
Michigan—G. Slaughter: 287.
Minnesota—E. A. Richter: 293.
Mississippi—W. H. Griffin: 291.
Missouri—Harve Dixon: 294.
Montana—P. H. O'Brien: 292.
Nebraska—Oscar Hansen: 286.
New Hampshire—E. E. Reed: 278.
New Jersey—Fred Plum: 289.
New York—F. S. Wright: 283.
North Carolina—H. Morson: 280.
North Dakota—A. H. Chezik: 287.
Ohio—Fred Harlow: 292.
Oklahoma—E. Wheeler: 288.
Oregon—J. B. Troeh: 289.
Pennsylvania—Allen Heil: 294.
Rhode Island—E. Griffith: 278.
South Carolina—P. R. Earle: 288.
South Dakota—George Kreger: 295.
Tennessee—J. H. Noel: 295.
Texas—E. Woodward: 295.
Utah—C. Reilly, Jr.: 291.
Vermont—C. H. Burr: 277.
Virginia—W. D. Runnells: 292.
Washington—F. M. Troeh: 295.
West Virginia—J. B. Ballance: 289.
Wisconsin—Guy V. Dering: 293.
Wyoming—E. C. Ward: 286.

ZONE HANDICAP TOURNAMENTS (1920).

The United States was divided into zones in 1920, in each of which a championship trapshooting tournament was held in the course of the year under the auspices of the American Trapshooting association. The winners in the chief events at each meet follow:

Southern Zone Handicap—Held at Washington, D. C., May 19-21. Handicap won by H. C. Krout (19 yards). Maryland Line, Md., with 94 out of 100; Washington introductory won by Ed Hellyer, Jr., Alexandria, Pa., 146 out of 150; southern overture won by U. R. Brooks, Columbus, S. C., 72 out of 75; southern amateur championship at single targets won by W. N. Boylston, Leesburg, Fla., 290 out of 300.

Pacific Zone Handicap—Held at Walla Walla, Wash., June 13-16. Handicap won by J. F. Hayes (17 yards), Waitsburg, Wash., 97 out of 100; Pacific coast overture won by Oscar E. Lynch, Palouse, Wash., 99 out of 100; Pacific coast amateur championship in singles won by Frank M. Troeh, Vancouver, Wash., 297 out of 300 (from 23 yards).

Eastern Zone Handicap—Held at Lancaster, Pa., July 21-24. Handicap won by Frank Billmeyer (19 yards), Cumberland, Md., 95 out of 100; eastern overture won by David Wadsworth, Auburn, N. Y., 80 straight; eastern amateur championship at single targets won by David Wadsworth, 295 out of 300.

Great Lakes Zone Handicap—Held at Mason City, Iowa, July 26-29. Handicap won by George Nicolai (20 yards), Kansas City, Mo., 99 out of 100; great lakes overture won by B. C. Meents, perfect score of 100; great lakes championship on 300 targets won by E. C. Wheeler, with score of 296.

Prairie Zone Handicap—Held at Omaha, Neb., Aug. 30-Sept. 2. Handicap won by L. J. Crow (20 yards), Meriden, Iowa, 96 out of 100; Omaha introductory won by George Nicolai, Kansas City, Mo., with perfect score of 200; prairie overture won by A. R. Chezik, North Dakota, 100 straight.

AMATEUR WING SHOT CHAMPIONSHIP.

Frank M. Troeh of Vancouver, Wash., won the international amateur wing shot championship in the interstate trap tournament held in Kansas City, Mo., Feb. 9-15, 1920, with a score of 94. E. B. Melrath of Philadelphia, Pa., was second, with 92, and H. C. Herndon of Georgetown, Ky., third, with 91. Troeh took the first cash prize. He also won the 125 target race after shooting off a tie with P. H. O'Brien of Butte, Mont., each having scored 123 hits. In the shootoff he led 24 to 23. The Iowa team won the Interstate cup from the Missouri team. Harry Snyder of Kansas City won the national amateur wing shot championship after shooting off a 24 target tie with William Hoon of Jewell, Iowa. W. T. Craig of Jacksonville, Ill., and J. C. Norris of Butte, Mont.

NATIONAL AMATEUR CHAMPIONSHIP.

The fifteenth annual trapshooting tournament under the auspices of the New York Athletic club for the amateur championship of the United States took place May 8, 1920. The title was won by Jay Clark, Jr., of Worcester, Mass., who made a score of 197 out of a possible 200, equaling the record made by Fred Plum in 1918. Amateur champions since 1912:

Year.	Winner.	Score.
1912	B. M. Higgins	185
1913	C. H. Newcomb	179
1914	Ralph L. Spotts	188
1915	George L. Lyon	192
1916	Ralph L. Spotts	196
1917	C. H. Newcomb	191
1918	Fred Plum	197
1919	Fred Plum	194
1920	Jay Clark, Jr	197

WESTY HOGAN TOURNAMENT.

The fourteenth annual Westy Hogan shooting tournament took place at Atlantic City, N. J., Sept. 15-17, 1920. The Westy Hogan

amateur championship was won by Ben S. Donnelly of Chicago with a score of 99 out of 100 possible targets. The handicap was won by J. A. Prechtel of Cleveland, O., after shoot off with W. E. Crane of Hamilton, N. J., each having a score of 97. The DuPont 18 yard championship was won by Frank M. Troeh of Washington with 99 targets out of 100. The amateur average winner was S. M. Crothers of Philadelphia, Pa., with a total of 471 targets out of 480. The professional average winner was George N. Fish of Salisbury, N. C., with 464 targets out of 480.

SUNNY SOUTH HANDICAP.

In the Sunny South handicap tournament, held in Houston, Tex., Jan. 27-31, 1920, the preliminary handicap was won by Charles Beasley of Houston after shooting off a tie at 94 with J. D. Allen of Dallas, Tex. The main event, the Sunny South handicap, was taken by Otis Dorchester of Dallas, Tex., after a double shoot off with Daniels of Wichita Falls, Tex., each having a score of 95.

ILLINOIS STATE SHOOT.

The forty-fourth annual tournament of the Illinois State Sportsmen's association took place at the traps of the Lincoln Park Gun club, Chicago, June 17-20, 1920. The state championship at single targets was won by Mark Arie of Champaign with a total score of 294 out of a possible 300. Ed Silver of Chicago was second with a score of 293. Dr. Thomas H. Lewis of Chicago won state title at double targets by defeating Orin Pearn of Ashland, Ill., in a shoot off 14 to 11, after a tie at 79. Mark Arie won the Chicago Board of Trade diamond badge after shooting off (24 to 21) a tie at 94 with John Egerman of Naperville. Arie shot from the 22 yard mark and Egerman from the 16 yard mark. The Jefferson Hotel cup was won by A. C. Connor of Springfield with a perfect score of 50. In the contest at 50 single targets from 18 yards, Chan Powers was the winner after three shoot offs, 24 to 23. Mrs. A. H. Winkler of Chicago took the state women's title with a total of 260 targets.

The 1921 meet will be held in Decatur. The president of the association is T. A. Snell of Carlinville and the secretary-treasurer is Roy Moore of Decatur.

CHICAGO GRAND HANDICAP.

Year.	Winner.	Score.
1910	Albert Southward, Pecatonica, Ill.	94
1911	W. F. Riley, Chicago, Ill.	93
1912	Henry Carstens, Lowell, Ind.	93
1913	J. F. Caldwell, Concordia, Kas.	98
1914	Sam Hunter, Vancouver, B. C.	90
1915	P. J. Krueger, Blue Island, Ill.	95
1916	John Kammerman, Grant Park, Ill.	95
1917	J. H. May, Chicago, Ill.	98
1918-1919	No contests.	
1920	J. H. Schreeve, Joliet, Ill.	95

LEADING TRAPSHOOTERS IN 1919.

Official averages of twenty best amateur and professional trapshooters who shot at 2,000 or more registered targets in 1919:

Amateurs.

RIFLE SHOOTING.

CLASSIC EVENTS.

Following is a list of the men and teams winning important events at national rifle association tournaments in recent years:

President's Match.

1909—Midshipman Andrew D. Denny, U. S. navy.
1910—Sergt. W. A. Fragner, U. S. marine corps.
1911—Corp. C. A. Lloyd, U. S marine corps.
1912—Corp. Cedric B. Long, 5th Massachusetts infantry.
1913—Capt. W. H. Clopton, Jr., U. S. infantry.
1914—No contest.
1915—Andrew Hagen, gunnery sergeant, U. S. marine corps.
1916—Capt. W. Garland Fay, U. S. marine corps.
1917—No contest.
1918—Sergt. H. J. Hoffner, U. S. M. C.; score, 285.
1919—Sergt. J. B. Rhine, U. S. M. C.; score, 289.
1920—Lieut. Michael Fody, U. S. cavalry.

Wimbledon Cup.

1909—First Sergeant Victor H. Czegka, U. S. marine corps; score, 98.
1910—Capt. C. H. Emerson, 6th Ohio infantry; score, 99.
1911—Capt. C. H. Emerson, 6th Ohio infantry; score, 98.
1912—Capt. A. L. Briggs, 26th U. S. infantry; score, 97.
1913—Corp. Thomas E. Verser, 14th U. S. infantry; score, 99.
1914—No contest.
1915—Color Sergeant J. E. Jackson, 1st Iowa infantry; score, 98.
1916—Sergt. J. J. Andrews, U. S. marine corps; score, 99.
1917—No contest.
1918—Corp. F. L. Branson, U. S. M. C.; score, 92.
1919—J. W. Hessian, New York A. C.; 99.
1920—Lieut. L. A. Yancy, U. S. N.

Leech Cup.

1909—Lieut. J. L. Topham, 13th U. S. infantry; score, 103.
1910—Lieut. C. L. Sturdevant, U. S. engineers; score, 105.
1911—Lieut. S. W. Anding, 13th U. S. infantry; score, 103.

1912—Sergt. F. H. Kean, Massachusetts volunteer militia; score, 104.

1914—No contest
1915—Massachusetts, second team.
1916—4th U. S. M. C. team; score, 557.
1917 1918—No contests.
1919—U. S. M. C. Team No. 1; score, 536.
1920—U. S. M. C. Team No. 3; score, 589.

PALMA TROPHY.

There has been no contest for the Palma trophy since 1913. Record of event to date:

Year.	Country.	Score.
1876	United States	
1877	United States	3,334
1880	United States	1,292
1901	Canada	1,522
1902	Britain	1,447
1903	United States	1,570
1907	United States	1,712
1912	United States	1,720
1913	United States	1,714

CAMP PERRY COMPETITIONS.

The matches of the National Rifle association were shot at Camp Perry, O., Aug. 11-24, 1920. The winners and scores in the principal events follow:

The adjutant-general's cup—Won by J. W. Hessian, N. Y. A. C. Score, 42 consecutive bull's-eyes, or 225 points out of a possible 225 (world's record).
Leech cup match—Won by Sergt. T. B. Crawley, U. S. M. C. Score, 105.
Enlisted men's team match—Won by U. S. M. C. team No. 3. Score, 589.
Marine corps match—Won by J. J. Andrews, U. S. M. C. Score, 195.
Herrick trophy match—Won by Massachusetts civilian team. Score, 1,735 (world's record).
Members' match—Won by Sergt. T. B. Crawley, U. S. M. C. Score, 50 and 9 consecutive bull's-eyes.
Governor's match—Won by Capt. C. J. Van Amburgh, U. S. M. C. Score, 149.
Catrow cup match—Won by J. W. Hessian, N. Y. A. C. Score, 105 and 14 consecutive bull's-eyes.
Rapid fire match—Won by Lieut. V. L. James, U. S. infantry. Perfect score of 100
Grand aggregate match—Won by Sergt. T. B. Crawley, U. S. M. C. Score, 736
All round championship—Won by G. S. Hill, California. Score, 502 points.
International small bore rifle match for Dewar trophy—Shot by American team at Camp Perry and by English team in England. Won by American team by a score of 7,649 to 6,665 for England.
Civilian interclub match—Won by National Capital Rifle club, Washington, D. C. Score, 383.
Port Clinton trophy match for civilian teams—Won by Arizona. Score, 579.
Camp Perry trophy match—Won by W. H. Spencer, Missouri. Score, 191 points.
National rifle team match—Won by U. S. infantry team. Score, 3,305 points.
National individual rifle match—Won by Sergt. H. Whitaker, U. S. infantry. Score, 289.
United service match—Won by U. S. army team. Score, 4,447.
President's match—Won by Lieut. M. Body, U. S. cavalry. Score, 295.
Aerial match—Won by Pilot Lieut. O G. Kelly, U. S. A. and Observer Sergt. William Steckel. Score, 520 points.

SHOOTING AT SEA GIRT, N. J.

The twenty-seventh annual Sea Girt, N. J., interstate shooting tournament was held Aug. 30-Sept. 7, 1920. Winners and scores in principal events:

Cavalry team match—Won by troop D, 1st Massachusetts cavalry. Score, 364.
Company team match—Won by troop D, 1st Massachusetts cavalry. Score, 394.
Two man team match—Won by Lieut. C M. Easley and Lieut. J. B. Snell, U. S. infantry. Score, 183 out of possible 200.
Wingate short range rifle match—Won by Capt. R. O. Miller, U. S. A. infantry. Perfect score of 10.
Columbia team match—Won by 6th New Jersey infantry. Score, 1,302.
Company team match—Won by New Jersey cavalry squadron team. Score, 134.
Dryden trophy match—Won by U. S. infantry team. Score, 1,119.
McAlpin trophy match—Won by Massachusetts team. Score, 1,090.
Swiss match—Won by Sergt. F. Joerger, U. S. infantry. Score, 89 consecutive bull's-eyes at 500 yards (world's record).
Eisner match—Won by Machine Gunner C. A. Lloyd, U. S. M. C. Score, 91.
Hays match—Won by Capt. H. L. Smith, U. S. M. C. Perfect score of 50.
Sea Girt championship match—Won by Private R. L. Jennings, U. S. M. C. Score, 192.

KING'S PRIZE AT BISLEY.

The king's prize, the chief event at the Bisley, England, rifle competitions, was won in August, 1920, by Sergt. F. H. Morgan of the Witwatersrand rifles, South Africa, with a score of 281. There were more than 800 competitors in the match. The grand aggregate prize was won by Lieut. A. E. Martin of the Royal Army Service corps with a score of 645.

PISTOL SHOOTING.

The following pistol matches were decided at Camp Perry competitions in August, 1920:

Individual quick fire re-entry match—Won by Lieut. W. J. Wahling, U. S. M. C. Score, 392.

Individual rapid fire match—Won by I. R. Calkins, Springfield Revolver club. Score, 98.
Individual slow fire match—Won by W. C. O'Neil, U. S. M. C. Perfect score of 100.
N. R. A. individual match—Won by Gun Sergt. J. M. Thomas, U. S. M. C. Score, 96.
N. R. A. team match—Won by U. S. M. C. team No. 1. Score, 1,327.

TWENTY-FOUR HOUR RECORD.

Joe Dawson in a Chalmers car made a world's record for twenty-four hours by running 1,900¼ miles on the Sheepshead Bay speedway Aug. 2, 1917. The best previous record was 1,819 miles by Ralph Mulford on the same track May 1-2, 1916.

ONE-HOUR RECORD.

Driving a Packard on the Sheepshead Bay speedway at New York Nov. 12, 1917, Ralph de Palma made 112.4 miles in one hour. The best previous record was 107 miles by Jean Chassagne on the Brooklands track, England, in 1910.

TRANSCONTINENTAL RECORDS.

The coast to coast records were established in 1916. In order of their occurrence the performances were as follows:

Robert Hammond in an Empire car drove from San Francisco to New York, a distance by the route taken of 3,384 miles, in 6 days 10 hours 59 minutes May 16-23. This lowered the record set the previous week by a Cadillac eight cylinder car, which made the trip from Los Angeles to New York in 7 days 11 hours 52 minutes.

Driving a Marmon 34, S. B. Stevens arrived in San Francisco at 5 p. m., July 29, just 5 days 18 hours 30 minutes out from New York city.

W. F. Sturm, driving a Hudson Super-Six, made the distance from San Francisco to New York in 5 days 3 hours 31 minutes Sept. 13-18 and then made the return trip in 5 days 17 hours 32 minutes, making the time for the round trip 10 days 21 hours 3 minutes. The distance traveled was 6,592 miles.

CHICAGO-NEW YORK RECORD.

"Cannonball" Baker made the distance between New York and Chicago, 1,045 miles by the route he took, in 26 hours 50 minutes, June 23-24, 1920. The run was made in a Templar car under the auspices of the American Automobile association and in the interests of the army recruiting service. The best previous record was 31 hours flat, made in 1916 by B. F. Durham and Al Walden.

SPEEDWAY RACING IN 1920.

Following were the results of the principal speedway races in 1920.

Los Angeles, Cal., Feb. 28—250 mile race won by James Murphy in 2:26:17.60.

Indianapolis, Ind., May 31—500 mile race won by Gaston Chevrolet in 5:40:16.14.

Uniontown, Pa., June 19—225 mile race won by Tommy Milton in 2:22:44.37.

Tacoma, Wash., July 5—225 mile race won by Tommy Milton in 2:23:23.

Uniontown, Pa., Sept. 4—225 mile race won by Tommy Milton in 2:20:24.

ELGIN ROAD RACE.

The Elgin road race of 250 miles was run on Aug. 28, 1920, and was won by Ralph de Palma in 3:09:54, his average for the distance being 79.5 miles per hour. Tommy Milton was second in 3:11:05. De Palma in the same race broke the old lap record of 6:18, made by Spencer Wishart in a Mercer in 1913, covering the distance in 6:11. De Palma drove a Ballot machine.

DETROIT-CHICAGO RECORD.

Arthur Lee, driving a stock Essex touring car, covered the 300 miles between Chicago and Detroit in 8 hours 18 minutes, July 1, 1920. The previous record of 8 hours 40 minutes was held by Ralph de Palma.

CYCLING.

BICYCLE ROAD MARATHON.

Ernest Kockler of the Alverno Athletic association won a bicycle marathon of 108.74 miles on Sunday, June 6, 1920. The course was from Milwaukee to Chicago with the terminus in Humboldt park, where the necessary mileage was made up by adding four extra circuits of the park. The names and time of the riders who finished follow:

Ernest Kockler, Alverno A. A.	5:33:41 2-5
Joseph Saelens, Belg.-Amer. C. A.	5:33:41 4-5
Walter Witzke, Alverno A. A.	5:42:12 3-5
Wm. Teichler, Frank. S. and A. C.	5:42:12 4-5
Jules Arens, Belg.-Amer. C. A.	5:42:13
Carl Saelens, Belg.-Amer. C. A.	5:42:13 1-5
Narciso Feliciani, North Ital. C. A.	5:42:13 2-5
Paul Van DeZande, Bel.-Am. C. A.	5:42:13 3-5

Warren Cotterell, Frank. S. & A. C. 5:57:30
Henry Losch, Rogers Park C. C.... 5:57:30 2-5

The race was a tryout of candidates for the Olympic road races in Belgium, those making the best time being eligible for further elimination trials in New York.

BICYCLE DERBY.

Larry Quirk of the Lightning Athletic club won the twenty mile handicap bicycle Derby of the Franklin Skating and Athletic club, Chicago, on Sept. 6, 1920, making the distance in 49:06 4-5. He had a time allowance of four minutes. The first time prize winner was M. Nolen of the same club, who rode the twenty miles in 47:32.

RECORD FOR OLYMPIC DISTANCE.

Record time for the official Olympic bicycle distance of 108.74 miles was made in New York, N. Y., July 11, 1920, by James B. Freeman of St. Louis. His time was 5:24:50.

AIRPLANE RECORDS.

HIGHEST ALTITUDES REACHED.

The record for height attained by airplane is held by Maj. R. W. Schroeder, who, at McCook field, Dayton, O., Feb. 17, 1920, rose to a height of 36,020 feet.

Following is a list of notable altitude flights since 1910:

Georges Legagneux, Pau, France, Dec. 9, 1910, 10,499 feet.
Arch Hoxsey, Los Angeles, Cal., Dec. 26, 1910, 11,474 feet (unofficial).
Capt. Felix, Etampes, France, Aug. 5, 1911, 11,330 feet.
Lincoln Beachey, Chicago, Ill., Aug. 20, 1911, 11,642 feet.
Roland G. Garros, Parame, France, Nov. 7, 1911, 13,943 feet.
Lieut. Blaschke, Vienna, June 29, 1912, 14,300 feet.
Roland G. Garros, Houlgate, Sept. 6, 1912, 16,076 feet.
Georges Legagneux, Villacoublay, Sept. 17, 1912, 17,881 feet.
Edmond Perreyon, Buc aerodrome, France, March 11, 1913, 19,650 feet.
Georges Legagneux, St. Raphael, France, Dec. 27, 1913, 19,300 feet.
Herr Linnekogel, Johannisthal, Germany, March 31, 1914, 20,564 feet.
Heinrich, Oelreich, Leipzig, Germany, July 14, 1914, 24,606 feet.
De Lloyd Thompson, Kansas City, Mo., Aug. 6, 1914, 15,600 feet.
Capt. H. LeR. Muller, San Diego, Cal., Oct. 8, 1914, 17,441 feet.
H. G. Hawker, Hendon, England, June 5, 1915, 20,000 feet.
H. G. Hawker, Brooklands, England, April 26, 1916, 24,408 feet.
Capt. W. A. Robertson, Jr., San Diego, Cal., May 12, 1917, 16,400 feet.
Miss Ruth Law, Peoria, Ill., Sept. 27, 1917, 14,701 feet (record for women).
Caleb Bragg, Port Washington, N. Y., Sept. 7, 1917, 12,900 feet, in hydroairplane carrying two passengers.
Lieut. M. B. Kelleher, with one passenger, Chicago, Ill., Sept. 8, 1918, 23,500 feet.
Capt. A. R. Schroeder, Dayton, O., Sept. 18, 1918, 28,900 feet.
Sable Lecointe, Villacoublay, France, May 20, 1919, 28,871 feet.
Lieut. Casale, France, May 28, 1919, 31,000 feet.
Lieut. Casale, France, June 7, 1919, 31,168 feet.
Lieut. Casale, France, June 14, 1919, 33,136 feet 5 inches.
Roland Rohlfs, Mineola, N. Y., July 25, 1919, 31,100 feet.
Roland Rohlfs, Mineola, N. Y., Sept. 13, 1919, 34,000 feet.
Roland Rohlfs, Mineola, N. Y., Sept. 18, 1919, 34,610 feet.
Maj. R. W. Schroeder, Dayton, O., Feb. 27, 1920, 36,020 feet.
Lieut. Harry Weddington, Kelly field, Tex., May, 29, 1920, 19,856 feet with four passengers.
Lieut. Harry Weddington, Kelly field, Tex., Aug. 6, 1920, 19,070 feet with seven passengers.

LONG NONSTOP FLIGHTS.

Capt. John Alcock and Lieut. Arthur W. Brown, British aviators, hold the record for the longest nonstop flight in a heavier-than-air machine. They crossed the Atlantic ocean June 14-15, 1919, from Newfoundland to Ireland, covering a distance estimated at 1,960 miles. Lieut. Roget of France made a flight of 1,375 miles on May 25, 1919. The NC-4 of the American navy made a flight of 1,219 miles in crossing the Atlantic from Newfoundland to the Azores May 16-17, 1919. The British dirigible R-34, which crossed the Atlantic from east to west and west to east in July, 1919, holds the record for the longest nonstop flight by a craft of that type—more than 3,200 miles.

On June 27, 1920, J. M. Larsen, in a J. L. all metal machine, piloted by Bert Acosta, flew from Omaha, Neb., to Lancaster, Pa., a distance of about 1,200 miles, without a stop. This was claimed to be an American record.

RECORD FOR SPEED.

No thoroughly reliable record of the best speed made by an airplane is available. Here is a list of some of the claims made in 1920:

Feb. 27—Lieut. Prakpapa, at Turin, Italy, 162 miles an hour with four passengers.
Feb. 29—Aviator Casale, near Paris, France, 283 kilometers (175.46 miles) an hour.
Oct. 9—Capt. de Romanet, at Buc, France, 292.82 kilometers (181.55 miles) an hour.
Oct. 10—Sadi Lecointe, at Buc, France, 296.69 kilometers (183.95 miles) an hour.

AIRPLANE RACING.

James Gordon Bennett Cup.

The contests for the James Gordon Bennett cup, beginning in 1909 but suspended from 1914 to 1919, on account of the war, were resumed in 1920 at Etampes, France. The event was won by Sadi Lecointe, a French aviator, who covered the course of 300 kilometers, or 186.3 miles, in 1 hour 6 minutes 17½ seconds, the fastest time made in any of the contests for the trophy. France, having won the cup three consecutive times, gained permanent possession of it. Winners of cup to date:

1909—Glenn H. Curtiss, America.
1910—Claude Grahame-White, England.
1911—Charles T. Weymann, America.
1912—Jules Vedrines, France.
1913—Maurice Prevost, France.
1914-1919—No racing.
1920—Sadi Lecointe, France.

Intercollegiate Contest.

Yale, with a total of 9 points, won the first intercollegiate aerial field day held at Mineola, N. Y., May 7, 1920. Williams college was second with 6 points and Princeton and Columbia were tied for third with 5 points each.

LONG AIRPLANE FLIGHTS.

Cairo to Cape.

The first aviators to cross the African continent from north to south were Col. van Ryneveld and Maj. Brand, but in making the long flight they had to use three machines, two being disabled on the way. The first was a Vickers-Vimy airplane, which was named Silver Queen I. In this they flew from Brook-

lands, England, to Cairo, Egypt, crossing the Mediterranean in a severe storm. On the southward journey from Cairo to Cape Town the machine crashed near Wady Halfa, and was so badly damaged that the aviators had to return to Cairo, secure a new Vickers-Vimy plane and start the journey over again. This time they got as far as a point near Bulawayo when their machine, which they had named Silver Queen II., was wrecked in making a forced landing. The pilots, having covered 3,880 miles of the trip, were determined to complete it, and they were assisted by the Union of South Africa government, which sent them a new machine called the Voortrekker (Pioneer). In this they finally reached Cape Town, where they were welcomed by large crowds and entertained by Lord Buxton, governor-general of the Union, and Gen. Smuts.

Col. van Ryneveld and Capt. Brand are both South African Dutchmen who made fine records in the great war. Their whole trip was an adventurous one and they had several narrow escapes from disaster. Leaking water jackets, together with the heat and high altitudes, caused most of the trouble. The chief stages of their flight from Brooklands, England, to Cape Town are shown in the following diary:

Feb. 4—Silver Queen I. flies from Brooklands to Turin.
Feb. 5—Rome reached.
Feb. 8—Sollum (Western Egypt) reached after crossing the Mediterranean in a storm, the journey from Taranto taking 14 hours.
Feb. 9—Cairo reached.
Feb. 10—Cairo left at 11.36 p. m. on a nonstop flight to Khartum.
Feb. 11—Silver Queen I. crashes at Wady Halfa. Machine wrecked but engines salved undamaged.
Feb. 16—Col. van Ryneveld and Capt. Brand return to Cairo.
Feb. 22—New start from Cairo on Silver Queen II., fitted with engines of Silver Queen I. Descent at Wady Halfa owing to head wind.
Feb. 23—Khartum reached. Machine detained by engine trouble.
Feb. 25—Flight from Khartum to Mongalla.
Feb. 26—Silver Queen II. reaches Kisumu (Victoria Nyanza).
Feb. 27—Flight from Kisumu to Shirati (89 miles only).
Feb. 28—Nonstop flight from Shirati to Abercorn, Northern Rhodesia.
Feb. 29—From Abercorn to N'Dola.
March 2—Livingstone (just above the Victoria Falls) reached. Machine detained by heavy rain.
March 5—Flight from Livingstone to Bulawayo.
March 6—Silver Queen II. crashes a mile from Bulawayo when starting for Pretoria. Col. van Ryneveld and Capt. Brand remain at Bulawayo pending arrival of a new machine sent from the Cape.
March 17—Col. van Ryneveld and Capt. Brand leave Bulawayo on the Voortrekker (the machine which replaced Silver Queen II.) and fly to Pretoria.
March 18-20—Flight continued from Pretoria to Cape Town by way of Bloemfontein; arrival at Cape Town 4 p. m., March 20.

The total distance traveled from London to Cape Town was about 7,500 miles by the route followed. From Cairo to Cape Town the distance covered was 5,206 miles. The total actual flying time from Brooklands to Cape Town was only 4 days 13 hours and 30 minutes, but the journey as shown by the diary took about seven weeks.

London Times Flight Fails.

Under the auspices of the London Times an attempt was made to make an airplane flight from Cairo, Egypt, to Cape Town, South Africa, a distance of 3,220 miles, in the spring of 1920. The machine used was a Vickers-Vimy-Rolls commercial, having a speed of from 99 to 115 miles an hour and a nonstop flight capacity of 1,000 miles. The pilots were Capt. S. Cockerell and Capt. F. C. Broome, Sergt.-Maj. J. Wyatt was the mechanic and Claude Corby the rigger. Prof. P. Chalmers Mitchell, D. Sc., LL. D., F. R. S., was the scientist and correspondent of the expedition, after the start from Cairo, to which place he went by the ordinary means of travel. The machine with the others left Brooklands, England, Jan. 24, and flying by way of Lyons, Marseilles, Rome, Malta, Tripoli and Benghazi arrived at the aerodrome near Cairo, Egypt, Feb. 3.

Leaving Cairo on Feb. 6 the party arrived at Assuan, 425 miles distant, the same day after a forced descent at Luxor for repairs. The 7th was spent at Assuan in repairing a leaking water jacket. On the following day Khartum, 1,044 miles from Cairo, was reached, after two forced descents on account of faulty engine. On this flight an interesting discovery of a volcanic field between Old Meroe and Berber was made. Feb. 9 was devoted to further repairs and the next day's flight brought the machine to a point northeast of Renk, where the craft landed in a dry swamp. Here the aviators had to sleep in the open. The next day they returned to Jebelein, 1,252 miles from Cairo, for repairs. Two days later (Feb. 14) another start was made and some progress was made in spite of leaky engines, terrific heat and forced landings in rough clearings in the jungle. The night was again spent in the open. Mongalla, 1,730 miles from Cairo, was reached on the afternoon of Feb. 15. Considerable time was lost here in tinkering with the leaky engines and the flight was not resumed until the 20th, when a point near Nimule was reached. In sleeping around a camp fire that night the aviators were much disturbed by lions. The next day the machine could not rise and another night had to be spent in the jungle.

On Feb. 22 the party had better luck. The machine worked well for a time, taking the aviators across the Nile at Murchison falls and thence to Jinja. Here another day was lost, but on the 24th Kisumu, 2,246 miles from Cairo, was reached. On the 25th the machinery was overhauled once more and on the 26th Tabora, 2,678 miles from Cairo, was reached. At this point in Tanganyika territory, which was wrested from the Germans in the war, the flyers thought their troubles were nearly over, as what was looked upon as the worst part of the route had been traversed, but on the next day, just after making a second attempt to leave the ground, the machine crashed on some ant hills and was so badly damaged that all thought of resuming the flight was abandoned. Two of the crew were slightly injured. But for the defective engines the flight would probably have been completed without great difficulty.

Night Flight Across the Mediterranean.

One of the notable aerial performances in 1920 was a night flight across the Mediterranean sea from Gioja dal Colle, near Taranto, in southern Italy, to Sollum on the Egyptian coast, a distance in a direct line of about 650 miles. This feat was accomplished in a Vickers-Vimy airplane, called the Silver Queen and piloted by Col. Van Ryneveld and Capt. Brand, who were attempting to fly from England to South Africa, their home, by way of the trans-African route from Cairo to Cape Town. They left the Italian coast at 9:30 p. m., Feb. 6, with enough gasoline for a nonstop flight of 14 hours at cruising speed. Their course

was toward the southeast, passing Greece and Crete, but they saw no land until after a night of terrible weather they reached the African shore near Derna, Cyrenaica, at 8:30 in the morning. They landed in a field and after a short rest proceeded eastward to Sollum. The flight over the water had taken 11 hours or only about 5 hours less time than it had taken Sir John Alcock and Sir A. W. Brown to cross the Atlantic, a distance of nearly 2,000 miles—a fact eloquently demonstrating the severity of the weather which the daring South African airmen encountered.

The Silver Queen arrived at Heliopolis near Cairo on Feb. 9 and late in the evening of the 10th started south. It had covered about 530 miles when it was forced by water trouble to come down on bad ground near Korosko and was so badly smashed that further progress was out of the question. The pilots escaped without serious injury.

From Mineola, N. Y., to Nome, Alaska.

Under the auspices of the United States army an airplane flight from Mineola, N. Y., to Nome, Alaska, was made in the summer of 1920. The distance covered was 4,345 miles. Four planes, under command of Capt. St. Clair Street, took part in the expedition. The start was made on July 15 and all the four machines landed at their destination on the afternoon of Aug. 23. The actual flying time was 55 hours. The route was by way of Erie, Pa.; Grand Rapids, Mich.; Winona, Minn.; Fargo, N. D.; Portal, N. D.; Saskatoon, Edmonton, Jasper, Prince George and Hazelton, Canada, and Wrangell, White Horse, Dawson, Fairbanks and Ruby, Alaska. The machines used were of the DeHaviland-4B type. The return trip was by the same route, making the total distance traveled 8,690 miles. The planes arrived back at Mineola, N. Y., Oct. 20.

From England to Australia.

Capt. Ross Smith, an Australian aviator, flew from London to Australia late in 1919. He left London Nov. 12 and, going by way of Paris, Rome, Saloniki, Cairo, Damascus, Delhi, India, Rangoon and Singapore, arrived at Port Darwin on Dec. 10, having covered a distance of 11,500 miles. For this performance he received $50,000. He subsequently flew to Melbourne, arriving there Feb. 25, 1920, making his total mileage from London approximately 13,000 miles.

From Rome to Tokyo.

Lieut. Masiero and Lieut. Ferrari, Italian aviators, left Rome Feb. 14, 1920, and arrived in Tokyo, Japan, May 31, after a flight of 12,000 miles. Their route was along the coasts of British India and China. When they arrived at the landing field at Tokyo they were greeted by a crowd of 100,000 people. Masiero's actual flying time was 93 hours 51 minutes, and Ferrari's 94 hours 55 minutes.

Across the Sahara Desert.

Maj. Vuilleman and Lieut. Chalus, French aviators, arrived at Dakar, West Africa, April 2, 1920, after having flown across the Sahara desert, a distance of 3,500 miles.

BALLOONING.

BENNETT CUP RECORD.

Year.	Winner.	Distance.
1906	America (American)	402 miles
1907	Pommern (German)	880 miles
1908	Helvetia (Swiss)	620 miles
1909	America II. (American)	695 miles
1910	America II. (American)	1,171 miles
1911	Berlin II. (German)	471 miles
1912	Picardie (French)	1,354 miles
1913	Goodyear (American)	400 miles
1914-1919	No contests.	
1920	Belgica (Belgian)	1,100 miles

Four nations were represented by seven balloons entered in the James Gordon Bennett balloon race in 1920. The United States had three entrants, Italy two and France and Belgium one each. The start was made at Birmingham, Ala., Oct. 23. Belgica, the Belgian entry, piloted by Lieut. de Muyter and Lieut. Labrousse, landed at North Hero island, Vermont, Oct. 25, after covering a distance of 1,100 miles, and was declared the winner. The American balloon, Kansas City II., in charge of H. E. Honeywell and Jerome Kingsbury, landed at Tongue mountain, Lake George, N. Y., Oct. 25. It was placed second in the race with a distance of about 1,000 miles. This balloon was the winner in the elimination race, which began at Birmingham, Ala., Sept. 25. Its mileage then was 700.

RECORD FOR DISTANCE.

The record for distance traveled in a balloon in continuous flight in a race is held by Maurice Benaims of France, who made 1,354 miles in contesting for the James Gordon Bennett cup Oct 27-29, 1912. In 1900 Count de la Vaux made a journey of 1,193 miles and in 1910 Alan R. Hawley and Augustus Post covered 1,171 miles.

Hans Berliner with two passengers made a balloon flight Feb. 8-16, 1914, from Bitterfeld, Germany, to Kirgischansk, in the Ural mountains, Russia. The distance is approximately 1,800 miles.

RECORD FOR HEIGHT.

The record for height made in an ordinary gas balloon is 28,750 feet. It was made by Prof. Berson of Berlin Dec. 4, 1894. A record of nearly 33,000 feet was claimed for the French balloon Icare in 1913.

The world's dirigible balloon record for altitude is 9,514 feet. It was made by the French dirigible Clement-Bayard III. May 20, 1912. The balloon carried six passengers.

FLY AND BAIT CASTING.

NATIONAL AMATEUR CASTING ASSOCIATION RECORDS.

Light tackle accuracy fly—100%; F. E. Moffett, J. E. Amman and I. H. Bellows.

Light tackle dry fly accuracy—100%; I. H. Bellows and Dr. Halford J. Morlan.

Heavy tackle accuracy fly—100%; Dr. C. O. Dorchester.

Salmon fly, longest cast—157 feet; Dr. Halford J. Morlan.

Salmon fly, average for five casts—142 feet; Dr. Halford J. Morlan.

Salmon fly, average for three casts—147⅓ feet; Dr. Halford J. Morlan.

Hobble distance fly, average for five consecutive shoots—34 feet; Dr. Halford J. Morlan.

Hobble distance fly, longest single shoot—46 feet; Dr. Halford J. Morlan.

Hobble distance fly, longest cast—115 feet; Dr. Halford J. Morlan.

Light tackle distance fly, longest cast—125 feet; Dr. Halford J. Morlan.

Light tackle distance fly, average for five casts—114⅗ feet; Dr. Halford J. Morlan.

Light tackle distance fly, average for three casts—119 feet; Dr. Halford J. Morlan.

Delicacy and accuracy fly—99 20-30%; L. E. DeGarmo.

¼ ounce accuracy bait—99.7%; F. E. Moffett, L. E. DeGarmo and J. E. Amman.

⅛ ounce accuracy bait—99.7%; F. E. Moffett.

Pork chunk, fishing tackle, heavy line—98.6%; L. E. DeGarmo.

½ ounce accuracy bait (unknown distances)—99.6%; J. E. Amman.

½ ounce distance bait (average five casts)—218½ feet; F. E. Moffett.

½ ounce distance bait (longest cast)—236 feet; F. E. Moffett.
¼ ounce distance bait (average five casts)—180⅝ feet; F. E. Moffett.
¼ ounce distance bait (longest cast)—195 feet; F. E. Moffett.
All around American champion—Dr. Halford J. Morlan.
National Amateur Casting Association—President, Dr. H. J. Morlan, 30 North Michigan avenue, Chicago; secretary, F. E. Moffett, 225 East Illinois street, Chicago.

NATIONAL ASSOCIATION RECORDS.

[Compiled by Fred N. Peet, 214 West Huron street, Chicago, Ill.]

Following are the records made under the rules of the National Association of Scientific Angling Clubs:

All round championship fly and bait casting—William Stanley, 26 demerits, Chicago, Aug. 29 to Sept. 1, 1919.
Salmon casting—Fred N. Peet, 162 feet (rod 15 feet), San Francisco, Cal., Aug. 13, 1915.
Long distance fly—Walter D. Mansfield, 134 feet (rod unlimited), San Francisco, Cal., Aug. 15, 1915.
Long distance fly—H. C. Golscher, 116 feet (5 ounce rod), San Francisco, Cal., Aug. 12, 1915.
Long distance fly—C. J. McCarthy and W. C. Luebbert, 115 feet (4 ounce rod), Chicago, Aug. 31, 1919.
Dry fly delicacy and accuracy at buoys 35, 40 and 45 feet—Fred N. Peet, 99 7-30%, Racine, Wis., Aug. 15, 1907.
Distance and accuracy at buoys 50, 55 and 60 feet—T. A. Forsyth, 99 13-15%, Chicago, Aug. 18, 1910.
Accuracy fly at buoys 45, 50 and 55 feet (5¾ ounce rod)—Wm. Luebbert, 99 14-15%, Columbus, O., Sept. 3, 1920.
Dry fly accuracy at buoys 20, 27*, 35, 42*, 50 feet—F. Kleinfeldt, 99 10-15% (5 ounce rod), Chicago, Sept. 6, 1914, and William Stanley, 99 10-15%, Chicago, Aug. 23, 1918.
½ ounce accuracy bait at buoys 60, 70, 80, 90 and 100 feet—F. A. Smithby, 99 7-10%, Chicago, Aug. 25, 1918.
¼ ounce accuracy bait at buoys 60, 65, 70, 75, and 80 feet—William Stanley, 99 6-10%. Chicago, Sept. 1, 1919.
½ ounce long distance bait—B. F. Flegel, 222 feet 1 inch (average 5 casts), Chicago, Sept. 7, 1914.
¼ ounce long distance bait—B. F. Flegel, 177 feet 5 inches (average 5 casts). Chicago, Sept. 5, 1914.
½ ounce long distance bait casting, longest cast—C. E. Lingenfelter, 274 feet, Chicago, Aug. 30, 1919.
½ ounce slam event (longest cast in five)—Oscar Lane, 240 feet, San Francisco, Cal., Aug. 14, 1915.
⅝ ounce long distance bait, average 5 casts—F. Kleinfeldt; 177 feet, Columbus, O., Sept. 3, 1920.
¼ ounce slam event (longest cast in five)—Fred N. Peet, 153 feet, San Francisco, Cal., Aug. 13, 1915.
Two handed surf casting, 2½ ounce—F. B. Rice, 269⅝ feet, New York, Aug. 21, 1909.

American Records.

Salmon casting (world record)—Fred N. Peet, 162 feet (15 foot rod), San Francisco, Cal., Aug. 13, 1915.
Switch fly casting—H. W. Hawes, 102 feet, Central park, New York, 1887.
Long distance fly casting (heavy rod)—W. D. Mansfield, 134 feet; rod 11 feet, 10 ounces; San Francisco, 1915.
Long distance fly casting (5 ounce rod)—W. D. Mansfield, 129 feet 6 inches; San Francisco, 1902.
Dry fly casting for delicacy and accuracy at buoys 35, 40 and 45 feet—Fred N. Peet, 99 5-15%, at Kalamazoo, Mich., Aug. 3, 1906.
Long distance bait casting, ¼ ounce, longest cast—B. F. Flegel, 193 feet 4 inches, Chicago Sept. 5, 1914.
Long distance bait, ½ ounce, longest cast—C. E. Lingenfelter, 274 feet, Chicago, Aug. 30, 1919.
National Association of Scientific Angling Clubs—President, C. C. Loucke, Chicago; secretary, J. E. Lane, Chicago.

Surf Casting Records.

Recognized by Association of Surf Angling Clubs of the United States.

Longest single cast, any event, 4 ounce lead—461 feet 10 inches, made by Harold G. Lentz, Anglers' club of Ocean City, N. J., July 31, 1920. (World's record.)
Average 5 casts, open field, 4 ounce lead—434 feet 11 3-5 inches, made by Harold G. Lentz, Anglers' club of Ocean City, N. J., July 31, 1920. (World's record.)
Average 5 casts, V-shaped court, 4 ounce lead—368 feet 3 2-5 inches, made by Howard Kain, Asbury Park F. C., at Asbury Park, N. J., Aug. 11, 1917.
Average 5 casts, 30 foot lane, 3 ounce lead—331 feet 8 2-5 inches, made by John C. Clayton, Asbury Park F. C., at Belmar N. J., Aug. 19, 1916.
Average 5 casts, 30 foot lane, 4 ounce lead—334 feet 1 2-5 inches, made by William E. Sylvester, Belmar F. C., at Belmar, N. J., Aug. 28, 1915.
Distance, accuracy, down a straight line, with distance lead falls aside of line deducted from length of cast, 4 ounce lead, average 5 casts—366 feet 7 1-5 inches, made by Howard Kain, Asbury Park F. C., at Ocean City, N. J., Aug. 18, 1917.
Accuracy, nearest cast to stake, 140 ft. distance—Gus Wollman, Asbury Park F. C., touched stake at Belmar, N. J., Aug. 25, 1917.
Women, longest single cast of 5, open field, 4 ounce lead—238 feet 10½ inches, Mrs. C. Y. Cooper, Belmar, N. J., Aug. 28, 1915.
Women, average of 3 casts, open field, 4 ounce lead—232 feet 7 inches, Miss Elizabeth M. Gallaher at Belmar, N. J., Aug. 16, 1919.
Women, average of 5 casts, open field, 4 ounce lead—204 feet 7 inches, Mrs. C. Y. Cooper, Belmar, N. J., Aug. 28, 1915.

ROQUE.

NATIONAL CHAMPIONSHIP.

Edward Clark of Springfield, Mass., won the national championship at roque in the tournament of the National Roque association held at Norwich, Conn., ending Aug. 21, 1920. He was tied with C. G. Williams of Washington, D. C., each having won five straight victories, but in the final matches took two out of three games.

The national association on Aug. 20 voted to join the American Roque league as the eastern division.

AMERICAN LEAGUE CHAMPIONSHIP.

The ninth annual tournament of the American Roque league was held in Washington, Lincoln and Garfield parks, Chicago, July 20-24, 1920. The diamond medal was won by Herbert Sime of Chicago with 344 points in twelve games. Harry Lyman of Kansas City was second with 318 points. Edward Clark of Springfield, Mass., led in the first division.

LINCOLN PARK TOURNAMENT.

In the Lincoln park (Chicago) roque tournament held Aug 2-7, 1920, Frank C. Jones was the winner in the first division and Abel Jacobsen in the second division. Both had perfect scores.

FOOTBALL RESULTS IN 1920.

WINNERS OF THE NOBEL PRIZES.

PHYSICS.

1901—William Conrad Roentgen, professor of physics at the University of Munich.
1902—Divided equally between Henrik Anton Lorentz, professor of physics at the University of Leyden, and Peter Zeeman, professor of physics at the University of Amsterdam.
1903—Half to Antoine Henri Becquerel, professor of physics at the Ecole Polytechnique and at the Musee d'Histoire Naturelle, Paris, France, member Institut Francais, and half to Pierre Curie, professor of physics at the University of Paris (Sorbonne) and teacher in physics at the Paris Municipal School of Industrial Physics and Chemistry, and his wife, Marie Sklodovska Curie, preceptress at the Higher Normal School for Young Girls at Sevres.
1904—Lord Rayleigh, professor of natural philosophy, Royal Institute of Great Britain, London.
1905—Philippe Lenard, professor of physics at the Physical Institute of Kiel.
1906—J. J. Thomson, professor of experimental physics at the University of Cambridge.
1907—Albert A. Michelsen, professor of physics at the University of Chicago.
1908—Prof. Gabriel Lippman of the University of Paris.
1909—G. Marconi, Italy, and Prof. Ferdinand Braun of Strassburg.
1910—Johannes Diderik van der Waals, professor of experimental physics in the University of Amsterdam, Holland.
1911—Prof. Wilhelm Wiem, University of Wuerzburg.
1912—Gustaf Dalen, Swedish engineer.
1913—Prof. H. Kamerlingh Onnes, University of Leyden.
1914—Prof. Max von Laue, Germany.
1915—Prof. William H. Bragg and W. L. Bragg, Cambridge, England.
1916—Prof. C. G. Barkla, University of Edinburgh.
1918—Prof. Max Planck, University of Berlin.
1919—Prof. Hermann Starke, University of Greifswald.

MEDICINE.

1901—Emil Adolf von Behring, professor of hygiene and medical history at the University of Marburg, Prussia.
1902—Donald Ross, professor of tropical medicine at the University college of Liverpool.
1903—Niels Ryberg Finsen, professor of medicine, Copenhagen, Denmark.
1904—Ivan Petrovic Pawlow, professor of physiology in the Military Academy of Medicine, Petrograd, Russia.
1905—Robert Koch, member of the Royal Academy of Science, Berlin.
1906—Profs. Ramon y Cajal and Camillo Golgi of the Pavia university, Italy.
1907—Charles L. A. Laveran of Paris.
1908—Dr. Paul Ehrlich of Berlin and Prof. Elie Metchnikoff of Paris.
1909—Prof. F. T. Kocher, Switzerland.
1910—Dr. Albrecht Kossel, professor of physiology, Heidelberg university, Germany.
1911—Allvar Gullstrand, professor of diseases of the eye, Upsala university, Sweden.
1912—Dr. Alexis Carrel of the Rockefeller Institute for Medical Research, New York, N. Y.
1913—Prof. Charles Richet, University of Paris.
1914—Dr. Robert Barany, Vienna, Austria.
1919—Dr. Jules Bordet, Brussels.
1920—Prof. August Krogh, Copenhagen.

CHEMISTRY.

1901—Jakob Hendrikvan't Hoff, professor of chemistry in the University of Berlin.
1902—Emil Fischer, professor of chemistry in the University of Berlin.
1903—Svante August Arrhenius, professor at the University of Stockholm.
1904—Sir William Ramsay, professor of chemistry in the University college, London.
1905—Adolf von Baeyer, professor of chemistry at Munich.
1906—H. Moissan, professor of chemistry at the Sorbonne, Paris.
1907—Eduard Buchner, professor of chemistry in the agricultural high school of Berlin.
1908—Prof. Ernest Rutherford of the University of Manchester, England.
1909—Prof. W. Ostwald of Leipsic.
1910—Otto Wallach, professor of chemistry in the University of Gottingen.
1911—Mme. Marie S. Curie, professor of sciences, University of Paris.
1912—Prof. Grignard, Nancy university, and Prof. Paul Sabatier, Toulouse university.
1913—Prof. Alf'd Werner, University of Zurich.
1914—Prof. T. W. Richards, Harvard university.
1915—Dr. R. Willstaetter, Berlin, Germany.
1918—Prof. Fritz Haber, University of Berlin.

LITERATURE.

1901—Rene Francois Armand Sully-Prudhomme, member of the French Academy.
1902—Theodor Mommsen, a professor of history at the University of Berlin.
1903—Bjornstjerne Bjornson, author, Norway.
1904—Half to Frederic Mistral of France and half to Jose Echegaray of Spain.
1905—Henryk Sienkiewicz, author of "Quo Vadis?"
1906—Prof. Giosue Carducci of Bologna, Italy.
1907—Rudyard Kipling of England.
1908—Prof. Rudolf Eucken, University of Jena.
1909—Selma Lagerlof, Sweden.
1910—Paul Johann Ludwig Heyse, Germany.
1911—Maurice Maeterlinck, Belgium.
1912—Gerhart Hauptmann, German author and dramatist.
1913—Rabindra Nath Tagore, Hindu poet.
1915—Romain Rolland, French novelist.
1916—Verner Heidenstam, Swedish poet.
1917—Karl Gjellerup and M. Pontoppidan, Danish authors.
1920—Knut Hamsun, Norwegian author.

PEACE.

1901—Divided equally between Henri Dunant founder of the International Red Cross Society of Geneva, and Frederick Passay, founder of the first French peace association, the "Societe Francaise pour l'Arbitrage entre Nations."
1902—Divided equally between Elie Ducommum, secretary of the international peace bureau at Bern, and Alfred Gobat, chief of the interparliamentary peace bureau at Bern.
1903—William Randal Cremer, M. P., secretary of the International Arbitration league, London.
1904—The Institute of International Right, a scientific association founded in 1873 in Ghent.
1905—Baroness Bertha von Suttner, for her literary work written in the interest of the world's peace movement.
1906—Theodore Roosevelt, president of the United States, for the part he took in bringing the Russo-Japanese war to an end. Money set apart by the recipient for various public purposes.
1907—Divided equally between Ernesto T. Moneta, president of the Lombardy Peace union, and Louis Renault, professor of international law at the University of Paris.
1908—K. P. Arnoldsen of Sweden and M. F. Bajer of Denmark.
1909—Baron d'Estournelles de Constant, Paris, and M. Beernaert, Holland.
1910—International Permanent Peace bureau, Bern.
1911—Prof. T. C. M. Asser, Holland, and Alfred Fried, Austria.
1912—Elihu Root of New York.
1913—Henri la Fontaine of Belgium.
1917—International Red Cross, Geneva.

POSTAL INFORMATION.

DOMESTIC RATES.

First-Class Matter.

Rates of postage—Letters and other first-class matter 2 cents for each ounce or fraction thereof. Postcards and postal cards, 1 cent each.

"Drop letters," addressed for delivery at the office where mailed, 2 cents for each ounce or fraction thereof when deposited at postoffices where letter carrier service is not established. There is no drop rate on mail other than letters.

The limit of weight of first-class matter is four pounds.

First-class matter includes written matter, namely, letters, postal cards, postcards (private mailing cards) and all matter wholly or partly in writing, whether sealed or unsealed (except manuscript copy accompanying proof sheets or corrected proof sheets of the same and the writing authorized by law on matter of other classes). Also matter sealed or otherwise closed against inspection.

Second-Class Matter.

Rates of postage—Newspapers and periodical publications of the second class, when sent unsealed by others than the publisher or a news agent, 1 cent for each four ounces or fraction thereof on each separately addressed copy or package of unaddressed copies. To be entitled to this rate the copies must be complete. Incomplete copies are third-class matter.

Second-class matter includes newspapers and periodicals bearing notice of entry as second-class matter. No limit of weight is prescribed.

On and after July 1, 1918, the rate of postage on publications entered as second-class matter, when sent by the publisher or a news agent to subscribers or to other agents for the purpose of sale, on the portion of a publication devoted to other matter than advertisements, shall be 1¼ cents per pound or fraction thereof until July 1, 1919; after that 1½ cents per pound or fraction thereof; on the portion of a publication devoted to advertisements the rates per pound or fraction thereof for delivery within the several zones devoted to fourth class matter shall be: From July 1, 1918, to July 1, 1919, for the 1st and 2d zones, 1¼ cents; 3d zone, 1½ cents; 4th zone, 2 cents; 5th zone, 2¼ cents; 6th zone, 2½ cents; 7th zone, 3 cents; 8th zone, 3¼ cents; between July 1, 1919, and July 1, 1920, for 1st and 2d zones, 1½ cents; 3d zone, 2 cents; 4th zone, 3 cents; 5th zone, 3½ cents; 6th zone, 4 cents; 7th zone, 5 cents; 8th zone, 5½ cents; from July 1, 1920, to July 1, 1921, for 1st and 2d zones, 1¾ cents; 3d zone, 2½ cents; 4th zone, 4 cents; 5th zone, 4¾ cents; 6th zone, 5½ cents; 7th zone, 7 cents; 8th zone, 7¾ cents; after July 1, 1921, for the 1st and 2d zones, 2 cents; 3d zone, 3 cents; 4th zone, 5 cents; 5th zone, 6 cents; 7th zone, 9 cents; 8th zone, 10 cents.

In the case of newspapers entitled to be entered as second-class matter and published in the interest of religious, educational, scientific, philanthropic, agricultural, labor or fraternal organizations, not organized for profit, the rates, irrespective of the zone in which delivered (except where the same are deposited in a letter carrier office for delivery by its carrier, in which case the old rate prevails), shall be 1½ cents a pound or fraction thereof between July 1, 1918, and July 1, 1919, and after that 1¼ cents.

Third-Class Matter.

Rate of postage—On unsealed third-class matter the rate is 1 cent for each two ounces or fraction thereof on each individually addressed piece or package.

Third-class matter embraces circulars, newspapers and periodicals not admitted to the second class, nor embraced in the term "book," miscellaneous printed matter on paper not having the nature of an actual personal correspondence, proof sheets, corrected proof sheets and manuscript copy accompanying the same, and matter in point print or raised character used by the blind. (Books are included in fourth-class or parcel post mail.)

The limit of weight of third-class matter is four pounds.

Fourth-Class Matter (Domestic Parcel Post).

Fourth-class matter embraces that known as domestic parcel post mail and includes farm and factory products (and books) not now embraced by law in either the first or second class or (with the exception of books) in the third class, not exceeding seventy pounds in weight (when mailed for delivery within the first or second zones, nor exceeding seventy pounds in weight when mailed for delivery within any

of the other zones), nor greater in size than 84 inches in length and girth combined, nor in form or kind likely to injure the person of any postal employe or damage the mail equipment or other mail matter and not of a character perishable within a period reasonably required for transportation and delivery.

Rates of postage—To be fully prepaid—unsealed:

(a) Parcels weighing 4 ounces or less, except books, seeds, plants, etc., 1 cent for each ounce or fraction thereof, any distance.

(b) Parcels weighing 8 ounces or less containing books, seeds, cuttings, bulbs, roots, scions and plants, 1 cent for each 2 ounces or fraction thereof, regardless of distance.

(c) Parcels weighing more than 8 ounces, containing books, seeds, plants, etc., parcels of miscellaneous printed matter weighing more than 4 pounds, and all other parcels of fourth-class matter weighing more than 4 ounces are chargeable, according to distance or zone, at the pound rates shown in the zone table, a fraction of a pound being considered a full pound.

Zones—Parcel Post Guide and Maps.

For parcel post purposes the United States is divided into units of area thirty minutes square. Such units form the basis of the eight postal zones. To ascertain in which zone a postoffice is located from the office of mailing, a parcel post guide, costing 55 cents, and map, costing 20 cents, are jointly used. The guide applies to all offices, but a separate map is required for each unit. A zone key is furnished with the guide for use in the units of area in which some of the largest postoffices are located, and makes the map for those units unnecessary. The guide and maps may be purchased by sending a money order to the third assistant postmaster-general, Washington, D. C. Stamps are not accepted.

Insurance of Fourth-Class Mail.

Fees and conditions—Fourth-class or domestic parcel post mail (but no other) may not be registered but may be insured against loss in an amount equivalent to its actual value, but not to exceed $5 in any one case, on payment of a fee of 3 cents; not to exceed $25 on payment of a fee of 5 cents; not to exceed $50 on payment of a fee of 10 cents, or not to exceed $100 on payment of a fee of 25 cents, in addition to the postage, both to be prepaid by stamps affixed.

Collect-on-Delivery Service.

Conditions and fee—Parcels of fourth-class or parcel post matter (but no other) may be sent C. O. D. from one domestic money order postoffice to another, including those in the Canal Zone, on payment of a fee of 10 cents in addition to the postage, both to be prepaid with stamps affixed. The amount to be collected and remitted to the sender must not exceed $100. The remittance is made by postoffice money order, the fee therefor being included in the amount collected from the addressee. A C. O. D. tag furnished by the postmaster must be filled in by the sender and attached to the parcel. The C. O. D. fee also covers insurance against loss up to $50.

Postal Cards.

Postal cards are furnished at the postage value represented by the stamp impressed thereon; single postal cards for domestic and foreign correspondence at 1 cent and 2 cents each, respectively, and reply (double) post l cards at 2 cents and 4 cents each, respectively.

Special Delivery Service.

Special delivery service is the prompt delivery of mail by messenger during prescribed hours to persons who reside within the carrier limits of city delivery offices, to patrons of rural service who reside more than one mile from postoffices but within one-half mile of rural routes, and to residents within one mile of any postoffice.

This service is obtained by placing on any letter or article of mail a special delivery stamp or 10 cents' worth of ordinary stamps in addition to the lawful postage. When ordinary stamps are used the words "Special Delivery" must be placed on the envelope or wrapper, directly under but never on the stamps; otherwise the letter or article will not be accorded special delivery service.

Registry System.

Any matter, properly addressed and bearing the name and address of the sender, admissible to the domestic mails (except fourth-class mail, which may be insured), or to the postal union mails (except foreign "parcel post" packages for Barbados, Curacao, Dutch Guiana, France, Great Britain, Guadeloupe, Martinique, the Netherlands and Uruguay), may be registered. Foreign "parcel post" mail must be taken to the postffice to be registered, but other mail may be registered at any postoffice or postoffice station by rural carriers, and, when sealed and not cumbersome, by city carriers in residential districts.

The registry fee for each separate article, foreign or domestic, is 10 cents in addition to the postage, both to be fully prepaid.

Indemnity for lost registered mail will be paid as follows:

Domestic mail, first class (sealed), up to $50, actual value; third class (unsealed), up to $25, actual value.

Foreign mail, amount claimed within limit of 50 francs ($9.65), for total loss (not partial loss of rifling) of a registered article exchanged between the United States and a postal union country, except foreign parcel post matter, and losses beyond control ("force majeure").

Application for a money order must be made on a form furnished for that purpose and be presented at the money order window of the postoffice or one of its stations. Money orders are issued for any desired amount from 1 cent to $100 and when a larger sum than $100 is to be sent any number of additional orders may be obtained. Applications may be made through rural carriers, who will furnish the necessary forms and give receipts for the amounts.

International money orders, payable in almost any part of the world, may be obtained at all of the larger postoffices and at many of the smaller ones.

Fees for money orders payable in the United States (which includes Hawaii, Porto Rico and the Virgin islands) and its possessions, comprising the Canal Zone, Guam, the Philippines and Tutuila, Samoa; also for orders payable in Bermuda, British Guiana, British Honduras, Canada, Cuba, Mexico, Newfoundland, at the United States postal agency at Shanghai (China), in the Bahama islands and in certain other islands in the West Indies:

For orders from $0.01 to $2.50	3 cents
For orders from 2.51 to 5.00	5 cents
For orders from 5.01 to 10.00	8 cents
For orders from 10.01 to 20.00	10 cents
For orders from 20.01 to 30.00	12 cents
For orders from 30.01 to 40.00	15 cents
For orders from 40.01 to 50.00	18 cents
For orders from 50.01 to 60.00	20 cents
For orders from 60.01 to 75.00	25 cents
For orders from 75.01 to 100.00	30 cents

The fees for foreign money orders payable in any country on which a money order may be drawn, other than those named above, may be ascertained upon inquiry at the postoffice.

FOREIGN MAIL MATTER.

Rates of Postage.

The rates of postage applicable to articles for foreign countries are as follows:

	Cents.
Letters for Canada, Cuba, Mexico, Republic of Panama, city of Shanghai (China), England, Ireland, Newfoundland, Santo Domingo, Scotland, Wales, the Bahamas, Barbados, British Guiana, British Honduras, Dutch West Indies, Leeward islands, New Zealand, Trinidad (including Tobago) and the Windward islands (including Grenada, St. Vincent, the Grenadines and St. Lucia), per ounce	2
Letters for Germany by direct steamers, per ounce	2
Letters for all other foreign countries, and Germany when not dispatched by direct steamers:	
For the first ounce or fraction of an ounce	5
For each additional ounce or fraction of an ounce	3
Single postcards (including souvenir cards), each	2
Reply postal cards, each	4
Printed matter of all kinds, for each two ounces or fraction of two ounces	1
Commercial papers, for the first ten ounces or less	5
For each additional two ounces or fraction of two ounces	1
Samples of merchandise, for the first four ounces or less	2
For each additional two ounces or fraction of two ounces	1
Registration fee in addition to postage	10

Foreign Parcel Post.

Postage rate—Postage must be prepaid in full by stamps affixed at the rate of 12 cents a pound or fraction of a pound. Registry fee 10 cents in addition to postage.

Dimensions—To all countries named packages are limited to three and one-half feet in length and to six feet in length and girth combined, except that packages for Colombia and Mexico are limited to two feet in length and four feet in girth.

Weight—Packages to certain postoffices in Mexico must not exceed four pounds six ounces in weight, but those for all other countries named may weigh up to but not exceeding eleven pounds.

FARMS IN THE UNITED STATES IN 1920.

OUTWARD PASSENGER MOVEMENT(1920).

	Emigrant aliens.	Nonemigrant aliens.	U. S. citizens.	Total.
Male	237,748	96,964	120,382	455,094
Female	50,567	42,783	73,765	167,115
Total	288,315	139,747	194,147	622,209

DEPORTATION OF ALIENS.

The following table shows the deportation of aliens from the United States after entry by fiscal years:

1898	199	1906	676	1914	4,737
1899	263	1907	995	1915	2,670
1900	356	1908	2,069	1916	2,906
1901	363	1909	2,124	1917	1,922
1902	465	1910	2,695	1918	1,619
1903	547	1911	2,788	1919	3,102
1904	779	1912	2,450	1920	2,762
1905	845	1913	3,461		

Of the aliens deported in the fiscal year 1920, 355 were insane, 808 were likely to become public charges, 229 were criminals, 314 were anarchists and 73 were contract laborers.

IMMIGRATION SINCE 1880.

Years ended June 30.

1880	457,257	1901	487,918
1881	669,431	1902	648,743
1882	788,992	1903	857,046
1883	603,322	1904	815,361
1884	518,592	1905	1,026,499
1885	395,346	1906	1,100,735
1886	334,203	1907	1,285,349
1887	490,109	1908	782,870
1888	546,889	1909	751,786

1891	560,319	1912	838,172
1892	623,084	1913	1,197,892
1893	502,917	1914	1,218,480
1894	285,631	1915	326,700
1895	258,536	1916	298,826
1896	343,267	1917	295,403
1897	230,832	1918	110,618
1898	229,299	1919	141,132
1899	311,715	1920	430,001
1900	448,572		

The total recorded immigration into the United States since the organization of the government is 33,630,104 persons.

I. W. W. CONVICTIONS UPHELD.

The convictions of William D. Haywood and ninety-three other members of the Industrial Workers of the World on charges of conspiracy to violate the selective service and espionage acts were affirmed in a decision handed down by the United States Circuit Court of Appeals in Chicago Oct. 5, 1920. In affirming the lower court's verdict Judges Page, Alschuler and Baker, sitting en banc, struck off the first two counts and only affirmed the sentences of the second two. This, however, did not mean a less sentence in any instance, as the entire number were indicted under four counts and the fines and sentences were to be paid and served concurrently. The first two counts which were struck off were "direct violation of the selective service act" and "direct violation of the espionage act." The counts that were upheld charged "conspiracy to violate the selective service act" and "conspiracy to violate the espionage act." The court held that congress did not intend to inflict punishment two times for the same offense. It also upheld Judge Landis' course in cross-examining the defendants and his charge to the jury.

The defendants were arrested Sept. 2, 1917, when great quantities of documents, printed and written, were seized. These showed the kind of propaganda the I. W. W. organization was engaged in and had much to do with influencing the court and jury in the trial. The defendants were found guilty in the United States District court in Chicago, Aug. 17, 1918, and were sentenced by Judge Kenesaw M. Landis to serve various terms in the federal prison at Leavenworth, Kas., and to pay fines ranging from $5,000 to $10,000 each. Some of them completed their terms while others, including Mr. Haywood, the secretary-treasurer of the I. W. W., were given their liberty on bail pending the result of the appeal.

The attorney for the defendants, Otto Christensen, asked for a rehearing of the case.

FINANCIAL STATISTICS OF STATES (1919).

[From United States census report.]

GREAT MINING DISASTERS IN RECENT YEARS.

In which 100 or more lives were lost.

Birmingham, Ala., May 5, 1910; 175 dead.
Bolton, England, Dec. 21, 1910; 300 dead.
Briceville, Tenn., Dec. 9, 1911; 100 dead.
Butte, Mont., June 9, 1917; 156 dead.
Cherry, Ill., Nov. 13, 1909; 289 dead.
Cheswick, Pa., Jan. 25, 1904; 182 dead.
Coahuila, Mex., Feb. 1, 1902; 102 dead.
Coal Creek, Tenn., May 19, 1902; 227 dead.
Courriere, France, March 10, 1906; 1,060 dead.
Dawson, N. M., Oct. 22, 1913; 261 dead.
Eccles, W. Va., April 28, 1914; 181 dead.
Ennis, W. Va., Dec. 30, 1908; 100 dead.
Finleyville, Pa., April 23, 1912; 115 dead.
Gerthe, Germany, Aug. 8, 1912; 103 dead.
Hamm, Germany, Nov. 12, 1908; 300 dead.
Hanley, England, Jan. 12, 1918; 160 dead.
Hanna, Wyo., June 30, 1903; 235 dead.
Jacob's Creek, Pa., Dec. 19, 1907; 230 dead.
Johnstown, Pa., July 10, 1902; 113 dead.
Khartsisk, Russia, June 18, 1905; 500 dead.
La Esperanza, Mex., Feb. 19, 1907; 123 dead.
Littleton, Ala., April 8, 1911; 128 dead.
Marianna, Pa., Nov. 28, 1908; 154 dead.
Monongah, W. Va., Dec. 6, 1907; 360 dead.
Newcastle, England, Feb. 16, 1909; 100 dead.
Senghenydd, Wales, Oct. 14, 1913; 423 dead.
Telluride, Col., Nov. 20, 1901; 100 dead.
Toyooka, Japan, July 20, 1907; 400 dead.
Virginia City, Ala., Feb. 20, 1905; 160 dead.
Watertown, Wales, July 11, 1905; 144 dead.
Welongong, Australia, July 31, 1902; 120 dead.
Whitehaven, England, May 12, 1910; 137 dead.

STANDARD TIME ZONES AT SEA.

Ships of the United States may use standard time zones at sea in accordance with an order issued by the navy department in the spring of 1920. The order reads in part:

The system of standard time zones long established on land has been extended over the oceans and throughout the circuit of the globe. The surface of the globe is conceived to be divided into twenty-four staves or zones, each bounded by meridians fifteen degrees of arc or one hour of time apart in longitude. The initial zone is the one which has the meridian of Greenwich running through the middle of it, and the meridians 7½° west of Greenwich and 7½° east of Greenwich, marking its eastern and western limits. It is called the "zero zone" because the difference between the standard time of this zone and Greenwich mean time is zero. And each of the zones in turn is designated by a number representing the number of hours by which the standard time of the zone differs from Greenwich mean time.

The zones lying in east longitude from the zero zone are numbered in sequence from 1 to 12, and are called minus zones, because, in each of them, the zone number must be subtracted from the standard time in order to obtain the Greenwich mean time. The zones lying in west longitude from the zero zone are numbered in sequence from 1 to 12, and are called plus zones, because, in each of these zones, the zone number must be added to the standard time in order to obtain the Greenwich mean time.

The twelfth zone is divided medially by the 108th meridian (the line separating the meridians of east longitude from the meridians of west longitude), and the terms minus and plus are used in halves of this zone which lie in the east longitude and west longitude, respectively.

The number of a zone prefixed by the plus sign, or by the minus sign, constitutes the "zone description" of the time of that zone.

In the vicinity of the land, the boundaries between zones are modified so as to be in accord with the boundaries of the countries or regions using corresponding times, as shown in the hydrographic office chart of the time zones of the world.

It has been decided to adopt the method of keeping time at sea in accordance with this system of standard time zones, which is already established in the British, French and Italian navies.

Instead of adjusting the ship's time to apparent time at noon each day, the clock is to be adjusted to the standard time of the successive zones as they are entered, although the instant at which the alteration is made need not necessarily be that at which the vessel passes from one zone to another, the change of time will invariably be one hour, the minutes and seconds remaining unaffected.

CAUSES FOR DIVORCE.

*Marriages may be annulled for causes making them void from the beginning.

†No divorce allowed, but marriage may be annulled.

Note—The above table presents only the principal causes for divorce in the various states. The words "Yes" and "No" are not always to be taken without qualification, but as being applicable under certain conditions. The word "Void" may indicate that a marriage may be absolutely void for the cause named, that it may be voidable or that it may be annulled by court proceedings. Bigamy, it may be added, is a cause for divorce or annulment of marriage in practically all of the states.

MEMORIAL DAY FOR AMERICAN DEAD IN EUROPE.

The graves of all the American soldiers who died in the great war and were buried in France, Britain, Germany and Italy were decorated with flowers on May 30, 1920. Services were held at some of the cemeteries in which large numbers of Americans lie, addresses being made by distinguished men representing the allied soldiers who fought side by side in 1917 and 1918. At the Suresnes cemetery near Paris Ambassador H. C. Wallace and Marshal Petain paid eloquent tributes to the many American soldiers resting there.

Premier Millerand of France gave out the following message to the American people on the occasion of Memorial day:

"The feeling of France and of the French government toward the American people and the public powers of America are to-day—need one say it—what they were in the hour of common sacrifice and armed struggle to assure the triumph of liberty in the world. We have won the results for which we fought together. The principle of democracy is saved, and the reign of democracy is assured for the future.

"In the presence of the tombs which hold the perishable and sacred dust of your children, fallen side by side with ours in the great world war, we can state truly that they have not died in vain. The sacrifice of those precious lives, the tears of those dear to them who remain, the grief of their country, have been the ransom of a better future."

*At which marriage is legal. †Age below which parental consent is necessary. ‡No specific provision; common law usually applies. §Prohibited when either of parties is incapable of entering into a civil contract.

LLOYD'S.

Lloyd's is an association of underwriters in London, England. Its name is derived from a coffee house kept by Edward Lloyd in Tower street in the 17th century, where underwriters met to transact business. They remained there until 1774, when they removed to the Royal Exchange, where they have since remained. Lloyd's was incorporated in 1871 by an act of parliament, the act being amended in 1911. It does not undertake insurance business as a corporation. This is conducted by its members on their own account but in accordance with the rules of the society. Lloyd's is also an organization for the collection and distribution of maritime intelligence which is published in Lloyd's List. This paper, originally established in 1696 as Lloyd's News, is the oldest newspaper in Europe with the exception of the London Gazette. Various works are published by the corporation for the benefit of the mercantile community.

RIOT IN LEXINGTON, KY.

To prevent the lynching of William Lockett, a negro sentenced to be electrocuted for the murder of a 10 year old girl, state militiamen used their rifles and machine guns on a mob which was storming the Fayette county courthouse at Lexington, Ky., Feb. 9, 1920. Five persons were killed and fourteen wounded before the crowd dispersed. Later the mob reformed and looted hardware stores and pawnshops to get firearms, but did not attack again. The city and county were placed under martial law by Gov. E. P. Morrow, and 1,200 federal and state troops, commanded by Brig.-Gen. F. C. Marshall, maintained order.

UNITED STATES MORTALITY STATISTICS.

[Bureau of the census report.]

DEATHS PER 1,000 OF POPULATION IN THE REGISTRATION AREA.

Annual average.

AMERICAN BIRTH AND DEATH RATES.

The following table prepared by the federal census bureau shows for the birth registration area of the United States the number of births in the calendar year 1917, the birth rate, the death rate, the number of deaths of infants under 1 year of age and the infant mortality rate. The states in the registration area had in 1917 an estimated population of 55,033,195. In the table stillbirths are excluded, and by infants are meant all children under 1 year of age.

THE AIR MAIL SERVICE.

Following are extracts from a letter written by Postmaster-General A. S. Burleson to Senator Kenneth McKellar Jan. 6, 1920, giving a history of the air mail service up to that time, its cost of operation and the savings effected thereby:

The air mail has been a financial and postal success. It has been in continuous operation since May 15, 1918, and has covered 473,210 miles. Its performance is 91.49 per cent. It has carried 22,254,400 letters, advancing their delivery on an average by 16 hours, or one entire business day. Its operating cost to date, including overhead and interest on investment for three routes, is as follows:

Washington to New York	$202,558.90
New York to Cleveland	112,796.57
Cleveland to Chicago	81,865.00

The mail is moved so rapidly by airplane that the distribution is done in the postoffice instead of on the trains, thereby saving car space and cost of distribution. Over the principal long distance mail routes the air mail saving on the cost of train distribution was found to be so great that letters could be carried at the regular postage rate.

The revenue and savings from the air mail operations have been $194,831.50 from the sale of extra rate airplane postage and $2,448 in car space from May 15, 1918, to June 30, 1919. The saving on train distribution from July 1 to Dec. 31, 1919, was at the rate of $176,000 per year and since Jan 1, 1920, by the use of large weight carrying planes, the saving is at the rate of $593,000 a year.

On the route between Cleveland and Chicago the air mail accomplished a world's record of 205 consecutive 325 mile nonstop trips without a forced landing of any kind.

In the daily operations of the air mail over a period of nineteen and one-half months and covering 473,210 miles four air mail pilots have lost their lives flying the mails, as follows: Frank S. McCusker, Cleveland, O., May 25, 1919; Charles W. Lamborne, Dix Run, Pa., July 19, 1919; John P. Charlton, Long Valley, N. J., Oct. 30, 1919, and Lyman W. Doty, Catonsville, Md., Oct. 15, 1919. Two pilots have been seriously injured and not more than half a dozen have been slightly hurt. This record was achieved in the stern work of carrying the mails as a daily routine in storm, sleet, rain and fog.

The New York-Washington route was inaugurated May 15, 1918; 218 miles.

The Cleveland-Chicago route was inaugurated May 15, 1919; 325 miles.

The New York-Cleveland service was inaugurated July 1, 1919; 430 miles.

The Chicago-Twin Cities service was inaugurated Aug. 10, 1920; 400 miles.

The Chicago-St. Louis service was inaugurated Aug. 16, 1920; 300 miles.

The New York-San Francisco service was inaugurated Sept. 8, 1920; 2,651 miles.

CENTENARIANS IN THE UNITED STATES.

According to the census of 1910 there were then in the United States 3,555 persons 100 years of age or over. Of these, 1,380 were men and 2,175 were women. Classified according to the color they were: White men, 326; white women, 438; total, 764; negro men, 1,004; negro women, 1,671; total, 2,675; Indian men, 50; Indian women, 66; total, 116. Classified as to place of birth, 439 were native white and 293 foreign born white. The number of centenarians reported by the census of 1900 was 3,504.

Deaths of centenarians reported from Nov. 1, 1919, to Nov. 1, 1920:

Bailey, Bancroft Abbott, 101, South Newbury, Vt., Dec. 8, 1919.
Bailey, Nancy F., 104, Marshall, Mo., Aug. 30.
Burlan, Mrs. Anna, 104, Chicago, Aug. 15.
Cowley, Mrs. Anna M., 100, 7843 Burnham avenue, Chicago, Oct. 1.
Dyer, George, 103, Beloit, Wis., Feb. 9.
Griffin, Miss Dorcas, 117, Big Laurel, N. C., Aug. 5.
Patton, Anna, 103, Council Grove, Kas., June 1.
Shay, Mrs. Ellen, 100, 1405 West 47th street, Chicago, Feb. 19.
Taylor, Alexander, 107, Ardmore, Okla., June 20.

INTERESTING FACTS AND FIGURES.

The following information regarding matters connected with the payment of pensions is of general interest:

Total pensioners on roll June 30:	
1919	624,427
1920	592,190
By classes, 1920:	
Invalids	285,110
Widows	299,363
Dependents	4,422
Minors	2,273
Helpless children	913
Nurses	109

Pensioners on the Roll June 30.

	1919.	1920.
Civil war—Soldiers	271,391	243,520
Widows	293,244	290,100
War with Spain—Soldiers.	23,382	23,144
Widows	4,869	7,288
Indian wars—Survivors.	3,436	3,745
Widows	2,027	2,483
Mexican war—Survivors.	215	148
Widows	2,741	2,423
War of 1812—Widows	81	71

Deaths of Civil War Pensioners.

	1919.	1920.
Soldiers	27,703	27,871
Widows, minor children, etc.	19,217	20,874

Largest number of civil war soldiers on the roll was in 1898 745,822

Total pieces of mail handled in 1920:

Incoming	662,555
Outgoing	3,240,668

Amounts allowed as reimbursement for expenses of last sickness and burial in 1920 ..... $350,246

Act of May 1, 1920.

This act allows $72 per month to one who served ninety days in the civil war and was honorably discharged, or having served less than ninety days, was discharged for disability incurred in service in line of duty, or is on the roll as a civil war veteran, who is helpless or blind or so nearly helpless or blind as to require regular personal aid and attendance. The act also allows the same rate of pension to a person so disabled who served sixty days in the Mexican war and was honorably discharged.

Act of June 5, 1920.

By the terms of this act all persons who served ninety days or more in the military or naval service of the United States during the war with Spain, the Philippine insurrection, and the China relief expedition, and who have been honorably discharged therefrom, and who are now or who may hereafter be suffering from any mental or physical disability of a permanent character, not the result of their own vicious habits, which so incapacitates them for the performance of manual labor as to render them unable to earn a support, may, on making due proof, be entitled to receive a pension, from date of filing application, not exceeding $30 per month, and not less than $12 per month, proportioned to the degree of inability to earn a support.

It is also provided that a pension for age may be granted to persons who have had such service and were honorably discharged:

62 years	$12	per month
68 years	18	per month
72 years	24	per month
75 years	30	per month

PENSIONERS ON THE ROLL JUNE 30, 1920, AND JUNE 30, 1919.

I. W. W. DEFEAT IN SEATTLE ELECTION.

In the mayoralty election in Seattle, Wash., March 2, 1920, the issue was clearly drawn between Americanism on the one side and the Industrial Workers of the World and other extremist factions on the other. The opposing candidates were Maj. Hugh M. Caldwell, a former member of the American expeditionary force in Europe, and James A Duncan, Labor temple president and leader of the radical element. The election, which was the most bitterly contested in the history of Seattle, resulted in the election of Maj. Caldwell, who received 50,850 votes to 34,849 for Duncan.

GENERAL EVENTS OF 1920.

FIRE LOSSES AND CASUALTIES.

Wolseley, Viscountess, in London, England, April 12
Zorn, Anders (1860), artist, in Stockholm, Sweden, Aug. 22.

METHODIST CHURCHES, NORTH AND SOUTH, MERGED.

More than 100 bishops, pastors and laymen of the northern and southern branches of the Methodist church met in Louisville, Ky., Jan. 15, 1920, as a joint commission to arrange for the unification under one constitution and name of the two wings of the denomination. The meeting was held in the Fourth Street M. E. church south, from which came the announcement in 1846 that, owing to a disagreement involving the question of negro slavery, the southern Methodists would form a separate body of their own to be known as the Methodist Episcopal church south. The meeting of the joint commission was harmonious and resulted in the unanimous adoption on Jan. 20 of a plan for the merger of the two branches under a new constitution, the united denomination to be known simply as the Methodist church. The proposal was to go into effect when ratified at the general conferences of the two branches.

Included among the recommendations of the joint commission was a proposal that the reunited church have a supreme general council of 800 members, chosen from the seven regional conferences. Six of the regional bodies would have approximately 1,000,000 members each, while the seventh would comprise the negro membership of 303,000. In three of these conferences the northern branch would predominate and southern congregations would control three others.

NATIONAL POLITICAL COMMITTEES (1920-1924).

REPUBLICAN.

Headquarters—Munser building, Washington, D. C.; Auditorium hotel, Chicago, and 19 W. 44th street, New York.
Chairman—Will H. Hays, Indiana.
Vice-Chairman—John T. Adams, Iowa.
Secretary—Clarence B. Miller, Minnesota.
Treasurer—Fred W. Upham, Illinois.
Sergeant-at-Arms—E. P. Thayer, Indiana.

Alabama—Oliver D. Street.....Guntersville
Alaska—J. C. McBride.....Juneau
Arizona—(Vacancy).....
Arkansas—H. L. Remmel.....Little Rock
California—William H. Crocker..San Francisco
Colorado—John F. Vivian.....Denver
Connecticut—J. Henry Roraback.....Hartford
Delaware—Coleman du Pont.....Wilmington
Dist. of Columbia—R. F. Colladay..Washington
Florida—George W. Bean.....Tampa
Georgia—Henry L. Jackson.....Atlanta
Hawaii—R. W. Shingle.....Honolulu
Idaho—John W. Hart.....Rigby
Illinois—Lawrence Y. Sherman.....Springfield
Indiana—Joseph B. Kealing.....Indianapolis
Iowa—John T. Adams.....Dubuque

Director-General—Hon. William C. Liller, Lancaster, Pa., and Washington, D. C.
Sergeant-at-Arms—Col. John I. Martin, St. Louis, Mo.

The National Democratic League of Clubs is a union or federation of local and state democratic club organizations and societies in all parts of the country. The organization is now in its fourteenth year of existence. It has a membership of nearly 1,000 local club organizations in thirty-four states, Alaska, Porto Rico and the Philippines, with an individual membership in excess of 750,000. The purpose of the organization is to enlist the young men and women of the country in furthering democratic principles and activities—it makes a special appeal to the first voters. The league operates as an auxiliary to the regular party organizations.

NATIONAL LEAGUE OF WOMEN VOTERS.

UNITED STATES DISTRICT ATTORNEYS.

Alabama—Northern district, Eric Pettus, Birmingham; middle district, Thomas D. Samford, Montgomery; southern district, Alexander D. Pitts, Mobile.
Alaska—First division, James A. Smiser, Juneau; second division, J. M. Clements, Nome; third division, William A. Munly, Valdez; fourth division, R. F. Roth, Fairbanks.
Arizona—Thomas A. Flynn, Phoenix.
Arkansas—Eastern district, June P. Wooten, Little Rock; western district, E. O. Mahoney, Fort Smith.
California—Northern district, Frank M. Silva, San Francisco; southern district, John R. O'Connor, Los Angeles.
Canal Zone—A. C. Hindman, Ancon.
Colorado—Harry B. Tedrow, Denver.
Connecticut—Edward L. Smith, Hartford.
Delaware—James H. Hughes, Jr., Wilmington.
District of Columbia—John E. Laskey, Washington.
Florida—Northern district, John L. Neeley, Pensacola; southern district, Herbert S. Phillips, Tampa.
Georgia—Northern district, Hooper Alexander, Atlanta; southern district, John W. Bennett.
Hawaii—S. C. Huber, Honolulu.
Idaho—James L. McClear, Boise.
Illinois—Northern district, Charles F. Clyne, Chicago; eastern district, James G. Burnside, Danville; southern district, Edward C. Knotts, Springfield.
Indiana—Frederick Van Nuys, Indianapolis.
Iowa—Northern district, Frank A. O'Connor, Sioux City; southern district, Edwin G. Moon, Ottumwa.
Kansas—Fred Robertson, Topeka.
Kentucky—Western district, W. V. Gregory, Louisville; eastern district, Thomas D. Slattery, Covington.
Louisiana—Eastern district, Henry Mooney, New Orleans; western district, Joseph Moore, Shreveport.
Maine—John F. A. Merrill, Portland.
Maryland—Robert R. Carman, Baltimore.
Massachusetts—Daniel J. Gallagher, Boston.
Michigan—Eastern district, John E. Kinnane, Detroit; western district, Myron H. Walker, Grand Rapids.
Minnesota—Alfred Jaques, St. Paul.
Mississippi—Northern district, Wilson S. Hill, Oxford; southern district, Julian P. Alexander, Jackson.
Missouri—Eastern district, James E. Carroll, St. Louis; western district, Francis M. Wilson, Kansas City.
Montana—Edward C. Day, Helena.
Nebraska—Thomas S. Allen, Omaha.
Nevada—William Woodburn, Carson City.
New Hampshire—Fred H. Brown, Concord.
New Jersey—Elmer H. Geran, Newark.
New Mexico—Summers Burkhart, Albuquerque.
New York—Northern district, Dennis B. Lucey, Utica; southern district, Francis G. Caffey, New York city; eastern district, Le Roy W. Ross, Brooklyn; western district, Stephen T. Lockwood, Buffalo.
North Carolina—Eastern district, E. F. Aydlett, Elizabeth City; western district, William C. Hammer, Ashboro.
North Dakota—Melvin A. Hildreth, Fargo.
Ohio—Northern district, Edwin S. Wertz, Cleveland; southern district, James R. Clark, Cincinnati.
Oklahoma—Eastern district, Archibald Bonds, Muskogee; western district, Herbert M. Peck, Oklahoma City.
Oregon—Lester W. Humphreys, Portland.
Pennsylvania—Eastern district, Charles D. McAvoy, Philadelphia; middle district, Rogers L. Burnett, Scranton; western district, Robert J. Dodds, Pittsburgh.
Porto Rico—Miles M. Martin, San Juan.
Rhode Island—Petro C. Cannon, Providence.
South Carolina—Eastern district, Francis H. Weston, Charleston; western district, J. William Thurmond, Greenville.
South Dakota—E. W. Fiske, Sioux Falls.

Tennessee—Eastern district, Wesley T. Kennerly, Knoxville; middle district, Lee Douglas, Nashville; western district, W. D. Kyser, Memphis.
Texas—Eastern district, E. J. Smith, Sherman; northern district, R. E. Taylor, Fort Worth; western district, Hugh R. Robertson, San Antonio; southern district, D. E. Simmons, Houston.
Utah—Isaac B. Evans, Salt Lake City.
Vermont—Vernon A. Bullard, Burlington.
Virginia—Eastern district, Hiram M. Smith, Richmond; western district, Joseph H. Chitwood, Roanoke.
Wisconsin—Eastern district, H. A. Sawyer, Milwaukee; western district, Albert C. Wolfe, La Crosse.
Wyoming—Charles L. Rigdon, Cheyenne.
Washington—Western district, Robert C. Saunders, Seattle; eastern district, Francis A. Garrecht, Spokane.
West Virginia—Northern district, Stuart W. Walker, Parkersburg; southern district, L. H. Kelly, Huntington.

UNITED STATES MARSHALS.

Alabama—Northern district, Henry A. Skeggs, Birmingham; middle district, McDuffie Cain, Montgomery; southern district, Christopher G. Gewin, Mobile.
Alaska—First division, J. M. Tanner, Juneau; second division, Emmet R. Jordan, Nome; third division, F. R. Brenneman, Valdez; fourth division, Lewis T. Erwin, Fairbanks.
Arizona—Joseph P. Dillon, Tucson.
Arkansas—Eastern district, A. Jackson Walls, Little Rock; western district, John H. Parker, Fort Smith.
California—Northern district, James B. Holohan, San Francisco; southern district, Charles T. Walton, Los Angeles.
Canal Zone—Miguel A. Otero, Ancon.
Colorado—Samuel J. Burris, Denver.
Connecticut—William R. Palmer, New Haven.
Delaware—Martin F. Farry, Wilmington.
Dist. of Columbia—Maurice Splain, Washington.
Florida—Northern district, James B. Perkins, Pensacola; southern district, Nathan H. Boswell, Jacksonville.
Georgia—Northern district, Claude Bond, Atlanta; southern district, Joseph S. Davis, Macon.
Hawaii—Jerome J. Smiddy, Honolulu.
Idaho—Leroy C. Jones, Boise.
Illinois—Northern district, John J. Bradley, Chicago; eastern district, Cooper Stout, Danville; southern district, Vincent Y. Dallman, Springfield.
Indiana—Mark Storen, Indianapolis.
Iowa—Northern district, E. R. Moore, Dubuque; southern district, Nicholas F. Reed, Des Moines.
Kansas—Otho T. Wood, Topeka.
Kentucky—Western district, Edgar H. James, Louisville; eastern district, Henry M. Cox, Covington.
Louisiana—Eastern district, Frank M. Miller, New Orleans; western district, John H. Kirkpatrick, Shreveport.
Maine—John S. P. H. Wilson, Portland.
Maryland—William W. Stockham, Baltimore.
Massachusetts—Patrick J. Duane, Boston.
Michigan—Eastern district, Henry Behrendt, Detroit; western district, Herman O'Connor, Grand Rapids.
Minnesota—Joseph A. Wessell, St. Paul.
Mississippi—Northern district, Bruce Alexander, Oxford; southern district, Floyd Loper, Jackson.
Missouri—Eastern district, John E. Lynch, St. Louis; western district, William A. Shelton, Kansas City.
Montana—Joseph L. Ashbridge, Helena.
Nebraska—James C. Dahlman, Omaha.
Nevada—Thomas Pickett, Carson City.
New Hampshire—Charles J. O'Neill, Concord.
New Jersey—Albert Bollschweiler, Trenton.
New Mexico—Andrew H. Hudspeth, Santa Fe.
New York—Northern district, Clayton L. Wheeler, Utica; southern district, Thomas D. McCarthy, New York city; eastern district, James M. Power, Brooklyn; western district, John D. Lynn, Rochester.
North Carolina—Eastern district, George H. Bellamy, Raleigh; western district, Charles A. Webb, Asheville.
North Dakota—Stephen J. Doyle, Fargo.
Ohio—Northern district, Charles W. Lapp, Cleveland; southern district, Michael Devanny, Cincinnati.
Oklahoma—Western district, John Q. Newell, Oklahoma City; eastern district, A. B. Enloe, Jr., Muskogee.
Oregon—George F. Alexander, Portland.
Pennsylvania—Eastern district, Frank J. Noonan, Philadelphia; middle district, James S. Magee, Scranton; western district, John F. Short, Pittsburgh.
Porto Rico—William R. Bennett, San Juan.
Rhode Island—John J. Richards, Providence.
South Carolina—Eastern district, James L. Sims, Charleston; western district, C. J. Lyon, Greenville.
South Dakota—William Hickey, Sioux Falls.
Tennessee—Eastern district, J. Parks Worley, Knoxville; middle district, Edward Albright, Nashville; western district, Stanley H. Trezevant, Memphis.
Texas—Eastern district, Wilkens B. Harper, Texarkana; northern district, James A. Badgett, Dallas; western district, John H. Rogers, San Antonio; southern district, Jacob A. Herring, Galveston.
Utah—Aquila Nebeker, Salt Lake City.
Vermont—Arthur P. Carpenter, Rutland.
Virginia—Eastern district, John G. Saunders, Norfolk; western district, T. G. Burch, Staunton.
Washington—Eastern district, James E. McGovern, Spokane; western district, John M. Boyle, Tacoma.
West Virginia—Northern district, Clarence E. Smith, Parkersburg; southern district, William Osborne, Huntington.
Wisconsin—Eastern district, Samuel W. Randolph, Milwaukee; western district, Frank O'Connor, Madison.
Wyoming—Daniel F. Hudson, Cheyenne.

LAKES TO GULF WATERWAY.

On Jan. 16, 1920, Gov. Frank O. Lowden received from the secretary of war in Washington, D. C., a permit for the construction of a permanent navigable waterway including the necessary structures and improvements of the Des Plaines and Illinois rivers from the termination of the sanitary district channel at Lockport to the head of navigation in the Illinois river at Utica. The only restriction in the permit was that in the development of water power the state must obtain the approval of the power commission and meet the requirements of the new power development law enacted by congress. On Oct. 18 the first steps in the actual building of the waterway were taken, when the bids for the construction of the lock at Marseilles were opened in the offices of the state department of public works in Springfield. According to the terms of the contract the work on the lock must be completed in two years. The lowest bid for the work was $1,373,115.

United States Diplomatic and Consular Service.

DIPLOMATIC SERVICE (NOV. 1, 1920).

Explanation—A. E. & P., ambassador extraordinary and plenipotentiary; E. E. & M. P., envoy extraordinary and minister plenipotentiary; M. R., minister resident; M. R. & C.-G. minister resident and consul-general. Appointed by the president and confirmed by the senate.

ARMY AND NAVY LEGION OF VALOR.

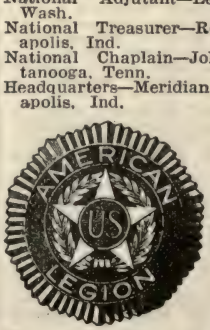
Organized 1890.

Commander—Patrick J. Hyde, 2 Mount Vernon street, Charlestown, Mass.
Adjutant—Capt. John Brosnan, 592 11th street, Brooklyn, N. Y.

Any one holding a medal of honor or a distinguished service cross is eligible to membership. The legion is a purely patriotic organization, its purpose being to instill the spirit of patriotism and devotion to our country in its citizens and unite in a fraternal bond the men who have shared a common danger.

THE AMERICAN LEGION.

Organized at St. Louis, Mo., May 8-10, 1919.
National Commander—F. W. Galbraith, Jr., New York, N. Y.
Past National Commander—Franklin D'Olier, Philadelphia, Pa.
National Vice-Chairmen—John G. Emery, Grand Rapids, Mich.; Thomas Goldingay, Newark, N. J.; Claudius G. Penndill, Kenosha, Wis.; J. C. Scrugham, Carson City, Nev.; E. Jackson Winslett, Dadeville, Ala.
National Adjutant—Lemuel Bolles, Seattle, Wash.
National Treasurer—Robert Tyndall, Indianapolis, Ind.
National Chaplain—John W. Inzer, Chattanooga, Tenn.
Headquarters—Meridian Life building, Indianapolis, Ind.



The American Legion was organized at a convention held in St. Louis, Mo., May 8-10, 1919, when temporary officers were chosen and the main principles of the association were adopted. Henry D. Lindsley of Dallas, Tex., was chosen as the temporary commander, and it was decided to hold the first regular convention in Minneapolis, Minn. It took place there Nov.

10-12, 1919, when national officers were chosen and the organization perfected. All persons are eligible for membership who were in the military or naval and marine service of the United States between April 6, 1917, and Nov. 11, 1918. The object of the association is to uphold and defend the constitution of the United States; to maintain law and order; to foster and perpetuate a 100 per cent Americanism; to combat autocracy whether of the classes or the masses; to make right the master of might; to promote peace and good will on earth; to safeguard and transmit to posterity principles of justice, freedom and democracy and to sanctify the comradeship of the war by mutual helpfulness.

The American Legion is a nonpolitical organization. It was incorporated by an act of congress approved Sept. 16, 1919.

MILITARY ORDER OF FOREIGN WARS OF THE UNITED STATES.

Instituted Dec. 27, 1894.

Officers of the National Commandery.

Commander in Chief—Admiral Robert E. Koontz, U. S. N.
Secretary-General — Capt. Ogden Wilkinson, New York, N. Y.
Deputy Secretary-General—Maj. Rene A. de Russy, 15 Wall street, New York, N. Y.
Treasurer-General—Capt. Harrison A. Bispham, U. S. N., retired.
Registrar-General—Capt. Howard A. Giddings, U. S. V., Hartford, Conn.
Judge-Advocate General—Frank M. Avery.
Chaplain-General—Capt. J. Madison Hare.
Historian-General—Maj. Emerson G. Taylor.
Recorder-General—Col. Guy A. Boyle.
Surgeon-General—Maj. Joseph M. Heller.

Commanderies have been established in twenty-one states. Total membership about 1,200.

The order is a military organization with patriotic objects, having for its scope the period of American history since national independence. It stands for the needed and honorable principle of national defense against foreign aggression. The principal feature of the order is the perpetuating of the names as well as the services of commissioned officers who served in either the war of the revolution, the war with Tripoli, the war of 1812, the Mexican war or the war with Spain or shall serve in future campaigns recognized by the United States government as war with foreign powers. Veteran companionship is conferred upon such officers and hereditary companionship upon their direct lineal descendants in the male line.

CHRISTIAN SCIENCE CHURCH.

The Christian Science church was founded in 1879 by Mary Baker Eddy, the discoverer of Christian Science and author of its textbook, "Science and Health with Key to the Scriptures." The church was organized to "commemorate the word and works of our Master, which should reinstate primitive Christianity and its lost element of healing" (Church Manual). Its proper name is The First Church of Christ, Scientist, in Boston, Mass. It is also known as The Mother Church. The present officers of The Mother Church are:

President—John W. Doorley.
Clerk—Charles E. Jarvis.
Treasurer—Edward L. Ripley.
Directors—Adam H. Dickey, James A. Neal, Edward A. Merritt, William R. Rathvon, Annie M. Knott.

All Christian Science churches and societies in the United States and in foreign countries are branches of The Mother Church. Lesson-sermons compiled from the bible and "Science and Health with Key to the Scriptures," by Mrs. Eddy, are read at the services in Christian Science churches.

The Christian Science Journal, Sentinel, Quarterly, Der Herold der Christian Science, Le Heraut de Christian Science and The Christian Science Monitor (an international daily newspaper) are published by The Christian Science Publishing society in Boston.

There is maintained by the Christian Science church an official board of lectureship designed to furnish the public correct information concerning the fundamental teachings of Christian Science. Lectures given by members of this board are free to the public.

CHURCH OF THE NEW JERUSALEM.

(Swedenborgian.)

The General Convention.

AMERICAN TRACT SOCIETY.

Organized 1825.

President—William Phillips Hall.
General Secretary—Judson Swift, D. D.
Treasurer—Louis Tag.
Offices—Park avenue and 40th street, New York, N. Y.

THE FAMILY ALTAR LEAGUE.

The Family Altar league is a worldwide company of people who have made a covenant to maintain a family altar in their homes. Covenant cards are furnished free on request, and to all who enroll by signing the covenant a wall card certificate of membership is sent without cost. In 1920, 400,000 cards had been sent out. It is estimated that more than 75,000 new family altars have been established and 300,000 lives are being touched and influenced every day in the home because of the league. The headquarters are at 541 Marquette building, Chicago, Ill. The officers are: The Rev. W. E. Biederwolf, D. D., president; Henry P. Crowell, vice-president; the Rev. J. W. Nicely, D. D., recording secretary; E. O. Excell, treasurer; the Rev. William Matthew Holderby, general secretary.

INTERNATIONAL ORDER OF THE KING'S DAUGHTERS AND SONS.

Headquarters—280 Madison avenue, New York, N. Y.
Honorary President—Miss Kate Bond, New York, N. Y.
President—Mrs. Robert J. Reed, 100 12th street, Wheeling, W. Va.

CHURCHES AND CHURCH PROPERTY.

According to the census of 1916 the total number of church edifices in the United States was 203,432 as against 192,705 in 1906. Only a building owned and used by a denomination for church purposes is included in the term church edifice. The Methodist Episcopal church had 28,406 such buildings in 1916 and ranked first in this respect. The Methodist denomination as a whole had 61,467 churches.

Following is a table showing the number of churches owned by the leading denominations in 1916, with the value of the church property of each:

Denomination.	Churches.	Property.
All denominations	203,432	$1,676,600,582
Baptist	51,803	198.364.747
Congregational	5.744	80,842,813

Unitarians	399	15.247.349
Universalists	620	7.876.103

BUCK'S STOVE COMPANY BOYCOTT CASE.

Proceedings were brought in the Supreme court of the District of Columbia in August, 1907, against the officers of the American Federation of Labor to enjoin them from conducting a boycott against the Buck's Stove and Range Company of St. Louis, Mo., by advertising that the concern was on the "unfair" and "we don't patronize" lists of the federation's official organ. The injunction was issued by Judge Gould Dec. 23, 1907. On the plea that the injunction was being violated proceedings for contempt of court were brought against Samuel Gompers, president; John Mitchell, vice-president, and Frank Morrison, secretary of the federation. They were declared guilty by Justice Wright of the Supreme court of the District of Columbia Dec. 23, 1908. Mr. Gompers was sentenced to one year's imprisonment, Mr. Mitchell to nine months' and Mr. Morrison to six months' imprisonment. They were admitted to bail and the case was taken to the Court of Appeals of the District of Columbia, which tribunal decided Nov. 2, 1909, that the decree against them was valid.

An appeal was taken to the United States Supreme court, which on May 15, 1911, reversed the judgments of the lower courts and remanded the case. May 5, 1913, the Court of Appeals of the District of Columbia again affirmed the original findings in the contempt case, but reduced Mr. Gompers' sentence to thirty days in jail and held that Mitchell and Morrison should be exempt from prison sentences, but should each pay a fine of $500. June 19, 1913, Chief Justice White of the United States Supreme court granted an appeal by the defendants that the case be heard again by the highest tribunal.

May 11, 1914, the United States Supreme court set aside the sentences imposed upon Gompers, Mitchell and Morrison on the ground that they were barred by the statute of limitations. Justice Holmes, who read the opinion, held that the contempt proceedings should have been begun within three years from the date of the offense.

FEDERAL CONTROL OF WHEAT ENDED.

Federal control of wheat and wheat products ended June 1, 1920, the wheat director ceasing to operate under the limitation of the law creating his office and the food administration control ending by proclamation of President Wilson. This meant the passing of the government guaranty of $2.20 a bushel for wheat established during the world war as a means of stimulating production.

Foreign Governments.

GREAT BRITAIN.

Government—King, George V.; heir-apparent, Edward Albert, prince of Wales.
Prime Minister—David Lloyd George.
Minister Without Portfolio—Sir L. W. Evans.
Lord High Chancellor—Lord Birkenhead.
Lord Privy Seal—A. Bonar Law.
Lord President of the Council—Arthur J. Balfour.
Chancellor of the Exchequer—Austen Chamberlain.
Foreign Affairs Secretary—Earl Curzon.
Home Affairs Secretary—Edward Shortt.
Colonial Secretary—Viscount Milner.
Secretary for India—Edwin S. Montagu.
Secretary for War and Air—Winston S. Churchill.
First Lord of the Admiralty—Walter Long.
President of the Board of Trade—Sir Robert S. Horne.
President of the Local Government Board—C. Addison.
Postmaster-General—Albert H. Illingworth.
Chief Secretary for Ireland—Sir Hamar Greenwood.
Secretary for Scotland—R. Munro.
Minister of Agriculture and Fisheries—Lord Lee.
First Commissioner of Works—Sir Alfred M. Mond.
Minister of Health—Dr. Christopher Anderson.
Attorney-General—Sir Gordon Hewart.
Minister of Pensions—J. I. Macpherson.
Minister of Munitions—Lord Inverforth.
Chancellor of the Duchy of Lancaster—Earl of Crawford.
Solicitor-General—Sir Ernest Pollock.
Lord Lieutenant of Ireland—Field Marshal Viscount French.
Attorney-General for Ireland—Denis S. Henry.
Solicitor-General for Ireland—D. M. Wilson.
Lord Chancellor of Ireland—Sir J. M. H. Campbell.
Paymaster-General—Sir J. Tudor-Walters.
Solicitor-General for Scotland—Lieut.-Col. C. D. Murray.
Lord Advocate—T. B. Morrison.
Minister of Labor—T. J. McNamara.
President Board of Education—Herbert A. L. Fisher.
Minister of Transport—Sir Eric C. Geddes.
Minister of Shipping—Sir Joseph Maclay.
Minister of Food—C. A. McCurdy.

The British parliament, in which the highest legislative authority is vested, consists of the house of lords and the house of commons.

Area and Population—The total area of England, Scotland, Ireland, Wales, the Isle of Man and the Channel islands is 121,391 square miles; the total for the British empire is 11,498,825 square miles. The total population of the empire in 1911 was 421,-178,965. The population of the united kingdom April 3, 1911, when the last census was taken, was: England, 34,045,290; Wales, 2,025,202; Scotland, 4,759,445; Ireland, 4,390,219; Isle of Man, 52,034; Channel islands, 96,900. Total, 45,369,090.

The cities of England and Wales having more than 100,000 population each were in 1911:

London	4,522,961	Newcastle	266,671
Liverpool	746,566	Nottingham	259,942
Manchester	714,427	Stoke-on-Trent	234,553
Birmingham	525,960	Salford	231,380
Sheffield	454,653	Portsmouth	231,165
Leeds	445,568	Leicester	227,242
Bristol	357,059	Cardiff	182,280
West Ham	289,102	Bolton	180,885
Bradford	288,505	Croydon	169,559
Kingston-upon-Hull	278,024	Sunderland	151,162
Oldham	147,495	Swansea	114,673
Blackburn	133,064	Plymouth	112,042
Brighton	131,250	Stockport	108,693
Birkenhead	130,832	South Shields	108,649
Derby	123,433	Huddersfield	107,825
Norwich	121,493	Coventry	106,377
Southampton	119,039	Burnley	106,337
Preston	117,113	Middlesbro'gh	104,787
Gateshead	116,928	Halifax	101,556

The figures given in the above table for London are for the inner or registration district alone. Including the outer belt of suburban towns, which are within the metropolitan police district, the population of "Greater London" April 3, 1911, was 7,251,358.

Population of the chief cities in Scotland in 1911:

Glasgow	784,455	Leith	80,489
Edinburgh	320,315	Greenock	68,911
Dundee	165,096	Partick	66,848
Aberdeen	133,084	Coatbridge	43,287
Govan	89,725	Perth	36,995
Paisley	84,477	Kilmarnock	34,729

The total population of Ireland in 1911 was 4,390,219, against a total of 4,458,775 in 1901.

Population of the chief cities of Ireland in 1911:

Belfast	385,492	Newry	12,456
Dublin	309,272	Drogheda	12,425
Cork	76,632	Lisburn	12,172
Londonderry	40,799	Lurgan	12,135
Limerick	38,403	Portadown	11,727
Waterford	27,430	Wexford	11,455
Kingstown	17,227	Ballymena	11,376
Galway	15,936	Sligo	11,163
Dundalk	13,128	Clonmel	10,277
Kilkenny	13,112		

Exports and Imports—The total imports of the British empire in 1919 were $12,003,-940,000; of the united kingdom, $7,941,-650,421. Total exports of the empire, $9,333,320,000; of the united kingdom, $3,885,282,063. The total exports of the United kingdom to the United States in 1920 were $524,020,493; imports, $2,151,336,423.

INDIA.

Government—Governor-general, Baron Frederic Chelmsford. Legislative authority vested in a council of sixty-eight members, thirty-six being official and thirty-two nonofficial.

Area and Population—The total area of British India is 1,773,088 square miles. The total population according to the census of March 10, 1911, is 315,132,527, divided among the provinces as follows:

Ajmer-Marwara	501,395	Coorg	174,976
Assam	34,018,527	Madras	41,405,404
Bengal	52,668,269	Northwest provinces	2,196,933
Bombay presidency	19,672,642	Unit'd provinces	47,182,044
Burma	12,115,217	Punjab	19,974,956
C'ntr'l provinces	13,916,308	Baluchistan	414,412
		Andamans	26,459

Population of the large cities in 1911:

Calcutta	1,222,313	Lahore	228,687
Bombay	979,445	Ahmedabad	215,835
Madras	518,660	Benares	203,804
Haidarabad	500,623	Agra	185,449
Rangoon	293,316	Cawnpore	178,557
Lucknow	259,788	Allahabad	171,697
Delhi	232,887	Poona	158,856

Imports and Exports—Imports in 1919, $598,-130,000; exports, $850,975,000. Imports from the United States, 1920, $79,143,036; exports, $178,951,533.

DOMINION OF CANADA.

Government—The Canadian parliament consists of eighty-seven life senators and a house of commons of 221 members, there being one representative for every 25,367 of population based upon the census of 1901. The governor-general is the duke of Devonshire, appointed in 1916; and the council is made up of the following: Premier and minister for external affairs, Arthur Meighen; president privy council and minister for immigration, J. A. Calder; minister of agriculture, Dr. F. F. Tolmie; customs, R. W. Wigmore; finance, Sir Henry Drayton; interior, Sir James Lougheed; justice, C. J. Doherty; labor, Gideon Robertson; marine, fisheries and naval service, C. C. Ballantyne; militia, Hugh Guthrie; postmaster-general, Pierre Blondin; public works, F. B. McCurdy; railways and canals, J. D. Reid; secretary of state for mines, Martin Burrell; trade and commerce, George E. Foster; ministers without portfolio, Sir Edward Kemp, E. K. Spinney. The governor-general gets a salary of $50.000 a year, the premier $12,000 and the other ministers $7,000 each.

Area and Population—The total area of Canada is 3,729,665 square miles, of which 3,603,910 is land area.

Area of provinces:

Province.	Sq. miles.
Alberta	255,285.00
British Columbia	355,855.00
Nova Scotia	21,427.77
Manitoba*	73,731.72

Value products	$1,165,975,639	$1,392,516,953

Imports and Exports—The total value of the exports for the year ended March 31, 1920, was $1,216,443,806; imports, 1920, $1,064,516,177. Imports from the United States (1920), $890,135,023; exports to the United States, $537,377,381.

COMMONWEALTH OF AUSTRALIA.

July 9, 1900, the British parliament passed an act empowering the six provinces of Australia to form a federal union and Jan. 1, 1901, the new commonwealth was proclaimed at Sydney, N. S. W. Its first parliament was opened May 9, 1901, by the prince of Wales (now George V.) heir-apparent to the British throne, acting for his father, King Edward VII. The capital at present is in Melbourne.

Government—The federal parliament is made up of a senate of thirty-six members, six from each original state, and a house of representatives of seventy-five members, apportioned as follows: New South Wales, 27; Victoria, 21; Queensland, 10; South Australia, 7; Western Australia, 5; Tasmania, 5. The king is represented by the governor-general. He and the council of seven ministers exercise the executive power. The governor-general is paid a salary of $50.000 a year. The governor-general is Baron Forster. The ministers are W. M. Hughes, prime minister; L. E. Groom, public works and railways; M. Greene, trade and customs; G. F. Pearce, defense; W. Webster, postmaster-general; P. McM. Glynn, home affairs; J. Cook, minister of the navy; W. A. Watt, treasurer.

Area and Population—The commonwealth has a total area of 2,974,581 square miles, divided among the states as follows:

New South Wales	310,372	So. Australia	380,070
Victoria	87,884	No. Territory	523,620
Queensland	670,500	W. Australia	975,920
		Tasmania	26,215

The total population of the commonwealth as enumerated April 2, 1911, was 4,455,005, divided among the states as follows:

New South Wales	1,648,448	No. Territory	3,310
Victoria	1,315,551	W. Australia	282,114
Queensland	605,813	Tasmania	191,211
So. Australia	408,558	Total	4,455,005

The population of Melbourne in 1911 was 600,160; Sydney (1911), 636,353; Adelaide (1911), 192,429; Wellington (1911), 70,729; Brisbane (1911), 143,514.

Exports and Imports—The total exports of the states in the commonwealth in 1919 were $534,030,000; total imports, $467,425,000. Australia in 1920 exported merchandise valued at $56,771,763 to the United States and imported merchandise worth $85,791,174.

UNION OF SOUTH AFRICA.

Sept. 29, 1909, the British parliament passed an act empowering the four self-governing colonies of South Africa—Cape of Good Hope, Natal, Transvaal and Orange Free State—to form a federal government to be known as the Union of South Africa. This was proclaimed May 31, 1910, at Pretoria, the seat of government, other services taking place at Cape Town, the seat of the legislature.

The executive government is vested in the king, represented by a governor-general, and

an executive council and in ten ministers of state. Legislative power is vested in a parliament consisting of a senate and a house of assembly. The senate contains forty members, eight of whom are nominated by the governor-general in council and thirty-two elected by the four provinces, each of which is entitled to eight senators. The assembly consists of 121 members, chosen in electoral division as follows: Cape of Good Hope, 51; Natal, 17; Transvaal, 36; Orange Free State, 17. Senators are elected for ten years and assemblymen for five. The English and Dutch languages are both official.

Imports and Exports—The total imports of the four states in 1918 were valued at $247,435,840, and the exports at $164,746,185. Exports to the United States in 1919, $36,388,174; imports, $44,841,871.

Governor-General—Viscount Buxton of Newtimber. Cabinet: Minister of finance, T. Orr; defense, J. C. Smuts; railways, Henry Burton; justice, N. J. de Wet; education and mines, F. S. Malan; interior and public works, Sir T. Watt; agriculture, H. C. Van Heerden; lands, H. Mentz; posts and telegraphs, Sir Meiring Beck; without portfolio, J. A. C. Graaf.

Area in square miles and population in 1911:

Province.	Area.	Population.
Cape of Good Hope.....	276,995	2,564,965
Natal	35,290	1,194,043
Transvaal	110,426	1,686,212
Orange Free State	50,389	528,174
Total	473,100	5,973,394

NEWFOUNDLAND AND LABRADOR.

Government—British colony administered by a governor, an executive council, a legislative council and an elected house of assembly. Governor and commander in chief, Sir C. A. Harris; prime minister, R. A. Squires. Salary of governor, $14,375.

Area and Population—Area of Newfoundland, 42,734 square miles; population, Dec. 31, 1917, 252,464; area of Labrador, 120,000 square miles; population, 4,000.

Imports and Exports—Imports, 1919, $34,222,000; exports, $37,806,400; imports from United States in 1920, $15,137,693; exports to, $4,303,322.

ALBANIA.

Albania before the great war was an autonomous kingdom created at a conference of ambassadors in London May 30, 1913, as a result of the Balkan wars. Its territory formerly comprised the Turkish provinces of Scutari and Yanina. It has an area of 11,317 square miles and a population of nearly 1,000,000. Until the outbreak of the European war in August, 1914, it was governed by a king (mpret) and an international commission. William I., prince of Wied, was the first king, but he was on the throne only half a year, an insurrection compelling him to leave the capital, Durazzo, Sept. 2, 1914. Since then the country has maintained an independent government at Tirana, though it has been at war with Italy, Jugo Slavia and Greece. Italy made peace with Albania in 1920, but Jugo Slavia and Greece were still pressing their claims to territory held by Albania.

REPUBLIC OF AUSTRIA.

Government—The various states composing the former Austro-Hungarian empire at the conclusion of the war broke away from the union and declared themselves independent of the mother country, each becoming a republic in form. Austria herself was proclaimed a republic Nov. 12, 1918, and the government was administered by a national assembly. On Feb. 16, 1919, a national constitutional assembly was elected with the following party representation: Social democrats, 70; Christian socialists, 64; liberals, 23; other parties, 5. The assembly on Oct. 22, 1919, formally adopted the name "Republic of Austria" for the state, omitting the word German from the title. The assembly up to Nov. 15, 1920, had not chosen any one to act as president, the administration being conducted by Dr. Karl Renner and a cabinet chosen by him. Dr. Renner announced in October that the republic would be constituted by the federation of eight Austrian states, each preserving to a large degree its autonomy.

Area and Population—The area of Austria may be roughly estimated at 30,000 square miles and the population at 6,355,000. The population of Vienna in 1920 was 1,838,708.

Imports and Exports—No figures on the imports and exports of the Republic of Austria were available in the fall of 1920. The United States in the fiscal year 1920 exported to the territory comprised in the old empire goods to the value of $22,769,961 and imported merchandise valued at $2,206,283.

BELGIUM.

Government—King, Albert I. Cabinet:
Premier and Minister of Finance—M. Delacroix.
Foreign Affairs—Paul Hymans.
Interior—J. Renkin.
War—P. E. Janson.
Justice—E. Vandervelde.
Agriculture—Baron A. Ruzette.
Industry and Labor—M. Wauters.
Colonies—M. Franck.
Railways, Marine, Posts and Telegraphs—P. Poullet.
Economic Affairs—H. Jasper.
Public Works—E. Anseele.

The legislative power is vested in the king, senate and chamber of representatives. The senate has 120 members and the chamber 186, or one for every 40,000 inhabitants.

Area and Population—Total area, 11,373 square miles. Total population, 1910, 7,423,784; estimated population, 1919, 7,555,576. Population of the largest cities Dec. 31, 1917:

Antwerp	309,517	Liege	169,790
Brussels (cap.)	679,031	Ghent	163,599

Imports and Exports—Imports in 1919, $1,015,116,813; exports, $459,330,549. The trade with the United States in 1920 was: Imports, $317,012,688; exports, $29,748,468. Chief imports in normal times are cereals, textiles and metal goods; chief exports, cereals, raw textiles, tissues, iron, glass, hides, chemicals and machinery.

BULGARIA.

Government—King, Boris III. The executive power is vested in a council of ministers and the legislative power in a sobranje or national assembly.

Premier, Minister for War and Minister for Foreign Affairs—M. Stambouliski.

Area and Population—Area, 43,310 square miles. Population in 1914, 4,752,997. Population of Sofia, the capital, 102,769.

Imports and Exports—Exports in 1914, $28,812,300; imports, $44,586,800. Exports to the United States in 1920, $5,090,787; imports, $1,803,401. The exports are mainly cereals and the imports textiles.

CZECHO-SLOVAKIA.

Government—President, Thomas G. Masaryk.
Premier—Jan Czerny.
Foreign Affairs—Dr. E. Benes.
Finance—Dr. English.
War—Gen. Husak.
Education—Dr. Susta.
Justice—Dr. Popelka.

Czecho-Slovakia announced her independence Oct. 18, 1918, and on Nov. 15 the same year the Czecho-Slovak national assembly declared the state to be a republic, with Prof. T. G. Masaryk as its first president. The chief executive formally assumed his duties on Dec. 31, 1918, in Prague, the capital of the new state. The principal countries in the republic are Bohemia, Moravia, Silesia and Slovakia.

Area and Population—The total area of Czecho-Slovakia is 56,316 square miles and the population 13,914,336.

Imports and Exports—The total exports in 1919 amounted to approximately $600,000,000 and the imports $800,000,000. The imports from the United States in 1920 (Jan. 1 to June 30) amounted to $6,016,234 and the exports to $3,369,815.

DENMARK.

Government—King, Christian X.; heir-apparent, Prince Christian Frederick. Cabinet:
Premier and Minister of Finance—Niels Neergaard.
Foreign Affairs—Erik Scavenius.
Home Affairs—Sigurd Berg.
Agriculture—Madsen Mygdal.
Instruction—Jacob Appel.
Commerce—Tyge Rothe.
Public Works—J. C. Christensen.
Defense—Klaus Berntsen.
Justice—Svenning Rytter.
Transport—M. Slebsager.

Legislative authority is vested in the landsthing and folkething. The former, which is the upper house, has sixty-six members, twelve of whom are appointed for life, the remainder being elected for terms of eight years. The folkething, or the lower house, has 114 members, each elected for three years.

Area and Population—Denmark's area is 15,582 square miles and total population in 1916, 2,940,979. Copenhagen, the capital, has a population of 506,390; with suburbs, 605,772.

Imports and Exports—Total exports in 1916, $363,580,000; imports, $377,055,000. The imports from the United States in 1920, were $125,170,679; exports, $13,791,663. Leading articles of export are butter, pork, eggs and lard; of import, textiles, cereals, wood, iron manufactures and coal.

ESTHONIA.

Esthonia is one of the provinces of the former Russian empire in the Baltic region. It is an independent republic and is ruled by a constitutional assembly. The president is August Rei and the prime minister Jaan Toenisson. The capital is Reval. Esthonia has an area of 23,160 square miles and a population of about 1,750,000. The chief exports are flax, timber, cellulose and meat.

FINLAND.

Finland was proclaimed an independent state July 20, 1917, and a republic on Oct. 7 of the same year. Organization was delayed on account of war between the red guards of the Russian bolsheviki and the white guards under Gen. Mannerheim, but the independence of the country was preserved and on July 25, 1919, Prof. Kaarie Juho Stahlberg was elected the first president of the republic by the diet. Universal suffrage (men and women) prevails. Members of parliament are chosen by direct vote.

The area of Finland is 125,689 square miles and the population in 1918 was 3,329,146. In the fiscal year 1920 Finland exported $2,414,485 worth of merchandise to the United States and imported goods to the value of $23,707,684.

FRANCE.

Government—President, Alexandre Millerand; term expires, 1927.
Premier and Minister of Foreign Affairs—Georges Leygues.
Justice—M. Lhopiteau.
Public Instruction—Andre Honnorat.
Colonies—Albert Sarraut.
Finance—Francois Marsal.
War—M. Andre Lefevre.
Marine—M. Landry.
Interior—M. T. Steeg.
Commerce—M. Isaac.
Labor—Paul Jourdain.
Agriculture—J. H. Ricard.
Public Works—M. Le Trocquer.
Liberated Territories—Emile Ogier.
Pensions—Andre Maginot.

Legislative authority is vested in the chamber of deputies and the senate. The former has 610 members, each of whom is elected for four years. The senate has 314 members, elected for nine years. The presidential term is seven years.

Area and Population—France has a total area of 207,054 square miles. The area of the French colonies and dependencies throughout the world is 4,367,746 square miles. Total population (1911) of France proper, 39,601,509. Population of principal cities in 1911:

Paris	2,888,110	Nantes	170,535
Marseilles	550,619	Toulouse	149,576
Lyons	523,796	St. Etienne	148,656
Bordeaux	261,678	Nice	142,940
Lille	217,807	Havre	136,159

Imports and Exports—The imports for home consumption in 1918 amounted to $3,983,000,000; exports, $828,800,000. Exports to the United States in 1920, $172,022,935; imports from, $716,811,629. The chief exports are textiles, wine, raw silk, wool, small wares and leather; imports, wine, raw wool, raw silk, timber and wood, leather, skins and linen.

GERMANY.

Government—In November, 1918, a revolution occurred in Germany as the result of the defeat of her armies by the allies. Emperor William II. was forced to abdicate and his cabinet was dispersed. In January, 1919, a national assembly was elected and on Feb. 6 this body met at Weimar. On Feb. 11, 1919, it elected Friedrich Ebert as the first president of the German republic. A constitution was formulated and adopted July 31. The chief officials of the republic in 1920 were:

President—Friedrich Ebert; term 7 years.
Chancellor—Konstantin Fehrenbach.
Vice-Chancellor and Minister of Justice—Carl Heinze.
Foreign Affairs—Walter Simons.
Home Affairs—E. Koch.
Food Supplies—Andreas Hermes.
Defense—Herr Gessler.
Posts—Herr J. Giesberts.
Minister Without Portfolio—Dr. Edward David.
Finance—G. Wirth.

Area and Population—The area of the states in the old empire was 208,780 square miles; area of dependencies about 1,027,820 square miles; grand total, 1,236,600 square miles. Omitting Alsace-Lorraine the area of the German republic is 203,176 square miles. This will be still further reduced by the result of various plebiscites. The population of the empire in 1910 was 64,925,933 including Alsace-Lorraine, which then had 1,874,014 inhabitants. The states' population in 1910 was:

Prussia	40,165,219	Anhalt	331,128
Bavaria	6,887,291	Saxe-Coburg-Gotha	257,177
Wurttemberg	2,437,574	Saxe-Altenburg	216,128
Baden	2,142,833	Lippe	150,937
Saxony	4,806,661	Schwarzburg-Rud.	100,702
Hesse	1,282,219	Schwarzburg-Sond	89,917
Mecklenburg-Schwerin	639,958	Reuss, junior br'nch	152,752
Oldenburg	483,042	Scha'mburg-Lippe	46,652
Brunswick	494,339	Waldeck	61,707
Saxony	417,149	Alsace-Lorraine	1,874,014
Mecklenburg-Strelitz	106,442	Total	64,925,293
Hamburg	1,014,664		
Reuss, elder branch	72,769		
Lubeck	116,599		
Bremen	295,715		
Saxe-Meiningen	278,762		

German cities having more than 150,000 inhabitants in 1910 include the following:

Berlin	2,071,257	Koenigsberg	245,994
Hamburg	931,035	Rixdorf	237,289
Munich	596,467	Stettin	236,113
Leipzig	589,850	Duisburg	229,483
Dresden	548,308	Dortmund	214,226
Cologne	516,527	Kiel	211,627
Breslau	512,105	Mannheim	193,902
Frankfurt am Main	414,576	Halle-on-Saale	180,843
Duesseldorf	358,728	Strassburg	178,891
Nurnberg	333,142	Schoeneberg	172,823
Charlottenburg	305,978	Altona	172,628
Hanover	302,375	Danzig	170,337
Essen	294,653	Elberfeld	170,195
Chemnitz	287,807	Gelsenkirchen	169,513
Stuttgart	286,218	Barmen	169,214
Magdeburg	279,629	Posen	156,691
Bremen	247,437	Aachen	156,143
		Cassel	153,196

Exports and Imports—Total exports (first six months of 1914), $1,246,240,000; total imports, $1,346,570,000. No details of Germany's commerce since the war began have been made public. During the fiscal year ended June 30, 1920, Germany exported $45,085,975 worth of merchandise to the United States; imports from the United States amounted to $202,176,079.

GREECE.

Government (Nov. 20, 1920)—Regent, Queen Mother Olga. Cabinet:

President of the Council, Minister of Foreign Affairs and of Justice—George Rhallis.
Minister of the Interior and ad interim of Communications—M. Baledris.
Minister of Finance and Food Supplies—Nikolas Kalogeropoulos.
Minister of War—Demetrius Gounaris.
Minister of Education and Pensions—Theodore Zaimis.
Minister of National Economy—Petro Mauromeghaelis.
Minister of Marine—John Rhallos.

Legislative authority is vested in one chamber, the boule, consisting of 235 members, each of whom is elected for four years.

Area and Population—Total area, 41,933 square miles. Population in 1914, 4,821,300. Athens and Piræus had a population in 1919 of 300,000; Patras (1907), 37,724; Saloniki (1913), 160,000.

Exports and Imports—The total exports in 1917 amounted in value to $22,525,000; imports, $44,615,000. Exports to the United States in 1920, $22,229,915; imports from the United States, $48,707,778. The leading exports are currants, ores, olive oil and figs; imports, foodstuffs, textiles, coal and timber.

HUNGARY.

Hungary was proclaimed an independent republic Nov. 16, 1918, with Count Michael Karolyi as provisional president and a provisional assembly as the source of legislative power. This administration continued until March 22, 1919, when the Karolyi cabinet resigned and was succeeded by a bolshevist cabinet under Bela Kun. There was much rioting and bloodshed in Budapest and no material progress toward stability was made. Early in August Bela Kun was forced to flee from the country and then the Roumanians, who had been fighting the Hungarian bolsheviki, came in and took possession of Budapest. Though ordered by the peace council in Paris to leave Hungary, the Roumanians remained. A cabinet under Jules Peidll was in power a short time, when it was overthrown by Archduke Joseph, who established a new ministry. This lasted only about two weeks. In March, 1920, Admiral Nicholas von Horthy was elected regent, with Dr. Alexander Simonyi Semadam as prime minister and Count Paul Telebi as minister of foreign affairs.

Hungary has an area of about 109,000 square miles and in 1910 had a population of 18,142,200, not including Croatia and Slavonia, which joined the Jugo Slav republic. The imports of Hungary from Jan. 1 to June 30, 1920, from the United States amounted to $64,325, and exports to $15,710.

ICELAND.

Since Dec. 1, 1918, Iceland has been recognized as an independent state united to Denmark chiefly through having the same king, Christian X. Legislative power is vested jointly in the king and the althing, or parliament, the members of which are elected by universal suffrage, all men and women born in Iceland and more than 25 years of age having the franchise. The president of the council in 1920 was Jon Magnusson. The area of Iceland is 39,700 square miles and the population in 1919 was 91,912.

The imports of Iceland in 1916 amounted in value to $10,788,400 and the exports to $11,042,760. The imports from the United States in 1920 amounted to $2,708,336 and the exports to $951,982.

ITALY.

Government—King, Victor Emmanuel III.; heir to the crown, his son Humbert, prince of Piedmont, born Sept. 16, 1904.
President of Council and Minister of Interior—Giovanni Giolitti.
Foreign Affairs—Count Carlo Sforza.
Grace and Justice—Sig. Jera.
Treasury—Sig. Meda.
Finance—Francesco Tedesco.
War—Sig. Bonomi.
Public Instruction—Benedetto Croce.
Public Works—Sig. Peano.
Agriculture—Sig. Micheli.
Posts and Telegraphs—Sig. Pacqualino Croce.
Colonies—Luigi Rossi.

Military Aid and Pensions—Sig. Dacomo.
Marine—Rear-Admiral Sechi.
Industry and Commerce—Sig. Alessio.
Liberated Provinces—Sig. Raineri.
Labor—Arturo Labriola.

Legislative authority vests in the king and parliament. The latter consists of a senate of 383 members (in 1920) and a chamber of deputies of 508 members.

Area and Population—The area of Italy is 110,632 square miles. According to the census of Jan. 1, 1915, the total population was 36,120,118. Population of the principal cities:

Naples	697,917	Florence	242,147
Milan	663,059	Catania	217,389
Rome	590,960	Bologna	189,770
Turin	451,994	Venice	168,038
Palermo	345,891	Messina	150,000
Genoa	300,139	Livorno	108,585

Exports and Imports—The value of merchandise exported in 1919 was $1,037,724,700; imported, $3,303,330,200. The total value of exports to the United States in 1920 was $92,420,177; imports from the United States, $398,065,795. Chief imports are coal, cotton, grain, silk, wool, timber, machinery, sugar and oil; chief exports, silk, wine, oil, coral, sulphur, hemp and flax.

JUGO SLAVIA.

Government—King, Peter I. (Karageorgevitch); heir-apparent, Prince Alexander (second son), for some years has been acting as regent; premier, M. Vesnitch. Legislative authority is vested in a single chamber called "skupshtina," of 160 selected members. Jugo Slavia in October, 1920, was declared to be a constitutional hereditary monarchy. It is officially known as the "Kingdom of the Serbs, Croats and Slovenes."

Area and Population—Area, 101,254 square miles. Population, 14,361,459. The capital, Belgrade, had 90,890 inhabitants before the war with Austria.

Exports and Imports—Total value of exports in 1912, $18,595,000; imports, $14,705,000. Exports to the United States in 1919, none; imports (July 1 to Dec. 31, 1919), $230,848. Exports are mainly agricultural products and animals and the imports cotton and woolen goods and metals.

LATVIA.

Latvia consists of the former Russian province of Courland and parts of the old provinces of Livonia and Vitebsk. It became an independent state in November, 1918, and elected a constituent assembly in April, 1920, with a membership of 150. It has a state council of 102 members. The prime minister in 1920 was K. Ulmanis. The area of Latvia is 24,440 square miles and the population is about 2,500,000.

LITHUANIA.

Lithuania, one of the former provinces of the old Russian empire, was proclaimed a republic Nov. 30, 1918. A. Smetona was appointed president April 4, 1919. Kovno is the capital of the state, which has an area of 36,532 square miles and a population of 4,651,000 made up of Lithuanians, Letts, Poles, Jews, Germans, White Russians and others. The military operations in 1919 and 1920 prevented the country from reaching a condition of stability. Figures as to exports and imports are not available.

MONTENEGRO.

King, Nicholas I. Area, 5,603 square miles; population, 516,000; of the capital, Cetinje, 4,500. Total exports in 1910, $498,200; imports, $1,701,300. Montenegro has practically no trade with the United States. Chief exports are sumac, smoked sardines, cattle, sheep, goats, cheese, olive oil, wine and tobacco. Imports include petroleum, salt, maize, cottons, hardware, sugar, coffee and rice.

NORWAY.

Government—King, Haakon VII.; crown prince, Olaf.
President of Council and Minister of Justice—Otto B. Halvorsen.
Foreign Affairs—Christian Michelet.
Justice—M. Urbye.
Commerce—G. M. Brun.
Labor—M. Olsen-Nalum.
Finance—E. Hagrup Bull.
Education and Worship—Riddervold Jensen.
Defense—T. Wefring.
Social Affairs—O. Klingenberg.
Provisioning—J. Rye Holmboe.
Public Works—M. Middelton.
Agriculture—G. Jahren.

Legislative authority is vested in the storthing, consisting of 126 members elected for three years through universal suffrage by men and women. The storthing consists of two houses, the odelsthing and the lagthing. The former is made up of three-fourths of the members of the storthing and the latter of one-fourth.

Area and Population—The total area of Norway is 124,643 square miles. The total population in January, 1918, estimated at 2,632,010. Christiania in 1918 had a population of 259,445 and Bergen 90,733.

Imports and Exports—The value of the imports in 1917 was $415,326,950; exports, $197,002,900. Exports to the United States in 1920, $15,025,415; imports, $115,332,880. The chief exports are timber and wood manufactures, wood pulp, malty food, fish, paper and minerals; imports, breadstuffs, groceries, yarn, textiles, vessels and machinery.

SPITZBERGEN.

Spitzbergen, which has an area of about 25,000 square miles and a population of a few hundred coal miners and sailors, was placed under the sovereignty of Norway by the peace conference Sept. 29, 1919. Its chief industries are coal mining and whale and seal fisheries.

POLAND.

Poland is a republic in which legislative power is vested in a national assembly elected by men and women, all of whom above the age of 21 have the right to vote. The executive power is exercised by a president and cabinet. The president in December, 1919, was Joseph Pilsudski and the cabinet was made up of the following:

Premier—M. Witos.
Interior—M. Skulski.
Commerce and Industry—A. Olszewski.
Finance—Ladislav Grabski.
Foreign Affairs—Prince Eugene Sapieha.
Communications—M. Bartel.
Posts and Telegraphs—M. Tolloszko.
Agriculture—Prof. Bujak.
Health—M. Chadzko.
Food—Stanislas Sliwinski.
Justice—J. Morowski.
Public Works—Gabriel Naruzowicz.
War—Gen. Sutnowski.

Area and Population—The boundaries not having yet (November, 1919) been exactly defined, the following estimates from Polish sources are given: Area, 135,367 square miles; population 36,234,727.

Imports and Exports—The exports of Poland are chiefly manufactured goods, furniture and beverages; the imports are raw materials such as wool and cotton. From Jan. 1 to June 30, 1920, Poland's imports from the United States amounted to $50,399,980 and exports to $206,771.

PORTUGAL.

Government—President, Dr. Antonio Jose de Almeida.
Premier—Antonio Granja.
Minister of Finance—Innocencio Camacho.
Foreign Affairs—Mello Baretto.
Justice—Lopes Cardoso.
War—Helder Ribeiro.
Marine—Paes Goms.
Instruction—Barbosa Magalhaes.
Labor—Lenia Duque.
Colonies—Ferreira da Rocha.

Legislative authority is vested in a national council of 164 members and an upper house of 71 members. The first elections were held May 28, 1911, and the assembly opened June 19.

Area and Population—Total area, including Azores and Madeira, 35,490 square miles. Area of possessions in Africa and Asia, 801,060 square miles. The population of the home country with the Azores and Madeira in 1911 was 5,957,985; of the colonies in Africa and Asia, 9,139,444. In 1911 Lisbon had a population of 435,359 and Oporto 194,009.

Imports and Exports—Total imports in 1916, $12,503,000; total exports, $24,642,500. Imports from the United States in 1920, $22,176,324; exports to the United States, $8,458,499. The chief imports are foodstuffs, cotton, sugar, fish, wool, leather, coal and coffee; chief exports, wine, sardines, copper ore, olives and figs.

ROUMANIA.

Government—King, Ferdinand; crown prince, Carol.

Legislative authority is vested in a senate of 170 members elected for eight years and a chamber of deputies of 347 members elected for four years.

Area and Population—The total area is 122,282 square miles. The population in 1919 was 17,393,149. Population of the principal towns (in 1914): Bukharest, 345,628; Jassy, 76,120; Galatz, 72,512; Braila, 65,911.

Exports and Imports—The value of the exports in 1915 was $112,907,300; of the imports, $65,929,140. The chief exports are cereals and the leading imports are textiles. Exports to the United States in 1920, $8,498; imports from, $10,354,015.

RUSSIA.

Government—Russia since Nov. 8, 1917, has been ruled nominally by a soviet or council of soldiers, workmen and peasants. In reality the government has been a dictatorship exercised by the following men, who call themselves "people's commissioners":

President of the Council—Vladimir Ilitch Ulianov Lenin.
Commissioner for Foreign Affairs—M. Tchitcherin.
Commissioner for Military Affairs and the Navy—Leon Trotzky.

Area and Population—The area and population of what is known as soviet Russia cannot be given with any degree of accuracy. The country has been in a state of civil war ever since the overthrow of the czar and a score of the provinces included in the old empire have declared themselves independent republics. Its area before the great upheaval was 8,764,586 square miles and its population in 1915 was 182,182,600. Population of the principal cities:

Petrograd (1915)	2,318,645
Moscow (1915)	1,817,100
Odessa (1912)	631,040
Lodz (1910)	415,604
Riga (1913)	558,000
Kiev (1913)	626,313
Kharkov (1913)	249,698
Yekaterinoslav (1912)	220,446
Saratov (1913)	235,300
Vilna (1913)	203,940
Kazan (1913)	194,246

Imports and Exports—The total value of the imports in 1916 was $576,500,000; of the exports, $201,000,000. The exports to the United States in 1920 amounted in value to $2,443,288; imports from the United States, $34,639,901. The chief exports are foodstuffs, timber, oil, furs and flax; imports, raw cotton, wool, metals, leather, hides, skins and machinery.

SPAIN.

Government—King, Alfonso XIII.; heir-apparent, Prince Alfonso.
Premier and Minister of Marine—Eduardo Dato.
Foreign Affairs—Marquis de Lema.
Interior—Senor Bergamin.
Finance—Lorenzo Pascual.
War—Viscount d'Eza.
Public Instruction—Marquis Portago.
Justice—Ezekiel Ordonez.
Public Works—Luis Espada.

Area and Population—Total area, 194,783 square miles. Total population of Spain Jan. 1, 1919, 20,719,598. Population of large cities (1918):

Madrid	652,157	Saragossa	124,998
Barcelona	618,766	Cartagena	102,542
Valencia	245,162	Bilbao	99,938
Seville	164,046	Granada	82,820
Malaga	141,046	Valladolid	70,987
Murcia	133,335	Cadiz	70,807

Imports and Exports—The exports of Spain in 1918 amounted to $272,501,900; imports, $256,194,300. Total exports to the United States in 1920, $49,416,915; imports, $123,909,485. Chief exports are wine, sugar, timber, animals, glassware and pottery; imports, cotton and cotton manufactures, machinery, drugs and chemical products.

SWEDEN.

Government—King, Gustaf V.; crown prince, Gustaf Adolf.
Premier—Baron Luis Deger.
Foreign Affairs—Count Wrangel.

Legislative authority is vested in a parliament of two chambers, the first of which has a membership of 150 and the second 230. Members of the upper house are elected by "landsthings" or provincial representations and municipal corporations for terms of six years. The second chamber members are elected for three years by universal suffrage.

Area and Population—The total area of Sweden is 173,035 square miles. The population Dec. 31, 1918, was 5,813,850. The population of the principal cities at the same time was:

Stockholm	408,456	Norkoping	56,879
Gothenburg	197,421	Gaefle	36,194
Malmo	110,459	Helsingborg	45,330

Imports and Exports—The total imports in 1917 were valued at $316,518,000; exports (1918), $372,107,105. Exports to the United States in 1920, $21,616,701; imports, $129,179,381. The leading articles of export are timber and machinery; of import, textile goods and foodstuffs.

SWITZERLAND.

Government — President of federal council (1920)—Dr. Giuseppe Motta; vice-president, Edmund Schulthess.

Legislative authority is vested in a state and a national council, the former having 44 and the latter 167 members. The national councilors are elected directly by the people; the state councilors are elected in some cantons by the people and in others by the cantonal legislature. The chief executive authority is vested in the bundesrath, or federal council, one member of which is the chief of one of the federal departments. Its decrees are enacted as a body. Its members are elected president in rotation.

Switzerland owns its main railroads, its telegraph and telephone system and monopolizes the manufacture and sale of alcohol.

Area and Population—Total area, 15,976 square miles. The population, according to the census of July 1, 1916, was 3,937,000. Population of the largest cities (1918):

Zurich	213,900	Bern	105,000
Geneva	139,500	St. Gallen	71,400
Basel	137,100	Lausanne	71,400

Exports and Imports—Total exports in 1919, $593,590,400; imports, $674,109,000. Exports to the United States in 1920, $46,394,211; imports, $49,415,680. The articles chiefly exported are cottons, silks, clocks and watches; imported, foodstuffs, silk, minerals and metals, clothing and animals.

THE NETHERLANDS.

Government—Queen, Wilhelmina; prince consort, Henry of Mecklenburg-Schwerin; heir, Princess Juliana

Prime Minister and Minister of the Interior—Jonkheer Ruys de Beerenbrouck.
Foreign Affairs—Jonkheer Karnebeek.
Agriculture, Commerce, Industry and Labor—Mr. H. A. Yssel'steyn.
War and Navy—Gen. W. F. Pop.
Justice—Dr. T. H. Heemskerk.
Finance—Mr. de Vries.
Colonies—S. de Graaf.
Labor—J. P. M. Aalberse.

Legislative authority is vested in the states-general, composed of two chambers, the first having 50 members and the second 100. The latter are elected directly and the former by the provincial states.

Area and Population—The area of Holland, or the Netherlands, is 12,648 square miles. The total population Dec. 31, 1918, was 6,778,699; that of the chief cities Dec. 31, 1918, was:

Amsterdam	644,070	Groningen	87,504
Rotterdam	501,281	Haarlem	75,280
The Hague	352,079	Arnhem	70,548
Utrecht	136,605	Leiden	61,113

Imports and Exports—In 1917 Holland imported $319,274,274 worth of merchandise and exported $204,824,360. In 1920 the exports to the United States amounted to $100,635,422; and the imports from the same country to $254,449,827. Chief imports are iron and steel and their manufactures, textiles, coal, cereals and flour; exports, butter, sugar and cheese.

DUTCH EAST INDIES.

Area, 735,000 square miles; population, 48,000,000; area of Java and Madura, 50,557 square miles; population, 36,015,435. The chief exports are sugar, coffee, tea, rice, indigo, cinchona, tobacco, copra and tin.

TURKEY.

Government—Sultan, Mohammed VI. Cabinet:
Grand Vizier and Foreign Affairs—Damad Ferid Pasha.
Justice—Rushudi Effendi.
Sheik-ul-Islam—Abdullah Effendi.
Finance—Reshed Bey.
Public Instruction, Posts and Telegraphs—Fahr-Ed-Din Bey.
Public Works—Jemel Pasha.
War—Mahmud Mukhtar Pasha.

A constitutional form of government was adopted July 24, 1908, with legislative authority vested in a parliament. It has remained inoperative.

Area and Population—Before the war the area of Turkey in Europe was 8,644, of whole empire, 710,224 square miles. Under the treaty of peace it will be about 174,900 square miles. The total population of all parts of the empire then was 21,273,000. It is now estimated at 8,000,000. Constantinople has about 1,203,000 inhabitants.

Exports and Imports—The total exports in 1917 amounted in value to $170,300,000 and the imports to $1,106,000. The imports from the United States in 1920 amounted to $31,846,033 and the exports to $17,506,112. The principal articles imported are cloth and clothing, sugar, coffee, flour, rice and manufactures of iron; exports, grapes, silk, grain, cocoons, wool, cotton, carpets, hides and skins.

UKRAINIA.

The "Ukrainian People's Republic" was proclaimed Nov. 21, 1917. Since that time it has been the scene of constant changes of government, passing back and forth between the bolsheviki and the enemies of soviet Russia. The capital is Kiev. The country in normal times exports large quantities of grain, especially wheat. Its area is about 216,400 square miles and its population is approximately 30,000,000.

ASIA.

AFGHANISTAN.

Ameer, Amanullah Khan; population, about 6,000,000; area, 250,000 square miles. No statistics as to imports and exports of Afghanistan are available. The chief productions are preserved fruits, spices, wool, silk, cattle and tobacco.

ARMENIA.

The Armenian republic was constituted in May, 1918. It has an area of 26,130 square miles and a population of 2,159,000. The republic up to the close of 1920 had not been fully organized.

AZERBAIJAN.

The republic of Azerbaijan was still in its formative state at the end of 1920. The capital is Baku. The population of the country is estimated at 4,615,000.

BOKHARA.

Ameer, Sayid Mir Alim Khan; heir, Sayid Mir Ibrahim. The area of Bokhara is about 83,000 square miles and the population 1,250,000. The products are corn, tobacco, fruit, silk and hemp. Since 1873 Bokhara has been a dependency of Russia.

CHINA.

Government — President, Hsu Shih-chang; premier, Chin Yun-peng. The president and vice-president are each elected for a term of five years. Legislative power is nominally vested in a single house assembly, but it is practically only an advisory body. The presi-

dent possesses autocratic powers and China is a republic in name only.

Area and Population—Total area of China, with dependencies, 3,913,560 square miles; estimated population, 320,050,000.

Exports and Imports—The total exports in 1918 amounted to $637,721,400, and the imports to $728,291,900. During the fisc l year 1920 goods to the value of $119,143,828 were imported from the United States. The total exports in the same period to the United States amounted to $226,887,848. The articles imported from America consist mainly of flour, kerosene, sago, india rubber, shoes, ginseng, quicksilver, white shirting, drills and broadcloth. Among the leading exports are tea, furs, wool, mats, fans, essential oils, straw braid, silks, hair, hides and hemp.

GEORGIA.

Georgia is a republic, the capital of which is Tiflis. It has an area of 35,500 square miles and a population (1915) of 3,176,156.

HEDJAZ.

Hedjaz is an independent kingdom with an area of about 100,000 square miles and a population of 750,000. Its capital is Jidda. The king is Husein Ibn Ali.

JAPAN.

Government — Emperor, Yoshihito; crown prince, Hirohito. Cabinet:
Premier—Kei Hara.
Justice—Count Enkichi Oki.
Foreign Affairs—Kosai Uchida.
Interior—Takejiro Tokonami.
Finance—Baron Korekiyo Takahashi.
War—Giichi Tanaka.
Navy—Vice-Admiral Tomasaburo Kato.
Education—Tokugoru Nakatashi.
Agriculture and Commerce—Tatsuo Yamamoto.
Communications—Utaro Noda.
Railways—Hajime Motoda.

Legislative authority is vested in the emperor and the imperial diet. This consists of the house of peers and the house of representatives, the former having about 375 and the latter 464 members.

Area and Population—The total area of Japan is 260,738 square miles. The population according to the census of Dec. 31, 1918, was 57,070,936 exclusive of Formosa, the Pescadores and the south half of Sakhalin. The total population, including Korea, Formosa and Sakhalin, was 78,261,856 in 1918. Cities having more than 100,000 inhabitants are:

Tokyo, 1916	2,244,796	Nagoya, 1916	389,272
Osaka, 1916	1,460,218	Hiroshima ..	167,130
Kyoto, 1916	539,153	Nagasaki ...	161,174
Kobe, 1916	498,317	Kanazawa ..	129,804
Yokohama, 1916	428,663	Kure	128,141

Imports and Exports—The total imports in 1919 amounted in value to $1,096,534,000; exports, $1,049,675,500. In 1920 the imports from the United States were valued at $453,147,063, and the exports to the same country at $527,220,867. The chief exports are raw silk, cotton, yarn, copper, coal and tea; imports, sugar, cotton, iron and steel, machinery, petroleum and wool.

Chosen (Korea).

Formerly an empire, but now a Japanese colony. Estimated area, 86,000 square miles. Population in 1918, 17,412,871. Seoul, the capital, has 302,686 inhabitants.

JAVA.

(See The Netherlands.)

KHIVA.

Khan, Seyid Asfendiar Khan; heir-apparent, Nasyr Tycuara; area, 24,000 square miles; population, 646,000. Products are cotton and silk. Khiva was a Russian vassal state.

PALESTINE.

Palestine is administered by Great Britain under a mandate from the supreme council of the allied powers, given at San Remo in April, 1920. The area of the country is 13,724 square miles and the population 675,000. The high commissioner representing Britain is Herbert L. Samuel.

PERSIA.

Shah or emperor, Sultan Ahmad Shah. Under the constitution granted in 1906 legislative authority was vested in a national council of 156 members and a senate of 60 members. It is, however, practically nonexistent and exercises no power at present. The area of Persia is about 628,000 square miles and the population, 9,500,000. Imports in 1918, $78,011,000; exports, $56,452,500. Imports from the United States in 1920, $846,034; exports to, $3,056,308. Teheran, the capital, has a population of about 280,000. Chief among the products are silk, fruits, wheat, barley and rice.

SIAM.

King, Chowfa Maha Vajirvudh. Area, 195,000 square miles; population (1919), 8,924,000. Bangkok, the capital, has 628,675 inhabitants. The imports in 1919 were $39,650,735; and the exports, $62,319,750. Imports from the United States in 1920, $1,450,779; exports to $337,950. Chief among the exports are rice, teak and marine products; imports, cotton goods and opium.

SYRIA.

Syria is an independent state under France as the mandatory power. The area is about 106,740 square miles and the population 3,000,000.

AFRICA.

ABYSSINIA.

Empress, Waizeru Zauditu. Total area of Abyssinia, 432,432 square miles; population, 8,000,000. The exports are coffee, hides and skins, gum, wax, gold and ivory.

ALGERIA.

Algeria is a colony of France. Governor-general, M. Abel. Area, 343,500 square miles; population in 1911, 5,563,828. Chief imports are cotton, skins and furs and woodwork; exports, wine, sheep and cereals.

EGYPT.

Sultan, Prince Ahmed Fuad. British high commissioner, Field Marshal Viscount Allenby. Total area of Egypt, 350,000 square miles; area of the Anglo-Egyptian Sudan, 1,014,400 square miles. The population of Egypt proper in 1917 was 12,750,918, of the Anglo-Egyptian Sudan, 3,400,000. Population of Cairo, 790,938; Alexandria, 444,617. Great Britain formally declared Egypt a protectorate of the empire Dec. 17, 1914. The total exports in 1918 were valued at $226,850,200, and the imports at $255,776,550. Imports from the United States in 1920, $27,229,699; exports to, $105,872,508. The exports consist chiefly of cereals, raw cotton and provisions; imports, wool, coal, textiles and metal manufactures.

BELGIAN KONGO.

Kongo was made a Belgian colony in 1908. The estimated area is 909,654 square miles and the negro population about 15,000,000. Among the leading articles of export are ivory, rubber, cocoa, palm nut, palm oil, copal gum and coffee. Exports to the United States (1920), $176,127; imports, $1,160,670.

LIBERIA.

President, C. B. King, vice-president, S. A. Ross. Legislative power is vested in a senate

of nine members and a house of representatives of fourteen members. The total area of the republic is about 40,000 square miles and the population 2,120,000. The exports in 1917 were valued at $618,536 and the imports (1913) at $902,063. Imports from the United States in 1920, $286,412; exports to, $16,267.

MADAGASCAR.

Governor-general, M. Garbit. Madagascar is a French colony governed by a council of administration. The area is 228,000 square miles and the population on Dec. 31, 1918, was 3,545,575. The capital is Antananarivo with a population of 63,115. Imports in 1918, $20,098,960; exports, $18,356,500. Exports to United States (1920), $1,810,747; imports from, $368,412.

MOROCCO.

Sultan, Mulai Youssef. Morocco is a French protectorate. Area about 231,500 square miles; population, 5,400,000. Total imports in 1918, $71,816,630; exports, $23,351,835. Imports from the United States in 1920, $4,515,127; exports to, $996,363.

TUNIS.

Bey, Sidi Mohammed; heir-presumptive, Sidi Mohammed Ben Mamoun Bey. Tunis is under the protectorate of France and that country is represented by a resident-general. Total area, 50,000 square miles; population in 1914, 1,953,000. Imports in 1918, $41,488,515; exports, $25,909,600.

SOUTH AMERICAN REPUBLICS.

ARGENTINE REPUBLIC.

President, Hipolito Irogoyen; capital, Buenos Aires. Area, 1,153,119 square miles. Population (1918), 8,279,159; Buenos Aires, 1,637,155 (Jan. 1, 1918). Total exports in 1918, $826,466,000; imports, $480,895,070. Exports to the United States in 1920, $257,783,114; imports, $167,146,548. Chief exports, sheep, wool, cattle, hides, frozen meats and wheat; imports, machinery, agricultural implements, railway cars, engines and supplies and manufactures of iron and steel.

BOLIVIA.

President, Gutierrez Guerra; capital, Sucre. Area, 514,155 square miles. Population (1915), 2,889,970. LaPaz, 100,097; Chocachamba, 31,014; Sucre, 29,686. Total exports in 1918, $73,000,000; imports, $13,600,000; exports to the United States in 1920, $8,022,401; imports, $3,648,534. Chief exports, silver, tin, copper, coffee, rubber; imports, provisions, clothing, hardware, spirits, silks and woolens.

BRAZIL.

President, Dr. Epitacio Pessoa; capital, Rio de Janerio. Area, 3,275,510 square miles. Population (estimated 1917), 30,492,275; Rio de Janeiro (1913), 975,818; Sao Paulo (1911), 450,000; Bahia, 348,130; Pernambuco, 216,484. Exports (1919), $284,275,000; imports, $247,351,150. Exports to the United States in 1920, $281,217,794; imports, $115,020,317. Chief exports, coffee, sugar, tobacco, cotton and rubber; imports, cotton goods, manufactures of iron and steel, furniture, mineral oils, breadstuffs and provisions.

CHILE.

President, Juan Luis Sanfuente; capital, Santiago. Area, 289,829 square miles. Population in 1918, 3,945,538; Santiago, 415,641; Valparaiso, 212,659; Concepcion, 72,785. Total exports in 1918, $261,358,400; imports, $163,527,770. Exports to the United States in 1920, $112,637,825; imports, $44,290,985. Chief exports, nitrate, wool, hides and leather; imports, sugar, coal, cotton goods, cashmeres, oil, galvanized iron.

COLOMBIA.

President, Dr. Marco F. Suarez; capital, Bogota. Area, 440,846 square miles. Population in 1912, 5,472,604; Bogota, 121,257. Total exports (1918), $37,728,500; total imports, $22,034,000. Exports to the United States in 1920, $54,160,217; imports, $52,123,464. Chief exports, gold, silver and other minerals, coffee, cocoa, cattle, sugar, tobacco and rubber; imports, manufactures of iron and steel, cotton goods.

ECUADOR.

President, Jose Luis Tamajo; capital Quito. Area, 116,000 square miles. Population, 2,000,000; Quito, 70,000; Guayaquil, 105,000. Total exports in 1918, 13,745,250; imports, $8,345,360. Exports to the United States in 1920, $12,841,820; imports, $10,736,382. Chief exports, coffee, cocoa, rice, sugar, rubber, cabinet woods, chemicals and minerals; imports, cotton, provisions, manufactures of iron and steel, clothing and mineral oil.

PARAGUAY.

President, Dr. Manuel A. Gondra; capital, Asuncion. Area, 165,000 square miles. Population (estimated 1917), 1,000,000; Asuncion (1917), 120,000. Total exports in 1918, $6,171,311; imports, $5,141,726. Exports to the United States in 1919, $1,434,483; imports, $1,623,813. Chief exports, mate (or Paraguay tea), tobacco, hides, timber, oranges; imports, cotton goods, machinery and provisions.

PERU.

President, Senor Leguia; capital, Lima. Area, 722,461 square miles. Population estimated (1912) at 4,500,000; Lima, 143,500; Callao, 34,346. Total exports in 1919, $99,862,950; imports, $48,525,550. Exports to the United States in 1920, $44,121,058; imports, $34,703,088. Chief exports, cotton, coffee, sugar, cinchona, india rubber, dyes and medicinal plants; imports, woolens, cotton, machinery and manufactures of iron.

URUGUAY.

President, Dr. Baltasar Brum; capital, Montevideo. Area, 72,153 square miles. Population (1918), 1,429,585; Montevideo (Jan. 31, 1919), 361,452. Total exports in 1919, $137,289,950; imports, $42,103,950. Exports to the United States in 1920, $52,118,859; imports, $27,805,629. Chief exports, animal and agricultural products; imports, manufactured articles.

VENEZUELA.

President, Gen. Juan Vicente Gomez; capital, Caracas. Area, 398,594 square miles. Population Dec. 31, 1917, 2,844,618; Caracas, 75,000. Total exports in 1918, $19,604,300; imports, $16,604,300. Exports to the United States in 1920, $32,925,492; imports, $25,922,220. Chief exports, coffee, hides, cabinet woods, rubber and chemicals; imports, machinery, manufactures of iron and steel, provisions, furniture and mineral wools.

MEXICO.

Government—President, Gen. Alvaro Obregon. The republic of Mexico is divided into twenty-seven states, three territories and one federal district, each with a local government, but all subject to the federal constitution. Representatives are elected for two years each and are apportioned at the rate of one for each 40,000 inhabitants; the senators, of whom there are fifty-six, are elected by the people in the same manner as representatives. The president holds office four years and may be elected for several consecutive terms.

Area and Population—The total area, including islands, is 785,881 square miles. The

estimated population in 1912 was 15,501,684. The population of leading cities of the republic follows: City of Mexico (capital), 470,659; Guadalajara, 118,799; Puebla, 101,214; Monterey, 81,006; San Luis Potosi, 82,946; Pachuca, 38,620; Aguascalientes, 44,800; Zacatecas, 25,905; Durango, 34,085; Toluca, 31,247; Leon, 63,263; Merida, 61,999; Queretaro, 35,011; Morelia, 39,116; Oaxaca, 37,469; Orizaba, 32,894; Chihuahua, 39,061; Vera Cruz, 29,164.

Commerce—The chief exports of Mexico are oil, precious metals, coffee, tobacco, hemp, sisal, sugar, dyewoods and cabinet woods, cattle and hides and skins. In 1918 the total exports amounted to $183,652,725; total imports for the same year were $82,235,017. The trade of Mexico is chiefly with the United States, Great Britain, France, Germany and Spain. In 1920 the imports from the United States were $143,785,526; exports to, $168,330,626.

CENTRAL AMERICAN STATES.

COSTA RICA.

President, Don Julio Acosta; capital, San Jose. Area, 23,000 square miles. Population (1918), 459,423; San Jose, 38,016. Total exports, $9,902,600; imports, $2,843,205. Exports to the United States in 1920, $9,275,954; imports, $8,288,034. Chief exports, coffee and bananas; imports, cotton, machinery, iron and steel manufactures, woolens and worsteds.

GUATEMALA.

President, Carlos Herrera; capital, Guatemala de Nueva. Area, 48,290 square miles. Population (1914), 2,003,579; of the capital, 90,000. Total exports (1918), $11,319,000; imports (1919), $11,230,819. Exports to the United States in 1920, $16,347,595; imports, $10,309,233. Chief exports, coffee and bananas; imports, cotton and cereals.

HONDURAS.

President, Gen. Rafael Lopez Gutierrez; capital, Tegucigalpa. Area, 44,275 square miles. Population (1916), 613,758; Tegucigalpa, 28,950. Total exports (1918), $7,733,600; imports, $4,983,800. Exports to the United States in 1920, $8,290,122; imports, $11,246,758. Chief exports, bananas, coffee, cattle, cocoanuts and wood; chief imports, cotton.

NICARAGUA.

President, Gen. Emiliano Chamorro; capital, Managua. Area, 49,200 square miles. Population (1917), 746,000; Managua, 41,538; Leon, 73,520. Total exports (1919), $7,754,940; imports, $5,929,803. Exports to the United States in 1920, $7,803,463; imports, $9,064,397. Chief exports, cattle and coffee; imports, flour, wine, beer, barbed wire, cotton goods, sewing machines, kerosene, calico and tallow.

PANAMA.

President, Ernest Lefevre. Independence of Panama declared Nov. 3, 1903; constitution adopted Feb. 13, 1904. Legislative power is vested in a national assembly composed of deputies elected by the people. The ratio of representation is one deputy for each 10,000 inhabitants. The term of office is four years. The area of the republic is 32,380 square miles and the population in 1920, 401,428; city of Panama (1917), 61,369; Colon, 26,076. Total exports outside of Canal Zone in 1918, $2,899,557; imports, $7,821,660. The exports to the United States in the fiscal year ended June 30, 1920, amounted to $8,365,894, and the imports to $26,798,467. The chief articles of export are bananas, rubber, coffee and pearls.

SALVADOR.

President, Don Jorge Melendez; capital, San Salvador. Area, 13,176 square miles. Population (1919), 1,298,621; San Salvador, 66,800. Total exports (1918), $12,399,800; imports, $6,142,698. Exports to the United States in 1920, $9,108,482; imports, $7,514,213. Chief exports, coffee, indigo, sugar, tobacco and balsams; imports, cotton, spirits, flour, iron goods, silk and yarn.

CUBA.

Government—President, Dr. Alfredo Zayas.

Under the constitution the legislative power is exercised by two elective bodies—the house of representatives and the senate, conjointly called congress. The senate is composed of four senators from each of the six provinces, elected for eight years by the provincial councilmen, and by a double number of electors, constituting together an electoral board.

The house of representatives is composed of one representative for each 25,000 inhabitants or fraction thereof over 12,500, elected for four years by direct vote. One-half of the members of the house are elected every two years. The salary of members of congress is $3,600 a year.

Organization of the Republic—The organization of the republic of Cuba, begun in 1900, was practically completed on the 20th of May, 1902, when the military occupation of the island by the United States came to an end and Gen. Tomas Estrada Palma was inaugurated as first president.

Area and Population—The total area of Cuba is 44,164 square miles. The population in 1919 was 2,898,905.

Population of provinces in 1919:

Havana	697,583	Matanzas	312,704
Santa Clara	657,697	Pinar del Rio	266,198
Oriente	735,810	Camaguey	228,913

Population of principal cities in 1916:

Havana	360,517	Cardenas	32,513
Cienfuegos	82,092	Pinar del Rio	52,472
Camaguey	93,057	Santa Clara	57,767
Matanzas	56,468	Guantanamo	60,216
Manzanillo	62,485	Sancti Spiritus	58,843
Santiago	63,041		

About 70 per cent of the population is white.

Imports and Exports—The total imports in 1919 amounted to $315,587,167 and the exports to $477,221,863. The imports from the United States in 1920 were valued at $396,595,049 and the exports at $645,571,828. The principal articles of export are sugar, tobacco and cigars, iron and manganese ore, fruit, coffee, cocoa, molasses and sponges; of import, animals, breadstuffs, coal and coke, iron and steel, wood, liquor, cotton, chemicals and vegetables.

HAITI.

President, Sudre Dartiguenave. The area of Haiti is 10,204 square miles and the population about 2,500,000. Coffee, cocoa and logwood are the leading articles sold. Total exports (1917), $1,692,968; imports (1919), $1,837,744. Exports to the United States in 1920, $9,859,162; imports, $21,967,684.

DOMINICAN REPUBLIC.

President, Federico H. Carvajal. The republic has an area of 19,325 square miles and a population (1918) of 955,159; Santo Domingo, the capital, has 26,812 inhabitants. In 1918 the exports amounted to $22,576,514 and the chief articles shipped were coffee, cocoa and mahogany; imports (1919), $20,168,952. Exports to the United States in 1920, $30,364,591; imports, $38,007,611.

NONCONTIGUOUS POSSESSIONS OF THE UNITED STATES.

THE PHILIPPINE ISLANDS.

The Philippine islands were ceded to the United States by Spain Dec. 10, 1898. Maj.-Gen. Merritt was the first military governor. He was succeeded in August, 1899, by Maj.-Gen. E. S. Otis, who in turn was followed in May, 1900, by Maj.-Gen. Arthur MacArthur. The last named remained in office until July 4, 1901, when the military authority was transferred to Gen. A. R. Chaffee. By order of the president Gen. Chaffee was relieved of his duties as military governor July 4, 1902, and the office terminated. The Philippine commission was at the same time made the superior authority.

By act of congress approved Aug. 29, 1916, the legislative authority is vested in the Philippine legislature, composed of two houses, one the senate and the other the house of representatives. The senate consists of twenty-four senators and the house of representatives of ninety members. The legislature created under this law opened its first session on Oct. 16, 1916, and on its being organized the Philippine commission ceased to exist and the members thereof vacated their offices.

The governor-general is Francis Burton Harrison and the vice-governor Charles E. Yeater. The governor's term is indefinite. He receives $20,000 a year, while the vice-governor receives $10,000.

Area and Population—The total land and water area of the Philippine archipelago is 832,968 square miles; land area, 115,026; population (estimated 1918), 9,009,802. The population of Manila in 1914 was 266,943. The population of the principal islands in 1903 was: Bobol, 243,148; Cebu, 592,247; Jolo, 44,718; Leyte, 357,641; Luzon, 3,798,507; Marinduque, 50,601; Mindanao, 499,634, of whom 252,940 are uncivilized; Negros, 460,776 (21,217 uncivilized); Panay, 743,646 (14,933 uncivilized); Samar, 222,690.

Products and Climate—The chief products are hemp, sugar, coffee, tobacco leaf, copra, cigars and cocoanut oil. Between 600,000 and 700,000 bales of hemp are exported annually. The mean temperature in Manila ranges from 77 in January to 83 in May. June, July, August and September are the rainy months; March, April and May the hot and dry, and October, November, December, January and February the temperate and dry.

Trade with the United States—The shipments of merchandise from the United States to the Philippines in the fiscal year ended June 30, 1920, amounted in value to $71,009,094, as compared with $69,291,477 in 1918. The principal articles sent are cotton manufactures, iron and steel manufactures and mineral oils. The imports into the United States amounted in value to $72,962,140, as compared with $82,490,760 in 1919. The principal articles imported are unmanufactured manila, sugar, tobacco, fruits and nuts, and vegetable oils.

Imports and Exports—The total imports of the Philippine islands in the fiscal year 1919 amounted to $107,774,000; total exports, $113,118,000.

ISLAND OF PORTO RICO.

Porto Rico was ceded to the United States by Spain Dec. 10, 1898, and was under military rule until the Foraker law went into effect May 1, 1900. In accordance with the third section of that act, the legislative assembly of Porto Rico, having put into operation a system of local taxation to meet the necessities of government, President McKinley on the 25th of July, 1901—the anniversary of the landing of American troops on the island in 1898—proclaimed free trade between the United States and Porto Rico.

Government—Under the organic act of March 2, 1917, the legislative power in Porto Rico is vested in a legislature consisting of two houses, one the senate and the other the house of representatives. The senate consists of nineteen members elected for terms of four years by the qualified electors of Porto Rico. The house of representatives consists of thirty-nine members elected for a term of four years by the qualified electors. The members of the senate and house of representatives receive compensation at the rate of $7 per day for ninety days of each session and $1 per day for each additional day of such session while in session. Regular sessions of the legislature are held biennially, convening on the second Monday in February. The governor is Arthur Yager and the resident commissioner in the United States is Felix Cordova Davila.

Area and Population—The area of Porto Rico is 3,435 square miles and the population in 1910 was 1,118,012, of which 65.5 per cent was white, 30 per cent mulatto and 4.5 per cent black. In 1918 the population was estimated at 1,246,361. The cities having more than 5,000 inhabitants in 1910 were: San Juan, 48,716; Ponce, 35,005; Mayaguez, 16,563; Arecibo, 9,612; Aguadilla, 6,125; Yauco, 6,589; Caguas, 10,354; Guayama, 8,321.

Commerce—For the year ended June 30, 1920, the total domestic exports from Porto Rico to the United States were $133,207,508, and imports from the United States amounted to $90,724,259. The leading articles of export are coffee, oranges, brown sugar and tobacco.

TERRITORY OF ALASKA.

Purchased from Russia in March, 1867.

Organized as a noncontiguous possession July 27, 1868.

Made a civil and judicial district June 6, 1900.

Organized as territory of Alaska by act of Aug. 24, 1912.

Capital—Juneau.

Governor—Thomas Riggs, Jr.

Secretary—William L. Distin.

Treasurer—W. G. Smith.

Area and Population—Area, 590,884 square miles (land and water); population in 1910, 64,356, of whom 25,331 were Indians; estimated total population in 1918, 64,984.

Legislature—Senate has eight members, or two from each judicial district; house has sixteen members, or four from each judicial district; term of senators, four years; term of representatives, two years; compensation paid by government, $15 a day to each member during attendance at sessions and mileage at the rate of 15 cents a mile; sessions biennial, beginning on first Monday in March of odd numbered years; limit of regular sessions, sixty days, and of special sessions, fifteen days; delegate to congress elected on Tuesday following first Monday of November every second year, beginning with 1914.

Commerce—The total value of the shipments of domestic merchandise from the mainland of the United States to Alaska in the year ended June 30, 1920, was $33,998,462. The principal articles were: Breadstuffs, $1,394,982; manufactures of cotton, $1,449,479; manufactures of iron and steel, $9,721,583; meat and dairy products, $3,846,691; wood and manufactures of, $2,019,724; min-

eral oils, $1,766,460. Total value of shipment of domestic merchandise from Alaska to the mainland, $66,498,871. The main articles were: Copper ore, $13,571,683; canned salmon, $38,873,312; furs, $3,271,743.

Gold Shipments (1920)—From Alaska to the mainland, $8,058,818; from the mainland to Alaska, $66,245. The total gold and silver shipments, including foreign, to the United States were $8,828,112.

TERRITORY OF HAWAII.

Annexed to United States July 7, 1898.
Created a territory June 14, 1900.
Governor—Charles J. McCarthy.
Population—According to the federal census of 1920 the total population of the territory was 255,912. The only large city is Honolulu, which in 1920 had a population of 83,327.
Commerce with the United States—The total value of the shipments of domestic merchandise from Hawaii to the United States for the twelve months ended June 30, 1920, was $142,246,003. Brown sugar was the principal item, amounting to 1,041,786,623 pounds, valued at $116,420,795. The other articles of importance were: Fruits and nuts, $19,091,007. The total value of the shipments of domestic merchandise from the United States to Hawaii was $59,261,621. The principal articles were: Iron, steel and machinery, $9,238,160; oils, $7,078,703; breadstuffs, $6,109,247; lumber and manufactures of wood, $4,510,281; meat and dairy products, $2,673,962; cotton goods, $1,788,578.

AMERICAN SAMOA.

Acquired by the United States January, 1900.
Area, including Manua and several other small islands, 77 square miles.
Population, about 7,550.
Merchandise shipped from the United States to Samoa in 1920, $884,827.
Pagopago harbor acquired by United States in 1872.
Governor—Capt. Waldo B. Evans, U. S. N.

GUAM.

Ceded to the United States by Spain Dec. 10, 1898.
Area, 210 square miles.
Population, about 12,250.
Merchandise shipped from United States 1920, $142,219.
First American Governor—Capt. R. P. Leary, U. S. N.
Governor (1918)—Capt. Ivan C. Wettengel, U. S. N.

PANAMA CANAL ZONE.

Acquired by the United States Feb. 26, 1904.
Area, 474 square miles.
Population (June, 1918), 21,767.
Governor—Chester Harding.

VIRGIN ISLANDS.

Acquired by the United States March 3, 1917.
Area, 142 square miles.
Population (1918), 32,000.
Governor—Rear-Admiral Joseph W. Oman, U. S. N.

BASEBALL WAR AVERTED.

In the fall of 1920, just before the baseball season in the major leagues closed, it became known that several players in the White Sox American league team had accepted money to "throw" games in the championship series with the Cincinnati National league team. Professional gamblers and others in the conspiracy made, it was alleged, a large amount of money by betting that the White Sox would lose the world's championship. Some of the accused players were indicted by the county grand jury in Chicago. The game had received a hard blow, as its success both as a sport and as a business investment was based upon popular belief in the honesty of the players. The owners of the National and American league clubs realized that some action had to be taken at once to restore the confidence of the public. For a time no agreement could be reached, a number of club owners refusing to accede to a plan proposed by A. D. Lasker, a director of the Chicago National league club, to place the control of organized baseball in the hands of the three most prominent men obtainable, not connected with baseball, these men to act as a superior tribunal "with unreviewable authority over presidents of all leagues, club owners, players and every other person, act or thing connected with the national game." Previously the national commission had consisted of the presidents of the two major leagues and a club owner. The principal objection to the Lasker plan came from Ban Johnson, president of the American league, and he was supported in his position by the owners of the Cleveland, Detroit, St. Louis, Philadelphia and Washington American league clubs.

The owners of the National league clubs and the Chicago, Boston and New York American league teams insisted on reorganizing the control of baseball on the lines of the Lasker plan and, in case the objecting owners refused to come in, were prepared to organize a twelve club circuit. They did not, however, cease to seek a compromise, and this was finally reached on Nov. 12, when Judge Kenesaw M. Landis of the United States district court, in Chicago, well known as a lover of baseball and as a fearless jurist, accepted an offer to become the new ruling authority in organized baseball at an annual salary of $42,500 for seven years. He was offered $50,000 a year, but he accepted the position only on condition that he be allowed to continue on the bench and that his salary as judge, $7,500 a year, be deducted. This was satisfactory to the owners and a contract was duly signed.

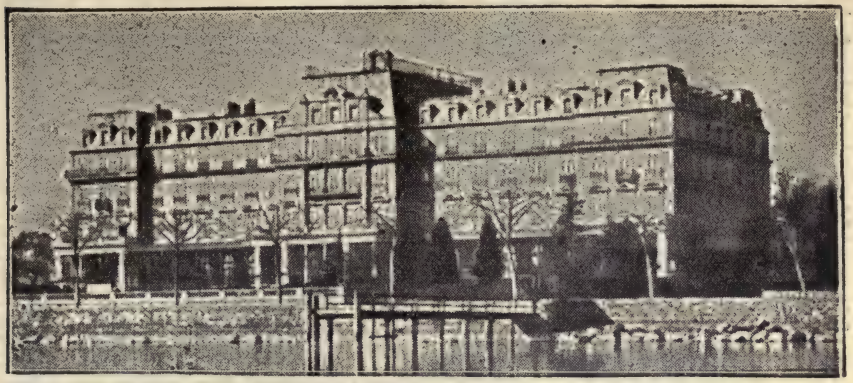
DISTANCE OF VISIBILITY OF OBJECTS ON THE LAKES.

[From "List of Lights and Fog Signals" issued by the United States lighthouse board.]

Height, feet.	Dist., miles.	Height, feet.	Dist., miles.	Height, feet.	Dist., miles.	Height, feet.	Dist., miles.	Height, feet.	Dist., miles.	Height, feet.	Dist., miles.
5	2.96	55	9.81	110	13.87	450	28.06	600	32.40	800	37.42
10	4.18	60	10.25	120	14.49	500	29.58	650	33.73	900	39.69
15	5.12	65	10.67	130	15.08	550	31.02	700	35.00	1,000	41.83
20	5.92	70	11.07	140	15.65						
25	6.61	75	11.46	150	16.20						
30	7.25	80	11.83	200	18.71						
35	7.83	85	12.20	250	20.92						
40	8.37	90	12.55	300	22.91						
45	8.87	95	12.89	350	24.75						
50	9.35	100	13.23	400	26.46						

The distances of visibility given in the above table are those from which an object may be seen by an observer whose eye is at the lake level; in practice, therefore, it is necessary to add to these a distance of visibility corresponding to the height of the observer's eye above lake level.

THE LEAGUE OF NATIONS.



HOME OF THE LEAGUE OF NATIONS IN GENEVA, SWITZERLAND.

On the evening of Jan. 12, 1920, President Woodrow Wilson issued a call for the first meeting of the council of the league of nations. It was addressed to Great Britain, France, Italy, Japan, Brazil, Belgium and Spain and was as follows:

"In compliance with article V. of the covenant of the league of nations, which went into effect at the same time as the treaty of Versailles of June 28, 1919, of which it is a part, the president of the United States, acting on behalf of those nations which have deposited their instruments of ratification in Paris as certified in a process-verbal drawn up by the French government, dated Jan. 10, 1920, has the honor to inform the government of Great Britain that the first meeting of the council of the league of nations will be held in Paris at the ministry of foreign affairs on Friday, Jan. 16, at 10:30 a. m.

"The president earnestly ventures the hope that the government of Great Britain will be in a position to send a representative to this first meeting. He feels that it is unnecessary for him to point out the deep significance attached to this meeting or the importance which it must assume in the eyes of the world.

"It will mark the beginning of a new era in international co-operation and the first great step towards the ideal concert of nations.

"It will bring the league of nations into being as a living force, devoted to the task of assisting the peoples of all countries in their desire for peace, prosperity and happiness.

"The president is convinced that its progress will accord with the noble purpose to which it is dedicated."

In compliance with the foregoing call the council of the league of nations was formally organized on Jan. 16, 1920, at a meeting held in the salle de l'horloge or clock room of the French foreign ministry on the Quai d'Orsay, Paris, of representatives of the following nations:

France—Leon Bourgeois.
Great Britain—Earl Curzon of Kedleston.
Italy—Carlo Ferraris.
Japan—Ambassador Keishiro Matsui.
Spain—Ambassador Quinones de Leon.
Brazil—Dr. Eastoa da Cunha.
Greece—Premier Eleutherios Venizelos.
Belgium—Paul Hymans.

Premier Lloyd George and Viscount Grey of Great Britain were present but in unofficial capacities. M. Bourgeois was elected chairman of the meeting on motion of Premier Venizelos. In his opening address M. Bourgeois said:

"To-day, gentlemen, we are holding the first meeting of the council, convened by the president of the United States. The task of presiding at this meeting and of inaugurating this great international institution should have fallen to President Wilson. We respect the reasons which will delay the final decisions of our friends in Washington, but we may all express the hope that the difficulties will soon be overcome, and that a representative of the great American republic will occupy the place which awaits him among us. The work of the council will then assume that definite character and that particular force which should be associated with our work.

"Jan. 16, 1920, will go down in history as the date of the birth of a new world. Decisions to be reached to-day will be in the name of all nations adhering to the covenant of the league. It will be the first decree of all free nations, leaguing themselves together for the first time in the world to substitute right for might. But the organization of the league of nations will not be complete until the assembly of all the states meets.

"We do not forget the impatience with which our decisions are awaited. We are also well aware of the doubts of some and the ardent enthusiasm of others, but we are here to represent responsible governments, and while realizing the grandeur of the work we cannot ignore the inevitable difficulties of the enterprise we are trying to serve. With eyes fixed on the distant future, but with our feet on the solid ground of political and social realities, we will create a world in which the league can develop in the spirit of justice and the will for peace."

Lord Curzon followed with a speech along the same line, saying:

"On behalf of the British empire I desire to express the loyalty of my government, and of the external dominions of the British crown, to the spirit which underlies the covenant of the league, our intention by every means in our power to ensure its practical efficacy, and our firm belief that through its instrumentality alone we can hope to ensure that such horrors and miseries as the world has experienced during the last five years

shall not be repeated, and that a new era of international relationships shall dawn.

"It has sometimes been said that the league of nations implies the establishment of a superstate or supersovereignty. The very title 'league of nations' should be sufficient to dispel this misconception. The league does not interfere with nationality; it is upon the fact of nationhood that it rests.

"The success of the labor conference is of good augury for the future of the league of nations and in particular it has demonstrated the use and the power of public debate in one field of international action. The peoples of all countries have now learned that foreign affairs are their vital concern, and they are demanding with ever increasing insistence that international obligations shall not be incurred without their knowledge and behind their backs. Their eyes have been opened to the necessity for co-operation between all nations, but they ask that it shall be open co-operation.

"There is another and more important result which it is to be hoped that the habit of mutual confidence may bring about. It is this—that great national armaments will in time automatically disappear. We shall not perhaps see this come about in the immediate future, but the present weight of armaments is so oppressive to the nations and peoples concerned that we should at once resort to the measures indicated in the covenant to bring relief.

"Whilst I am in entire agreement with all that M. Bourgeois has said, I should wish especially to express my full concurrence in his observations as regards the United States of America. The decision must be her own, but if and when the United States elects to take her place in the new council chamber of the nations, the place is vacant for her, and the warmest welcome will be hers."

Ambassador de Cunha for Brazil said his country would devote herself with fervor to the work of peace and fraternity among the nations. He referred to the fact that he was the only representative from America present and said he was proud to have the honor of bringing assurances of the co-operation of Pan-America in the operation of the league.

When the speeches had been concluded M. Bourgeois announced that the only item in the order of the day was the appointment of three members of the commission to fix the boundaries of the Saar valley, with one member appointed by France and one by Germany. The council named as its members Col. Wace, an English officer; Maj. Lambert, a Belgian, and Maj. Kobaish, a Japanese.

M. Bourgeois proposed London as the place of the next meeting of the league council and the suggestion was approved.

Raymond B. Fosdick, who had been appointed undersecretary-general of the league and American representative in the organization, cabled his resignation to Sir Eric Drummond, secretary-general, Jan. 19. His message read:

"Now that the league of nations is no longer a provisional organization, but has become established as a going concern, the continued lack of decision as to America's course places me personally in a position of peculiar embarrassment. In order, therefore, to avoid any confusion or misunderstanding as to my position as undersecretary-general of the league, it seems best for me to offer my resignation.

"I do this with deep regret, because I do not like to appear to be abandoning those with whom I have been associated the last few months just at the moment when their responsibilities and opportunities are becoming real.

"The league is now approaching the point where it can begin to carry out the world's hopes for disarmament, arbitration and the protection of backward people, the furthering of international health projects, and all the other humanitarian issues upon which we have been working for the last six months.

"I feel sure, however, that you will appreciate the reasons which have led up to my decision and will recognize that if as an American I now feel forced to withdraw from official connection with the secretariat, it is not for lack of faith in the league."

On Jan. 30 a public celebration of the organization of the league of nations was held in the Sorbonne, Paris, presided over by President Poincare and attended by many other of the leading officials of the government. Marked enthusiasm was shown.

MEETINGS OF THE COUNCIL.

The second meeting of the council was held in London, England, beginning Feb. 11, the sessions being held in the St. James palace, the temporary home of the league. The nations represented were Belgium, Brazil, Great Britain, France, Greece, Italy, Japan and Spain. Arthur J. Balfour, representing Great Britain, assumed the chair and in his welcoming address expressed regret at the absence of the United States. The work accomplished at this session of the council included the adoption of rules of procedure, appointment of the Saar basin governing commission, appointment of Sir Reginald Tower as high commissioner of Danzig, and approval of plans for a permanent court of international justice, for freedom of communication and transit, for the international health office and for the summoning of an international financial conference. The accession of Switzerland to the league was accepted.

On March 13 the council met in Paris and approved plans for sending a commission of inquiry to Russia to report upon the state of affairs there. Steps for the prevention of typhus in Poland were also taken. The fourth meeting of the council was held in the Luxembourg palace, Paris, April 9 and 10. The most important matter disposed of at this session was the request of the supreme council that the league take a mandate for Armenia. The request was refused on the ground that the force necessary to administer the territory was lacking. The fifth meeting of the council was held in Rome, Italy, May 14-16, thirty-six states being represented. A permanent armaments commission was constituted and an international statistics commission appointed. New treaties were registered and plans were made for a general assembly of all the member nations.

The sixth meeting of the council was held in London on June 14, when the request of Persia for league intervention against Russian soviet aggression was considered. No decision was arrived at. The seventh meeting of the council was held in London July 11 and 12, when it was decided to refer the Aland dispute between Sweden and Finland to a committee of three international jurists who were to report whether it was a domestic question for Finland or an international one. The eighth meeting of the council and the first on neutral soil took place at San Sebastian, Spain, beginning July 30. The French plan for an international general staff of military experts to propose plans of operations in the event of war was agreed to.

HEALTH ORGANIZATION.

The following permanent health organization was approved:

(1) A general commission composed of

delegates of all states represented in the league and of states who adhered to the old international health office.

(2) A permanent committee composed of delegates of the states forming the league.

(3) A general medical secretariat.

This new health department will complete and revise the existing conventions, advise the league on all matters of public health, establish co-operation between states and work in conjunction with the international labor bureau for the application of measures for protecting the health of the workers. It will co-operate with the Red Cross and organize scientific missions.

THE ALAND DISPUTE.

The council also adopted a report justifying the blockade principle and favoring the establishment of an international blockade committee. Other meetings of the council were held in Paris in September and in Brussels in October, at which business of importance was transacted. It was announced at the Paris session that Sweden and Finland had agreed to accept the intervention of the league of nations in the Aland dispute and that the United States would be represented on the commission which would be appointed to investigate the question and reach a decision. [Abram I. Elkus, former ambassador to Turkey, was subsequently appointed to represent the United States.] It was also announced that a successful appeal had been made to Poland and Lithuania to compose their differences without war.

PERMANENT HOME IN GENEVA.

During the year most of the routine business of the league of nations council was transacted in the London office. In August Sir Eric Drummond, the secretary-general of the league, bought the National hotel in Geneva, Switzerland, for the permanent home of the organization as provided in the covenant. The archives were moved into it later in the year and the place was used for the first assembly of the league in November.

On the invitation of the council President Wilson on July 15 issued a call for the first assembly of the league of nations at Geneva on Nov. 15, when the following important subjects were to be dealt with: The election of a president and vice-presidents; the admission of states not named in the annex to the covenant; discussion of the budget of the league, covering the period to Dec. 31, 1920, and provisional estimates for the 1921 budget; discussion of the plans formulated for a permanent court of international justice and for a permanent health organization; international communications and transit and international waterways; the economic weapon of the league; supervision of traffic in women and children; the amendments to the covenant proposed by the Danish, Norwegian and Swedish governments, and the traffic in opium.

EXPENSES OF THE LEAGUE.

At the meeting of the league council in Brussels in October Sir Hubert Ames, treasurer, announced that it would cost the nations about $2,500,000 a year to support the league. Of this $854,000 would be expended for salaries, $1,400,000 for administration and the remainder for the maintenance of the various international bureaus and commissions.

NATIONS IN THE LEAGUE.

Many nations applied for admission into the league of nations early in 1920 and others came in later. Much interest was taken in the case of Switzerland, where the decision had to be submitted to a popular referendum. The national council on March 3 cast a vote of 114 in favor of and 55 against joining the league. The referendum was taken on May 16, when the cantonal vote stood eleven and one-half in favor of the proposition and ten and one-half against it. The popular vote, however, was 414,600 for the league and 320,880 against it. The Scandinavian kingdoms came in in March and most of the other countries in Europe with the exception of the enemy nations in the war and Russia came in about the same time. Their example was followed by the nations of Central and South America and by countries in other parts of the world. The only really great power that remained outside the league was the United States. Following is a list of the nations that had declared their adhesion to the league of nations up to Nov. 1, 1920:

Argentina.	Greece.	Peru.
Australia.	Guatemala.	Persia.
Belgium.	Haiti.	Poland.
Bolivia.	Hedjaz.	Portugal.
Brazil.	India.	Roumania.
British empire.	Italy.	Salvador.
Canada.	Japan.	Serbia.
Chile.	Liberia.	Siam.
China.	Netherlands.	South Africa.
Colombia.	New Zealand.	Spain.
Costa Rica.	Nicaragua.	Sweden.
Cuba.	Norway.	Switzerland.
Czecho-Slovakia	Panama.	Uruguay.
Denmark.	Paraguay.	Venezuela.
France.		

PERMANENT COURT OF INTERNATIONAL JUSTICE.

In accordance with article 14 of the league of nations covenant, providing for the formation of a permanent court of international justice, the council of the league at its meeting in London on Feb. 11 invited a number of jurists of high repute to draft a scheme for such a court. The men honored with this task were Elihu Root of the United States, Akidzuki of Japan, Altimira of Spain, Devilaqua of Brazil, Drago of Argentina, Fadda of Italy, Fromageot of France, Fram of Norway, Loder of Holland, Phillimore of Great Britain and Vesnitch of Jugo Slavia. There was some doubt at first as to whether Mr. Root would accept the position on account of the peculiar attitude of the United States toward the league of nations, but he gave his assent on March 25 and began work with his colleagues at The Hague on June 16. His ideas as to the composition and methods of procedure of the proposed tribunal were for the most part indorsed by the other jurists. After some weeks of discussion a draft of the court was completed and submitted to the council of the league, which at its meeting in Brussels on Oct. 26 approved it with the exception of the provision for obligatory jurisdiction. Some of the leading articles in the draft are given herewith:

This court shall be in addition to the court of arbitration organized by The Hague convention of 1899 and 1907, and to the special tribunals of arbitration to which states are always at liberty to submit their disputes for settlement.

The permanent court of international justice shall be composed of a body of independent judges, elected regardless of their nationality, from among persons of high moral character, who possess the qualifications required in their respective countries, for appointment to the highest judicial offices, or are jurisconsults of recognized competence in international law.

The court shall consist of fifteen members: eleven judges and four deputy judges. The number of judges and deputy judges may be hereafter increased by the assembly, upon the proposal of the council of the league of nations, to a total of fifteen judges and six deputy judges.

The members of the court shall be elected

by the assembly and the council from a list of persons nominated by the national groups in the court of arbitration, in accordance with the following provisions:

At least three months before the date of the election the secretary-general of the league of nations shall address a written request to the members of the court of arbitration, belonging to the states mentioned in the annex to the covenant or to the states which shall have joined the league subsequently, inviting them to undertake, by national groups, the nomination of persons in a position to accept the duties of a member of the court.

At every election, the electors shall bear in mind that not only should all the persons appointed as members of the court possess the qualifications required, but the whole body also should represent the main forms of civilization and the principal legal systems of the world.

Those candidates who obtain an absolute majority of votes in the assembly and the council shall be considered as elected.

In the event of more than one candidate of the same nationality being elected by the votes of both the assembly and the council the eldest of these only shall be considered as elected.

The members of the court shall be elected for nine years. They may be re-elected. They shall continue to discharge their duties until their places have been filled. Though replaced, they shall complete any cases which they may have begun.

The seat of the court shall be established at The Hague. The president and registrar shall reside at the seat of the court.

A session shall be held every year. Unless otherwise provided by rules of court this session shall begin on the 15th of June, and shall continue for so long as may be necessary to complete the cases on the list. The president may summon an extraordinary meeting of the court whenever necessary.

If, for some special reason, a member of the court considers that he cannot take part in the decision of a particular case, he shall so inform the president. If, for some special reason, the president considers that one of the members of the court should not sit on a particular case, he shall give notice to the member concerned. In the event of the president and the member not agreeing as to the course to be adopted in any such case, the matter shall be settled by the decision of the court.

The full court shall sit except when it is expressly provided otherwise. If eleven judges cannot be present, deputy judges shall be called upon to sit, in order to make up this number. If, however, eleven judges are not available, a quorum of nine judges shall suffice to constitute the court.

The expenses of the court shall be borne by the league of nations, in such a manner as shall be decided by the assembly upon the proposal of the council.

The court shall have jurisdiction to hear and determine suits between states.

The court shall be open of right to the states mentioned in the annex to the covenant, and to such others as shall subsequently enter the league of nations. Other states may have access to it. The conditions under which the court shall be open of right or accessible to states which are not members of the league of nations shall be determined by the council, in accordance with article 17 of the covenant.

When a dispute has arisen between states, and it has been found impossible to settle it by diplomatic means, and no agreement has been made to choose another jurisdiction, the party complaining may bring the case before the court. The court shall, first of all, decide whether the preceding conditions have been complied with; if so, it shall hear and determine the dispute according to the terms and within the limits of the next article.

Between states which are members of the league of nations, the court shall have jurisdiction (and this without any special convention giving it jurisdiction) to hear and determine cases of a legal nature, concerning: (a) The interpretation of a treaty; (b) any question of international law; (c) the existence of any fact which, if established, would constitute a breach of an international obligation; (d) the nature or extent of reparation to be made for the breach of an international obligation; (e) the interpretation of a sentence passed by the court.

The court shall also take cognizance of all disputes of any kind which may be submitted to it by a general or particular convention between the parties. In the event of a dispute as to whether a certain case comes within any of the categories above mentioned, the matter shall be settled by the decision of the court.

The court shall, within the limits of its jurisdiction as defined in article 34, apply in the order as follows:

1. International conventions, whether general or particular, establishing rules expressly recognized by the contesting states.
2. International custom, as evidence of a general practice, which is accepted as law.
3. The general principles of law recognized by civilized nations.
4. Judicial decisions and the teachings of the most highly qualified publicists of the various nations, as subsidiary means for the determination of rules of law.

The court shall give an advisory opinion upon any question or dispute of an international nature referred to it by the council or assembly. When the court shall give an opinion on a question of an international nature which does not refer to any dispute that may have arisen, it shall appoint a special commission of from three to five members. When it shall give an opinion upon a question which forms the subject of an existing dispute it shall do so under the same conditions as if the case had been actually submitted to it for decision.

The official language of the court shall be French. The court may, at the request of the contesting parties, authorize another language to be used before it.

A state desiring to have recourse to the court shall lodge a written application addressed to the registrar. The application shall indicate the subject of the dispute and name the contesting parties. The registrar shall forthwith communicate the application to all concerned. He shall also notify the members of the league of nations through the secretary-general.

The hearing in court shall be public, unless the court, at the written request of one of the parties, accompanied by a statement of his reasons, shall otherwise decide.

Whenever one of the parties shall not appear before the court, or shall fail to defend his case, the other party may call upon the court to decide in favor of his claim. The court must, before doing so, satisfy itself, not only that it has jurisdiction in accordance with articles 33 and 34, but also that the claim is supported by substantial evidence and well founded in fact and law.

All questions shall be decided by a majority of the judges present at the hearing. In the event of an equality of votes, the president or his deputy shall have a casting vote.

If the judgment given does not represent, wholly or in part, the unanimous opinion of the judges, the dissenting judges shall be entitled to have the fact of their dissent or reservations mentioned in it. But the reasons for their dissent or reservations shall not be expressed in the judgment.

The judgment is final and without appeal. In the event of uncertainty as to the meaning or scope of the judgment, the court shall construe it upon the request of any party.

An application for revision of a judgment can be made only when it is based upon the discovery of some new fact, of such a nature as to be a decisive factor, which fact was, when the judgment was given, unknown to the court and also to the party claiming the revision always provided that such ignorance was not due to negligence. The proceedings for revision will be opened by a judgment of the court expressly recording the existence of the new fact, recognizing that it has such a character as to lay the case open to revision, and declaring the application admissible on this ground. The court may require previous compliance with the terms of the judgment before it admits proceedings in revision. No application for revision may be made after the lapse of five years from the date of the sentence.

Should a state consider that it has an interest of a legal nature which may be affected by the decision in the case, it may submit a request to the court to be permitted to intervene as a third party. It will be for the court to decide upon this request.

Whenever the construction of a convention in which states, other than those concerned in the case, are parties, is in question, the registrar shall notify all such states forthwith. Every state so notified has the right to intervene in the proceedings; but if it uses this right, the construction given by the judgment will be as binding upon it as upon the original parties to the dispute.

LEAGUE OF NATIONS COVENANT.

The full text of the league of nations covenant, constituting part 1 of the treaty of Versailles, follows:

The High Contracting Parties,

In order to promote international co-operation and to achieve international peace and security

by the acceptance of obligations not to resort to war,

by the prescription of open, just and honourable relations between nations,

by the firm establishment of the understandings of international law as the actual rule of conduct among Governments, and

by the maintenance of justice and a scrupulous respect for all treaty obligations in the dealings of organised peoples with one another,

Agree to this Covenant of the League of Nations.

Article 1.

The original Members of the League of Nations shall be those of the Signatories which are named in the Annex to this Covenant and also such of those other States named in the Annex as shall accede without reservation to this Covenant. Such accession shall be effected by a Declaration deposited with the Secretariat within two months of the coming into force of the Covenant. Notice thereof shall be sent to all other Members of the League.

Any fully self-governing State, Dominion or Colony not named in the Annex may become a Member of the League if its admission is agreed to by two-thirds of the Assembly, provided that it shall give effective guarantees of its sincere intention to observe its international obligations, and shall accept such regulations as may be prescribed by the League in regard to its military, naval and air forces and armaments.

Any member of the League may, after two years' notice of its intention so to do, withdraw from the League, provided that all its international obligations and all its obligations under this Covenant shall have been fulfilled at the time of its withdrawal.

Article 2.

The action of the League under this Covenant shall be effected through the instrumentality of an Assembly and of a Council, with a permanent Secretariat.

Article 3.

The Assembly shall consist of Representatives of the Members of the League.

The Assembly shall meet at stated intervals and from time to time as occasion may require at the Seat of the League or at such other place as may be decided upon.

The Assembly may deal at its meetings with any matter within the sphere of action of the League or affecting the peace of the world.

At meetings of the Assembly each Member of the League shall have one vote, and may have not more than three Representatives.

Article 4.

The Council shall consist of Representatives of the Principal Allied and Associated Powers, together with representatives of four other Members of the League. These four members of the League shall be selected by the Assembly from time to time in its discretion. Until the appointment of the Representatives of the four Members of the League first selected by the Assembly, Representatives of Belgium, Brazil, Spain and Greece shall be members of the Council.

With the approval of the majority of the Assembly, the Council may name additional Members of the League whose Representatives shall always be members of the Council; the Council with like approval may increase the number of Members of the League to be selected by the Assembly for representation on the Council.

The Council shall meet from time to time as occasion may require, and at least once a year, at the Seat of the League, or at such other place as may be decided upon.

The Council may deal at its meetings with any matter within the sphere of action of the League or affecting the peace of the world.

Any Member of the League not represented on the Council shall be invited to send a Representative to sit as a member at any meeting of the Council during the consideration of matters specially affecting the interests of that Member of the League.

At meetings of the Council, each Member of the League represented on the Council shall have one vote, and may have not more than one representative.

Article 5.

Except where otherwise expressly provided in this Covenant or by the terms of the present Treaty, decisions at any meeting of the Assembly or of the Council shall require the agreement of all the Members of the League represented at the meeting.

All matters of procedure at meetings of the Assembly or of the Council, including the appointment of Committees to investigate particular matters, shall be regulated by the Assembly or by the Council and may be decided by a majority of the Members of the League represented at the meeting.

The first meeting of the Assembly and the first meeting of the Council shall be summoned by the President of the United States of America.

Article 6.

The permanent Secretariat shall be established at the Seat of the League. The Secretariat shall comprise a Secretary General and such secretaries and staff as may be required.

The first Secretary General shall be the person named in the Annex; thereafter the Secretary General shall be appointed by the Council

with the approval of the majority of the Assembly.

The secretaries and staff of the Secretariat shall be appointed by the Secretary General with the approval of the Council.

The Secretary General shall act in that capacity at all meetings of the Assembly and of the Council.

The expenses of the Secretariat shall be borne by the Members of the League in accordance with the apportionment of the expenses of the International Bureau of the Universal Postal Union.

Article 7.

The Seat of the League is established at Geneva.

The Council may at any time decide that the Seat of the League shall be established elsewhere.

All positions under or in connection with the League, including the Secretariat, shall be open equally to men and women.

Representatives of the Members of the League and officials of the League when engaged on the business of the League shall enjoy diplomatic privileges and immunities.

The buildings and other property occupied by the League or its officials or by Representatives attending its meetings shall be inviolable.

Article 8.

The Members of the League recognise that the maintenance of peace requires the reduction of national armaments to the lowest point consistent with national safety and the enforcement by common action of international obligations.

The Council, taking account of the geographical situation and circumstances of each State, shall formulate plans for such reduction for the consideration and action of the several Governments.

Such plans shall be subject to reconsideration and revision at least every ten years.

After these plans shall have been adopted by the several Governments, the limits of armaments therein fixed shall not be exceeded without the concurrence of the Council.

The Members of the League agree that the manufacture by private enterprise of munitions and implements of war is open to grave objections. The Council shall advise how the evil effects attendant upon such manufacture can be prevented, due regard being had to the necessities of those Members of the League which are not able to manufacture the munitions and implements of war necessary for their safety.

The Members of the League undertake to interchange full and frank information as to the scale of their armaments, their military, naval and air programmes and the condition of such of their industries as are adaptable to war-like purposes.

Article 9.

A permanent Commission shall be constituted to advise the Council on the execution of the provisions of Articles 1 and 8 and on military, naval and air questions generally.

Article 10.

The Members of the League undertake to respect and preserve as against external aggression the territorial integrity and existing political independence of all Members of the League. In case of any such aggression or in case of any threat or danger of such aggression the Council shall advise upon the means by which this obligation shall be fulfilled.

Article 11.

Any war or threat of war, whether immediately affecting any of the Members of the League or not, is hereby declared a matter of concern to the whole League, and the League shall take any action that may be deemed wise and effectual to safeguard the peace of nations. In case any such emergency should arise the Secretary General shall on the request of any Member of the League forthwith summon a meeting of the Council.

It is also declared to be the friendly right of each Member of the League to bring to the attention of the Assembly or of the Council any circumstance whatever affecting international relations which threaten to disturb international peace or the good understanding between nations upon which peace depends.

Article 12.

The Members of the League agree that if there should arise between them any dispute likely to lead to a rupture, they will submit the matter either to arbitration or to inquiry by the Council, and they agree in no case to resort to war until three months after the award by the arbitrators or the report by the Council.

In any case under this Article the award of the arbitrators shall be made within a reasonable time, and the report of the Council shall be made within six months after the submission of the dispute.

Article 13.

The Members of the League agree that whenever any dispute shall arise between them which they recognise to be suitable for submission to arbitration and which cannot be satisfactorily settled by diplomacy, they will submit the whole subject-matter to arbitration.

Disputes as to the interpretation of a treaty, as to any question of international law, as to the existence of any fact which if established would constitute a breach of any international obligation, or as to the extent and nature of the reparation to be made for any such breach, are declared to be among those which are generally suitable for submission to arbitration.

For the consideration of any such dispute the court of arbitration to which the case is referred shall be the Court agreed on by the parties to the dispute or stipulated in any convention existing between them.

The Members of the League agree that they will carry out in full good faith any award that may be rendered, and that they will not resort to war against a Member of the League which complies therewith. In the event of any failure to carry out such an award, the Council shall propose what steps should be taken to give effect thereto.

Article 14.

The Council shall formulate and submit to the Members of the League for adoption plans for the establishment of a Permanent Court of International Justice. The Court shall be competent to hear and determine any dispute of an international character which the parties thereto submit to it. The Court may also give an advisory opinion upon any dispute or question referred to it by the Council or by the Assembly.

Article 15.

If there should arise between Members of the League any dispute likely to lead to a rupture, which is not submitted to arbitration in accordance with Article 13, the Members of the League agree that they will submit the matter to the Council. Any party to the dispute may effect such submission by giving notice of the existence of the dispute to the Secretary General, who will make all necessary arrangements for a full investigation and consideration thereof.

For this purpose the parties to the dispute will communicate to the Secretary General, as promptly as possible, statements of their case with all the relevant facts and papers, and the Council may forthwith direct the publication thereof.

The Council shall endeavour to effect a settlement of the dispute, and if such efforts are successful, a statement shall be made public giving such facts and explanations regarding the dispute and the terms of settlement thereof as the Council may deem appropriate.

If the dispute is not thus settled, the Council either unanimously or by a majority vote shall make and publish a report containing a state-

ment of the facts of the dispute and the recommendations which are deemed just and proper in regard thereto.

Any Member of the League represented on the Council may make public a statement of the facts of the dispute and of its conclusions regarding the same.

If a report by the Council is unanimously agreed to by the members thereof other than the Representatives of one or more of the parties to the dispute, the Members of the League agree that they will not go to war with any party to the dispute which complies with the recommendations of the report.

If the Council fails to reach a report which is unanimously agreed to by the members thereof, other than the Representatives of one or more of the parties to the dispute, the Members of the League reserve to themselves the right to take such action as they shall consider necessary for the maintenance of right and justice.

If the dispute between the parties is claimed by one of them, and is found by the Council, to arise out of a matter which by international law is solely within the domestic jurisdiction of that party, the Council shall so report, and shall make no recommendation as to its settlement.

The Council may in any case under this Article refer the dispute to the Assembly. The dispute shall be so referred at the request of either party to the dispute, provided that such request be made within fourteen days after the submission of the dispute to the Council.

In any case referred to the Assembly, all the provisions of this Article and of Article 12 relating to the action and powers of the Council shall apply to the action and powers of the Assembly, provided that a report made by the Assembly, if concurred in by the Representatives of those Members of the League represented on the Council and of a majority of the other Members of the League, exclusive in each case of the Representatives of the parties to the dispute, shall have the same force as a report by the Council concurred in by all the members thereof other than the Representatives of one or more of the parties to the dispute.

Article 16.

Should any Member of the League resort to war in disregard of its covenants under Articles 12, 13 or 15, it shall ipso facto be deemed to have committed an act of war against all other Members of the League, which hereby undertake immediately to subject it to the severance of all trade or financial relations, the prohibition of all intercourse between their nationals and the nationals of the covenant-breaking State, and the prevention of all financial, commercial or personal intercourse between the nationals of the covenant-breaking State and the nationals of any other State, whether a Member of the League or not.

It shall be the duty of the Council in such case to recommend to the several Governments concerned what effective military, naval or air force the Members of the League shall severally contribute to the armed forces to be used to protect the covenants of the League.

The Members of the League agree, further, that they will mutually support one another in the financial and economic measures which are taken under this Article, in order to minimise the loss and inconvenience resulting from the above measures, and that they will mutually support one another in resisting any special measures aimed at one of their number by the covenant-breaking State, and that they will take the necessary steps to afford passage through their territory to the forces of any of the members of the League which are co-operating to protect the covenants of the League.

Any Member of the League which has violated any covenant of the League may be declared to be no longer a Member of the League by a vote of the Council concurred in by the Representatives of all the other Members of the League represented thereon.

Article 17.

In the event of a dispute between a Member of the League and a State which is not a Member of the League, or between States not Members of the League, the State or States not Members of the League shall be invited to accept the obligations of membership in the League for the purposes of such dispute, upon such conditions as the Council may deem just. If such invitation is accepted, the provisions of Articles 12 to 16 inclusive shall be applied with such modifications as may be deemed necessary by the Council.

Upon such invitation being given the Council shall immediately institute an inquiry into the circumstances of the dispute and recommend such action as may seem best and most effectual in the circumstances.

If a State so invited shall refuse to accept the obligations of membership in the League for the purposes of such dispute, and shall resort to war against a Member of the League, the provisions of Article 16 shall be applicable as against the State taking such action.

If both parties to the dispute when so invited refuse to accept the obligations of membership in the League for the purposes of such dispute, the Council may take such measures and make such recommendations as will prevent hostilities and will result in the settlement of the dispute.

Article 18.

Every treaty or international engagement entered into hereafter by any member of the League shall be forthwith registered with the Secretariat and shall as soon as possible be published by it. No such treaty or international engagement shall be binding until so registered.

Article 19.

The Assembly may from time to time advise the reconsideration by Members of the League of treaties which have become inapplicable and the consideration of international conditions whose continuance might endanger the peace of the world.

Article 20.

The Members of the League severally agree that this Covenant is accepted as abrogating all obligations or understandings inter se which are inconsistent with the terms thereof, and solemnly undertake that they will not hereafter enter into any engagements inconsistent with the terms thereof.

In case any Member of the League shall, before becoming a Member of the League, have undertaken any obligations inconsistent with the terms of this Covenant, it shall be the duty of such Member to take immediate steps to procure its release from such obligations.

Article 21.

Nothing in this Covenant shall be deemed to affect the validity of international engagements, such as treaties of arbitration or regional understandings like the Monroe doctrine, for securing the maintenance of peace.

Article 22.

To those colonies and territories which as a consequence of the late war have ceased to be under the sovereignty of the States which formerly governed them and which are inhabited by peoples not yet able to stand by themselves under the strenuous conditions of the modern world, there should be applied the principle that the well-being and development of such peoples form a sacred trust of civilisation and that securities for the performance of this trust should be embodied in this Covenant.

The best method of giving practical effect

to this principle is that the tutelage of such peoples should be entrusted to advanced nations who by reason of their resources, their experience or their geographical position can best undertake this responsibility, and who are willing to accept it, and that this tutelage should be exercised by them as Mandatories on behalf of the League.

The character of the mandate must differ according to the stage of the development of the people, the geographical situation of the territory, its economic conditions and other similar circumstances.

Certain communities formerly belonging to the Turkish Empire have reached a stage of development where their existence as independent nations can be provisionally recognised subject to the rendering of administrative advice and assistance by a Mandatory until such time as they are able to stand alone. The wishes of these communities must be a principal consideration in the selection of the Mandatory.

Other peoples, especially those of Central Africa, are at such a stage that the Mandatory must be responsible for the administration of the territory under conditions which will guarantee freedom of conscience and religion, subject only to the maintenance of public order and morals, the prohibition of abuses such as the slave trade, the arms traffic and the liquor traffic, and the prevention of the establishment of fortifications or military and naval bases and of military training of the natives for other than police purposes and the defence of territory, and will also secure equal opportunities for the trade and commerce of other Members of the League.

There are territories, such as South-West Africa and certain of the South Pacific Islands, which, owing to the sparseness of their population or their small size, or their remoteness from the centres of civilisation, or their geographical contiguity to the territory of the Mandatory, and other circumstances, can be best administered under the laws of the Mandatory as integral portions of its territory subject to the safeguards above mentioned in the interests of the indigenous population.

In every case of mandate the Mandatory shall render to the Council an annual report in reference to the territory committed to its charge.

The degree of authority, control, or administration to be exercised by the Mandatory shall, if not previously agreed upon by the Members of the League, be explicitly defined in each case by the Council.

A permanent Commission shall be constituted to receive and examine the annual reports of the Mandatories and to advise the Council on all matters relating to the observance of the mandates.

Article 23.

Subject to and in accordance with the provisions of international conventions existing or hereafter to be agreed upon, the Members of the League:

(a) will endeavor to secure and maintain fair and humane conditions of labour for men, women, and children, both in their own countries and in all countries to which their commercial and industrial relations extend, and for that purpose will establish and maintain the necessary international organisations:

(b) undertake to secure just treatment of the native inhabitants of territories under their control:

(c) will entrust the League with the general supervision over the execution of agreements with regard to the traffic in women and children, and the traffic in opium and other dangerous drugs:

(d) will entrust the League with the general supervision of the trade in arms and ammunition with the countries in which the control of this traffic is necessary in the common interest:

(e) will make provision to secure and maintain freedom of communications and of transit and equitable treatment for the commerce of all Members of the League. In this connection, the special necessities of the regions devastated during the war of 1914-1918 shall be borne in mind:

(f) will endeavour to take steps in matters of international concern for the prevention and control of disease.

Article 24.

There shall be placed under the direction of the League all international bureaux already established by general treaties if the parties to such treaties consent. All such international bureaux and all commissions for the regulation of matters of international interest hereafter constituted shall be placed under the direction of the League.

In all matters of international interest which are regulated by general conventions but which are not placed under the control of international bureaux or commissions, the Secretariat of the League shall, subject to the consent of the Council and if desired by the parties, collect and distribute all relevant information and shall render any other assistance which may be necessary or desirable.

The Council may include as part of the expenses of the Secretariat the expenses of any bureau or commission which is placed under the direction of the League.

Article 25.

The Members of the League agree to encourage and promote the establishment and cooperation of duly authorised voluntary national Red Cross organizations having as purposes the improvement of health, the prevention of disease and the mitigation of suffering throughout the world.

Article 26.

Amendments to this Covenant will take effect when ratified by the Members of the League whose Representatives compose the Council and by a majority of the Members of the League whose Representatives compose the Assembly.

No such amendment shall bind any Member of the League which signifies its dissent therefrom, but in that case it shall cease to be a Member of the League.

ANNEX.

I. Original Members of the League of Nations Signatories of the Treaty of Peace.

United States of America.	Cuba.	Nicaragua.
Belgium.	Ecuador.	Panama.
Bolivia.	France.	Peru.
Brazil.	Greece.	Poland.
British Empire	Guatemala.	Portugal.
Canada.	Haiti.	Roumania.
Australia.	Hedjaz.	Serb-Croat-Slovene State
South Africa.	Honduras.	Siam.
New Zealand.	Italy.	Czecho-Slovakia.
India.	Japan.	Uruguay.
China.	Liberia.	

States Invited to Accede to the Covenant.

Argentine Republic.	Netherlands.	Spain.
Chili.	Norway.	Sweden.
Colombia.	Paraguay.	Switzerland.
Denmark.	Persia.	Venezuela.
	Salvador.	

II. First Secretary General of the League of Nations.

The Honorable Sir James Eric Drummond, K. C. M. G., C. B.

LEAGUE ASSEMBLY IN SESSION.

Forty-one nations were represented at the first session of the league of nations assembly beginning at Geneva, Switzerland, Nov. 15, 1920. The larger nations not represented were the United States, Germany, Russia and Mex-

ico. Paul Hymans of Belgium was elected permanent president of the assembly and M. Motta, president of Switzerland, honorary president. Rules of procedure were adopted and it was decided that six commissions should be appointed to deal with the following subjects:

1. Organization.
2. Technical organization.
3. Health and international court of justice.
4. Finance.
5. Armaments, blockades and admission of new states.
6. Mandates.

These commissions were to consider the matters assigned to them and report later to the assembly. It was decided that their deliberations should be private. Six vice-presidents were chosen and these with the chairmen of the six commissions were to form the executive committee of the assembly. The vice-presidents elected were:

Sir George E. Foster, Canada.
H. A. van Karnebeek, Holland.
Viscount Ishii, Japan.
Honorio Pueyrredon, Argentina.
Rodrigo Octavio, Brazil.
Dr. Eduard Benes, Czecho-Slovakia.

EUROPEAN TERRITORIAL CHANGES CAUSED BY THE WAR.

OUTLINE MAP OF WESTERN EUROPE AS IT EXISTED IN 1920.

The map of Europe was radically changed as the result of the world war which ended Nov. 11, 1918. Germany, Austria-Hungary, Turkey and Bulgaria lost heavily in territory. The same was also true of Russia, which was deprived of Finland, Poland and several provinces bordering on the Baltic sea. The most important new states formed since the close of the war are Czecho-Slovakia, Jugo Slavia, Poland and Finland, while among the minor ones are Esthonia, Latvia and Ukrainia. While the boundaries, as shown in the accompanying outline map of western Europe, are substantially correct at this time (Dec. 1, 1920), they are subject to some minor changes by treaty or otherwise.

MANUFACTURES IN THE UNITED STATES.

[Bureau of census report, 1917.]

COMPARATIVE SUMMARY, 1870-1914.

	1914.	1910.	1900.	1890.

BOMB EXPLOSION IN WALL STREET.

Through the explosion of a bomb or infernal machine in Wall street, New York city, Sept. 16, 1920, thirty-eight persons lost their lives, while 300 were injured. Nearly all the victims were clerks or messengers employed in the vicinity or passers-by. The place where the explosion occurred was directly in front of the new assay office adjoining the subtreasury, and across the street from the J. P. Morgan building. Here a one-horse uncovered truck had been left and it was taken for granted by the police that the bomb or infernal machine was brought on it with a clock device setting the time of the explosion at noon, when the street would be the most crowded. It was quickly established that the disaster was not the result of an accident but the deliberate act of one or more persons. Most of the damage was done by short, heavy slugs of cast iron window weights with rust on their broken ends, showing that they had not been broken by the explosion itself. On the bodies of many of the victims were found yellow stains that might have been made by nitric acid, which is a base of trinitrate of toluol (TNT). Other circumstances also led the authorities to conclude that the explosion was the work of anarchists, who either wished to destroy the J. P. Morgan building or to cause a reign of terror in the country's financial center. J. P. Morgan himself was in Europe, but his son Junius Spencer Morgan was in the banking house and was slightly cut by flying glass. None of the other partners in the firm were injured.

No severe structural injury to any of the great buildings in the vicinity was done, although the fronts of the Morgan office, the Mills building, the Equitable Trust building and the United States Trust building suffered considerable damage. The greatest property loss in the district was in broken window glass. The perpetrators of the outrage had not been discovered up to the middle of November, 1920.

THE WOMAN'S ROOSEVELT MEMORIAL ASSOCIATION.

The Woman's Roosevelt Memorial association was incorporated on Jan. 29, 1919, to restore the birthplace of Theodore Roosevelt, at 28 East 20th street, New York city. The association has purchased the site of the birthplace—also adjoining property—and is now building thereon Roosevelt house, which is to be a center of Americanization and patriotic work as well as a museum of Roosevelt relics. The officers of the association are:

Honorary President—Mrs. Leonard Wood.

Vice-Presidents—Mrs. Robert Bacon, Mrs. Joseph H. Choate, Mrs. William Bayard Cutting, Mrs. James T. Leavitt, Mrs. Thomas Jex Preston, Jr., Mrs. Whitelaw Reid, Mrs. James Roosevelt, Mrs. Elihu Root, Miss Louisa Lee Schuyler, Mrs. Robert Winthrop.

BOARD OF DIRECTORS.

President—Mrs. John Henry Hammond.

Vice-Presidents—Mrs. Henry A. Alexander, Mrs. William Curtis Demorest, Mrs. Henry A. Wise Wood, Mrs. James Russell Parsons, Mrs. Vladimir Simkhovitch.

Secretary—Mrs. Charles A. Bryan.

Treasurer—Mrs. A. Barton Hepburn.

The association has organizations in most states and in a number of foreign countries. The principal office of the association is No. 1 East 57th street, New York city.

DEATH OF KING ALEXANDER OF GREECE.

Alexander, king of Greece after his father Constantine was deposed from the throne July 12, 1917, on account of his pro-German activities, died Monday afternoon, Oct. 25, 1920, in Athens. He had been ill since the first part of the month from the poisonous effects of a bite inflicted by a pet monkey. Specialists were brought from Paris, France, but their efforts to save the king's life were in vain. His condition was made more hopeless by a severe congestion of the lungs.

King Alexander was born Aug. 1, 1893. He was educated in part at Oxford university and this caused him to be friendly to the English. He was democratic in his ways and made a good record in the artillery branch of the Greek army. He was married to Aspasia Manos, a Greek peasant girl.

MINES AND QUARRIES IN THE UNITED STATES.

[From reports of census bureau, 1912 and 1913.]

In 1909 in the United States, exclusive of Alaska, Hawaii, Porto Rico and other outlying noncontiguous territory, 23,682 operators conducted 27,240 mines and quarries and 166,448 petroleum and natural gas wells. Of the operators 3,749 were engaged solely in development work, upon which, in 1909, the sum of $31,548,736 was expended. In Alaska in 1909 there were 673 operators, who employed 8,025 persons, in the mining industry. The total expenses of these operators amounted to $13,220,200, while the capital invested was reported as $47,749,164. The total value of products was $16,933,427, of which amount $16,327,752 consisted of gold and silver. In Hawaii and Porto Rico the total value of product for the eighteen operators reported was only $26,414.

The total number of persons engaged in connection with producing mines, quarries and wells, as reported on Dec. 15, 1909, or nearest representative day, was 1,139,332, of whom wage earners numbered 1,065,283, proprietors and firm members 29,922 and salaried employes 44,127. In mines, quarries and wells for which development work only was carried on there was a total of 27,616 persons, of whom 21,499 were wage earners. Of the total number of persons, 1,166,948, employed in productive and nonproductive mines, 1,158,775 were men 16 years of age and over, and 8,173 were boys under 16 years of age. Distributed by sex, 1,162,840 were male and 4,108 female, the latter being employed in supervisory and clerical capacities.

The total capital invested in all mining enterprises on Dec. 31, 1909, as reported, was $3,662,527,064, of which $3,380,525,841 was invested in productive enterprises and $282,001,223 in those in which development work only was carried on.

FEDERAL RESERVE BANK DISTRICTS AND OFFICIALS.

FEDERAL RESERVE BOARD.

Appointed by the president.

Members. Terms expire.
W. P. G. Harding (Ala.) governor.....1922
Edmund Platt (N. Y.), vice-governor....1928
Adolph C. Miller (Cal.).....1924
Charles S. Hamlin (Mass.).....1926
Ex Officio Members — The secretary of the treasury, chairman, and the comptroller of the currency.
Executive secretary—W. W. Hoxton.
Secretary—W. T. Chapman.
Assistant secretary—R. G. Emerson.
Chief, Division of Examination—W. W. Paddock.
Fiscal Agent—W. M. Imlay.
Headquarters—Treasury department, Washington, D. C.
Salaries—Of five members, $12,000 a year; comptroller of currency as ex officio member $7,000 a year additional to his salary of $5,000 as comptroller. The executive secretary receives $10,000 a year, the secretary to the board $6,000, the assistant secretary $3,600, the general counsel $8,500, the chief of operations and examination $5,000 and the fiscal agent $4,000.
Duties—The federal reserve board exercises a general supervision over the affairs and management of the federal reserve banks. It has the power to discount paper, issue federal reserve notes and perform other banking functions prescribed by the law. It appoints its own officers and employes and derives its support from assessments levied on the reserve banks. The members of the board are appointed by the president of the United States.

FEDERAL RESERVE CITIES.

Dist. and city.	Dist. and city.
1. Boston, Mass.	7. Chicago, Ill.
2. New York, N. Y.	8. St. Louis, Mo.
3. Philadelphia, Pa.	9. Minneapolis, Minn.
4. Cleveland, O.	10. Kansas City, Mo.
5. Richmond, Va.	11. Dallas, Tex.
6. Atlanta, Ga.	12. San Francisco, Cal.

FEDERAL RESERVE DISTRICTS.

1. Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and all of Connecticut except the county of Fairfield.

2. The state of New York and the northern part of the state of New Jersey comprising the counties of Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Passaic, Somerset, Sussex, Union, Warren and the county of Fairfield in the state of Connecticut.

3. All that part of New Jersey comprising the counties of Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Mercer, Ocean and Salem; the state of Delaware; all that part of Pennsylvania east of the western boundary of McKean, Elk, Clearfield, Cambria and Bedford counties.

4. Ohio; all that part of Pennsylvania west of district No. 3; Marshall, Ohio, Brooke, Hancock, Wetzel and Tyler counties, West Virginia; all that part of Kentucky east of the western boundary of Boone, Grant, Scott, Woodford, Jessamine, Garrard, Lincoln, Pulaski and McCreary counties.

5. District of Columbia, Maryland, Virginia, North Carolina and South Carolina; all of West Virginia except Marshall, Ohio, Brooke, Hancock, Wetzel and Tyler counties.

6. Alabama, Georgia and Florida; all that part of Tennessee east of the western boundary of Stewart, Houston, Wayne, Humphreys and Perry counties; all that part of Mississippi south of the northern boundary of Issaquena, Sharkey, Yazoo, Kemper, Madison, Leake and Neshoba counties; all of that part of Louisiana south of the northern boundaries of the parishes of Vernon, Rapides and Avoyelles.

7. Iowa; all that part of Wisconsin south of the northern boundary of Marquette, Oconto, Langlade, Marathon, Jackson and Vernon counties; all of the southern peninsula of Michigan, viz., that part east of Lake Michigan; all that part of Illinois north of the southern boundary of Hancock, Schuyler, Cass, Sangamon, Christian, Shelby, Cumberland and Clark counties; all that part of Indiana north of the southern boundary of Vigo, Clay, Owen, Monroe, Brown, Bartholomew, Jennings, Ripley and Ohio counties.

8. Arkansas; all that part of Missouri east of the western boundary of Harrison, Daviess, Caldwell, Ray, Lafayette, Johnson, Henry, St. Clair, Cedar, Dade, Lawrence and Barry counties; all that part of Illinois and Indiana not included in district No. 7; all that part of Kentucky not included in district No. 4; all that part of Tennessee and Mississippi not included in district No. 6.

9. Montana, North Dakota, South Dakota and Minnesota; all that part of Wisconsin and Michigan not included in district No. 7.

10. Kansas, Nebraska, Colorado and Wyoming; all that part of Missouri not included in district No. 8; all of Oklahoma except the counties of Atoka, Bryan, Choctaw, Coal, Johnston, McCurtain, Marshall and Pushmataha; all that part of New Mexico north of the southern boundary of McKinley, Sandoval, Santa Fe, San Miguel and Union counties.

11. Texas; all that part of New Mexico and Oklahoma not included in district No. 10; all that part of Louisiana not included in district No. 6; and Pima, Graham, Greenlee, Cochise and Santa Cruz counties, Arizona.

12. California, Washington, Oregon, Idaho, Nevada and Utah; all that part of Arizona not included in district No. 11.

THE SAGE FOUNDATION.

March 12, 1907, Mrs. Russell Sage of New York announced that she had set aside the sum of $10,000,000 to be known as the Sage Foundation and to be devoted to the improvement of the social and living conditions in the United States.

Following is a part of the statement given out by Mrs. Sage as to the object of the gift: "I have set aside $10,000,000 for the endowment of this foundation. Its object is the improvement of social and living conditions in the United States. The means to that end will include research, publication, education, the establishment and maintenance of charitable and beneficial activities, agencies and institutions and the aid of any such activities, agencies and institutions already established."

The general director of the fund is John M. Glenn. Office, 130 East 22d street, New York, N. Y.

ARCTIC AND ANTARCTIC EXPLORATION.

AMUNDSEN EXPEDITION.

Capt. Roald Amundsen left Christiania, Norway, in the ship Maud, June 25, 1918, bound for the Arctic ocean. The vessel touched at Tromso, Norway, and also at Dixson island in the White sea to take on oil, and after that nothing was heard of the expedition until April 22, 1920, when a wireless message was received at Nome, Alaska, from Anadir, a Siberian trading post on the Bering sea, telling of the arrival of Amundsen at that point His ship was at that time icebound near the mouth of the Kolyma river. Later the vessel was released and the voyage was resumed, but in the direction of Nome, where the captain desired to obtain further supplies before returning to the Arctic. The ship was stormbound at Sledge island, not far from Nome, and the explorer was brought to the town in a tug, arriving there July 27. His plan then was to proceed to the north and drift across or near the north pole in the ice. The new start was made Aug. 7, but word was received at Nome Sept. 26 that the Maud had not proceeded far before it was locked in the ice between Wrangell island and the northern Siberian coast. Capt. Amundsen then had a crew of only three men with him, the others having left when he refused to pay the wages they demanded.

Following is an account of the trip of the Maud in the waters of the Arctic between the ice pack and the northern edges of Europe and America, which in connection with the voyage through the northwest passage from the Atlantic to the Pacific in 1906 gave Capt. Amundsen the honor of being the first to circumnavigate the globe north of Europe, Asia and America:

"We left our winter place on Sept. 12, 1919, after having mined and forced our way through 2,500 yards of unbroken ice from two to three yards thick. We were detained next day by heavy pack at St. Samuel's island, but got through on the 14th and continued our way to the east, being again detained next day, as the ice lay close to St. Peter's island and did not assist any passage outside.

"We had to force our way through the unknown strait between the islands and the mainland, where newly formed ice offered considerable resistance. We succeeded after a vigorous battle in penetrating this intricate and shallow passage, showing in some places no more than one and a half foot of water under the keel.

"Much ice was found in the Nordenskiold sea, but it offered small hindrance to our advance. We passed through the strait of Laptec, separating the inner Siberian islands from the mainland, on the 19th. The sea to the east of the islands seemed free from ice and we shaped our course from Jeanette island, but were stopped next morning by impenetrable pack on the 73d parallel.

"We made fast to the edge to begin our drift, but found shortly after, by close examination, that the ice pack was in drift toward the south at the rate of one and a half knots an hour. This would not do, so we cast loose from the ice, after a very careful inspection, which left us no hope whatsoever of penetrating it, and shaped our course to the southeast, following the ice.

"It was a bitter pill to swallow, but we decided to search for winter quarters somewhere along the coast. The only fit place was Tschaun bay. Navigation southward here in the latter part of September was most extraordinary; the nights were pitch dark, the sea running heavy and enormous ice floes very often in the middle of our course—it was not pleasant. From time to time a brilliant aurora borealis would appear and light us out of many an intricate situation.

"A northwest gale had been blowing all this time, and the result was that the pack ice reached our intended winter quarters just a little ahead of us and shut us out. We had no choice, as the ice came closer and closer to the coast. We went, therefore, as far as the ice permitted, and, plunging into some old floes fringing the west coast of Aion island, remained there.

"Three days after our arrival there we met with some members of the Tschuktschi and Maqati tribes. They had their tents on Aion island, but left for the interior of the country on Oct. 13 to spend the winter in the woods watching their reindeer herds."

Two members of the expedition named Knudsen and Tessem left the ship with mail for home, but nothing further was heard from them and it is assumed that they were lost.

The Maud was often so heavily weighed down by ice that the propeller and the helm were frozen and only the masts were visible above the surface. Bears were heard padding across the snow masses covering the ship's deck. By the time she reached Cape Cheliuskin the Maud encountered extremely hard, heavy ice, but, thanks to her splendid construction, she withstood all the attacks of the elements.

New land was discovered near Tsar Nicholas II. land, and it was scientifically explored. A thorough study of the customs and manners of the surrounding Eskimo tribes was also made. Several adventures occurred. Amundsen himself fell from the ship down on to the ice and broke one of his arms, and he also had a narrow escape in an encounter with a bear.

BRITISH IMPERIAL ANTARCTIC EXPEDITION.

Early in 1920 plans were announced for a new exploring expedition to the antarctic regions under the leadership of J. Lachlan Cope, F. R. G. S., who was a member of the last Shackleton expedition as surgeon and biologist to the Ross sea party. The official name chosen was British Imperial Antarctic expedition. The ship chosen was the Terra Nova, Capt. Scott's old vessel, upon which very extensive alterations had been made, including the installation of oil burning engines and the building of an additional deck. A novel feature was the proposed use of an airplane with which to cross the antarctic continent and to carry on surveying and photographic work. A machine capable of carrying three men, photographic apparatus, a sledge, the necessary petrol and provisions for a month was taken along. The intention was to leave a depot of petrol near Axel Heiberg glacier before crossing the high interior mountains and to make use of the fuel on the return trip from the pole.

The general plan was to proceed from Wellington to Macquarie island, to make a survey of it and to proceed to Scott island, where three men were to be landed with a specially constructed hut. They were to remain there one year and carry on meteorological work. From Scott island the Terra Nova was to go to New Harbor in the Ross sea, where a large hut was to be set up. Thence the vessel was to proceed to Cape Crozier on Ross island, where three men were to be left a year to study the emperor penguins and do meteorological work, a small hut being

provided for them. Another party of three men was to proceed as far south as possible over the great ice barrier and spend the winter in studying meteorological conditions. Some time in December, 1920, the attempt to fly to the pole and back was to be made, after which the Terra Nova was to return to Wellington to provision for four years. Then she was to return and pick up the various shore parties, make another attempt to reach the polar regions by airplane if the first attempt should have failed, and after that make an effort to circumnavigate the entire antarctic continent. It was estimated that this would take about four years and that the return to civilization would be made late in 1925. Apparatus for long distance radio work was taken along and it was hoped to keep in touch with land stations at various times in the course of the long voyage.

Besides the leader, J. L. Cope, the expedition included A. H. Larkman, chief engineer; Lieut. Patrick Campbell, R. N., captain of the Terra Nova, and Ernest Joyce, who had been with three previous expeditions to the antarctic.

NATIONAL PROHIBITION AMENDMENT.

The house of representatives in Washington, D. C., by a vote of 282 to 128 adopted, Dec. 17, 1917, a senate joint resolution submitting to the states an amendment providing for the suppression of the liquor traffic one year after the ratification of the amendment by the required thirty-six state legislatures. The resolution had passed the senate Aug. 1, 1917, by a vote of 65 to 20. It was amended in the house and the senate accepted the resolution as amended Dec. 18 by a rising vote of 47 yeas to 8 nays.

Following is the joint resolution as adopted by the house and senate:

"Article —. Section 1. After one year from the ratification of this article the manufacture, sale or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited.

"Sec. 2. The congress and the several states shall have concurrent power to enforce this article by appropriate legislation.

"Sec. 3. This article shall be inoperative unless it shall have been ratified as an amendment to the constitution by the legislatures of the several states, as provided in the constitution, within seven years from the date of the submission hereof to the states by the congress."

The proposed amendment was submitted to state legislatures for ratification and by Jan. 16, 1919, more than thirty-six, the number required for making an amendment to the constitution valid, had taken affirmative action. The dates on which the various states ratified the amendment were as follows:

1918.	
Mississippi, Jan. 9.	Maryland, Feb. 13.
Virginia, Jan. 10.	Montana, Feb. 19.
Kentucky, Jan. 14.	Texas, March 4.
South Carolina, Jan. 23	Delaware, March 18.
North Dakota, Jan. 25	So. Dakota, March 20
Massachusetts, April 2	Kansas, Jan. 14.
Arizona, May 24.	No. Carolina, Jan. 14.
Georgia, June 26.	Alabama, Jan. 14.
Louisiana, Aug. 8.	Colorado, Jan. 15.
Florida, Nov. 27.	Iowa, Jan. 15.
1919.	New Hampshire, Jan. 15
Michigan, Jan. 2.	Oregon, Jan. 15.
Ohio, Jan. 7.	Utah, Jan. 15.
Oklahoma, Jan. 7.	Nebraska, Jan. 16.
Idaho, Jan. 8.	Missouri, Jan. 16.
Tennessee, Jan. 8.	Wyoming, Jan. 16.
Maine, Jan. 8.	Minnesota, Jan. 17.
W. Virginia, Jan. 9.	Wisconsin, Jan. 17.
California, Jan. 13.	Nevada, Jan. 21.
Washington, Jan. 13.	Vermont, Jan. 29.
Illinois, Jan. 14.	New York, Jan. 29.
Indiana, Jan. 14.	Pennsylvania, Feb. 25.
Arkansas, Jan. 14.	

Connecticut, New Jersey and Rhode Island refused to ratify the federal prohibition amendment.

The states dry prior to December, 1917, were:

Alabama.	Maine.	Oregon.
Arizona.	Michigan.	South Carolina.
Arkansas.	Mississippi.	South Dakota.
Colorado.	Montana.	Tennessee.
Georgia.	Nebraska.	Utah.
Idaho.	North Carolina.	Virginia.
Iowa.	North Dakota.	Washington.
Kansas.	Oklahoma.	West Virginia.

RATIFICATION PROCLAIMED.

Ratification of the prohibition amendment to the federal constitution was formally proclaimed Jan. 29, 1919, by Frank L. Polk, acting secretary of state in the absence of Secretary Robert Lansing, who was attending the peace conference in Paris. Though the document was dated the 29th, legal authorities in the department held that the ratification was accomplished when the thirty-sixth state acted affirmatively on Jan. 16 and that under the terms of the amendment itself prohibition would become effective one year from that date, or Jan. 16, 1920.

THE NAUEN WIRELESS STATION.

The wireless sending station at Nauen, Germany, was officially dedicated Sept. 29, 1920, by President Ebert in the presence of an invited company, including Ellis Loring Dresel, United States commissioner to Berlin. The towers and antennæ serving the United States have a sending radius of 12,000 miles and a capacity of seventy-five words a minute. The Nauen station is said to be the largest of its kind in the world.

PRESIDENT WILSON'S VISIT TO EUROPE.

CHRONOLOGICAL SURVEY.

1918.

Dec. 4—President Wilson sails for Europe.
Dec. 13—Arrives at Brest, France.
Dec. 14—Arrives in Paris; welcomed by President Poincare.
Dec. 15—Lays wreath on tomb of Lafayette.
Dec. 16—Given official luncheon in city hall.
Dec. 17—Confers with Marshal Foch.
Dec. 18—Holds first conference with American delegates.
Dec. 19—Receives visit from King Victor Emmanuel of Italy.
Dec. 20—Returns visit of king of Italy.
Dec. 21—Delivers address at the Sorbonne.
Dec. 22—Visits Red Cross hospitals.
Dec. 25—Reviews and addresses American troops at Humes; leaves for London.
Dec. 26—Arrives in London and is welcomed by King George and Queen Mary.
Dec. 27—Has conference with Premier Lloyd George and Foreign Minister Balfour; given state banquet in Buckingham palace.
Dec. 28—Makes addresses in Guildhall and Mansion House, London.
Dec. 29—Visits Carlisle and arrives in Manchester.
Dec. 30—Makes address in Free Trade hall, Manchester.
Dec. 31—Returns to Paris.

1919.

Jan. 1—Leaves Paris for Rome, Italy.
Jan. 2—Arrives at Genoa.
Jan. 3—Arrives in Rome; made citizen of city; makes address in parliament.
Jan. 4—Visits pope; addresses Academy of Science; lays wreaths on tombs of King Victor Emmanuel II. and King Humbert.
Jan. 5—Welcomed in Milan; lays wreaths on Columbus and Mazzini monuments in Genoa
Jan. 6—Visits Turin; greeted by 1,000 mayors of Italian towns.
Jan. 7—Arrives in Paris.
Jan. 20—Addresses French senate.
Jan. 25—Makes address to delegation of French workingwomen.
Jan. 26—Visits battle fields at Chateau Thierry and Reims.
Feb. 3—Makes address before chamber of deputies.
Feb. 14—Leaves Paris for a brief visit to the United States.
Feb. 15—Sails on the George Washington for Boston.
Feb. 24—Arrives at Boston and speaks in Mechanics' hall.
Feb. 25—Arrives in Washington, D. C.
March 3—Speaks at conference of governors and mayors in Washington.
March 4—Attends closing session of congress; speaks at Metropolitan opera house in New York in evening.
March 5—Sails from New York on the George Washington for Europe.
March 13—Arrives at Brest, France.
March 14—Arrives at Paris.
March 15-June 28—Continues peace conference work.
May 9—Addresses International Law association in Paris.
May 10—Speaks at session of Academy of Moral and Political Sciences.
May 26—Speaks at dinner given to President-Elect Pessoa of Brazil.
May 29—Sends Memorial day message to America.
May 30—Makes Memorial day address at American cemetery at Suresnes, near Paris.
June 17—Leaves Paris for visit to Belgium.
June 18—Motors with King Albert through large part of Belgium; arrives in Brussels.
June 19—Visits Charleroi, Louvain and other places; meets Cardinal Mercier, Burgomaster Max and others; speaks in Belgian chamber of deputies.
June 26—Speaks at dinner given in his honor by President Poincare.
June 28—Attends signing of peace treaty; issues statements to the people of France and America; leaves for Brest.
June 29—Sails on the George Washington for New York.
July 4—Makes July 4 address to soldiers on the George Washington.
July 8—Arrives at New York and speaks in Carnegie hall; arrives in Washington.

South Dakota—Biennially. Next election Nov. 7, 1922.

Tennessee—Biennially. Next election Nov. 7, 1922.

Texas—Biennially. Next election Nov. 7, 1922.

Utah—Every fourth year. Next election Nov. 4, 1924.

Vermont—Biennially. Next election Nov. 7, 1922.

Virginia—Every fourth year. Next election Nov. 8, 1921.

Washington—Every fourth year. Next election Nov. 4, 1924.

West Virginia—Every fourth year. Next election Nov. 4, 1924.

Wisconsin—Biennially. Next election Nov. 7, 1922.

Wyoming—Every fourth year. Next election Nov. 4, 1924.

AMERICAN HALL OF FAME.

"The Hall of Fame for Great Americans" is the name of a building on University Heights in New York city, in which are inscribed on bronze tablets the names of famous American men and women. Nominations for the honor are made by the public and are submitted to a committee of 100 eminent citizens. In the case of men fifty-one votes are required and in the case of women forty-seven. The first balloting took place in October, 1900, when the following were chosen:

George Washington.
Abraham Lincoln.
Daniel Webster.
Benjamin Franklin.
Ulysses S. Grant.
John Marshall.
Thomas Jefferson.
Ralph W. Emerson.
H. W. Longfellow.
Robert Fulton.
Horace Mann.
Henry W. Beecher.
James Kent.
Joseph Story.
John Adams.
Washington Irving.
Jonathan Edwards.
Samuel F. B. Morse.
David G. Farragut.
Henry Clay.
Nathaniel Hawthorne.
George Peabody.
Robert E. Lee.
Peter Cooper.

Chosen in 1905.

John Quincy Adams.
James Russell Lowell.
William T. Sherman.
James Madison.
John G. Whittier.
Alexander Hamilton.
Louis Agassiz.
Mary Lyon.
Emma Willard.
Maria Mitchell.

Chosen in 1910.

Harriet Beecher Stowe.
Oliver Wendell Holmes.
Edgar Allan Poe.
James Fenimore Cooper.
Phillips Brooks.
Eli Whitney.
John J. Audubon.
William E. Channing.
Gilbert Stuart.
Asa Gray.
William Cullen Bryant.
Frances E. Willard.
Andrew Jackson.
George Bancroft.
John Lothrop Motley.

Chosen in 1915.

Francis Parkman.
Mark Hopkins.
Elias Howe.
Joseph Henry.
Rufus Choate.
Daniel Boone.

Chosen in 1920.

Samuel L. Clemens (Mark Twain).
Augustus St. Gaudens.
James Buchanan Eads.
Patrick Henry.
William T. G. Morton.
Roger Williams.
Alice Freeman Palmer.

ILLINOIS HARD ROADS PLAN.

The act providing for a statewide system of durable hard roads in Illinois was passed by the legislature and approved by Gov. Lowden June 22, 1917. At the November election in 1918 it was approved by the electors of the state by a majority of 212,405 votes. The act provided for a bond issue of $60,000,000 for paying the cost of the system of roads, the work to be under the supervision of the state department of public works and buildings. In order to test the validity of the act a friendly suit was filed in the Circuit court of Sangamon county by John M. Mitchell. Judge E. S. Smith upheld the act and an appeal was taken to the State Supreme court, which on April 15, 1919, handed down an opinion that the bond issue was valid.

The general location of the routes of the proposed roads is described in the act. There are to be forty-six of them, the terminals and intervening towns being as follows:

1. Chicago to Metropolis through Chicago Heights, Watseka, Danville, Paris, Marshall, Robinson, Lawrenceville, Mount Carmel, Albion, Grayville, Carmi, Harrisburg and Vienna.
2. Beloit, Wis., to Cairo, Ill. through Rockford, Oregon, Dixon, Mendota, Peru, La Salle, El Paso, Bloomington, Clinton, Decatur, Pana, Vandalia, Centralia, Duquoin, Carbondale and Anna.
3. Morrison to Chester through Prophetstown, Moline, Rock Island, Aledo, Monmouth, Macomb, Rushville, Beardstown, Virginia, Ashland, Alexander, Jacksonville, Whitehall, Carrollton, Jerseyville, Alton, East St. Louis and Waterloo.
4. Chicago to East St. Louis through Berwyn, Riverside, Lyons, Joliet, Dwight, Pontiac, Bloomington, Lincoln, Elkhart, Williamsville, Springfield, Carlinville, Edwardsville and Granite City.
5. Chicago to East Dubuque through Elgin, Marengo, Rockford, Freeport and Galena.
6. Chicago to Fulton through Wheaton, Geneva, Elburn, De Kalb, Rochelle, Dixon, Sterling and Morrison.
7. Joliet to East Moline through Morris, Ottawa, La Salle, Peru, De Pue, Princeton and Geneseo.
8. Sheldon to Burlington, Iowa, through Watseka, Chenoa, El Paso, Eureka, Peoria, Farmington, Elmwood, Yates City, Galesburg and Monmouth.

9. Hoopeston to Hamilton through Paxton, Bloomington, Carlock, Goodfield, Deer Creek, Morton, Peoria, Canton, Prairie City, Bushnell, Macomb and Carthage.
10. Danville to Jacksonville through Urbana, Champaign, Monticello, Bement, Decatur and Springfield.
11. Marshall to East St. Louis through Greenup, Effingham, Vandalia, Greenville, Baden Baden and Highland.
12. Lawrenceville to East St. Louis through Olney, Flora, Salem, Carlyle and Lebanon.
13. Shawneetown to E. St. Louis through Harrisburg, Marion, Carbondale, Murphysboro, Pinckneyville, Sparta and Belleville.
14. Carmi to Duquoin through McLeansboro, Benton and Christopher.
15. Albion to Belleville through Fairfield, Mount Vernon, Ashley, Nashville and Okawville.
16. Paris to Staunton through Charleston, Mattoon, Shelbyville, Pana, Hillsboro, Litchfield and Mount Olive.
17. Grant Park to Lacon through Momence, Kankakee, Dwight, Streator, Eagle Church Corners, Garfield, Wenona, Custer and Lacon.
18. Chicago to Princeton through Aurora, Oswego, Yorkville, Plano, Sandwich, Earlville and Mendota.
19. Chicago to Harvard through Barrington and Woodstock.
20. Waukegan to Woodstock through Grays Lake and McHenry.
21. Chicago to Wisconsin state line through Libertyville and Antioch.
22. Chicago Heights to Lake Forest through Joliet, Aurora, Geneva, Elgin, Dundee, Carpentersville and Barrington.
23. Wisconsin state line to Streator through Harvard, Marengo, Sycamore, De Kalb and Ottawa.
24. Peoria to Pana through Pekin, Green Valley, Mason City, Greenview, Athens and Springfield.
25. Kankakee to Fairfield through Gilman, Paxton, Champaign, Tuscola, Mattoon, Effingham, Tolliver, Louisville and Flora.
26. Freeport to Dixon through Polo.
27. Polo to Savanna through Mount Carroll.
28. Galesburg to Sheffield through Kewanee.
29. Peoria to De Pue through Chillicothe and Henry.
30. Peoria to Galva through Princeville and Wyoming.
31. Canton to Quincy through Lewistown, Rushville and Mount Sterling.
32. Windsor to Cerro Gordo through Sullivan, Lovington, Ulrich Station and Lake City.
33. Effingham to Robinson through Newton.
34. Harrisburg to Elizabethtown and Golconda.
35. Route 2 north of Cairo to Mount City.
36. Carthage to Jacksonville through Bowen, Ursa, Quincy, Payson, Barry, Pittsfield and Winchester.
37. Mount Vernon to Marion through Benton.
38. Jerseyville to Hardin and Kempsville.
39. Champaign to Bloomington through Mahomet, Mansfield, Farmer City and Leroy.
40. Sterling to Milledgeville, Chadwick, Mount Carroll and Stockton.
41. Galesburg to Abingdon, Avon and Prairie City.
42. Chicago to Wisconsin state line through Waukegan and Zion City.
43. Havana to Mason City.
44. Joliet to Kankakee through Manhattan and Wilton Center.
45. Garfield to Dana.
46. Arlington Heights to Oak Lawn through Mount Prospect, Des Plaines, Franklin Park, River Grove, Maywood, Broadview, LaGrange Park, LaGrange, Lyons and Summit.

WIND BAROMETER TABLE FOR THE GREAT LAKES.

[Prepared by United States weather bureau.]

Height of barom. (lake level).	Direction wind.	Character of weather and wind indicated.
29.40 to 29.60, and steady	West	Fair, slight changes in temperature, gentle to fresh winds.
29.40 to 29.60, rising	West	Fair, cooler, fresh west to northwest winds.
29.40 to 29.60, falling	South	Warmer, increasing southerly winds.
29.60, or above, falling rapidly	East to south	Warmer, rain or snow within 36 hours, increasing east to southeast winds.
29.60, or above, rising rapidly	West to north	Cool and clear, quickly followed by warmer, variable winds.
29.60, or above, steady	Variable	No immediate change, but winds will go to south inside of 36 hours.
29.40, or below, falling slowly	South to east	Rain or snow, increasing easterly winds.
29.40, or below, falling rapidly	South to east	Rain or snow, high easterly winds, followed within 48 hours by clearing, cooler, west to northwest winds.
29.40, or below, rising slowly	South to west	Clearing, colder, fresh to brisk west to northwest winds.
29.20, or below, falling rapidly	South to east	Severe storm of wind and rain, and wind shifting to northwest within 36 hours.
29.20, or below, falling rapidly	East to north	Severe northeaster, with heavy rain or snow, and winds backing to northwest.
29.20, or below, rising rapidly	Going to west	Clearing and cooler, probably cold wave in winter.

CONVICTION OF SENATOR NEWBERRY.

Truman H. Newberry, junior United States senator from Michigan, was convicted by a jury in Grand Rapids, Mich., March 20, 1920, of having conspired criminally in 1918 to violate the election laws. He was sentenced by Judge Clarence W. Sessions of the United States district court to imprisonment for two years and to pay a fine of $10,000. He was released on bonds pending an appeal. No action was taken in the United States senate to declare his seat vacant and Mr. Newberry continued to serve in that body. Convicted at the same time as the senator were his brother, John S. Newberry, and fifteen campaign managers. Most of them were given prison sentences and fined, but all were freed on bonds to await the result of their appeals to the Supreme court. The offense of which the senator and his associates were convicted consisted in the alleged use of money beyond the legal limit when Mr. Newberry was elected United States senator in 1918. His opponent in the election was Henry Ford, the Detroit manufacturer. The trial began Jan. 27, 1920. Mr. Newberry was secretary of the navy under President Roosevelt.

PRINCIPAL OCCUPATIONS IN THE UNITED STATES.

[From census report for 1910.]

Occupation.	Total.	Men.	Women.
Actors	28,297	16,305	11,992

BY GRAND DIVISIONS.

In 1910 there were 38,167,336 persons 10 years of age and over engaged in gainful occupations in continental United States. Of these 30,091,564 were men and 8,075,772 women. The occupations by grand divisions were as follows:

Agriculture, forestry and animal husbandry—Total, 12,659,203; men, 10,851,702; women, 1,807,501.

Extraction of minerals—Total, 964,824; men, 963,730; women, 1,094.

Manufacturing and mechanical industries—Total, 10,658,881; men, 8,837,901; women, 1,820,980.

Transportation—Total, 2,637,671; men, 2,531,075; women, 106,596.

Trade—Total, 3,614,670; men, 3,146,582; women, 468,088.

Public service—Total, 459,291; men, 445,733; women, 13,558.

Professional service—Total, 1,663,569; men, 929,684; women, 733,885.

Domestic and personal service—Total, 3,772,174; men, 1,241,328; women, 2,530,846.

GAINFUL WORKERS BY AGE AND SEX (1910).

Age.	Male.	Per cent.	Female.	Pct.
10 to 13 years	609.030	16 6	286,946	8.0
14 to 15 years	744.109	41.4	350.140	19.8

All other industries	1,916,361	177,932	149,988	1,648,441
Total	7,678,578	487,173	576,359	6,615,046

*Includes salaried officers of corporations, superintendents and managers.

PERSONS ENGAGED IN MANUFACTURING (1909).

[Summary prepared by census bureau, 1912, showing distribution by class, sex and age.]

Class.	Total.	Male.	Female.
Proprietors and firm members	273.265	263,265	9,592
Salaried officers of corporations	80.735	78,937	1.798
Superintendents and managers	133,173	130,304	2,869
Total proprietors and officials	487.173	472.914	14.259
Clerks	576.359	437.056	139.303
Wage earners (average number)	6,615,046	5.252.293	1,362,753
Total all classes	7.678.578	6.162.263	1,516.315
Sixteen years of age and over	6.452.800	5,162,547	1,290.253
Under 16 years of age	162.246	89,746	72,500

CLIMATOLOGY OF THE UNITED STATES.

The following table of average rainfall, highest and lowest temperatures, based upon observations of forty-nine or fewer years at selected stations in the several states and territories of the United States, was compiled from the records of the weather bureau for The Almanac and Year-Book by the United States weather bureau, Washington, D. C.:

State. Stations.	Barometer above sea level (ft.)	No. of years.	Temperature.* Max.	Year.	Min.	Year.	Av. precipitation.†
Alabama—Mobile	108	49	102	1901	— 1	1899	62.0
Montgomery	240	48	107	1881	— 5	1899	51.2
Arizona—Yuma	141	44	120	1910	22	1911	3.1
Arkansas—Little Rock	399	41	106	1901	—12	1899	49.9

COST OF LIVING IN THE UNITED STATES.

PRICE OF FOODSTUFFS IN CHICAGO.

The following table is taken from a report made by Arthur Young & Co., certified public accountants, showing the cost of foodstuffs in Chicago from 1905 to 1920, both inclusive. The quantities given are on a yearly basis as set forth in The Daily News Cook Book, while the prices are on a monthly basis. The prices prevailing in January of each year were applied to most of the 214 articles of food named, but in many instances, such as those of fresh fruits and vegetables, the prices ruling in the months when these products were in season were used. Only the figures for the years 1905, 1910, 1914 (the year when the world war began) and 1920 are given in detail here, but a summary for all the years is appended. This shows the total cost of all the meals for each year, the actual increase or decrease in such cost, the percentage of increase or decrease from year to year and the percentage of increase over 1905. The prices applied to the various articles are retail and were obtained from advertisements in The Daily News and other newspapers, catalogues of stores in the "loop district" of the city and from other available sources.

It will be seen from reports obtained from other sources, official and unofficial, that prices of some articles of food fell in the last half of 1920 and consequently the total cost of foodstuffs for the year was rather less than that shown by the table, as the prices applied to most of the articles were those prevailing in January.

		1905		1910		1914		1920	
Product.	Quantity.	Unit price.	Total cost.	Unit price.	Total cost.	Unit price.	Total cost.	Unit price.	Total cost.

GOVERNMENT REPORT ON CHICAGO FOOD PRICES.

The following figures are from the Monthly Labor Review (October, 1920) of the bureau of labor statistics, U. S. department of labor. They show that while in most instances the prices on Aug. 15, 1920, were higher than on the corresponding date in 1919, they were lower than on July 15, 1920. The decline continued in September, October and November, but official figures for those months were not available when this record closed. The prices are retail:

Article.	Unit.	Aug. 15 1913 Cts.	July 15, 1919 Cts.	Aug. 15, 1920 Cts.	Aug. 15, 1920. Cts.

DECREASE IN WHOLESALE PRICES.

[From Monthly Labor Review of U. S. bureau of labor statistics for October, 1920.]

A pronounced drop in the general level of wholesale prices in the United States from July to August (1920) is shown by information collected in representative markets by the bureau of labor statistics. Measured by changes in the bureau's weighted index number, in which each commodity has an influence proportionate to its importance in the country's markets, the decrease was over 4½ per cent.

Food articles showed the greatest price recessions, the decrease for the group as a whole being over 12 per cent. Farm products, containing many basic food materials, declined nearly 6 per cent. Cloths and clothing followed closely with a decrease of approximately 5¾ per cent from the July level. Smaller decreases were recorded for the groups of building materials, chemicals and drugs and miscellaneous commodities, the latter including, among others, such important articles as bran, cotton seed meal and oil, jute, rubber and soya-bean oil.

Fuel and lighting materials, on the other hand, continued upward, with an increase of over 6¼ per cent. Metals and house furnishing goods also showed a net advance from the preceding month.

ANNALIST COMPUTATION.

The New York Annalist's "Curve in the Cost of Living," or index number, which shows the fluctuations in the average wholesale price of twenty-five food commodities selected and arranged to represent a theoretical family's food budget, indicated that prices rose in the early part of January, 1920; fell in February; rose until May 1; declined slightly during that month and then rose the middle of June, when there was a sharp decline which was continuing when the record closed Dec. 1. The index number published Nov. 20, 1920, showed:

Base—averages 1890-99=100 per cent.

Weekly Averages.

Nov. 20, 1920.....233.317
Nov. 22, 1919.....282.486

1917	261.796	1890	109.252
1916	175.720		

*To Nov. 22.

LOUISIANA'S GREAT GAME SANCTUARY.

In November, 1920, the state of Louisiana, through deeds of gift by the Rockefeller and Russel Sage foundations, came into possession of 164,300 acres of land on the gulf coast, all of it primeval wilderness and marsh lands, which for centuries have been the haunt of game birds and animals. The Russell Sage foundation donated Marsh island, with an area of 79,300 acres, lying in the Gulf of Mexico, off the coast of Iberia, Mary and Vermilion parishes. The Rockefeller gift comprised 85,000 acres in Cameron and Vermilion parishes, bordering on the gulf and generally known as the Grand Chenier tract. The lands were given in fee simple to the state on the condition that they be perpetually used as a refuge for wild life.

ARMY OF THE UNITED STATES.

Commander in Chief—President Woodrow Wilson.
Secretary of War—Newton D. Baker.
The Assistant Secretary of War—William R. Williams.

GENERAL OFFICERS.

General.

John J. Pershing.

DEPARTMENT AND BUREAU HEADS.

Adjutant-General—Maj.-Gen. Peter C. Harris.
Inspector-General—Maj.-Gen. John L. Chamberlain.
Judge Advocate—Maj.-Gen. E. H. Crowder.
Quartermaster Corps, Quartermaster General—Maj.-Gen. Harry L. Rogers.
Military Storekeeper—Maj. Charles P. Daly.
Medical Department, Surgeon General—Maj.-Gen. M. W. Ireland.
Corps of Engineers, Chief of Engineers—Maj.-Gen. Lansing H. Beach.

Ordnance Department, Chief of Ordnance—Maj.-Gen. Clarence C. Williams.
Chemical Warfare Service—Brig.-Gen. Amos A. Fries.
Signal Corps, Chief Signal Officer—Maj.-Gen. George O. Squier.
Air Service—Maj.-Gen. Charles T. Menoher.
Bureau of Insular Affairs, Chief—Maj.-Gen. Frank McIntyre.
Militia Bureau, Chief—Maj.-Gen. Jesse I. McCarter.

ARMY AND CORPS AREAS.

First Army.

First Corps Area—Includes the North Atlantic coast artillery district and the states of Maine, New Hampshire, Vermont, Massachusetts, Connecticut and Rhode Island; headquarters, 99 Chauncy street, Boston, Mass. Commander, Maj.-Gen. David C. Shanks.

Second Corps Area—Includes the states of New York, New Jersey and Delaware; headquarters, Governors Island, N. Y. The island of Porto Rico, with the islands and keys adjacent thereto, is for administrative purposes attached to the second corps area. Commander, Maj.-Gen. Robert L. Bullard.

Third Corps Area—Includes the states of Pennsylvania, Maryland, Virginia and the District of Columbia; headquarters, Fort McHenry, Md. (temporarily at Baltimore, Md.). Commander, Maj.-Gen. Adelbert Cronkhite.

Second Army.

Fourth Corps Area—Includes the states of North Carolina, South Carolina, Georgia, Florida, Alabama, Tennessee, Mississippi, Arkansas and Louisiana; headquarters, Fort McPherson, Ga. (temporarily at Charleston, S. C.). Commander, Maj.-Gen. John F. Morrison.

Fifth Corps Area—Includes the states of Ohio, West Virginia, Indiana and Kentucky; headquarters, Fort Benjamin Harrison, Indiana. Commander, Maj.-Gen. George W. Read.

Sixth Corps Area—Includes the states of Illinois, Michigan and Wisconsin; headquarters, Fort Sheridan, Ill. (temporarily at Chicago, Ill.). Commander, Maj.-Gen. Leonard Wood.

Third Army.

Seventh Corps Area—Includes the states of Missouri, Kansas, Iowa, Nebraska, Minnesota, North Dakota and South Dakota; headquarters, Fort Crook, Neb. Commander, Maj.-Gen. Omar Bundy.

Eighth Corps Area—Includes the states of Texas, Oklahoma, Colorado, New Mexico and Arizona; headquarters, Fort Sam Houston, San Antonio, Tex. (For the purposes of administrative and tactical control in connection with the border patrol and field operations incident thereto, such part of the state of Arizona as lies west of the 114° meridian and south of the 33° parallel is attached to the ninth corps area.) Commander, Maj.-Gen. Joseph T. Dickman.

Ninth Corps Area—Includes the North Pacific coast artillery district, the South Pacific coast artillery district, the states of Washington, Oregon, Idaho, Montana, Wyoming, Utah, Nevada and California; headquarters, Presidio of San Francisco, Cal. (temporarily at San Francisco, Cal.). The territory of Alaska is attached to the ninth corps area for administrative purposes. (For the purpose of administrative and tactical control in connection with the border patrol and field operations incident thereto, such part of the state of Arizona as lies west of the 114° meridian and south of the 33° parallel is attached to the ninth corps area.) Commander, Maj.-Gen. Hunter Liggett.

Departments.

The Hawaiian Department—Includes the Hawaiian islands and their dependencies; headquarters, Honolulu, Hawaii. Commander, Maj.-Gen. Charles G. Morton.

The Philippine Department—Includes all of the Philippine archipelago and troops in China; headquarters, Manila, P. I. Commander, Maj.-Gen. Francis J. Kernan.

The Panama Canal Department—Includes the entire Canal Zone; headquarters, Quarry Heights, Balboa Heights, Canal Zone. Commander, Brig.-Gen. Chase W. Kennedy.

COAST ARTILLERY DISTRICTS.

North Atlantic—Headquarters, Boston, Mass.; commander, Brig.-Gen. J. W. Ruckman.
Middle Atlantic—Headquarters, Fort Totten, N. Y.; commander, Brig.-Gen. C. J. Bailey.
South Atlantic — Headquarters, Charleston, S. C.; commander, Brig.-Gen. J. D. Barrette.
North Pacific—Headquarters, Seattle, Wash.; commander, Brig.-Gen. H. F. Hodges.
South Pacific—Headquarters, San Francisco, Cal.; commander, Col. Ira A. Haynes.
Panama—Headquarters, Fort Amador, Canal Zone; commander, Col. Alston Hamilton.

TACTICAL DIVISIONS.

First—Headquarters, Camp Zachary Taylor, Kentucky; commander, Maj.-Gen. C. P. Summerall.
Second—Headquarters, Camp Travis, Texas; commander, Maj.-Gen. James G. Harbord.
Third—Headquarters, Camp Pike, Arkansas; commander, Brig.-Gen. E. M. Lewis.
Fourth—Headquarters, Camp Lewis, Washington; commander, Maj.-Gen. Charles H. Muir.
Fifth—Headquarters, Camp Gordon, Georgia; commander, Maj.-Gen. John L. Hines.
Sixth—Headquarters, Camp Grant, Illinois; commander, Brig.-Gen. George Bell, Jr.
Seventh—Headquarters, Camp Funston, Kansas; commander, Brig.-Gen. E. F. McGlachlin, Jr.

AIR SERVICE HEADQUARTERS.

First Wing—Kelly field, Texas.
Second Wing—Langley field, Hampton, Va.
First Day Bombardment Group—Kelly field, Texas.
First Pursuit Group—Kelly field, Texas.
First Observation Group—Manila, P. I.
First Surveillance Group—Fort Bliss, Texas.
First Army Observation Group—Langley field, Virginia.
Second Observation Group—Honolulu, H. I.
Third Observation Group—France field, Canal Zone.

MILITARY POSTS IN THE UNITED STATES OCT. 1, 1920.

Aberdeen Proving Ground—Thirty-five miles northeast of Baltimore, Md.
Adams, Fort (1st corps area)—One mile southwest of Newport, R. I.
Alcatras Island—Near San Francisco, Cal.
Alexander, Camp—Discontinued.
Allen, Fort Ethan (1st corps area)—Two and one-half miles southwest of Essex Junction, Vt.
Amador, Fort (P. C. dept.)—One mile from Balboa, Canal Zone.
Amatol Arsenal—Hammonton, N. J.
Americus, Ga.—Supply depot.
Anchorage, Alaska (Att. 9th corps area)—P. O., Anchorage, Alaska.
Andrews, Fort (1st corps area)—On an island nine miles from Boston, Mass.
Apache, Fort (8th corps area)—Ninety miles south of Holbrook, Ariz., on the Gila river.
Armistead, Fort (3d corps area)—Subpost of Fort Howard, eight miles southeast of Baltimore, Md.
Armstrong, Fort (H. dept.)—Subpost of Fort Ruger, on Kaakaukukui reef, Honolulu harbor, P. O.
Augusta Arsenal—Three miles Augusta, Ga.
Baker, Fort (9th corps area)—Four miles north of Sausalito, Cal., six miles northwest of San Francisco.

Baker, Camp—Abandoned.
Baldwin, Fort (1st corps area)—Sixteen miles from Bath, Me.
Banks, Fort (1st corps area)—On mainland two miles northeast of Boston.
Barrancas, Fort (4th corps area)—Seven miles from Pensacola, Fla.
Barron Field—Nine miles south of Fort Worth, Tex.
Barry, Fort (9th corps area)—Five miles from San Francisco, Cal.
Bayard, Fort—Two miles from Bayard, N. M.
Beacom, Camp John H. (9th corps area)—Within city limits of Calexico, Cal.
Beauregard, Camp—Five miles northeast of Alexandria, La.
Benicia Arsenal—One mile from Benicia, Cal.
Benning, Camp—Southwest of Columbus, Ga.; reservation adjoining city limits.
Bliss Command, Fort (8th corps area)—Five miles northeast of El Paso, Tex.
Boise Barracks—One and one-half miles from Boise, Idaho.
Bolling Field—Two miles south of capitol, Washington, D. C.
Bowie, Camp—Two miles west of Fort Worth, Tex.; camp abandoned.
Boyd, Camp—On Fort Bliss reservation, Fort Bliss, Tex.
Brady, Fort (6th corps area)—One-half mile west of Sault Ste. Marie, Mich.
Bragg, Camp (4th corps area)—Ten miles northwest of Fayetteville, N. C.
Brooks Field (8th corps area)—Seven miles southeast of San Antonio, Tex.
Brown Command, Fort (8th corps area)—Brownsville, Tex.

Call Field—Six miles southwest of Wichita Falls, Tex.; abandoned.
Campo, Cal. (9th corps area)—Post of Southern California border district.
Carlisle, Pa.—Field service and school, medical department.
Carlstrom Field—Seven miles southeast of Arcadia, Fla.
Canby, Fort (9th corps area)—Subpost of Fort Stevens, ten miles from Fort Stevens, mouth of Columbia river; P. O., Ilwaco, Wash.
Carroll, Fort (3d corps area)—Eight miles from Baltimore, Md. (subpost of Fort Howard).
Carruthers Field—Eleven miles west of Fort Worth and one mile south of Benbrook, Tex.; abandoned.
Casey, Fort (9th corps area)—Five miles from Port Townsend, Wash.
Caswell, Fort (4th corps area)—Two miles from Southport, N. C.
Chanute Field—One mile southeast of Rantoul, Ill.
Chapman Field—Sixteen miles south of Miami, Fla.
Charleston General Ordnance Depot—One mile east of North Charleston, Charleston, S. C.
Chigas, Camp (8th corps area)—Santa Fe street bridge, El Paso.
Clark, Fort (8th corps area)—Ten miles northwest of Spofford, Tex.
Clayton, Fort—In Canal Zone. (Process construction.)
Cody, Camp—Within city limits, N. W. Deming, N. M.; abandoned.
Columbia, Fort (9th corps area)—Opposite Fort Stevens at the mouth of Columbia river.
Columbus Barracks—City of Columbus, O.
Columbus, O. (army reserve depot)—Seven miles east of Columbus, O.
Constitution, Fort (1st corps area)—Three miles southeast of Portsmouth, N. H.
Corozal, Post of—Forty-four miles southeast of Colon, three miles from Pacific terminal of Panama canal.
Courchesne, Camp—Abandoned.
Crissy Field (9th corps area)—Near Presidio of San Francisco.
Crockett, Fort (8th corps area)—Southeast of and adjacent to Galveston, Tex.
Crook, Fort (7th corps area)—Five miles southwest of Omaha on Missouri river.
Cuartel de Espana—Headquarters of Post of Manila.
Cuartel de Infanteria—Included under Post of Manila.
Curtis Bay General Ordnance Depot—Seven miles south of Baltimore, Md.
Custer, Camp (6th corps area)—Four miles west of Battle Creek, Mich.

Dade, Fort (4th corps area)—Thirty-two miles southwest of Tampa, Fla.
Dallas, Tex. (repair depot)—Dallas, Tex.
Davis, Fort—P. O., Nome, Alaska.
Davis, Fort William D. — Ir Canal Zone. (Process construction.)
Delaware, Fort (2d corps area)—On Pea Patch island in Delaware river, one mile east of Fort Du Pont, Del.
Delaware General Ordnance Depot—In New Jersey, six miles northeast of Wilmington, Del.
De Lesseps, Fort—Canal Zone.
De Russey, Fort (H. dept.)—Subpost of Fort Ruger, Kalia, Waikiki, Oahu, Hawaii; four miles from Honolulu.
Des Moines, Fort (7th corps area)—South of and adjacent to Des Moines, Iowa.
De Soto, Fort (4th corps area)—Subpost of Fort Dade, Fla. Thirty-one miles from Tampa, Fla.
Detroit, Mich.—Storage warehouse, materials disposal and salvage.
Devens, Camp (1st corps area)—One mile south of Ayer, Mass.
Dix, Camp (2d corps area)—One-half mile southwest of Wrightstown, N. J.
Dodge, Camp (7th corps area)—Eleven and one-half miles north of Des Moines, Iowa.
Dorr Feld—Eleven and three-fourths miles east of Arcadia, Fla.
Douglas, Ariz. (8th corps area) (including Camp Harry J. Jones)—On Mexican border; P. O., Douglas, Ariz.
Douglas, Fort (9th corps area)—Four miles east of Salt Lake City, Utah.
Douglas, Fort (war prison barracks No. 3)—Four miles east of Salt Lake City, Utah.
Du Pont, Fort (2d corps area)—Two miles out of Delaware City, Del.

Eagle Pass, Tex. (8th corps area)—P. O., Eagle Pass, Tex.
East Potomac Park (3d corps area)—Washington, D. C.
Eberts Field—Twenty-two miles east from Little Rock, Ark.
Edgewood Arsenal—Edgewood, Md., adjacent to Aberdeen proving grounds.
Eldridge, Camp—Los Banos, Laguna, Luzon, P. I., forty-one miles from Manila.
Ellington Field—Seventeen miles southeast of Houston, Tex.; P. O., Houston, Tex.
Empire, Camp—Subpost of Gaillard; thirty-three miles from Colon; P. O., Empire, Canal Zone; quarantine camp for troops entering Canal Zone.
Erie Proving Ground—Port Clinton.
Europe, American Forces in—American graves registration service in Europe, 12 Rue Boissy d'Anglais, Paris, France.
Eustis, Camp Abraham (3d corps area)—Eighteen miles northwest of Newport News, Va.

Fisherman's Island (3d corps area)—Twenty-two miles northeast of Fort Monroe, Va.
Fitzsimons General Hospital—Denver, Col.
Flagler, Fort (9th corps area)—Five miles southeast of Port Townsend, Wash.; south shore of Puget sound.

Foote, Fort (3d corps area)—Eight miles below Washington, D. C., on Roziers bluff, left bank of the Potomac river.
Foster, Fort (1st corps area)—Six miles northeast of Portsmouth, N. H.; subpost of Fort Constitution, N. H.
France, American Forces in—Det. United States army, 7 Rue de Tilsitt, Paris.
France Field—Coco Walk, Cristobal, Canal Zone; aerial coast defense.
Frankford Arsenal—One-fourth mile from Bridesburg, Pa., one mile from Frankford, Pa.
Fremont, Camp—Menlo Park, Cal.; one mile west of Palo Alto, Cal.
Fremont, Fort (4th corps area)—On St. Helena island, four miles by boat from Port Royal, S. C., on Charleston & Western Carolina railway.
Front Royal—Two miles southeast of Front Royal, Va.; remount depot.
Funston, Camp (7th corps area)—East of Fort Riley, Kas., midway between Manhattan and Junction City, Kas.
Funston, Fort (9th corps area)—Within city limits of San Francisco.
Furlong, Camp (8th corps area)—Seventy-three miles west of El Paso, Tex.; P. O., Columbus, N. M.
Gaillard, Camp—Subpost of Gatun; thirty-five miles from Colon, P. O., Culebra, Canal Zone.
Gaines, Fort (4th corps area)—Subpost of Fort Morgan; thirty miles south of Mobile, Ala.; P. O., Dauphin Island, Ala.
Gatun, Camp at—Seven miles from Colon, Canal Zone.
Germany, American Forces in—Postoffice address all units of forces in Germany, except base section, No. 9, is A. P. O., 927; postoffice address base section No. 9 is A. P. O., 944. Freight and express address, port and zone transportation officer, Antwerp, Belgium.
Gerstner Field—Seventeen miles southeast of Lake Charles, La.
Getty, Fort (1st corps area)—Subpost of Fort Greble, R. I.; five miles from Newport, R. I.
Gibbon, Fort (Att. 9th corps area)—Near Tanana, junction of Tanana and Yukon rivers, Alaska.
Gordon, Camp (4th corps area)—Thirteen miles northeast of Atlanta, Ga.
Governors Island, N. Y. (2d corps area)—An island situated in New York harbor, at the junction of the Hudson and East rivers.
Grant, Camp (6th corps area)—Four and three-tenths miles south of Rockford, Ill.
Grant, Fort—Three miles from Balboa, C. Z.
Great Britain—Headquarters United States army liquidation mission in England, 35 Eaton place, London, S. W. 1.
Greble, Fort (1st corps area)—One mile west of Jamestown, five miles from Newport, R. I.
Greene, Camp—Two and one-half miles west of Charlotte, N. C.
Hamilton, Fort (2d corps area)—Brooklyn, N. Y.; seven and one-half miles by water from New York city.
Hancock, Camp—Wheless, Ga., southwest of Augusta, Ga.
Hancock, Fort (2d corps area)—Four miles from Highland Beach, N. J.
Harrison, Fort Benjamin (5th corps area)—Ten miles northeast of Indianapolis, Ind.
Harrison, Fort William Henry—Six miles west of Helena, Mont.
Hay, Camp John—Baguio, Mountain, Luzon, P. I., 171 miles from Manila.
Hazlehurst Field—(See Mitchel field.)
Hearn, Camp Lawrence J.—Fourteen miles south of San Diego, Cal.
Heath, Fort (1st corps area)—Subpost of Fort Banks, four and one-fourth miles northeast of Boston, Mass.
Henry Barracks (Att. 2d corps area)—East of Cayey, Porto Rico.
Hoboken, N. J.—Headquarters army transportation service.
Hoff General Hospital—Staten Island, N. Y.
Holabird, Camp—Five and one-half miles southeast of Baltimore, Md.
Hot Springs, Ark.—Army and navy general hospital.
Houston, Fort Sam (8th corps area)—In and near the city of San Antonio, Tex.
Howard, Fort (3d corps area)—Seventeen miles southeast of Baltimore, Md.
Huachuca, Fort (8th corps area)—Arizona, near southern border.
Hughes, Fort—(See Phil. dept., C. Def. Manila and Subic bays.)
Humphreys, Camp A. A.—Fifteen miles southwest of Washington, D. C. (Fairfax county, Virginia, on Potomac river).
Hunt, Fort (3d corps area)—Eleven and one-half miles south of Washington, D. C.
Jackson Barracks (4th corps area)—Six miles southeast of New Orleans, La.
Jackson, Camp (4th corps area)—Six miles east of Columbia, S. C.
Jackson, Fort (4th corps area)—Subpost of Jackson barracks; about seventy-three miles below New Orleans, across Mississippi river from Fort St. Philip; all business handled through Jackson barracks.
Jay, Fort (2d corps area)—On Governors Island, N. Y.
Jefferson Barracks—In South St. Louis, ten miles south of St. Louis, Mo.
Jesup Camp—Three and one-half miles south of Atlanta, Ga.
Johnston, Joseph E., Camp—Twelve miles from Jacksonville, Fla.
Jones, Harry J., Camp—See Douglas, Ariz.
Kamehameha, Fort—Queen Emma Point, Oahu, H. I.
Kearny, Camp (9th corps area)—Fifteen miles north of San Diego, near Linda Vista, Cal.
Kearny, Fort Philip (1st corps area)—Subpost of Fort Greble, R. I., one and one-half miles south of Saunderstown, R. I., seven miles from Newport, R. I.
Kelly Field (8th corps area)—Five miles south of San Antonio, Tex.
Keogh, Fort—Two miles south of Miles City, Mont.
Key West Barracks (4th corps area)—On the island of Key West, Fla.
Knox Camp (including Godman field) (5th corps area)—Thirty-one miles southwest of Louisville, Ky.
Lakehurst Proving Ground, Lakehurst, N. J.—Two miles from Lakehurst, N. J.
Langley Field (3d corps area)—Hampton, Va.
Lawton, Fort (9th corps area)—Six miles north of Seattle, Wash.
Leavenworth, Fort—Four miles from Leavenworth, Kas., on the Missouri river.
Leavenworth, Fort (disciplinary barracks)—Four miles from Leavenworth, Kas.
Lee, Camp (3d corps area)—Three miles east of Petersburg, Va.
Lee Hall, Va. (3d corps area)—Lee Hall, Va.
Letterman General Hospital—Presidio of San Francisco.
Levett, Fort (1st corps area)—Subpost of Fort Williams, three and one-half miles from Portland, Me., on southerly side of Cushing island, Portland harbor.
Lewis, Camp (9th corps area)—American Lake, Wash., nineteen miles south of Tacoma, Wash.
Lincoln, Fort—Four miles southeast of Bismarck, N. D.
Liscum, Fort (Att. 9th corps area)—On the shore line at Port Valdez, three miles from Valdez, Alaska.

Logan, Camp (8th corps area)—Five miles west of Houston, Tex.
Logan, Fort—South of Denver, Col.
Love Field—Five miles north of Dallas, Tex.
Luke Field (H. dept.)—Ford's island, Pearl harbor, Oahu, Hawaii. Aerial coast defense.
Lyon, Fort (1st corps area)—Subpost of Fort McKinley, four miles from Portland, Me., on Cow island.
MacArthur, Fort (9th corps area)—Near San Pedro, Cal.
McCleary, Fort (1st corps area)—Three and one-half miles northeast of Portsmouth, N. H., subpost of Fort Constitution, N. H.
McClellan, Camp—Five miles north of Anniston, Ala.
McCook Field—Dayton, O. Air service experiment plant.
McDowell, Fort—Seven miles northeast from San Francisco, on Angel island, San Francisco bay.
McHenry, Fort (general hospital No. 2)—On Whetstone point, in the city of Baltimore.
McIntosh, Fort (8th corps area)—On the Rio Grande, one mile from Laredo, Tex.
McKinley, Fort (1st corps area)—Five miles from Portland, Me., on Great Diamond island.
McKinley, Fort William—Guadalupe, Rizal, Luzon, P. I., nine miles southeast Manila.
McPherson, Fort (4th corps area)—Fort McPherson, Ga.
McRee, Fort (4th corps area)—At entrance to Pensacola bay, ten miles from Pensacola, Fla.; subpost of Fort Barrancas, Fla.
Mackenzie, Fort—Three miles from Sheridan, Wyo.
Madison Barracks (2d corps area)—About ten miles from Lake Ontario, adjoining the town of Sacketts Harbor, N. Y.
Manila, Post of—In the city of Manila, Luzon, P. I. Includes Cuartel de Espana and Cuartel de Infanteria.
Mansfield, Fort (2d corps area)—Subpost of Fort H. G. Wright, seven miles from Westerly, R. I.
March Field—Ten miles southeast of Riverside, Cal., one mile from Alessandro, Cal.
Marfa Command (8th corps area)—At Marfa, Tex., on central Texas main line, Southern Pacific.
Mason, Fort—Within the city limits of San Francisco, at Black point, opposite Alcatraz island.
Mather Field (9th corps area)—Thirteen miles east of Sacramento, Cal.
Meade, Camp (3d corps area)—Camp Meade, Md.
Meade, Fort (7th corps area)—Two miles from Sturgis, S. D.
Meigs, Camp—Florida avenue and 5th street, N. E., Washington, D. C.
Mercedes, Tex. (8th corps area).
Merritt, Camp—Fifteen miles northwest of Jersey City, N. J.
Michie, Camp Robert E. L. (8th corps area)—One mile northeast of Del Rio, Tex.
Michie, Fort (2d corps area)—Subpost of Fort Terry, eleven miles from New London, Conn.
Middletown General Ordnance Depot—One mile west of Middletown, Pa.
Middletown, Pa.—General supply depot, west end of Middletown.
Miley, Fort (9th corps area)—Subpost of Fort Winfield Scott, in the city of San Francisco, near Golden Gate cemetery.
Miller Field—New Dorp, Staten Island, N. Y.; aerial coast defense.
Mills, Fort—Cavite, Corregidor, P. I., thirty miles from Manila.
Missoula, Fort (9th corps area)—Four miles southwest from Missoula, Mont.
Mitchel Field (2d corps area)—Mineola, L. I., N. Y., twenty-two miles east of New York city.
Monroe, Fort (3d corps area)—Commanding the entrance to Hampton roads, Old Point Comfort, Va.
Montgomery, Ala. (repair depot)—Montgomery, Ala.
Morgan, Fort (4th corps area)—On eastern side of entrance to Mobile bay, thirty miles from Mobile, Ala.
Morgan General Ordnance Depot—One mile south of South Amboy, N. J.
Morrison Air Service Depot—Morrison, Va.
Mott, Fort (2d corps area)—Six miles northwest of Salem, N. J., on Salem branch of the Pennsylvania railroad, at head of Delaware bay.
Moultrie, Fort (4th corps area)—On Sullivan's island, north of main entrance to Charleston harbor, six miles from Charleston, S. C.
Myer, Fort (3d corps area)—Four miles southwest of Washington, D. C., on the Potomac river.
New Cumberland, Pa. (army reserve depot)—Seven miles southeast of Harrisburg, Pa.
New York Arsenal—On Governors island, New York harbor, one-half mile by government ferryboat from south ferry, New York city.
Niagara, Fort (2d corps area)—Lake Ontario, mouth of Niagara river, seven miles from Lewiston, N. Y.
Nichols, Camp (P. dept.)—Maricaban, Rizal, Luzon, P. I., ten miles from Manila.
Nogales (8th corps area)—Southern Arizona, on Southern Pacific, near border.
Norfolk, Va. (including army supply base, Newport News and Camp Hill)—P. O. army supply base, army supply base, Norfolk, Va.
Normoyle Camp—San Antonio, Tex.
Ogden Arsenal—Arsenal, Utah, seven miles south of Ogden on the Bamberger electric railroad.
Oglethorpe, Fort (4th corps area)—Eight miles south of Chattanooga, Tenn., within government reservation of Chickamauga and Chattanooga National park.
Omaha, Fort (7th corps area)—In the city of Omaha, Neb.
Ontario, Fort (2d corps area)—Junction of Oswego river with Lake Ontario, within the city of Oswego, N. Y.
O'Reilly General Hospital—Oteen, N. C.
Otis, Camp—Thirty-one miles from Colon.
Park Field, Millington, Tenn.—Sixteen miles north of Memphis.
Payne Field—Four and one-half miles north of West Point, Miss.
Penniman General Ordnance Depot—On the York river, six miles east of Williamsburg, Va.
Pettit Barracks—Zamboanga, Moro, Mindanao, P. I., 671 miles from Manila.
Picatinny Arsenal—Five miles from Dover, N. J.
Pickens, Fort (4th corps area)—Subpost of Fort Barrancas, Fla.; on Santa Rosa island, one mile from Fort Barrancas, nine miles from Pensacola, Fla.
Pig Point General Ordnance Depot—Across James river from Newport News, Va.
Pike, Camp (4th corps area)—Eight miles northwest of Little Rock, Ark.
Plattsburg Barracks (2d corps area)—On the west shore of Lake Champlain, at the town of Plattsburg, N. Y.
Polk, Camp—Raleigh, N. C.
Pope Field (1st corps area)—Discontinued.
Popham, Fort (1st corps area)—In the town of Phippsburg, Me., on Hunnewells point, west bank of the Kennebec river.
Porter, Fort (2d corps area)—Within city limits of Buffalo, N. Y., on Niagara river.
Post Field (8th corps area)—Fort Sill, Okla.
Preble, Fort (1st corps area)—Subpost of Fort Williams, two miles from Portland, Me.

Presidio of Monterey (9th corps area)—Partly within the city limits of Monterey, Cal.
Presidio of San Francisco (9th corps area)—On the southern margin of the harbor of San Francisco, in the northwest suburbs of the city of San Francisco, Cal.
Puryear Field (9th corps area)—El Centro, Cal.
Quarry Heights—Balboa Heights, Canal Zone.
Randolph, Fort—On Margarita island, five miles from Cristobal, Canal Zone.
Raritan Arsenal—On Raritan river, three and one-half miles northeast of New Brunswick, N. J.
Ream Field—Imperial Beach, Cal.; subpost, Rockwell Field.
Reed, Walter (U. S. A. general hospital)—Takoma park, west of Georgia avenue, northern part of District of Columbia.
Reno, Fort—On the north fork of the Canadian river.
Revere, Fort (1st corps area)—Subpost of Fort Andrews, at Nantasket Head in the town of Hull, Mass.
Rich Field—Waco, Tex.
Riley, Fort—Four miles northeast of Junction City, Kas.; the cavalry school.
Ringgold, Fort (8th corps area)—Northwest of Mission, Tex., on Hidalgo branch of Gulf Coast lines.
Robinson, Fort—On White river, three miles from Crawford, Neb.
Rock Island Arsenal—On an island in Mississippi river, adjacent to Rock Island, Ill.
Rockwell Field—Near San Diego, Cal.
Rodman, Fort (1st corps area)—Four miles from New Bedford, Mass.
Roots, Fort Logan H. (4th corps area)—Four miles east of Little Rock, Ark.
Rosecrans, Fort (9th corps area)—West side of entrance to San Diego harbor, six miles from San Diego.
Ross Field (9th corps area)—Arcadia, Cal.
Ruger, Fort (H. dept.)—Diamond Head, Oahu, six miles from Honolulu.
Russell, Fort D. A. (9th corps area)—Southeastern part of Wyoming, three miles from Cheyenne.
St. Michael, Fort (Att. 9th corps area)—On St. Michael island in Norton sound, Alaska.
St. Philip, Fort (4th corps area)—Subpost of Jackson barracks on Mississippi river, seventy miles below Jackson barracks, six miles from Buras, La.
Sam Fordyce, Camp (8th corps area)—Sam Fordyce, Tex.
San Antonio Arsenal—Within the city limits of San Antonio, Tex.
San Antonio, Tex.—Aviation general supply depot.
Sandy Hook Proving Ground—Six miles from Highland Beach, N. J.
San Jacinto, Fort (8th corps area)—On the east end of Galveston island, a subpost of Fort Crockett.
San Juan (Att. 2d corps area)—Reservations in the city of San Juan, on the island of San Juan, Porto Rico.
Saulsbury, Fort (2d corps area)—Six and one-half miles east of Milford, Del.
Savanna Proving Ground—On the Mississippi river, nine miles northwest of Savanna, Ill.
Schenectady, N. Y. (army reserve depot)—Three and one-half miles south of Schenectady, N. Y.
Schofield Barracks (H. dept.)—On the island of Oahu, Hawaii, about twenty miles from Honolulu and nine miles from Pearl Harbor.
Schuyler, Fort (2d corps area)—Subpost of Fort Totten, N. Y.; three miles from Westchester, N. Y.
Scott Field—Belleville, Ill.
Scott, Winfield, Fort (9th corps area)—San Francisco bay, part of reservation of Presidio.
Screven, Fort (4th corps area)—Eighteen miles southeast of Savannah, Ga.
Selfridge Field—Mount Clemens, Mich.
Seven Pines General Ordnance Depot—Seven miles east of Richmond, Va.
Sevier, Camp—Six and seven-tenths miles northeast of Greenville, S. C.
Seward, William H. (Att. 9th corps area)—Haines, on Chilkat inlet, Alaska.
Shafter, Fort (H. dept.)—Kahauiki, Kona district, about three miles northwest of Honolulu, on the island of Oahu.
Shannon, Camp (8th corps area)—Southwestern part of New Mexico, twenty-five miles west of Hermanas, N. M.
Sheffield Nitrate Plant (4th corps area)—Sheffield, Ala.
Shelby, Camp—Ten and one-half miles south of Hattiesburg, Miss.
Sheridan, Fort (6th corps area)—Twenty-five miles north of Chicago, on Lake Michigan.
Sheridan, Camp—Three and one-fourth miles north of Montgomery, Ala.
Sherman, Camp (5th corps area)—Three miles northwest of Chillicothe, O.
Sherman, Fort—Three miles from Cristobal, Canal Zone.
Sill, Fort (8th corps area)—On Medicine Bluff creek, six miles north of Lawton, Okla.
Slocum, Fort—On David's island, two miles southwest of New Rochelle, N. Y.
Smallwood, Fort (3d corps area)—Subpost of Fort Howard, eleven miles southeast of Baltimore, Md.
Snelling, Fort (7th corps area)—Seven miles southeast of St. Paul, Minn.
Souther Field—Four miles north of Americus, Ga.
Sparta General Ordnance Depot—Sparta, Wis.
Speedway, Indianapolis, Ind.—Indianapolis, Ind.
Springfield Armory—One mile out of Springfield, Mass.
Standish, Fort (1st corps area)—On Lovell's island in Boston harbor, seven miles from Boston; subpost of Fort Strong.
Stanley, Camp (8th corps area)—Twenty-four miles northeast of San Antonio, Tex., near Leon Springs, Tex.
Stark, Fort (1st corps area)—Three miles from Portsmouth, N. H., subpost of Fort Constitution, N. H.
Sternberg General Hospital—Located in the city of Manila, P. I.
Stevens, Fort (9th corps area)—Opposite Fort Canby, at mouth of Columbia river, Oregon.
Story, Fort (3d corps area)—Eighteen miles northeast of Norfolk, Va.
Strong, Fort (1st corps area)—On an island in Boston harbor, five miles from Boston.
Sumter, Fort (4th corps area)—On a made island, in the entrance to Charleston harbor, six miles from Charleston, S. C.; subpost of Fort Moultrie, S. C.
Taliaferro Field—Fourteen miles north of Fort Worth, Tex.
Taylor, Camp Zachary (5th corps area)—Five miles south of Louisville, Ky.
Taylor Field—Eighteen miles southeast of Montgomery, Ala.
Taylor, Fort (4th corps area)—Subpost of Key West barracks.
Terry, Fort (2d corps area)—Long Island sound, thirteen miles from New London, Conn.
Thomas, Fort—Two miles from Newport, Ky.
Tilden, Fort (2d corps area)—Three miles from Rockaway Park, L. I.
Totten, Fort (2d corps area)—Two miles from Whitestone, L. I., N. Y.
Travis, Camp (8th corps area)—Three miles northeast of San Antonio, Tex.
Travis, Fort (8th corps area)—Subpost of Fort Crockett, on Bolivar point in the city of Galveston, Tex.

Tripler General Hospital—Located in Honolulu, H. I.
Tulleytown Arsenal—One and one-half miles from Tulleytown, Pa.
Tusco, Camp (8th corps area)—Cement plant, El Paso, Tex.
Upton, Camp (2d corps area)—Sixty-three miles from New York city, near Yaphank, on the Long Island railroad.
Vail, Camp Alfred—Four miles northwest of Long Branch, N. J.
Valdez (Att. 9th corps area)—Alaska.
Vancouver Barracks (9th corps area)—Vancouver, Wash.
Wadsworth, Camp—Calvert, S. C., five miles southwest of Spartanburg, S. C.
Wadsworth, Fort (2d corps area)—Northeastern coast of Staten island, N. Y.
Ward, Fort (9th corps area)—Nine miles west of Seattle, Wash.
Warren, Fort (1st corps area)—On an island near the outlet entrance to Boston harbor.
Washington Barracks—On Greenleaf's point in Washington, D. C.
Washington, Fort (3d corps area)—Twelve miles south of Washington, D. C., on bank of Potomac river.
Washington, D. C.—General supply depot.
Watertown Arsenal—Watertown, Mass., six miles from Boston, Mass.
Watervliet Arsenal—Within city limits of Watervliet, N. Y.
Wayne, Fort (6th corps area)—Four miles southeast of Detroit, Mich.
West Point—On Hudson river, fifty-one miles above New York city.
Wetherill, Fort (1st corps area)—Subpost of Fort Adams, two miles from Newport, R. I.
Wheeler, Camp—Seven miles southeast of Macon, Ga.
Whipple Barracks—One mile from Prescott, Ariz.; P. O., Whipple Barracks, Ariz.
Whitman, Fort (9th corps area)—Subpost of Fort Worden, Wash.; P. O., La Conner, Wash.
Williams, Fort (1st corps area)—Four miles from Portland, Me.
William Beaumont General Hospital—To be constructed on El Paso reservation.
Wingate General Ordnance Depot—Ten miles east of Wingate, N. M.
Wood, Fort (2d corps area)—Bedloes island, New York harbor.
Woodbury General Ordnance Depot—Westville, N. J., six miles south of Philadelphia, Pa.
Wool, Fort (3d corps area)—At the Rip Raps, Fort Monroe, Va.
Worden, Fort (9th corps area)—Puget sound, fifty-one miles from Seattle, Wash.
Wright, Fort George (9th corps area)—Four miles west of Spokane, Wash.
Wright, H. G., Fort (2d corps area)—Eight miles across sound from New London, Conn.
Wright, Wilbur (aviation general supply department)—Fairfield, O.
Yuma, Ariz. (8th corps area)—Att. 9th corps area.

TYPICAL ARMY OF THE UNITED STATES.

[From the Army and Navy Journal.]

TENTATIVE TABLE PREPARED BY WAR DEPARTMENT.

The army of the United States consists of the regular army, the national guard and the organized reserve. Of this force the regular army constitutes the expeditionary force which is available at any time to be thrown to the front in an emergency, and to be followed by the national guard as soon as the national guard can be mobilized and brought up. These two forces—the regular army and the national guard—will compose the fighting force while the organized reserve is being mobilized and its training completed. In a tentative table prepared at the war department there are shown the units considered necessary for an army with proportionate corps, army and general headquarters reserve and the attached troops required. The typical army under this table will have the following component parts:

A.—Divisions.

9 divisions, war strength; — divisions, peace strength; — brigade of infantry (colored), peace strength.

B.—Corps Troops (for Three Corps).

Corps artillery, of: 3 corps artillery headquarters (F. A.), 3 brigade headquarters (F. A.), 3 regiments 155 mm. (F. A.), 3 regiments 155 mm. general purpose fire guns (C. A.), 3 observation battalions (F. A.), 3 ammunition trains (F. A.), 3 antiaircraft regiments (C. A.).
Corps engineer service, of: 3 corps engineer headquarters, 3 combat engineer regiments, 9 auxiliary engineer battalions.
Corps air service, of: 3 headquarters, 6 observation squadrons, 3 balloon groups, 3 air parks, 3 photo sections, 3 communications sections.
Corps medical service, of: 3 corps surgeon's officers, 3 medical regiments.
Howitzer corps Q. M. C. transport, of: 3 corps transport offices, 6 headquarters motor commands, 36 truck companies, 3 motor car companies (passengers), 6 motorcycle companies, 6 service park units, 3 wagon trains, 3 corps headquarters.
Special corps troops, of: 3 headquarters, 3 corps headquarters troop and detachment, 3 signal battalions, 3 military police battalions (infantry), 3 ordnance heavy maintenance companies, 3 field remount depots (400) Q. M. C., 3 service battalions Q. M. C.

C.—Army Troops (for One Army).

Army artillery, of: 1 army artillery headquarters (F. A.), 1 ammunition train (F. A.).
Antiaircraft brigade (C. A. C.), of: 1 brigade headquarters, 3 A. A. regiments.
Army engineer service, of: 1 army engineer headquarters, 3 combat engineer regiments, 6 auxiliary engineer battalions, 1 topographical battalion, 1 water tank train, 5 bridge trains (heavy), 2 bridge trains (light), 1 camouflage company.
Army air service, of: 1 headquarters, 1 air headquarters squadron, 3 communication sections, 2 balloon parks, 3 airdrome companies, 1 attack wing, of 1 wing headquarters, 2 pursuit groups, 1 attack group, 1 photo section, 1 observation group.
Army medical service, of: 1 army chief surgeon's office, 4 medical regiments, 15 evacuation hospitals (750 beds), 12 mobile surgical hospitals (250 beds), 1 convalescent hospital (5,000 beds), 1 army medical laboratory, 3 supply depots, 3 veterinary evacuation hospitals.
Army Q. M. C. transport, of: 1 army transport office, 3 headquarters motor commands, 18 truck companies, 1 motor car company (passengers), 2 motorcycle companies, 1 army motor repair shop company.
2 cavalry divisions.
Noncavalry regiments.
1 army headquarters.
Special army troops: 1 headquarters, 1 army headquarters troop and detachment, 2 signal battalions, 1 military police battalion (infantry), 1 ordnance light maintenance com-

pany, 3 ordnance ammunition companies, 1 field remount depot (1,200) Q. M. C., 8 service battalions Q. M. C.

D.—G. H. Q. Reserve (for One Army).

G. H. Q. artillery, of: Light artillery—1 brigade (F. A.), of: Brigade headquarters, 3 regiments 75 mm. (motorized), 3 regiments 75 mm. (portee). Nonregiments, mountain, Medium and heavy artillery—1 brigade (C. A. C.) of: Brigade headquarters, 2 regiments 155 mm. G. P. F. guns, 2 regiments 240 mm. howitzers, 1 regiment 6 inch guns (motorized), 2 ammunition trains.
Antiaircraft artillery and machine guns, of: 1 regiment (C. A. C.).
G. H. Q. engineers, of: 1 G. H. Q. engineer headquarters, 1 topographical battalion, 1 camouflage battalion, 2 bridge trains, 1 water tank train, 1 road regiment, 4 railway battalions, 1 construction regiment,
8 auxiliary engineer battalions.
Special troops of 4 ordnance heavy maintenance companies.

E.—G. H. Q. Artillery, Tanks and Air Service Required for a Field Force of Armies.

1 regiment of trench mortars (C. A. C.), 1 regiment of twelve 12 inch R. R. guns (C. A. C.), 1 regiment of twelve 16 inch R. R. howitzers (C. A. C.), 10 sound ranging companies (C. A. C.), 1,800 tanks (infantry), 1 attack wing, 1 day bombardment group G. H. Q. air service headquarters, 1 attack wing headquarters, 1 day bombardment group, 1 observation group, 2 balloon wings, 24 airship companies, 2 communication sections, 3 airdrome companies.

F.—Communications Zone Troops Normally Attached to Each Army.

9 bakery companies, Q. M. C.; 9 salvage companies, Q. M. C.; 9 clothing and bathing units, Q. M. C.; 10 railroad detachments, Q. M. C.; 9 laundry companies, Q. M. C.; 13 sales commissary units, Q. M. C.; 3 supply companies, Q. M. C.; 3 graves registration units, Q. M. C.

Force to Be Maintained in U. S.

The tentative army units as given above will be maintained largely on paper. But for the expeditionary force to be maintained within the United States in time of peace the following personnel will be apportioned, the figures being approximate in each case:

Under A the one division at war strength will have 892 officers and 18,492 men (the 2d division at Camp Travis, Tex., having been designated for this war strength organization). Divisions at peace strength will be eight, having 4,384 officers and 86,944 men. The colored brigades of infantry will have 122 officers and 3,242 men.

Under B, corps troops, there will be maintained only the following:

	Officers.	E. M.
3 brigade headquarters (F. A.)	30	135
6 regiments 155 mm. howitzers (F. A.)	15	279
3 observation battalions (F. A.)	15	279
3 ammunition trains (F. A.)	9	195
3 battalions antiaircraft regiments (C. A.)	48	1120
1 combat engineer regiment	26	710
1 air service headquarters	4	35
5 companies balloon groups	20	650
2 air parks	10	344
6 headquarters motor commands	12	36
3 truck companies	3	32
3 service park units	3	54
2 signal battalions	34	890
3 ordnance heavy maintenance companies	6	396

Under C, army troops, there will be maintained the following:

1 topographical battalion	15	330
2 bridge trains (heavy)	6	180
1 bridge train (light)	3	90
1 camouflage company	3	90
1 A. S. wing headquarters	4	20
1 pursuit group	89	735
1 attack group	89	755
2 cavalry divisions	680	12560
6 cavalry regiments	264	5844
1 light ordnance maintenance company	1	53
3 ordnance ammunition companies	6	252

Under D, G. H. Q. reserve (for one army), there will be maintained the following:

1 regiment light mountain artillery	49	1003
2 C. A. C. brigade headquarters	12	70
2 regiments 155 mm. G. P. F. guns	76	1920
2 regiments 240 mm. howitzers	76	1920
2 ammunition trains	14	400
1 battalion road regiment (G. H. Q. engineers)	15	330
1 railway battalion	15	330
4 ordnance heavy maintenance companies	8	528

Under E, additional units of G. H. Q. artillery, tanks and air service required for a field force of armies there will be maintained the following:

1 regiment trench mortars C. A. C.	24	600
1 brigade headquarters of 12 inch R. R. guns (C. A. C.)	6	40
4 regiments of twelve 16 inch R. R. howitzers	*152	3300
3 sound ranging companies of C.A.C.	9	210
1800 tanks (infantry), approximately	†70	1000
1 day bombardment group	86	720
1 A. S. attack wing headquarters	4	20
1 day bombardment group	89	735
4 airship companies	20	520

*Material at present available consists of 8, 10, 12 and 14 inch guns and 12 inch mortars.

†Chief of infantry to recommend tank organization other than the divisional tank companies.

Under F, communications zone troops, there will be maintained the following:

9 bakery companies, Q. M. C.	9	630
9 salvage companies, Q. M. C.	..	180
9 clothing and bathing units, Q.M.C	9	189
7 laundry companies (Q. M. C.)	..	259
9 sales commissary units (Q.M.C.)	9	99

Under the above schedule the three army corps will have approximately 10,926 officers and 228,972 men. The army troops will comprise 3,567 officers and 58,777 men and the general headquarters reserve 1,351 officers and 33,648 men.

SECOND DIVISION AT FULL STRENGTH.

For the one division which as an expeditionary force of the army is to be maintained at full strength within the United States in time of peace the war department on Nov. 9 designated the 2d division, Maj.-Gen. James G. Harbord commanding, stationed at Camp Travis, Tex. The full strength will be 892 officers and 18,492 men, and telegraphic orders were issued to the general recruiting service to concentrate effort toward obtaining the 6,000 men required to fill the division. The 2d division was selected because the facilities at Camp Travis would comfortably accommodate the full division and allow sufficient ground for training and maneuvers. Under normal recruiting procedure recruits for the 2d division are sought chiefly in the states of Texas and Oklahoma, which are allocated to this division under the recently adopted policy of allocation

of states to regiments for recruiting purposes. The priority given recruiting for the 2d division contained in this order brought about enlistment of men from all parts of the United States. The 2d division is known as the "Indian Heads" from the shoulder insignia worn in France, where the division fought at Belleau Wood and in the Argonne.

PLAN EXPLAINED BY MAJ.-GEN. HAAN.

At a convention of the American officers of the world war at Detroit, Mich., on Sept. 8, 1920, Maj.-Gen. William G. Haan, U. S. A., director of the war plans division of the war department general staff, outlined the policy of the war department for the organizing of the new army of the United States as follows:

"With the geographical partition of the United States into nine military districts, as recently announced in war department orders, the first step was initiated in the reorganization plan of the army under the national defense act, as amended by the act of June 4, 1920. The new districts are officially known as corps areas and replace the six departments which had been established since 1916. These areas are organized not only with respect to the military population composed within their boundaries but also with reference to supplementing the military defense of the coast lines.

"The next step in the general plan of organization will be the development of one effective, well balanced army—the army of the United States. The national defense act, as amended, contemplates an army of three coordinated components; namely, the regular army, the national guard and the organized reserves; organized in peace time so as to include all of those divisions and other military organizations necessary to form the basis for a complete and immediate mobilization for the national defense in the event of a national emergency. Plans in process of construction by the war department involve the individual development of each of the three, and their effective fusing, one with the other, and with the army as a whole. Each component will have a fixed mission and an equally important role. The development of each must be assured without competition that will adversely affect the others. It is evident, therefore, that any plan which does not have for its essence the policy of one for all and all for one will lack the spirit so necessary to ultimate success, as the efficiency and power of the whole army is completely dependent upon the measure of co-operation that exists between all the components. The manhood represented in the army of the United States is the manhood of a united country, and as such will have little respect for friction or distrust developed mainly with a view of obstructing its progress. The missions of the three components may be roughly defined as follows:

"The regular army, to garrison our overseas possessions, the coast fortresses and other stations necessary to be maintained in the United States; to provide personnel to assist in the training of the national guard and organized reserves; to provide the personnel necessary for the administration of the army and the organization of an adequate and effective force which will be instantly available for emergencies within the United States or elsewhere, and which in peace time will serve as a model for the organization, discipline and training of the active and semiactive military forces of the nation. The ultimate strength of the regular army, under present law, will be approximately 300,000 officers and enlisted men.

"The national guard, to provide in time of peace an adequate and effective force available in minor emergencies for employment by the states or the United States; in time of war to provide an adequate, balanced and effective component of the army of the United States for employment within the United States or elsewhere. The national guard is the second line increment or component of the army in peace or war.

"The organized reserves, to provide an organized and balanced force which may be expanded into an adequate war component of the army of the United States to meet any emergency requiring the use of troops in excess of those of the regular army and the national guard. The organized reserve is distinctly a war force. In time of peace it will be maintained at such a strength as may be necessary to form a skeletonized organization, or cadre, capable in an emergency of broad expansion.

"Plans are now being developed for a basic peace organization of the army of the United States which will permit of its rapid expansion in the event of a major emergency into a well balanced, organized war force and containing all elements required in a great war army, including a system of localized replacements. While the details have not been completely worked out, each corps area will contain troops of the regular army, the national guard and the organized reserves; all organized in time of peace into brigades, divisions and army corps, with the necessary auxiliary and special troops. Each corps area commander is charged with all the military activities in his area and with certain exceptions is in command of all the regular and organized reserve personnel stationed therein. He must not, however, be confounded with the commander of tactical corps that may be organized in his area. He deals direct with local authorities and one of his most important duties is that which relates to the organization of the national guard and organized reserves.

Development of National Guard.

"In the development of the national guard careful consideration will be given not only to its function in war and training of citizens for use in war, but also with relation to its use as state forces during the special situations it will be called upon to meet in peace time. The national guard is the first component of the army, upon whom will fall the control of local domestic disorder, and the value of national guard troops from a state standpoint is negligible unless they are prepared to operate as infantry in the limited sense required for guarding industrial centers, railroads, docks, bridges, etc., in disturbances caused by violence, fire, flood or epidemic. It may be said that national guard troops assigned as coast artillery, antiaircraft units, regiments of heavy guns and howitzers, ammunition and supply trains have no state function in peace time, but the fact cannot be too strongly emphasized that all of the above combat commands are armed with rifles, pistols or machine guns; while the trains personnel are also armed with rifles and have the additional value of facilitating the transport of commercial supplies and necessities in emergencies when ordinary transportation facilities are inoperative.

"With regard to other auxiliary and special troops as medical regiments, observation battalions, ordnance maintenance companies and motorcycle companies, the war department is considering the practicability of arming such troops with a view to their state functions. In connection with the possible necessity for changes in arms of service in order to procure a well balanced tactical organization which may be expanded in time of war without dis-

ruption of existing units it has been found that many national guard detachments of high standing in the basic arms have accepted their transfer to technical branches with much enthusiasm after they have mastered the details of the work. It is well known that troops transferred from cavalry and infantry to the service of machine guns, truck mortars and antiaircraft weapons invariably accept their new assignments with favor. The ultimate strength of the national guard under the national defense act, as amended, will be approximately 435,000. This is practically the same number of officers and men of the national guard who were serving in the United States army on June 30, 1918, and there are some who question whether the guard can assume those proportions in peace time. It should be remembered, however, that the inducement of additional pay must be considered in future calculations, for the following table, while operative, has not as yet received the publicity it merits.

Pay Table for National Guard.

"The approximate pay per annum of line officers and enlisted men of the national guard (includes forty-nine drills and fifteen days' field service) is as follows:

Captain	$794.88
First lieutenant	462.72
Second lieutenant	376.96
Sergeants, 1st class	223.36
Sergeants, 2d class	168.96
Sergeants, 3d class	149.12
Sergeants, 4th class	115.20
Corporal	94.72
Private, 1st class	74.88
Private	64.00

"The number of organizations and the strength of national guard to be allocated to the nine corps areas is being considered by a joint committee of regular army, national guard and organized reserve officers on duty at the war department. After their work is approved the location of troops will be a function of committees of regular, national guard and reserve officers in each state, of which the two latter components will form a majority. The question of the command of national guard brigades and higher units when they are organized from the troops of two or more states will have to be decided after a careful survey of the sentiment of the military authorities of the states in question. Of course, such command would function in peace time during maneuvers and joint exercises only, the training at home stations being coordinated through the headquarters of corps area commanders. The fact that such command has been exercised successfully in the past leads to the conclusion that it will be effective for field purposes in future.

"In the initial organization of divisions of organized reserves, as indicated above, statistical reports show that approximately 70,000 reserve officers have been appointed since Nov. 11, 1918, and there are over 12,000 applications on file. None of the officers so appointed have been given definite assignments.

Organized Reserves Operation.

"Under plans now in process of development all reserve officers will be placed under the orders of the commander of the corps area embracing their residence upon appointment and assigned by him to a unit of the organized reserves at or contiguous to his place of residence. For example, Maj. B of Boston is appointed to the ordnance reserve corps, and upon the recommendation of the chief of ordnance is assigned by the war department to duty at Watertown arsenal as assistant to the commanding officer. This is Maj. B's war assignment. When ordered into active service for the fifteen days' period of training he goes to Watertown arsenal and performs duties similar to those he would perform in war. Capt. C of Wilmington, N. C., is appointed in the infantry section and is placed at the disposition of the commander of the 4th corps area for assignment. He is assigned to command company C, 329th infantry, 83d division, which is located in eastern North Carolina. Capt. C., with the other officers and noncommissioned officers of his division, goes to Camp Jackson for the period of training each year.

"Each unit of the organized reserves will be localized and will be officered by reserve officers residing in the locality. The enlisted personnel will be assigned to units localized in the vicinity of their places of residence. Provision will be made for transferring officers and enlisted men upon changes of residence to similar units located in their new places of residence. As the organized reserves are distinctly a war force and will attract a class of citizens who do not feel inclined or are unable to undertake the obligations assumed by members of the national guard, and as it will be maintained as a cadre or skeletonized force, there will be no competition between it and the national guard. For purposes of administration and such voluntary training as may be possible in addition to the annual period of fifteen days an adequate personnel of the regular army will be provided. Plans for equipping the organized reserves are being studied with a view to prompt and effective mobilization of this component in a national emergency. Regulations for the administration of the organized reserves are now being prepared by the authorized committee of the war department."

COMMISSIONED STRENGTH OF THE REGULAR ARMY.

Under reorganization act of June 4, 1920.

COMBATANT ARMS.

General officers of the line	68
Infantry (includes 1 major-general as chief of infantry)	4,201
Cavalry (includes 1 major-general as chief of cavalry)	951
Field artillery (includes 1 major-general as chief of field artillery)	1,901
Coast artillery corps (includes 1 major-general as chief of coast artillery)	1,201
Air service (includes 1 major-general as chief of air service and 1 brigadier-general as assistant to the chief of air service)	1,516
Corps of engineers (includes 1 major-general as chief of engineers and 1 brigadier-general as assistant to the chief of engineers)	602
Signal corps (includes 1 major-general as chief signal officer)	301
Total	10,741

NONCOMBATANT ARMS.

General staff corps* (war department)	88
Adjutant-general's department (includes 1 major-general as adjutant-general and 1 brigadier-general as assistant to the adjutant-general)	117
Inspector-general's department (includes 1 major-general as inspector-general)	62
Judge-advocate general's department (includes 1 major-general as judge-advocate general)	115
Quartermaster corps (includes 1 major-general as quartermaster-general and 3 brigadier-generals as assistants to the quartermaster-general)	1,053
Finance department (includes 1 brigadier-general as chief of finance)	142

Medical department (includes 1 major-general as surgeon-general and 2 brigadier-generals as assistants to the surgeon-general):	
Medical corps	1,820
Dental corps	298
Veterinary corps	175
Medical administrative corps	140
	2,433
Ordnance department (includes 1 major-general as chief of ordnance and 2 brigadier-generals as assistants to the chief of ordnance)	353
Chemical warfare service (includes 1 brigadier-general as chief of the chemical warfare service)	101
Bureau of insular affairs (includes 1 major-general as chief of the bureau)	3
Chaplains (includes 1 colonel as chief of chaplains)	240
Professors of military academy	7
Military storekeeper	1
Other officers (includes detached officers' list and general staff with troops)	2,261
Total	6,976
Aggregate	17,717

*Does not include 5 general officers (1 chief of staff and 4 assistants) who are accounted for in the 68 general officers of the line.

TOTAL STRENGTH OF THE ARMY.

Under the reorganization act of June 4, 1920, the authorized strength of the United States regular army, including officers and enlisted men, is 298,882. The combatant arms of line of the army are divided as follows:

	Officers.	Enlisted men.	Total.
General of the army	1		1
General officers of the line	67		67
Infantry	4,200	110,000	114,200
Field artillery	1,900	37,000	38,900
Coast artillery	1,200	30,000	31,200
Cavalry	950	20,000	20,950
Air service	1,514	16,000	17,514
Corps of engineers	600	12,000	12,600
Signal corps	300	5,000	5,300
Total	10,732	230,000	240,732

In the noncombatant arms there are 6,976 officers and 50,000 enlisted men.

Master sergeant	
Foreign service	
First sergeant	
Foreign service	
Staff sergeant	
Foreign service	
Sergeant	
Foreign service	
Corporal	
Foreign service	
Private, first class	
Foreign service	
Private	
Foreign service	

Enlisted men of all grades and in all branches of the service receive 20 per cent increase on base pay and longevity pay, while serving beyond the continental limits of the United States and territories contiguous thereto except in the Canal Zone, Panama, Hawaii or Porto Rico.

Extra Pay for Specialists.

Extra pay for specialist ratings is limited to privates and privates, first class, in all branches of the service who work at trades or perform special duties. There are six specialist ratings carrying extra pay per month of $3, $8, $12, $15, $20 and $25.

UNITED STATES ARMY PAY.

COMMISSIONED OFFICERS.

Rank.	Per year.
General	$10.000
Lieutenant-general	9.000
Major-general	8.000
Brigadier-general	6.000
Colonel	4.600
Lieutenant-colonel	4.100
Major	3.840
Captain	3.120
First lieutenant	2.600
Second lieutenant	2.120

Officers of lower rank than colonel receive additional pay for continuous service and for service abroad.

All officers are entitled to be furnished public quarters, with fuel and light, but if these cannot be provided the officers receive a commuted money value of the same.

ENLISTED MEN.

Enlisted men in the United States army are divided into seven grades as follows:

1. Master sergeant.
2. First or technical sergeant.
3. Staff sergeant.
4. Sergeant.
5. Corporal.
6. Private, first class.
7. Private.

The monthly base pay of each of these ranks, under the act of June 4, 1920, is as follows:

Master sergeant	$74.00
First sergeant	53.00
Staff sergeant	45.00
Staff sergeant	45.00
Corporal	37.00
Private, first class	35.00
Private	30.00

To these amounts are to be added a temporary increase of 20 per cent on the base pay until June 30, 1922; 10 per cent for length of service or longevity during second five year period of enlistment; 20 per cent longevity pay during third five year period; 30 per cent longevity pay during fourth five year period, and 40 per cent longevity pay from the twenty-first year to the end of service. If on foreign service 20 per cent more is added to the base pay and longevity pay. Thus the total monthly pay for each period will be:

1.	2.	3	4.	5.
$104.70	$112.10	$119.50	$126.90	$134.30
119.50	128 38	137.26	146.14	155.02
79.50	84 80	90.10	95.40	100.70
90.10	96 56	102.82	109 18	115 54
69.90	74.40	78.90	83.40	87.90
78 90	84.30	89.70	95.10	100.50
54.00	58.50	63 00	67.50	72.00
63.00	68.40	73.80	79 20	84.60
44.40	48.10	51 80	55.50	59 20
51.80	56 24	60.68	65.12	69.56
35 00	38.50	42 00	45.50	49.00
42.00	46.20	50 40	54 60	58.80
30 00	33.00	36 00	39 00	42.00
36.00	39.60	43.20	46.80	50.40

Qualification Pay.

In the infantry, cavalry and field artillery, coast artillery, engineers, signal corps and air service, enlisted men who qualify in the use of the rifle or in the use of the equipment of their arm of the service are entitled to additional pay per month of $2, $3, $5, $7, $9, depending on their qualification and the arm, as shown in the following table:

Casemate electrician	$9.00
Observer, first class	9.00
Plotter	9.00
Coxswain	7.00
Chief planter	7.00

Chief loader	$7.00
Observer, second class	7.00
Gun commander	7.00
Gun pointer	7.00
Expert first class gunner, F. A.	5.00
Expert rifleman	5.00
Expert military telegrapher	5.00
Sharpshooter	3.00
First class gunner	3.00
First class military telegrapher	$3.00
Marksman	2.00
Second class gunner	2.00
Military telegrapher	2.00
Medal of honor*	2.00
Distinguished service cross*	2.00
Distinguished service medal*	2.00

*Twenty per cent increase for foreign service payable on this item.

DEMOCRATS OPPOSE MILITARY TRAINING.

Democratic members of the house of representatives at a caucus held in Washington, D. C., Feb. 9, 1920, went on record as opposed to universal military training, the following resolution being adopted by a vote of 106 yeas to 17 nays:

"It is the sense of this caucus that no measure should be passed by this congress providing for universal, compulsory military service or training."

This action was taken in the face of the following letter from President Wilson to the caucus:

"I am told that a caucus of democratic members has been called to consider pending military legislation, and the suggestion has been made that a resolution be adopted committing the democratic membership of the house against general military training.

"In the present circumstances it would seem to me unfortunate to make a party issue upon this subject, particularly since within a few months the party will assemble in convention and declare the principles upon which it deems it wise to commit itself in a national election.

"The present disturbed state of the world does not permit such sureness with regard to America's obligations as to allow us lightly to decide upon this great question upon purely military grounds while the demonstrated advantages of the use to the country which came from military service in the war plainly suggest that in the national interest, quite apart from military considerations, the moderate and carefully conducted course of military training may have the highest possible advantages.

"In our discussion of the subject you will recall I gave approval in principle to the various very moderate training projects suggested by the general staff and I would be very glad to have you convey to appropriate members of the house who will attend the caucus my strong feeling against action by the caucus which will tend to interpose an arbitrary party determination to the consideration which this subject should receive from the best thought of the members of the house, considering alike the national emergencies which may confront us and the great disciplinary and other advantages which such a system plainly promises for the young men of the country."

ROCKEFELLER MILLIONS TO CHARITY.

It was announced on Nov. 24, 1920, that John D. Rockefeller had given $63,763,357 to charitable and other institutions as a memorial to his wife, Laura Spellman Rockefeller, who died in 1915. The sum was set apart for the support of the particular organizations which had the support of Mrs. Rockefeller in her lifetime and for other religious and philanthropic institutions of a similar character. Women and children, in particular, will be benefited by the donation, which is being administered by the Laura Spellman memorial, chartered by the state of New York. The directors are John D. Rockefeller, Jr., Charles E. Hughes, George W. Murray, Starr J. Murphy and Willard S. Richardson. Among the institutions benefiting by the gift are these: Alta Social settlement, Cleveland, O.; Association for Improving the Condition of the Poor, New York city; China continuation committee; community funds in Cleveland and New York; board of promotion Northern Baptist convention, the Red Cross, Salvation Army, Young Women's Christian Association and Young Men's Christian association. [For mention of other gifts by John D. Rockefeller in 1920 see page 495, this volume.]

OFFICERS OF THE NAVY AND MARINE CORPS.

Mare Island, Cal.—Capt. E. L. Beach, commandant.
Bremerton, Wash.—Capt. H. A. Field, commandant.

ARMAMENT OF BIG FIGHTING SHIPS.

The United States battle cruisers when built will, unless the plans are changed, carry eight 16-inch and fourteen 6-inch guns each. The latest battle ships are armed with from twelve 14-inch to twelve 16-inch guns. The battle ships built between 1902 and 1910 have four 12-inch and eight 8-inch guns, while those in commission built since then have from eight 12-inch to twelve 14-inch guns. The armored cruisers are armed chiefly with 8-inch, 10-inch and 6-inch guns.

STRENGTH OF U. S. NAVY IN MEN.

The strength of the United States navy Nov. 1, 1920, included a total of 149,780 officers and men. There were 11,931 regular and reserve officers, warrant officers and midshipmen and 117,815 regular and reserve men. There were 476 men in the nurse corps. The shortage in the enlisted personnel of the navy, based on the authorized strength, was 28,667 and in the marine corps 9,065.

ORGANIZATION OF THE NAVAL FORCES.

Admiral R. E. Coontz issued the following general orders July 12, 1920:

1. The naval forces of the United States shall be organized in accordance with the following definitions and plan:

2. Definitions—A fleet is an organized body of ships under the command of a commander in chief. A force is the major subdivision of a fleet. It is usually composed of all the vessels of that fleet that are of the same type or class or that are assigned to the same duty. A flotilla is the major subdivision of a force of torpedo vessels. A squadron is the major subdivision of a force of vessels other

than torpedo vessels, in which class of vessels it is a major subdivision of a flotilla. A division is the major subdivision of a squadron. A section is one-half of a division.

Composition of Subdivisions—There shall be normally two ships in each section of battle ships, battle cruisers and armored cruisers. There shall be normally three ships in each section of all ships other than battle ships, battle cruisers and armored cruisers. There shall be normally two sections in each division. There shall be normally two divisions in each squadron of battle ships, battle cruisers and armored cruisers. There shall be normally three divisions in each squadron of vessels other than battle ships, battle cruisers and armored cruisers. There shall be normally three squadrons of torpedo vessels in each flotilla. The number of squadrons or flotillas in a force is not limited.

3. Names of Subdivisions of the Fleet—Fleets shall be named geographically: United States Atlantic fleet, United States Pacific fleet, United States Asiatic fleet.

Forces shall be named as follows: Battle ship force, cruiser force, destroyer force, submarine force, air force, mine force and train. Forces which are rendered advisable by future developments may be organized under appropriate names.

Squadrons and flotillas shall be named by serial numbers, beginning with one in each force. Divisions shall be named by serial numbers, beginning with one in each force. Sections are not named permanently.

When necessary for clearness the name of the fleet shall follow the name of the subdivision of the fleet. Examples: Battle ship division one, cruiser division six, United States Atlantic fleet, destroyer flotilla one, submarine division five, mine division two, train squadron four.

In numbering squadrons, flotillas and divisions the newest ships shall have the largest numbers.

4. Titles of Commanders of Subdivisions—The title of the commander of any subdivision of the fleet shall be formed by prefixing the title "commander" to the name of the subdivision of the fleet he commands. Examples: Commander battle ship division one, commander cruiser division ten, commander train, commander train squadron six.

5. Assignment of Vessels—The department will assign vessels to fleets, flotillas, squadrons and divisions, but such assignment shall not be interpreted to limit the discretion of the commander in chief in making at any time a strategic or tactical distribution of his command.

6. Vessels in Reserve—Vessels in commission in reserve constitute a part of the command of the commander in chief of the fleet to which they may be assigned. Appropriate units from such vessels as may be in commission in reserve will be organized into subdivisions in all respects analogous to the subdivisions constituted of similar active units and shall be administered by subdivision commanders under the supervision of the commander of that force of the fleet to which they are assigned. Such subdivisions shall be named by the members they would have should they join the active fleet.

7. Administrative Command—Administrative command shall be exercised by the commander in chief through the force commanders; by the force commanders through the division commanders of the battle ship force and scout force; and through the flotilla commanders, squadron commanders and division commanders of all others forces.

8. Tactical Command—Tactical command shall be exercised by the commander in chief through the force commanders; by the force commanders through the squadron commanders; or through the flotilla commanders; by the flotilla commanders through squadron commanders; by the squadron commanders through the division commanders; but any flag officer may communicate directly, for tactical purposes, with any vessel or any subdivision of his command.

9. Organization of Small Fleets—Fleets made up of vessels not suitable for tactical grouping may be organized so as best to meet their special situation.

SHIPS OF THE UNITED STATES NAVY.

In addition to the foregoing there were in commission Nov. 1, 1920, 45 yard tugs, 55 patrol vessels of the Eagle type and 47 mine sweepers.

LAUNCH THE MARYLAND.

The superdreadnought Maryland, designed as the most powerful battle ship in the world, was launched at Newport News, Va., March 20, 1920.

The Maryland is the first of four ships of its class to be launched, and is one of the ten superdreadnoughts authorized in the first three year building program adopted in 1916. With a length of 624 feet over all, a beam of 97 feet and a full load displacement of 32,950 tons, it is the largest fighting craft built for the American navy, and when commissioned will be one of the most powerful battle ships in the world. Originally designed to carry twelve 14-inch rifles, the plans for the ship were so changed during the war that it will have instead eight 16-inch guns—the first of this size ever mounted on a ship.

GERMAN WARSHIPS ALLOCATED TO U. S.

Five former German warships allotted to the United States by the allied naval commission arrived at New York Aug. 9, manned by United States navy crews. The vessels consisted of the battle ship Ostfriesland in command of Capt. J. F. Helwig, U. S. N., who was also commander of the squadron; the light cruiser Frankfurt, Commander Louis F. Thibault, U. S. N.; the destroyers V-43, C-102 and the S-132. All the vessels were under tow except the Ostfriesland, which made the voyage under her own steam and also towed the Frankfurt.

The Ostfriesland is a vessel of 22,800 tons, normal displacement. She was completed in 1911 and took part in the battle of Jutland and bears scars of that action, both from a mine she hit and shell fire while running away to her home port. Her best trial speed was 21.39 knots, and she had the reputation of being an extremely good sea boat. Her main battery consisted of twelve 12-inch guns, distributed in pairs in six turrets. Two turrets are placed on either beam and one forward and one aft. Her main armor belt is eleven and three-quarters inches thick, and that on her turrets, turret bases and conning tower is twelve inches thick. Her water line length is 546¼ feet and her beam is 93¼ feet. The ship has reciprocating machinery, three screws, and burns both oil and coal. The vessel has double athwartships rudders and is provided with six submerged torpedo tubes fitted for 19.7-inch torpedoes.

The light cruiser Frankfurt was completed at Kiel in 1915 and has a displacement of 5,120 tons. She was sunk by the Germans at Scapa Flow but was raised by the British. Her machinery is practically ruined. The Frankfurt, which was equipped to carry 120 mines, performed hard service during the war. Her designed speed was twenty-eight knots. She has a length of 465 feet and a beam of forty-five and one-half. Her engines are of the turbine variety and she burns both coal and oil. Her main battery consists of eight 5.9-inch guns and her main armor belt is six inches.

ADMIRALS AND VICE-ADMIRALS IN AMERICAN NAVY.

Admirals.

Name.	Appointed.
David G. Farragut	July 25, 1866
David D. Porter	Aug. 15, 1870
George Dewey	March 2, 1899

Vice-Admirals.

David G. Farragut	Dec. 21, 1864
David D. Porter	July 25, 1866
Stephen C. Rowan	Aug. 15, 1870

The first admirals and vice-admirals in the United States navy were appointed under the acts of Dec. 21, 1864, and July 25, 1866. In the act of Jan. 24, 1873, it was provided that when the offices became vacant the grades should cease to exist. Under the act of March 3, 1915, the commanders in chief of the Atlantic, Pacific and Asiatic fleets were given the rank and pay of admirals and the second in command of each fleet the rank and pay of vice-admiral, the rank being re-established for that purpose. On relinquishing command of the fleets the admirals and vice-admirals resumed their regular rank in the navy. The act of May 22, 1917, authorized the president to designate six officers of the navy for the command of fleets or subdivisions thereof, three to have the rank and pay of admiral and three the rank and pay of vice-admiral until relinquishing such command. The provision of the former act designating the fleets by name was repealed.

The chief of naval operations while so serving has the rank, title and pay of admiral, taking rank next after admiral of the navy.

NAVY PAY TABLE.

COMMISSIONED OFFICERS.

All commissioned officers of the active list of the navy receive the same pay and allowances according to rank and length of service. Officers of the medical, pay and construction corps, chaplains, civil engineers and professors of mathematics have the relative ranks of the various grades of the line, the annual base pay of each grade being as follows:

Admiral (in command of fleet)	$10.000
Vice-admiral (second in command of fleet)	9.000
Rear-admiral, upper half	8.000
Rear-admiral, lower half	6.000
Commodore	6.000
Captain	4.600
Commander	4.100
Lieutenant-commander	3.840
Lieutenant	3.120
Lieutenant (junior grade)	2.600
Ensign	2.120

To each commissioned officer below the rank of rear-admiral is allowed 10 per cent of his yearly base pay for each five years of service in the army, navy and marine corps, but not exceeding in all 40 per cent. Additional provision is made by law that the pay of a captain shall not exceed $5.000, a commander $4.500, and a lieutenant-commander $4,000 per annum.

THE ENLISTED PERSONNEL.

The enlisted personnel of the navy is of various classifications, depending upon their duties. Entry into the service is usually made in the lower ratings and the men are advanced upon the establishment of qualifications for the higher ratings. The following tables show the classifications and the base monthly pay of each rating during the present war as provided by the act of June 17, 1920:

Chief Petty Officers.

Rating.	Base pay.
Chief master at arms	$99.00
Chief boatswains' mates	99.00
Chief gunners' mates	99.00
Chief turret captains	99.00
Chief quartermasters	99.00
Chief machinists' mates	99.00
Chief electricians	99.00
Chief carpenters' mates	99.00
Chief water tenders	99.00
Chief yeomen	99.00
Chief storekeepers	99.00
Chief pharmacists' mates	99.00
Bandmasters	99.00
Chief commissary stewards	99.00
Chief printers	99.00
Chief special mechanics	99.00

Petty Officers, First Class.

Master at arms, first class	$84.00
Boatswains' mates, first class	84.00
Gunners' mates, first class	84.00
Turret captains, first class	84.00
Quartermasters, first class	84.00
Boilermakers	84.00
Machinists' mates, first class	84.00
Coppersmiths	84.00
Shipfitters, first class	84.00
Electricians, first class	84.00
Blacksmiths	84.00
Plumbers and fitters	$84.00
Sailmakers' mates	84.00
Carpenters' mates, first class	84.00
Water tenders	84.00
Painters, first class	84.00
Storekeepers, first class	84.00
Pharmacists' mates, first class	84.00
Yeoman, first class	84 00
First musicians	84.00
Commissary stewards	84.00
Ships' cooks, first class	84 00
Bakers, first class	84.00
Printers, first class	84.00
Special mechanics, first class	84.00
Enginemen, first class	84.00
Coppersmiths, first class	84.00
Patternmakers, first class	84.00
Molders, first class	84.00

Petty Officers, Second Class.

Master at arms, second class	$72.00
Boatswains' mates, second class	72.00
Gunners' mates, second class	72.00
Quartermasters, second class	72 00
Machinists' mates, second class	72.00
Electricians, second class	72.00
Shipfitters, second class	72.00
Oilers	72.00
Carpenters' mates, second class	72.00
Printers, second class	72.00
Painters, second class	72.00
Storekeepers, second class	72.00
Yeomen, second class	72.00
Ships' cooks, second class	72.00
Pharmacists' mates, second class	72.00
Enginemen, second class	72.00
Blacksmiths, second class	72.00
Coppersmiths, second class	72.00
Patternmakers, second class	72.00
Molders, second class	72.00

Petty Officers, Third Class.

Master at arms, third class	$60.00
Coxswains	60 00
Gunners' mates, third class	60.00
Quartermasters, third class	60.00
Electricians, third class	60.00
Carpenters' mates third class	60.00
Painters, third class	60.00
Storekeepers, third class	60.00
Yeomen, third class	60.00
Pharmacists' mates, third class	60.00

Seamen, First Class.

Seamen gunners	$54.00
Seamen	54.00
Firemen, first class	60.00
Shipwrights	54.00
Musicians, first class	54.00
Ships' cooks, third class	54.00
Bakers, second class	54.00
Hospital apprentice, first class	54.00

Seamen, Second Class.

Seamen, second class	$48.00
Firemen, second class	54.00
Musicians, second class	48.00
Buglers	48.00
Ships' cooks, fourth class	48.00
Hospital apprentice, second class	48.00

Seamen, Third Class.

Apprentice seamen	$33.00

Rating.	Base pay.
Firemen, third class	48.00
Landsmen	33.00

Messmen Branch.

Cabin stewards	$84.00
Cabin cooks	84.00
Wardroom stewards	72.00
Wardroom cooks	72.00
Steerage stewards	72.00
Steerage cooks	72.00
Warrant officers' stewards	60.00
Warrant officers' cooks	60.00
Mess attendants, first class	42.00
Mess attendants, second class	36.00
Mess attendants, third class	33.00

Extra Allowances.

(Explanation follows.)

Rating.	Base pay
Coxswains, power boat	$5.00
Coxswains, C. in C	5.00
Seamen, in charge of holds	5.00
Messmen	5.00
Jacks-of-the-dust	5.00
Lamp lighters	5.00
Apprentice petty officers, chief	2.50
Apprentice petty officers, first class	2.00
Apprentice petty officers, second class	1.50
Apprentice petty officers, third class	1.00
C. P. O. instructors (training station)	10.00
Gun captains	5.00
Signalmen, first class	3.00
Signalmen, second class	2.00
Signalmen, third class	1.00
Submarine pay—For each dive, not to exceed $15 per month	1.00
Submarine pay	5.00
Submarine diving (not under instruction or practice), per hour	1.20
Gun pointers	$2 to 10.00
Good conduct medal (for each medal or bar)	.83
Ships' tailors	$10.00 to 20.00
Tailors' helpers, per man	10.00
Mail clerks	$10.00 to 30.00
Re-enlistment pay—second enlistment	5.50
Re-enlistment pay—third and subsequent enlistments	3.30
Good conduct discharge	1.50

Fleet Naval Reserve.

Up to sixteen years' active service, two months' base pay per year.

After sixteen years' service, transferred, one-third of base pay and all permanent additions.

After twenty years' service, transferred, one-half of base pay and all permanent additions.

Student aviators or student airmen, 50 per cent increase in pay and allowances of rating.

Base Pay Not All.

It is important to note that the foregoing rates of pay are of base pay, that is, they are of the pay not counting allowances or additions which will be discussed hereafter.

Free Clothing Outfit.

A man upon first enlisting in the navy receives free a clothing outfit to the value of $100.

Rations Free.

Enlisted men in the navy receive rations free, that is, they receive their food free. Under certain conditions they receive cash instead of the ration. This in 1920 was 68 cents a day, but is subject to change.

When an enlisted man is on a certain class of duty ashore he may receive subsistence varying from $2.50 to $4.00 a day, which replaces the ration he otherwise would have received.

Allowances for Special Duty.

Coxswains of boats propelled by machinery, coxswains to commanders in chief, seamen in charge of holds, men regularly detailed as crew messmen, men assigned to duty as jacks-of-the-dust, and as lamplighters, all receive $5.00 a month in addition to their other pay.

Apprentice seamen who are detailed as apprentice petty officers in connection with the instruction of apprentice seamen at naval training stations receive additional pay while so detailed, as follows: Apprentice chief petty officers, $2.50; apprentice petty officers, first class, $2; second class, $1.50; third class, $1 each per month. The complement of apprentice petty officers is four (one in each rating) for each seventy-five apprentice seamen under training.

Chief petty officers detailed as instructors of apprentice seamen at training stations receive $10 a month extra for this special duty.

Enlisted men regularly detailed by the commanding officer as gun captains, excepting for secondary battery guns, shall receive in addition to their pay $5 a month.

Men regularly detailed as signalmen shall receive extra compensation per month as follows: Signalmen, first class, $3; second class, $2; third class, $1.

Enlisted men who are detailed for aviation duty, as student aviators or student airmen, receive 50 per cent increase in pay and allowances of their rating.

Five dollars a month is allowed each man serving on board a submarine vessel, in addition to his regular pay. He is besides allowed $1 additional for each day the submarine is submerged while under way, provided it does not amount to more than $15 in any one month.

A man employed in submarine diving, and not under instruction, or diving for practice, receives extra pay at the rate of $1.20 an hour for the actual time so employed under water.

Enlisted men who qualify as gun pointers and who are regularly detailed by the commanding officer receive the following additional monthly pay:

Heavy gun pointers (for guns of 8 inch caliber or larger):

First class	$10
Second class	6

Intermediate gun pointers (for 4 inch to 7 inch guns):

First class	$8
Second class	4

Secondary gun pointers (for guns from 1 pounder to 3 inch):

First class	$4
Second class	2

Gunnery prizes are awarded to the members of meritorious gun and torpedo crews in three classes, viz: First class, $20; second class, $10, and third class, $5 per man. The members of the winning turret, gun and torpedo crews are also awarded the right to wear the navy "E," signifying "excellent."

An enlisted man detailed as "ship's tailor" on board a vessel having a complement of 600 men or more, exclusive of marines, shall receive $20 per month in addition to the monthly pay of his rating; on a vessel having a complement of 300 to 600 men, $15 per month additional; on a vessel having a complement of less than 300 men, $10 per month additional. An enlisted man detailed as a "tailor's helper" on a vessel having a complement of 600 men or more receives $10 per month in addition to his monthly pay; provided, that the total pay of "ship's tailor" shall not exceed $50 per month and of "tailor's helper" $40 per month.

Men detailed as navy mail clerks receive in addition to their other pay $30, $25, $20 and $10 a month, depending upon the size of the crew of the vessel of flotilla. Men detailed as assistant navy mail clerks receive

$15 a month in addition to the pay of their rating.

Travel Allowance Home.

A man who originally enlisted in the United States, when regularly discharged upon expiration of enlistment within the United States, is given a free travel allowance equal to 5 cents a mile from the point of discharge to the point of enlistment. If a man is outside the limits of the United States he is returned to the United States for discharge and paid travel allowance from the point at which discharged to place of enlistment.

A man who receives an honorable discharge and re-enlists within four months of the day of his discharge receives a free gift of four months' pay if he enlists for four years. This is known as honorable discharge gratuity or "big discharge money."

For each re-enlistment within four months following four years service a man receives in addition to his pay $1.50 a month for continuous service. Also for the first re-enlistment following four years' service a man receives an increase to his pay of $5.50 a month for citizenship, and for each subsequent re-enlistment another increase of $3.30 per month.

Upon re-enlistment within four months from day of honorable discharge a man receives both the $1.50 and $5.50 increase upon the first re-enlistment or both $1.50 and $3.30 increase upon the second or subsequent re-enlistment.

If a man has a good conduct medal he will receive 83 cents a month extra for that, upon his third enlistment, and an equal additional increase each enlistment thereafter for each additional good conduct bar.

Retired Pay, or the Reserve.

After thirty years' service the enlisted man may retire on three-quarters base pay, per month, plus $15.75 for allowances for quarters, heat and light, or prior to having thirty years' service he may take advantage of the provisions of the naval reserve act and leave active service for the reserve. The remuneration in this is based on the length of time served in the navy. A man who has served sixteen years may transfer to the fleet naval reserve and receive one-third his base pay, per month, plus all permanent additions; if he has put in twenty years his pay will be half his base pay, per month, plus additions.

UNITED STATES NAVAL ACADEMY.

Annapolis, Md.

The United States naval academy is a school for the practical and theoretical training of young men for the naval service of the United States. The students are styled midshipmen.

The course of study is four years. Midshipmen who graduate are appointed to fill vacancies in the lower grade of the line of the navy, and occasionally to fill vacancies in the marine corps and in certain of the staff corps of the navy.

Appointments—Five midshipmen are allowed for each senator, representative and delegate in congress, five for the District of Columbia, fifteen each year from the United States at large and 100 from enlisted men of the navy. The appointments from the District of Columbia and from the United States at large are made by the president. Enlisted men of the navy are appointed by the secretary of the navy after competitive examination. One midshipman is allowed from Porto Rico, who must be a native of that island. The appointment is made by the president on the recommendation of the governor of Porto Rico. Candidates must be actual residents of the districts from which they are nominated.

Examinations—Two examinations for the admission of midshipmen are held each year. The first is held on the third Wednesday in February and the other on the third Wednesday in April under the supervision of the civil service commission at certain specified points in each state and territory. All those qualifying mentally, who are entitled to appointment in order of nomination, will be notified by the bureau of navigation, navy department, Washington, D. C., when to report at the academy for physical examination, and if physically qualified will be appointed. Alternates are given the privilege of reporting for mental examination at the same time as the principals. Examination papers are all prepared at the academy and the examinations of candidates are finally passed upon by the academic board. Certificates from colleges and high schools will not be accepted in lieu of the entrance examinations at the naval academy.

Mental Requirements—Candidates will be examined in punctuation, spelling, arithmetic, geography, English grammar, United States history, world's history, algebra through quadratic equations and plane geometry (five books of Chauvenet's geometry or an equivalent).

Physical Requirements—All candidates are required to be citizens of the United States and must be not less than 16 years of age nor more than 20 years of age on April 1 of the calendar year in which they enter the naval academy. A candidate is eligible for appointment the day he becomes 16 and is ineligible on the day he becomes 20 years of age. Candidates are required to be of good moral character, physically sound, well formed and of robust constitution. The height of candidates for admission must not be less than five feet two inches between the ages of 16 and 18 years, and not less than five feet four inches between the ages of 18 and 20 years. The minimum weight at 16 years is 105 pounds, with an increase of five pounds for each additional year or fraction of a year over one-half. Candidates must be unmarried.

Pay—The pay of a midshipman is $750 a year, beginning at the date of his admission. Midshipmen must supply themselves with clothing, books, etc., the total expense of which amounts to $350. Traveling expenses to the academy are paid by the government.

Enlistment—Each midshipman on admission is required to sign articles by which he binds himself to serve in the United States navy during the pleasure of the president of the United States.

GERMAN NATIONAL COLORS.

The German national colors as fixed by the new constitution are black, red and gold. The commercial flag is black, white and red with a black, red and gold jack in the upper left hand corner.

UNITED STATES MILITARY ACADEMY.

West Point, N. Y.

The United States military academy is a school for the practical and theoretical training of cadets for the military service of the United States. When any cadet has completed the course of three years satisfactorily he is eligible for promotion and commission as a second lieutenant in any arm or corps in the army in which there may be a vacancy, the duties of which he may have been judged competent to perform.

Appointments—Each congressional district and territory, including Porto Rico, Alaska and Hawaii, is entitled to have two cadets at the academy. The District of Columbia has two. Each state is also entitled to have four cadets from the state at large and eighty-two are allowed from the United States at large, two of whom are appointed upon the recommendation of the vice-president and twenty from among honor graduates of "honor schools." The president is also authorized to appoint not to exceed 180 men from the regular army and national guard who have served for one year. The total number in the academy in September, 1919, was 909. The appointments from a congressional district are made upon the recommendation of the representative in congress from that district and those from the state at large upon the recommendations of the senators of the state. The appointments for the United States at large are made by the president upon his own selection. The appointments from the District of Columbia are made on the recommendation of the district commissioners and those from Porto Rico on the recommendation of the resident commissioner. As far as practicable appointments are made one year in advance of admission. For each candidate appointed two alternates should be nominated. Four cadets from the Philippines are admitted.

Examinations—On the third Tuesday in February of each year the candidate selected for appointment must appear for mental and physical examination before boards of army officers at such places as the war department may designate. Candidates who pass will be admitted to the academy on June 14 following.

Mental Requirements—Each candidate must show that he is well versed in algebra, to include quadratic equations and progressions, plane geometry, English grammar, composition and literature, and general and United States history. Under certain conditions fully explained in the war department circular of information relative to the appointment and admission of cadets, a copy of which may be obtained upon application to the adjutant of the academy, candidates may, upon presentation of satisfactory high school or college certificates, be excused from the mental examination.

Physical Requirements—No candidate will be admitted who is under 17 or over 22 years of age, or less than five feet four inches in height at the age of 17, or five feet five inches at the age of 18 and upward, or who is deformed or afflicted with any disease or infirmity which would render him unfit for military service. Candidates must be unmarried.

Pay—The pay of a cadet is $780 a year and one ration a day or commutation therefor at 68 cents a day. The total is $1,028.20, to begin with his admission to the academy. No cadet is allowed to receive money or other supplies from his parents or from any other person without the sanction of the superintendent.

Enlistment—Before receiving his warrant of appointment a candidate for admission is required to sign an agreement to serve in the army of the United States eight years from the time of his admission to the academy.

SIMS-DANIELS CONTROVERSY.

Public attention was directed early in 1920 to a controversy between Rear-Admiral William S. Sims and Josephus Daniels, secretary of the navy, relative to the management of the American naval forces in European waters at the time of the world war. In a letter written Jan. 7, 1920, entitled "Certain Naval Lessons of the Great War," read to a subcommittee of the senate committee on naval affairs on Jan. 17, the admiral brought an "indictment" containing seventy-eight counts against the navy department in Washington. One of the most sensational of his statements was that a few days before the United States entered the war he was sent abroad to cooperate with the allies at the request of the British admiralty. While preparing to sail, he said, he received this explicit admonition:

"Don't let the British pull the wool over your eyes. It is none of our business pulling their chestnuts out of the fire. We would as soon fight the British as the Germans."

The admiral at the end of his letter summed up the charges made by him as follows:

"1. Although war with Germany had been imminent for many months prior to its declaration, there was nevertheless no mature plan developed or naval policy adopted in preparation for war in so far as its commander in Europe was informed.

"2. The navy department did not announce a policy until three months after war was declared—at least not to its representative and the commander of the forces in Europe.

"3. The navy department did not enter wholeheartedly into the campaign for many months after we declared war, thus putting a great strain upon the morale of the fighting forces in the war area by decreasing their confidence in their leaders

"4. The outbreak of hostilities found many important naval units widely dispersed and in need of repairs before they could be sent to the critical area. Destroyers arriving in the war zone had been cruising extensively on our seaboard and in the Caribbean, and when war was declared were rushed through a brief and inadequate preparation for distant service.

"5. During the most critical months of the enemy's submarine campaign against the allied lines of communication the department violated the fundamental strategical principle of concentration of a maximum force in the critical area of the conflict.

"6. The department's representative with the allied admiralty was not supported during the most critical months of the war either by adequate personnel or by the adequate forces that could have been supplied.

"7. The department's commander in the critical area of hostilities was never allowed to select his principal subordinates and was not even consulted as to their assignment. A fundamental principle of the art of command is here involved.

"8. The navy department made and acted upon decisions concerning operations that were being conducted 3,000 miles away, when the

conditions were such that full information could not have been in its possession, thus violating an essential precedent of warfare that sound decision necessarily depends upon complete information.

"9. Instead of relying upon the judgment of those who had actual war experience in this peculiar warfare the navy department, though lacking not only this experience but also lacking adequate information concerning it, insisted upon a number of plans that could not be carried out.

"10. Many of the department's actions so strongly implied a conviction that it was most competent to make decisions concerning operations within the war zone that the result was an impression that it lacked confidence in the judgment of its representative on the council of the allies and its responsible commander in the field. It is a fundamental principle that every action on the part of superior authorities should indicate confidence in subordinates. If such confidence is lacking it should be immediately restored by ruthlessly changing the subordinate.

"11. 'To interfere with the commander in the field or afloat is one of the most common temptations of the government—and is generally disastrous.'—'The Influence of Sea Power Upon History,' Mahan.

"The navy department did not resist this temptation and its frequent violation of this principle was the most dangerous error committed during the naval war."

DENIED BY SECRETARY DANIELS.

Secretary Daniels sent a letter on Jan. 18 to Senator Page, chairman of the senate naval affairs committee, saying that Rear-Admiral Sims' letter had been referred to the general board of the navy for action. The secretary further said that any fair-minded investigator would be convinced at the proper time and in the proper way that the allegations reflecting upon the navy department were based on opinions that were without justification. Regarding the passage about fighting the British, the secretary wrote that when Rear-Admiral Sims was selected to go to London on a special confidential mission he was told to get in touch with the British admiralty, investigate the sinkings by submarines and the situation generally, and inform the navy department fully.

"At that time," wrote the secretary, "congress had not declared war. Rear-Admiral Sims was cautioned to perform no act and to make no public statement that could commit this country to any course pending declaration of the country's policy by the president and the congress. In this connection I reminded him of the statement in his Guildhall speech in England, when he was a younger man, for which he was reprimanded by President Taft: 'If the time ever comes when the British empire is seriously menaced by an external enemy it is my opinion that you can count upon every man, every dollar, every drop of blood of your kindred across the sea.'

"I told him he was selected, not because of this speech, but in spite of it, believing he would exercise the discretion and diplomacy which the confidential nature of his mission necessitated and that his wide acquaintance with naval leaders abroad would facilitate his obtaining for the department at first hand the information desired by this government. It is, I am sure, superfluous to add that I did not use the words which I have quoted above, relating to other governments, or any words that could convey like meaning."

INQUIRY ORDERED.

The senate naval committee on Jan. 19 instructed the subcommittee headed by Senator Frederick Hale of Maine to make a thorough investigation of the charges brought by Rear-Admiral Sims. This subcommittee was already engaged in an investigation of charges made by Rear-Admiral Sims in connection with the awards of naval decorations for meritorious services in the war with Germany. The inquiry took place, but no final report was made.

SINKING OF SUBMARINE S-5.

The officers and crew of the United States submarine S-5 had a narrow escape from death on Sept. 1, 1920, when the craft went to the bottom in 165 feet of water while fifty-five miles east of Cape Henlopen, Va. When the submarine had made a quick dive for exercise a large valve in the air intake failed to close, admitting a large quantity of water to the living spaces. Lieut.-Commander Charles M. Cooke, Jr., commanding, succeeded in getting the valve closed and in expelling some of the water. This caused the stern to rise until it barely lifted above the surface of the ocean with the bow on the bottom, inclined down sixty degrees. The storage battery gave out strong chlorine fumes and the thirty-eight officers and men who were crowded into two small machinery spaces aft suffered much from the bad air.

Finding that the stern was just clear of the water the commander and his men began drilling a hole with a small hand tool. It was slow work, but an opening was finally made through which signals were made. These were seen by the steamer Atlantus, which came up and saved the lives of the crew by pumping in fresh air. She had no tools for enlarging the hole in the submarine, but the steamship George Goethals also came up and her engineer after eight hours' work with a hand tool got the hole large enough to permit the men to get out after having been in deadly peril from 2 p. m. Wednesday, Sept. 1, to 3 p. m. Friday morning, Sept. 3.

Some of the men were temporarily incapacitated, but all recovered.

CELEBRATION OF PILGRIM TERCENTENARY.

By joint resolution of congress of May 13, 1920, the sum of $400,000 was appropriated to be expended in restorations and improvements in various places in and around Plymouth and Provincetown, Mass., deriving historic interest from association with the advent of the Pilgrim colonists in America in 1620. Historic sites were to be marked by appropriate tablets. It was stipulated that the state of Massachusetts should co-operate by the expenditure of $300,000. A commission of eleven members, to be chosen by the president and the two houses of congress, was given supervision of these expenditures.

During the year celebrations at Plymouth, Provincetown and other places throughout the country were held in commemoration of events connected with the early Pilgrim history. At Plymouth, England, on Sept. 6, 100,000 persons attended a service commemorating the three hundredth anniversary of the departure of the Mayflower from that port. The first of the American celebrations was on July 6, when 1,500 delegates to the International Congregational council, holding its sessions in Boston, visited Plymouth and, gathered about the historic rock, listened to commemorative addresses. On Nov. 21 the signing of the compact aboard the Mayflower was celebrated in New York and other cities.

In commemoration of the landing of the Pilgrims the director of the United States mint was authorized to coin 300,000 silver 50 cent pieces. The postmaster-general was authorized to issue a series of special postage stamps in commemoration of the same event.

RANK AND DISTINGUISHING MARKS IN THE NAVY AND MARINES.

MARINES.

NAVY, COMMISSIONED OFFICER.

NAVY, CHIEF PETTY OFFICER.

NAVY, WARRANT OFFICER.

LINE OFFICERS.

ADMIRAL OF THE NAVY.

ADMIRAL.

VICE ADMIRAL.

REAR ADMIRAL.

COMMODORE.

CAPTAIN.

COMMANDER.

LIEUTENANT COMMANDER.

LIEUTENANT.

STAFF OFFICERS.

Same as equal rank of line officers, but corps devices appear in place of anchors.

LIEUT., JUNIOR GRADE.

ENSIGN.

CORPS DEVICES.

MEDICAL.

PAY.

PROF. MATH.

NAVAL CONSTRUCTOR.

CIVIL ENGINEER.

DENTAL OFFICER.

CHAPLAIN.

CHIEF WARRANT OFFICERS, WARRANT OFFICERS, MATES.

CHIEF GUNNER, GUNNER.

CHIEF MACHINIST, MACHINIST

CHIEF CARPENTER, CARPENTER.

CHIEF SAILMAKER, SAILMAKER.

CHIEF PHARMACIST, PHARMACIST.

CHIEF PAY CLERK, PAYMASTER'S CLERK.

MIDSHIPMAN.

SLEEVE MARKS OF COMMISSIONED AND WARRANT OFFICERS—NAVY.

Corps colors: Medical, maroon; Pay, white; Prof. Math., olive green—Staff officers same stripes, but instead of stars, corps colors are used with stripes.—Corps colors: Civil Eng., blue; Med. Res., crimson; Dental, orange.

CHIEF BOATSWAIN, BOATSWAIN.

MATE.

LINE OFFICERS.

(Also used on shoulder devices for ranks below Commodore.)

ADMIRAL OF THE NAVY.

ADMIRAL.

REAR ADMIRAL.

CAPTAIN.

COMMANDER.

LIEUTENANT COMMANDER.

LIEUTENANT.

LIEUTENANT, JUNIOR GRADE.

ENSIGN.

MIDSHIPMAN, 1st CLASS.

VICE ADMIRAL.

CHIEF PETTY OFFICER.

PETTY OFFICER, 1st CLASS.

PETTY OFFICER, 2d CLASS.

CHIEF BOATSWAIN, GUNNER, MACHINIST.

RANK AND INSIGNIA OF ARMY AND NAVY OFFICERS.

The following table shows the rank of commissioned officers in the United States army and marine corps and the corresponding grades in the navy:

ARMY AND MARINE CORPS.	NAVY.
General.	Admiral.
Lieutenant-general.	Vice-admiral.
Major-general.	Rear-admiral.
Brigadier-general.	Commodore.
Colonel.	Captain.
Lieutenant-colonel.	Commander.
Major.	Lieutenant-commander.
Captain.	Lieutenant.
First lieutenant.	Lieutenant, jr. grade.
Second lieutenant.	Ensign.

Commissioned army officers wear the following insignia on the shoulder loop.

RANK AND INSIGNIA.

General—Four silver stars.
Lieutenant-general—Three silver stars.
Major-general—Two silver stars.
Brigadier-general—One silver star.
Colonel—Silver eagle.
Lieutenant-colonel—Silver oak leaf.
Major—Gold oak leaf.
Captain—Two silver bars.
First lieutenant—One silver bar.
Second lieutenant—No insignia.
Chaplain—Cross.

Commissioned officers of the navy wear the following devices on the collar:
Admiral—Anchor and four stars.
Vice-admiral—Anchor and three stars.
Rear-Admiral—Anchor and two stars.
Captain—Anchor and silver eagle.
Commander—Anchor and silver leaf.
Lieutenant-commander—Anchor and gold leaf.
Lieutenant—Anchor and two bars.
Lieutenant, junior grade—Anchor and one bar.
Ensign—One bar.

Following are the army service insignia:
Infantry—Crossed guns.
Cavalry—Crossed sabers.
Field artillery—Crossed cannon and numbers.
Coast artillery—Crossed cannon.
Engineer corps—Castle.
Aviation corps—Globe with wings.
Medical corps—Winged staff and serpents.
Signal corps—Crossed flags.
Quartermaster corps—Eagle on wheel.
Motor transport corps—Winged hat on bronze wheel.

Hat Cords.

Generals wear hat cords the color of gold, while those of other officers are gold and black. The branch of the service to which each enlisted man belongs is indicated by the color of the hat cord he wears:
Infantry—Light blue.
Cavalry—Yellow.
Artillery—Scarlet.
Engineers corps—Scarlet intertwined with white.
Signal corps—Orange intertwined with white.
Medical department—Maroon.
Quartermaster corps—Buff.
Ordnance department—Black intertwined with white.
Motor transport corps—Purple.

Chevrons.

First class privates wear on their coat sleeves or shirts the design of the department or service to which they belong. The designs or chevrons sewn on the sleeves of noncommissioned officers are as follows:
Lance corporal—One inverted V-shaped bar.
Corporal—Two bars.
Sergeant—Three bars.
First sergeant—Diamond mark under bars.
Stable sergeant—Horse's head under bars.
Color sergeant—Star under bars.
Battalion quartermaster sergeant—Three horizontal bars.
Chief trumpeter—One bar and bugle.

War Service Chevron.

A gold chevron of standard material and design, to be worn on the lower half of the left sleeve of all uniform coats, except fatigue coats, by each officer and enlisted man who has served six months in the zone of the advance in the war, and an additional chevron for each six months of similar service thereafter. Silver chevrons of similar design are worn by officers and men who were in the army during the war but did not see service overseas.

Wound Chevrons.

A gold chevron of pattern identical with that of the war service chevron, to be worn on the lower half of the right sleeve of all uniform coats, except fatigue coats, by each officer and enlisted man who has received a wound in action with the enemy which necessitates treatment by a medical officer, and an additional chevron for each additional wound, but not more than one chevron will be worn for two or more wounds received at the same time. Disablement by gas necessitating treatment by a medical officer shall be considered to be a wound within the meaning of this order.

Honorable Discharge Chevrons.

As a recognition of duties performed in the service of the country each soldier on being discharged is furnished with two scarlet chevrons to be worn on the left sleeves, point up, midway between the elbow and the shoulder, one on the coat and one on the overcoat. These chevrons will serve to indicate to the country while the uniform is being worn that the wearer responded to the demands of the country, performing creditable service in the army, and finally received honorable discharge therefrom.

DECORATIONS AND MEDALS FOR VALOR.

Capt. George W. Brush, commander of the Army and Navy Legion of Valor, U. S. A., in an article contributed to the Army and Navy Journal, March 29, 1919, described the chief decorations and medals of valor and their origin as follows:

In these days when our boys are coming home from the greatest war in history wearing the decorations and medals awarded for acts of valor and heroism, it may be well to know a little of their meaning. The medals bestowed on our soldiers for acts of heroism should not be confounded with the medals of our various patriotic organizations such as the Grand Army of the Republic, the Loyal Legion, the Spanish War Veterans and the Sons and Daughters of the Revolution. These are adopted by these organizations and have no significance except to identify them as belonging to a particular organization.

It has long been the custom to reward soldiers who have performed special deeds of valor or heroism. The various countries have adopted medals to express different degrees of such service. The United States has its congressional medal of honor, and recently two additional decorations, the distinguished service cross and the distinguished service medal. England has her Victoria cross, the Distinguished Service Order and its military medal; France, the Legion of Honor, its croix de guerre and medaille militaire; Italy its Order of the Crown and Order of St. Maurice; Belgium its Order of Leopold and croix de guerre; Japan, the Order of the Rising Sun of various degrees; and Germany the iron cross of two classes and the grand cross.

Gen. Washington near the close of the revolutionary war established a badge of "military merit" and he himself received a gold medal, with the thanks of congress. It was not until the civil war that definite action was taken. Congress, in 1862, passed a law providing for a medal of honor for its soldiers in the ranks,

and in 1863 amended it so as to include officers. It also provided a medal of honor for the navy, but singularly did not include the officers. Recently this defect was remedied. The navy medal is different in design from that of the army.

The congressional medal of honor is the most difficult to win of any military decoration in the world. The requirements are so stringent that comparatively few are seen. So far as can be ascertained only twenty-four medals of honor have thus far been issued in the war just closed, while over 1,200 distinguished service crosses have been awarded. The requirements for our medals are given in concise form in Gen. Pershing's bulletin No. 25 to our army abroad. He says:

"The following instructions are published as a guide to all concerned in the manner of American awards for gallantry in action and exceptionally meritorious service and to set a standard for such awards. 1. The medal of honor, and 2, the distinguished service cross are awarded for gallantry in action.

"Medal of Honor—The award of the medal of honor is confined to officers and soldiers of the American army whose action complies with the following tests: (a) who have performed in action deeds of most distinguished bravery and self-sacrifice; (b) above and beyond the call of duty; (c) so conspicuous as to clearly distinguish them for gallantry and intrepidity above their comrades; (d) which involve risk of life or the performance of more than ordinarily hazardous service; (e) the omission of which would not justly subject the person to censure or for shortcoming or failure in the performance of his duty.

"Distinguished Service Cross—The award of the distinguished service cross is confined to any one who may distinguish himself or herself by extraordinary heroism in connection with military operations against an armed enemy of the United States under circumstances which do not justify the award of the medal of honor, and may be awarded to any person who while serving in any capacity with the army shall hereafter distinguish himself or herself or who since April 6, 1917, has distinguished himself or herself.

"Distinguished Service Medal—The award of the distinguished service medal will be confined to any one distinguishing himself or herself by exceptionally meritorious service to the government in a duty of great responsibility in time of war or in connection with or against an armed enemy of the United States."

There are other medals issued by the government representing service of various kinds, but the three described are the most important. The distinguished service medal may be awarded to civilians not engaged in military operations, but not the other two named.

The Victoria cross, the highest military decoration of Great Britain, was established Jan. 29, 1856, by Queen Victoria, "for conspicuous bravery or devotion in presence of the enemy." Second in importance is the Distinguished Service Order and third the military medal. England has also the royal red cross for women.

The origin of the most important French decoration, the Legion of Honor, is described in a translation from the French of Jules Martin, made by Miss M. Murphy for the Army and Navy Legion of Valor. In the period of the consulate, the year eight, it was designated as a national recompense to warriors who rendered distinguished service in battle for the republic; also to citizens who by their learning, talents or virtues contributed in establishing or defending the principles of the republic. In time of war heroic deeds were recognized; in time of peace it required twenty-five years of military service to be entitled to the decoration. In the period of the empire the Legion of Honor comprised four classes, grand officer, commandant, officer, legionary. By a decree of Jan. 30, 1805, Napoleon instituted a fifth degree, the "great decoration" or "great eagle," which since has taken the name of "grand croix." The imperial decree of March 1, 1808, which related to titles of nobility, gave future members of the legion the title of knight, to be transmissible to their descendants, and granted a net revenue of at least 3,000 francs.

Various changes have been made from time to time. The government of the national defense decreed Oct. 28, 1870, that the Legion of Honor be exclusively reserved as a recompense for military service and for acts of bravery and devotedness. The law of July 25, 1873, abrogates this.

The iron cross of Germany was instituted by royal decree of March 10, 1813, as a special decoration for patriotic services, to be "earned during the impending war in battle with the enemies or in the field or at home." It consists of two classes and a "grand cross." Originally instituted for one war only, it was reinstituted July 19, 1870, for the Franco-Prussian war and has existed since that time. The grand cross may be awarded only "to the commanding officer for winning a decisive battle through which the enemy was forced to give up his position." The iron cross, it was decreed in 1870, is to be bestowed "regardless of rank and position as a reward for meritorious services rendered either in actual battle with the enemy or at home in connection with this struggle." In the great world war just closed the iron crosses have been distributed to the German army in lavish profusion.

THE VICTORY MEDAL.

The secretary of war through Gen. Peyton C. March, chief of staff, issued the following order June 30, 1919:

1. A war service medal, to be known as the victory medal, will be awarded to all officers and enlisted men who served on active duty in the army of the United States at any time between April 6, 1917, and Nov. 11, 1918, and whose service was honorable.

2. Battle clasps will be awarded for each of the major operations and for the occupation of a defensive sector. Only one defensive sector clasp will be awarded to any one individual. To be eligible for a battle clasp the officer or enlisted man must have been actually present, under competent orders, in the sector of the army, corps, division or similar independent organization during the period in which the organization was engaged. The officer or enlisted man may have belonged to the organization in question, been attached to it or have served it in some independent capacity. The authorized presence of the person in the locality at the time of operation will be the determining factor in the award of clasp. Each officer or enlisted man serving in the 1st army area between Aug. 30 and Nov. 11, 1918, or in the 2d army area between Oct. 12 and Nov. 11, 1918, will be entitled to the defensive sector clasp, irrespective of awards for major operations. Each officer or enlisted man serving in the area of corps, divisions, or smaller independent organizations under French, British, Belgian or Italian commands, between April 6, 1917, and Nov. 11, 1918, will be entitled to the defensive sector clasp, irrespective of awards for major operations. Each officer or enlisted man present in an engagement in European Russia since Aug. 1, 1918, or in Siberia since Aug. 15, 1918, will be entitled to a defensive sector clasp. The following operations are announced as major operations:

a. Cambrai—Between May 12-Dec. 4, 1917.

b. Somme, defensive—Between March 21-April 6, 1918.
c. Lys—Between April 9-27, 1918.
d. Aisne—On the Chemin des Dames and northeast of Reims between May 27-June 5, 1918.
e. Montdidier-Noyon — Between June 9-13, 1918.
f. Champagne-Marne—Between July 15-18, 1918.
g. Aisne-Marne—Between July 18-Aug. 6, 1918.
h. Somme, offensive—Between Aug. 8-Nov. 11, 1918.
i. Oise-Aisne—Between Aug. 18-Nov. 11, 1918.

THE VICTORY MEDAL.
(At top, face; below, obverse.)

j. Ypres-Lys—Between Aug. 19-Nov. 11, 1918.
k. St. Mihiel—Between Sept. 12-16, 1918.
l. Meuse-Argonne—Between Sept. 26-Nov. 11, 1918.
m. Vittorio-Veneto—Between Oct. 24-Nov. 4, 1918.

3. Clasps will be awarded to each officer and enlisted man who served overseas and is not entitled to a battle clasp under paragraph 2 as follows:

a. France—For service in France between April 6, 1917-Nov. 11, 1918.
b. Italy—For service in Italy between April 6, 1917-Nov. 11, 1918.
c. Siberia—For any service in Siberia.
d. Russia—For any service in European Russia.
e. England—For service in England between April 6, 1917-Nov. 11, 1918. The clasp for this service will only be awarded to officers and enlisted men who served in England and are not entitled to one of the other clasps enumerated in this paragraph.

4. Officers and enlisted men forming part of the personnel of the crews of army and commercial transports operating between the United States and Europe will be included among those authorized to wear one of the clasps enumerated in paragraph 3, depending on the European country for which the transport sailed. Not more than one such clasp, however, will be awarded to any one individual under this authority.

5. A bronze star, three-sixteenths inch in diameter, will be placed on the service ribbon for each battle clasp awarded under the provisions of paragraph 2. When an officer or enlisted man has been cited in orders issued from the headquarters of a force commanded by a general officer for gallantry in action not justifying the award of a medal of honor, distinguished service cross or distinguished service medal, he will wear a silver star on the ribbon of the medal and on the service ribbon for each such citation.

VICTORY LAPEL BUTTON.

The victory lapel button is for wear on civilian clothing by honorably discharged soldiers. It is made of bronze for all soldiers who saw service abroad or at home, and of silver for those who were wounded. It is in the shape of a five pointed star superimposed on a conventional laurel wreath with the letters U. S. in the center of the star. The button, which was designed under the general direction of the commission of fine arts, was issued in July, 1919, and subsequently to all applicants presenting their discharge papers.

DETAILS OF CERTAIN DECORATIONS.

The war department in an order issued May 5, 1919, gave the following technical descriptions of the distinguished service medal, the distinguished service cross and the victory medal:

Distinguished Service Medal.

The coat of arms of the United States in bronze surrounded by a ring in dark blue enamel bearing the inscription "For Distinguished Service. MCMXVIII." Suspended by a bar from a silk ribbon, 1⅜ inches long and 1⅜ inches wide, consisting of a white center (⅝ inch wide) with a scarlet band on each edge and a narrow dark-blue stripe between the scarlet and white, according to standard sample.

Distinguished Service Cross.

A cross of bronze with an eagle on the center and a scroll below the eagle, bearing the inscription "For Valor." Suspended by a ring from a silk ribbon, 1⅜ inches long and 1⅜ inches wide, composed of a band of red (⅛ inch), white (1/16 inch), blue (1 inch), white (1/16 inch), and red (⅛ inch).

Victory Medal.

(a) A bronze medal 36 mm. in diameter. On the obverse a Victory winged, standing, full length and full face. On the reverse the inscription "The Great War for Civilization" and a representation of the various allied and associated nations. Suspended by a ring from a watered silk ribbon, 1⅜ inches long and 36 mm. wide, representing two rainbows placed

(17) England.

(c) Stars 3/16 inch in diameter. Citation stars to be silver; stars to denote possession of clasps to be of bronze.

OTHER AMERICAN DECORATIONS.

In addition to the decorations provided for soldiers in the war in Europe there are many other medals and badges worn by men who distinguished themselves in other wars or by good conduct, marksmanship, etc. These include the following:

Medal commemorating the battle of Manila bay, May 1, 1898.

Medal commemorating the naval engagements in the West Indies during the war with Spain, 1898.

Special meritorious medal for services during the war with Spain, other than in battle.

Certificate of merit medal.

Civil war campaign medal.

Indian campaign medal.

Spanish war campaign medal.

Congressional medal for Philippine service.

Philippine insurrection campaign medal.

Army of Cuban occupation medal, 1898-1902.

China relief expedition medal.

Gold life-saving medal.

Silver life-saving medal.

Cuban pacification medal.

Nicaraguan campaign medal.

Haitian campaign medal, 1915.

Good-conduct medal, U. S. navy.

Good-conduct medal, U. S. marine corps.

Medals and badges for excellence in gunnery.

Expert rifleman's badge, army and marine corps.

Sharpshooter's medal, navy and marine corps.

Expert pistol shot's bar badge, navy.

Pistol expert badge, army and marine corps.

Expert pistol-shot's bar badge, navy.

Distinguished marksman's medal, marine corps.

Sharpshooter's badge, army and marine corps.

Marksman's badge, army and marine corps.

COLORED RIBBON BARS.

The various medals are suspended from ribbons of distinctive colors. Bars of ribbon of the same color as their uniform are worn by officers and men upon whom the medals have been conferred. There are as many different kinds as there are medals.

MEXICAN SERVICE BADGE.

The following order was issued by the war department in February, 1918:

By authority of the president, a service badge with ribbon, to be known as the Mexican service badge, will be issued to all officers and enlisted men who are now or may hereafter be in the military service of the United States, and whose service has been under the following conditions:

(a) In Mexico, afloat or ashore, as members of the Vera Cruz expedition, between April 24, 1914, and Nov. 26, 1914.

(b) In Mexico as members of the punitive or other authorized expeditions between March 14, 1916, and Feb. 7, 1917.

(c) Those who were actually present and participated in an engagement against Mexicans between April 12, 1911, and Feb. 7, 1917, in which there were casualties on the side of the United States troops.

(d) Those who were present as members of the Mexican border patrol between April 12, 1911, and Feb. 7, 1917, in proximity to an engagement between Mexicans which resulted in casualties among their own company, troop, battery or detachment.

The distribution of this badge will be governed by the provisions of article VIII., compilation of general orders, circulars and bulletins, war department, 1881-1915. No individual will be entitled to more than one Mexican service badge.

Persons not now in the army of the United States, who if they had remained in the service would be entitled to this badge and whose separation from the service has been honorable, may apply to the adjutant-general of the army for authority to purchase and wear the Mexican service badge.

WOUND AND SERVICE CHEVRONS IN NAVY.

Wound and service chevrons for men in the naval service, afloat or ashore in Europe, were authorized by the secretary of the navy Sept. 25, 1918. The chevrons are similar to those worn in the army and take the form of a V-shaped bar of gold braid for blue uniforms and yellow silk lace or braid for white. Service chevrons are worn on the lower half of the left sleeve and wound chevrons on the right sleeve.

War service chevrons will be given as follows:

Served three months or more since April 6, 1917, afloat or ashore, on duty east of the thirty-seventh meridian west of Greenwich.

Served afloat three months or more since May 25, 1918, on vessels that have cruised on the high seas of the Atlantic ocean north of the equator.

Served on vessels that have been torpedoed or fired upon.

Served on aviation duty in the United States, making actual flights in search of enemy vessels since May 25, 1918.

Service on transports and convoying ships shall be included.

REORGANIZATION OF THE NATIONAL GUARD.

The national guard of the United States was reorganized in 1919 on a sixteen division basis in accordance with plans approved by Secretary of War Baker on July 16. In a circular letter giving the details of the reorganization Maj.-Gen. J. McI. Carter, chief of the militia bureau, said that the national guard which existed prior to the war with the central European powers was drafted into the federal service and "after performing its duty with great honor and fidelity" had been discharged from its obligation and the time had arrived for its reorganization under the provisions of law. The infantry divisional districts, which are substantially the same as those in which the national guard was formed for service in the United States army, are:

51—Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut.
52—New York.
53—Pennsylvania.
54—New Jersey, Delaware, Maryland, District of Columbia and Virginia.
55—North Carolina, South Carolina and Tennessee.
56—Alabama, Georgia and Florida.
57—Arkansas, Louisiana and Mississippi.
58—Ohio.

59—Indiana, Kentucky and West Virginia.
60—Illinois.
61—Michigan and Wisconsin.
62—Minnesota, Nebraska and Iowa.
63—Kansas and Missouri.
64—Texas and Oklahoma.
65—California, Utah, Nevada, Colorado, Arizona and New Mexico.
66—North Dakota, South Dakota, Montana, Idaho, Wyoming, Washington and Oregon.

There is one cavalry division of the national guard. It is assigned to the entire United States at large.

The plan as further outlined in Maj-Gen. Carter's circular provides:

"In accordance with the act of June 3, 1916, as amended by the act of July 11, 1919, the total strength of the national guard is to be obtained in annual increments, commencing with 200 men for each senator and representative in congress and increasing each year by not less than fifty per centum until a total peace strength of 800 enlisted men for the above representation has been reached.

"The appropriation for the support of the national guard for the fiscal year 1920 is based on 200 enlisted men for each senator and representative in congress, and provides for the maintenance of a total of 106,200 enlisted men, who have been prorated on this basis to the states and territories of the United States. The militia bureau in designating the number and kind of national guard units to be organized by the several states has been guided by the necessity of forming larger units, useful in the event of a federal emergency, while at the same time considering the interests of the states by providing for them a force capable of maintaining law and order.

"The plan comprising sixteen infantry divisions and one cavalry division cannot be completely realized during the fiscal year 1920 owing to the limitation of existing appropriations, but the organization of the national guard will be such as to form the necessary units for eight partially complete infantry divisions and one skeleton cavalry division which could be mobilized in an emergency by a combination of national guard districts.

"The secretary of war has decided that the fine services of the national guard divisions in the world war should receive the greatest recognition that it is possible to accord them. Their services and fine records are a national asset and the recognition accorded them should be of the same character. As a part of the army of the United States they won many of the laurels of that army. It has, therefore, been decided to perpetuate as many as possible of the national guard and national army units which took part in the war with Germany by continuing their designations in the permanent military establishment and in such a manner as to give representation to every state. Those divisions which cannot be incorporated in the permanent military establishment will be perpetuated by announcing them as reserve divisions, to be organized whenever a national emergency should require.

"You are therefore informed that designations other than those used in the war with Germany will be selected for all new national guard divisions, and the units which compose them."

UNITS ASSIGNED TO STATES.

Alabama—2 companies coast artillery, 1 regiment infantry, 1 squadron cavalry, 1 machine gun troop, 1 battalion field artillery, 1 signal company (radio), 1 ambulance company.
Arizona—1 squadron cavalry, 1 battalion field artillery.
Arkansas—1 regiment infantry, 1 battalion engineers, 1 ambulance company.
California—8 companies coast artillery, 1 regiment infantry, 1 battalion field artillery, 1 battalion engineers, 1 signal company (radio), 1 field hospital company, 1 ambulance company, 2 troops cavalry.
Colorado—1 regiment infantry, 1 troop cavalry, 1 battalion field artillery, 1 company engineers, 1 signal company (outposts), 1 engineer train, 1 ambulance company.
Connecticut—6 companies coast artillery, 1 battalion infantry, 2 troops cavalry, 1 battalion field artillery, 1 ambulance company.
Delaware—2 companies coast artillery, 1 battalion infantry.
District of Columbia—1 battalion and 2 companies infantry, 1 battery field artillery, 1 signal company (outposts), 1 headquarters company infantry.
Florida—2 companies coast artillery, 2 battalions infantry, 1 machine gun company.
Georgia—4 companies coast artillery, 1 regiment and 1 battalion infantry, 1 squadron cavalry, 1 battalion field artillery, 1 company engineers, 1 field hospital company.
Hawaii—2 companies coast artillery, 1 battalion infantry, 1 machine gun company, 1 supply company.
Idaho—1 battalion infantry, 1 machine gun company, 1 company engineers.
Illinois—3 regiments infantry, 1 squadron cavalry, 1 regiment and 1 battalion field artillery, 1 battalion engineers, 1 signal company (wire), 1 engineer train, 2 field hospital companies, 2 ambulance companies.
Indiana—1 regiment infantry, 1 squadron cavalry, 1 regiment field artillery, 1 battalion engineers, 1 signal company (radio), 1 field hospital company, 1 ambulance company.
Iowa—1 regiment infantry, 1 squadron cavalry, 1 machine gun troop, 1 battalion field artillery, 1 battalion engineers, 1 field hospital company, 1 ambulance company.
Kansas—1 regiment infantry, 1 squadron cavalry, 1 battalion field artillery, 1 signal company (outpost), 1 engineers' train, 1 field hospital company, 1 ambulance company.
Kentucky—1 regiment and 1 battalion infantry, 1 squadron cavalry, 1 machine gun troop, 1 battalion field artillery, 1 field hospital company, 1 ambulance company.
Louisiana—1 regiment infantry, 1 battalion field artillery, 1 signal company (wire) 1 field hospital company.
Maine—1 regiment infantry.
Maryland—1 regiment infantry, 2 battalions field artillery, 1 field hospital company.
Massachusetts—8 companies coast artillery, 1 regiment infantry, 2 troops cavalry, 1 regiment field artillery, 1 battalion engineers, 1 signal company (wire), 1 engineer train, 1 field hospital company, 1 ambulance company.
Michigan—1 regiment infantry, 1 squadron cavalry, 1 regiment field artillery, 2 companies engineers, 1 signal company (radio), 1 field hospital company, 1 ambulance company.
Minnesota—2 regiments infantry, 1 regiment field artillery, 1 ambulance company, 1 infantry regiment to be converted to field artillery.
Mississippi—1 regiment infantry, 1 battalion field artillery, 2 troops cavalry.
Missouri—2 regiments infantry, 1 squadron cavalry, 1 regiment field artillery, 1 battalion engineers, 1 signal company (wire), 1 field hospital company, 1 ambulance company.
Montana—2 battalions infantry.
Nebraska—1 regiment infantry, 1 signal company (radio), 1 field hospital company.
Nevada—1 squadron cavalry.
New Hampshire—2 companies coast artillery, 1 battalion infantry, 1 battalion field artillery, 1 field hospital company.
New Jersey—2 companies coast artillery, 1 regiment infantry, 1 squadron cavalry, 1 machine gun troop, 1 battalion field artillery,

1 battalion engineers, 1 signal company (radio), 1 field hospital company.

New Mexico—1 squadron cavalry, 1 machine gun troop, 1 battalion field artillery.

New York—12 companies coast artillery, 4 regiments infantry, 1 squadron cavalry, 1 regiment field artillery, 1 regiment engineers, 1 field signal battalion, 1 engineers train, 1 sanitary train complete.

North Carolina—4 companies coast artillery, 1 regiment infantry, 2 troops cavalry, 1 battalion field artillery, 1 company engineers, 1 engineers train, 1 field hospital company, 1 ambulance company.

North Dakota—1 regiment infantry, 1 field hospital company.

Ohio—2 regiments infantry, 2 troops cavalry, 1 regiment and 1 battalion field artillery, 1 battalion engineers, 1 signal company (outpost), 1 signal company (wire), 2 field hospitals, 2 ambulance companies.

Oklahoma—2 regiments infantry, 1 battalion field artillery, 1 company engineers, 1 signal company (radio), 1 field hospital company.

Oregon—4 companies coast artillery, 1 regiment infantry, 1 battery field artillery, 1 company engineers, 1 ambulance company, 1 troop cavalry.

Pennsylvania—4 regiments infantry, 1 squadron cavalry, 1 regiment field artillery, 1 battalion engineers, 1 field signal battalion, 1 engineers train, 1 sanitary train complete.

Porto Rico—(Information later.)

Rhode Island—6 companies coast artillery, 2 troops cavalry, 1 battery field artillery, 1 ambulance company.

South Carolina—2 companies coast artillery, 1 regiment infantry, 1 company engineers, 1 field hospital company.

South Dakota—1 regiment infantry, 1 ambulance company.

Tennessee—1 regiment and 1 battalion infantry, 2 troops cavalry, 1 battalion field artillery, 1 signal company (outposts), 1 ambulance company.

Texas—3 regiments infantry, 6 regiments cavalry, 1 regiment field artillery, 1 company engineers, 1 signal company (wire), 1 field hospital company, 1 ambulance company.

Utah—1 battalion field artillery, 1 field hospital company, 1 squadron cavalry.

Vermont—2 battalions infantry, 1 machine gun company.

Virginia—4 companies coast artillery, 1 regiment infantry, 2 troops cavalry, 1 battalion field artillery, 1 ambulance company.

Washington—4 companies coast artillery, 1 regiment infantry, 1 battery field artillery, 1 signal company (wire), 1 field hospital company, 1 machine gun troop.

West Virginia—1 regiment and 1 battalion infantry.

Wisconsin—1 regiment and 1 battalion infantry, 1 squadron cavalry, 1 machine gun troop, 1 battalion field artillery, 1 company engineers, 1 signal company (outposts), 1 field hospital company, 1 ambulance company.

Wyoming—1 squadron cavalry, 1 battalion field artillery.

STRENGTH OF THE NATIONAL GUARD.

The work of reorganizing the national guard was still in progress toward the close of 1920. On Nov. 1 the enlisted strength was 67,552. The following table shows the enlisted strength on that date and also the authorized strength:

State.	Enlisted.	Authorized.
Alabama	871	2,580
Arizona	210	658
Arkansas	64	1,758
California	875	3,716
Colorado	737	2,069
Connecticut	409	1,360
District of Columbia	235	801
Florida	778	1,563
Georgia	510	2,877
Hawaii	951	3,020
Idaho	202	389
Illinois	58	6,318
Iowa	1,787	4,580
Kansas	1,826	4,043
Kentucky	357	2,686
Maine	1,286	1,991
Maryland	619	3,044
Massachusetts	2,223	10,537
Michigan	758	3,326
Minnesota	3,749	5,196
Mississippi	160	1,879
Missouri	1,878	4,429
Nebraska	133	1,491
New Mexico	53	1,128
New Jersey	2,228	4,084
New York	8,843	20,857
North Carolina	415	2,721
Ohio	3,192	13,184
Oklahoma	2,675	3,813
Oregon	1,219	2,153
Pennsylvania	6,811	13,405
Porto Rico	1,484	1,641
Rhode Island	824	1,086
South Carolina	546	1,859
Tennessee	1,360	2,294
Texas	7,995	16,028
Utah	530	713
Vermont	608	1,361
Virginia	996	2,365
Washington	1,267	2,695
Wisconsin	5,271	10,419
Wyoming	559	560
Other states	...	10,154
Total	67,552	182,830

Only units to which federal recognition had been extended are included in the above table. The actual number on the rolls was much larger.

ARMY OFFICERS HONORED BY CONGRESS.

Following is a list of officers of the army who have by name been thanked or presented with medals or swords by congress:

Thanks of Congress.

Lieut.-Col. Joseph Bailey	June 11, 1864
Maj.-Gen. Nathaniel P. Banks	Jan. 28, 1864
Maj.-Gen. Jacob Brown	Nov. 3, 1814
Maj.-Gen. Ambrose E. Burnside	Jan. 28, 1864
Maj.-Gen. E. P. Gaines	Nov. 3, 1814
Maj.-Gen. U. S. Grant	Dec. 17, 1863
Maj.-Gen. W. S. Hancock	April 21, 1866
Maj.-Gen. W. H. Harrison	April 4, 1818
Maj.-Gen. Joseph Hooker	Jan. 28, 1864
Maj.-Gen. O. O. Howard	Jan. 28, 1864
Maj.-Gen. Andrew Jackson	Feb. 27, 1815
Brig.-Gen. Nathaniel Lyon	Dec. 24, 1861
Maj.-Gen. Alexander McComb	Nov. 3, 1814
Maj.-Gen. George G. Meade	Jan. 28, 1864
Maj.-Gen. John J. Pershing	Sept. 18, 1919
Maj.-Gen. W. S. Rosecrans	March 3, 1863
Maj.-Gen. Winfield Scott	March 9, 1848
Maj.-Gen. P. H. Sheridan	Feb. 9, 1865
Maj.-Gen. W. T. Sherman	Feb. 19, 1864
Maj.-Gen. W. T. Sherman	Jan. 10, 1865
Maj.-Gen. Zachary Taylor	July 16, 1846
Maj.-Gen. Zachary Taylor	March 2, 1847
Maj.-Gen. Zachary Taylor	March 9, 1848
Bvt.-Maj.-Gen. Alfred H. Terry	Jan. 24, 1865
Maj.-Gen. George H. Thomas	March 3, 1865
Bvt.-Maj.-Gen. J. E. Wool	Jan. 24, 1854

Gold Medals.

Maj.-Gen. Jacob Brown	Nov. 3, 1814
Col. George Crogan	Feb. 13, 1835
Maj.-Gen. E. P. Gaines	Nov. 3, 1814
Maj.-Gen. U. S. Grant	Dec. 17, 1863
Maj.-Gen. W. H. Harrison	April 4, 1818
Maj.-Gen. Andrew Jackson	Feb. 27, 1815
Maj.-Gen. Alexander McComb	Nov. 3, 1814
Brig.-Gen. James Miller	Nov. 3, 1814

Brig.-Gen. E. P. Porter	Nov. 3,	1814
Brig.-Gen. E. W. Ripley	Nov. 3,	1814
Maj.-Gen. Winfield Scott	Nov. 3,	1814
Maj.-Gen. Winfield Scott	March 9,	1848
Maj.-Gen. Zachary Taylor	July 16,	1846
Maj.-Gen. Zachary Taylor	March 2,	1847
Maj.-Gen. Zachary Taylor	March 9,	1848

Swords.

Lieut. Cyrus A. Baylor	Feb. 13,	1835
Maj.-Gen. W. O. Butler	March 2,	1847
Ensign Joseph Duncan	Feb. 13,	1835
Brig.-Gen. T. L. Hamer	March 2,	1847
Maj.-Gen. J. P. Henderson	March 2,	1847
Capt. James Hunter	Feb. 13,	1835
Lieut. Benjamin Johnston	Feb. 13,	1835
Col. Richard M. Johnson	April 4,	1818
Lieut. John Meek	Feb. 13,	1835
Brig.-Gen. J. A. Quitman	March 2,	1847
Ensign Edmond Shipp	Feb. 13,	1835
Brig.-Gen. T. E. Twiggs	March 2,	1847
Bvt.-Maj.-Gen. John E. Wool	Jan. 24,	1854
Brig.-Gen. W. J. Worth	March 2,	1847

RANK OF GENERAL.

The rank of general in the United States army has been held by the following:

Ulysses S. Grant.	John J. Pershing.
William T. Sherman.	Tasker H. Bliss.
Philip H. Sheridan.	Peyton C. March.

RANK OF LIEUTENANT-GENERAL.

The rank of lieutenant-general in the United States army has been held by the following:

George Washington.	Samuel B. M. Young.
Winfield Scott.	Adna R. Chaffee.
Ulysses S. Grant.	Arthur McArthur.
William T. Sherman.	John C. Bates.
Philip H. Sheridan.	Henry C. Corbin.
John M. Schofield.	Hunter Liggett.
Nelson A. Miles.	Robert L. Bullard.

NATIONAL HOME FOR DISABLED VOLUNTEER SOLDIERS.

Established by act of congress March 21, 1866.

Names and Location of Branches—Central, Dayton, O.; Northwestern, Milwaukee, Wis.; Southern, Hampton, Va.; Eastern, Togus, Me.; Western, Leavenworth, Kas.; Marion, Marion, Ind.; Pacific, Santa Monica, Cal.; Danville, Danville, Ill.; Mountain, Johnson City, Tenn.; Battle Mountain Sanitarium, Hot Springs, S. D.

Board of Managers—The president of the United States, the chief justice of the Supreme court, the secretary of war ex officiis, Washington, D. C.; president, Gen. George H. Wood, Dayton, O.; first vice-president, Capt. John C. Nelson, Logansport, Ind.; secretary, James S. Catherwood, Hoopeston, Ill.; Maj. James W. Wadsworth, Geneseo, N. Y.; Col. H. H. Markham, Pasadena, Cal.; Menander Dennett, Lewiston, Me.; Col. George Black, Olathe, Kas.

General Treasurer—Col. C. W. Wadsworth.

Inspector-General and Chief Surgeon—Col. James E. Miller.

Requirements for Admission.

1. Honorable discharge from the United States service.

2. Disability which prevents the applicant from earning a living by labor.

3. Applicants for admission will be required to abide by all the rules and regulations made by the board of managers, perform all the duties required of them and obey all the lawful orders of the officers of the home.

4. A soldier or sailor to be admitted must forward with his application his discharge paper, his pension certificate if he is a pensioner and his discharge from a state home if he has been an inmate of such home. These papers are retained at the branch to which he is admitted to prevent their loss or fraud, but are returned to him when he is discharged. Soldiers or sailors whose pensions exceed $16 a month are not admitted to the home except for special reasons.

The National Home for Disabled Volunteer Soldiers is supported by the United States government. The annual appropriation for that purpose is about $4,000,000.

STATE SOLDIERS' HOMES.

There are a number of state homes for disabled volunteer soldiers who, for various reasons, are unable to obtain admission to the national homes. The federal government contributes toward the support of the state homes the sum of $100 for each soldier, based upon the average attendance for the year; the remainder of the expenses is paid by the states themselves. Some of these homes are on the cottage plan. Following is a list of the state homes:

California—Yountville.
Colorado—Monte Vista.
Connecticut—Noroton Heights.
Illinois—Quincy.
Idaho—Boise.
Indiana—Lafayette.
Iowa—Marshalltown.
Kansas—Fort Dodge.
Massachusetts—Chelsea.
Michigan—Grand Rapids.
Minnesota—Minnehaha.
Missouri—St. James.
Montana—Columbus Falls.
Nebraska—Grand Island and Milford.
New Jersey—Kearny and Vineland.
New Hampshire—Tilton.
New York—Bath and Oxford.
North Dakota—Lisbon.
Ohio—Sandusky.
Oregon—Roseburg.
Pennsylvania—Erie.
Rhode Island—Bristol.
South Dakota—Hot Springs.
Vermont—Bennington.
Washington—Orting and Port Orchard.
Wisconsin—Waupaca.
Wyoming—Cheyenne.

HOME FOR REGULAR ARMY SOLDIERS.

The United States maintains a home for disabled and discharged soldiers of the regular army at Washington, D. C. All soldiers who have served twenty years in the army and all soldiers who have incurred such disability, by wounds, disease or injuries in the line of duty while in the regular army, as unfits them for further service are entitled to admission to the home. The home is in charge of a board of commissioners, consisting of the governor of the home, the adjutant-general of the army, the judge advocate, the commissary-general, the quartermaster-general, the chief of engineers and the surgeon-general. The present governor is Lieut.-Gen. S. B. M. Young (retired).

CONFEDERATE SOLDIERS' HOMES.

Confederate veterans of the civil war have a home at Beauvoir, near Biloxi, Miss. The residence there of Jefferson Davis in his last years was secured in 1902 as a refuge for helpless old southern soldiers by the United Sons of Confederate Veterans. It is supported by that society and the United Daughters of the Confederacy. Another home for confederate veterans was opened in Washington, D. C., May 24, 1912, by the women of the Southern Relief association.

FOREIGN EXCHANGE RATES, 1920 AND 1919.

[From The Annalist, New York.]

Commenting upon the fall in exchange, the Annalist of Jan. 5, 1920, said:

"Never before in the history of finance has the foreign exchange market performed as it did during last year (1919). Not even in the feverish days of the last week of July, 1914, was this market so utterly demoralized as it was in the fall of last year, when demand bills on London sold at $3.65¾ to the pound sterling, francs at 11.87 and fire at 13.60 to the dollar. Almost up to the day of their realization, such rates were regarded as totally impossible. * * *

"When the year (1919) opened, all of the allied exchanges were still being stabilized under war time provisions. Sterling stood at $4.75¾ for demand; francs at 5.45½ to the dollar, and Italian rates were at 6.36. In the case of the first two, those rates had been established in September, 1915, and while francs had fallen from the 'pegged' price during the following year, the market had been brought back to that level when we entered the war, in April, 1917. From the fall of 1915 to the spring of 1917 the stabilization process was attended to by private banking interests on this side, acting in conjunction with the British and French governments. Italian exchange, allowed to drift in the early stages of the war, had been taken in hand shortly after our going in by the Italian Exchange institute and the division of foreign exchange of the federal reserve board and was well under control when 1919 opened.

"The pegging arrangement, however, was enormously expensive, and with the signing of the armistice all of the allied governments and the United States treasury began the consideration of plans for abandoning it. This finally was done in March of last year (1919). On March 18 the French ceased supporting their exchanges, and two days later the British government, through J. P. Morgan & Co., announced they had followed suit. Prior to that, on Jan. 17, a partially unrestricted market had been opened for Belgian francs, but here trading was on a restricted scale, so that there existed no precedent for the broader

action and no indication of what was to follow.

"Immediately upon removal of official support, all the exchanges started to fall. Before the end of March sterling was down to $4.57½; francs to 6.03, equaling the previous low record for the war period, and lire to 7.80, which was well above the former low record. This decline, punctuated by spasmodic rallies, continued until August, when sterling had receded to $4.12¼, francs had gone to more than eight to the dollar and lire were selling at 9.66, about on a par with the previous low."

[The lowest figures reached in 1919, quoted in the first paragraph of the Annalist article, occurred in the first half of December.]

FALL IN EXCHANGE EXPLAINED.

The following article, published in the New York Journal of Commerce in January, 1920, was written by Congressman Edmund Platt, chairman of the house committee on banking and currency. It explained the reasons for the heavy fall in exchange:

"Many of the financial publications speak hopefully of the Edge bill as likely to do much to maintain American export trade, through furnishing the necessary machinery for converting long time credits into cash for the payment of wages on American farms and in American factories. I do not believe, however, that the Edge bill or any other measure that could be taken will work miracles. In my opinion nothing can prevent some falling off of our exports just as soon as the necessities of Europe for commodities for immediate consumption are satisfied. Nor do I believe that any measure that can be taken—not even a resumption of government loans—can 'stabilize exchange' in the sense of raising exchange to anywhere near normal levels between a country like the United States, which is on a gold basis, and countries which have an excessive paper currency not redeemable in gold.

Position of Sterling.

"The fact is that so called 'sterling exchange' is no longer 'sterling.' There is somewhere a new par of exchange with Great Britain. I do not claim to have studied the subject enough to have formed any very definite idea of just what it is, but it is certainly far below $4.866. The present real rate of exchange is not a dollar or more below the actual par, but perhaps 25 cents or so below—roughly, 5 per cent instead of 20 per cent. That explains to a degree how business can continue to go on in such great volume. The handicap of the purchasers of our commodities in England, in France and elsewhere in Europe is not nearly so great as the quoted rates of exchange lead many people to believe. Gold is selling at a premium in England of something like 15 per cent above the mint price, according to recent statements, and that premium is some indication of the depreciation of the present paper currency of England. In France, Italy, and especially in Germany, the depreciation of paper is still greater, and the rates of exchange with those countries necessarily allow for the depreciation. There are other factors, chief of which is the great excess of our exports over imports and the great sums owed to us by foreign governments, but they do not account for more than a fraction—a rather large fraction, perhaps—of the fall of sterling exchange and of exchange on the continent. If French francs, normally about 5 to a dollar, are now quoted at 10 to a dollar, it doesn't mean that the Frenchman who buys from the United States has to pay twice what he would have to pay with normal rates, because the French franc itself in paper is worthless and has not the same purchasing power even at home. The par of exchange has changed.

The Bullion Report.

"In this connection let me quote from a document which just now deserves a wide rereading, a document to which Stuyvesant Fish called attention in his letter on foreign exchange, published in the Sun on Dec. 24 (1919), the well known bullion report made by a special committee of the house of commons in England in 1810. That was during the world war of the last century; the Bank of England had suspended specie payment since 1797, and the rates of exchange were running strongly against England, while gold, as now, was selling at a premium, running as high as 15 per cent in London. The committee was appointed 'to inquire into the high price of gold bullion, and to take into consideration the state of the circulating medium, and of the exchanges between Great Britain and foreign ports. Before making its report the committee held extensive 'hearings,' as we should say in Washington, and the 'evidence' is printed with their report. A most significant statement of the principles governing foreign exchange is the following:

" 'That rate of exchange which is produced at any particular period by a balance of trade or payments between the two countries, and by a consequent disproportion between the supply and the demand of bills drawn by the one upon the other, is a departure on one side or the other from the real and fixed par. But this real par will be altered if any change takes place in the currency of one of the two countries, whether that change consists in the wear or debasement of a metallic currency below its standard, or in the discredit of a forced paper currency, or in the excess of a paper currency not convertible into specie; a fall having taken place in the intrinsic value of a given portion of one currency, that portion will no longer be equal to the same portion, as before, of the other currency. But though the real par of the currencies is thus altered, the dealers, having little or no occasion to refer to the par, continue to reckon their course of exchanges from the former denomination of the par, and in this state of things a distinction is necessary to be made between the real and the computed course of exchange. The computed course of exchange, as expressed in the tables used by the merchants, will then include not only the real difference of exchange arising from the state of trade but likewise the difference between the original par and the new par. Those two sums may happen to be added together in the calculation, or they may happen to be set against each other. If the country whose currency has been depreciated in comparison to the other has the balance of trade also against it, the computed rate of exchange will appear to be still more unfavorable than the real difference of exchange will be found to be.'

Position of the United States.

"Now that explains exactly the conditions of the exchange on the United States in England to-day, and the principles set forth are just as true now as they were then and have never been better stated. The rate of exchange is not so unfavorable to Great Britain as the published rates used by the merchants would make it appear, because those rates include not only the real difference of exchange arising from the state of trade, but also the difference between the original par and the new par.

"By the same token the Edge bill has not quite as unpromising a handicap to overcome as the published rates of exchange make it appear. If foreign currencies cannot at present be converted into exportable coin, they can doubtless be converted into exportable securities of value, as well as commodities, and it will be the task of the institutions chartered by the federal government under the new act to find those securities, appraise their value and send them over to the United States, where they may either be marketed so as to furnish ready American cash to pay for our exports, or may be used as collateral for debentures to be marketed. Just how far the American people will go in making investments of this kind remains to be seen, but no one can go among the banking fraternity of any of our great cities without finding a new world spirit, with information at hand of trade possibilities in countries not only of South America and of Europe, but of Asia and Africa. If the banks generally co-operate, as the bill contemplates, and also the manufacturers and farmers, much can be accomplished. But in order to hold trade with Europe beyond the period of dire necessity our own prices will doubtless have to come down."

TABLET TO LAFAYETTE SQUADRON HEROES.

MEMORIAL TABLET TO LAFAYETTE SQUADRON DEAD.

The tablet, of which a reproduction is given herewith, was modeled by a French artist at Sevres, France, in 1919, and executed under the direction of Sidney B. Veit, secretary of the foreign service committee of the Aero Club of America. It aims to perpetuate the names and memory of a number of heroic young Americans who died for France in the world war. All were members of the Lafayette escadrille, or squadron, which won imperishable fame by its success in aerial combats with enemy planes, of which no fewer than 190 were brought down by this organization alone. The names on the tablet are these:

Norman Barclay.	Edmund Genet.
Julian Biddle.	Ronald Hoskier.
Andrew Courtney Campbell, Jr.	Douglas McMonigal.
Oliver Chadwick.	James McConnel.
Victor Chapman.	Norman Prince.
	Kiffin Rockwell.

ANDREW COURTNEY CAMPBELL.

Of these men who fell heroically in the line of duty two were well known in Chicago and vicinity. Norman Prince had made Boston his home for a time, but Chicago also claimed him. Andrew Courtney Campbell, Jr., was better known in the western metropolis, his home being in Kenilworth, where he spent his boyhood and early school days. He went to France in 1916 and was the first American to be graduated from the aviation school at Juvisy. When the United States entered the war young Campbell preferred to wear the French colors, because France had given him his training. Joining the Lafayette escadrille he soon distinguished himself by his daring and skill as a fighting aviator and had he lived a little longer would certainly have won the coveted title of "ace." He was, as a matter of fact, entitled to it, but a number of his victories were not credited to him officially, as they had not been observed and reported in the prescribed manner. He was killed Oct. 1, 1917, in a fight with two German planes.

In the course of his service with the French army Sergeant-Pilot Campbell was frequently

cited for acts of bravery. Paul Ayres Rockwell, correspondent of The Daily News, on Oct. 10, 1917, sent the following translation of the aviator's last citation in French army orders:

"Andrew Courtney Campbell, sergeant-pilot with squadron 124; American citizen who volunteered for the duration of the war; ever since his arrival in the squadron has given astonishing proof of his bravery and extraordinary sangfroid; Oct. 1, 1917, fell in a badly damaged airplane within the enemy lines after a hard combat against two enemy airplanes."

Sergt. Campbell's body was subsequently recovered and buried at Ploissy.

REVOLUTIONARY CHANGES IN MEXICO.

PRESIDENTS SINCE JUNE 26, 1910.

Porfirio Diaz—June 26, 1910, to May 25, 1911.

Francisco I. Madero—May 25, 1911, to Feb. 19, 1913.

Victoriano Huerta—Feb. 15, 1913, to July 15, 1914.

Francisco Carbajal—July 15, 1914, to Aug. 14, 1914.

Venustiano Carranza—Aug. 14, 1914, to May 20, 1920.

Adolfo de la Huerta—May 24, 1920, to Dec. 1, 1920.

Alvaro Obregon—Dec. 1, 1920.

The event of chief importance in Mexico in 1920 was the successful revolt against Venustiano Carranza, who for nearly six years had ruled the country, though he had never succeeded in entirely restoring order. He was not friendly to the administration in Washington and the relations between his country and the United States remained unsatisfactory. This was due chiefly to his failure to prevent the killing of American citizens and the destruction of American property in Mexico.

The revolution against Carranza began in the state of Sonora April 10, when proclamations appeared on the streets of Agua Prieta calling the citizens to arms against the central government on the ground that after ten years of fighting it had not accomplished anything for the best interests of Mexico. The movement was led by Gov. Adolfo de la Huerta, who announced that the congress or legislature of the state had voted to secede and would resist any attempt on the part of the Carranza administration to send troops into Sonora. Gen. P. Elias Calles was made commander of the military forces of the "Republic of Sonora." The rebellion spread rapidly to other states and Gen. Alvaro Obregon, who had been technically under arrest in Mexico city on the charge of aiding Gen. Roberto Cejudo, another rebel leader, took command. He was a candidate for the presidency to succeed Carranza and as such was looked upon with suspicion by the head of the government. Troops from Sonora invaded the state of Sinaloa and under the leadership of Gen. Angel Flores made rapid progress southward.

President Carranza was deserted by many of his officers and soldiers and the revolt spread so rapidly that in less than two weeks Mexico City was practically besieged. On April 22 the rebels in Sonora set up a new provisional government with Gov. de la Huerta as supreme commander and called upon Carranza to relinquish the presidency. On May 7 Carranza with a few of his soldiers fled from Mexico City on the approach of Gen. Obregon. He was pursued by Gen. Benjamin Hill, Gen. Trevino and other rebel commanders, and after a number of minor engagements they surrounded him in the mountains of Puebla. There he and his few followers were attacked by Gen. Rodolfo Herrero and early on the morning of May 20 he was shot and killed at Tlaxcalaltongo. The exact circumstances of his death were not made known, though, according to statements made by Gen. Obregon, the killing was contrary to his wishes and orders. The body of the dead chief was brought to Mexico City May 23. Gen. Herrero, who was accused of assassinating Carranza, claimed that the latter committed suicide rather than submit to arrest.

On May 24 Adolfo de la Huerta was elected provisional president of Mexico by the federal congress in the capital. A general election was held Sept. 5, when Gen. Alvaro Obregon was chosen to the presidency without much opposition.

BANDIT VILLA SURRENDERS.

Francisco Pancho Villa made his peace with the new government in July, when he surrendered "unconditionally." He was permitted to retain his freedom and to retire to private life. Villa was the main object of a search by a punitive expedition under Gen. John J. Pershing, U. S. A., in March, 1916.

There were some minor uprisings in Mexico after the Huerta-Obregon regime began, but they were quickly suppressed and the country was at last restored to a semblance of good order. The new administration expressed friendship for the United States and late in the year the prospects that normal relations would be resumed were good.

The following were sworn in as members of President Obregon's cabinet Dec. 1, 1920:

Secretary of Gobernacion and Chief of Cabinet—Gen. Plutarco E. Calles.
Secretary of Foreign Relations—Dr. Cuthberto Hidalgo.
Secretary of the Treasury—Adolfo de la Huerta.
Secretary of War—Gen. Benjamin Hill.
Secretary of Agriculture—Gen. Antonio Villareal.
Secretary of Industry, Commerce and Labor—Rafael Zubaran Capmany.
Minister of Communications and Public Works—Pascual Ortiz-Rubio.

COMMERCIAL CABLE RATES.

[Table supplied by the Western Union Telegraph company.]

Chicago to—	Per word.	Chicago to—	Per word.	Chicago to—	Per word.	Chicago to—	Per word.

DISORDERS IN IRELAND.

Ireland was the scene of many collisions in 1920 between the Sinn Fein republican organization and its adherents on the one side and the British government forces on the other. Many lives were taken and much property was destroyed. Up to Dec. 1, 1920, no agreement had been reached and none was in prospect. Following is a chronological account of the more important events of the year in Ireland.

Jan. 15—Three persons wounded in election riots in Dublin.
Jan. 21—Assistant Commissioner of Police Redmond shot and killed in Dublin.
Jan. 25—Police barracks at Baltinglass and Murroe raided; Archbishop Harty denounces crimes in Thurles.
Jan. 31—Many Sinn Fein leaders arrested in Dublin.
Feb. 1—Sixty-five Sinn Feiners arrested in Dublin.
Feb. 8—Seventy Sinn Fein prisoners shipped from Queenstown to England.
Feb. 20—Authorities apply curfew law to Dublin.
Feb. 25—Irish home rule bill introduced in house of commons.
March 10—Ulster unionist council decides to accept home rule bill.
March 11—Two soldiers, a constable and several civilians killed at Glenmire, County Cork.
March 18—James Ian MacPherson announces in house of commons that the following crimes had been committed in Ireland since Jan. 1: Murdered constables, 18; Dublin police, 6; soldiers, 4; other government servants, 3; total, 27; attempted murders, 89.
March 20—Lord Mayor Thomas MacCurtain of Cork killed in his home by unknown men.
March 26—Allan Bell, magistrate, dragged from street car in Dublin and shot to death.
March 30—Ald. Terence MacSwiney, a Sinn Fein leader, elected lord mayor of Cork.
April 1—Ian MacPherson, chief secretary for Ireland, resigns.
April 2—Sir Hamar Greenwood appointed chief secretary for Ireland.
April 4—Malcontents burn sixteen tax offices in various places; thirty police barracks attacked.
April 7—Announcement is made that 220 police barracks had been destroyed in recent raids.
April 9—Two constables killed near Newport, County Tipperary.
April 12—Announcement made that seventy of 100 Irish political prisoners were on hunger strike in Mountjoy prison, Dublin; general strike threatened.
April 14—Sixty-four hunger strikers released by order of Gen. Sir Nevil Macready, commander of troops in Ireland.
April 15—British cabinet to try conciliation in Ireland; all but five of the political prisoners are released.
April 17—Rioting in West Clare and Derry; several men killed.
April 20—Detective Inspector Dalton killed in Dublin.
April 26—Irish prisoners in Wormwood Scrubbs prison, London, begin hunger strike.
May 12—Fifty police barracks burned in raids in Ireland in widely scattered places.
May 15—Rioting takes place in Londonderry between loyalists and Sinn Feiners.
May 19—One man killed and two women hurt in Limerick riot.
May 29—Two civilians killed and six policemen wounded in riot at Kilmallock.
June 6—Police barracks burned from April 4 to June 6 number 404.
June 14—Sinn Feiners win in nearly all the county council elections in Ireland.
June 18—Premier Lloyd George says the British government will never agree to an independent Irish republic.
June 21-24—Rioting in Londonderry leads to the death of seventeen persons and the wounding of twenty-nine others.
June 26—Brig.-Gen. Lucas captured by Sinn Feiners.
July 9—Sinn Feiners resort to courts of their own.
July 13—Lieut. John Stokes killed in County Tipperary.
July 17—Col. Smyth, commissioner of the royal Irish constabulary, shot dead in Cork; slayers escape.
July 22-24—Rioting in Belfast causes six deaths, one of the victims being a woman.
July 30—Frank Brown, a railroad official and close friend of Field Marshal French, shot dead in his office; Brig.-Gen. Lucas escapes from his captors.
July 31—Police begin policy of reprisals: "shoot up" village of Upper Church.
Aug. 12—Irish county councils in Dublin declare their allegiance to the "Irish republic."
Aug. 12—Lord Mayor MacSwiney and ten of his assistants arrested while attending a session of the Sinn Fein court in the Cork city hall.
Aug. 15—Rioting renewed in the vicinity of Belfast, in Londonderry and in other places; five persons killed.
Aug. 16—Lord Mayor MacSwiney found guilty of having possession of the secret police cypher; mayor on hunger strike; sentenced to two years in prison.
Aug. 17—MacSwiney deported to England; police and military wreck town hall and several shops in Templemare, County Tipperary, for killing of District Inspector Wilson.
Aug. 18—Terence MacSwiney lodged in Brixton jail, London; continues hunger strike.
Aug. 22—Police Inspector Swansey, accused of killing Lord Mayor MacCurtain, shot dead in Lisburn.
Aug. 23—Town of Lisburn scene of rioting, burning and looting in revenge for shooting of Inspector Swansey; rioting renewed in Belfast.
Aug. 25—Arthur Griffith appeals to President Wilson and others on behalf of Lord Mayor MacSwiney.
Aug. 26—More rioting in Belfast.
Sept. 1—Eleven hunger strikers in Cork jail near death.
Sept. 5—The government definitely refuses to release MacSwiney.
Sept. 14—British close Queenstown to American ships.
Sept. 20-21—"Black and tans" (local police and English soldiers) attack Sinn Fein houses in Balbriggan.
Sept. 22—Four police killed in ambush near Milltown.
Sept. 23—In revenge for Milltown ambush "black and tans" raid Melbay, Lahinch, Ennistymonn and Milltown, killing three civilians and burning eighteen houses.
Sept. 24—General postoffice in Dublin raided and robbed.
Sept. 25-26—Several persons killed in Belfast rioting.
Sept. 28—Mallow, County Cork, raided by British soldiers for attack on barracks; city hall and other buildings burned; loss, $2,500,000.
Oct. 1—Arthur Griffith says British order assassinations.
Oct. 2—Tubbercurry, County Clare, attacked and burned for killing of District Inspector Brady of the royal Irish constabulary.

Oct. 5—Viscount French returns to his post as viceroy of Ireland after a long vacation.
Oct. 8—Civilians and troops clash in Cork street.
Oct. 12—Village of Feakle, County Clare, partly destroyed by troops.
Oct. 17—Rioting in Dublin results in three deaths. Michael Fitzgerald, one of hunger strikers in Cork jail, dies.
Oct. 23—Reign of terror in Athlone.
Oct. 25—Terence MacSwiney, lord mayor of Cork, dies in Brixton prison, London, on the seventy-third day of his hunger strike; Joseph Murphy, a hunger striker in Cork jail, dies.
Oct. 26-Nov. 20—Killings, reprisals, incendiarism and other lawless acts reported from many places in Ireland.
Nov. 11—Irish home rule bill passes the house of commons.
Nov. 21—Civilians numbering about 200 seek out and kill nine British officers who had served on courts-martial; troops kill twelve persons at Gaelic football game.
Nov. 25—Dublin closed for funeral of dead officers.
Nov. 26—Arthur Griffith and Prof. John MacNeill arrested.
Nov. 28—Seventeen incendiary fires started in Liverpool.

IRISH HOME RULE BILL.

Following is an outline of the Irish home rule bill introduced in the house of commons Feb. 25, 1920, and finally passed Nov. 11 by a vote of 183 to 5. It was sent to the house of lords, where it passed its first reading Nov. 15. It was still before that body when this record closed.

The bill provides for the establishment of two Irish parliaments and of a council of Ireland, "with a view to bringing about harmonious action between the parliaments and governments of southern Ireland and northern Ireland." Northern Ireland, for the purposes of the bill, consists of the six northeastern Ulster counties. The council of Ireland is to consist, in the first instance, of a president, appointed by the king, and of delegations of twenty members of each of the two Irish parliaments. It is provided that the constitution of the council of Ireland may afterward be varied by the two Irish parliaments, which may provide for its being elected by parliamentary electors.

The core of the bill is clause 3, which gives the two Irish parliaments power to establish in place of the council of Ireland a parliament for the whole of Ireland, consisting of one or two houses. The two parliaments are each to consist of a single chamber, called the house of commons. Besides certain well understood limitations of their legislative powers, both parliaments are expressly prohibited from making laws interfering with religious equality.

The executive power in the two Irish areas is to continue vested in the king, who may delegate his authority to the lord-lieutenant. It is provided that no person shall be a minister of either area unless he is a member of the Irish privy council. Further, no person is to hold office as a minister for a longer period than six months unless he is a member of the house of commons of the area in question. The ministers are to be called the executive committee of southern Ireland and northern Ireland, respectively. The seats of the governments of the two areas are to be at such places as the parliaments may respectively determine. The two parliaments may delegate to the council of Ireland any of their powers. With a view to the uniform administration throughout Ireland, the power of making laws with respect to railways is to be vested in the council of Ireland. The council may consider any questions which may appear in any way to bear on the welfare of both southern and northern Ireland, and may by resolution make such suggestions as they think proper.

There is to be a session of each parliament once at least in each year. The house of commons of southern Ireland is to consist of 128 members and that of northern Ireland of 52 members. The members are to be elected by the same electors as members returned to serve in the parliament of the united kingdom. A general election will be conducted according to the principle of proportional representation, each elector having one transferable vote. The house of commons in each area shall, unless sooner dissolved, continue for five years. After three years either parliament may alter its election law, provided that the number of members shall not be changed and due regard shall be had to the population of the constituencies. The law relating to the qualification of and the taking of any oath by the members of the house of commons of the united kingdom shall apply to the members of the two Irish parliaments. A peer shall not be disqualified for being a member of either parliament. The number of members to be returned by Irish constituencies to serve in the parliament of the united kingdom is to be forty-two.

The financial clauses provide that 56 per cent of the Irish contribution to imperial expenditure, so long as it remains at the rate of £18,000,000 a year, shall be apportioned to southern Ireland and 44 per cent to northern Ireland. Thereafter a joint exchequer board shall make such apportionment as corresponds to the relative taxable capacities of the two areas. There are provisions against the payment of double death and stamp duty in Great Britain and in either of the Irish areas.

No subject of the king is to be disqualified for holding the office of lord-lieutenant on account of his religious belief. The term of office of the lord-lieutenant will be six years, without prejudice to the power of the king at any time to revoke the appointment, but on the understanding that the continuance in office of the lord-lieutenant shall not be affected by any change of ministry. The legal clauses provide for a separate judiciary in each area, with a high court of appeal for the whole of Ireland. In certain specified cases an appeal is to lie from the Irish High Court of Appeal to the house of lords. Special provision is made for the decision of constitutional questions. If it appears to the lord-lieutenant or a secretary of state expedient in the public interest that steps shall be taken for the speedy determination of the question whether any act of either Irish parliament or any legislative proposal before the council of Ireland is beyond their powers, the king may direct the question to be referred to and determined by the judicial committee of the privy council.

Special provision is made to secure the existing rights of the University of Dublin, Trinity college, Dublin, and the Queen's university of Belfast. It is declared that existing enactments relative to unlawful oaths or assemblies in Ireland do not apply to the meetings or proceedings of the grand lodge of Irish Freemasons or of any lodge recognized by it. Neither parliament is to have power to abrogate any privilege of grand lodge.

The act is to come into operation on the first Tuesday in the eighth month after the month in which it became law. The two parliaments are to be summoned to meet not

later than four months afterward. The last clause but one declares that the supreme authority of the parliament of the united kingdom shall remain unaffected over all persons, matters and things in Ireland. The last clause of all repeals the home rule act of 1914.

MANIFESTATIONS IN THE UNITED STATES.

The Sinn Fein troubles in Ireland were reflected in various ways in the United States in the course of the year. Eamonn de Valera, president of the Irish "republic," spent much of his time in Washington trying to gain formal recognition from President Wilson and the state department for his government, but without much success. He traveled in various parts of the country and made numerous addresses, resulting in generous contributions to the cause he represented. In June a controversy arose between him and Supreme Court Justice Daniel Cohalan of New York over the methods used to influence the national party conventions in Chicago and San Francisco. The breach between them and their respective followers widened as time went on.

The picketing of the British embassy in Washington by a group of woman adherents of the Sinn Fein caused the Washington officials considerable embarrassment and on April 2 Bainbridge Colby, secretary of state, made the following statement:

"The government deeply regrets the demonstration before the British embassy to-day. As to the true nature and extent of the demonstration we are not at the moment fully informed. I can say that the government will, without delay, take effective measures to perform its duty of hospitable courtesy to the British embassy and to preserve its own dignity against conduct which tends in the least degree to a breach of that courtesy to the representatives of a friendly power."

On April 5 United States District Attorney Lasker informed Matthew O'Brien, counsel for the picketing women, that if his clients persisted they would be prosecuted under a federal statute which makes the offering of an insult to a diplomatic representative of a foreign government or to his official residence a felony punishable by a penitentiary sentence. The picketing soon ceased, but other demonstrations occurred later in the year in front of the white house.

An unofficial investigation was begun in Washington, D. C., Oct. 30, 1920, by a commission on Ireland appointed by a "committee of 100" to make suggestions on the way to settle the Irish question. The members of the commission were Miss Jane Addams of Chicago, Senator David I. Walsh of Massachusetts, ex-Gov. Joseph W. Folk of Missouri, James H. Maurer of Pennsylvania, Frederic C. Howe of New York, Raymond Robins of Chicago and Alexander Moore of Pittsburgh.

On Nov. 25, in New York city, a crowd of 5,000 Irish sympathizers made an attack on the Union club in 5th avenue for displaying the British flag with those of France and the United States. The British flag was flown in commemoration of the 300th anniversary of the landing of the Pilgrim fathers.

RATIFICATION OF THE TREATY OF VERSAILLES.

Ratifications of the peace treaty between the allies and the associated powers on the one hand and Germany on the other, signed at Versailles, France, June 28, 1919, were exchanged in Paris on the afternoon of Saturday, Jan. 10, 1920, fourteen months after the armistice of Nov. 11, 1918, put an end to the actual fighting in the world war. The United States, not having ratified the treaty, took no part in the ceremony of Jan. 10, when the protocol formally ending the war, so far as concerned Germany and fourteen allied and associated powers, was signed. Technically the United States remained at war.

The text of the protocol was as follows:

"Proces-verbal of the ratification of the treaty of peace signed at Versailles June 28, 1919.

"Between the United States of America, the British empire, France, Italy, Japan, Belgium, Bolivia, Brazil, Cuba, Ecuador, Greece, Guatemala, Haiti, Hedjaz, Honduras, Liberia, Nicaragua, Panama, Peru, Poland, Portugal, Roumania, the Serb-Croat-Slovene state, Siam, Czecho-Slovakia and Uruguay on the one hand and Germany on the other hand, as well as of the following acts:

"Protocol signed the same day by the same powers, arrangement of the same date between the United States, Belgium, the British empire, France and Germany concerning the occupation of the Rhine provinces.

"In the execution of the final clauses of the treaty of peace signed at Versailles June 28, 1919, the undersigned have met at the ministry of foreign affairs at Paris to proceed to deposit ratifications and to consign them to the French government.

"Instruments of ratification or notice of their dispatch by four principal allied and associated powers—that is to say, the British empire for the treaty of peace, protocol and arrangement; France for the treaty of peace, protocol and arrangement; Italy for the treaty of peace and protocol; Japan for the treaty and protocol, and by the following allied and associated powers: Belgium for the treaty of peace, protocol and arrangement; Bolivia for the treaty of peace and protocol; Brazil for the treaty of peace and protocol; Guatemala for the treaty of peace and protocol; Panama for the treaty of peace and protocol; Peru for the treaty of peace and protocol; Poland for the treaty of peace and protocol; Siam for the treaty of peace and protocol; Czecho-Slovakia for the treaty of peace and protocol; Uruguay for the treaty of peace and protocol have been produced, and after being examined have been found in good and true form and are confided to the French government to be deposited in its archives.

"Conforming to the provisions of the final clauses aforesaid, the French government will give notice to the contracting powers of the deposit of ratifications at another time by states which are signatories of the aforesaid treaty, protocol and arrangement, but which have not been ready to proceed to-day to this formality.

"Confirmation of which the undersigned approve the present proces-verbal and affix their seals.

"Done at Paris, Jan. 10, 1920, at 4:15 o'clock."

The ceremony of exchanging ratifications and signing the proces-verbal were marked by great simplicity. The representatives of the allied and associated powers and of Germany gathered in the "hall of the clock" of the French foreign office. The proces-verbal was spread upon a stand in the middle of the long room and as the names of the various premiers, foreign ministers and other authorized persons were called by the master of ceremonies they approached and attached their signatures to the document. Baron Kurt von Lersner, representing Germany, was the first to sign. He was followed by Premier Lloyd George of Britain, Premier Clemenceau of France, Premier Nitti of Italy and Baron Matsui of Japan. Then came the representatives of Belgium, Bolivia, Brazil, Guatemala, Panama, Peru, Poland, Siam, Czecho-Slovakia and Uruguay.

STATUE OF ABRAHAM LINCOLN PRESENTED TO BRITAIN.

On July 28, 1920, a replica of the Saint-Gaudens statue of Abraham Lincoln was unveiled in the Canning inclosure, Westminster, London, in the presence of a distinguished gathering. The statue was presented by the American to the British people as a symbol of the long friendship between the United States and Britain. Viscount Bryce, former British ambassador to the United States, presided. The presentation speech was made by Elihu Root, former American secretary of state, and the acceptance speech by Prime Minister Lloyd George, who abandoned pressing official business to perform this duty. In introducing Mr. Root Viscount Bryce said:

"There is no man in America better fitted to address a British audience on an occasion of this kind than Mr. Root. He grew up when the deeds and the character of Lincoln were fresh in the memory of all his countrymen. He has long been in the front rank of American statesmen, and, if I may venture to express what I believe to be the general feeling in America, America looks upon him as the greatest secretary of state it has had since Daniel Webster. It was my good fortune to have to negotiate with him in Washington not a few treaties between our two countries, and I have never known i either hemisphere any one with a wider range of vision or with a mind more fair and just in handling diplomatic questions. He always showed the sincerest wish for perfect concord and friendly co-operation between our two great countries. With such a man it was a pleasure to negotiate, and to listen to such a man is a privilege. May I now express some of the feelings which led us to-day to erect here, far from his own land, that monument of the great president which we owe to American generosity. Three hundred years ago in this coming winter a tiny band of Englishmen settled on the coast of Massachusetts bay, just as thirteen years before that another band had settled on the coast of Virginia. We are commemorating this year the settlement of that Pilgrim band on Massachusetts bay. Ever since then the ancient English people has been divided into two branches, but, despite distance and climate and political separation, these two branches have remained one in habits and ideas and beliefs, and the bed rock of character is still the same in both.

"Lincoln's parents were born British subjects, and in 1809, his birth year—the birth year also of Tennyson and Gladstone—the American people were still almost wholly of British race, and Lincoln grew up under the influence of the traditions which the whole race possessed in common. He educated himself on the bible and Shakespeare. He was one of those who expand and ennoble the old traditions, and hand them on, bright with fresh luster, to the generations that follow. Thus, thinking of Lincoln as belonging to both branches of the old stock, we wish to commemorate him here among the great ones of Britain. No spot in Britain is so fit. In and around Parliament square stand the sculptured figures of many of the most illustrious Englishmen—some under the open vault of heaven, some in the venerable abbey, rich with solemn and pathetic memories, and some in the halls of parliament itself—illustrious figures from the days of Hampden and Cromwell down to the days of Canning, Peel, Disraeli, and Gladstone. Placing here in such company the statue of Lincoln, we honor him for what he did and for the meaning which his life has had for our country, for our common English stock, and for the world. He brought his nation through the greatest perils it had ever encountered, and he left behind him a record of patient wisdom and a stainless life. To us he stands as a model of that uprightness and loyalty and truth, that steadfastness and courage which men of British stock have so often displayed in war and in peace.

"So we may think of him as being a type of whatever virtues the stock possesses. He is ours almost as much as he is America's and to both nations he is a pledge of brotherhood and friendship. We commemorate him also as a hero who belonged to the whole world, because he showed what fame may be won and what services be rendered by a plain son of the people unaided by any gifts of fortune. His life and his character rise like a beacon light of hope to us all in these dark days of strife and confusion. Here in the midst of our great Englishmen let this great American stand, majestic in his simplicity, a witness to what one indomitable will—bent on high aims, always hopeful because inspired by faith in freedom and in the people whence he sprang—could achieve for all mankind."

ADDRESS BY ELIHU ROOT.

"By authority of his majesty's government, a statue of an American has been set up in the Canning inclosure—where, on one side Westminster abbey and, on another, the houses of parliament look down upon it; where it is surrounded by memorials of British statesmen whose lives are inseparable parts in the history of the kingdom and of the empire; and where the living tides of London will ebb and flow about it. The statue is the work of Augustus Saint-Gaudens, son of a French father, native of Ireland, and greatest of American sculptors. The American commemorated is Abraham Lincoln, sixteenth president of the United States. On behalf of the American donors I now formally present the statue to the British people.

"Abraham Lincoln was born on the 12th of February, 111 years ago, in a log cabin among the mountains of the state of Kentucky. He came into a frontier life of comparative poverty, labor, hardship and rude adventure. He had little instruction and few books. He had no friends among the great and powerful of his time. An equal among equals in the crude simplicity of scattered communities on the borders of the wilderness, he rose above the common level by force of his own qualities. He was sent by his neighbors to the state legislature, where he learned the rudiments of government. He was sent to the congress at Washington, where he broadened his conceptions to national scope. He was admitted to the bar and won high place as a successful and distinguished advocate. He became convinced of the wickedness of African slavery, that baleful institution which the defective humanity of our fathers permitted to be established in the American colonies. He declared his conviction that slavery was eternally wrong with power and insistence that compelled public attention. He gave voice to the awakened conscience of the north. He led in the struggle for freedom against slavery. Upon that issue he was elected president. In that cause, as president, he conducted a great war of four years' duration in which millions of armed men were engaged. When in his wise judgment the time was ripe for it, then upon his own responsibility, in the exercise of his authority as commander in chief, invoking the support of his country, the considerate judgment of mankind, and the blessing of God upon his act, he set free the 3,000,000 slaves by his official proclamation and dedicated the soil

of America forever as the home of a united liberty-loving commonwealth.

"The act was accepted; it was effective; African slavery was ended; the war was won—for union and for freedom; and in the very hour of victory the great emancipator fell at the hand of a crazed fanatic.

"It was not chance or favorable circumstance that achieved Lincoln's success. The struggle was long and desperate and often appeared hopeless. He won through the possession of the noblest qualities of manhood. He was simple, honest, sincere and unselfish. He had high courage for action and fortitude in adversity. Never for an instant did the thought of personal advantage compete with the interests of the public cause. He never faltered in the positive and unequivocal declaration of the wrong of slavery, but his sympathy with all his fellow men was so genuine, his knowledge of human nature was so just, that he was able to lead his countrymen without dogmatism or imputation of assumed superiority. He carried the civil war to its successful conclusion with inflexible determination; but the many evidences of his kindness of heart toward the people of the south and of his compassion for distress and suffering were the despair of many of his subordinates; and the effect of his humanity and considerate spirit upon the conduct of the war became one of the chief reasons why, when the war was over, north and south were able during the same generation to join again in friendship as citizens of a restored union.

"It would be difficult to conceive of a sharper contrast in all the incidental and immaterial things of life than existed between Lincoln and the statesmen whose statues stand in Parliament square. He never set foot on British soil. His life was lived and his work was wholly done in a far distant land. He differed in manners and in habits of thought and speech. He never seemed to touch the life of Britain.

"Yet the contrast but emphasizes the significance of the statue standing where it does.

"Put aside superficial differences, accidental and unimportant, and Abraham Lincoln appears in the simple greatness of his life, his character and his service to mankind, a representative of the deep and underlying qualities of his race—the qualities that great emergencies reveal, unchangingly the same in every continent; the qualities to which Britain owed her life in the terrible years of the last decade; the qualities that have made both Britain and America great.

"He was of English blood; and he has brought enduring honor to the name. Every child of English sires should learn the story and think with pride, 'Of such stuff as this are we English made.'

"He was of English speech. The English bible and English Shakespeare, studied in the intervals of toil and by the flare of the log fire in the frontier cabin, were the bases of his education; and from them he gained, through greatness of heart and fine intelligence, the power of expression to give his Gettysburg address and his second inaugural a place among the masterpieces of English prose.

"He was imbued with the conceptions of justice and liberty that the people of Britain had been working out in struggle and sacrifice since before Magna Charta—the conceptions for which Chatham and Burke and Franklin and Washington stood together, a century and a half ago, when the battle for British liberty was fought and won for Britain as well as for America on the other side of the Atlantic. These conceptions of justice and liberty have been the formative power that has brought all America, from the Atlantic to the Pacific, to order its life according to the course of the common law, to assert its popular sovereignty through representative government—Britain's great gift to the political science of the world—and to establish the relation of individual citizenship to the state, on the basis of inalienable rights which governments are established to secure.

"It is the identity of these fundamental conceptions in both countries which makes it impossible that in any great world emergency Britain and America can be on opposing sides. These conceptions of justice and liberty are the breath of life for both. While they prevail both nations will endure; if they perish both nations will die. These were Lincoln's inheritance; and when he declared that African slavery was eternally wrong and gave his life to end it he was responding to impulses born in him from a long line of humble folk, as well in England as in America, who were themselves a product of the age-long struggles for the development of Anglo-Saxon freedom.

"The true heart of Britain understood him while he lived. We remember the Lancashire workmen brought into poverty and suffering through lack of cotton. When the emancipation proclamation had dispelled all doubt as to the real nature of the struggle in America 6,000 of them met in a great hall in Manchester and sent to President Lincoln a message of sympathy and support. This was his answer:

" 'Under the circumstances I cannot but regard your decisive utterances upon the question as an instance of sublime Christian heroism which has not been surpassed in any age or in any country. It is indeed an energetic and reinspiring assurance of the inherent power of truth and the ultimate and universal triumph of justice, humanity and freedom. I do not doubt that the sentiments you have expressed will be sustained by your great nation, and on the other hand I have no hesitation in assuring you that they will excite admiration, esteem and the most reciprocal feelings of friendship among the American people. I hail this interchange of sentiment, therefore, as an augury that, whatever else may happen, whatever misfortune may befall your country or my own, the peace and friendship which now exist between the two nations will be, as it shall be my desire to make them, perpetual.'

"We may disregard all the little prejudices and quarrels that result from casual friction and pinpricks and from outside misrepresentations and detraction and rest upon Lincoln's unerring judgment of his countrymen and his race. We may be assured from him that whenever trials come, whenever there is need for assurance of the inherent power of truth and the triumph of justice, humanity and freedom, then peace and friendship between Britain and America will prove to be, as Lincoln desired to make them, perpetual.

"This man, full of sorrow, spoke not merely for the occasions and incidents of his own day. He expressed the deepest and holiest feelings of his race for all time. Listen to the words of his second inaugural:

" 'Fondly do we hope, fervently do we pray, that this mighty scourge of war may soon pass away.

" 'Yet, if God wills that it continue until all the wealth piled by the bondsman's 250 years of unrequited toil shall be sunk, and until every drop of blood drawn by the lash shall be paid by another drawn with the sword, as was said 3,000 years ago, so still it must be said, "The judgments of the Lord are true and righteous altogether."

" 'With malice toward none, with charity for all, with a firmness in the right, as God gives us to see the right, let us strive on to

finish the work we are in; to bind up the nation's wounds; to care for him who shall have borne the battle, and for his widow and for his orphan; to do all which may achieve and cherish a just and lasting peace among ourselves, and with all nations.'

"Consider this letter which he wrote to Mrs. Bixby of Boston:

"'I have been shown on the file of the war department a statement of the adjutant-general of Massachusetts that you are the mother of five sons who have died gloriously on the field of battle. I feel how weak and fruitless must be any word of mine which should attempt to beguile you from the grief of a loss so overwhelming; but I cannot refrain from tendering to you the consolation that may be found in the thanks of the republic they died to save.

"'I pray that our Heavenly Father may assuage the anguish of your bereavement, and leave only the cherished memory of the loved and lost, and the solemn pride that must be yours to have laid so costly a sacrifice upon the altar of freedom.'

"More than half a century has passed, but is this the voice of a stranger to the men and women of Britain in these later years?

"Because under the direst tests of national character, in the stress of supreme effort and sacrifice, in the valley of the shadow of death, the souls of both Britain and America prove themselves of kin to the soul of Abraham Lincoln, friendship between us is safe; and the statue of Lincoln the American stands as of right before the old abbey where sleep the great of Britain's history."

RESPONSE BY DAVID LLOYD GEORGE.

"I have only a very few words to add to the extremely fine and eloquent address with which our distinguished visitor has fascinated and thrilled us. In a few moments we shall see unveiled before our eyes a presentment in bronze of the best known historical face in the Anglo-Saxon world—in fact, one of the few best known faces in the whole world. On behalf of the people of this country—and I think I may also say on behalf of the people of the British empire—I accept with gratitude this fine statue, by a brilliant American sculptor, of a great leader of men. I doubt whether any statesman who ever lived sank so deeply into the hearts of the people of many lands as Abraham Lincoln did. I am not sure that you in America realize the extent to which he is also our possession and our pride. He was in many respects the most remarkable man of his day. If you look at his portraits they always give you an indelible impression of his great height. So does his life. Height of purpose, height of ideal, height of character, height of intelligence. Amongst many notable men who filled the stage in that day, he was the tallest of them all. His figure stands out now, towering above his tallest contemporaries.

"In many respects he was taller than even the great events in which he took a directing part. The preservation of the American union, the emancipation of the slaves, are notable events in the world's history, and any man who took the leading part in those events, as he did, would have won for himself enduring fame; but, reading the story, I feel that the personality of Abraham Lincoln and his statesmanship are in some respects even greater than those colossal events. His courage, his fortitude, his patience, his humanity, his clemency, his trust in the people, his belief in democracy—and, may I add, some of the very phrases in which he gave expression to those attributes—will stand out forever as beacons to guide troubled nations and their perplexed leaders. Resolute in war, he was moderate in victory. Misrepresented, misunderstood, underestimated, he was patient to the last. I know why his face appeared to become sadder as the years of the war rolled past. There were those who thought he ought to have shown his abhorrence of war by waging it half-heartedly, and there were those who thought he ought to have displayed his appreciation of victory by using it hard-heartedly. He disdained both those counsels and he was often reviled by both those counselors. His tenderness was counted as weakness of character, his simplicity as proof of shallowness of mind; but the people believed in him all the time; they believed in him to the end, and they still believe in him now.

"In his life he was a great American. He is no longer so. He is one of those giant figures, of whom there are very few in history, who lose their nationality in death. They are no longer Greek or Hebrew, English or American; they belong to mankind. Those eminent men whose statues are in that square are great Englishmen. I wonder whether I will be forgiven for saying that George Washington was a great American, but Abraham Lincoln belongs to the common people in every land. He is of their race, of their kin, of their blood, of their nation—the race of the common people. That is the nationality of Abraham Lincoln to-day. Everywhere they love that haggard face with the sad but tender eyes gleaming through it. There is a worship in their regard; there is a faith and a hope in that worship. The people—the great people—who could produce men like Lincoln and Lee for their emergencies are sound to the core. The qualities that enabled the American nation to bring forth, to discern, to appreciate and to follow as leaders such men are needed now more than ever in the settlement of the world. May I respectfully but earnestly say one word from this platform to the great people of America? This torn and bleeding earth is calling to-day for the help of the America of Abraham Lincoln."

FAST TIME IN PULITZER AIR RACE.

The army won the Pulitzer trophy in the aerial race held at Mitchel field, New York, under the auspices of the Aero Club of America on Nov. 25. The winner was Lieut. C. C. Moseley, air service, U. S. A., who flew 132 miles in a Verville-Packard machine in 44:29.57, an average speed of 178 miles an hour. There were twenty-five army, eight navy, seven marine corps entrants and one civilian entrant in the race. The army won seven of the first ten places in the contest and the navy two of the first ten. Among the 30,000 spectators were Gen. John J. Pershing, U. S. A.; Secretary of the Navy Daniels; Maj.-Gen. Charles T. Menoher, U. S. A., chief of air service; Brig.-Gen. William Mitchell, U. S. A., assistant to chief of air service, and a number of other high ranking officers of the army and navy. The race, over a course of 160 miles, was spectacular. Capt. H. E. Hartney, air service, U. S. A., in a Thomas-Morse machine, captured the second Pulitzer prize in forty-seven minutes.

The winners of the eight places in the Pulitzer trophy event following Lieut. Moseley and Capt. Hartney were: Albert Acosta, civilian, in an Ansaldo S. V. A. machine, time 51:57; Lieut. St. Clair Street, U. S. A., Ovence, 52:27; Lieut. A. Lavrents, U. S. N., Vought, V. E., 55:39; Lieut. J. P. Roullot, U. S. A., DeHaviland, 56:00; Lieut. Carl Eliason, U. S. A., DeHaviland, 56:09; Lieut. J. B. Wright,

U. S. A., DeHaviland, 56:52; Lieut. C. M. Cummings, U. S. A., DeHaviland, 57:08; Lieut. D. N. Conly, U. S. N., DeHaviland, 57:40.

The winners in the Valentine prize contest, in the order named, were: Lieut. J. P. Roullot, U. S. A., time 56:06; Lieut. C. Eliason, U. S. A., 56:09; Lieut. J. B. Wright, 56:57; Lieut. D. L. Conly, U. S. A., 57:40; Capt. H. N. Heisen, U. S. A., 58:15; Lieut. C. V. Finch, U. S. N., 58:32; Lieut. L. Claude, U. S. A., 59:56; Lieut. W. R. Lawson, U. S. A., 60:48; Capt. H. B. Mims, U. S. M. C., 60:49. In the Vought event the winners were: Lieut. A. Laverentz, U. S. N., 55:39; Lieut. W. B. Gwyn, U. S. M. C., 59:59; Lieut. L. H. Sanderson, U. S. N., 60:09; Lieut. W. V. Brown, U. S. M. C., 61:35; Gun Sergt. J. K. Dunn, U. S. M. C., 61:50.

In the S. E.-5 class Capt. M. Kirby, U. S. A., won in 59:42. In the committee invitation event Capt. H. E. Hartney, U. S. A., flew in 47:00 and Capt. St. Clair Street, U. S. A., in 52:27. Lieut. O. G. Kelly, U. S. A., in an Ovence machine, and Lieut. J. S. Wolfer, U. S. N., in a Loening machine, collided before the last event and were obliged to withdraw. Lieut. Kelly was slightly injured.

DEVELOPMENTS IN GERMANY IN 1920.

Germany made slow progress toward reconstruction in 1920. She faced numerous difficulties, internal as well as external, and while she met them after a fashion, she did did not make an enviable record. There were strikes, bloody riots, attempts at the restoration of the monarchy and all kinds of financial, industrial and political troubles. There was a lack of raw materials for the factories and the unfavorable exchange rates made the transaction of business, especially with foreign countries, extremely unsatisfactory. Much time was spent in endeavoring to secure modifications of the treaty of Versailles, but efforts in this direction were for the most part fruitless. On the whole the year 1920 was a dark one for Germany.

RADICALS RIOT IN BERLIN.

On Tuesday afternoon, Jan. 13, 1920, while the national assembly was at work in the reichstag building on a measure relating to the workingmen's councils at industrial plants the independent socialists, with their communistic and other radical followers, made an attempt to force their way into the hall where the members of the assembly were in session. They overpowered the small force of police and military at the entrance, but were scattered by fire from machine guns which had been brought into the building for just such an emergency. Forty-two persons were killed and 105 wounded in this encounter.

In the belief that this was merely a prelude to an attempt at a general revolution on the anniversary of the killing of Karl Liebknecht and Rose Luxembourg on Jan. 1, 1919, Gustave Noske, then the minister of defense, placed the city of Berlin and the country under martial law. The guards were armed with rifles and hand grenades, the police reserves were increased in number and other precautions were taken. In the assembly on the following day Premier Bauer and the Prussian minister of the interior declared that at the time of the rioting Louis Zietz and Friedrich Zuebell, independent socialists, had beckoned to the mob to come on. It was also said that some of the independents in the assembly had called the government representatives murderers.

On Jan. 18 the national assembly passed the shops council measure, which was the direct cause of the rioting, by a vote of 213 to 64. It placed workingmen's councils under government control.

KAPP-LUETTWITZ REVOLT.

On Friday, March 12, it was announced in Berlin that Maj.-Gen. Arthur von Luettwitz, commander of the 1st reichswehr brigade, had been summarily removed from his post by Gustave Noske, the minister of defense, on the charge of being implicated in a revolutionary plot which had been discovered two days before. Bulletins were issued saying that certain conspirators, including Dr. Wolfgang von Kapp, a noted pan-Germanist, had planned to move on Berlin and with the aid of the Doeberitz garrison of Baltic troops overthrow the socialist government headed by Friedrich Ebert and replace it with a new militaristic, monarchistic regime. The plotters, finding themselves discovered, moved swiftly and late on Friday night they sent their soldiers into the heart of Berlin. In the morning they were in full possession of the government buildings guarded by strong military forces. Minister Noske explained later that he had not been able to prevent the consummation of the plot because of the defection of some of his generals.

The first thing the revolutionists did was to issue a proclamation declaring that the old government of the empire had ceased to exist and that the power of the state had passed into the hands of Dr. Kapp, who had assumed the duties of chancellor and had appointed Maj.-Gen. von Luettwitz commander in chief of the military forces. The manifesto further declared that the national assembly had been dissolved and that a new government was being formed.

"The overthrow of the government," continued the proclamation, "must not be taken as reactionary. On the contrary, it is a progressive measure of patriotic Germans of all parties, with a view to re-establishing law, order, discipline and honest government in Germany. It is an overdue attempt to lay the foundations for the economic resuscitation of Germany, enabling her to fulfill those conditions of the peace treaty which are reasonable and not self-destructive.

"Inspired by zeal and a desire for the benefit of all the German people, the new government invites heartily the accceptance and cooperation of the independents for the creation and elaboration of laws for the betterment of the working classes."

The manifesto charged the socialist government with overburdening the people with taxation, failing to create conditions for an increase of production in all lines, suppressing papers which criticized it and otherwise interfering with personal liberty and refusing to dissolve the national assembly and issue writs for new elections.

"Last but not least," said the manifesto, "a government whose chief spokesman is Erzberger must be swept away."

Finding themselves unable to resist the armed forces back of the Kapp-Luettwitz regime, the members of the Ebert government, led by the president himself, hurriedly fled, first to Dresden and then to Stuttgart. Before going, however, they issued the following manifesto:

"Workingmen, Comrades: The military revolt has come. Erhardt's naval division is marching on Berlin to enforce the reorganization of the imperial government. The mercenary troops who were afraid of the disbandment which had been ordered desire to put the reactionaries into the ministerial posts. We refuse to bow to this military constraint. We did not make the revolution in order to recognize again to-day the bloody government of mercenaries. We enter into no covenant with the Baltic criminals. Workers, comrades, we should be ashamed to look you in the face if we were capable of acting otherwise.

"We say 'No!' And again 'No!' You must indorse what we have done. We carried out your views. Now use every means to destroy this return of bloody reaction.

"Strike. Cease to work. Throttle this military dictatorship. Fight with all your means for the preservation of the republic. Put aside all division. There is only one means against the return of Wilhelm II. Paralyze all economic life. Not a hand must move. No proletariat shall help the military dictatorship.

"Let there be a general strike along the entire line. Let the proletariat act as a unit."

The manifesto was signed by President Ebert, Chancellor Bauer, Gustave Noske, the minister of defense; Herr Schlike, the minister of labor; Dr. Schmidt, the minister of food; Dr. Eduard David, minister without portfolio, and Dr. Hermann Mueller, minister of foreign affairs, the social democratic members of the government, and by Otto Wels for the executive committee of the German social democratic party.

Gen. von Luettwitz also issued a statement announcing that he was personally taking over the executive power for Berlin and the mark of Brandenburg. Martial law as decreed on Jan. 13 would, he said, be maintained in force and be extended.

Little attention was paid to the manifestoes of the new men in the government offices, but the workers generally obeyed the request of the officials to stop work. In Berlin everything depending upon labor came to a standstill, and even the help in the fashionable hotels refused to perform their duties. Transportation was paralyzed and food ran short, with the result that the people suffered not merely inconvenience and annoyance but real hardship. Newspapers were suppressed and beyond the statements in the proclamations the citizens were in the dark as to what was going on. Most of them were satisfied, however, that the new government, in spite of its statements to the contrary, was wholly reactionary and monarchistic. It was recalled that Dr. Kapp was one of the founders of the fatherland party and a leader in the pan-German movement, while Maj.-Gen. von Luettwitz was well known as a firm believer in Prussian militarism and autocracy. He had also been an outspoken critic of the Ebert government and had been rebuked by Minister of Defense Noske. A report issued by the socialist government on March 10 that he, together with Dr. Kapp and Capt. Pabst, had been found to be engaged in a plan to restore the old imperial crowd to power had also prepared the people of Germany to a certain extent for the revolt, though few had believed that it would actually be attempted.

To the outside world the sudden overthrow of the Ebert government came as a complete surprise, no attention having been paid to the Berlin reports of March 10 and 12 concerning the monarchist plot. The allies, beyond taking some precautions in the zone of occupation in western Germany, refrained from taking any action. Their representatives in Berlin were instructed not to recognize the new government in any way pending developments. The position generally taken was that the change of government was a German internal matter calling for no intervention unless the peace treaty terms were violated.

Failure of the Plot.

It became apparent almost immediately that the reactionary plot was bound to fail. Only in a few places did it show any appreciable strength. August Winning, governor of East Prussia, and Gen. von Estorff, chief in command of the first reichswehr, issued a manifesto declaring: "We of East Prussia, who are surrounded by enemy neighbors, must welcome any development promising our province a chance of peace and work." Sympathy for the movement was also shown in other parts of Prussia and northern Germany generally. Southern Germany, however, was distinctly hostile. Bavaria, Wuerttemberg, Baden and Saxony joined in refusing absolutely to recognize the new government. The Rhineland provinces were also against the Kapp regime.

No party strength was developed by the new government. Nationalists, conservatives and independent socialists were against it, though they were not especially attached to the majority socialist authorities. Only the Prussian junkers, extreme pan-Germanists and adherents of the old monarchy gave the revolt support, and most of this was theoretical rather than practical. Field Marshal von Hindenburg kept himself in the background. Gen. Ludendorff had a long conference with Dr. Kapp on the day after the coup, but what passed between them was not disclosed. The Ebert government assumed that he was back of the revolutionary movement, but his friends denied it.

No effort was made to pursue the members of the Ebert government and they were permitted to remain in Stuttgart unmolested. The president called the members of the national assembly into session on March 18. Many were present and assured the head of the government that they would not obey any decree issued by the reactionary element to surrender the positions to which they had been lawfully elected by the people of Germany. Some of them criticized Defense Minister Noske severely for his failure to prevent the insurrection and demanded his resignation. Noske at once resigned, but President Ebert refused to accept the resignation and it was withdrawn.

Reports were current in Berlin as early as Monday, March 15, that the Kapp regime felt itself extremely insecure and had opened negotiations with the former government for a compromise based on the formation of a new cabinet and the election of a new reichstag and new president within two months. It was further suggested that the new or coalition government should declare a general strike a crime against the German people. In Stuttgart it was denied that any such negotiations were in progress and that no compromise would be entered into on any terms.

On Tuesday, March 16, Gen. von Luettwitz decreed capital punishment for those fomenting strikes or exercising passive resistance to the continuation of any vital service. It had no effect on the strike except to make the paralysis of traffic, industry and commerce more complete than ever.

Wednesday, March 17, saw the end of the Kapp-Luettwitz regime. Dr. Kapp caused the following official announcement to be made:

"General Provisional Director Kapp has retired with the object of bringing about internal peace. Gen. von Luettwitz has retired for similar reasons. The vice-chancellor in the name of the imperial president has accepted the resignations and has intrusted Maj.-Gen. von Seecht with the provisional conduct of affairs as commander in chief."

Before Dr. Kapp and Gen. von Luettwitz withdrew they made the claim that their mission had been fulfilled, as they had secured important concessions from the Ebert government. The claim was disputed by their opponents, who said that the reactionaries had been disappointed because of the lack of support given them and that they were frightened by the menacing attude of labor and the threat of Spartacan uprisings.

Lasted Only Five Days.

While the Kapp-Luettwitz "government" thus had lasted less than five days it had designedly or otherwise thrown the country into confusion and disorder, resulting in the loss of thousands of lives and the destruction of much property. The work of the constitutional government in the direction of stability was to a considerable extent undone and it was admitted on all sides that the situation was blacker than it had been in many months.

While only a few encounters resulting in bloodshed occurred in the first two or three days of the revolt, the number of armed clashes between loyal and disloyal troops and between troops and workers gradually increased as the bitterness caused by the general strike and the appeals of the Spartacans or radicals grew. At Kiel many lives were lost through the bombardment of the city by the cruiser Eckernfoerde. Reports of killings came from

Dresden, Hamburg, Leipzig, Stieglitz, Breslau, Magdeburg and Dortmund. On March 16 it was reported that 800 lives had been sacrificed and by the end of the week the number had grown to 8,000. One of the worst encounters took place in Leipzig, where Ebert troops and workmen fought a pitched battle for the possession of the public buildings. It was reported that 3,000 lives were lost in this city alone before order was restored. Many American buyers and others were in Leipzig at the time attending an exhibition, and in response to an appeal for aid a special train was sent by the American military authorities in Coblenz to rescue them. However, before the train arrived in Leipzig most of the Americans had already left, as railway service had been restored, and the special train returned almost empty.

In Berlin a number of persons were killed by the Baltic troops as they were leaving the city by command of Gen. von Seecht, representing the Ebert government. The soldiers were taunted by mobs in Unter den Linden and in Wilhelmstrasse until they lost patience and fired upon their tormentors.

Ebert Back in the Saddle.

President Ebert and the members of his ministry returned to Berlin from Stuttgart at 11 o'clock Sunday morning, March 21, after a week's absence from the capital and at once took possession of the government buildings, where Vice-Chancellor Schiffer had been holding forth since the collapse of the Kapp regime. The order for an intensified state of siege issued the day before was withdrawn and the city began at once to assume a quieter appearance. The men and women out on strike gradually returned to their tasks, and the only thing that worried the citizens much were the reports of radical uprisings in various parts of Germany, but more particularly in the industrial districts. In the Ruhr basin the workers' armies took possession of Essen, Duisburg and a number of other cities. The ministry of defense in Berlin issued the following communique on Sunday:

"Three districts are threatened by the radicals. The situation is very serious in Westphalia and the Ruhr district. Dusseldorf, Dortmund, Elberfeld and Barmen are in the hands of the radicals. Troops are en route. Thuringia, Mecklenburg and the Pomerania section are quieter. Kiel is in the hands of the radicals, the military police having joined the workmen."

Train service was partially resumed on the main lines of railroad and many foreigners took advantage of the opportunity to leave Germany. Ellis L. Dresel, the American representative in Berlin, expressed to the German government his satisfaction at the termination of the military coup and the re-establishment of constitutional conditions.

While the government announced its purpose to deal leniently with workmen who had been misled by the revolutionists, it seemed determined to punish the ringleaders in the revolt without mercy. On March 23 it was officially made known that Maj.-Gen. von Luettwitz and Admiral von Trotha had been arrested and it was reported that Dr. Kapp had been taken by reichswehr troops and placed in jail. This proved to be untrue. Proceedings for high treason were begun against Von Jagow, Maj. Pabst, Col. Bauer, Baron von Falkenhauser and others, but so far as known all escaped punishment.

On the theory that the former emperor of Germany and the crown prince had been implicated in some way in the attempted overthrow of the constitutional government of Germany, the Dutch authorities took measures to guard more closely the two royal refugees so as to prevent their escape from Holland.

POLITICAL CHANGES.

Following the attempted coup d'etat came a political upheaval. The Bauer cabinet was forced to resign and, at the invitation of President Ebert, Hermann Mueller, socialist, became the third chancellor of the republic. Herr Landsberg was the minister of foreign affairs in this cabinet. The first problem the new ministry had to face was a communist uprising in the Ruhr district, where a red army had been organized. In the latter part of March and the early part of April there were a number of skirmishes between the communist troops and the government soldiers. While the fighting was not of a serious character, the French authorities on their own initiative decided to make a precautionary move and French troops under Gen. Degoutte entered Frankfort and Darmstadt early on the morning of April 5 and took possession. The reason given for the move was the action of the Berlin government in sending so many troops into the Ruhr region to suppress the red revolt. In a note issued on the evening of the same day the French government said:

"The situation created by the abrupt offensive of the German troops in the Ruhr obliges the French government to-day to consider military measures the execution of which cannot be deferred. The sole object of these measures is to bring Germany to a due respect of the treaty; they are exclusively of a coercive and precautionary character."

On the afternoon of April 7 colored French troops fired on a crowd in the Schillerplatz, Frankfort, which appeared to be threatening the French headquarters in the imperial hotel. Three men, three women and a boy were killed. Order was quickly restored and soon thereafter the colored troops were withdrawn. All of the French forces evacuated the Frankfort region on May 17. Prior to that the surplus German troops in the Ruhr region had been withdrawn, and thus the incident closed.

GERMAN ELECTIONS.

The German general elections for members of the reichstag took place June 6. The preceding campaign is thus summarized in the Political Science Quarterly for September, 1920:

"The German national people's party (formerly the conservative) called for the restoration of German national unity, including the return of ceded territories and colonies, an intensification of German national spirit among Germans living abroad, a strong foreign policy and a return to monarchical government. The proclamation of the German people's party (formerly the national liberal) warned against disorders leading to bolshevism, called for the retention of nonpartisan officials in government and the employment of experts by the government, suggested a labor chamber as an adjunct to the national assembly, and called for revision of the treaty of Versailles. It placed strong emphasis on personal initiative as against socialist schemes of life, and proclaimed the willingness of the party to cooperate with all forces working for the reconstruction of Germany on the basis of the old ideals. The centrum, a Christian people's party (formerly the center), denounced the Kapp rebellion and communist unrest. Styling itself the party of 'constitutional fidelity,' it demanded an unswerving maintenance of the constitution by a government supported by an armed force sufficient to punish all revolts against it whether by the right or the left; it opposed class rule whether by the nobility, the military, the bourgeoisie or the

laboring classes and insisted on equal rights for all. The platform of the democratic party (formerly the progressive people's party) called for co-operation of all classes in the restoration of German industry, freedom of religion and insistence upon the nonsectarian character of the public schools, freedom of initiative and individual reward, loyal military forces, a real league of nations to include Germany and a revision of the treaties of Versailles and St. Germain. It demanded economy in national finances and disapproved national centralization. The social democratic party (moderate socialist) warned against the restoration of the monarchy with its attendant militarism and capitalism, and called for the socialization of industry by the will of the people, the greatest possible taxation of capital in order that the terms of the peace treaty might be fulfilled, and centralization. The program of the independent socialists demanded a dictatorship of the proletariat, the disarming of all counter-revolutionary forces and the creation of a national army of laboring men, the liberation of all political prisoners confined for ultraradical activities and the punishment of all counter-revolutionaries, the immediate socialization of all industries and the taking over of large estates by the government The platform of the independent socialists was the only one which frankly demanded fulfillment of the terms of the peace treaty. The communists (extremists), while not believing in progress through parliamentary methods, drew up a long platform demanding complete abolition of capitalism and extinction of the bourgeoisie as the ruling class.

"At the elections, which were conducted on the basis of proportional representation and in accordance with the new franchise bill providing for one member for every 60 000 votes polled, more than 25,000,000 votes were cast, and 460 reichstag members were chosen, apportioned as follows: Majority socialists, 110 (popular vote 5,531,137); independent socialists, 80 (popular vote 4,809,862); centrists, 67 (popular vote 3,500,800); German nationalists, 65 (popular vote 3,638,851); German people's party, 61 (popular vote 3,456,131); democrats, 45 (popular vote 2,152,509); Christian federalists (Catholic conservative party of the Rhineland), 21 (popular vote 1,254,963); Guelphists, 5 (popular vote 318,104); communists, 2 (popular vote 438,199); Bavarian peasants' party, 4.

"On June 8 the government tendered its resignation, but President Ebert requested it to remain in office provisionally. A few days later Konstantine Fehrenbach, former president of the reichstag, was called to the chancellorship. After having selected a cabinet which did not meet with the approval of the majority socialists, he finally succeeded on Jan. 25 in forming a ministry chosen from representatives of the Catholic, democratic and people's parties."

CONFERENCE AT SPA.

An important event in the history of Germany in 1920 was the conference at Spa, Belgium, with representatives of the allies to fix terms of disarmament and coal deliveries. Dr. Walter Simons, the foreign minister, and other members of the cabinet in Berlin appeared for Germany. The meeting was held during the first two weeks in July and resulted in several important agreements. Germany promised to deliver 2,000,000 tons of coal to the allies each month and to reduce the army to 150,000 men by Oct. 1, and to 100,000 by Jan. 1, 1921.

An agreement was signed by the allies—Britain, France, Italy, Japan, Belgium and Portugal—at the Spa conference upon the reparations to be made by Germany. A brief summary of this important document follows:

Article 1 provides that in pursuance of the treaty of Versailles the sums received from Germany for reparations shall be divided in the following proportions:

France	52 per cent
British empire	22 per cent
Italy	10 per cent
Belgium	8 per cent
Japan and Portugal	¾ of 1 per cent each

The remaining 6½ per cent is reserved for the Serbo-Croat-Slovene state and for Greece, Roumania and other powers not signatories of the agreement.

Article 2 provides that the aggregate amout received for reparation from Austria-Hungary and Bulgaria, together with amounts that may be received in respect of the liberation of territories belonging to the former Austro-Hungarian monarchy, shall be divided:

(a) As to half in the proportions mentioned in article 1.

(b) As to the other half, Italy shall receive 40 per cent, while 60 per cent is reserved for Greece, Roumania and the Serbo-Croat-Slovene state and other powers entitled to reparations but not signatories of the agreement.

Article 3 provides that the allied governments shall adopt measures to facilitate if necessary the issue by Germany of loans destined for the internal requirements of that country and to the prompt discharge of the German debt to the allies.

Article 4 deals in detail with the keeping of accounts by the reparations commission.

Article 5 secures to Belgium her priority of £100,000,000 gold and enumerates the securities affected by such priority.

Article 6 deals with the valuation of ships surrendered under the various peace treaties, and provides for the allocation of sums received for the hire of such ships. It deals also with questions outstanding as to the decisions taken by the Belgian prize courts. Belgium receives compensation out of the shares of the other allied powers.

Article 7 refers to the allied cruisers, floating docks and material handed over under the protocol of Jan. 10, 1920, as compensation for the German warships which were sunk.

Article 8 declares that the same protocol shall apply to the proceeds of the sale of ships and war material surrendered under the naval clauses of the treaty, virtually including the proceeds of naval war material sold by the reparations commission.

Article 9 gives Italy an absolutely prior claim to certain specified sums as a setoff to amounts due to her by Austria-Hungary and Bulgaria.

Article 10 reserves the rights of Poland and declares that this agreement shall not apply to her.

Article 11 maintains the rights of countries who lent money to Belgium before Nov. 11, 1918, and makes provision for repayment immediately after satisfaction of the Belgian claim to priority in respect of £100,000,000.

Article 12 maintains the rights of the allied powers to the repayment of credits granted to ex-enemy powers for the purposes of relief.

Article 13 reserves the question of fixing the cost of the armies of occupation in Germany on a uniform basis for discussion with the United States of America.

CLASHES WITH ALLIES.

In the course of the year there were several clashes between Germans and members of the various allied missions in the empire, but while serious enough to those immediately concerned, they were not of historical importance.

AMERICAN TROOPS REMAIN.

The allies and the United States, in accordance with the terms of the armistice and the treaty of Versailles, continued to occupy certain German areas chiefly on the west bank of the Rhine. The Americans had some 15,000 soldiers in their district with Coblenz as the headquarters.

POSTMASTERS OF LARGE CITIES (1920).

Akron, O.—(Vacancy).
Albany, N. Y.—William H. Murray.

DEATH OF EUGENE W. CHAFIN.

Eugene W. Chafin, prohibition candidate for president of the United States in 1908 and 1912, died at his home at Long Beach, Cal., Nov. 30, 1920, from burns received Nov. 20, when his clothing caught fire from a gas heater. Burial was at East Troy, Wis., where Mr. Chafin was born Nov. 1, 1852. While living in Wisconsin Mr. Chafin was a prohibition candidate for congress in 1882, for attorney-general in 1886, for governor in 1898 and again for attorney-general in 1900. After his removal to Chicago he was a candidate for congress in 1902 for Illinois, for attorney-general in 1904 and for president in 1908. Mr. Chafin was a lecturer and writer on temperance subjects and the author of a set of "Lives of the Presidents."

PERSONAL INCOME TAX RETURNS FOR 1918.

The following statistics are from a preliminary report on personal income tax returns for 1918 issued by the United States internal revenue department in November, 1920. Similar figures for 1917 will be found on page 101 of this volume and others of a less detailed nature are included in the report of the internal revenue commissioner for the fiscal year 1920. These are given on pages 416-417. The appended figures are for the calendar year 1918.

Revenues from invalid money orders	732,469.97
Total money order business	10,313,740.88
Revenues from postal savings business	2,430,000.00
Total revenues from all sources	437,150,212.33

*Includes $71,392,000 accrued from increased postal rates, first class, as war revenue.

ROYALISTS WIN IN GREECE.

In the general election held in Greece, Nov. 14, 1920, the opponents of Eleutherios Venizelos, the prime minister and virtual ruler of the country, won a decisive victory. As the return of King Constantine had been made the principal issue in the campaign and as Venizelos had caused the exile of the former ruler for his pro-German sentiments and actions in the war, the government of which he was the head resigned. It was succeeded by a royalist ministry headed by M. Rhallis, which was strongly in favor of putting King Constantine back on the throne. This result of the elections did not please the allies, who recalled the king's disloyal attitude during the war. At a conference held in London Dec. 2 it was decided to send the following note to Greece in the name of Britain, France and Italy:

"The British, French and Italian governments have constantly in the past given proof of their good will toward the Greek people and have favored their attainment of their secular aspirations. They therefore have been all the more painfully surprised by the events which have just occurred in Greece.

"They have no wish to interfere in the internal affairs of Greece, but feel bound to declare publicly that restoration to the throne of Constantine, whose disloyal attitude and conduct toward the allies during the war caused them great embarrassment and loss, could only be regarded by them as ratification by Greece of his hostile acts.

"This step would create a new and unfavorable situation in the relations between Greece and the allies, and in that case the three governments reserve to themselves complete liberty in dealing with the situation thus created."

This decision was a triumph for the French point of view. In former informal discussions the British and Italians took the view that if a plebiscite favored Constantine he might be given a chance to prove his good faith, while the French refused to consent to his return in any circumstances.

In spite of the warning contained in the allied note, the people of Greece at a plebiscite held on Sunday, Dec. 5, decided by an almost unanimous vote to recall their former king from his exile in Switzerland. M. Venizelos left Greece a few days after his defeat in the elections.

CALIFORNIA-JAPANESE QUESTION.

At the election on Nov. 2, 1920, California voted decisively in favor of an amendment to the antialien land law of 1913, withdrawing entirely the three-year agricultural land leasing privilege from aliens who are ineligible to citizenship in the United States. The act was aimed at the Japanese, who protested strongly against it as racial discrimination and as an act of injustice. There was even talk in irresponsible quarters of war between the United States and Japan on account of it.

In connection with the land law and Japanese immigration questions, which have been subjects of much discussion since 1907, when under the "gentlemen's agreement" the Japanese government promised to prohibit the emigration of laborers to the United States, the federal census bureau's enumeration of Japanese in California at the beginning of 1920 is of interest. The state with a total population of 3,426,861, showed 70,196 Japanese, an increase of 28,840, or 69.7 per cent, since 1910, compared with a Japanese total in 1910 of 41,356, which was an increase over 1900 of 31,205, or 307.4 per cent. The Japanese population in 1910 constituted 1.7 per cent of the total population, compared with 2 per cent in 1920.

JAPANESE IN HAWAII.

The United States census bureau announced Nov. 16, 1920, that the Japanese residents of Hawaii numbered 109,269, or 42.7 per cent of the whole population of 255,512. The increase from 1910 to 1920 was 29,594, or 37.1 per cent, as against a gain of 30.4 per cent from 1900 to 1910.

NEW DUTCH-BELGIAN TREATY.

The text of the new treaty between Holland and Belgium negotiated by representatives of the two nations in Paris, France, was made public in The Hague, Holland, Jan. 31, 1920. Its main provisions are:

Holland and Belgium to have joint control of navigation on the Scheldt river. The question of the movement of Belgian warships from Antwerp and other problems likely to result in the event of war are left to the future decision of the league of nations.

Both countries agree to the principle that the mouth of the Scheldt be free and open water; that two new large canals be constructed to give Belgium an equal outlet to the sea (one from Antwerp to Holland connecting with the North sea, and the other from the Rhine across the Meuse to the Scheldt to Antwerp, connecting Antwerp with the German Rhine, the latter to be constructed within seven years); that an additional number of existing canals be deepened to accommodate larger ships, and in general that each country pay the expenses of construction and maintenance within its own borders, and that customs, quarantine and pilotage regulations be made as uniform as possible.

With reference to the German Rhine canal, Holland agrees that no new conditions be imposed other than those already in effect on traffic to Germany. Generally speaking, joint commissions will control the conditions, construction and maintenance of the canals.

VALUE OF CARNEGIE ESTATE.

The appraisal of the estate of Andrew Carnegie was completed in Pittsburgh, Pa., Oct. 23, 1920, showing a gross value of $26,293,024, and a net estate of $23,247,161. The total value of Mrs. Carnegie's share was estimated at $11,338,847. Mr. Carnegie in the course of his life gave away by far the largest part of the huge fortune he once possessed.

POPULATION OF THE WORLD.

SPITZBERGEN PLACED UNDER NORWEGIAN RULE.

The Spitzbergen archipelago, which was claimed by Norway, Sweden, Finland, Russia, Denmark and Holland, was awarded by the peace conference to the first named country Sept. 25, 1919, after a special commission had examined the question and ruled in favor of Norway. The supreme council formally approved the text of the agreement on Nov. 21, 1919, and on Feb. 9, 1920, the treaty fixing the sovereignty over the group of islands was signed in the Clock hall of the French foreign office in Paris. Hugh C. Wallace, American ambassador to France, signed the treaty on behalf of the United States.

UNITED STATES POPULATION FIGURES ANALYZED.

[From report made by Director Samuel L. Rogers of the federal census bureau Oct. 7, 1920.]

The population of the United States, as announced to-day, is 105,683,108, as compared with a total in 1910 of 91,972,266 and in 1900 of 75,994,575. This is an increase since 1910 of 13,710,842, or 14.9 per cent, as compared with an increase from 1900 to 1910 of 15,977,691, or 21 per cent. The large falling off in the rate of growth for the country as a whole, as shown by these figures, is due mainly to an almost complete cessation of immigration for more than five years preceding the taking of the census in January last, and in some degree also to an epidemic of influenza, and to the casualties of war.

The results of the census of population in 1920 at first glance may seem somewhat disappointing and open to question possibly, but the substantial accuracy of the enumeration in January is fully borne out by comparison with estimates based upon the probable excess of births over deaths throughout the decade and the excess of immigration over emigration. From all available data, it may be roughly estimated that the annual excess of births over deaths throughout the United States is approximately 1 per cent. This rate compounded would indicate an increase of approximately 10.5 per cent during the decade. Thus nearly 92,000,000 persons present in the United States in 1910 might be expected to increase to about 101,700,000 in 1920. In addition, the excess of immigration over emigration during the decade was approximately 3,733,000. Since the bulk of these foreign-born persons came to the country during the first four years of the decade, it may be roughly estimated that the increase due to excess of births over deaths in their families was about 10 per cent. Thus the population of the country may be assumed to have been augmented by about 4,100,000 during the decade through excess of immigration over emigration. The two estimates taken together would indicate, therefore, a probable population of 105,800,000, or only a small fraction of 1 per cent more than the total shown by the returns of the fourteenth census.

The figures of the 1920 census also show that the trend of population from the country to the city has become greatly accentuated since 1910 and that, for the first time in the country's history, more than half the entire population is now living in urban territory as defined by the census bureau. That is to say, of the 105,683,108 persons enumerated in the fourteenth census preliminary tabulations show that 54,816,209, or 51.9 per cent, are living in incorporated places of 2,500 inhabitants or more and 50,866,899, or 48.1 per cent in rural territory. At the census of 1910 the corresponding percentages were 46.3 and 53.7, respectively, showing a loss of 5.6 per cent in the proportion for the population living in rural territory. To show more clearly the change in the proportion of the population living in rural territory now as compared with ten years ago, the rural population can be divided into two classes—namely, 9,864,196, or 9.3 per cent of the total population, living in incorporated places of less than 2,500 inhabitants and 41,002,703, or 38.8 per cent of the total population, living in what may be called purely country districts. At the census of 1910 the population living in incorporated places of less than 2,500 inhabitants formed 8.8 per cent, while the population living in purely country districts formed 44.8 per cent of the total population.

The increase since 1910 in the population as a whole, as before stated, was 14.9 per cent, but during the decade there has been an increase in that portion of the population living in urban territory of 12,192,826, or 28.6 per cent, and in that portion living in rural territory of 1,518,016, or only 3.1 per cent; and if the comparison is extended to cover the two classes of rural territory, it appears that that portion living in incorporated places of less than 2,500 inhabitants shows an increase of 1,745,371, or 21.5 per cent, whereas that portion living in purely country districts shows an actual decrease of 227,355, or six-tenths of 1 per cent.

The percentages of increase shown for the several states vary greatly, due in part to the causes which have been noted as affecting the increase in the population of the country as a whole, but also in part to the abnormal internal movement of population required to meet the excessive demands of the war work in certain sections. For three states—Mississippi, Nevada and Vermont—there have been small decreases in population, the largest decrease being for Nevada, 5.5 per cent.

POPULATION OF THE UNITED STATES (JAN. 1, 1920).

DISTRIBUTION BY GEOGRAPHIC DIVISIONS—1850-1910.

Per cent of total population of continental United States in each of the nine divisions:

Division.	1910.	1900.	1890.	1850.
New England	7.4	7.4	7.5	11.8
Middle Atlantic	21.0	20.3	20.2	25.4
East North Central	19.8	21.0	21.4	19.5
West North Central	12.7	13.6	14.2	3.8
South Atlantic	13.3	13.7	14.1	20.2
East South Central	9.1	9.9	10.2	14.5
West South Central	9.6	8.6	7.5	4.1
Mountain	2.9	2.2	1.9	0.3
Pacific	4.6	3.2	3.0	0.5

Including the population of the Philippines and other possessions, the population living under the American flag in 1910 was as follows:

United States	93,402,151
Philippines (1903)	7,635,426
Guam, estimated	9,000
Samoa, estimated	6,100
Panama Canal Zone, estimated	50,000
Total	101,102,677

DECENNIAL INCREASE OF POPULATION.

Continental United States.

Census.	Population.	Increase.	Per cent.
1920	105,708,771	13,736,505	14.9
1910	91,972,266	15,977,691	21.0
1900	75,994,575	13,046,861	20.7
1890	62,947,714	12,791,931	25.5
1880	50,155,783	11,597,412	30.1
1870	38,558,371	7,115,050	22.6
1860	31,443,321	8,251,445	35.6
1850	23,191,876	6,122,423	35.9
1840	17,069,453	4,203,433	32.7
1830	12,866,020	3,227,567	33.5
1820	9,638,453	2,398,572	33.1
1810	7,239,881	1,931,398	36.4
1800	5,308,483	1,379,269	35.1
1790	3,929,214	....	....

UNITED STATES AND POSSESSIONS—1920.

In December, 1920, the census bureau officially announced the total population of the United States and possessions. In the following table the figures for continental United States and possessions, except the Philippines and Virgin islands, are for Jan. 1, 1920. Those for the Philippines are for Dec. 31, 1918, and those for the Virgin islands Nov. 1, 1917.

Continental United States	105,708,771
Alaska	54,899
Hawaii	255,912
Porto Rico	1,299,809
Guam	13,275
Philippines	10,350,640
Samoa	8,056
Virgin islands	26,051
Panama Canal Zone	22,858
Military and naval forces abroad	117,288
Total	117,857,509

POPULATION OF AMERICAN CITIES IN 1920.

PLACES WITH MORE THAN 100,000 INHABITANTS.

[From U. S. census reports. Figures subject to correction.]

*West Virginia formed part of Virginia until 1863.

The center of population, according to the bureau of the census, may be said to represent the center of gravity of the population. If the surface of the United States be considered as a rigid plane without weight, capable of sustaining the population distributed thereon, individuals being assumed to be of equal weight, and each, therefore, to exert a pressure on any supporting pivotal point directly proportional to his distance from the point, the pivotal point on which the plane balances would, of course, be its center of gravity, and this is the point referred to by the term "center of population" as used by the census bureau in its reports.

The median point, which may be described as the numerical center of population, is in no sense a center of gravity. In determining the median point distance is not taken into account, and the location of the units of population is considered only in relation to the intersecting median lines—as being north or south of the median parallel and east and west of the meridian.

The position of the center of population and its movement during each decade since 1790 are shown in the foregoing table.

MEDIAN LINES.

In connection with the definition of the median point another method of presenting facts with regard to the geographical distribution of the population has been noted, involving the location of median lines. A parallel of latitude is determined which evenly divides the population so that the population north of that parallel is the same as that south. Similarly, a meridian of longitude is determined which divides the population evenly as between east and west. In calculating these median lines it is necessary, in the case of the square degrees of latitude and longitude which are traversed by the lines themselves, to assume that the population is evenly distributed through these square degrees or to make an estimated adjustment where this is obviously not the case.

The eastern terminus of the median parallel, according to the census of 1910, is on the New Jersey coast near Seagirt. In its course west this line passes through central New Jersey, leaving the state near Burlington and entering Pennsylvania a few miles north of Philadelphia, thence passing through Norristown and continuing through southern Pennsylvania and across the northern extremity of West Virginia, leaving the latter state at a point a few miles north of Wheeling. It nearly bisects Ohio, Indiana and Illinois, crossing about ten miles north of Columbus, O.; twenty-five miles north of Indianapolis, Ind., and about twenty miles north of Springfield, Ill. Through Missouri it runs about thirty miles south of the Iowa and Missouri line, thence passing through Nebraska about ten miles north of its southern boundary, and across the northern part of Colorado, passing about five miles north of Boulder City. Its location in Utah is about forty-five miles south of Salt Lake City. There are no large towns near its course across the northern part of Nevada and California. The western terminus of the median parallel is on the Pacific coast, in Humboldt county, California, about five miles north of Point Delgada and twenty miles south of Cape Mendocino, the point of continental United States extending farthest west.

The median meridian starts at Whitefish point, on the northern peninsula of Michigan, near the eastern end of Lake Superior, thence passing south about twenty-five miles west of Lansing and through Indiana about ten miles west of the Indiana-Ohio boundary and twenty-five miles west of Cincinnati. South of the Ohio river it bisects Kentucky, crosses eastern Tennessee and leaves that state twenty miles east of Chattanooga. Through Georgia it passes close to the Georgia-Alabama line, about two miles west of Columbus, Ga., leaving the state near the intersection of the Alabama, Georgia and Florida boundary lines. It then crosses the northwestern part of Florida and terminates in the Gulf of Mexico at the city of Apalachicola. The following table shows the movement of the median lines from 1880 to 1910, inclusive:

Census year.	Median parallel, north latitude. D.	M.	S.	Median meridian, west longitude. D.	M.	S.	Movement in miles, Median parallel, north'rd.	Median meridian westward
1880....	39	57	00	84	7	12	...	.....
1890....	40	2	51	84	40	1	6.6	27.0
1900....	40	4	22	84	51	29	2.4	10.8
1910....	40	6	24	84	59	59	2.3	7.5

MEDIAN POINT.

The exact location of the median point is indicated by the median lines already shown; in the following table its approximate location with reference to certain towns is described:

Approximate Location by Important Towns.

1880, 16 miles nearly due west of Springfield, O.
1890, 5 miles southwest of Greenville, O.
1900, In Spartanburg, Ind.
1910, 3 miles south of Winchester, Ind.

1883	March 25	1917	April 8		

The earliest date on which Easter Sunday has fallen within a century was March 22, 1818. As will be seen from the above table, it fell on March 23 in 1856 and 1913. The time of the celebration of the principal church days which depend upon Easter is as follows:

Days.	Before Easter.
Septuagesima Sunday	9 weeks
First Sunday in Lent	6 weeks
Ash Wednesday (beginning of Lent)	46 days
Palm Sunday	8 days
	After Easter.
Rogation Sunday	5 weeks
Ascension Day (Holy Thursday)	40 days
Pentecost (Whitsunday)	7 weeks
Trinity Sunday	8 weeks

NORTH DAKOTA BANK FAILURES.

Up to Dec. 6, 1920, twenty-two state banks and one national bank in North Dakota had closed their doors in the course of the year, most of them in the last two or three months. O. E. Lofthus, the state bank examiner, in a statement made on the date named, explained that the failures were due to heavy withdrawals of deposits caused by the farmers who had combined to hold their wheat for $2.50 a bushel.

"In my opinion the financial situation will not be relieved until the farmers begin to sell grain," Mr. Lofthus said. "Only when the farmer begins to liquidate his debts will the banks be able to meet their obligations. The constant drain on the banks, created by the refusal of the farmers to sell, is depleting their reserves, necessitating the closing of the banks."

State.	Total Population.	Born in state.	Born in other states.	Foreign born.
Oregon	672,765	33.5	49.0	16.8
Pennsylvania	7,665,111	73.6	7.4	18.8
Rhode Island	542,610	49.2	17.5	33.0
South Carolina	1,515,400	94.4	5.1	0.4
South Dakota	583,888	38.6	43.6	17.3
Tennessee	2,184,789	85.7	13.1	0.9
Texas	3,896,542	70.1	23.3	6.2
Utah	373,351	65.1	16.2	17.6
Vermont	255,956	70.4	14.7	14.0
Virginia	2,061,612	89.4	9.2	1.3
Washington	1,141,990	23.0	53.3	22.4
West Virginia	1,221,119	76.2	18.8	4.7
Wisconsin	2,333,860	66.8	11.0	22.0
Wyoming	145,965	21.8	57.7	19.9
United States	91,972,266	66.5	18.4	14.7

NOTE—The total population includes persons born in the United States, state of birth not reported, persons born in outlying possessions or at sea under the United States flag, and American citizens born abroad. Their combined number was only 360,961, or 0.4 per cent of the total population.

MOTHER TONGUE OF FOREIGN WHITE STOCK (1910).

In the following tables, prepared by the federal census bureau, the foreign white stock referred to is the aggregate white population of the United States which is foreign either by birth or by parentage. It embraces all foreign born whites and all native whites having one or both parents foreign born. It must be remembered that the foreign stock as here defined only includes the first and second generations—immigrants and native children of immigrants—and does not include the grandchildren or great-grandchildren of immigrants. In other words, the figures do not include the exact relative importance of the several ethnic stocks in the total population.

The eight major mother-tongue stocks in the United States, arranged in the order of their importance, are shown in the following table:

Mother tongue.	Number.	†Per cent.
English and Celtic*	10,037,420	31.1
German	8,317,271	27.3
Italian	2,151,422	6.7
Polish	1,707,640	5.2
Yiddish and Hebrew	1,676,762	5.2
Swedish	1,445,869	4.5
French	1,357,169	4.2
Norwegian	1,009,854	3.1
Total eight mother tongues	28,203,407	87.5
Other mother tongues	4,039,975	12.5
All mother tongues	32,243,382	100.0

*Includes persons reporting Irish, Scotch or Welsh. †Per cent of distribution.

NOTE—In the above table Celtic includes Irish, Scotch and Welsh; Dutch includes Frisian; Bohemian includes Moravian; Lithuanian includes Lettish.

URBAN AND RURAL POPULATION.

The census bureau classifies as urban population that residing in cities and other incorporated places of 2,500 inhabitants or more. The proportion of the total population of continental United States living in urban and rural territory at the censuses of 1910 and 1900 was as follows:

	1910.		1900.	
	Population.	Pr.ct.	Population.	Pr.ct.
Urban	42,623,383	46.3	30,797,185	40.5
Rural	49,348,883	53.7	45,197,390	59.5
Total	91,972,266	100.0	75,994,575	100.0

In 1890 the per cent of urban population was 36.1 and of the rural 63.9; in 1880 the urban was 29.5 and the rural 70.5.

By geographic divisions the per cent of urban and rural population in 1910 was as follows:

Division.	Total.	Urban.	Rural.
New England	7.1	12.8	2.2
Middle Atlantic	21.0	32.2	11.3
East North Central	19.8	22.6	17.5
West North Central	12.7	9.1	15.7
South Atlantic	13.3	7.3	18.4
East South Central	9.1	3.7	13.9
West South Central	9.6	4.6	13.8
Mountain	2.9	2.2	3.4
Pacific	4.6	5.6	3.7
Total	100.0	100.0	100.0

By states the urban and rural population in 1910 was as follows:

State.	Urban.	Rural.	Per cent. Urban.	Rural.
Maine	381,443	360,928	51.4	48.6
New Hampshire	255,099	175,473	59.2	40.8
Vermont	168,943	187,013	47.5	52.5
Massachusetts	3,125,367	241,049	92.8	7.2
Rhode Island	524,654	17,956	96.7	3.3
Connecticut	999,839	114,917	89.7	10.3
New York	7,185,494	1,928,120	78.8	21.2
New Jersey	1,907,210	629,957	75.2	24.8
Pennsylvania	4,630,669	3,034,442	60.4	39.6
Ohio	2,665,143	2,101,978	55.9	44.1
Indiana	1,143,835	1,557,041	42.4	57.6

United States	42,623,383	42,348,883	46.3	53.7

INCREASE IN URBAN AND RURAL POPULATION.

Comparing the rate of growth in urban and rural communities, it is shown by the census bureau that during the period between the census of 1900 and that of 1910 the increase in urban population in continental United States was 11,013,738, or 34.8 per cent, while the increase in rural population was 4,963,953, or 11.2 per cent. There had been an increase in urban population in every state, while in six states there had been an actual decrease in rural population. These states were: New Hampshire, 5.4 per cent; Vermont, 4.2 per cent; Ohio, 1.2 per cent; Indiana, 5.1 per cent; Iowa, 7.2 per cent; Missouri, 5.1 per cent.

EUGENE V. DEBS SERVING PRISON SENTENCE.

Eugene V. Debs, five times socialist candidate for the presidency of the United States, was arrested in Cleveland, O., June 20, 1918, by United States Marshal Charles W. Lapp and Deputy Marshal Charles Boehme as he was about to deliver a socialist address. The arrest was made on a federal warrant in connection with Debs' speech at the socialist state convention in Canton, O., on June 16. He was brought to trial and on Sept. 12 was found guilty by a federal jury. Of the original ten counts of the indictment only four remained when the jury retired to consider the evidence. He was found guilty of attempting to incite insubordination, disloyalty, etc., in the military and naval forces; attempting to obstruct recruiting and uttering language tending to incite, provoke and encourage resistance to the United States and to promote the cause of the enemy. The count on which he was adjudged innocent charged that he opposed the cause of the United States.

On Sept. 14 Debs was sentenced to ten years in the Moundsville (W. Va.) penitentiary on each of three counts of the indictment by Federal Judge D. C. Westenhaver. The sentences will run concurrently. Motion for a new trial was overruled and an exception on behalf of the defendant was allowed. A motion for arrest of the sentence was also overruled. The court admitted Debs to $10,000 bail, with permission to leave the northern federal district of Ohio only to go to and remain at his home.

The case was carried to the United States Supreme court, which on March 10, 1919, sustained the conviction and sentence by the lower court. The constitutionality of the espionage act itself was not passed upon, but the members of the court were unanimous in holding the enlistment section valid and in declaring that the act did not interfere with the right of free speech.

Mr. Debs asked for a rehearing by the Supreme court on March 27, but his petition was denied March 31. When informed of the fact Mr. Debs said that on May 1 a series of strikes would begin and that the miners in Indiana, his own state, would dig no more coal until he was released from the penitentiary. The strikes, however, did not occur. Mr. Debs began serving his sentence in the West Virginia penitentiary at Moundsville, April 13, 1919. He was later transferred to the penitentiary at Atlanta, Ga.

AREA OF THE UNITED STATES IN SQUARE MILES (1910).

Arranged according to rank in gross area.

State.	Rank.	Gross.	Land.	Water.*

DWELLINGS AND FAMILIES IN THE UNITED STATES (1910).

In census usage a "dwelling" is any building in which one or more persons reside. A mere cabin, or room in a warehouse, occupied by a single person, is a census dwelling, while, on the other hand, an apartment house containing many families constitutes only one dwelling. Only occupied dwellings are included in the following tables. The term "family" as used in census reports means a household or group of persons, whether related by blood or not, who share a common abode, usually also sharing the same table. If one person lives alone he constitutes a family, while, on the other hand, those who dwell in a hotel or institution in which many people live are also treated as forming a single family. There is, however, no considerable difference between the average size of all families under the census usage and the average size of what are commonly termed families or households in popular speech. In 1900 the difference for the United States as a whole was only 0.1 per cent.

At each census from 1850 to 1910 a decrease was shown in the average number of persons per dwelling and the average number per family. The decrease in the average number per dwelling has been due to the decrease in the average per family, the influence of which has been partly offset by the increased construction of tenements and other dwellings containing more than one family.

In 1910 there were 7,254,242 dwellings and 9,499,765 families in urban communities, while there were 10,551,603 dwellings and 10,755,790 families in rural communities. For urban communities the number of persons to a dwelling averaged 5.9 and to a family 4.5; for rural communities the number of persons to a dwelling averaged 4.7 and to a family 4.6.

DEFECTIVE PAUPERS IN ALMSHOUSES.

Enumerated Jan. 1, 1910	
Total number	53,619
Male	34,650
Female	18,969
Insane	2,857
Feeble-minded	9,813
Epileptic	1,289
Deaf mute	540
Blind	2,427
Crippled	10,823
Old and infirm	14,066
Bedridden	1,591
Paralytic	3,402
Two or more defects	6,811

Admitted in 1910.

Total number	32,519
Male	24,098
Female	8,421
Insane	1,681
Feeble-minded	3,601
Epileptic	646
Deaf mute	152
Blind	835
Crippled	9,033
Old and infirm	9,772
Bedridden	4,960
Two or more defects	1,839

AGE OF PAUPERS IN ALMSHOUSES.

Enumerated Jan. 1, 1910.

Under 5 years	1,186	50 to 54 years	7,113
5 to 14 years	1,184	55 to 59 years	8,312
15 to 24 years	2,514	60 to 64 years	10,089
25 to 29 years	2,058	65 to 69 years	10,357
30 to 34 years	2,396	70 to 74 years	9,743
35 to 39 years	3,337	75 to 79 years	7,720
40 to 44 years	4,203	80 or more years	8,123
45 to 49 years	5,188	Age unknown	675

Admitted in 1910.

Under 5 years	3,459	50 to 54 years	7,953
5 to 14 years	2,651	55 to 59 years	7,691
15 to 24 years	7,350	60 to 64 years	8,484
25 to 29 years	4,835	65 to 69 years	7,446
30 to 34 years	4,850	70 to 74 years	6,202
35 to 39 years	5,666	75 to 79 years	3,986
40 to 44 years	5,883	80 years or more	3,365
45 to 49 years	6,579	Age unknown	1,923

ILLITERACY IN THE UNITED STATES (1910).

The following statistics, except where otherwise specified, relate only to persons 10 years of age or over. The bureau of the census classifies as illiterate all persons 10 years of age or over who are unable to write, regardless of their ability to read.

PERCENTAGE OF ILLITERACY.

The following table shows the total population 10 years of age and over and the number and percentage of illiterate by color or race, nativity and parentage:

Class.	Population.	Illiterate.	Pct.
White	63,933,870	3,184,633	5.0
Native	50,989,341	1,534,272	3.0
Native parentage	37,081,278	1,378,884	3.7
Foreign or mixed parentage	13,908,063	155,388	1.1
Foreign born	12,944,529	1,650,361	12.7
Negro	7,317,922	2,227,731	30.4
Indian	188,758	85,445	45.3
Chinese	68,924	10,891	15.8
Japanese	67,661	6,213	9.2
All other	3,135	1,250	39.9
United States	71,580,270	5,516,163	7.7

The corresponding percentages of illiterates at three previous censuses were: 1880, 17.0; 1890, 13.3; 1900, 10.7.

ILLITERACY BY SEX.

Class.	Male. Illiterate.	Male. Pct.	Female. Illiterate.	Female. Pct.
White	1,662,505	5.0	1,522,128	4.9
Native	796,055	3.1	738,217	2.9
Native parentage	715,926	3.8	662,958	3.7
Foreign or mixed parentage	80,129	1.2	75,259	1.1
Foreign born	866,450	11.8	783,911	13.9
Negro	1,096,000	30.1	1,131,731	30.7
Indian	40,104	41.5	45,341	49.2
Chinese	9,849	15.0	1,042	30.2
Japanese	5,247	8.6	966	14.1
All other	1,245	40.5	5	....
United States	2,814,950	7.6	2,701,213	7.8

URBAN AND RURAL ILLITERACY.

(Per Cent.)

Class.	Total.	Urban.	Rural.
White	5.0	4.2	5.8
Native	3.0	0.8	4.8
Native parentage	3.7	0.9	5.4
For. or mixed parentage	1.1	0.7	1.9
Foreign born	12.7	12.6	13.2
Negro	30.4	17.6	36.1
All other	31.6	11.0	40.1

PERCENTAGE ILLITERATES BY SECTIONS.

Section.	1910.	1900.
New England	5.3	6.0

*Per 100,000 of general population.

Number of blind per 100,000 general population of the same race and nativity in 1900: White, 58.2; native white, 55; foreign born white, 74.5; colored, 94.6; negro, 90; Indian, 302.6; Chinese, Japanese, etc., 23.2.

BLIND IN OTHER COUNTRIES.

Some of the foreign countries in which the number of blind per 100,000 of general population is high are:

Bahamas (1901)	251.2
Danish Antilles (1901)	278.4
Jamaica (1911)	209.3
St. Lucia (1901)	244.6
Cyprus (1901)	730.3
Malta and Gozo	201.2
Russia (European, 1897)	201.6
Formosa (1905)	515.7
Philippines (1903)	226.3
Egypt (1907)	1,325.1
Uganda (1911)	317.7

Number of blind in the leading countries of Europe per 100,000 of general population:

Austria (1910)	69.4
Belgium (1910)	43.5
Bulgaria (1905)	132.4
Denmark (1911)	52.7
England-Wales (1911)	73.0
Finland (1900)	119.0
France (1901)	70.6
Germany (1900)	60.9
Hungary (1900)	100.6
Ireland (1911)	98.2
Italy (1901)	117.5
Netherlands (1909)	46.3
Norway (1910)	92.6
Portugal (1911)	132.8
Roumania (1899)	83.4
Russia (1897)	201.6
Scotland (1911)	69.7
Serbia (1900)	94.1
Sweden (1900)	66.4
Switzerland (1896)	72.2

DEAF AND DUMB IN THE UNITED STATES (1910).

[From census bureau report, 1915.]

U. S. MINT IN CHICAGO PROPOSED.

In his annual report made public Dec. 8, 1920, Secretary of the Treasury David F. Houston said:

"It is recommended that the congress consider the advisability of establishing a coinage mint in Chicago. A mint in that city would better adjust the facilities of coinage to present business conditions in the country; assist in meeting the demands for coinage, particularly in the middle west and south; facilitate distribution of coins to those points; reduce the expense of shipping, the cost of which is now burdensome to the government and to banks by reason of the remoteness of existing mints from new business centers, and relax the present excessive pressure on the existing mints. It is physically impossible to extend to present business conditions the facilities that were provided fifteen years ago. The process of exchanging the output of the present mints has reached the utmost limits of safety. Should congress authorize the establishment of a mint at Chicago the business interests of the entire country would be served. It is further suggested that the vaults of a mint at Chicago could be used for the storage of government funds."

POPULATION OF AMERICAN CITIES IN 1920.

A minus sign (—) denotes decrease. Asterisk (*) signifies incorporation since 1910.

City.	Population.	Increase. Number.	Pct.
